PRESENTATION OF THE EC 1985 ANNUAL REPORT TO CITES

In accordance with art.8, par.e) of the EC Reg.3626/82¹⁾ and art. VIII (6) and (7) of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) the Commission of the European Communities gathered the necessary trade data from all Member States and charged the Wildlife Trade monitoring Unit with the production of the annual report.

The Community's 1985 CITES report, which consists of a cumulative report showing all trade in CITES specimens between the Community and the rest of the world, is the second annual report of the EC to CITES since the EC Reg.3626/82 on the implementation of CITES in the Community came into force (1.1.1984).

Annexes with information on each Member State's individual trade with third countries have been established as well. These annexes contain to the extent possible for each shipment :

- The States with which such trade occurred;
- the number or quantities and types of specimens;
- the latin names of the specimens;
- size and sex of the specimens, where applicable;
- purpose of the exportation, re-exportation, importation or introduction from the sea;
- permit numbers.

Because of the volume of these annexes it has not been possible to publish them together with the Community report. They were, however, made available to the Community Member States and the Convention Secretariat. Requests from parties for information on individual shipments can be addressed to the Commission of the European Communities, 200, rue de la Loi Directorate General for the Environment, Consumer Protection and Nuclear Safety, telex nr. 21877, COMEU -B.

INTRODUCTION TO THE EC 1985 ANNUAL REPORT TO CITES

1. LEGISLATION

In the process of the development of a common environmental policy, Member States' competences have increasingly been transferred to the Community as it was recognised that common action was more efficient than individual action by Member States.

In the case of CITES there is an additional Community aspect: CITES mainly employs commercial policy instruments to attain its objectives and ever since the establishment of the EEC, international trade regulations have fallen in the competence of the Community.

The progressive removal of the controls at the internal borders in the framework of the Community integration process implies that the Community Member States are not in a position to carry out all of the obligations under the Convention in the absence of a common implementation system.

Therefore the European Community has adopted autonomous measures to implement CITES per 1.1.1984 under two EC Regulations (3626/82¹ and 3418/83²). These regulations, have been followed by a number of subsequent amendment regulations, mainly with a view to adapting them to changes to the Appendices to the Convention and its own Annexes listing the species to be controlled.

The regulations on CITES, which are directly applicable in all Member States, establish a detailed set of provisions for the common implementation of CITES in the Community and bind its Member States to respect the objectives and principles of the Convention. The regulations brought also two countries, who have at present not yet ratified or acceded to the Convention, within the ambit of CITES.

1 OJ N° L 384 of 31.12.82, p. 1

2 OJ N° L 344 of 7.12.83, p.1

2 STRICTER COMMUNITY MEASURES

Regulation 3626/82 contains a number of stricter measures regarding the conditions for trade of specimens of species included in the Appendices to the Convention, which are allowed for under Article XIV of the Convention.

2.1. Annex C part 1 of the Regulation contains 66 (sub)species, 6 groups of species, 1 family and 3 orders of fauna and 110 species of flora listed in Appendices II or III of the Convention, which shall be considered as species listed in Appendix I to the Convention (Article 3 (1)).

2.2. Annex C part 2 of the Regulation covers 43 (sub)species, 8 groups of species, 4 families and 2 orders of fauna as well as 3 species of flora from Appendices II and III of the Convention for which stricter criteria for the issue of import permits shall apply (Articles 3 (2) and 10 (1) (b)). These criteria are:

Import permits shall only be issued where

- it is clear, or where the applicant presents trustworthy evidence, that the capture or collection of the specimens in the wild will not have a harmful effect on the conservation of species or on the extent of the territory occupied by the populations in question of the species;
- the applicant provides proof that the specimen has been obtained in accordance with the legislation on protection of the species in question;
- the recipient of live animals possesses adequate facilities suitable for accommodating the species and suited to its behaviour;
- there are no other requirements relating to conservation of the species which militate against issue.

2.3. Any introduction into the Community, except where specimens are placed under either a customs transit or temporary storage procedure, is subject to the presentation of an import permit or import certificate (Article 5 (1) and 10). The Convention only requires import permits for specimens of Appendix I species. In case of the transit or temporary storage procedure, presentation of the relevant export documentation or satisfactory proof of its existence may be required (Article 5 (4)).

2.4. Article 6 of the Regulation prohibits

- display to the public for commercial purposes
- sale
- keeping for sale
- offering for sale or
- transporting for sale

of (a) Appendix I and Annex C part I specimens as well as of (b) Appendices II and III and Annex C part II specimens that have been imported without an import permit or certificate.

Member States may grant exemptions for specimens mentioned under (a) above in the case of "pre-Regulation" specimens entered in accordance with the Convention; bred in captivity or artificially propagated specimens; for research, teaching, breeding or propagation and for specimens originating from a Member State in accordance with legal provisions or approval of the competent authorities.

