## E I N L E I T U N G

-----

Das bei der Euratom-Zentralstelle für Information und Dokumentation (CID) errichtete halb-automatische Dokumentationssystem erfasst die Sachgebiete Kernwissenschaft und Kerntechnik.

Da jedoch die Kerntechnik kein monolithisches Gebilde ist, sondern einen Querschnitt durch zahlreiche Techniken und Disziplinen darstellt, gehen viele der bei der CID angeforderten Dokumentationsrecherchen über den rein nuklearen Bereich hinaus.

Keine Dokumentationsstelle, und sei sie noch so gut ausgerüstet, ist in der Lage, Dokumentation sowohl über Randgebiete als auch über ihr eigenes Spezialgebiet auszuwerten und zu speichern. Die CID ist daher auf die Unterstützung von Spezialdokumentationsdiensten angewiesen, die bereit sind, zu einer Zusammenarbeit.

Diese Ueberlegungen haben die CID veranlasst, eine Untersuchung über Dokumentationsstellen und -dienste für die verschiedenen wissenschaftlich-technischen Fachgebiete durchzuführen, um zu ermitteln, welche bereit sind Literaturrecherchen auszuführen.

Die Ergebnisse dieser Erhebung sind in der vorliegenden Broschüre verarbeitet. (Belgien 20, Frankreich 35, Deutschland 51, Italien 11, Niederlande 28, insgesamt 145 Dokumentationsstellen).

Eine gewisse Anzahl von Dokumentationsstellen sind in dieser Broschüre nicht aufgeführt:

- a) diejenigen, die auf die Umfrage der CID nicht geantwortet haben (137 von 586);
- b) diejenigen, die aus gleichwelchem Grunde sich nicht in der Lage sahen, mit der CID zusammenzuarbeiten (304 von 449);
- c) diejenigen, die in Anbetracht ihres kommerziellen Charakters (gewerbliche Unternehmen) in der Umfrageaktion nicht aufgenommen wurden;
- d) Internationale Organisationen.

Für die Benutzer des halbautomatischen Dokumentationssystems der CID, die bei dem Erhalt einer Antwort auf ihren Suchantrag, den nichtnuklearen Charakter ihre Anfrage zu wenig betont finden, wird es sicherlich lohnend sein in dieser Broschüre nachzuschlagen. Die hier aufgeführten Spezialdokumentationsstellen sind bereit, zu den jeweils genannten Bedingungen Literaturrecherchen auf

den Rand- oder Grenzgebieten der Kernwissen-  
schaft und der Kerntechnik durchzuführen oder  
sie zu ergänzen.

## ANLEITUNG ZUR BENUTZUNG DIESER BROSCHUERE

---

TEIL I enthält den alphabetischen Index der Sachgebiete.

Die einzelnen Dokumentationsstellen erscheinen mit Angabe des Landes und der laufenden Nummer unter den für ihr jeweiliges Fachgebiet charakteristischen Schlagwörtern.

Beispiel:

Alloys Technology

France:	3,4,14,19,27,35
Germany:	20
Italy:	3,4
Netherlands:	15,17

Dieser Index enthält auch einige kern-technische und kernwissenschaftliche Fachgebiete. Der Grund dafür ist der folgende: eine Anzahl von Dokumentationsstellen erfasst auch - ausserhalb und neben ihrer Spezialisierungen auf nuklearen Randgebieten - Dokumentation nukleartechnischen Charakters.

Dokumentationsstellen, die mehrere Spezialgebiete erfassen, werden unter jedem Schlagwort aufgeführt, das in den Rahmen ihres Zuständigkeitsgebiete fällt.

Nachdem der Leser im Index die Stellen herausgesucht hat, die über die ein-

schlägige Spezialdokumentation für die interessierende Frage verfügen findet er in Teil II die genauen Angaben über die betreffenden Dokumentationsstellen.

Mit diesen kann er sich dann unter Bezugnahme auf die Umfrage der CID unmittelbar in Verbindung setzen.

TEIL II enthält - in englischer Sprache - die näheren Angaben über die Dokumentationsstellen in den einzelnen Mitgliedsstaaten, die sich bereit erklärt haben, mit der CID zusammenzuarbeiten und auf Anforderung Literatur-Recherchen durchzuführen.

Neben der vollständigen Bezeichnung, der Anschrift, der Telefonnummer, der Telexnummer und der Drahtanschrift enthält dieser Text für die einzelnen Dokumentationsstellen folgende Angaben:

- Subject coverage (special fields and related topics)  
(Sachgebiete (spezielle Interessen- und Randgebiete);
- Sources of Documentation  
(Quellen der Dokumentation);
- Type of references derived from the analysis of documentation sources  
(Form und Art der lieferbaren Literaturreferenzen);
- Conditions for undertaking literature searches on request  
(Bedingungen für den Erhalt von Literatursuchen);

- Availability of the documentation  
(access)  
(Zugang zu Dokumentationsmaterial);
- Publications  
(Veröffentlichungen)

Geordnet ist das Material nach  
Ländern und innerhalb der Länder nach  
laufenden Nummern.

"I do not expect a man  
"to know the answer to  
"every question, but if  
"he does not know it,  
"I expect him to know  
"who does or where it  
"can be found"

## I N T R O D U C T I O N

-----

Le Système automatisé de documentation mis en oeuvre par le Centre d'information et de documentation (CID) d'Euratom couvre les sciences et les techniques nucléaires.

Or, la technologie nucléaire n'étant pas monolithique mais constituant le point de convergence de techniques et de disciplines variées, un grand nombre de demandes de recherches documentaires reçues par le CID dépassent le cadre purement nucléaire.

Le CID, comme tout autre centre de documentation, n'est pas en mesure de posséder et d'exploiter une documentation débordant trop largement sa propre spécialité. Aussi a-t-il procédé à une enquête sur les centres et services de documentation qui existent dans les divers secteurs de la science et de la technologie pour déterminer ceux qui sont prêts à collaborer avec lui dans des secteurs que le CID ne couvre pas.

On trouvera dans cette brochure les résultats de cette enquête. (Belgique 20, France 35, Allemagne 51, Italie 11, Pays-Bas 28, au total 145 Centres de Documentation).

Un certain nombre de Centres de Documentation ne figurent pas dans cette brochure:

- a) ceux qui n'ont pas répondu au questionnaire du CID (137 sur 586 contactés);
- b) ceux qui pour des raisons différentes, ne sont pas en mesure de collaborer avec le CID (304 sur 449 réponses reçues);
- c) ceux qui vu leur caractère purement commercial (entreprises à but lucratif) n'ont pas été contactés;
- d) les organisations internationales.

Les utilisateurs du Système automatisé de documentation nucléaire qui, en réponse à une demande de recherche documentaire, auraient reçu du CID une réponse insuffisante parce que leur problème déborde le cadre purement nucléaire auront intérêt à compléter leur information en s'adressant à l'un ou l'autre des centres de documentation répertoriés dans cette brochure, qui - suivant les conditions indiquées - sont disposés à effectuer des recherches documentaires sur demande.

## COMMENT UTILISER CETTE BROCHURE

---

LA Ire PARTIE donne la liste alphabétique des catégories de secteurs.

Chaque centre de documentation figure dans l'index sous les mots clés (secteurs) correspondant à ses spécialisations, avec indication du pays et du numéro d'ordre.

Exemple:

Alloys Technology

France:	3,4,14,19,27,35
Germany:	20
Italy:	3,4
Netherlands:	15,17

Dans cet Index figurent également quelques secteurs nucléaires, du fait qu'un certain nombre de Centres de Documentation possèdent et exploitent une documentation nucléaire, en dehors et à côté de leurs spécialisations dans les domaines marginaux.

Les centres dont la documentation couvre plusieurs spécialisations sont repris sous chaque mot clé correspondant à ces domaines.

Après avoir consulté cet index et déterminé ainsi le ou les centres qui possèdent la docu-

mentation spécialisée pertinente, le lecteur trouvera dans la IIe partie des indications analytiques détaillées concernant ces centres.

Il pourra ensuite prendre contact avec eux en se référant au CID.

LA IIe PARTIE contient la description des centres de documentation des pays membres ayant accepté de prêter leur concours au CID pour effectuer des recherches documentaires sur demande.

Ces descriptions, rédigées en anglais, précisent les indications suivantes (en plus du nom complet, de l'adresse, des numéros de téléphone et de télex, ainsi que de l'adresse télégraphique):

- Subject coverage (special fields and related topics)  
(Domaine couverts);
- Sources of documentation  
(Sources de documentation);
- Type of references derived from the analysis of documentation sources  
(Formed données par ces centres aux analyses effectuées);
- Conditions for undertaking literature searches on request

(Conditions d'exécution des recherches documentaires sur demande);

- Availability of the documentation (access)  
(Disponibilité des documents (accès));
- Publications  
(Publications).

Les analyses sont groupées par pays et, à l'intérieur de chaque pays, par ordre numérique.

"I do not expect a man  
"to know the answer to  
"every question, but if  
"he does not know it,  
"I expect him to know  
"who does or where it  
"can be found"

## I N T R O D U Z I O N E

-----

Il sistema di documentazione meccanizzata installato dal Centro di Informazione e di Documentazione (CID) dell'Euratom ha per oggetto alla scienza e alla tecnologia nucleari.

Tuttavia, siccome la tecnologia nucleare non ha struttura monolitica, ma è un mosaico di tutta una serie di discipline diverse, certe richieste di reperimento di documenti che vengono rivolte al CID esorbitano dalla sfera nucleare propriamente detta e investono aree "marginali", ovvero delle aree semplicemente apparentate alla scienza nucleare o addirittura ad essa estranee.

Nessun centro di documentazione, per quanto ben attrezzato, è in grado di conservare e trattare una documentazione comprendente tutte queste aree marginali, oltre al proprio settore specifico. Questo è il motivo per cui è stata richiesta l'assistenza di quei Centri e Servizi che sono specializzati in altri

settori della documentazione che sono disposti a cooperare col CID.

Queste considerazioni, scaturite come sono da una vera e propria necessità, hanno indotto il CID a svolgere un'indagine tra i Centri e i Servizi di documentazione pubblici o privati, nazionali o internazionali, competenti per i vari rami della scienza e della tecnologia, al fine di identificare quelli che sono disposti a collaborare attivamente con esso, cioè a intraprendere le ricerche bibliografiche richieste o dal CID stesso, o da uomini di scienza, da industriali, ecc. invitati dal CID a prendere contatto con loro.

Nel presente opuscolo vengono illustrati i risultati di queste indagini. (Belgio 20, Francia 35, Germania 51, Italia 11, Paese Bassi 28, in tutto 145 Centri di Documentazione).

