

COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 09.11.1995 COM(95)516 final

Proposal for a

COUNCIL REGULATION (EC)

amending for the third time Regulation (EC) No.3362/94 fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for 1995 and certain conditions under which they may be fished

(presented by the Commission)

.

EXPLANATORY MEMORANDUM

The objective of the present proposal is to fix fishing possibilities for certain stocks of fish and to allocate these equitably to Member States. The fixing and the sharing of possibilities for fishing falls exclusively within the competence of the Community and arises from obligations set out in Article 8(4) of Regulation (EEC) n° 3760/92 of the Council of 20 December 1992', establishing a Community regime for fishing and aquaculture.

The TACs for certain stocks subject to a precautionary TAC appear insufficient to maintain exploitation for the whole of 1995. According to the most recent scientific information, an increase in these TACs would not jeopardize the future management of the resources concerned.

This proposal intends to address this matter by modifying Council Regulation (EC) N° 3362/94.

O.J. No L389, 31.12.1992, p.1

Proposal for a

COUNCIL REGULATION (EC)

amending for the third time Regulation (EC) No.3362/94 fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for 1995 and certain conditions under which they may be fished

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No. 3760/92 of 20 December 1992 establishing a Community system for fisheries and aquaculture¹, and in particular Article 8 (4) thereof,

Having regard to the proposal from the Commission,

Whereas under the terms of Article 8 (4) of Regulation (EEC) No 3760/92 it is incumbent upon the Council to establish the total allowable catches (TACs) by fishery or group of fisheries;

Whereas Regulation (EC) No.3362/94² as amended by Regulation (EC) No.746/95³, fixes, for certain fish stocks and groups of fish stocks, the TACs for 1995 and certain conditions under which they may be fished;

Whereas the state of the stocks of whiting in areas VII (except VIIa) and VIII, Norway lobster in areas VII and VIII, sprat in the North Sea and cod in the Kattegat allow increase of TACs without endangering the future management of these resources;

¹ O.J. No L389, of 31.12.1992, p.1

O.J. No L 363, of 31.12.1994, p.1

³ O.J. No L. 74 of 01.04.95, p.1

Whereas Council Regulation (EC) No 3362/94 should therefore be amended accordingly,

•

HAS ADOPTED THIS REGULATION :

Article 1

The Annex to this Regulation replaces the corresponding elements of the Annex to Regulation (EC) No 3362/94.

Article 2

This Regulation shall enter into force on the day following that of its publication in the Official Journal of the European Communities.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council, The President.