2.5. Transportation within the Community of live animals of the species included in Appendix I or Annex C 1 from their address specified in the import permit shall be subject to prior authorization from the management authority (authorities concerned (Article 13.2)).

PRESENTATION DU RAPPORT ANNUEL 1985 DE LA CE A LA CITES

Conformément à l'article 8, paragraphe e), du Règlement CEE 3626/82¹ et à l'article VIII (6) et (7) de la Convention sur le commerce international des espèces de faune et de flore sauvages menacées d'extinction (CITES), la Commission des Communautés européennes a recueilli les données commerciales nécessaires auprès de tous les Etats membres et a chargé l'unité de surveillance continue du commerce des espèces sauvages (Wildlife Trade Monitoring Unit) d'établir le rapport annuel.

Le rapport CITES 1985 de la Communauté existant d'un rapport cumulé indiquant tous les échanges d'espèces CITES entre la Communauté et le reste du monde, est le deuxième rapport annuel de la CE à la CITES depuis que le Règlement CEE 3626/82 sur l'application de la CITES dans la Communauté est entré en vigueur (1.1.1984).

Des annexes contenant des informations sur le commerce individuel de chaque Etat membre avec les pays tiers ont également été rédigées. Dans la mesure du possible, ces annexes contiennent par expédition des informations sur :

- Les Etats avec lesquels le commerce a eu lieu;
- Le nombre ou les quantités et les types de spécimens;
- Le nom latin des spécimens;
- La taille et le sexe des spécimens, le cas échéant;
- Le but de l'exportation, de la réexportation, de l'importation ou de la capture en mer;
- Les numéros des permis

Etant donné le volume de ces annexes, il n'a pas été possible de les publier en même temps que le rapport de la Communauté. Elles ont cependant été mises à la disposition des Etats membres de la Communauté et du Secrétariat de la Convention. Les parties peuvent adresser les demandes d'information concernant des envois individuels à la Commission des Communautés européennes, 200, rue de la Loi, 1040 Bruxelles Direction générale de l'environnement, de la protection des consommateurs et de la sécurité nucléaire, n° de télex 21 877 COMEU -B.

INTRODUCTION AU RAPPORT ANNUEL 1984 DE LA CE A LA CITES

1. LEGISLATION

Avec le développement de la politique environnementale commune, les compétences des Etats membres ont été progressivement transférées à la Communauté, l'action commune étant plus efficace que les actions individuelles des Etats membres. Dans le cas de la CITES, il existe un aspect communautaire supplémentaire : la CITES utilise essentiellement des instruments commerciaux pour atteindre ses objectifs et, depuis la création de la CEE, la réglementation du commerce international relève de la compétence de la Communauté.

L'élimination progressive des contrôles aux frontières intérieures dans le cadre du processus d'intégration de la Communauté signifie que les Etats membres ne sont pas en mesure de s'acquitter de toutes les obligations prévues par la Convention, en l'absence d'un système de mise en oeuvre commun.

C'est pourquoi la Communauté a adopté des mesures autonomes pour mettre la CITES en vigueur à partir du 1.1.1984 et ce, dans le cadre de deux règlements (3626/82 ¹ et 3418/83 ²). Ces règlements ont été suivis de plusieurs amendements dont le but essentiel était de les adapter aux modifications apportées aux annexes à la Convention et à ses propres annexes énumérant les espèces à contrôler.

Les règlements concernant la CITES, qui sont directement applicables dans tous les Etats membres, établissent un jeu détaillé de prescriptions pour la mise en vigueur commune de la CITES dans la Communauté et impose aux Etats membres le respect des objectifs et des principes de la Convention. Ces règlements ont fait entrer deux pays, qui n'ont pas encore ratifié la Convention ou qui n'y ont pas encore adhéré, dans le champ d'action de la CITES.

(1) JO N° L 384 du 31.12.1982, page 1

(2) JO N° L 344 du 7.12.1982, page 1.

2. MESURES COMMUNAUTAIRES PLUS STRICTES

Le règlement 3626/82 prévoit un certain nombre de mesures plus strictes concernant les conditions d'échange des spécimens d'espèces incluses dans les annexes à la Convention, dont il est question à l'article XIV de la Convention.

