

COM(73) 1850 final ANNEXES

Brussels, 16 November 1973

THE AGRICULTURAL SITUATION

IN THE ENLARGED EUROPEAN

COMMUNITY*

Report for 1973

PART III

*Because the time left for drawing up this part was too short, it has not always been possible to check that the statistics supplied by the SOEC tally with those supplied by the DG for Agriculture.

CONTENTS

of the statistical tables and numerical data

Part I: Synthesis

	<u>Page</u>	<u>Table No</u>
1. General economic environment	1	I/1.1 - I/1.2
2. Relative importance of the agricultural sector	3	I/2.1 - I/2.2
3. Final production and added value	5	I/3.1 - I/3.5
4. Production	13	I/4.1 - I/4.2
5. Productivity	15	I/5.1
6. Demand for foodstuffs	16	I/6.1 - I/6.2
7. Prices	19	I/7.1 - I/7.11
8. Trade and degree of self-sufficiency	35	I/8.1 and - II.A/3.3
9. Principal markets for agricultural products		} II.B/1.1 - II.B/20.1.5 } II.C/1.1 - II.C/3.5 } II.D/1.1 - II.D/3.10 } II.E/1.1 - II.E/3.3
10. Agricultural structures	see	
11. Income from agriculture		
12. Financial aspects		
13. Short-term outlook	36	

Part II: Analysis

A. Overall trade

1. Trade between the Community (EEC-6) and non-member countries	38	II.A/1.1 - II.A/1.6
2. Trade between Member States	46	II.A/2.1 - II.A/2.2
3. The development of trade within the enlarged Community	48	II.A/3.1 - II.A/3.3

B. Agricultural markets

Market studies

1. Cereals	51	II.B/1.1 - II.B/1.13
2. Rice	68	II.B/2.1 - II.B/2.8
3. Sugar	76	II.B/3.1 - II.B/3.8
4. Olive oil	84	II.B/4.1 - II.B/4.8
5. Oilseeds	92	II.B/5.1 - II.B/5.8
6. Cotton seed	100	II.B/6.1

7. Flax and hemp	101	II.B/7.1 - II.B/7.6
8. Seed	107	II.B/8.1 - II.B/8.3
9. Wine	110	II.B/9.1 - II.B/4.5
10. Raw tobacco	117	II.B/10.1 - II.B/10.4
11. Fruit and vegetables	121	II.B/11.1 - II.B/11.15
12. Hops	136	II.B/12.1 - II.B/12.2
13. Milk	138	II.B/13.1 - II.B/13.10
14. Beef and veal	148	II.B/14.1 - II.B/14.12
15. Pigmeat	160	II.B/15.1 - II.B/15.8
16. Eggs	168	II.B/16.1 - II.B/16.7
17. Poultrymeat	175	II.B/17.1 - II.B/17.6
18. Fisheries	181	II.B/18.1 - II.B/18.10
19. Silkworms	198	II.B/19.1
20. Products not subject to common organizations		
a. Alcohol	199	II.B/20.a.1
b. Potatoes	200	II/B.20.b.1 - II.B/20.b.3
c. Mutton and lamb	203	II.B/20.c.1 - II.B/20.c.5
Consolidated supply situation		
21. Meats	208	II.B/21.1 - II.B/21.4
22. Fats and oils	213	II.B/22.1 - II.B/22.4
C. Structures		
1. Agriculture	216	II.C/1.1 - II.C/1.17
2. Forestry	230	II.C/2.1 - II.C/2.3
3. Fisheries	233	II.C/3.1 - II.C/3.5
D. Agricultural revenue		
1. Macro-economic data on farm incomes	240	II.D/1.1 - II.D/1.4
2. Farm incomes at regional level	244	II.D/2.1 - II.D/2.2
3. Incomes and agricultural exports	246	II.D/3.1 - II.D/3.10
E. Financial aspects of the common agricultural policy and the national policies		
1. Expenditure by the Guarantee Section of the EAGGF	158	II.E/1.1 - II.E/1.5
2. Expenditure by the Guidance Section of the EAGGF	264	II.E/2.1 - II.E/2.2
3. Total expenditure	266	II.E/3.1 - II.E/3.3

NOTICE TO THE READER

Because of reprographic difficulties in the presentation of these tables, the decimal point appears as a comma, and the point is used where English practice would require a comma. This saves retyping the figures, which were initially prepared in accordance with Continental practice in the matter.

TABLES - PART I - SYNTHESIS

Table 1/1.1 Annual rate of variation in gross domestic product (volume, price and value)
(1969-1973)
in %

