of the Commission on the Completion  
of the Internal Market*

**Situation at 31 October 1991**

DOCUMENT

## **NOTE TO READERS**

This guide, available in all the official languages of the Community, is being published as part of an information exercise. It was designed as a documentary tool and in no way binds the Commission.

The information it contains is drawn from the INFO92 data base accessible to the public and there is no implied criticism or otherwise of what the Member States have done.

Measures which have not been officially notified are not listed. Because the situation is constantly changing, the guide can do no more than reflect the position on a given date, in this case 31 October 1991.

A new edition will appear every six months.

# INFO 92

## The Commission of the European Communities database focusing on the objectives of the Single Market

Help Desk Eurobases:

fax : + 32 (2) 236 06 24  
phone : + 32 (2) 235 00 03

INFO 92 contains vital information for all those who intend to be ready for 1992. INFO 92 is nothing less than a "single-market scoreboard". It provides a running commentary on the course of Commission proposals as they advance from stage to stage, with each notable development summarized and set into context.

The game is followed right to the end, i.e. up to the transposition of directives into Member States' internal legislation.

Using INFO 92 is simplicity itself.

It can be consulted on-screen by means of a wide range of everyday equipment connected to specialized data relay networks.

Fast transmission, the instant updating facility (several times a day, if necessary) and dialogue procedures requiring no prior training make INFO 92 ideal for the general public as well as business circles and the professions.

The system offers easy access to information by means of suggested menus and a logical presentation, modelled on the structure of the White Paper and the stages of the decision-making process within the institutions.

Inquiries may also be made to the Commission's Information Offices or — for small businesses — the Euro Info Centres now open in all regions of the Community.

Official Journal of the European Communities

# **DIRECTORY**

## **OF COMMUNITY LEGISLATION IN FORCE**

### **and other acts of the Community institutions**

The Community's legal system is of direct concern to the individual citizen as much as to the Member States themselves.

Both lawyers and non-lawyers, then, need to be familiar not just with national law, but also with Community legislation, which is implemented, applied or interpreted by national law and in some cases takes precedence over it.

To make Community legislation more accessible to the public, the Commission of the European Communities publishes a Directory, updated twice a year, covering:

- binding instruments of secondary legislation arising out of the Treaties establishing the three Communities (regulations, decisions, directives, etc...);
- other legislation (internal agreements, etc...);
- agreements between the Communities and non-member countries.

Each entry in the Directory gives the number and title of the instrument, together with a reference to the Official Journal in which it is to be found. Any amending instruments are also indicated, with the appropriate references in each case.

The legislation is classified by subject matter. Instruments classifiable in more than one subject area appear under each of the headings concerned.

The Directory proper (Vol. I) is accompanied by two indexes (Vol. II), one chronological by document number and the other alphabetical by keyword.

The Directory is available in all the official languages of the Communities.

# EUROPEAN ECONOMY

European Economy appears four times a year, in March, May, July and November. It contains important reports and communications from the Commission to the Council and to the Parliament on the economic situation and developments, as well as on the borrowing and lending activities of the Community. In addition, European Economy presents reports and studies on problems concerning economic policy.

Two supplements accompany the main periodical:

- Series A – ‘Economic trends’ appears monthly except in August and describes with the aid of tables and graphs the most recent trends of industrial production, consumer prices, unemployment, the balance of trade, exchange rates, and other indicators. This supplement also presents the Commission staff’s macroeconomic forecasts and Commission communications to the Council on economic policy.
- Series B – ‘Business and consumer survey results’ gives the main results of opinion surveys of industrial chief executives (orders, stocks, production outlook, etc.) and of consumers (economic and financial situation and outlook, etc.) in the Community, and other business cycle indicators. It also appears monthly, with the exception of August.

Unless otherwise indicated the texts are published under the responsibility of the Directorate-General for Economic and Financial Affairs of the Commission of the European Communities, rue de la Loi 200, 1049 Brussels, to which enquiries other than those related to sales and subscriptions should be addressed.

Subscription terms are shown on the back cover and the addresses of the sales offices are shown on page 3 of the cover.

# Success in business

**depends on the decisions you make ...  
which depend on the information you receive**

Make sure that your decisions are based on information that is accurate and complete.

In a period of rapid adjustment, with national economies merging into a single European economy under the impetus of 1992, reliable information on the performance of specialized industry sectors is essential to suppliers, customers, bankers and policymakers.

Small and medium-sized enterprises in particular need easy access to information.

The market must be defined, measured and recorded. Information is needed on production capacities, bottlenecks, future developments, etc.