- 2.1. L'annexe C, partie 1, du Règlement contient 66 sous-espèces, six groupes d'espèces, une famille et trois ordres de faune ainsi que 110 espèces de flore énumérées aux annexes II ou III à la Convention, qui sont considérées comme des espèces énumérées à l'annexe I à la Convention (article 3 (1)).
- 2.2. L'annexe C, partie 2, du règlement couvre 43 sous-espèces, huit groupes d'espèces, 4 familles et 2 ordres de faune ainsi que 3 espèces de flore des annexes II et III à la Convention, auxquels des critères plus stricts de délivrance de permis d'importation sont appliqués (articles 3 (2) et 10 (1) (b)). Ces critères sont les suivants :

Des permis d'importation ne sont délivrés que

- lorsqu'il est clair ou lorsqu'il est prouvé par le demandeur que la capture ou la collecte des spécimens à l'état sauvage n'exerce aucun effet nuisible sur la conservation des espèces ou sur la superficie du territoire occupé par les populations en question de l'espèce;
- lorsque le demandeur prouve que le spécimen a été obtenu conformément à la législation sur la protection des espèces en question;
- lorsque le destinataire d'animaux vivants possède des possibilités adéquates d'hébergement de l'espèce, adaptées à son comportement;
- lorsqu'il n'existe pas d'autres prescriptions concernant la conservation de l'espèce qui milite contre la délivrance du permis.

2.3. Toute introduction dans la Communauté, sauf quand les spécimens font l'objet d'une procédure de transit ou de dépôt temporaire, est assujettie à la présentation d'un permis ou d'un certificat d'importation (articles 5 (1) et 10). La Convention exige uniquement des permis d'importation pour les spécimens des espèces de l'annexe I en cas de transit ou de dépôt temporaire, la présentation du document d'exportation pertinent ou d'une preuve convaincante de son existence peut être exigée (article 5 (4)).

2.4. L'article 6 du Règlement interdit :

- la présentation au public à des fins commerciales
- la vente
- l'élevage en vue de la vente
- la mise en vente
- le transport en vue de la vente

de (a) spécimens de l'annexe I et de l'annexe C, partie I, et (b) de spécimens des annexes II et III et de l'annexe C, partie II, qui ont été importés sans permis ou certificat d'importation.

Les Etats membres peuvent accorder des dérogations pour les spécimens mentionnés en (a) ci-dessus dans le cas de spécimens "pré-réglementation" importés conformément à la Convention, élevés en captivité ou reproduits artificiellement pour la recherche, l'enseignement, l'élevage ou la reproduction et des spécimens provenant d'un Etat membre conformément aux dispositions juridiques ou à l'approbation des autorités compétentes.

2.5. Le transport dans la Communauté d'animaux vivants d'espèces incluses à l'annexe I ou à l'annexe C 1, à partir de l'adresse qui figure sur le permis d'importation doit faire l'objet d'une autorisation préalable de l'autorité de gestion (autorités concernées (Article 13.2)).

PRESENTACIÓN DEL INFORME ANUAL DE 1985 DE LAS COMUNIDADES EUROPEAS PARA EL CITES

De conformidad con el apartado e) del artículo 8 del Reglamento (CEE) nº 3626/82 (1) y de los apartados 6 y 7 del artículo VIII del Convenio Internacional sobre Comercio de Especies Amenazadas de Fauna y Flora Silvestres (CITES), la Comisión de las Comunidades Europeas reunió los datos comerciales necesarios de todos los Estados miembros y encargó a la Unidad de Control del comercio de la fauna y flora silvestres la elaboración del informe anual.

El informe de 1985 de la Comunidad para el CITES, que consiste en un informe acumulativo que muestra todo el comercio de ejemplares del CITES entre la Comunidad y el resto del mundo, es el segundo informe anual de las Comunidades Europeas para el CITES desde la entrada en vigor del Reglamento (CEE) nº 3626/82 sobre la aplicación del CITES en la Comunidad (1.1.1984).

Asimismo, se han elaborado Anexos con información sobre el comercio de cada Estado miembro con terceros países. Dichos Anexos contienen, en la medida de lo posible, para cada envío:

- los Estados con los que tiene lugar dicho comercio;
- el número o cantidades y tipos de ejemplares;
- los nombres latinos de los ejemplares;
- tamaño y sexo de los ejemplares, en su caso;
- objetivo de la exportación, reexportación, importación o introducción a partir del mar;
- números de los permisos.

Debido al volumen de dichos Anexos, no ha sido posible publicarlos junto con el informe de la Comunidad. Sin embargo, se pusieron a disposición de los Estados miembros de la Comunidad y de la Secretaría del Convenio. Las Partes pueden solicitar información sobre envíos particulares a la Comisión de las Comunidades Europeas, 200 rue de la Loi, Dirección General de Medio Ambiente, Protección de los Consumidores y Seguridad Nuclear, télex nº 21877, COMEU.-B.

INTRODUCCIÓN DEL INFORME ANUAL DE 1985 DE LAS COMUNIDADES
EUROPEAS PARA EL CITES

1. LEGISLACION

En el proceso del desarrollo de una política ambiental común, las competencias de los Estados miembros han ido transfiriéndose a la Comunidad según se iba reconociendo que una acción conjunta resultaba más eficaz que la acción de los Estados miembros por separado.