Member State	1969			1970			1971			1972			1973 (2)		
	volume	price	value	volume	price	value	volume	price	value	volume	price	value	volume	price	value
Germany	8,2	3,6	12,1	5,9	7,1	13,4	2,6	7,8	10,6	2,9	6,1	9,2	6,2	6,5	13,2
France	7,7	6,7	14,9	6,0	5,5	11,8	5,5	5,4	11,2	5,4	5,7	11,4	6,2	6,6	13,2
Italy	5,6	4,2	10,0	5,0	6,7	12,1	1,6	6,6	8,3	3,2	5,9	9,3	5,2	9,4	15,1
Netherlands	7,0	5,9	13,3	7,2	5,3	12,9	4,0	8,7	13,1	4,2	9,4	14,1	4,8	7,8	13,0
Belgium	6,6	4,2	11,1	6,6	4,6	11,6	3,4	5,7	9,3	4,9	6,9	12,1	5,8	6,7	12,2
Luxembourg	7,8	7,3	15,3	3,4	11,2	15,1	0,7	1,5	2,2	3,5	5,9	8,7	6,8	11,0	18,5
EEC-6 (1)	7,4	4,9	12,6	5,9	6,2	12,5	3,5	6,7	10,4	3,9	6,2	10,3	5,9	7,2	13,2
United Kingdom	1,1	5,7	6,8	1,9	7,2	9,2	2,4	8,7	11,3	2,5	6,2	8,9	6,8	6,7	14,9
Ireland	5,3	8,8	14,5	2,9	8,5	11,7	3,8	10,7	14,8	3,0	13,2	16,6	5,5	10,8	17,0
Denmark	8,8	5,2	14,4	3,0	7,5	10,8	4,1	5,6	9,9	4,7	8,4	13,5	5,5	9,0	15,0
EEC-9 (1)	6,0	5,1	11,3	4,9	6,5	11,7	3,3	7,1	10,7	3,6	6,1	10,0	6,0	7,3	13,7

(1) The rates of variation for the Community are calculated on the basis of absolute data converted into units of account by means of fixed exchange rates so they represent weighted averages of the growths shown for each country.

(2) Forecast.

Table I/1.2 - Annual rate of increase in remuneration of persons in paid employment, per capita, and at current prices

(1969-1973)

Member State	Income per person employed in 1971 in ua	in %					
		1969	1970	1971	1972 (prev.)	1973 (2)	
Germany	4.849	9,7	15,0	12,6	10,0	12,9	
France	4.689	12,0	10,1	10,1	10,4	10,7	
Italy	3.730	7,6	15,5	14,3	10,7	17,0	
Netherlands	5.137	13,2	11,7	13,4	12,7	13,7	
Belgium	4.658	8,5	9,7	11,7	14,5	13,5	
Luxembourg	5.266	6,2	12,1	(9,5)	10,5	11,5	
EEC-6 (1)	4.560	10,3	13,0	12,1	10,6	13,8	
United Kingdom	3.519	7,0	12,6	13,0	12,2	11,7	
Ireland	3.068	12,0	14,9	13,3	15,3	15,3	
Denmark	4.290 (3)	12,1	11,0	.	13,0	13,5	
EEC-9 (1)	4.271	9,5	12,9	12,3	11,1	12,9	

(1) Calculated at current exchange rates. For rates of variation see footnote (1) of the preceding table (I/1.1).

(2) Forecast.

(3) 1970.

Table 1/2.1

Role of the agriculture, forestry and fisheries sector in gross domestic product at factor cost in overall employment, in total gross fixed capital formation and in the value of exports

(1969-1972)

in %

Aggregates	Year	Germany	France	Italy	Nether-lands	Belgium	Luxem-bourg	EEC-6	United Kingdom	Ireland	Denmark	EEC-9
A. <u>Gross domestic product at factor cost at current prices</u>	1969	4,2	6,8	11,1	6,9	5,0	4,9	6,6	3,0	17,4	8,8	6,0
	1970	3,7	6,8	10,2	6,2	4,1	4,4	6,1	2,9	16,9	7,7	5,6
	1971	3,5	6,4	9,8	5,6	4,0	.	5,8	2,9	16,4	7,5	5,3
	1972 p	3,4	6,7	9,2	5,7	4,3	.	5,7	2,8	18,3	7,7	5,3
B. <u>Employment</u>	1969	9,6	14,9	21,5	7,5	5,2	11,6	13,8	2,9	28,5	12,0	11,2
	1970	9,0	14,2	19,6	7,2	4,8	10,8	12,9	2,8	27,5	11,5	10,5
	1971	8,4	13,5	19,5	7,0	4,4	10,2	12,8	2,7 (3,7)(3)	26,5	10,9	10,2
	1972	7,5	12,6	17,5	6,8	4,1	9,3	11,2	(3,3)(3)	24,1	9,7	9,4
C. <u>Gross fixed capital formation at current prices</u>	1969	.	5,0	7,3	4,0	2,4	.	.	2,6	11,1	4,9(2)	.
	1970	.	4,6	7,0	4,1	2,2	.	.	2,6	10,5	4,9(2)	.
	1971	.	4,4	6,9	3,3	1,8	.	.	2,8	9,7	.	.
	1972	.	4,2	6,9	3,4	2,3	.	.	3,1	.	.	.
D. <u>Exports (1)</u>	1969	3,9	20,0	9,6	28,0	10,1	10,1	8,1
	1970	4,1	17,9	9,4	27,9	10,0	10,0	8,2
	1971	4,4	19,5	8,9	26,4	10,4	10,4	8,2
	1972	4,6	20,5	9,8	25,4	11,2	11,2	8,2

(1) The percentages per country relate to total exports: those of the Community of Six to exports to non-member countries (including the new Member States). All figures relate to the ratio between the value of exports of agricultural products and foodstuffs (food, beverages and tobacco, hides and skins, seeds, nuts, almond oil, rubber, timber and cork, natural textile fibres, animal and vegetable substances, fats and oils of animal or vegetable origin) on the one hand, and the value of exports of all products (CST sections 0 to 9) on the other.