Non figurano nel presente opuscolo i Centri di Documentazione che:

- a) non hanno risposto al questionario del CID (137 su 586 interpellati);
- b) per vari motivi non sono in grado di collaborare con il CID (304 su 449 risposte);
- c) non sono stati presi in considerazione visto il loro carattere puramente commerciale (organizzazioni a scopo di lucro);
- d) le organizzazioni internazionali.

Alle parti interessate che durante la ricerca di documenti hanno ricevuto dal CID riferimenti ad opere riguardanti direttamente il settore nucleare, può tornar utile consultare questo

opuscolo, se e quando i loro problemi esulano dalla sfera propriamente nucleare. Interpellati, i Centri e i Servizi di documentazione specializzati svolgeranno o completeranno - alle condizioni indicate - le ricerche bibliografiche nei settori connessi o marginali della scienza e della tecnologia nucleari.

## COME CONSULTARE L'OPUSCOLO

---

LA PARTE I è l'Elenco Alfabetico delle categorie di soggetti.

In questo Indice ogni centro di documentazione figura sotto le parole chiave (soggetti) corrispondenti alle loro specialità, unitamente all'indicazione del paese e del numero di serie.

Esempio:

Alloys Technology

France:	3,4,14,19,27,35
Germany:	20
Italy:	3,4
Netherlands:	15,17

Nel presente indice figurano anche alcuni settori nucleari, ciò è dovuto al fatto che un certo numero di Centri di Documentazione posseggono e sfruttano una documentazione nucleare, in aggiunta e a margine di quella relativa alla loro specializzazione.

I Centri la cui documentazione si estende a più specialità figurano sotto tutte parole chiave di pertinenza.

Dopo aver consultato questo Indice e determinato così il Centro o i Centri che, possedendo la documentazione specializzata, il lettore troverà nella Parte II i riferimenti analitici completi e particolareggiati dei Centri in questione.

Il Centro o i Centri così selezionati possono essere interpellati facendo riferimento all'indagine svolta dal CID.

LA PARTE II contiene la descrizione di quei centri di documentazione dei Paesi membri che hanno accettato di cooperare con il CID svolgendo, dietro richiesta, delle ricerche bibliografiche.

Per ogni centro vengono fornite le seguenti informazioni (oltre al nome completo, indirizzo, numero di telefono, di telex e indirizzo telegrafico):

- Subject coverage (special fields and related topics)  
(Campo in cui il centro svolge la propria attività);
- Sources of documentation  
(Fonti di documentazione);
- Type of references derived from the analysis of documentation sources  
(Tipo dell'analisi documentaria effettuata);

- Conditions for undertaking literature searches on request (Condizioni di esecuzione delle ricerche bibliografiche);
- Availability of the documentation (access) (Disponibilità della documentazione);
- Publications (Pubblicazioni).

Le analisi sono ordinate per paese e in ordine numerico.

"I do not expect a man  
"to know the answer to  
"every question, but if  
"he does not know it,  
"I expect him to know  
"who does or where it  
"can be found"

## I N L E I D I N G

-----

Het gemechaniseerde documentatiesysteem dat door Euratoms Centrum voor Informatie en Documentatie (CID) is ontworpen bestrijkt de nucleaire wetenschap en technologie.

Aangezien de nucleaire technologie echter geen op zichzelf staande wetenschap is, maar allerlei technieken en takken van wetenschap doorkruist, vallen vele aanvragen voor documentatie die bij het CID binnenkomen buiten de zuiver nucleaire sector.

Geen enkel documentatiecentrum, hoe goed het ook is uitgerust, is in staat een documentatie te verzamelen en doeltreffend te benutten, die zowel het eigen speciale gebied als de marginale gebieden bestrijkt.

Deze overwegingen hebben het CID ertoe gebracht een onderzoek in te stellen naar de documentatiecentra en -diensten in de ver-

schillende takken van wetenschap en technologie, die bereid zijn actief met het CID samen te werken, d.w.z. literatuurrecherches te verrichten op verzoek van het CID zelf, of van wetenschappen, technici enz., die het CID naar hen heeft verwezen.

De resultaten van dit onderzoek zijn in deze brochure weergegeven. (België 20, Frankrijk 35, Duitsland 51, Italië 11, Nederland 28, in totaal 145 documentatiecentra).

Een aantal documentatiecentra zijn niet in de brochure opgenomen:

- a) die, welke niet op de vragenlijst van het CID hebben geantwoord (137 van de 586 gecontacteerde);
- b) die, welke om een of andere reden niet in de gelegenheid zijn om met het CID samen te werken (304 van de 449 ontvangen antwoorden);
- c) die, welke op grond van de overweging dat het commerciële instellingen zijn, niet werden benaderd;
- d) internationale organisaties.

Voor belangstellenden, die als resultaat van een opdracht, waarvan het onderwerp gedeeltelijk niet nucleair is, van het CID verwijzingen naar uitsluitend nucleaire literatuur hebben gekregen is het de moeite waard deze brochure te raadplegen. De hierin genoemde gespecialiseerde documentatiediensten zullen op vastgestelde voorwaarden het literatuuronderzoek uitvoeren of completeren.

## HANDLEIDING BIJ DE BROCHURE

-----

DEEL I bevat een alfabetische index van de klassen en categorieën, waarin de onderwerpen zijn verdeeld.

In deze alfabetische index is elk documentatiecentrum weergegeven onder de trefwoorden van zijn specialismen, door aanduiding van land en nummer van het centrum.

Voorbeeld:

### Alloys Technology

France:	3,4,14,19,27,35
Germany:	20
Italy:	3,4
Netherlands:	15,17

Het register bevat ook verwijzingen naar nucleaire onderwerpen, tengevolge van het feit dat een aantal documentatiecentra, boven en naast hun voornaamste specialisatie in een of meer randgebieden, ook actief zijn op het gebied van de nucleaire wetenschap en techniek.

Centra wier documentatie verscheidene specialismen bestrijkt zijn te vinden onder elk trefwoord dat hun vakgebied omschrijft.

Na aan de hand van deze index te het ben vastgesteld welk centrum of welke centra over de gespecialiseerde documentatie beschikt, zal de lezer in Deel II een volledige en uitvoerige analytische beschrijving van de desbetreffende centra aantreffen.

Hij kan dan met het(de) aldus uitgekozen centrum(centra) contact opnemen onder verwijzing naar de door het CID gehouden enquête.

DEEL II bevat de beschrijvingen van de documentatiecentra in de Lid-Staten, die zich bereid hebben verklaard samen te werken met het CID bij het uitvoeren van opdrachten voor literatuuronderzoek.

Deze beschrijvingen bevatten (behalve volledige naam, adres, telefoonnummer, telexnummer en telegramadres) de volgende gegevens:

- Subject coverage (special fields and related topics)  
(Bestreken gebied);
- Sources of documentation  
(Literatuurbronnen);
- Type of references derived from the analysis of documentation sources  
(Presentatie van de door analyse van de literatuur verkregen gegevens);

- Conditions for undertaking literature searches on request  
(Voorwaarden voor het uitvoeren van literatuuronderzoek);
- Availability of the documentation  
(access)  
(Beschikbaarheid van de literatuur);
- Publications  
(Publicaties).

Deze beschrijvingen zijn per land in numerieke volgorde gerangschikt.

"I do not expect a man  
"to know the answer to  
"every question, but if  
"he does not know it,  
"I expect him to know  
"who does or where it  
"can be found"

## I N T R O D U C T I O N

-----

The mechanised documentation system which has been created by Euratom's Center for Information and Documentation (CID) covers nuclear science and technology.

However, as nuclear technology is not monolithic in structure but comprises a variety of techniques and disciplines, many of the requests for document retrieval which the CID receives stretch beyond the purely nuclear sphere.

No documentation center, however well equipped, has the capacity to store and use documentation on marginal areas beyond its own special field.

These considerations have led the CID to conduct a survey on documentation Centers and Services in the various branches of science and technology, to find out those willing to co-operate in fields outside of its own.

The results of this investigation are presented in this brochure. (Belgium 20, France 35, Germany 51, Italy 11, Netherlands 28, in total 145 Documentation Centers).

A certain number of Documentation Centres are not listed in this brochure:

- a) those, which did not reply to the CID's questionnaire (137 out of 586 contacted);
- b) those, which for various reasons are not in a position to co-operate with the CID (304 out of 449 replies received);
- c) those, which in view of being a business enterprise, have not been contacted;
- d) international organizations.

Users of the mechanized documentation system who may have received from the CID, in reply to their queries, answers which are incomplete owing to the non-specifically nuclear character of their problem, will find it worthwhile to consult this brochure and to contact the relevant Documentation Centers listed, which will carry out or complete - under the stated conditions - the requested literature searches.

## HOW TO USE THIS BROCHURE

-----

PART I is an Alphabetical Index of the Subject Categories.

In this Index Documentation Centers appear under the keywords (subjects) of their specializations with an indication of their country and their serial number.

Example:

Alloys Technology

France:	3,4,14,19,27,35
Germany:	20
Italy:	3,4
Netherlands:	15,17

This Index contains also references to nuclear subjects. The reason is the following: a certain number of Documentation Centers possess documentation dealing with nuclear science and technology outside and beside their main specialization in border-line fields.

Centers whose documentation covers several specializations appear under each keyword to which their competence extends.

After having consulted this Index and determined the relevant Center or Centers, the reader will find in

Part II, detailed analytical entries on these Centers.

He may then contact them with reference to the CID.

PART II contains the descriptions of those Documentation Centers in the member countries, which have accepted to co-operate with the CID in carrying out literature searches on request.

These descriptions give the following information (in addition to the full name, address, telephone number, telex number and telegraphic address):

- Subject coverage (special fields and related topics);
- Sources of documentation;
- Type of references derived from the analysis of documentation sources;
- Conditions for undertaking literature searches on request;
- Availability of the documentation (access);
- Publications.

These descriptions are arranged by country in numerical order.

B E L G I U M - 1

ASSOCIATION ROYALE DES GAZIERS BELGES

Bruxelles 4, 4, avenue Palmerston. Tel.: 33-56-67.

Subject coverage:

GAS technology.

Sources of documentation:

Books, periodicals, abstracting and indexing journals.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation - (Access):

On the spot consultation, reproductions (no loans).

Publications:

Primary periodicals: "Revue générale du gaz"  
(6 times a year).

Special (subject) bibliographies: in "Revue générale  
du Gaz".

B E L G I U M - 2

BECETEL - CENTRE BELGE D'ETUDES TECHNOLOGIQUES SUR TUYAUTERIES  
ET ACCESSOIRES

Gand, 41, St. Pietersnieuwstraat      tel.: 25-75-71

Subject coverage:

TUBES, pipes, ducts in plastics, materials testing,  
hydrology.

Sources of documentation:

Periodicals and reports.

References derived from the analysis of documentation sources:

Not stated.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

Loans (not on the spot consultations, no reproductions).