En el caso del CITES existe un aspecto comunitario complementario: el CITES utiliza principalmente instrumentos de política comercial para alcanzar sus objetivos y, desde la creación de la CEE, la normativa comercial internacional ha pasado a ser competencia de la Comunidad.

La eliminación progresiva de los controles en las fronteras internas, con arreglo al proceso de integración de la Comunidad, implica que los Estados miembros de la Comunidad no pueden cumplir todas las obligaciones que se derivan del Convenio sin un sistema de aplicación común.

Por consiguiente, la Comunidad Europea ha adoptado medidas autónomas para aplicar el CITES para el 1.1.1984 con arreglo a dos Reglamentos comunitarios (3626/82 (1) y 3418/83 (2)). Estos Reglamentos han sido modificados por una serie de reglamentos posteriores, principalmente a fin de adaptarlos a los cambios de los Apéndices del Convenio y a fin de controlar las especies inscritas en sus propios Anexos.

La normativa sobre el CITES, que se aplica directamente en todos los Estados miembros, establece una serie detallada de disposiciones para la aplicación conjunta del CITES en la Comunidad y obliga a sus Estados miembros a respetar los objetivos y principios del Convenio. Asimismo, la normativa incorpora dos países, que hasta el momento no han ratificado o accedido al Convenio, en el ámbito del CITES.

(1) DO nº L 384 de 31.12.82, p. 1

(2) DO nº L 344 de 7.12.83, p. 1

2. MEDIDAS COMUNITARIAS MÁS Estrictas

El Reglamento nº 3626/82 contiene una serie de medidas más estrictas relativas a las condiciones del comercio de ejemplares de especies incluidas en los Apéndices del Convenio, autorizadas con arreglo al artículo XIV del Convenio.

2.1. La parte 1 del Anexo C del Reglamento contiene 66 subespecies, 6 grupos de especies, una familia y tres órdenes de fauna y 110 especies de flora registrados en los Apéndices II o III del Convenio, que se considerarán como especies registradas en el Apéndice 1 del Convenio (apartado 1 del artículo 3).

2.2. La parte 2 del Anexo C del Reglamento incluye 43 subespecies, 8 grupos de especies, 4 familias y dos órdenes de fauna y 3 especies de flora de los Apéndices II y III del Convenio para los que se aplicarán criterios más estrictos para la expedición de los permisos de importación (apartado 2 del artículo 3 y letra b) del apartado 1 del artículo 10. Estos criterios son:

Los permisos de importación se expedirán únicamente cuando

- el solicitante presente pruebas fidedignas o resulte claro que la captura o recogida de ejemplares silvestres no tiene un efecto perjudicial sobre la conservación de especies o sobre la extensión del territorio ocupado por las poblaciones de que se trate de estas especies,
- el solicitante proporcione pruebas de que el ejemplar ha sido obtenido de conformidad con la legislación sobre protección de las especies de que se trate;
- el destinatario de animales vivos posea instalaciones adecuadas para alojar las especies y adaptadas a su comportamiento;
- no existan otros requisitos relativos a la conservación de las especies que vayan en contra de la expedición del permiso.

2.3. Cualquier introducción en la Comunidad está sujeta a la presentación de un permiso de importación o de un certificado de importación (apartado 1 del artículo 5 y artículo 10), excepto cuando los ejemplares estén sometidos a un procedimiento aduanero de tránsito o de almacenamiento temporal. El Convenio exige permisos de importación únicamente para los ejemplares de las especies del Apéndice I. En caso de procedimiento de tránsito o de almacenamiento temporal, podrá exigirse la presentación de los documentos de exportación pertinentes o pruebas satisfactorias de su existencia (apartado 4 del artículo 5).

2.4. El artículo 6 del Reglamento prohíbe

- la exhibición al público con propósitos comerciales
- la venta
- el mantenimiento para la venta
- el ofrecimiento para la venta, o
- el transporte para la venta

de (a) ejemplares de la parte I del Anexo C y del Apéndice I y de (b) ejemplares de la parte II del Anexo de los Apéndices II y III que hayan sido importados sin un permiso o certificado de importación.

Los Estados miembros pueden conceder exenciones para los ejemplares mencionados en el punto (a) arriba citado en el caso de ejemplares anteriores al Reglamento introducidos de conformidad con el Convenio; ejemplares criados en cautividad o reproducidos artificialmente; ejemplares para investigación, enseñanza, cría o reproducción y ejemplares procedentes de un Estado miembro, de conformidad con las disposiciones legales o la aprobación de las autoridades competentes.

2.5. El transporte dentro de la Comunidad de animales vivos de las especies incluidas en el Apéndice I o en el Anexo C 1, desde la dirección especificada en el permiso de importación, estará sujeto a la autorización previa de la autoridad administrativa (autoridades pertinentes (apartado 2 del artículo 13)).