(2) Excluding forestry and fisheries

(3) Because of changes in the method of calculation, the figures for 1971 and 1972 are not comparable with those of previous years
 Source For sections A & C : SOEC and figures supplied by Member States; for section B : SOEC, Social Statistics 1972;
 for section D : SOEC, Foreign Trade: Monthly Statistics

Table I/2.2 - Annual rate of variation in agricultural employment
(including forestry and fisheries)

(1969-1972)

in %

Member State	1969/1968	1970/1969	1971/1970	1972/1971
Germany	- 3,7	- 5,5	- 7,1	- 7,1
France	- 3,2	- 3,7	- 3,8	- 4,0
Italy	- 5,5	- 8,6	- 0,7	- 8,1
Netherlands	- 3,4	- 2,9	- 2,4	- 1,6
Belgium	- 5,0	- 5,2	- 7,2	- 6,0
Luxembourg	- 3,0	- 4,3	- 3,9	- 3,3
EEC-6	- 4,3	- 6,1	- 3,4	- 6,3
United Kingdom	- 3,0	- 4,8	- 4,6 (1)	- 0,7 (1)
Ireland	- 3,2	- 5,0	- 3,5	- 2,2
Denmark	.	- 3,6	- 3,8	- 10,2
EEC-9	- 4,3	- 5,0	- 3,5	- 5,9

(1) Definition changed in 1971; the percentage for 1971 is not fully comparable with the figures for previous years.

Source : SOEC.

Table I/3.1 - Percentage shares of the various agricultural items in the agricultural output of the several Member States (a) and of the Community (b) at current prices and exchange rates

(Provisional data)
1972

in %

Products	Germany		France		Italy		Netherlands		Belgium		Luxembourg		EEC-6		Value of final production of Community of Six (in '000 000 ua)

(1) Marketing year 1970 = 1970/71; 1971 = 1971/72; 1972 = 1972/73 (June-May).

(2) Net value added at factor cost minus remuneration of paid workers.

(3) Net surplus on farm account minus cost of tenant farming, share-cropping and interest paid by the farmer.

(4) Net value added minus rent, cost of share-cropping and interest paid by farmer. This section thus gives some idea of the income obtained from farming, but is not fully comparable to the term "income from work" used by the Agricultural Accounting Information Network.

Table I/4.1 (cont'd) - Volume index of final individual production of some main products (1)

(1970-1972)

(1963 = 100)

Production	1970	1971	1972 (prov.)	Annual growth rate (as %)	
				1971 - 1972	"1967" - "1971"
A. Cereals, not including rice - Germany	96,16	144,06	125,53	- 12,9	+ 1,9
France	161,12	204,01	222,35	+ 9,0	+ 8,5
Italy	119,65	123,99	117,77	- 5,0	+ 1,1
Netherlands	98,07	110,22	97,51	- 11,5	- 3,2
Belgium	83,53	98,46	139,54	+ 41,7	+ 3,0
Luxembourg	59,29	95,83	98,08	+ 2,3	- 0,4
EEC - 6	126,44	155,14	155,59	+ 0,3	+ 4,3
B. Cattle and calves					
Germany	116,70	115,29	116,03	+ 0,6	+ 1,3
France	107,72	112,20	99,53	- 11,3	+ 0,3
Italy	140,61	140,72	133,84	- 4,9	- 1,0
Netherlands	135,97	134,39	142,65	+ 6,1	+ 3,4
Belgium	93,74	100,43	95,91	- 4,5	+ 3,5
Luxembourg	108,62	115,61	106,16	- 8,2	- 0,6
EEC - 6	115,90	117,90	111,51	- 5,4	+ 0,7
C. Milk					
Germany	108,46	105,30	107,43	+ 2,0	+ 0,1
France	117,95	120,19	128,84	+ 7,2	+ 1,1
Italy	118,77	120,76	128,27	+ 6,2	+ 0,6
Netherlands	120,98	123,44	131,70	+ 6,7	+ 3,5
Belgium	96,01	94,14	93,11	- 1,1	- 1,6
Luxembourg	118,48	119,73	127,34	+ 6,4	+ 2,4
EEC - 6	113,55	113,59	119,11	+ 4,9	+ 0,8
D. Pigs					
Germany	129,40	132,06	128,94	- 2,4	+ 3,4
France	106,07	115,39	103,95	- 9,9	- 0,1
Italy	138,16	146,40	160,54	+ 9,7	+ 4,3
Netherlands	185,38	200,00	212,45	+ 6,2	+ 8,7
Belgium	220,93	235,70	256,54	+ 8,8	+12,6
Luxembourg	84,80	88,55	77,97	- 11,9	- 5,0
EEC - 6	132,73	139,48	142,88	+ 2,4	+ 4,1
E. Eggs and Poultry					
Germany	164,85	166,55	145,17	- 12,8	- 4,5
France	134,97	134,80	144,07	+ 6,9	+ 4,1
Italy	180,68	184,52	200,15	+ 8,5	+ 5,2
Netherlands	129,19	123,80	129,19	+ 4,3	+ 5,5
Belgium	144,60	141,40	152,27	+ 12,6	+ 8,5
Luxembourg	91,25	91,88	85,00	- 7,5	- 1,0
EEC - 6	174,52	176,60	181,32	+ 2,7	+ 4,9

(1) "1967" : 1966-1967-1968 average; "1971" : 1970-1971 average.

(1) "1966": ø 1965/66/67; "1970": ø 1970/71/72.
 (2) 1972: final figures for Germany (FR) and the Benelux countries; provisional for other Member States.
 (3) Total production for both oil and preserving.
 (4) Different methods in different countries make any calculation of yield trends of dubious value. The 1972 production figures are definitive for Germany except for the other Member States.
 (5) Not significant.