Publications:

Technical and research reports.

B E L G I U M - 3

BELGISCH TEXTIEL EN KUNSTSTOFFENINSTITUUT - DOCUMENTATIECENTRUM

Gent, 214 Voskenslaan

tel.: (09)22-30-25

Subject coverage:

The Centre is specialised in the multiple aspects of TEXTILE technology and industry (fibres, spinning, weaving, knitting, not conventional production methods, dyeing, printing, finishing, washing, drycleaning, fundamental research) as well as in PLASTICS (raw materials, polymerization, applications, additional products, mechanical and chemical technology, toxicology, fundamental research.

Related topics are: general organic chemistry, analytical procedures, industrial applications of isotopes and radiations.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Primary periodicals:	Revue Textilis (monthly)
Abstracting and indexing journals:	Periodiek van de Tijdschriften (6 times a year)
Specialised (subject) bibliographies:	in Revue Textilis

B E L G I U M - 5

CEBELCOR - CENTRE BELGE D'ETUDE DE LA CORROSION

Bruxelles 5, 24, rue des Chevaliers. tel.: 13-33-66

Subject coverage:

CORROSION

Related topics are: electro-chemistry, chemical and electro-chemical thermodynamics.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Bibliographical data and abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case, or in line with an existing schedule of charges.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Specialised (subject) bibliographies: Published as  
Rapports Techniques CEBELCOR  
Miscellaneous: Technical Reports.

B E L G I U M - 6

CEDOC - CENTRE BELGE DE DOCUMENTATION ET D'INFORMATION DE LA  
CONSTRUCTION

Bruxelles 5, 11, rue de l'Esplanade. tel.: 12-68-23.

Subject coverage:

The Centre is specialised in the multiple aspects  
CONSTRUCTION, building technology, architecture and  
town-planning.

Related topics are: manufacture, properties and struc-  
ture, corrosion of metals, ceramics and other  
materials for building.

Sources of documentation:

Abstracting and indexing journals, outside consulta-  
tion (member of the International Council for  
Building Research, Studies and Documentation).

References derived from the analysis of documentation sources:

Bibliographical references only.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Abstracting and indexing journals: CEDOC-Biblio  
(6 times a year).

B E L G I U M - 7

CENTRE D'INFORMATION DE L'ETAIN

Bruxelles 1, 31, rue du Marais

tel.: 18-80-30

Subject coverage:

The Centre is specialised in the multiple aspects of TIN technology: chemical and mechanical properties, analysis, testing, applications, alloys, organic and inorganic compounds.

Sources of documentation:

Books, periodicals, reports.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Free of charge.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Primary periodicals:	L'étain et ses usages (quarterly)
Abstracting and indexing journals :	" " " "
Specialised (subject) bibliographies ;	in L'étain et ses usages
Miscellaneous:	Annual and Technical Reports (of the Tin Research Institute, Greenford, Middlesex, England) Translations of the above into French by the C.I.E.

B E L G I U M - 8

CEP - CENTRE D'ETUDE DES MATIERES PLASTIQUES

Liège, 2, rue Armand Stévert

tel.: 52-01-80

Subject coverage:

PLASTICS. Use of plastics for and in nuclear energy, technology.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Technical and activity reports published in various periodicals.

B E L G I U M - 9

CENTRE INTERNATIONAL DES MAREES TERRESTRES

c/o Observatoire Royal de Belgique  
Bruxelles 18, 3, avenue Circulaire.

Tel.: 74-38-01

Subject coverage :

GEOPHYSICS, geodesy, study of the earth's crust, tides.

Related topics are : mathematics and computers (setting up of synchrotrons).

Sources of documentation :

Books and periodicals.

References derived from the analysis of documentation sources :

Bibliographical data only.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, exceptionally reproductions (no loans).

Publications :

Primary periodicals : Bulletin d'informations des  
Marées Terrestres  
(periodicity not stated).

Abstracting and indexing  
journals : Bibliographie générale des  
Marées Terrestres  
(periodicity not stated).

Special (subject)  
bibliographies : in Bibliographie générale  
des Marées Terrestres.

B E L G I U M - 10

CENTRE NATIONAL DU BATIMENT

Anvers, 191, avenue Jan Van Rijswijk.

tel.: 38-12-16

Subject coverage:

The Centre is specialised in the multiple aspects of ARCHITECTURE: building materials, techniques of pre-fabrication, industrial buildings, hospitals, schools, offices.

Related topics are: engineering and equipment, health and safety.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Keywords assignment.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, exceptionally reproductions (no loans).

Publications:

Primary periodicals: ) Revue d'architec-  
Abstracting and indexing journals:) ture - Bouwen en  
Wonen (periodicity  
not stated).  
Miscellaneous: : Booklets, pamphlets prepared  
for exhibitions and fairs.

B E L G I U M - 11

CENTRE NATIONAL DE DOCUMENTATION SCIENTIFIQUE ET TECHNIQUE -  
BIBLIOTHEQUE ROYALE

Bruxelles, 4, boulevard de l'Empereur. Tel.: 13-61-80

Subject coverage :

The Centre is specialised in the multiple aspects of biology, medicine, health and safety, chemistry, physics, geology, mineralogy, meteorology, mathematics and computers, metallurgy, engineering and equipment, metals, ceramics and other materials, industrial applications of isotopes and radiations, isotope separation, reactor technology, waste disposal and processing.

Sources of documentation :

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources :

Bibliographical data, keywords assignment, abstracts.

Conditions of literature searches on request :

Free of charge.

Availability of the documentation (Access) :

On the spot consultation, reproductions (no loans).

Publications :

None.

B E L G I U M - 12

CENTRE NATIONAL DE RECHERCHES SCIENTIFIQUES ET TECHNIQUES  
POUR L'INDUSTRIE CIMENTIERE

Bruxelles 5, 127, avenue Adolphe Buyl tel.: 48-36-02

Subject coverage:

The Centre is specialised in the multiple aspects of CEMENT and CONCRETE industry: non-destructive testing of concrete, heavy concrete shielding for nuclear reactors, disposal of radioactive materials.

Related topics are: Analytical chemistry, physics, building industry, town-planning.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents (planned).

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Free of charge (on a basis of reciprocity).

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Research reports.

B E L G I U M - 13

CENTRE SCIENTIFIQUE ET TECHNIQUE DE LA CONSTRUCTION

Bruxelles 1, 5, rue de la Violette.

Tel.: 13-64-20

Subject coverage :

The Centre is specialised in the multiple aspects of the BUILDING industry.

Related topics are : engineering and equipment (materials testing, instrumentation, heat transfer and fluid flow), metals, ceramics and other materials (properties and structure, corrosion).

Sources of documentation :

Books, periodicals, abstracting and indexing journals, reports, press cuttings, standards, regulations.

References derived from the analysis of documentation sources :

Keywords assignment.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, reproductions (no loans).

Publications :

Primary periodicals : C.S.T.C.-Revue (monthly)

Miscellaneous : Research and technical reports,  
Annual activity reports.

B E L G I U M - 14

COMITE BELGE DE L'ELECTROTHERMIE ET DE L'ELECTROCHIMIE

Bruxelles 1, 3, Galerie Ravenstein. tel.: 11-19-70

Subject coverage:

ELECTRO-CHEMISTRY, electro-thermodynamics.

Sources of documentation:

Periodicals and reports.

References derived from the analysis of documentation sources:

Bibliographical data and abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

Not stated.

Publications:

Primary periodicals:	Bulletin d'Information (periodicity not stated).
Abstracting and indexing journals:	Fiches bibliographiques (periodicity not stated) Fiches analytiques (periodicity not stated).

B E L G I U M - 15

FEDERATION DES INDUSTRIES AGRICOLES ET ALIMENTAIRES

Bruxelles 4, 55, rue de la Loi. tel.: 12-15-20.

Subject coverage:

The Centre is specialised in AGRICULTURE and food technology.

Related topics are: biochemistry - nutrition, applications of isotopes and radiations in agriculture.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Keywords assignment, abstracts.

Conditions of literature searches on request:

For affiliated members only (conditions not stated).

Availability of the documentation (Access):

On the spot consultation, loans (no reproductions).

Publications:

Primary periodicals:	Vita (fortnightly).
Abstracting and indexing journals:	in "Vita" part entitled: "nous lisons pour vous".

B E L G I U M - 16

INSTITUT BELGE DE LA SOUDURE

Bruxelles 5, 21, rue des Drapiers tel.: 12-28-92

Subject coverage:

The Centre is specialised in the multiple aspects of WELDING technology.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, outside consultation (Institut International de la Soudure (I.I.S.) Paris).

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

According to an existing schedule of charges.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Abstracting and indexing journals:

see Bulletin de Documentation de la Soudure, published by the I.I.S. (France)

Specialised (subject) bibliographies:

in Bulletin de Documentation de la Soudure.

B E L G I U M - 17

RIJKSLANDBOUWHOGESCHOOL

Gent, 235, Coupure Links.

tel.: 23-26-87.

Subject coverage:

The Centre is specialised in PLANT and soil analysis, food irradiation, plant and foliar nutrition.

Related topics are: chemistry (analytical procedures for metal-complexes).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans (no reproductions).

Publications:

Primary periodicals:           Verhandelingen van de  
  Rijkslandbouwhogeschool.

Specialised (subject)  
bibliographies:                in Verhandelingen van de  
  Rijkslandbouwhogeschool.

B E L G I U M - 18

UNION INTERNATIONALE DE L'INDUSTRIE DU GAZ

Bruxelles, 4, avenue Palmerston.

Tel.: 33-56-67

Subject coverage :

GAS technology and industry.

Related topics are : industrial applications of isotopes and radiations.

Sources of documentation :

Books, periodicals, abstracting and indexing journals, reports, outside consultations.

References derived from the analysis of documentation sources :

Not stated.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

Reproductions (no on the spot consultations, no loans).

Publications :

None.

B E L G I U M - 19

IDOCET - INTERNATIONAAL DOCUMENTATIECENTRUM VOOR ELEKTRO-  
NISCHE TOEPASSINGEN

Antwerpen, 189, Italiëlei.

Tel.: (03) 32.24.06

Subject coverage :

The Centre is specialised in AUTOMATION and  
REGULATION in the electronic industry.

Sources of documentation :

Books, periodicals, abstracting and indexing journals,  
report literature, conference papers, pamphlets.

References derived from the analysis of documentation sources :

Keywords assignment.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, reproductions (no loans).

Publications :

Primary periodicals : "Electron Digest" (monthly)  
Special (subject)  
bibliographies : in "Electron Digest".  
Miscellaneous : "Tijdschriftenoverzicht" in  
"Electron Digest".

