COMMISSION OF THE EUROPEAN COMMUNITIES

National implementing measures

*to give effect to the White Paper
of the Commission on the completion
of the internal market*

Situation at 31 October 1993

NOTE TO READERS

This guide, available in all the official languages of the Community, is being published as part of an information exercise. It was designed as a documentary tool and in no way binds the Commission.

The information it contains is drawn from the INF092 data base accessible to the public and there is no implied criticism or otherwise of what the Member States have done.

Measures which have not been officially notified are not listed. Because the situation is constantly changing, the guide can do no more than reflect the position on a given date, in this case 31 October 1993.

A new edition will appear every six months.

TABLE OF CONTENTS

I. THE REMOVAL OF PHYSICAL BARRIERS

CONTROL OF GOODS

Reg. 1900/85	Single Administrative Document: situation until 31 December 1992	1
Reg. 1901/85	Single Administrative Document: situation until 31 December 1992	2
Reg. 678/85*	Single Administrative Document: situation until 31 December 1992	3
Reg. 679/85*	Single Administrative Document: situation until 31 December 1992	4
Reg. 1059/86*	Single Administrative Document: situation until 31 December 1992	5
Reg. 717/91*	Single Administrative Document: reduction of scope (from 1 January 1993)	6
Reg. 1674/87	Community transit procedure: guarantees	7

CARRIAGE OF GOODS BY ROAD

Carriage between Member States

Council Regulation (EEC) no 1841/88 of 21 June 1988 amending Regulation (EEC) No 3164/76 on the Community quota for the carriage of goods by road by Member States.

Further increases in the quotas for 1990, 1991 and 1992 were adopted by the Council on 25 April and 17 December 1990 (Regulation (EEC) No 1053/90 and Regulation (EEC) No 3914/90).

Moreover, as a result of the enlargement of the Community brought about by German unification (see below), the Council adopted Regulation (EEC) No 3915/90 of 12 December 1990 increasing the Community quota for 1991 and 1992.

On 26 March 1992 the Council adopted Council Regulation (EEC) No 881/92 on access to the market for the carriage of goods by road in the European Community to or from the territory of a Member State or passing across the territory of one or more Member States.

1) Deadline for implementation of the legislation in the Member States
Not required.

Eastern Europe and the USSR

THE CHALLENGE OF FREEDOM

GILES MERRITT

The sparks of unrest that leapt from Berlin in November 1989 to Moscow's Red Square in August 1991 are firing an explosion of political and economic change. Out of the ashes of Communism is emerging the shape of a vast new European market-place stretching from the Atlantic to the Pacific.

In his fascinating account of Europe's fast-changing East-West relationships, Giles Merritt argues that a massive rescue operation must be mounted to ensure the success of these changes. The upheaval of Communism's collapse is 'The challenge of freedom'.

Written with the cooperation and support of the European Commission, this book sets out to identify the key policy areas where a new partnership is being forged between the countries of Eastern and Western Europe. It offers a privileged insight into the current thinking of European

Community officials, politicians and industrial leaders, and analyses the factors that will determine whether the emerging market economies of Eastern Europe can truly be absorbed into a single European economy.

Immensely readable and often disturbing, this important book contains much up-to-date and hitherto unpublished information on such major East-West problem areas as energy, environmental control, immigration, trade relations, agriculture and investment. It also examines the arguments surrounding a 'Marshall Plan' for Eastern Europe that would emulate the famous US aid programme that helped relaunch the economies of Western Europe in the aftermath of World War II.

For anyone concerned about the future of Eastern Europe and the USSR, whether from a political, social or economic standpoint, this book is essential reading.

Bulletin of the European Communities

The *Bulletin of the European Communities*, which is issued 10 times a year (monthly, except for the January/February and July/August double issues), is an official reference publication covering all spheres of Community activity.

It is compact, easy to consult (with an index and copious references to the Official Journal and to previous issues), logically structured (to reflect the main fields of Community policy) and wholly reliable. The Bulletin is an essential reference tool, describing the passage of Community legislation through all its stages from presentation of a proposal by the Commission to final enactment by the Council.

Thanks to its topical commentaries on the month's major events, it provides the student of European integration and other interested readers with up-to-date and accurate information about the most recent developments in Community policy – the creation of a single market, economic and social integration, the Community's role in international affairs, etc.

Supplements to the Bulletin are published from time to time, containing important background material on significant issues of the day. Recent Supplements have covered German unification, the Commission's programme for 1992 and European industrial policy for the 1990s.

The Bulletin and its Supplements are produced by the Secretariat-General of the Commission, 200 rue de la Loi, B-1049 Brussels, in the nine official languages of the Community, and can be ordered from the Community sales agents.

INFO92

The Community database focusing on the objectives and the social dimension of the single market

As a practical guide to the single market, INFO92 contains vital information for all those determined to be ready for 1992.

INFO92 is really a simple market scoreboard, recording the state of play on the stage-by-stage progress of Commission proposals up to their adoption by the Council, summarizing each notable development and placing it in context, and keeping track of the transposition of directives into Member States' national legislation.