Table 1/5.1 - Annual rates of variation in final production, gross value added, employment, agricultural land in use, and productivity increase in agriculture during the period "1967" (Ø 1966/67/68) to "1971" (Ø 1970/71/72) (1)

in %

Member State	Final production at 1963 prices and exchange rates	Gross value added at 1963 prices and exchange rates	Total employment in agriculture and fisheries	Utilized agricultural area (UAA)	Increase in labour productivity calculated on the basis of (2)		Increase in productivity per ha of UAA calculated on the basis of	
					final production	gross value added	final production	gross value added
Germany	+ 2,3	+ 2,2	- 6,6	- 0,4	+ 8,4	+ 8,2	+ 2,8	+ 2,6
France	+ 2,4	+ 0,9	- 3,7 (3)	- 0,5	+ 6,3	+ 4,8	+ 2,9	+ 1,5
Italy	+ 1,3	+ 0,6	- 5,6	- 1,7	+ 7,4	+ 6,6	+ 3,0	+ 2,3
Netherlands	+ 5,0	+ 4,0	- 3,0 (4)	- 1,1	+ 8,3	+ 7,2	+ 6,1	+ 5,1
Belgium	+ 4,5	+ 2,9	- 5,2	- 0,7	+ 10,2	+ 8,5	+ 5,2	+ 3,6
Luxembourg	+ 0,3	- 3,2	- 3,7	- 0,2	+ 4,1	+ 0,4	+ 0,5	- 3,0
EEC-6	+ 2,4	+ 1,4	- 4,9	- 0,8	+ 7,7	+ 6,6	+ 3,2	+ 2,2

(1) No figures available for the new Member States.

(2) In the absence of more complete statistical data, account has been taken of final production and gross value added in agriculture on the one hand and of total employment in agriculture, forestry and fisheries on the other.

(3) National concept

(4) Man - years.

3rd "	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•

(1) The index for prices of factors of production was calculated mainly on the basis of figures obtained from agricultural accounts, which cover implicit prices for intermediate consumption, the cost of machinery and trends in farm wages. The weighting for each country was based on the average absolute figures for intermediate consumption, depreciation and farm wages, in the period 1965 to 1972.

Footnotes 2, 3, 4, 5, 6, 7, 8 on following page.

(2) The quarterly indices cover the national indices of input prices, with 1970 = 100. These indices have not been harmonized at Community level, and include non-homogeneous elements. However, they provide valid information on trends in 1973 compared with 1972. They are not strictly comparable to the indices supplied by the original Member States for the period 1968 to 1972.

(3) Marketing year 1970 = 1970/71 etc...

(4) Incl. VAT.

(5) Excl. VAT.

(6) Price of all intermediate consumption; Source: Central Statistical Office, Annual Abstract of Statistics (tables pp. 230-231).

(7) These indices are not comparable to those supplied by the original Member States for the period 1968 to 1972; these non-homogeneous national figures cover input production, instead of factor prices (see footnote 1)

(8) Estimated on the basis of the increase in wages per farm worker.

Source: SOEC - Indices for factor prices calculated by the Commission's Directorate-General for Agriculture on the basis of figures supplied by the SOEC.

(1) Exchange rate at 15 February 1971 : 100 ua = 5.000 BF and LF = 366 DM = 555.419 FF = 362 Fl
62.500 Lit = 41.6667 £ = 750.00 Dkr

(2) Unit values for purchase by plots.

(3) France: Rent: 1964 survey, brought up to date by use of an indicator used in the national account (INSEE).

(4) Arithmetical mean calculated by the SOEC on the basis of rent paid for arable land in 13 areas.

(5) Land: weighted average of sales by auction and by private treaty.

(6) The last statistical survey of market values was made in 1967, and the last survey of rents in 1969. The Rural Economy Department of the Ministry of Agriculture estimates that the average price of land in 1971 and 1972 was 2600 ua/ha and the average rent 56 ua.

(7) Price of land for the period between 30 September 1972 and 31 March 1973 = 2254 ua/ha
Conacre rents ranged from 48 to 144 ua.

(8) Price of land in 1973 = 2847 ua/ha.

Silkworms	Aid per box of silk-seed														

General footnotes (1) - (5): see following page
Footnotes for each marketing year: see following page

Source : EC Commission, D-G for Agriculture

General Footnotes

- (1) Normally, the threshold prices for the various products are fixed after the general price fixing, as are the market and intervention target prices, aid for olive oil, the leaf tobacco bounty and the wine activation price.
- (2) A single intervention price, fixed after the general fixing of cereal prices, has been in operation since 1968/69 for maize and since 1972/73 for durum wheat and was introduced in 1973/74 for rye. From 1973/74 onwards, the basic price will be that attained at Fallersleben, and not the Duisburg price.
- (3) The guide price for husked rice and the intervention price for paddy rice have been fixed simultaneously since 1972/75. In 1967/68, different intervention prices were fixed for Arles (123,00 ua/t) and Vercelli (120,00 ua/t), but these figures have since reverted to normal. The threshold price for round-grained husked rice has been fixed since 1971/72.
- (4) Fixing of the basic price and the buying-in price for fruit and vegetables began in January 1967 and has continued as part of the marketing campaign for the produce. Since April 1973, prices have been fixed at the same time as those of other agricultural products.
- (5) The large number of fixed prices makes it impossible to repeat them all here (fixed prices for cauliflowers, tomatoes, sweet oranges, mandarins, lemons, table grapes, apples, pears, peaches; nineteen varieties of tobacco for which prices and premiums apply to the crop of the calendar year. For fishery products the type of price varies, and the season is the calendar year.