B E L G I U M - 20

INSTITUT BELGE DES HAUTES PRESSIONS  
THERMOPHYSICAL PROPERTIES RESEARCH CENTER (PURDUE UNIVERSITY)  
SCIENTIFIC DOCUMENTATION DIVISION - EUROPEAN BRANCH

Sterrebeek, Val du Bois.

Tel.: (02)59-60-51

Subject coverage :

The Centre is specialised in THERMOPHYSICS (thermal conductivity, specific heat and constant pressure, viscosity, thermal radiation properties, thermal diffusivity, hydrodynamics).

Related topics are : theoretical physics, metallurgy, engineering and equipment (heat transfer and fluid flow, instrumentation), metals, ceramics and other materials (properties and structure).

Sources of documentation :

Not stated.

References derived from the analysis of documentation sources :

Bibliographical data only.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

Reproductions (no on the spot consultation, no loans).

Publications :

Miscellaneous : "Retrieval Guide" (McGraw Hill,  
New York).

ASSOCIATION FRANCAISE POUR L'ETUDE DES EAUX

Paris 16e, 25, Avenue Marceau. tel.: 553-90-44.

Subject coverage:

The Centre is specialised in : treatment and purification of WATER, utilisation of polluted water, desalting of water, study of water circulation (flow, speed, volume, etc.) application of isotopes and radiations in water technology.

Related topics are: engineering and equipment, (heat transfer, fluid flow) chemistry (analytical procedures), problems of corrosion, waste disposal and processing, health and safety, biology, medicine, geology and physics.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents.

References derived from the analysis of documentation sources:

Keywords assignment (planned) abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions, translations (no loans).

Publications:

Primary periodicals:	Eaux et Industries (monthly)
Abstracting and indexing journals:	Bulletin de documentation analytique, quarterly supplement to Eaux et Industries.
Special (subject) bibliographies:	in Eaux et Industries.
Miscellaneous:	Abstracts on cards (1500 a year).

FRANCE - 2

ASSOCIATION TECHNIQUE DE L'INDUSTRIE DU GAZ EN FRANCE

Paris 8e, 62, Rue de Courcelles. tel.: 924-66-51.

Subject coverage:

The Centre is specialised in the multiple aspects of GAS technology and gas utilisation such as: production and treatment of natural gas, coal distillation and gasification. Gas storage and distribution. Combustion and lighting. Gas as raw material. Household appliances. By-products. Production of electrical or mechanical energy from gas.

Related topics are: Toxicology, inorganic and physical chemistry, heat transfer, fluid flow, materials testing, instrumentation, corrosion and waste disposal and processing.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents, conference papers.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Photographic reproduction of abstract cards.  
Financial conditions not stated.

Availability of the documentation (Access):

On the spot consultation, loans, reproduction.

Publications:

Abstracting and indexing journals: Bulletin bibliographique mensuel.  
Specialised (subject) bibliographies: Drawn up for the Technical Commissions of the Association.

BANQUE EUROPEENNE D'INFORMATIONS

Paris 8e, 38, avenue George V.

tel.: 359-94-49

telegr.: Proloc-Paris

Subject coverage:

The Centre is specialised in the application of LASERS in: biology, medicine, health and safety, chemistry (catalytic effects), physics (high temperatures obtained by lasers), metallurgy (impact lasers).

Related topics are: alloys technology, heat transfer and fluid flow, materials testing, properties and structure of metals, ceramics and other materials, optical fibers, information handling by optical means, statistical analysis, Chinese science and technology.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents, enquiries, outside consultations.

References derived from the analysis of documentation sources:

Keywords assignment or abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case. In certain cases free of charge.

Availability of the documentation (Access):

Reproduction (not on the spot consultation, no loans).

Publications:

Primary periodicals: "Laser and unconventional optics Journal" (6 times a year) in French and in English.

DAMI - "Documentation automatique sur microfilm et information (periodicity not stated).

Miscellaneous: Dictionary and Précis of Intellectics and Information Theory. English-French, French-English.

F R A N C E - 4

CENTRE DE DOCUMENTATION SIDERURGIQUE

Paris 16e, 6, rue de Lota

tel.: 727-27-61

Subject coverage:

The Centre is specialised in the multiple aspects of IRON METALLURGY: alloys technology, engineering and equipment, materials testing, corrosion, fabrication, properties and structure, radiation effects, industrial applications of isotopes and radiations.

Related topics are: chemistry, physics.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, patents.

References derived from the analysis of documentation sources:

Not stated.

Conditions of literature searches on request:

Prices to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions for members only (no loans).

Publications:

None

F R A N C E - 5

CENTRE D'ETUDE DES MATIERES PLASTIQUES

Paris 13e, 21, Rue Pinel. tel.: 707-65-59

Subject coverage:

The Centre is specialised in : PLASTICS, resins and polymer, their properties, structures, fabrication, use, corrosion, as well as the radiation effects on plastics.

Related topics are: general organic chemistry and materials testing.

Sources of documentation:

Books, periodicals, abstracting journals, reports  
French patents.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Abstracting and indexing journals: Bulletin de Documentation du  
C.E.M.P. (monthly).

F R A N C E - 6

CENTRE D'ETUDES ET DE RECHERCHES DE L'INDUSTRIE DES LIANTS  
HYDROLIQUES

Paris 15e, 23, Rue de Cronstadt. tel.: 532-58-40.

Subject coverage:

The Centre is specialised in civil and in engineering, the testing, production, manufacture, treatment and application of HYDRAULIC BINDERS. Concrete, cement, lime, plaster, mortar, conglomerate, artificial stones and rocks.

Sources of documentation:

Books and periodicals.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans (books only)  
reproduction.

Publications:

Primary periodicals: Revue des matériaux de  
construction (monthly).

Abstracting and in-  
dexing journals: Documentation bibliographique  
(half yearly).

F R A N C E - 7

CENTRE D'ETUDES SCIENTIFIQUES ET TECHNIQUES

Grenoble, 4, rue Wilfrid Kilian. tel.: 44-11-56

Subject coverage:

The Centre is specialised in: HYDRAULIC BINDERS, physics of materials, of water (evaporation), of electronics, instrumentation, (telecommand, telemetry, evaporation measurement), inorganic chemistry of water and solids, corrosion of metals and of concrete.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents.

References derived from the analysis of documentation sources:

Not stated.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

None.

FRANCE - 8

CENTRE FRANCAIS D'INFORMATION DE L'EAU

Paris 8e, 26, rue de Miromesnil

tel.: 265-05-39

Subject coverage:

HYDROLOGY.

Sources of documentation:

Periodicals, reports.

References derived from the analysis of documentation sources:

Keywords assignment.

Conditions of literature searches on request:

Free of charge.

Availability of the documentation (Access):

On the spot consultation (no loans, no reproductions).

Publications:

None

F R A N C E - 9

CENTRE D'INFORMATION DE L'ETAIN

Paris 8e, 35, Rue du Rocher. tel.: 522-26-41.

Subject coverage:

The Centre is specialised in: production, chemical and mechanical properties, analysis, testing, applications (including soldering) of TIN, its alloys and its organic and inorganic compounds. Metallurgy of tin and its alloys.

Sources of documentation:

Books, periodicals, abstracting and indexing journals.

References derived from the analysis of documentation sources:

Bibliographical data only.

Conditions of literature searches on request:

Free of charge.

Availability of the documentation(Access):

On the spot consultation, loans (no reproductions).

Publications:

Primary periodicals:)	Liste de publications et
Abstracting and in- )	d'extraits, 18 series
dexing journals: )	(periodicity not stated).

F R A N C E - 10

CENTRE INTERPROFESSIONNEL TECHNIQUE D'ETUDES DE LA POLLUTION  
ATMOSPHERIQUE

Paris 16e, 28, Rue de la Source. tel.: 526-12-88.

Subject coverage:

The Centre is specialised in: AIR AND WATER POLLUTION  
air and water purification, gas filtering, smoke  
dispersion, engineering and equipment, control  
instrumentation, measurement techniques.

Sources of documentation:

Books, periodicals, abstracting and indexing journals,  
outside consultation.

References derived from the analysis of documentation sources:

Bibliographical data or abstracts (in certain cases).

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Primary periodicals:	Mise au courant documentaire (technical reports, monographs, studies, translations, legislation, annotated access- ion lists, press reviews) periodicity not stated.
Abstracting and in- dexing journals:	in Bulletin synoptique de documentation thermique de l'IFCE (abstracts dealing with air-pollution (monthly)
Special (subject) bibliographies:	in Mise au courant documentaire.

COMMISSION INTERNATIONALE DES INDUSTRIES AGRICOLLES ET ALIMENTAIRES

Paris 7e, 18, avenue de Villars

tel.: 783-31-85

Subject coverage:

The Centre is specialised in: FOOD technology.

Related topics are: biochemistry and nutrition, toxicology, organic chemistry and analytical procedures, separation processes, raw and feed materials, engineering and equipment, (instrumentation, heat transfer and fluid flow) waste disposal and processing, industrial hygiene, legislation in the field of food and agriculture (international).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, patents.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions (microfilms, photostats).

Publications:

Primary periodicals: Industries Alimentaires et Agricoles (10 issues a year)

Abstracting and indexing journals: Revue Internationale des Industries Agricoles (10 issues a year).

F R A N C E - 12

DIRECTION GENERALE DE LA RECHERCHE POUR LE BATIMENT ET LES  
TRAVAUX PUBLICS

Paris 15e, 12, Rue Brancion.      tel.: 828-95-49.

Subject coverage:

The Centre is specialised in the multiple aspects of CIVIL ENGINEERING, materials testing (theoretical and experimental) BUILDING (theories) and building materials.

Related topics are: (in form of bibliographical material only) chemistry (organic and inorganic, analytical procedures, raw and feed materials) engineering and equipment (materials testing, heat transfer) metals, ceramics and other materials (corrosion, properties and structure).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, standards.

References derived from the analysis of documentation sources:

Bibliographical data only.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Miscellaneous: Descriptive catalogue cards (limited circulation).

F R A N C E - 13

ECOLE NATIONALE SUPERIEURE DE METALLURGIE ET DE L'INDUSTRIE  
DES MINES - BIBLIOTHEQUE

Nancy, Parc de Saurupt.

tel.: 53-72-32.

Subject coverage:

The Centre is specialised in the multiple aspects of mathematics, MECHANICAL, CIVIL AND MINING ENGINEERING, physics (mathematical, theoretical, applied) optics, measurement techniques, thermodynamics, chemistry (inorganic, organic and applied), metallurgy (testing, properties, corrosion and protection, use of metals) non ferrous metals (idem) earth sciences (cristallography, mineralogy, geology, petrography).

Related topics are: Transportation (rail, road, air, inland and maritime) legal, economic and financial problems connected with the specialisations.

Sources of documentation:

Books, periodicals, abstracting and indexing journals.

