INDEX 1975
Industry and Society

This index covers Nos 1-44/1975 and lists the more important news items, annexes (reference with single underline) and special issues (reference with double underline). A key word identifying a subject is followed by a number, which refers the reader to issues in which items on that subject were published. To make the presentation clearer, the year ('75) has been left out in listing issue numbers.

Because of the holiday period, this issue of "Industry and Society" will be the last to appear this year.

It will also be the last issue to appear as "Industry and Society". The bulletin has been re-christened "Euroforum - Europe Day by Day" and the first issue to bear this title (No 1/76) will be dated 6 January 1976.
