## FOREWORD

## AVANT-PROPOS

*This directory is a source of short information regarding the projects, networks and other activities funded in 1995 by the European Commission in the framework of the Action Plan "Europe against AIDS".*

*It aims at informing people and organisations concerned with the prevention of HIV/AIDS in Europe on the action of the European Commission in this field.*

*Any interested person or organisation will thus find information concerning:*

- the area of activity, the objectives and the contents of the actions which have been implemented;*
- the particulars of the organisations responsible for the projects as well as those of its partners;*
- the products deriving from the implementation of the projects as well as the period in which they were implemented.*

*Any person or organisation interested in receiving more information on a particular project may contact directly the organisation responsible for its implementation.*

*Le présent répertoire rassemble sous une forme synthétique les principales informations concernant les projets, réseaux et autres activités financés en 1995 par la Commission Européenne dans le cadre du Plan d'action "L'Europe contre le sida".*

*Il est destiné à favoriser l'information de toutes les personnes et organismes concernés par la prévention du VIH/sida en Europe, sur l'action de la Commission Européenne dans ce domaine.*

*Les intéressés pourront ainsi trouver des informations concernant:*

- le domaine d'activité, les objectifs et le contenu des actions mises en oeuvre;*
- les coordonnées de l'organisme responsable du projet ainsi que le nom des partenaires;*
- les délais de réalisation ainsi que les produits escomptés.*

*Toute personne ou tout organisme souhaitant recevoir plus d'informations à propos de certains projets particuliers est prié de prendre directement contact avec les organismes responsables de la mise en oeuvre de ces projets.*

<b>PRODUITS:</b>	rapport final avec copie de tous les documents produits dans le cadre de ce projet	
<b>OBJECTIFS ET CONTENU DU PROJET:</b>		
<p>Si l'impact du sida n'affecte que de façon marginale la courbe démographique, cette maladie touche la vie des individus, des familles et le tissu même de la société aussi bien dans les pays développés que dans les pays en voie de développement et tous les milieux défavorisés du monde. Face à ce fléau, les médecins et les systèmes de santé sont confrontés à des problèmes sociaux, éthiques et politiques. De la même manière, les gouvernements doivent organiser la mise en place d'une solidarité internationale.</p> <p>C'est pour analyser les corrélations entre l'épidémiologie du sida, les phénomènes de société et les mouvements de population qu'une grande rencontre inter-disciplinaire et politique a été organisée. Ce symposium s'est tenu à Paris les 17 et 18/10/1995 et a permis d'informer des non-spécialistes, décideurs politiques et journalistes sur l'impact du sida en matière de société et de démographie.</p>		

<b>AREA OF ACTIVITY:</b> KNOWLEDGE, ATTITUDES AND BEHAVIOUR OF THE GENERAL PUBLIC AND CERTAIN TARGET GROUPS, INFORMATION AND AWARENESS-RAISING CAMPAIGNS FOR THE PUBLIC AND THESE GROUPS	
<b>TITLE OF PROJECT:</b> CONFERENCE FOR NURSES IN AIDS CARE TO BE HELD IN BARCELONA IN NOVEMBER 1995.	
<b>ORGANISATION:</b>	<b>PARTNER ORGANISATIONS:</b>
<b>Name:</b> European Association of Nurses in AIDS Care (EANAC)	<ul style="list-style-type: none"> <li>• Dept. of G.U.M., Dublin (Eire)</li> <li>• Landstingshuset, Gateborg (SW)</li> <li>• Royal College of Nursing, London (UK)</li> </ul>

<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
Radio programmes and helplines to raise the awareness of ethnic minority groups toward HIV/AIDS infection, involving 4 Member States.  Main objectives: <ul style="list-style-type: none"> <li>• to produce a pilot campaign with selected Member states to test the effectiveness of using radio to raise awareness of HIV/AIDS among minority groups</li> <li>• to increase collaboration among HIV/AIDS helplines across Europe to enable the establishment of common principles of good practice when working with minority groups</li> <li>• to produce an HIV/AIDS information radio campaign in Turkish, one Asian language, Portuguese or Spanish, and the most appropriate language targeted at the African community. The campaign was realised in consultation with minority groups themselves in order to respond genuinely to their needs.</li> </ul>