Footnotes per marketing year

- 1967/68 (a) Cereals only
 (b) Rice and oilseeds
 The prices for milk and dairy products, beef and veal, and sugar for the 1968/69 marketing year. The prices for milk and dairy products and beef and veal were modified in October 1967. Lastly, olive oil for 1966/67. The prices were 1 150, 800, 730, 798 and 350 ua/t respectively.
 (c) Olive oil and pigmeat, The basic price of 735 ua/t for pigmeat is valid for the periods from 1 July 1967 until 31 October 1967 and from 1 November 1967 until 31 July 1968. The basic price of 750 ua/t is valid for the period from 1 August 1968 to 31 October 1968.
-
- 1968/69 (a) Sugar
 (b) General price fixing
 (c) Milk and dairy products
 (d) Olive oil and pigmeat
-
- 1969/70 (a) General price fixing
 (b) Olive oil and pigmeat
 (c) Milk, dairy products, beef and veal
-
- 1970/71 (a) General price fixing
 (b) Flax and hemp, tobacco
 (c) Olive oil and pigmeat
 (d) Wine: same prices for the periods 1 June 1970 to 15 December 1970 and 16 December 1970 to 15 December 1971
-
- 1971/72 (a) Fishery products for the period from 1 February 1971 to 31 December 1972; prices for 1972 fixed in December
 (b) The Council resolution concerning the reorientation of the Common Agricultural Policy was formally adopted on 25 May 1971. The general price fixing in March 1971 covered, among other things, flax, hemp and tobacco, and the guide price for calves (ua/metric ton live weight) during the first half of the marketing year 1972/73. Prices for cotton seeds were fixed in September, for olive oil and pigmeat in October, and for wine in November
-
- 1972/73 (a) General price fixing
 Prices for dairy products were fixed for the periods from 1 April 1972 until 14 September 1972, and from 15 September 1972 until the end of the marketing year. The price of adult bovine animals for the period from 1 April 1972 until 14 September 1972 was also fixed.
 (b) Prices for adult bovine animals and calves for the second half of the 1972/73 marketing year were fixed, and the prices for fisheries products from 1 August 1972 until 31 December 1972 increased.
 (c) Aid for the 1971 hop harvest; prices for fisheries products for 1973 in the enlarged Community.

1973/74 (a) - General price fixing and fixing of aids and/or prices for the new Member States:

Products	United Kingdom	Ireland	Denmark
flax	70	150	125
hemp	as for the other Member States		
skimmed milk powder	as for the other Member States		
butter	879,60	1.602,50	1.715,00
adult bovine animals	700,00	700,00	862,00
calves	843,50	843,50	1.037,50

- Buying-in price for skimmed milk powder in Belgium, Germany, Luxembourg and the Netherlands = 640 ua/metric ton
- A positive corrective of 1% of the total will be imposed on intervention prices or buying-in prices paid by Italy in the marketing year 1973/74 for products listed in Financial Regulation 974/71 of 12 May 1971.

(b) The sugar prices for the new Member States and Italy were fixed:

ua/metric ton	United Kingdom	Ireland	Denmark	Italy
Minimum price for sugar beet	14,93	16,40	17,86	20,28
Semi-lean price for sugar beet (i.e. beet outside basic quota)	-	10,50	10,50	12,35
Intervention price white sugar	197,90	216,50	235,70	255,30
Intervention price raw sugar	156,90	184,10	200,50	218,40

The derivation system (deficit areas and surplus areas), has meant that the following prices have been fixed since 1968/69 for Italy, which is a deficit area:

ua/metric ton	1968/69	1969/70	1970/71	1971/72	1972/73	1973/74
Minimum price for sugar beet	18,46	→	→	18,95	19,63	20,28
Semi-lean price for sugar beet	11,46	→	→	11,95	12,35	12,85
Intervention price for white sugar	22,35	→	→	241,1	248,4	255,30
Intervention price for raw sugar	19,54	→	→	206,00	212,30	218,40

(c) Single intervention price for rye and durum wheat

Table I/7.10 a -- Prices and aids applicable in the new Member States

(c.a. = compensatory amount) us/metric ton

Product	Type of price or amount of aid	Prices fixed for the Community											
		United Kingdom		Ireland		Denmark							
		1972/73	1973/74	1972/73	1973/74	1972/73	1973/74

(1) To be fixed at a later date.

(2) The aid granted to the producer is equal to the difference between the target price and the world market price. For seeds harvested in the United Kingdom, a compensatory amount equal to 60,30 ua/metric ton is deducted in 1972/73, and a sum equal to 13,80 ua/metric ton is deducted in Denmark. The corresponding figures for 1973/74 are 51,40 ua/metric ton and 11,50 ua/metric ton.

(3) Theoretical prices at the start of the marketing year. The prices for the United Kingdom and Ireland are based on the highest derived intervention prices paid in 1972/73 and 1973/74.

(1) Price per degree/hl or per hl according to type.

(2) Prices differ according to variety.

(3) Increase of 1% for all varieties except Barley I and Xarti Yaka for which there is no change.

(4) Prices differ according to product.

(5) Levels fixed so that prices paid to growers who withdraw produce from the market will be increased by 5% for pears and 7,5% for other fruit and vegetables.

