## EXPLANATORY MEMORANDUM

The draft Association Council Decisions with Romania and with the Republic of Bulgaria renew the double-checking system without quantitative limits applied to certain ECSC steel products for the period 1 January to 31 December 1996. The system has already operated since 1 March 1995.

The draft Association Council Decisions with the Czech and Slovak Republics introduce a double-checking system for certain ECSC and EC steel products for an initial period between 1 January and 31 December 1996.

The implementing legislation contains details of the provisions relating to the issue of import documents which are identical to those contained in the draft prior surveillance measure for steel products in 1996.

The draft Association Council Decisions have already been informally agreed by the relevant ECSC Contact Groups or sub-committees. In view of the time which these procedures could take, the ECSC Contact Groups or sub-committees also agreed, if necessary, to introduce the double-checking system with effect from 1 January 1996 on a temporary basis by means of autonomous measures, pending the entry into force of the Association Council Decisions and of the implementing legislation.

HAS ADOPTED THIS REGULATION:

Article 1

1. For the period 1 January to 31 December 1996, in accordance with the provisions of Association Council Decisions N° .../95, .../95, .../95 and .../95, import into the Community of certain iron and steel products covered by the ECSC and EC Treaties originating in certain third countries, as listed in Annexes I to IV, shall be subject to the presentation of an import document issued by the authorities in the Community.
2. The classification of the products covered by this Decision is based on the tariff and statistical nomenclature of the Community (hereinafter called the "Combined Nomenclature", or in abbreviated form "CN"). The origin of the products covered by this Decision shall be determined in accordance with the rules in force in the Community.
3. For the period 1 January to 31 December 1996, import into the Community of the products originating in the exporting countries listed in Annexes I to IV shall, in addition, be subject to the issue of an export document issued by the competent authorities of the exporting country. Presentation by the importer of the original of the export document must be effected not later than 31 March of the year following that in which the goods covered by the document were shipped.
4. An export document will not be required for goods originating in the Czech or Slovak Republics already shipped to the Community before 1 January 1996, provided that the destination of such products is not changed and that those products which, under the prior surveillance regime applicable in 1995, may be put into free circulation only on production of an import document are in fact accompanied by such a document.
5. Shipment is considered to have taken place on the date of loading onto the exporting means of transport.
6. The export document shall conform to the model shown at Annex V. It shall be valid for exports throughout the customs territory of the Community.

Article 2

1. The import document referred to in Article 1, paragraph 1 shall be issued automatically by the competent authority in the Member States, without charge for any quantities requested, within 5 working days of presentation of an application by any Community importer, wherever established in the Community. This application shall be deemed to have been received by the competent national authority no later than three working days after submission, unless it is proven otherwise.
2. An import document issued by one of the authorities listed in Annex VI shall be valid throughout the Community.

3. The import document shall be made out on a form corresponding to the model at Annex VII. The importer's application shall include the following elements:
- (a) the name and full address of the applicant (including telephone and telefax numbers, and possible identification number used by the competent national authorities) and V.A.T. registration number, if subject to V.A.T.;
  - (b) if applicable, the name and full address of the declarant or representative of the applicant (including telephone and telefax numbers);
  - (c) the full name and address of the exporter;
  - (d) the exact description of the goods, including
    - their trade name;
    - the combined nomenclature (CN) code(s);
    - the country of origin;
    - the country of consignment;
  - (e) the net weight, expressed in kg and also quantity in the unit prescribed where other than net weight, by combined nomenclature heading;
  - (f) the cif value of the goods in ECU at the Community frontier by combined nomenclature heading;
  - (g) whether the products concerned are seconds or of substandard quality<sup>9</sup>;
  - (h) the proposed period and place of customs clearance;
  - (i) whether the application is a repeat of a previous application concerning the same contract;
  - (j) the following declaration, dated and signed by the applicant with the transcription of his name in capital letters:

"I, the undersigned, certify that the information contained in the present application is exact and established in good faith and that I am established in the Community".

The importer shall also submit a copy of the contract of sale or purchase, the *pro forma* invoice and/or, in cases where the goods are not directly purchased in the country of production, a certificate of production issued by the producing steel mill.

4. Import documents may be used only for such time as arrangements for liberalization of imports remain in force in respect of the transactions concerned. Without prejudice to possible changes in the import regulations in force or decisions taken in the framework of an agreement or the management of a quota:
- the period of validity of the import document or licence is hereby fixed at four months;
  - unused or partly used import documents or licences may be renewed for an equal period.