<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project which utilised extensive statistical and interview data derived from a major multi-country analysis on "Managing AIDS" supported by the WHO European Centre and recently completed. The findings have had practical implications for better ways of managing and preventing AIDS, but their diffusion will not produce sufficient motivation to change policy and behaviour. This project proposed therefore to use a motivational change method called Group Feedback Analysis (GFA) in each of four Member States (Belgium, Italy, Netherlands and Portugal) to work through the major findings. It should permit the enhancement of interactive learning between the organisations and the initiation of an accurate evaluation of past successes and failures, leading to new action-oriented policies.</p>

<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project aimed at identifying the sexual health concerns related to STD/HIV transmission and service provision needs of lesbians, bisexual women and women who have sex with women in Merseyside.</p> <p>The objectives were to:</p> <ul style="list-style-type: none"> <li>• enhance the understanding of the sexual health concerns related to STD/HIV transmission of lesbians and bisexual women in Merseyside;</li> <li>• gain an insight into the experiences of lesbians and bisexual women of sexual health services currently provided and to identify models of good practice;</li> <li>• provide information for purchasers upon which to base purchasing decisions to ensure that health services are appropriate and accessible for lesbians and bisexual women;</li> <li>• highlight potential health gains for lesbian and bisexual women in the related areas of sexual health, women's health and planned parenthood.</li> </ul> <p>The project used a participatory research approach, using qualitative methods and focused on a purposive sample of:</p> <ul style="list-style-type: none"> <li>• lesbians and bisexual women who identify themselves as such;</li> <li>• health service providers.</li> </ul> <p>To ensure that all relevant groups were included in the sample, the following characteristics were taken into account for identification of the respondents:</p> <ul style="list-style-type: none"> <li>• geographical location, age, ethnic background, class, disability, women with and without children.</li> </ul> <p>The respondents were identified through contact with organisations who are in touch with lesbians and bisexual women. The method included the use of a snowballing design, semi-structured interviewed and focus group discussions. Service providers and purchasers were identified of all services relevant to woman's sexual health to provide information on existing policies and service provision for lesbian and bisexual women.</p>

<b>PRODUITS:</b>	Rapport final incluant une copie de tous les documents produits dans le cadre du projet.	
<b>OBJECTIFS ET CONTENU DU PROJET:</b>	<p>Afin de mesurer l'efficacité de leurs politiques de santé publique, de prévention du sida et de la toxicomanie, certaines villes européennes ont ressenti la nécessité de créer un fichier des toxicomanes pris en charge, notamment ceux suivant un programme de traitement à la méthadone. Cependant cette tendance à l'accroissement tant qualitatif que quantitatif des fichiers ne va pas sans risque d'atteintes à la vie privée de la personne par le dépassement des normes juridiques établies. C'est pourquoi ce projet visait à:</p> <ul style="list-style-type: none"> <li>• promouvoir le développement et l'ajustement des politiques locales de prévention du VIH/sida chez les toxicomanes;</li> <li>• identifier de nouvelles orientations communes qui permettront le maintien de l'établissement de fichiers tout en respectant les droits des individus.</li> </ul> <p>Les tâches impliquaient un examen comparatif dans dix Etats membres (D, F, I, GR, ES, P, B, NL, IRL, UK) du cadre législatif ou réglementaire régissant les fichiers destinés au suivi des toxicomanes pris en charge. La seconde étape visait à introduire un débat parmi les villes européennes invitées à se saisir des conclusions des travaux de la première étape et notamment du cahier des charges sur la création et l'utilisation des fichiers. Ces villes ont été retenues pour la qualité de leur expérience du travail en réseau, ainsi que leur capacité à mettre en oeuvre et diffuser les acquis de ce mode de travail.</p>	

<b>AREA OF ACTIVITY:</b> PREVENTION OF HIV TRANSMISSION AMONG PARTICULAR GROUPS IN PARTICULAR SETTINGS	
<b>TITLE OF PROJECT:</b> RISK BEHAVIOURAL (SEXUAL AND SOCIAL) FOR HIV/AIDS IN FEMALE INJECTING DRUG USERS IN GERMANY AND THE UNITED KINGDOM