Using INFO92 is simplicity itself. It can be consulted on-screen by means of a wide range of everyday equipment connected to specialized data-relay networks. Fast transmission, the virtually instant updating facility (several times a day, if necessary) and dialogue procedures requiring no prior training make INFO92 ideal for the general public as well as for business circles and the professions.

The system offers easy access to information thanks to the choice of menus available and to the logical presentation modelled on the structure of the *White Paper*, the *Social Charter* and the decision-making process within the institutions.

Enquiries may also be made to the Commission Offices in the Member States or – for small businesses – the Euro-Info Centres now open in all regions of the Community.

DIRECTORY

OF COMMUNITY LEGISLATION IN FORCE and other acts of the Community institutions

The Community's legal system is of direct concern to the individual citizen as much as to the Member States themselves.

Both lawyers and non-lawyers, then, need to be familiar not just with national law, but also with Community legislation, which is implemented, applied or interpreted by national law and in some cases takes precedence over it.

To make Community legislation more accessible to the public, the Commission of the European Communities publishes a Directory, updated twice a year, covering:

- binding instruments of secondary legislation arising out of the Treaties establishing the three Communities (regulations, decisions, directives, etc.);
- other legislation (internal agreements, etc.);
- agreements between the Communities and non-member countries.

Each entry in the Directory gives the number and title of the instrument, together with a reference to the Official Journal in which it is to be found. Any amending instruments are also indicated, with the appropriate references in each case.

The legislation is classified by subject matter. Instruments classifiable in more than one subject area appear under each of the headings concerned.

The Directory proper (Vol. I) is accompanied by two indexes (Vol. II), one chronological by document number and the other alphabetical by keyword.

The Directory is available in the nine official languages of the Community.

EUROPEAN ECONOMY

European Economy appears four times a year, in March, May, July and November. It contains important reports and communications from the Commission to the Council and to Parliament on the economic situation and developments, as well as on the borrowing and lending activities of the Community. In addition, *European Economy* presents reports and studies on problems concerning economic policy.

Two supplements accompany the main periodical:

- Series A – ‘Economic trends’ appears monthly except in August and describes with the aid of tables and graphs the most recent trends of industrial production, consumer prices, unemployment, the balance of trade, exchange rates, and other indicators. This supplement also presents the Commission staff’s macroeconomic forecasts and Commission communications to the Council on economic policy.
- Series B – ‘Business and consumer survey results’ gives the main results of opinion surveys of industrial chief executives (orders, stocks, production outlook, etc.) and of consumers (economic and financial situation and outlook, etc.) in the Community, and other business cycle indicators. It also appears monthly, with the exception of August.

Unless otherwise indicated, the texts are published under the responsibility of the Directorate-General for Economic and Financial Affairs of the Commission of the European Communities, 200 rue de la Loi, B-1049 Brussels, to which enquiries other than those related to sales and subscriptions should be addressed.

Subscription terms are shown on the back cover and the addresses of the sales offices are shown on the third page of the cover.

Success in business

**depends on the decisions you make ...
which depend on the information you receive**

Make sure that your decisions are based on information that is accurate and complete!

In a period of rapid adjustment, with national economies merging into a single European economy under the impetus of 1992, reliable information on the performance of specialized industry sectors is essential to suppliers, customers, bankers and policymakers.

Small and medium-sized enterprises, in particular, need easy access to information.

The market must be defined, measured and recorded. Information is needed on production capacities, bottlenecks, future developments, etc.

SOCIAL EUROPE

Social Europe, published by the Commission of the European Communities, Directorate-General for Employment, Industrial Relations and Social Affairs (DG V), Coordination and Information Policy Unit, deals with current social affairs in Europe.

The basic review appears three times a year. In addition, a number of supplements/files are published annually, each dealing in depth with a given subject.

ENERGY

A CHALLENGE FOR EUROPE AND THE WORLD

Since it first appeared in 1985 **Energy in Europe** has become recognized as an invaluable source of information on both the policy-making and the operational aspects of European Community energy policy. Subscribers include leaders of energy-consuming and energy-producing industries and other decision-makers in the private and public sectors, as well as major consultancies and research institutes in and outside the Community.

In the present situation within the Community, itself at the eve of the single market, and *vis-à-vis* the huge energy problems, as well as the potential, of our neighbours in Central and Eastern Europe and in the Commonwealth of Independent States, the energy sector is of the greatest strategic importance. An understanding of it is indispensable in many areas of economic activity. It also constitutes a crucial factor within a debate of truly global importance, namely the protection of the environment, including the global warming issue.

Energy in Europe continues to keep its readers abreast of the ongoing situation as regards overall policy, markets, energy planning, and the constant quest for cleaner and more efficient energy technology.

Market trends and perspectives are covered in **two regular issues** each year, and also in a **Short-term energy outlook** appearing in the first half of the year and an **Annual energy review** at the end of the year which includes the world energy situation by region including EC Member States, the short-term energy outlook for the Community, and a review of trends in main indicators over 10 years. Further **Special Issues** are also produced in connection with major developments or events, including international conferences on or relevant to the energy sector.

Energy in Europe appears in English but each issue also contains translations into French, German or Spanish of articles from the preceding issue.