References derived from the analysis of documentation sources:

Not stated.

Conditions of literature searches on request:

Free of charge (in co-operation with the professors of the School).

Availability of the documentation (Access):

On the spot consultation, loans (between libraries only), reproductions.

Publications:

None.

ELECTRICITE DE FRANCE (EDF) - CENTRE DE DOCUMENTATION

Paris 8e, 3, rue de Messine

tel.: 256-94-00

Subject coverage:

The Centre acts as a general documentation service for the EDF in co-operation with other specialised documentation units.

Specialised subject coverage exists in: ENGINEERING and equipment (heat transfer, fluid flow, instrumentation, materials testing) physics (shielding, radiation detectors) metallurgy-alloys technology, reactor technology (power, production and research reactors), waste disposal and processing, corrosion, fabrication, properties and structure of metals, ceramics and other materials, raw materials and feed materials.

Additional subject coverage is related to: chemistry (inorganic, organic, physical) radiation and radio-chemistry, mathematics and computers, isotope separation, industrial applications of isotopes and radiations, physics (theoretical), electronics, neutron physics, particle accelerators, plasma physics, thermonuclear processes, geology, mineralogy.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, miscellaneous publications.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

In principle, free of charge, subject to reciprocity.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Abstracting and indexing journals:

Documentation Technique  
(6 times a year)

Special (subject) bibliographies :

In Documentation Technique.

ELECTRICITE DE FRANCE - CENTRE DE RECHERCHES ET D'ESSAIS

Chatou (S&O).

tel.: 966-35-20.

Subject coverage:

The Centre is specialised in: ELECTRONICS, neutron physics, nuclear properties and radiations, radiation detectors, shielding, metallurgy (general), ENGINEERING and equipment (heat transfer and fluid flow, instrumentation, materials testing, metals, ceramics and other materials (corrosion, radiation effects), industrial application of isotopes and radiations, reactor technology (general, power, production and research reactors).

Related topics are: astrophysics, cosmology, cosmic radiation, plasma physics and thermonuclear processes.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Bibliographical data only.

Conditions of literature searches on request:-

Price to be agreed on in each individual case.

Availability of the documentation: (Access):

On the spot consultation. Exceptionally: loans, reproductions.

Publications:

Abstracting and indexing journals:

Bulletin hebdomadaire de documentation (for internal use).

F R A N C E - 16

ETABLISSEMENT D'ETUDES ET DE RECHERCHES METEOROLOGIQUES

Paris 7e, 1, Quai Brauly.

See: METEOROLOGIE NATIONALE - DOCUMENTATION

(F R A N C E - 25)

FRANCE - 17

INSTITUT DE CERAMIQUE FRANÇAISE

92 - Sèvres, 6, Grande Rue.

Tel.: 027-03-05

Subject coverage :

The Centre is specialised in : fabrication, properties and structure of CERAMICS and other materials (except metals), industrial applications of isotopes and radiations, mineralogy, geology, engineering and equipment (heat transfer, fluid flow, instrumentation, materials testing), radiation effects

Related topics are : organic and radiation chemistry, raw and feed materials, separation processes, physics (nuclear properties and radiations, plasma physics and thermonuclear processes), waste disposal and processing, toxicology .

Sources of documentation :

Books, periodicals, reports.

References derived from the analysis of documentation sources :

Abstracts.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, reproductions (no loans).

Publications :

Primary periodicals :	l'Industrie Céramique (monthly)
Abstracting and indexing journals :	Bulletin de documentation céramique in l'Industrie Céramique.
Special (subject) bibliographies :	in l'Industrie Céramique.
Miscellaneous :	Technical reports. Abstracts cards of scanned documents.

INSTITUT FRANÇAIS DES COMBUSTIBLES ET DE L'ENERGIE

Paris 16e, 3, rue Henri-Heine. tel.: 647-41-23

Subject coverage:

The Centre is specialised in: the multiple aspects of ENERGY: sources of solid, liquid and gaseous fuels, electricity, other sources (atomic, solar, MHD) theoretical studies (thermodynamics, heat transfer and fluid flow), production of thermal energy (boilers, burners, conversion), by-products of combustion (smokes, ashes), production, transportation and utilisation of steam, furnaces for industry, heat exchangers, theoretical and technological problems of domestic heating and air conditioning.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, standards specifications, business publications, card file (1.000 entries) of documentation centres in the border-line fields.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Primary periodicals:	Revue générale de thermique (monthly).
Abstracting and indexing journals:	Bulletin synoptique de documentation thermique (monthly)
Special (subject) bibliographies:	Published irregularly.
Miscellaneous:	Technical Reports, Conference Papers.

INSTITUT FRANCAIS DU PETROLE

92 Rueil-Malmaison, 1-4, avenue de Bois-Préau

tel.: 967-11-10

Subject coverage:

The Centre is specialised in all subjects bearing on the petroleum industry: sedimentary geology, geochemistry, photogeology, physics, drilling, soil mechanics, production techniques, organic and analytical chemistry, catalysis, refining, petrochemistry, storage, transportation, distribution, use of products for lighting, heating, combustion, carburetion, engines, lubrication, energy, energy conversion, economics, statistics, applied mathematics, data processing, use of computers, etc.

Sources of documentation:

Books, periodicals, (2,300 titles) abstracting and indexing journals, reports, outside consultation for patents.

References derived from the analysis of documentation sources:

Bibliographical data, Keywords assignment (for computer storage), abstracts (for manual card files) with a special decimal classification.

Conditions of literature searches on request:

Free of charge for reference lists.  
Price to be agreed on in each individual case for technical reports.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Primary periodicals: Revue de l'Institut Français du Pétrole (monthly)  
Revue de Photo-Interprétation (6 times a year).

Publications:

Miscellaneous: Fiches de documentation de l'I.F.P. (monthly) (About 16.000 notices a year)  
Literature surveys  
Articles  
Technical and research reports  
Dictionaries  
Handbooks, textbooks, etc.

F R A N C E - 20

INSTITUT INTERNATIONAL DU FROID

Paris 17e, 177, boulevard Malesherbes tel.: 227-32-35

Subject coverage:

The Centre is specialised in the multiple aspects of CRYOGENICS technology, of thermodynamics, physics of low temperatures, nuclear physics in connection with refrigeration, production and distribution of cold, cold storage equipment, refrigerated transport, air conditioning, industrial, biological and medical applications, food conservation and irradiation.

Related topics are: biochemistry and nutrition, engineering and equipment (heat and mass transfer, instrumentation), international and national standards, economics and statistics, professional training, industrial safety and hygiene related to refrigeration.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case (for associate members exceptionally).

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Primary periodicals:	Bulletin de l'Institut International du Froid (6 times a year)
Abstracting and indexing journals:	in Bulletin de l'I.I.F. Guide bibliographique du froid (periodicity not stated)
Special (subject) bibliographies:	in Guide bibliographique du froid.

F R A N C E - 21

INSTITUT NATIONAL DE RECHERCHE CHIMIQUE APPLIQUEE

Paris 4e, 12, quai Henri IV

tel.: 272-82-70

Subject coverage:

The Centre is specialised in CHEMISTRY, i.e. analytical procedures, general inorganic and physical chemistry, organic chemistry.

Related topics are: biology, physics (polymers, structure of solids), catalysis, water and air pollution.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, patents.

References derived from the analysis of documentation sources:

Not stated.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

Exceptionally on the spot consultation (no loans, no reproductions).

Publications:

None

F R A N C E - 22

INSTITUT NATIONAL DE SECURITE (Accidents de Travail, Maladies professionnelles).

Paris 8e, 9, Avenue Montaigne. tel.: 225-86-50.

Subject coverage:

The Centre is specialised in the multiple aspects of INDUSTRIAL SAFETY and hygiene, accidents prevention professional illnesses in every industrial branch, except mining.

Related topics are: toxicology and radiation effects on living tissues.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, pamphlets, outside consultation.

French correspondent of the "Centre International d'Informations de Sécurité et d'Hygiène de Travail" - International Labour Office, Geneva.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Free of charge.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Primary periodicals: Travail et sécurité (monthly)  
Risques du métier (6 times a year).

Abstracting and indexing journals: Bulletin de Documentation  
Bibliographique (6 times a year)  
Cahiers de notes documentaires  
(6 times a year) original  
articles and abstracts.

Miscellaneous: Technical reports and studies  
Abstracts cards of French  
publications sent to the Centre  
International d'Informations de  
Sécurité et d'Hygiène de Travail  
Geneva (International Labour  
Office)

F R A N C E - 23

INSTITUT TEXTILE DE FRANCE

92 Boulogne-Billancourt, 35, rue des Abondances  
tel.: 825-18-90

Subject coverage:

The Centre is specialised in the multiple aspects of TEXTILE industry and technology: manufacture of fibres and ropes, hosiery, weaving and spinning, bleaching, dyeing, finishing and printing of textiles, analysis, tests, controls, defects of textiles.

Related topics are: chemistry (analytical procedures, inorganic and physical chemistry, general organic chemistry, radiation and radiochemistry, raw and feed materials, separation processes), physics (general).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents, miscellaneous publications.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case (possibility of retrieval operations carried out free of charge).

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Primary periodicals:	Bulletin de l'Institut Textile de France (6 times a year)
Abstracting and indexing journals:	Documentation (part II of Bulletin de l'Institut Textile de France)
Special (subject) bibliographies:	Published irregularly
Miscellaneous:	Technical reports, studies, activity reports.

F R A N C E - 24

INSTITUT DU VERRE

Paris 16e, 34, rue Michel-Ange

tel.: 647-60-93

Subject coverage:

The Centre is specialised in the multiple aspects of GLASS and vitreous materials technology: manufacture, corrosion, properties and structure, radiation effects.

Sources of documentation:

Books, periodicals, patents, various pamphlets.

References derived from the analysis of documentation sources:

Keywords assignment, abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case (without any formal engagement).

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Primary periodicals: Verres et réfractaires  
(bi-monthly)

Abstracting and indexing journal: Verres et réfractaires.

METEOROLOGIE NATIONALE SMM - DOCUMENTATION

Paris 7e, 2, avenue Rapp

tel.: 705-40-70

Subject coverage:

METEOROLOGY.

Sources of documentation:

Books, periodicals, abstracting and indexing journals.

References derived from the analysis of documentation sources:

Bibliographical data, abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Primary periodicals: Bulletin Quotidien de Renseignements  
Bulletin Quotidien d'Etudes  
Résumé Mensuel du Temps en France  
Bulletin Pluviométrique mensuel  
Annales Météorologiques (yearly)  
Bulletin quotidien d'Observations (yearly)

Abstracting and indexing journals: Bibliographie signalétique hebdomadaire sélectionnée (title listing)  
Analyses et traductions de résumés (periodicity not stated)

Special (subject) bibliographies: Supplement to Bibliographie signalétique hebdomadaire sélectionnée

Miscellaneous: Monographies, mémoires, notices, notes.