<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>This project aimed to analyze the risk factors of HIV infection in female injecting drug users in Germany and the United Kingdom in order to implement appropriate prevention programmes to control the AIDS epidemic in Europe. The general investigation framework was structured as follows:</p> <ul style="list-style-type: none"> <li>• to describe HIV prevalence and HIV risk behaviour among female injecting drug users (that includes examination of the relationships between knowledge, attitudes and behaviour in drug injecting practices and in sexual practices);</li> <li>• to analyze knowledge, attitude and behaviour regarding reproductive health among female injecting drug users;</li> <li>• to describe the experience of female injecting drug users concerning preventive interventions;</li> <li>• to compare results obtained from Germany and the United Kingdom with results obtained from France, Spain and Italy in a similar investigation on female injecting drug users.</li> </ul>

<b>START OF PROJECT:</b> 01/07/1995	<b>END OF PROJECT:</b> 01/11/1995
<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project aimed to provide information for, and change attitudes of, men who have sex with men, in order to promote safe sex. The target group consisted of citizens from all E.U. Member States, who travel as tourists, typically on package tours, to Ibiza.</p> <p>The design of the project is very similar to the one used in previous 'Hot and Safe' campaign. Voluntary workers were recruited and trained in factual knowledge about HIV/AIDS, safe sex in theory and practice as well as counselling/conversation techniques with special reference to taboo subjects.</p> <p>The organisation collaborated with relevant key persons among local authorities and local ASO (AIDS Service Organisations) and sought collaboration with personnel and owners of various bars and other places of entertainment which appeal to the target group.</p> <p>The daily activities of the volunteers included:</p> <ul style="list-style-type: none"> <li>• Distribution of prevention- and information/promoting materials at the outdoor meeting places for gays (i.e. on beaches etc.).</li> <li>• Information sessions of informal nature at outdoor meeting places, with discussion between the 'Hot and Safe' workers and the target group.</li> <li>• "Raids" on bars and similar places in the evenings/nights, with discussions and distribution of prevention- and information/promoting materials such as 'Hot &amp; Safe' Jackets, 'Hot &amp; Safe' T-shirts, 'Hot &amp; Safe' lighters, 'Hot &amp; Safe' bags and leaflets with information on safe sex.</li> </ul>

<b>PRODUITS:</b>	rapport final incluant copie de tous les documents produits dans le cadre du projet	
<b>OBJECTIFS ET CONTENU DU PROJET:</b>	<p>La prison des Beaumettes à Marseille est la principale maison d'arrêt du Sud-Est de la France. Chaque mois, environ 350 hommes et femmes y sont incarcérés. Après identification d'un taux de séroprévalence du VIH plus élevé chez les récidivistes, l'hypothèse que des contaminations aient eu lieu au cours d'incarcérations antérieures à été retenue (suite à des rapports sexuels dans une proportion d'environ 10% et d'usage de drogues par voie intraveineuse pour 10 à 65% des toxicomanes).</p> <p>Etant donné l'absence de données pour l'Europe, il était nécessaire d'évaluer les risques de contamination en milieu carcéral afin d'élaborer des politiques spécifiques de prévention. Cette étude pilote aura permis:</p> <ul style="list-style-type: none"> <li>• d'estimer la prévalence des pratiques à risque ainsi que certains de leurs déterminants socio-démographiques et psycho-sociaux chez les détenus avant et pendant l'incarcération (objectif principal);</li> <li>• de documenter la survenue de séroconversion pendant le séjour et de comparer les pratiques à risques des détenus en fonction de la notion de récidive. Les résultats de cette expérience marseillaise servent d'outil de base à des études similaires dans d'autres Etats membres et à la définition de politiques de prévention à y mettre en place.</li> </ul>

