A SELECTED BIBLIOGRAPHY OF WORLD PERIODICALS OF ENERGY INTEREST

Commission of the European Communities
Directorate-General 'Scientific and Technical Information and Information Management'
Luxembourg, 1977 - 66 Pages - FB. 100.—

The list of periodicals given in this report results from a selection made by a group of national experts of the Committee for Information and Documentation in Science and Technology (CIDST) on Energy Documentation. This selection has been made from more than 2 250 titles of journals used in the Community Countries by 22 organizations having a main interest in one or several sectors of energy information.

The primary journals are presented in alphabetical order both by titles and by countries of origin.

The list of abstracts journals is given in addition.

COMMISSION OF THE EUROPEAN COMMUNITIES

LEGAL NOTICE

Neither the Commission of the European Communities nor any person acting on behalf of the Commission is responsible for the use which might be made of the following information.

ABSTRACT

The list of periodicals given in this report results from a selection made by a group of national experts of the Committee for Information and Documentation in Science and Technology (CIDST) on Energy Documentation. This selection has been made from more than 2 250 titles of journals used in the Community Countries by 22 organizations having a main interest in one or several sectors of energy information.

The primary journals are presented in alphabetical order both by titles and by countries of origin.

The list of abstracts journals is given in addition.

TABLE OF CONTENTS

Acknowledgment	7
Alphabetical list of journals by titles	9
Alphabetical list of journals by countries	35
Alphabetical list of secondary literature	63
Directories	65
Manuals	66

ACKNOWLEDGMENT

This bibliography is, in a real sense, the result of a collaboration work of many people who provided the data and gave their help and knowledge for selection.

I am therefore grateful to all national experts of the "Inventories" Working Group of the CIDST Ad-Hoc "Energy documentation" Group, for their time and trouble in the setting up of this issue.

My special thanks too, to Mrs.E. ALLAIRE of the Centre de Documentation des Sciences Humaines" - C.N.R.S., Paris, as well as to the Commission of the European Communities, for support and facilities to carry out the printing.

M. MAURICE

Secretary of the CIDST
Ad Hoc "Energy documentation" Group