June/July 1973 : UK 175,0; Ireland 73,6 Denmark 17,9 } us/metric ton

(2) Type of price varies with the many fishery products. Prices were fixed in December 1972 with a view to their application in the enlarged Community but without a compensatory amounts scheme. In the case of one product, an exception was made for Ireland: the guide price for plaice and dab in the 1973 fishing season (1 January to 31 December 1973) was fixed at 300 us/metric ton in eight Member States, and at 400 us/metric ton in Ireland. Taking into account the 20% reduction in the customs duty on the import of plaice into Ireland from 1 July 1973, the compensatory amounts for Irish trade in this product were fixed in June.

1) Calculated on the basis of the agricultural accounts. The growth rates refer to the weighted price indices of the various production factors - intermediate consumption and the gross formation of fixed capital besides the wages paid, since weighting depends on the amount of intermediate consumption, depreciation and farm wages during the period 1968-1972.

2) Measured by the net value added per agricultural work unit or farmer, or farm worker in the case of the three new Member States.

3) Weighted according to the importance of the products in the final production figure: 1968-1972, 1971 and 1972 respectively.

4) At factor cost.

5) Calculated on the basis of figures supplied in national currencies.

6) Trend in period 1968-1972.

7) These figures are strictly speaking the same as those supplied for the other Member States; they cover national indices of the means of production which are not homogeneous.

8) Weighted according to the net value added in the periods 1968-1972 and 1977

9) Estimate based on the following working hypothesis for 1973: increase in final output 5.5%, increase in agricultural producer prices 6-11%, annual increase in intermediate consumption - 5%, increase in the cost of production factors - 10%, reduction in the number of farm workers - 3%, percentage of net value added in the final production cost - 60%.

10) Figures in brackets represent annual growth rates.

11) These figures cover national indices of the means of production. Source: EC Commission, D-G for Agriculture on the basis of data supplied by the SOBE.

EEC - 9						294,7 ⁽²⁾

(1) For 1968, butter stocks within the meaning of Articles 21 and 22 of Regulation No 13/64/EEC, and surpluses on trade in butter calculated on the basis of information forwarded by Member States under Regulation No 192/64/EEC.

From 1969, butter stocks within the meaning of Article 6 of Regulation (EEC) No 804/68.

(2) There were also approximately 120 000 metric tons of butter in private stocks, including approximately 105 000 metric tons in the United Kingdom.

UK						3,9
Ireland						-
Denmark						-
EEC - 9						53,2(2)

(1) For 1968, stocks within the meaning of Article 22 of Regulation No 1364/EEC;
 from 1969, stocks within the meaning of Article 7 of Regulation (EEC) No 804/68.

(2) In addition, approximately 70 000 metric tons of skimmed milk powder are
 in private stocks in the Member States, of which:
 approximately 2 000 metric tons in Denmark.
 13 000 metric tons in Ireland,
 55 000 metric tons in the United Kingdom.

1972 (P)							85				100,0

Remarks

- (1) Per capita consumption is calculated on the basis of population figures as at 30 June and on the basis of the agricultural statistics supplied by the SOEC, and various national statistics.
- (2) This table includes farm and dairy sales of whole milk, skimmed milk and butter milk, and other dairy products such as acidified milk, flavoured milk, yoghurt and gellified milk in France.
- (3) Change in statistical methods in France in 1971.
- (4) "Milk" is defined as follows:
 - Denmark : whole milk, skimmed milk and buttermilk,
 - Ireland : whole milk and standardized milk,
 - United Kingdom : whole milk.
- (5) Weights are calculated on the basis of the following conversion rate : 1 Imperial gallon of milk = 4.681/kgs.

(P) Estimated.

(ii) food aid	-	-	25	47	56	70
5. Stocks at 31/12	238	361	92	22	49	.
(i) EEC - 6					145	.
(ii) EEC - 9						
6. Surplus						365

in '000 metric tons

(1) Provisional.

(2) Estimated.

(3) There are no statistics for the Community on the consumption of skimmed milk powder. Even Member States' figures regarding subsidies paid for the use of skimmed milk powder as animal feed are not, at present, sufficient to indicate the quantity of skimmed milk powder actually used in animal feed during the years covered by the table. The figures given at point 3 have been calculated as follows:

Stocks at 1 January
+ production
= total disposable quantity
- net exports
= stocks at 31 December
= consumption

In addition to the figures calculated in this way, there are the private stocks held by producers, dealers and the processing industry. As these stocks may vary from year to year, actual consumption may diverge from the figures given above.
Source: EC Commission, D-G for Agriculture.

Table II. B/13.9 - Community production and consumption of and external trade in the main milk products (1968-1972)

in '000 metric tons

(1) From the time of revaluation until 31 December 1969, German market prices were converted into ua at a new rate, and reduced by 8,5%; from 1 January 1970 onwards they were converted into ua at the new rate.

(2) From the time of devaluation until 31 December 1969, French market prices were converted into ua at a new rate, and increased by 12,50%; from 1 January 1970 until 5 April 1970, they were converted at the new rate, increased by 7,33% of the intervention prices (4,635 ua for adult bovine animals and 6,237 ua for calves); from 6 April 1970 until 18 October 1970, they were converted at the new rate, increased by 3,67% of the intervention price (2,318 ua for cattle and 3,119 ua for calves). From 19 October 1970 onwards they were converted into ua at the new rate.