---

<sup>9</sup>Under the criteria given in OJ N° C 180, 11.7.1991, p. 4

### Article 3

1. A finding that the unit price at which the transaction is effected exceeds that indicated in the import document by less than 5% or that the total value or quantity of the products presented for import exceeds the value or quantity given in the import document by less than 5% shall not preclude the release for free circulation of the products in question.
2. Applications for import documents or licences and the licences themselves shall be confidential. They shall be restricted to the competent authorities and the applicant.

### Article 4

1. Within the first ten days of each month, the Member States shall communicate to the Commission:
  - a) details of the quantities and values (calculated in ECU) for which import documents were issued during the preceding month;
  - b) details of imports during the month preceding the month referred to in subparagraph a).

The information provided by Member States shall be broken down by product, CN code and by country. It shall be communicated electronically in the form agreed for this purpose.

2. The Member States shall give notification of any anomalies or cases of fraud which they discover and, where relevant, the basis on which they have refused to grant an import document.

### Article 5

Any notices to be given hereunder shall be given to the Commission of the European Communities (DGI/D/2 and DG III/C/2).

### Article 6

This Regulation shall enter into force on the day of its publication in the Official Journal of the European Communities.

It shall apply with effect from 1 January 1996.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Proposal for a Council Decision

95/0289 (Acc)

**on the position to be taken by the Community within the Association Council established by the Europe Agreement between the European Communities and their Member States, of the one part, and the Republic of Bulgaria, of the other part, which entered into force on 1 February 1995, concerning the export of certain steel products from the Republic of Bulgaria to the European Communities**

The Council of the European Union,

Having regard to the Treaty establishing the European Community, and in particular Article 113 together with Article 228, para 2, first sentence,

Having regard to the Decision of the Council and the Commission of 19 December 1994 on the conclusion of the Europe Agreement between the European Communities and their Member States, of the one part, and the Republic of Bulgaria, of the other part, and in particular Article 2(1) thereof,

Whereas the Contact Group referred to in Article 11 of Protocol 2 of the Europe Agreement between the European Communities and their Member States of the one part and the Republic of Bulgaria of the other part, which entered into force on 1 February 1995<sup>1</sup>, met on 30 October 1995 to discuss trends in imports of ECSC products from the Republic of Bulgaria into the Community and recognised the need for an administrative procedure, having as its purpose the rapid provision of information on the trend of trade flows, in order to ensure that the attainment of the objectives of the Agreement will not be jeopardised;

Whereas such an administrative procedure would help to increase transparency and avoid possible diversions of trade;

Whereas the Contact Group therefore agreed to recommend to the Association Council established under Article 105 of the Agreement that the double-checking system introduced in 1995 by Association Council Decision N° .../95<sup>2</sup> should be renewed for the period between 1 January and 31 December 1996;

Whereas the Parties are desirous to promote the orderly and equitable development of trade in steel between the Community and the Republic of Bulgaria;

Whereas the Association Council, having been supplied with all relevant information, has determined that the solution acceptable to the two parties which least disturbs the functioning of the Agreement is the renewal of a double-checking system, without quantitative limits, for the import into the Community of certain steel products covered by the ECSC Treaty between 1 January and 31 December 1996,

**DECISION NO. ..../95 OF THE ASSOCIATION COUNCIL**

**BETWEEN THE EUROPEAN COMMUNITIES AND THEIR MEMBER  
STATES, OF THE ONE PART, AND THE REPUBLIC OF BULGARIA, OF THE  
OTHER PART, OF**

**[DATE]**

concerning the export of certain ECSC steel products from the Republic of Bulgaria  
to the Community

**THE ASSOCIATION COUNCIL,**

Whereas the Contact Group referred to in Article 11 of Protocol 2 of the Europe Agreement between the European Communities and their Member States of the one part and the Republic of Bulgaria of the other part, which entered into force on 1 February 1995<sup>1</sup>, met on 30 October 1995 to discuss trends in imports of ECSC products from the Republic of Bulgaria into the Community and recognised the need for an administrative procedure, having as its purpose the rapid provision of information on the trend of trade flows, in order to ensure that the attainment of the objectives of the Agreement will not be jeopardised;

Whereas such an administrative procedure would help to increase transparency and avoid possible diversions of trade:

Whereas the Contact Group therefore agreed to recommend to the Association Council established under Article 105 of the Agreement that the double-checking system introduced in 1995 by Association Council Decision N° .../95<sup>2</sup> should be renewed for the period between 1 January and 31 December 1996;

Whereas the Parties are desirous to promote the orderly and equitable development of trade in steel between the Community and the Republic of Bulgaria;

Whereas the Association Council, having been supplied with all relevant information, has determined that the solution acceptable to the two parties which least disturbs the functioning of the Agreement is the renewal of a double-checking system, without quantitative limits, for the import into the Community of certain steel products covered by the ECSC Treaty between 1 January and 31 December 1996,

REPUBLIC OF BULGARIA

TECHNICAL ANNEX ON THE DOUBLE-CHECKING SYSTEM

1. The export documents shall measure 210 x 297 mm. The paper used shall be white writing paper, sized, not containing mechanical pulp, and weighing not less than 25 g/m<sup>2</sup>. They shall be printed in English. If they are completed by hand, entries must be in ink and in printed script. These documents may comprise additional copies duly indicated as such. If the documents have several copies only the top copy is the original. This copy shall be clearly marked as original and other copies as copies. Only the original shall be accepted by the competent authorities of the Community as being valid for the control of export to the Community in accordance with the provisions of the double-checking system.
2. Each document shall bear a standardised serial number, whether or not printed, by which it can be identified. This number shall be composed of the following elements:
  - two letter identifying the exporting country as follows: BG;
  - two letters identifying the intended Member state of customs clearance as follows:
    - BE = Belgium
    - DE = Germany
    - DK = Denmark
    - EL = Greece
    - ES = Spain
    - FR = France
    - IT = Italy
    - IE = Ireland
    - LU = Luxembourg
    - NL = Netherlands
    - AT = Austria
    - PT = Portugal
    - FI = Finland
    - SE = Sweden
    - GB = United Kingdom

- a one-digit number identifying the year, corresponding to the last figure in the respective year, e.g. 6 for 1996;
  - a two-digit number from 01 to 99, identifying the particular issuing office concerned in the exporting country;
  - a five-digit number running consecutively from 00001 to 99999 allocated to the intended Member State of customs clearance.
3. The export documents shall be valid for four months from the date of their issue. Export documents may be renewed or prolonged.
  4. Each export document may be used for one or more consignments of the products in question. However, since the importer needs to present the original export document when requesting an import document, export documents should, as far as possible, be issued in respect of individual commercial transactions, not global contracts.
  5. The Republic of Bulgaria need not show price information on the export document if there is a genuine need to protect commercial confidentiality. In such cases, Box 9 of the export document should indicate the reason for not showing the price information and that it is available to the competent authorities of the European Communities on request.
  6. Export documents may be issued after the shipment of the products to which they relate. In such cases they must bear the endorsement "issued retrospectively".
  7. In the event of a theft, loss or destruction of an export document, the exporter may apply to the competent governmental authority which issued the document for a duplicate to be made out on the basis of the export documents in his possession. The duplicate of any such document so issued shall bear the endorsement "duplicate". The duplicate shall bear the date of the original export document.
  8. The competent authorities of the Community shall be informed immediately of the withdrawal or modification of any export documents already issued and, where relevant, of the basis for such action.
  9. The Republic of Bulgaria intends to include a description of the classification of the goods (i.e. 1st or 2nd choice or other sub-standard products) in box 10 of the export document.

Proposal for a Council Decision

95/0290 (Acc)

**on the position to be taken by the Community within the Association Council established by the Europe Agreement between the European Communities and their Member States, of the one part, and the Czech Republic, of the other part, which entered into force on 1 February 1995, concerning the export of certain steel products from the Czech Republic to the European Communities**

The Council of the European Union,

Having regard to the Treaty establishing the European Community, and in particular Article 113 together with Article 228, para 2, first sentence,

Having regard to the Decision of the Council and the Commission of 19 December 1994 on the conclusion of the Europe Agreement between the European Communities and their Member States, of the one part, and the Czech Republic, of the other part, and in particular Article 2(1) thereof,

Whereas the Contact Group referred to in Article 10 of Protocol 2 of the Europe Agreement between the European Communities and their Member States of the one part and the Czech Republic of the other part, which entered into force on 1 February 1995<sup>1</sup>, met on 25-26 September 1995 to discuss trends in imports of ECSC and EC products from the Czech Republic into the Community and recognised the need to find appropriate solutions in the framework of Article 34.2 of the Agreement in order to ensure that the attainment of the objectives of the Agreement will not be jeopardised;

