

COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 12.02.1999
COM(1999)2 final

Proposal for a
COUNCIL REGULATION (EC)

providing for duty-free treatment for specified pharmaceutical active ingredients bearing an international non-proprietary name (INN) from the World Health Organisation and specified products used for the manufacture of finished pharmaceutical products

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. Pursuant to the conclusions reached in Uruguay Round Record of Discussions (L/4740 of 25 March 1994) on duty-free treatment for pharmaceutical products, the Commission has participated in the second review of the product coverage to include, by consensus, additional products for duty-free treatment.
2. The outcome of the review is that 272 pharmaceutical active ingredients bearing an "international nonproprietary name" (INN) from the World Health Organisation and 363 products used for the manufacture of finished pharmaceuticals should be added to the list of products already receiving duty-free treatment and also that the list of specified prefixes and suffixes for salts and esters of INNs should be expanded by five names.
3. The Commission proposes in line with other countries granting duty-free treatment for these additional products that the duty-free treatment shall commence from 1 July 1999.
4. For these reasons the Commission proposes that the Council adopt the Regulation contained in the Annex to this Communication.

Proposal for a
COUNCIL REGULATION (EC)

providing for duty-free treatment for specified pharmaceutical active ingredients bearing an international non-proprietary name (INN) from the World Health Organisation and specified products used for the manufacture of finished pharmaceutical products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission¹,

- (1) Whereas, in the course of the Uruguay Round negotiations, the Community and a number of countries discussed duty-free treatment of pharmaceutical products;
- (2) Whereas the participants in those discussions concluded that, in addition to products falling within the Harmonised System (HS) Chapter 30 and HS Headings 2936, 2937, 2939 and 2941, duty-free treatment should be given to designated pharmaceutical active ingredients bearing an international non-proprietary name (INN) from the World Health Organisation, as well as specified salts, esters and hydrates of such products, and also to designated products used for the production and manufacture of finished pharmaceutical products;
- (3) Whereas the results of the discussions, as set out in the Record of Discussions, were incorporated into the tariff schedules of the participants annexed to the Marrakesh Protocol to GATT 1994;
- (4) Whereas they also concluded that representatives of the WTO members party to the Record of Discussions would meet under the auspices of the Council for Trade in Goods of the WTO, normally at least once every three years - to review the product coverage with a view to including, by consensus, additional pharmaceutical products for tariff elimination;
- (5) Whereas the second such review has taken place with the conclusion that additional INNs and products used for production and manufacture of finished pharmaceutical products should be granted duty-free treatment and that the list of specified prefixes and suffixes for salts and esters of INNs should be expanded,

HAS ADOPTED THIS REGULATION:

Article 1

From 1 July 1999 the Community shall accord duty-free treatment for the INNs listed in Annex I as well as the salts, esters and hydrates of such products.

¹ OJ C

Article 2

From 1 July 1999 the Community shall accord duty-free treatment for the products used in the production and manufacture of finished pharmaceutical products listed in Annex II.

Article 3

From 1 July 1999 the specified prefixes and suffixes of INNs eligible for duty-free treatment shall include those listed in Annex III.

Article 4

This Regulation shall enter into force on the seventh day following that of its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council

The President

ANNEX I

Additional INNs to receive duty-free treatment

ANNEX II

Additional pharmaceutical intermediates, i.e. compounds used for the manufacture of finished pharmaceutical products, to receive duty-free treatment

ANNEX III

Additions to the list of prefixes and suffixes which, in combination with the INNs, describe salts, esters or hydrates of INNs

Additional INNs to receive duty-free treatment

FINANCIAL STATEMENT

Section 1. Financial Implications

1. Proposal for a Council Regulation providing duty-free treatment for 639 pharmaceutical products.
2. Budget heading: (loss of revenue: not known)
3. Legal basis: Article 113
4. Description

The proposal regulation is a consequence of the agreement reached in the Uruguay Round to undertake a periodic review of the agreement with a view to including, by consensus, additional products for duty-free treatment.

5. Type of revenue: Loss of revenue for duties paid on third country imports.
6. Change in level of revenue:

No import statistics are available for these very specific pharmaceutical products, some of which may not yet be traded or only exported. However, assuming that Community imports for each product would average EUR 100.000 the elimination of the maximum duty of 6.5% would involve a duty loss of EUR 4 million with a proportionally higher figure if more imports were involved. The Community is a net exporter of pharmaceutical products (EU exports in 1997 were EUR 20.393 million compared to EUR 10.176 million imports)