F R A N C E - 26

ORGANISATION, CONCEPTION, CONTROLE, REALISATION (O.C.C.R.)

Paris 16e, 3, Rue Henri-Heine. tel.: 647-41-23.

Subject coverage:

The Centre is specialised in: CIVIL ENGINEERING (construction), industrial and domestic heating, thermic equipment, furnaces, electrical equipments, heat transfer and fluid flow, instrumentation (measurement, control, regulation) materials testing, metals, ceramics, glass, refractories and insulators, pipes and pip-lines, pumps.

Related topics: Food and agricultural industries, paper manufacture, economic intelligence (industrialisation, organisation statistics).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, manufacturers catalogues, outside consultation.

References derived from the analysis of documentation sources:

Bibliographical data; abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation (on request), no loans, no reproductions.

Publications:

None.

OMNIUM TECHNIQUE PAR TRANSPORT PAR PIPE-LINES

Puteaux (Seine), 3-5, Rue Volta. tel.: 506-21-94.

Subject coverage:

The Centre is specialised in: ENGINEERING and Equipment (general, heat transfer and fluid flow, pipe-lines, instrumentation, materials testing) metals, ceramics and other materials (general, corrosion, properties and structure).

Related topics are: chemistry (general, organic chemistry, separation processes) metallurgy (general, alloys technology).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, maps and charts. Outside consultation for border-line fields.

References derived from the analysis of documentation sources:

Bibliographical data only. Keywords assignment (planned) abstracts (occasionally).

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproduction.

Publications:

Abstracting and indexing journals: Groupe de feuilles de dépouillement par revue (periodicity not stated).

F R A N C E - 28

SERVICE DE MATHEMATIQUES APPLIQUEES ET LABORATOIRE DE CALCUL

Saint-Martin d'Hères (Isère), B.P. 7. tel.: 87-45-61.

Subject coverage:

MATHEMATICS and computers.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Bibliographical data only.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

None.

SOCIETE FRANÇAISE DE CERAMIQUE - SERVICE DE DOCUMENTATION

Paris 15e, 23, Rue de Cronstadt. tel.: 532-58-40.

Subject coverage:

The Centre is specialised in the multiple aspects of CERAMIC technology and industry: general problems, corrosion, fabrication, properties and structure, radiation effects, new products, industrial and domestic applications, new applications, use of ceramics in nuclear, space and electronic technology.

Related topics are: chemistry (new ceramics, metallo-ceramics, ceramic-oxydes), industrial hygiene (silicones).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents, theses, standards, outside consultation for border-line fields.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed to in each individual case (in form of a research contract).

Availability of the documentation (Access):

On the spot consultation and reproductions reserved for members of the Society, for university students and for other documentation centres, in case of reciprocity (no loans).

Publications:

Primary periodicals: Bulletin de la Société Française de Céramique (quarterly).  
Special (subject) bibliographies: in "Industries Céramiques" monthly bulletin of the Institut Français de Céramique  
Miscellaneous: Activity reports, technical studies and reports.

F R A N C E - 30

SOCIETE NATIONALE DES PETROLES D'AQUITAINE

Paris 8e, 16, Cours Albert Ier. tel.: 225-93-04.

Subject coverage:

The Centre is specialised in the multiple aspects of PETROLEUM technology and industry: production, refinery, storage, petroleum chemistry, natural gas, liquefaction of gas (hydrocarbons).

Related topics are: energy, organic chemistry, chemistry of sulphur, polymers (research and applications) chromatography, spectrometry, waste disposal and processing.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Bibliographical data; keywords assignment, abstracts (occasionally).

Conditions of literature searches on request:

Carried out exceptionally: then free of charge.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Primary periodicals: Bulletins Techniques - 10 series (for internal use only)  
Bulletins d'Echos - commercial and technical news items (for internal use only).

F R A N C E - 31

BUREAU DE RECHERCHES GEOLOGIQUES ET MINIERES  
CENTRE DE DOCUMENTATION.

Orléans, B.P. 555

Tel.: 87-06-60/64

Telex : 75.002

Subject coverage :

The Centre is specialised in GEOLOGY.

Related topics are : mineralogy (uranium, thorium, radium, graphite, radioactive minerals, rare earths), ceramics.

Sources of documentation :

Books, periodicals, abstracting and indexing journals.

References derived from the analysis of documentation sources :

Bibliographical data only (card files).

Conditions of literature searches on request :

Price to be agreed on in each individual case (about 200-400 francs).

Availability of the documentation (Access) :

On the spot consultation, reproductions (no loans).

Publications :

Not stated.

F R A N C E - 32

CENTRE D'INFORMATION DU BISULFURE DE MOLYBDENE ET DES  
LUBRIFIANTS SOLIDES

Paris 16e, 10, rue de l'Assomption.

Tél.: AUT 75-46

Subject coverage :

The Centre is specialised in the multiple aspects of the use of SOLID LUBRICANTS, in all branches of engineering, including nuclear technology.

Sources of documentation :

Books, periodicals, abstracting and indexing journals, report literature, patents, outside consultation.

References derived from the analysis of documentation sources :

Abstracts.

Conditions of literature searches on request :

Free of charge (in principle).

Availability of the documentation (Access) :

Reproductions (no on the spot consultation, no loans).

Publications :

None.

CENTRE SCIENTIFIQUE ET TECHNIQUE DU BÂTIMENT

Paris 16e, 4 avenue du Recteur-Poincaré      Tel.: AUT 81-80

Subject coverage :

The Centre es specialised in the various aspects of the BUILDING INDUSTRY : Building materials, prefabrication, standardisation, general and miscellaneous problems.

Related topics are : Engineering and Equipment (heat transfer and fluid flow, materials testing), metals, ceramics and other materials (corrosion, general and miscellaneous).

Sources of documentation :

Books, periodicals, abstracting and indexing journals, report literature, patents.

References derived from the analysis of documentation sources :

Abstracts.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, loans, reproductions.

Publications :

- Primary periodicals : "Cahiers du C.S.T.BI"  
(periodicity not stated)
- Indexing journals : "Bulletin Signalétique"  
(periodicity not stated).
- Special (subject)  
bibliographies : Fascicule bibliographique  
in "Cahiers du C.S.T.B."

F R A N C E - 34

ECOLE NATIONALE SUPERIEURE DES MINES - BIBLIOTHEQUE

Paris 6e, 60, boulevard Saint-Michel      Tel.: 326-63-60

Subject coverage :

The Centre is specialised in : ENERGY (all sources), METALLURGY (general and iron metallurgy), MINING, PETROLEUM technology and petrography, MINERALOGY, GEOLOGY and GEOPHYSICS, ENGINEERING and EQUIPMENT.

Related topics are : General Inorganic and Physical Chemistry, Physics (general and miscellaneous, electronics, astrophysics, cosmology, cosmic radiation), mathematics and computers, water technology (hydrology), radiation sickness (detection and protection).

Sources of documentation :

Books, periodicals, abstracting and indexing journals, report literature, conference papers.

References derived from the analysis of documentation sources :

Bibliographical data, keywords assignment, abstracts (only for iron metallurgy).

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, loans, reproductions (on occasion).

Publications :

None.

F R A N C E - 35

SERVICES TECHNIQUES DES CONSTRUCTIONS NAVALES -  
SECTION NUCLEAIRE.

Paris 15e, 8, boulevard Victor.

Tel.: LEC 42-00

Subject coverage :

PHYSICS (Electronics, nuclear properties and radiations, particle accelerators, plasma physics and thermonuclear processes, shielding, radiation detectors), METALLURGY (Alloys technology), ENGINEERING and EQUIPMENT (Heat transfer and fluid flow, instrumentation, materials testing), METALS, CERAMICS AND OTHER MATERIALS (Corrosion, fabrication, properties and structure, radiation effects), REACTOR TECHNOLOGY, WASTE DISPOSAL AND PROCESSING.

Related topics are : Biology (fallout and ecology), Health and Safety, General Organic Chemistry.

Sources of documentation :

Books, periodicals, abstracting and indexing journals.

References derived from the analysis of documentation sources :

Keywords assignment, abstracts.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, loans, reproductions.

Publications :

None.

BAYERISCHE LANDESGEWERBEANSTALT

Nürnberg, Gewerbemuseumsplatz 2.

tel.: 203-301.

Subject coverage:

Engineering and EQUIPMENT (instrumentation). Testing of consumers' goods.

Related topics are: Biochemistry and nutrition, health and safety.

Sources of documentation:

Books, periodicals, patents, standards.

References derived from the analysis of documentation sources:

Abstracts (consumer goods only).

Conditions of literature searches on request:

According to existing schedule of charges.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

None.

G E R M A N Y - 2

BERATUNGSTELLE FÜR DOKUMENTATION

545 NEUWIED, Ulmenweg 39

tel.: 2-49-02

Subject coverage:

Advisory body for documentation problems (setting up of documentation services) in the field of:  
Biology, medicine (applications of isotopes and radiations, health and safety (radiation effects on living tissues) chemistry (radiation and radiochemistry) geology, mineralogy, meteorology.

Sources of documentation:

Outside consultation only.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

'''

Publications:

Card-catalogue (index) on request to interested parties.

BIBLIOTHEK DES DEUTSCHEN WETTERDIENSTES

Offenbach/Main, Frankfurter Str. 135 tel.: 80-321  
telex: 041-52871

Subject coverage:

METEOROLOGY.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources:

Bibliographical data and for a part of the documentation key words assignment and abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans (no reproductions).

Publications:

Specialised (subject)  
bibliographies: Bibliographien des Deutschen  
Wetterdienstes (irregular).  
Miscellaneous: Zugänge der Bibliothek des  
Deutschen Wetterdienstes  
(monthly)

BIOLOGISCHE BUNDESANSTALT FÜR LAND- UND FORSTWIRTSCHAFT

1000 Berlin 33, Königin Luise Str. 19. tel.: 76-32-33.

Subject coverage:

The Centre is specialised in the multiple aspects of PHYTOPATHOLOGY, plant protection, pest control, conservation of natural resources.

Related topics are: applications of isotopes and radiations in agriculture, biochemistry, ecology, toxicology, chemistry (analytical procedures), virology, applied entomology.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, card catalogues (indexes) from outside.

References derived from the analysis of documentation sources:

Bibliographical data and subject headings.  
Abstracts planned.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation. Loans and reproductions with restrictions.

Publications:

Abstracting and indexing journals:	Bibliographie der Pflanzenschutzliteratur (periodicity not stated).
Miscellaneous:	Annual activity reports.

BUNDESANSTALT FÜR MATERIALPRÜFUNG

Berlin - Daßleim, Unter den Eichen 87. tel.: 76-991  
telex: 018-3261  
telegr.: BAM-Berlin.