(3) Since 14 May 1973 market prices in Ireland and the United Kingdom have been increased by the basic "accession" compensatory amount of 16,20 ua for adult bovine animals and 10,40 ua for calves.

- (1) The external trade balance and consumption diverge slightly from those in Table II. B/22.2. In fact this table includes the equivalent of certain prepared edible fats for which it is difficult to be certain whether the origin is animal, vegetable or marine. However, the quantity is very small.
- (2) The item "available quantities" is obtained by adding to total output and the external trade balance, the changes in stocks not included here, which amount to -87 000 metric tons in 1969/70, -52 000 metric tons in 1970/71 and +107 000 metric tons in 1971/72.

Table II.B/22.3 - Relative shares of various prepared fats and oils
in human consumption in the Community (EEC-6)

(1) "Wages of paid workers" plus "other income" = net value added at factor cost less "tenant farming and share-cropping" and "interest paid". Indices are calculated on the basis of amounts expressed in national currencies.

(2) Except Italy. To avoid errors arising in the figures as a result of currency fluctuations, the Community index has been obtained by weighting the indices of Member States on the basis of the number of ALU's per country.

(3) Estimate based on figures from the Community survey on the structure of farms 1966/67, applying the annual rates of variation in agricultural employment.

Source : SOEC agricultural accounts.

(1) Indices have been calculated on the basis of amounts expressed in national currencies.

(2) To avoid errors in the figures arising from currency fluctuations, the Community index has been obtained by weighting the indices of Member States on the basis of the number of ALU's per country.

(3) Source: Irish Statistical Bulletin 1972 (net value added = income arising in agriculture).

(4) A hypothetical deduction of 15% has been made to obtain the net value added from the gross value added.

(5) Calculated on the basis of the net value added at factor cost per agricultural worker employed, so figures are not fully comparable with those of the original Member States.

(6) Estimate based on figs. from the Community survey on the structure of farms 1966/67, applying the annual rates of variation in agricultural employment.

(7) To allow comparison with Table II.D/1.1 the rate has again been calculated excluding Italy, where the rate is 19,3%.

Source: SOEC, agricultural accounts.

Table II.D/1.3 Indices of agricultural income (1) per agricultural labour unit (ALU)(4) in real terms (2)

1968 = 100

Member State	1964	1965	1966	1967	1968	1969	1970	1971	1972	Percentage increase in 1972 over 1971

Milk (Ø winter and summer milk)											
8 days calf		99,0	.	96,9	104,3	124,2	137,5	.	130,0	132,6	116,8
3 month calf		198,0	.	208,6	211,6	.	122,2	.	111,1	135,1	.
18 month young bull		459,1	.	479,8	549,0	423,2	125,9	.	112,8	126,5	101,8
Cow for slaughtering and processing		360,1	.	372,5	266,6	465,9	137,9	.	108,7	121,9	113,6
2. Price of factors of production											
Tenant-farming	ha	49	78	101	68	130	116,8	105,6	113,3	111,1	105,0
Annual wage	2 300 h	3,871	4,032	6,255	1,887	.	.	110,4	123,5	142,9	.
Purchase of tractor (60HP)	one tractor	4,825	4,932	5,513	4,580	6,677	.	120,0	102,8	134,0	116,0
Purchase of combine harvester	one machine	16,924	13,153	17,880	13,673	9,298	.	110,3	117,7	125,0	116,0
Milking feeds	quintal	50,4	48,3	52,2	47,9	.	.	108,3	102,9	116,7	.
Concentrated feeds	"	15,3	14,0	13,4	.	.	.	117,2	121,6	.	110,5
Wheat seeds	"	16,7	23,7	113,2	128,3	.	.
Fertilizer	"	23,4	26,7	116,9	.	.	.

(1) Regions where sample farms are situated (linear programme).
 (2) Excluding VAT. Conversion rate: central rate in force in September 1973, except for the floating Lire, to which a representative market rate is applied: 100 FF = 18,0044 ua; 100 Fl = 29,80 ua; 100 Bfrs = 2,0519 ua; 100 Lit = 0,13673; one DM = 31,0580 ua.
 (3) Calculated on basis of figures in national currencies.

Table II.D/3.10 - Index of the development of the price ratios (1)
between certain products and factors of
production in five regions of the
Community (2)
from March 1972 to September 1973

Regions	milk/concentrated feeds	milk/wages and salaries	wheat/tractor
North Picardy (France)	0,92	0,94	0,81
Limburg (south) (Belgium)	0,88	0,83	0,88
Groningen (Netherlands)	0,92	0,90	1,07
Venetia (Italy)	.	0,74	0,99
Lower Saxony (Germany)	0,90	.	0,79

Source : EC Commission, D-G for Agriculture.

(1) e.g. if in 1972 the price ratio of a certain quantity of products to a certain quantity of factors is 0,80 and if in 1973 this ratio is 0,72, the corresponding index will be $\frac{0,72}{0,80} = 0,90$.

(2) Regions where sample farms are situated (linear programming).