<b>DEBUT DES TRAVAUX:</b> 01/11/1995	<b>FIN DES TRAVAUX:</b> 01/11/1996
<b>PRODUITS:</b> rapport final avec copie de tous les documents produits dans le cadre de cette action.	
<b>OBJECTIFS ET CONTENU DU PROJET:</b>	
<p>L'objectif principal du programme était la maintenance et le développement du système de surveillance Européen du sida et de l'infection par le VIH. Le système permet la collecte, l'analyse, l'interprétation et la diffusion au niveau de l'Union Européenne et pour chaque Etat membre, des données de surveillance nationale. Les objectifs secondaires qui sont développés à partir de l'activité du programme comportent l'évaluation des méthodes de surveillance, la détermination de la période d'incubation et de la durée de survie du sida, l'analyse des tendances épidémiologiques et la réalisation de prévision, ainsi que l'analyse des maladies dont les caractéristiques épidémiologiques sont associées à l'épidémie due au VIH (tuberculose, hépatite, MST).</p> <p>Pendant la période couverte par le programme, le Centre développera des examens et des analyses spécifiques portant sur différents thèmes:</p> <ul style="list-style-type: none"> <li>• l'analyse de l'incidence du sida par cohorte d'année de naissance;</li> <li>• surveillance de l'infection à VIH chez les enfants infectés par voie mère-enfant;</li> <li>• l'analyse des facteurs associés à différents pathologies indicatrices du sida;</li> <li>• un examen écologique entre les pays afin d'analyser l'association entre l'incidence du sida et du VIH d'une part, et d'autre part, d'autres facteurs tels les comportements sexuels, les comportements en matière de toxicomanie, les programmes de prévention, la structure démographique de la population, le niveau socio-économique des pays, etc...;</li> <li>• l'estimation de l'incidence du VIH à partir des données répétées de séroprévalence chez les femmes enceintes obtenues par des enquêtes anonymes non corrélées et des données de fertilité par âge des femmes;</li> <li>• l'analyse de la survie des malades atteints du sida;</li> <li>• évaluation de l'impact de la diffusion des méthodes de prévention de la pneumocystose.</li> <li>• développer un système d'information géographique des données qui permettrait l'amélioration de la représentation graphique et l'analyse spatio-temporelle des données.</li> </ul>

<b>OBJECTIFS ET CONTENU DU PROJET:</b>	
<p>Ce projet visait à assurer la publication de deux trimestriels en français et en anglais traitant spécifiquement de l'infection à VIH et de son interaction avec la tuberculose.</p> <p>Objectifs principaux:</p> <ul style="list-style-type: none"> <li>• informer les professionnels de la santé des pays européens et des pays en voie de développement, en diffusant le plus largement possible les résultats des travaux de recherche, et des avancées concernant les aspects médicaux et la prévention;</li> <li>• favoriser la poursuite des travaux de recherche menés conjointement par des chercheurs du Nord et du Sud;</li> <li>• encourager une meilleure coopération Nord/Sud entre les différents acteurs intervenant dans le domaine du sida et de la tuberculose.</li> </ul> <p>Les dossiers prévus étaient:</p> <p>L'élaboration de dossiers sur des sujets spécifiques ou sur des régions du monde, comme l'Asie, les migrants en Europe. Les questions liées à la propagation du VIH et de la tuberculose en milieu carcéral ont été couvertes de la manière la plus exhaustive. L'accent a été mis sur la situation dans les pays de l'Europe du Sud (Portugal, Espagne, Italie, Grèce) qui pour multiples raisons font actuellement face à une recrudescence de ces co-infections. Un dossier particulier sur la situation en Amérique du Sud était prévu. Des thèmes tels que la drogue et le sida, les femmes et le sida ont également été traités dans les différents numéros du trimestriels.</p>

<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
Project of which the main aims were:	
<ul style="list-style-type: none"> <li>• to continue to develop and maintain a European Surveillance Scheme for travel associated legionnaires disease;</li> <li>• to enhance the capability within the EU to detect common source outbreaks early, enabling Member States to implement timely control measures;</li> <li>• to continue to improve the laboratory support to participating laboratories in the scheme by extending the PHLS External Quality Assessment (EQA) Scheme for the detection of legionella species in water, and by developing standardised methods and strategies for the identification and typing of legionella species.</li> </ul>	