Subject coverage:

The Centre is specialised in the multiple aspect of MATERIALS TESTING anti-corrosion technology, welding, wood protection, rheology and applied colour research.

Related topics are: industrial applications of isotopes and radiations, chemistry (analytical procedures).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, theses, standards.

References derived from the analysis of documentation sources:

Bibliographical data, abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Abstracting and indexing journals: in Berichte der Deutschen Rheologischen Gesellschaft, under "Materialprüfung".  
(periodicity not stated).

Specialised (subject) bibliographies: in "Jahrbuch der Oberflächen-technik"  
"Jahresberichte über Holzschutz"  
"Internationale Bibliographie der Farbenlehre und ihr Grenzgebiet"

Miscellaneous: Card-indexes (monthly)  
Leerkstoffkunde und Materialprüfung,  
Zerstörungsfreie Materialprüfung  
Referatdienst Schweissen und verw. Verfahren.  
Litteraturdienst anorganisch-chemische Analyse (6 times a year)  
Referatdienst Farbe, supplement to the periodical "Die Farbe" (6 times a year).

BUNDESFORSCHUNGSANSTALT FÜR FORST UND HOLZWIRTSCHAFT

2057 Reinbek bei Hamburg, - Schloss. tel.: 722-64-51/52  
722-37-27

Subject coverage:

The Centre is specialised in the multiple aspects of FORESTRY science, technology, chemistry and economics.

Related topics are: biology, general organic chemistry, radiation and radio-chemistry of interest to forestry.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, other sources (not specified).

References derived from the analysis of documentation sources:

Bibliographical data, key words assignment.

Conditions of literature searches on request:

According to an existing schedule of charges.

Availability of the documentation (Access):

On the spot consultation of bibliographical lists, loans (through the library), reproductions.

Publications:

Primary periodicals:	Forstliche Umschau (quarterly).
Abstracting and indexing journals:	Bibliographie des forst- und holzwirtsch. Schrifttums (quarterly).
Miscellaneous:	Schrifttumskartei der Bundesforschungsanstalt für Forst- und Holzwirtschaft (quarterly title listings).

G E R M A N Y - 9

BUNDESFORSCHUNGSANSTALT FÜR GETREIDEVERARBEITUNG

Bibliothek und Dokumentationsstelle

493, Detmold, Am Schützenberg 9. tel.: 34-51

Subject coverage:

The Centre is specialised in AGRICULTURE, i.e. production, storage, use, transformation of wheat and other cereals (milling, baking).

Related topics are: food chemistry, microbiology, agricultural economical statistics and policy, laws and regulations, management techniques, nutrition problems, engineering and equipment (machinery).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources

Bibliographical data (library), key words and abstracts (documentation service).

Conditions of literature searches on request:

Free of charge (for science and research).  
Price to be agreed in each individual case (for industry).

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

None.

INSTITUT FÜR ZUCKERINDUSTRIE - BIBLIOTHEK

1 Berlin 65, Amrumer Str. 32. tel.: 46-99-67  
telegr.: Zuckerinstitut -  
Berlin  
telex: 018-4262.

Subject coverage:

The Centre is specialised in the beet and cane SUGAR technology, economics and statistics, chemistry of sugar and carbohydrates.

Related topics are: biochemistry and nutrition, chemistry (analytical procedures, radiation chemistry and radiochemistry), heat transfer, fluid flow, instrumentation, applications of isotopes and radiations, waste disposal and processing.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, other (not specified) sources.

References derived from the analysis of documentation sources:

Bibliographical data, abstracts (mostly).

Conditions of literature searches on request:

Free of charge.

Availability of the documentation (Access):

On the spot consultation, loans (restricted) reproductions.

Publications:

Primary periodicals: Zeitschrift für die Zuckerindustrie (periodicity not stated).

Miscellaneous: Technical and annual activity reports, dictionaries.

KERNFORSCHUNGSANLAGE JÜLICH - ZENTRALBIBLIOTHEK

517 Jülich, Postfach 365

tel.: 61-53-68

telex: 08/3-34-90

Subject coverage:

The Centre is specialised in NUCLEAR science and technology in general.

Related topics are: mathematics and computers, engineering and equipment (heat transfer and fluid flow, instrumentation, materials testing), metals, ceramics and other materials (properties and structure, corrosion, radiation effects), industrial applications of isotopes and radiations, radiation protection, isotope separation, agriculture, breeding, genetics, microbiology, atomic legislation, economics of energy, Eastern and Far-Eastern technical literature.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents, conference papers, theses.

References derived from the analysis of documentation sources:

Bibliographical data only (in various catalogues, established mechanically by computer).

Conditions of literature searches on request:

Free of charge (on a basis of reciprocity).

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Specialised (subject) bibliographies:

Bibliographische Reihe der KFJ (periodicity not stated).  
In ZAED-Reihe C, Gmelin Institut.  
Literaturzusammenstellungen zu Forschungsthemen.  
"Eastatom" Supplement, Sect. III to "Transatom Bulletin".

NUKLEARMEDIZINISCHE ABTEILUNG - MEDIZINISCHE KLINIKEN  
FREIE UNIVERSITÄT BERLIN

1000 Berlin 19, Spandauer Damm 130      tel.: 304-01-11

Subject coverage:

The Centre is specialised in the multiple aspects of NUCLEAR MEDICINE (applications of radionuclides in biology and medicine, radiotoxicology, radiation effects on living tissues).

Related topics are: biochemistry and nutrition, fallout and ecology, radiation detectors.

Sources of documentation:

Books, periodicals, outside consultation.

References derived from the analysis of documentation sources:

Bibliographical data, keywords assignment.

Conditions of literature searches on request:

According to an existing schedule of charges.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).  
Bibliographies on request.

Publications:

Abstracting and indexing journals:	Literaturliste der Nuklear Medizin und Grenzgebiete (fortnightly).

INSTITUUT T.N.O. VOOR BOUWMATERIALEN EN BOUWCONSTRUCTIES

Rijswijk, Lange Kleiweg 5.

tel.: 26950

Subject coverage :

The Centre is specialised in the multiple aspects of the BUILDING and construction industry.

Related topics are : civil engineering and equipment (materials testing, heat transfer and fluid flow).

Sources of documentation :

Books, periodicals, abstracting and indexing journals, reports, patents, other (not specified) sources.

References derived from the analysis of documentation sources:

Bibliographical data and keywords assignment.

Conditions of literature searches on request :

According to an existing schedule or charges.

Availability of the documentation (Access) :

On the spot consultation, loans (no reproductions).

Publications :

None.

I.T.A.L. INSTITUUT VOOR TOEPASSING VAN ATOOMENERGIE IN DE  
LANDBOUW

Wageningen, Keyenbergseweg 6. tel.: 4251.

Subject coverage:

The Centre is specialised in the multiple aspects of:  
AGRICULTURE, FOOD technology and preservation,  
mutation breeding, soil science.

Related topics are: radiation effects on living  
tissues, applications of isotopes and radiations,  
ecology, chemistry (radiation chemistry and radio-  
chemistry, raw materials and feed materials) waste  
disposal and processing.

Sources of documentation:

Books, periodicals, abstracting and indexing journals,  
reports, other (not specified) sources, outside  
consultation.

References derived from the analysis of documentation sources:

Authors' abstracts.

Conditions of literature searches on request:

According to an agreement to be reached.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

None. .

KEURINGSINSTITUUT VOOR WATERLEIDINGARTIKELEN (KIWA)

Rijswijk (Z.H.), Sir Winston Churchill laan 273

tel.: (070)-902620

Subject coverage:

The Centre is specialised in the multiple aspects of drinking WATER technology (watercatchment, -treatment, -storage, -transport and -supply), covering also the testing of waterworks materials and articles, advisory activities and research in the field of drinking water supply.

Related topics are: bacteriology, biology (ecology), meteorology, radiation detections (fallout), health and safety.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents.

References derived from the analysis of documentation sources:

Abstracts

Conditions of literature searches on request:

Price to be agreed on in each individual case for searches of some extent.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Primary periodicals: Water (periodicity not stated)

Miscellaneous: KIWA technical Reports.

N E T H E R L A N D S - 13

LABORATORIUM VOOR BIOCHEMIE, TOXICOLOGIE EN GALENISCHE  
FARMACIE DER UNIVERSITEIT VAN AMSTERDAM

Amsterdam C, Roetersstraat 1

tel.: 51394

Subject coverage:

BIOCHEMISTRY, TOXICOLOGY and PHARMACY.

Sources of documentation:

Books, periodicals, abstracting and indexing  
journals, reports, patents.

References derived from the analysis of documentation sources:

Keywords assignment, abstracts.

Conditions of literature searches on request:

Free of charge.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

In various periodicals.

N E T H E R L A N D S - 14

MATHEMATISCH CENTRUM

Amsterdam, 2e Boerhaavestraat 49

tel.: 947272

Subject coverage:

MATHEMATICS

Pure and applied mathematics, mathematical Physics.  
Mathematical Statistics, Operations Research,  
Numerical Mathematics and Computer Science.

Sources of documentation:

Books, periodicals, journals, reports and reprints.

References derived from the analysis of documentation sources:

Keywords assignment.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Miscellaneous: Mathematical Centre Tracts  
M.C. Syllabus Series (in Dutch)  
Mathematical Centre reports.

N E T H E R L A N D S - 15

METAALINSTITUUT TNO

Delft, Rotterdamseweg 139  
P.O.B.: 52

tel.: 21914

Subject coverage:

The Centre is specialised in METALLURGY (general, alloys technology), engineering and equipment (materials testing), metals, ceramics and other materials (general, fabrication, properties and structure, corrosion, radiation effects), metalworking, foundry techniques).

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents, other (not specified) sources.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, reproductions (no loans).

Publications:

Abstracting and indexing journals:      Literatuuroverzicht (monthly).

N E T H E R L A N D S - 16

MINISTERIE VAN SOCIALE ZAKEN EN VOLKSGEZONDHEID

Den Haag, Zeestraat 73

tel.: 183220

Subject coverage :

HEALTH and SAFETY (general and miscellaneous,  
radiation effects on living tissues).

Related topics are : medicine (general, toxicology,  
applications of isotopes and radiations, radiation  
sickness).

Sources of documentation :

Books, periodicals, abstracting and indexing journals,  
reports.

References derived from the analysis of documentation sources :

Abstracts.

Conditions of literature searches on request :

Free of charge.

Availability of the documentation (Access) :

On the spot consultation, loans (no reproductions).

Publications :

Abstracting and indexing  
journals : Tijdschriften - Documentatie  
(fortnightly).  
Miscellaneous : Aanwinstenlijst (monthly).

