94/0171 (ACC)

Proposal for a

## COUNCIL REGULATION (EC)

applying to South Africa some of the advantages granted by  
the Community to developing countries  
under the scheme of generalized tariff preferences

(presented by the Commission)

## Explanatory memorandum

On 19 April, in the context of the joint action adopted in December last year, the Council approved the basis for future relations between the European Union and a new, democratic and multiracial South Africa.

On that occasion the Union stressed that its decisions should be seen as sending a strong political signal to South Africa's incoming government and to its people: the EU is South Africa's principal donor, notably via the special programme.

The relations with South Africa mapped out by the Council encompass the short and medium terms. In the short term a package of initial measures is planned comprising autonomous measures and an offer to come to a swift conclusion of a simple formula agreement. In the medium term the EU has offered to negotiate in the overall context of our long-term relations with South Africa if its government so requests.

As part of short-term package of measures covering aspects of trade, development and political dialogue the Community has said it is prepared to examine rapidly a suitable formula enabling South Africa to benefit from the generalized system of preferences.

This proposal takes account of South Africa's special characteristics, the interests of the other countries in the region and those of the Member States, and the principles governing the revised GSP due to take effect on 1 January 1995.

The Commission recently set out the basic principles for the review of the Community scheme of generalized tariff preferences<sup>1</sup>, but as the operational scheme based on those principles is still being drawn up it considers that a scheme should be proposed for South Africa that can be approved and put into effect as soon as possible. It is therefore proposing for the remainder of the current preferential scheme, and without prejudice to the future scheme, that the benefit of preferential access defined under this scheme be accorded in respect of the industrial products listed in the Regulation below. In this way, the Commission is seeking to give effective support for the growth of South African exports and provide a stimulus for increased productive investment in that country.

This proposal fits in with the framework established by the Union and meets the request reiterated by the South African authorities during the Commission's fact-finding mission on 29 and 30 June; it also sends an important political signal at this juncture to the new government and dovetails with the efforts to foster regional ties in southern Africa, a matter to be discussed at the conference in Berlin on 5 and 6 September.

The Council is asked to adopt the attached proposal at its meeting of 18 and 19 July.

Such is the purpose of this proposal for a Council Regulation.

<sup>1</sup> Document COM(94) 212 final of 1.6.1994.

Proposal for a  
Council Regulation No ...  
applying to South Africa some of the advantages granted by  
the Community to developing countries  
under the scheme of generalized tariff preferences

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas South Africa's state of development and the deterioration of its economy warrant the granting of the benefit of generalized preferences to enable it to step up its exports in order to give a spur to its economic development, foster its industrialization and increase its growth rate;

Whereas, bearing in mind the progress made in reviewing the Community scheme, the benefit of the generalized preferences arrangements should now be extended to a number of industrial products originating in South Africa,

HAS ADOPTED THIS REGULATION:

**Article 1**

The benefit of the arrangements provided for in Article 1 of Council Regulation (EEC) No 3831/90 shall be granted in respect of the products originating in South Africa listed in the Annex to this Regulation.

**Article 2**

The line "388 South Africa" shall be added to Part A of Annex III to Council Regulation (EEC) No 3831/90.

**Article 3**

This Regulation shall enter into force on the third day following its publication in the Official Journal of the European Communities.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council  
The President

### Financial statement

On the basis of imports from South Africa in 1992 of the industrial products covered by the proposal, the GSP offer for that country will be around ECU 400 million over twelve months.

As the average of the customs duties applicable under the common customs tariff is 5.5%, and assuming that the average rate of utilization is 70%, it is estimated that customs revenue not collected will amount to ECU 6.4 million over five months. This figure may be adjusted pro rata temporis in light of the preferential advantages actually accorded to South Africa.