<b>AREA OF ACTIVITY:</b> GATHERING DATA ON HIV/AIDS	
<b>TITLE OF PROJECT:</b> GUIDELINES FOR CONTROL AND MANAGEMENT OF HEPATITIS C	
<b>ORGANISATION:</b>	<b>PARTNER ORGANISATIONS:</b>
<b>Name:</b> Hepatitis C European Network for Cooperative Research  <b>Address:</b> 54 av. la Motte-Picquet F - 75015 PARIS  <b>Telephone:</b> +33 93 60 11 43  <b>Fax:</b> +33 93 60 11 43  <b>Contact person:</b> Mr Bernard CARPENTIER	<ul style="list-style-type: none"> <li>• Hospital General Valle Hebron, Barcelona (ES)</li> <li>• Dept. of Medicine, Hippokration Hospital, Athens (GR)</li> <li>• Dept. of Gastroenterology, Hospital Molinette, Torino (I)</li> <li>• Istituto di Medicina Interna Universita di Padova (I)</li> <li>• Dept. of gastroenterology and Hepatology, Medizinische Hochschule Hannover (D)</li> <li>• Dept. of Medicine St. Mary's Hospital Medical School, London (UK)</li> <li>• Karolinska Institute Division of Infectious Diseases Huddinge Hospital (SW)</li> <li>• Hospices Civils de Lyon - Hotel-Dieu Lyon (F)</li> </ul>
<b>START OF PROJECT:</b> 15/09/1995	<b>END OF PROJECT:</b> 15/09/1997
<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Epidemiology: the main aims of this part were to:</p> <ul style="list-style-type: none"> <li>• assess the level of diseases awareness among general practitioners;</li> <li>• to screen the target risk groups, particularly individuals who were transfused prior to 1990, who had surgery, haemodialysis, etc...;</li> <li>• categorise infected individuals according to mode of transmission and stage of disease;</li> <li>• biochemical, histological and virological assessment of patients, with storage of lymphocytes for the second part of the project;</li> <li>• set up a European epidemiological and histological database;</li> <li>• evaluate the cost effectiveness of screening and early management of disease versus late intervention.</li> </ul> <p>Host factors</p> <p>The main aims of this part were:</p> <ul style="list-style-type: none"> <li>• make a standard selection and categorisation of patients by each project partner;</li> <li>• to make a sample collection and DNA preparation following standard protocol;</li> <li>• perform the viral genotyping and HLA typing centrally at coordinating centres;</li> <li>• develop an integrated base of data collected by participating clinicians;</li> <li>• analyse data and prepare reports;</li> <li>• validate prognostic markers through a prospective clinical trial.</li> </ul> <p>This part of the project was to define immunogenetic factors which identify patients at high risk of developing end stage liver disease and patients likely to respond to Interferon therapy. Identification of high risk patients will allow public health directors to focus health care resources in areas where they may have greatest impact. This project has delivered a large clinical database and a library of human genomic DNA and serum samples from patients with HCV infection for use in future EU research.</p>	

<b>AREA OF ACTIVITY:</b> GATHERING DATA ON HIV/AIDS	
<b>TITLE OF PROJECT:</b> COMMUNICATING HEALTH / AIDS 3, CAREFUL COMMUNICATION.	
<b>ORGANISATION:</b>	<b>PARTNER ORGANISATIONS:</b>
<b>Name:</b> Université Catholique de Louvain, BESO, Unité Education pour la Santé  <b>Address:</b> Avenue Mounier, 50 B - 1200 BRUXELLES  <b>Telephone:</b> +32 2 764 50 70  <b>Fax:</b> +32 2 764 50 74  <b>Contact person:</b> Prof. Pierre MACQ	<ul style="list-style-type: none"> <li>• Institute of Tropical Medicine, Antwerpen (B)</li> <li>• Comité Français pour le Développement du programme HOPE, Nantes (F)</li> <li>• Health Education research Unit, University of Cologne (D)</li> <li>• Hellenic Society for Social Pediatrics and Health Promotion, Athens (GR)</li> <li>• AIDS Berodung, Red Cross Luxembourg (L)</li> <li>• Dept. of General Practice, Academic Medical Centre, Amsterdam (NL)</li> <li>• Avedis Donabedian Foundation, Barcelona (ES)</li> <li>• Infectious Diseases Unit Hospital Sant Pan, Barcelona (ES)</li> <li>• Dept. of International Health and Social Medicine Karolinska Institute (SW)</li> <li>• South Thames Regional Health Authority, London (UK)</li> <li>• Merton, Sutton &amp; Wandsworth Health Authority, London (UK)</li> </ul>
<b>START OF PROJECT:</b> 15/10/1995	<b>END OF PROJECT:</b> 15/10/1997
<b>PRODUCT:</b> A tested and modified communication training package for nurses and possibly for other health professionals, in 6 European languages, culturally adapted. Final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project aims to reduce discrimination to people with HIV/AIDS by improving communication between health professionals and patients with diverse life styles and modes of infection.</p> <p>The principal objectives will be:</p> <ul style="list-style-type: none"> <li>• to provide training that will improve communication skills of nurses and other health professionals and that will have a wider effect on the total of their preventive and therapeutic communication and assistant with patients but also with other health professionals;</li> <li>• to encourage partnership approach to ensure appropriate levels of intervention;</li> <li>• to develop a communication training package based on a literature search, a survey with patients and nurses, consultation of experts;</li> <li>• to test, evaluate, modify and disseminate the communications training package for nurses and other health professionals who are involved in the assistants for seropositive/AIDS patients.</li> </ul>	