Notes on the table of breakdown of 1972 expenditure and
the table of forecast expenditure for 1973

- (1) Mainly aid for durum wheat (107,9 million ua for 1972 and 179,4 million ua for 1973).
- (2) Refunds to producers for starch (118,7 million ua for 1972 and 109,8 million ua for 1973) and payments for denaturing or incorporating cereals suitable for bread-making into feedingsuffs (69,8 million ua for 1972 and 113,1 million ua for 1973).
- (3) Including expenditure on the exporting of ghee from intervention stocks (approx. 11,4 million ua for 1972 and approx. 105 million u.a. for 1973).
- (4) Supply of dairy products in the form of aid donated to developing countries or disaster victims from intervention stocks of butter and milk powder.
- (5) Aid to casein.
- (5(a)) Consumer subsidies for butter of 100 us/metric ton, 50% being financed by the Guarantee fund.
- (6) Aid to skimmed milk intended for feedingsuffs (224,2 million ua for 1972 and 343,8 million ua for 1973) and aid for the use of butter in certain conditions on the internal market (approx. 48 million ua for 1972 and 464,6 million ua for 1973).
- (7) Almost totally covered by storage contributions paid by producers.
- (7(a)) Subsidies for sugar refining in the Overseas Departments.
- (8) Refunds for use in the chemical industry and aid for use in feedingsuffs.
- (9) Special measures for promotion of Community citrus fruits, the processing of certain types of orange and aid for free distribution of products withdrawn from the market.
- (10) Obligatory distilling of by-products of wine-making and distilling of wine.

Note : For footnotes see following page.

Footnotes to Table II.E/3.1

(1) At national level

- subsidies and refunds of interest payments provided under the agricultural budgets of Member States, the Länder and the Italian autonomous regions, Italian Green Plan, Cassa per il Mezzogiorno (including forestry but excluding fisheries),
- para-fiscal charges allocated in France, Germany and the Netherlands,
- tax-free fuel for agriculture.

At the Community level

- actual disbursements of the European Agricultural Guidance and Guarantee Fund (EAGGF).

(2) Market support

Member States : market support expenditure not qualifying for EAGGF aid (administrative expenses of the intervention agencies, expenses for intervention, purchase and storing in excess of the eligible fixed amount ; expenditure on support for products not subject to the common organization of the market) and special levies allocated.

Community : market interventions, export refunds, Community compensatory amounts paid to Germany, Italy and Luxembourg. One important reservation must be made about the calculation of trends in market support. The actual disbursements for any one budgetary year often overlap two or more financial years ; it thus becomes difficult to access the real rate of increase of expenditure from one year to the next.

(3) Structural measures

Early retirement, investment at farm level, market structures, infrastructure, rural public services, forests (see Table No).

Undertaken by the EAGGF Guidance section : in 1967 : 24.1 million ua ; in 1969 : 200 million ua ; in 1971 : 242.6 million ua.

In 1972 the EAGGF Guidance section financed three types of intervention :

- individual projects for improvement of agricultural structures (Council Regulation No 17/64 EEC of 5 February 1964),
- special measures, such as financial compensation, bearing the cost of certain agricultural disasters, aid to groups of fruit and vegetable growers,
- joint action to apply provisions relating to the new aims of the common agricultural policy (in compliance with Council directives No 72/159/EEC of 17 April 1972 on the modernization of farms and No 72/160/EEC of 17 April 1972 concerning measures to encourage the cessation of farming).

(4) Sundry measures

Guidance and development measures for certain productive activities, veterinary and phytosanitary measures, quality and species control, price reductions for certain factors of production (fuel, fertilizer), natural disasters.

- (5) Compensation for loss of income caused by the DM revaluation, granted by Germany to farmers either by budgetary means or by refund of V.A.T.

EAGGF contribution

1971 : 90 million ua.

1972 : 60 million ua.

- (6) Subsidies, transfers and taxes allocated for the granting of retirement pensions, family allowances, sickness benefits, benefit for accidents to farmers, and home helps.

N.B. : - Figures taken from the budgets of the six Member States do not take into account transfers and payments between various budgetary headings during the year nor carry-overs from one year to another.

- Administration expenses of the Ministries of Agriculture have only been taken partly into account. In this respect it is to be noted that some countries include in the expenditure connected with the programmes the share of Ministry of Agriculture administration expenses attributable to the programmes. Others, however, do not include these expenses.

The Commission has been unable to make such an attribution, through lack of appropriate details in national budgets.

- Expenditure on teaching and information in agriculture and expenditure on agricultural research are also excluded.
-

Table II.E/3.2 - Budgetary indicators of the implementation of national agricultural policies (1) (EEC-9)

(1971)

in million ua

Footnotes : see preceding page.

Source : EC Commission, D-G for Agriculture.

Footnotes: Tables II.E/3.2 and 3.3.

- (1) Budgetary indicators do not permit the provision of a complete picture of the public sectors support for agriculture; they do, however allow an initial examination of certain outstanding features of the different policies. Here only subsidies, interest rebates and para-fiscal charges allocated (credits, guarantees and state contributions excluded) are taken into account.
- (2) Early retirement, change of occupation.
- (3) Investment in farms (construction, improvement of buildings, land acquisition by farmers, discharge of registration costs on purchases).
- (4) Investment in marketing and processing agricultural products, aid for the running and starting-up of groups of producers, quality control, etc.
- (5) Hydraulic engineering and irrigation works, rural roads and road maintenance, land improvement and reorganization.
- (6) Rural electrification, drinking water, drains, village improvement, roads.
- (7) Mainly for fuel tax exemption, subsidies for fertilizer, rebates of selective employment tax (United Kingdom), refund of rates (Ireland and Denmark).
- (8) Conversion of orchards, olive-groves, vineyards, development of certain crop and livestock productions, improvement of quality by selection procedures.
- (9) Excluding deficiency payments.