Whereas, in view of the need for both parties to have rapid information on the trend of trade flows in order to increase transparency and to avoid possible diversions of trade, the Contact Group decided to refer the matter to the Association Council established under Article 104 of the Agreement;

Whereas the Parties are desirous to promote the orderly and equitable development of trade in steel between the Community and the Czech Republic;

Whereas the Association Council, having been supplied with all relevant information, has determined that the solution acceptable to the two parties is a double-checking system, without quantitative limits, for the import into the Community of certain steel products covered by the ECSC and EC Treaties for an initial period between 1 January and 31 December 1996,

CZECH REPUBLIC

TECHNICAL ANNEX ON THE DOUBLE-CHECKING SYSTEM

1. The export documents shall measure 210 x 297 mm. The paper used shall be white writing paper, sized, not containing mechanical pulp, and weighing not less than 25 g/m<sup>2</sup>. They shall be made out in English. If they are completed by hand, entries must be in ink and in printed script. These documents may comprise additional copies duly indicated as such. If the documents have several copies only the top copy is the original. This copy shall be clearly marked as "original" and other copies as "copies". Only the original shall be accepted by the competent authorities of the Community as being valid for the control of export to the Community in accordance with the provisions of the double-checking system.
2. Each document shall bear a standardised serial number, whether or not printed, by which it can be identified. This number shall be composed of the following elements:
  - two letter identifying the exporting country as follows: CZ;
  - two letters identifying the intended Member state of customs clearance as follows:
    - BE = Belgium
    - DE = Germany
    - DK = Denmark
    - EL = Greece
    - ES = Spain
    - FR = France
    - IT = Italy
    - IE = Ireland
    - LU = Luxembourg
    - NL = Netherlands
    - AT = Austria
    - PT = Portugal
    - FI = Finland
    - SE = Sweden
    - GB = United Kingdom

- a one-digit number identifying the year, corresponding to the last figure in the respective year, e.g. 6 for 1996;
  - a two-digit number from 01 to 99, identifying the particular issuing office concerned in the exporting country;
  - a five-digit number running consecutively from 00001 to 99999 allocated to the intended Member State of customs clearance.
3. The export documents shall be valid for four months from the date of their issue. Export documents may be renewed or prolonged.
  4. Since the importer needs to present the original export document when requesting an import document, export documents should, as far as possible, be issued in respect of individual commercial transactions, not global contracts.
  5. The Czech Republic need not show price information on the export document if there is a genuine need to protect commercial confidentiality. In such cases, Box 9 of the export document should indicate the reason for not showing the price information and that it is available to the competent authorities of the European Communities on request.
  6. Export documents may be issued after the shipment of the products to which they relate. In such cases they must bear the endorsement "issued retrospectively".
  7. In the event of a theft, loss or destruction of an export document, the exporter may apply to the competent governmental authority which issued the document for a duplicate to be made out on the basis of the export documents in his possession. The duplicate of any such document so issued shall bear the endorsement "duplicate". The duplicate shall bear the date of the original export document.
  8. The competent authorities of the Community shall be informed immediately of the withdrawal or modification of any export documents already issued and, where relevant, of the basis for such action.

Proposal for a Council Decision

95/0291 (ACC)

**on the position to be taken by the Community within the Association Council established by the Europe Agreement between the European Communities and their Member States, of the one part, and Romania, of the other part, which entered into force on 1 February 1995, concerning the export of certain steel products from Romania to the European Communities**

The Council of the European Union,

Having regard to the Treaty establishing the European Community, and in particular Article 113 together with Article 228, para 2, first sentence,

Having regard to the Decision of the Council and the Commission of 19 December 1994 on the conclusion of the Europe Agreement between the European Communities and their Member States, of the one part, and Romania, of the other part, and in particular Article 2(1) thereof,

Whereas the Contact Group referred to in Article 11 of Protocol 2 of the Europe Agreement between the European Communities and their Member States of the one part and Romania of the other part, which entered into force on 1 February 1995<sup>1</sup>, met on 17-18 October 1995 to discuss trends in imports of ECSC products from Romania into the Community and recognised the need for an administrative procedure, having as its purpose the rapid provision of information on the trend of trade flows, in order to ensure that the attainment of the objectives of the Agreement will not be jeopardised;

Whereas such an administrative procedure would help to increase transparency and avoid possible diversions of trade;