<b>AREA OF ACTIVITY:</b> GATHERING DATA ON HIV/AIDS	
<b>TITLE OF PROJECT:</b> CO-ORDINATED NATIONAL STRATEGIES AND APPROACHES TO MEETING TRAINING NEEDS IN RELATION TO HIV/AIDS SUPPORT	
<b>ORGANISATION:</b>	<b>PARTNER ORGANISATIONS:</b>
<b>Name:</b> Universities of England Consortium for International Activities <b>Address:</b> Claremont Place, 4 UK - SHEFFIELD S10 2TB <b>Telephone:</b> +44 114 272 66 61 <b>Fax:</b> +44 114 278 82 26 <b>Contact person:</b> Mrs Gillian MONAGHAN	<ul style="list-style-type: none"> <li>• Escuela Andaluza de Salud Publica (EASP), Granada (ES)</li> <li>• University of Athens, School of Health Sciences Athens (GR)</li> <li>• Liga Protuguesa Contra la Sida, Lisboa (PT)</li> </ul>
<b>START OF PROJECT:</b> 15/05/1994	<b>END OF PROJECT:</b> 15/07/1996
<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project aimed at coordinating national strategies and approaches to meeting training needs in relation to HIV/AIDS support. This project involves four Member States: Greece, Italy, Spain and Portugal.</p> <p>Main objectives:</p> <ul style="list-style-type: none"> <li>• To establish a broad based and participatory consultation process for identifying needs for HIV/AIDS training to support community-based health promotion/support activities undertaken by health/social support staff and volunteers within government and NGO's in Greece, Italy, Portugal and Spain.</li> <li>• To develop viable strategies for the training of providers of HIV/AIDS training for community-based assistance/health promotion in the same four Member States.</li> <li>• To identify suitable training approaches that can be used for supporting community-based health promotion.</li> <li>• To develop guidelines that might be followed by other Member States who may wish to determine national HIV/AIDS training needs, strategies and approaches.</li> </ul>	

<b>AREA OF ACTIVITY:</b> GATHERING DATA ON HIV/AIDS	
<b>TITLE OF PROJECT:</b> DEVELOPMENT OF A NETWORK OF HEALTH PROMOTION ACTIVITIES ON AIDS AND A SUPPORT RESOURCE CENTRE	
<b>ORGANISATION:</b>	<b>PARTNER ORGANISATIONS:</b>
<b>Name:</b> Escuela Andaluza de Salud Publica <b>Address:</b> Campus Universitario de Cartiya Apdo de Correos 2070 ES - 18080 GRANADA <b>Telephone:</b> +34 58 16 10 44 <b>Fax:</b> +34 58 16 11 42 <b>Contact person:</b> Dr. Francisco Javier CATALA	<ul style="list-style-type: none"> <li>• Centro Italiano di Solidarietà, Roma (IT)</li> <li>• Universities of England Consortium for International Activities, Sheffield (UK)</li> </ul>
<b>START OF PROJECT:</b> 01/05/1995	<b>END OF PROJECT:</b> 01/11/1996
<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project for the exchange of experiences and health promotion resources on AIDS and an identification of HIV/AIDS training activities to support community based health promotion activities for health/social staff and volunteers within NGOs in four Member States: Greece, Italy, Portugal and Spain involving the following:</p> <ul style="list-style-type: none"> <li>• Contact producers of health promotion resources on AIDS.</li> <li>• Acquirement of health promotion resources on AIDS from the four Member States involved.</li> <li>• Mailing of questionnaires to AIDS prevention and support centres, schools, etc... so as to locate individuals or institutions developing health promotion interventions.           <ul style="list-style-type: none"> <li>- Meetings and workshops with health workers, youth leaders and teachers where the material compiled has been exhibited and evaluated and where they have learned to make their own material or adapt what is available for their target population.</li> <li>- Evaluation of AIDS health promotion material workshop for school teachers, youth leaders and journalists,</li> <li>- Open discussion on youth and sexuality for participants of IV Public Health and Health Administration Meeting,</li> <li>- Open discussion for participants of course on AIDS: intervention strategies in different population groups organised by the Andalusian School of Public Health,</li> <li>- Meeting of Health Promotion Activities Network members working on AIDS, where the main theme would be training needs. The draft action plans for HIV/AIDS training in Greece, Italy, Portugal and Spain produced by UNECIA have been presented. The draft catalogue and network issue have been discussed and edited according to the suggestions of assistants.</li> </ul> </li> <li>• Evaluation of workshops by participants.</li> <li>• Publication of a catalogue (2000 copies) in four languages on health promotion resources for AIDS prevention including illustrations, bibliography and where to obtain them. Publication an issue of the Health Promotion Activities Network guide dedicated to AIDS (1500 copies) and a floppy disk with the database.</li> <li>• Evaluation of the cost-effectiveness of the Health Promotion Activities Network on AIDS with a questionnaire (inquiring on number of contacts, exchanges of information that have taken place, etc...).</li> </ul>