N E T H E R L A N D S - 17

NATIONAAL LUCHT- en RUIMTEVAARTLABORATORIUM

Amsterdam, Sloterweg 145

tel.: 020-158888

telex: 11118

Subject coverage:

FLUID DYNAMICS (subsonic aerodynamics, transonic aerodynamics, supersonic aerodynamics, gas-dynamics, combustion and propulsion), STRUCTURES (structures and materials, aeroelasticity and vibrations), FLIGHT DYNAMICS and OPERATIONS (flight mechanics and operations, helicopters and V/STOL, free flight models).

Related topics are: electronics, mathematics, ergonomics, human engineering.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports.

References derived from the analysis of documentation sources

Bibliographical data, keywords assignment, abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation:

On the spot consultation, loans, Xerox copies against payment.

Publications:

Miscellaneous: Technical Reports, Technical Notes, Technical Memoranda, Reports and Transactions (Verslagen en Verhandelingen )  
Annual Report (in Dutch with summary in English).

N E T H E R L A N D S - 18

N I D E R - NEDERLANDS INSTITUUT VOOR INFORMATIE, DOCUMENTA-  
TIE EN REGISTRATUUR

Den Haag, Bezuidenhoutseweg 43

tel.: 856702

Subject coverage:

All branches of chemistry, physics, metallurgy, mechanical and electrical engineering and equipment, metals, ceramics and other materials, industrial applications of isotopes and radiations, isotope separation, reactor technology, waste disposal and processing.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents, other sources (directories), outside consultations.

References derived from the analysis of documentation sources:

Bibliographical data only.

Conditions of literature searches on request:

Price to be agreed on in each individual case or according to an existing schedule of charges.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions, originals of patents.

Publications:

None

N E T H E R L A N D S - 19

ROTTERDAMSCH RADIO-THERAPEUTISCH INSTITUUT

Rotterdam 24, Groene Hilledijk 297. tel.: 277630.

Subject coverage:

The Centre is specialised in Nuclear-MEDICINE (radio-therapy, applications of isotopes and radiations, radiation effects on living tissues, radiation sickness, dosimetry).

Related topics are: biochemistry - nutrition, fall-out, radiation chemistry and radiochemistry, radiation detectors, shielding.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, microforms.

References derived from the analysis of documentation sources:

Bibliographical data, keywords assignment.

Conditions of literature searches on request:

Price to be agreed on in each individual case, or free of charge (in certain cases).

Availability of the documentation: (Access):

On the spot consultation, loans, reproductions.

Publications:

Miscellaneous: Annual reports.

N E T H E R L A N D S - 20

STICHTING NEDERLANDS INSTITUUT VOOR LASTECHNIEK

Den Haag, Zeestraat 62

tel.: 070-631625

Subject coverage:

The Centre is specialised in WELDING technology (promotion of knowledge, research and guidance, testing, application of various techniques).

Sources of documentation:

Books, primary periodicals, reports.

References derived from the analysis of documentation sources:

Short abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Primary periodicals: Lastechniek (monthly).

N E T H E R L A N D S - 21

NEDERLANDS SCHEEPS-STUDIECENTRUM TNO

Amsterdam, Droogbak 1a

tel.: 220277

Subject coverage:

The Centre is specialised in SHIPBUILDING and engineering.

Related topics are: mechanical engineering, nuclear ship propulsion.

Sources of documentation:

Books, primary periodicals, reports, other (not specified) sources.

References derived from the analysis of documentation sources:

Not stated

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans (no reproductions).

Publications:

None

VERFINSTITUUT TNO

Delft, Schoemakerstraat 97, P.O.B. 203 tel.: 37000

Subject coverage:

Industry and technology of PAINTS and VARNISHES (manufacture, properties, testing, ingredients, binders, applications).

Related topics are: health and safety (general and miscellaneous) chemistry (analytical procedures, organic, inorganic and physical chemistry (raw materials), corrosion.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents, brochures.

References derived from the analysis of documentation sources:

Abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Primary periodicals: )	
Abstracting and in- )	Verfkroniek (monthly)
dexing journals:	
Miscellaneous:	Abstracts on cards
	(by subscription only).

VEZELINSTITUUT T.N.O.

Delft, Schoenmakerstraat 97. tel.: 37000.

Subject coverage:

The Centre is specialised in the multiple aspects of (TEXTILE) industry and technology: manufacture, bleaching, dyeing, finishing, printing, analysis, tests, controls.

Related topics are: paper manufacture and technology.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents.

References derived from the analysis of documentation sources:

Bibliographical data, abstracts.

Conditions of literature searches on request:

For Dutch requesters only: price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans, reproductions.

Publications:

Abstracting and indexing journals:           TEXTRAKT uit de vakliteratuur (periodicity not stated).

N E T H E R L A N D S - 24

VEZELINSTITUUT TNO "DE VOORZORG"

Enschede, Noorderhagen 29

tel.: 05420-12655

Subject coverage:

The Centre is specialised in the multiple aspects of TEXTILE industry and technology.

Sources of documentation:

Books, periodicals, abstracting and indexing journals, reports, patents.

References derived from the analysis of documentation sources:

Keywords assignment.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation: (Access):

On the spot consultation, loans, reproductions.

Publications:

Abstracting and indexing  
journals:

Literatuur-Attendeerdienst  
(fortnightly).

N E T H E R L A N D S - 25

CENTRAAL LABORATORIUM T.N.O. - ANALYTISCH CENTRUM

Delft, Postbus 217.

tel.: 37000.

Subject coverage:

Analytical organic and inorganic CHEMISTRY.

Sources of documentation:

Books, periodicals, abstracting and indexing  
journals, reports, patents, outside consultation.

References derived from the analysis of documentation sources:

Bibliographical data, keywords assignment, abstracts.

Conditions of literature searches on request:

Price to be agreed on in each individual case.

Availability of the documentation (Access):

On the spot consultation, loans (with restrictions)  
reproductions (against payment).

Publications:

None.

NETHERLANDS - 26

INSTITUUT VOOR DE VEREDELING VAN TUINBOUWGEWASSEN

Wageningen, Dr. S.L. Mansholtlaan

tel.: 08370-3141

Subject coverage :

The Centre is specialised in PLANT BREEDING.

Related topics are : biology, biochemistry - nutrition,  
fallout and ecology.

Sources of documentation :

Books, periodicals, abstracting and indexing journals,  
reports, literature.

References derived from the analysis of documentation sources :

Bibliographical data, keywords assignment.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, loans (no reproductions).

Publications :

Miscellaneous : Technical reports, lists of publications,  
lists of periodicals currently received.

N E T H E R L A N D S - 27

NEDERLANDS GRAAN CENTRUM

Wageningen, Bornsesteeg 45

tel.: 08370-3600

Subject coverage ;

AGRICULTURE (Cereal breeding, genetics, soil science)

Sources of documentation :

Books, periodicals, report literature.

References derived from the analysis of documentation sources :

Bibliographical data, keywords assignment.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, loans (no reproductions).

Publications :

Abstracting and indexing journals : "Literatuur-  
mededeling" (periodicity not  
stated)

N E T H E R L A N D S - 28

STICHTING HET NEDERLANDS STUDIECENTRUM VOOR ADMINISTRATIEVE  
AUTOMATISERING

Amsterdam, Stadhouderskade 6.

tel.: 18-79-33

Subject coverage :

MATHEMATICS and COMPUTERS (automatic information processing), AUTOMATION.

Sources of documentation :

Books, periodicals, abstracting and indexing journals, report literature.

References derived from the analysis of documentation sources :

Abstracts.

Conditions of literature searches on request :

Price to be agreed on in each individual case.

Availability of the documentation (Access) :

On the spot consultation, loans, reproductions.

Publications :

Not stated.

# EURATOM

## NUCLEAR DOCUMENTATION SYSTEM

Is giving access to more than 600,000 document data with an additional yearly growth rate of more than 100,000 documents in the following

### SUBJECT FIELDS

1. **BIOLOGY AND MEDICINE**
  - a) Uses of radiations and radioisotopes. Synthesis of labelled compounds, radioautography, food preservation.
  - b) Metabolism and toxicology of radioisotopes, actinides and materials used in nuclear technology.
  - c) Radiation sickness and radiation injuries, radioprotective drugs.
2. **CHEMISTRY**
  - a) Fission products, actinides and actinide compounds.
  - b) Chemistry of moderators, fuels, coolants, control elements, and structural materials.
  - c) Chemistry of rare gases.
  - d) Radioactive waste processing, storage, and disposal.
  - e) Radiation chemistry, radiochemistry, and activation analysis.
3. **ENGINEERING AND INSTRUMENTATION**
  - a) Control systems for reactors and nuclear power plants.
  - b) (Remote) handling and processing of radioactive materials.
  - c) Engineering applications of nuclear explosions.
  - d) Radiation-detection instruments.
4. **GEOLOGY, MINERALOGY AND METEOROLOGY**
  - a) Uranium and thorium ore exploration, exploitation and processing.
  - b) Geological age determination and well logging.
  - c) Selection of reactor and waste-disposal sites.
  - d) Radioactive fallout and atmospheric radioactivity.
5. **HEALTH AND SAFETY**
  - a) Radiation hazards and accidents due to radioactive materials.
  - b) Protective equipment, safety procedure and regulations, decontamination techniques.
6. **ISOTOPE TECHNOLOGY**
  - a) Production and separation of stable and radioactive isotopes.
  - b) All applications of radioisotopes.
7. **MATHEMATICS AND COMPUTERS**
  - a) Mathematical theories underlying nuclear problems.
  - b) Applications of computers to nuclear science and technology.
8. **METALLURGY AND CERAMICS**
  - a) Metallurgy of actinides, rare earths, and the elements beryllium, niobium, technetium, yttrium, and zirconium.
  - b) Metallic and ceramic reactor materials.
  - c) Corrosion and erosion in reactors and separation plants.
  - d) Radiation effects on materials.

*Continued on the back*

## 9. PHYSICS

- a) Field theory and quantum mechanics.
- b) Structure and properties of nuclei; nuclear reactions; Mössbauer effect.
- c) Elementary particles and radiations.
- d) Neutron absorption, scattering, and multiplication.
- e) Shielding.
- f) Accelerators.
- g) Production, properties, containment of plasma, magneto-fluid dynamics.
- h) Controlled thermonuclear reactions.
- i) Stellar phenomena involving nuclear reactions.
- j) Cosmic radiation.
- k) Particle interactions in radiation belts.
- l) Direct energy conversion.
- m) Solid-state physics in nuclear devices; superconductivity and superfluidity; lasers (theoretical aspects).

## 10. REACTOR TECHNOLOGY

- a) Scientific, technical and economic aspects of nuclear reactors and thermonuclear devices.
- b) Design and construction of reactor buildings, components, control systems and instruments.