<b>START OF PROJECT:</b> 15/03/1995	<b>END OF PROJECT:</b> 15/02/1997
<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project serving to demonstrate the availability of primary and secondary prevention techniques to different levels of health and social workers and to broaden the scope of current services by emphasising action at the community and ambulatory level, and reducing the load on tertiary health care programmes. Six Member States were involved in this project: ES, P, GR, I, IRL, UK.</p> <p>Main objectives were:</p> <ul style="list-style-type: none"> <li>• to enhance the capacity of health and social workers in drug related counselling by using innovative training techniques;</li> <li>• to reduce the number of young people experimenting and using illicit drugs;</li> <li>• to reduce morbidity, mortality and social problems associated with drug misuse;</li> <li>• to monitor and evaluate the approach.</li> </ul>	

<b>AREA OF ACTIVITY:</b> GATHERING DATA ON HIV/AIDS	
<b>TITLE OF PROJECT:</b> CORRELATES OF NON-PROGRESSION IN HIV-1 INFECTION: A WORKSHOP ON METHODOLOGICAL ISSUES AND SCIENTIFIC PRIORITIES	
<b>ORGANISATION:</b> <b>Name:</b> Charing Cross and Westminster Medical School <b>Address:</b> 369, Fulham Road UK - LONDON SW10 9TH <b>Telephone:</b> +44 181 846 65 15 <b>Fax:</b> +44 181 846 61 98 <b>contact person:</b> Mr P.J.R. MURRAY-SMITH	<b>PARTNER ORGANISATIONS:</b>
<b>START OF PROJECT:</b> 01/08/1995	<b>END OF PROJECT:</b> 01/08/1996
<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>  Workshop on methodological issues and scientific priorities for the study of "HIV non-progressors" (long-term HIV-1 infected individuals without apparent clinical or immunologic progression).  Specific objectives:  <ul style="list-style-type: none"> <li>• a critical evaluation of existing studies of HIV non-progression; development of standardised criteria for defining non-progressors and appropriate control groups for epidemiological and laboratory-based studies, as well as related but distinct groups, such as long-term AIDS survivors;</li> <li>• preliminary estimation of the proportion of "non-progressors" according to risk group, gender and age using a standardised case definition and based on data from 5-6 established patients cohorts;</li> <li>• review of current biological hypotheses by leading basic scientists in the field, and establishment of scientific priorities for future studies of HIV-1 non-progression;</li> <li>• establish the feasibility of pooling data sets from other European patients cohorts. To quantify more reliably clinical and biological factors associated with non-progression;</li> <li>• to create a network of epidemiologists, biostatisticians, clinicians and basic scientists involved in studies of "HIV non-progressors".</li> </ul>

<b>AREA OF ACTIVITY:</b> COMBATING DISCRIMINATION AGAINST PEOPLE WITH HIV AND AIDS AND THOSE CLOSE TO THEM	
<b>TITLE OF THE PROJECT:</b> DISCRIMINATION AGAINST PEOPLE WITH HIV AND AIDS: IMPLICATIONS FOR LEGAL AND PUBLIC HEALTH SERVICE DELIVERY	
<b>ORGANISATION:</b>	<b>PARTNER ORGANISATIONS:</b>
<b>Name:</b> Institute for Advanced Legal Studies, University of London. <b>Address:</b> Charles Clore House UK - LONDON WC1B5DR <b>Telephone:</b> +44 171 637 17 31 <b>Fax:</b> +44 171 580 96 13 <b>Contact person:</b> Prof. Avrom SHERR	<ul style="list-style-type: none"> <li>• Universities of England Consortium for International Activities (UK)</li> <li>• Ministerie van Justitie, den Haag (NL)</li> <li>• Dept. of Public law, University of Oslo (N)</li> <li>• Faculté de Droit, Université de Paris X (F)</li> <li>• Faculty of Law, European University Institute, Firenze (I)</li> <li>• Fachhochschule, Furtwangen (D)</li> <li>• London Landmark (UK)</li> <li>• Royal Free Hospital Medical School and AIDSs Care, London (UK)</li> <li>• Legal Aid Board, London (UK)</li> <li>• Terence Higgins Trust, London (UK)</li> </ul>
<b>START OF PROJECT:</b> 01/08/1995	<b>END OF PROJECT:</b> 01/10/1997
<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project aimed at analysing the implications of discrimination against people with HIV and AIDS for legal and public health service delivery. Six other countries will be involved in this project: France, Germany, Italy, Spain, Netherlands and Norway. The project was intended to provide models for best practice for legal service delivery as well as an immediate forum for debate and to stimulate further debate concerning discrimination issues in relation to HIV/AIDS sufferers during the period of the project. Each individual part of the project provides a clear map of discrimination cases in each country and legal services delivery there. The final report provides clear policy guidance. Both the initial individual reports from each country and the final comprehensive report provide assistance at the individual Member State level and across the Community in understanding both the current situation and alternative possibilities for legal support in relation to discrimination issues. They also provide a view of best practice options and outline the policy implications of different approaches for follow up of the project.</p> <p>Main objectives:</p> <ul style="list-style-type: none"> <li>• to examine the provision of legal services in the area of discrimination issues and identify strategy and policy in the European context,</li> <li>• to identify "best practice" approaches and efficient balance between public health service and public legal service operations concerning discrimination,</li> <li>• to document cases arising from discrimination against people with HIV and AIDS and the resource, training, policy and research implications of such discrimination from the point of view of consumers (people in general, people with HIV/AIDS), health assistance providers, legal service providers and policy makers.</li> </ul>	

<b>AREA OF ACTIVITY:</b> COMBATING DISCRIMINATION AGAINST PEOPLE WITH HIV AND AIDS AND THOSE CLOSE TO THEM	
<b>TITLE OF PROJECT:</b> IDENTIFICATION OF BARRIERS TO ANTI-DISCRIMINATORY MEASURES IN ALL MEMBER STATES AND DEVELOPMENT OF GUIDELINES FOR ACTION	
<b>ORGANISATION:</b>	<b>PARTNER ORGANISATIONS:</b>
<b>Name:</b> Universities of England Consortium for International Activities <b>Address:</b> Claremont Place, 4 UK - SHEFFIELD S102TB <b>Telephone:</b> +44 114 272 66 61 <b>Fax:</b> +44 114 272 82 26 <b>Contact person:</b> Mrs Gillian MONAGHAN	<ul style="list-style-type: none"> <li>• Institute for Advanced Legal Studies, London (UK)</li> <li>• University of London (IALS) (UK)</li> <li>• Health Law Section, Amsterdam (NL)</li> <li>• Lithuanian Ministry of Health, Lithuania</li> <li>• EUROCASO, Vicenza (I)</li> </ul>
<b>START OF PROJECT:</b> 15/05/1995	<b>END OF PROJECT:</b> 15/05/1996
<b>PRODUCT:</b> final report including a copy of each document produced in the framework of the project	
<b>OBJECTIVES AND CONTENTS OF THE PROJECT:</b>	
<p>Project aimed to promote national adherence to anti-discriminatory measures in Member States with particular reference to employment, insurance, housing, education and the health support system. It also sought to identify means and processes whereby such discrimination may be avoided or reduced in a collaboration across Member States. This project builds upon the work carried out by UNECIA in the framework of the "Europe against AIDS" programme, in 1993 (Feasibility of drawing up a European code on HIV/AIDS and discrimination). This has entailed the setting up of a European Working Group. This group has assessed the feasibility, possible content, processes for preparation and dissemination and added value of a general European code on discrimination against people with HIV/AIDS and those close to them.</p>