Whereas the Contact Group therefore agreed to recommend to the Association Council established under Article 106 of the Agreement that the double-checking system introduced in 1995 by Association Council Decision N° .../95<sup>2</sup> should be renewed for the period between 1 January and 31 December 1996;

Whereas the Parties are desirous to promote the orderly and equitable development of trade in steel between the Community and Romania;

Whereas the Association Council, having been supplied with all relevant information, has determined that the solution acceptable to the two parties which least disturbs the functioning of the Agreement is the renewal of a double-checking system, without quantitative limits, for the import into the Community of certain steel products covered by the ECSC Treaty between 1 January and 31 December 1996,

ROMANIA

TECHNICAL ANNEX ON THE DOUBLE-CHECKING SYSTEM

1. The export documents shall measure 210 x 297 mm. The paper used shall be white writing paper, sized, not containing mechanical pulp, and weighing not less than 25 g/m<sup>2</sup>. They shall be printed in English. If they are completed by hand, entries must be in ink and in printed script. These documents may comprise additional copies duly indicated as such. If the documents have several copies only the top copy is the original. This copy shall be clearly marked as original and other copies as copies. Only the original shall be accepted by the competent authorities of the Community as being valid for the control of export to the Community in accordance with the provisions of the double-checking system.
2. Each document shall bear a standardised serial number, whether or not printed, by which it can be identified. This number shall be composed of the following elements:
  - two letter identifying the exporting country as follows: RO;
  - two letters identifying the intended Member state of customs clearance as follows:
    - BE = Belgium
    - DE = Germany
    - DK = Denmark
    - EL = Greece
    - ES = Spain
    - FR = France
    - IT = Italy
    - IE = Ireland
    - LU = Luxembourg
    - NL = Netherlands
    - AT = Austria
    - PT = Portugal
    - FI = Finland
    - SE = Sweden
    - GB = United Kingdom

- a one-digit number identifying the year, corresponding to the last figure in the respective year, e.g. 6 for 1996;
  - a two-digit number from 01 to 99, identifying the particular issuing office concerned in the exporting country;
  - a five-digit number running consecutively from 00001 to 99999 allocated to the intended Member State of customs clearance.
3. The export documents shall be valid for four months from the date of their issue. Export documents may be renewed or prolonged.
  4. Since the importer needs to present the original export document when requesting an import document, export documents should, as far as possible, be issued in respect of individual commercial transactions, not global contracts.
  5. Romania need not show price information on the export document if there is a genuine need to protect commercial confidentiality. In such cases, Box 9 of the export document should indicate the reason for not showing the price information and that it is available to the competent authorities of the European Communities on request.
  6. Export documents may be issued after the shipment of the products to which they relate. In such cases they must bear the endorsement "issued retrospectively".
  7. In the event of a theft, loss or destruction of an export document, the exporter may apply to the competent governmental authority which issued the document for a duplicate to be made out on the basis of the export documents in his possession. The duplicate of any such document so issued shall bear the endorsement "duplicate". The duplicate shall bear the date of the original export document.
  8. The competent authorities of the Community shall be informed immediately of the withdrawal or modification of any export documents already issued and, where relevant, of the basis for such action.

Proposal for a Council Decision

95 (0292 (Aec))

**on the position to be taken by the Community within the Association Council established by the Europe Agreement between the European Communities and their Member States, of the one part, and the Slovak Republic, of the other part, which entered into force on 1 February 1995, concerning the export of certain steel products from the Slovak Republic to the European Communities**

The Council of the European Union,

Having regard to the Treaty establishing the European Community, and in particular Article 113 together with Article 228, para 2, first sentence,

Having regard to the Decision of the Council and the Commission of 19 December 1994 on the conclusion of the Europe Agreement between the European Communities and their Member States, of the one part, and the Slovak Republic, of the other part, and in particular Article 2(1) thereof,

Whereas the Contact Group referred to in Article 10 of Protocol 2 of the Europe Agreement between the European Communities and their Member States of the one part and the Slovak Republic of the other part, which entered into force on 1 February 1995<sup>1</sup>, met on 21-22 September 1995 to discuss trends in imports of ECSC and EC products from the Slovak Republic into the Community and recognised the need to find appropriate solutions in the framework of Article 34.2 of the Agreement in order to ensure that the attainment of the objectives of the Agreement will not be jeopardised;

Whereas, in view of the need for both parties to have rapid information on the trend of trade flows in order to increase transparency and to avoid possible diversions of trade, the Contact Group decided to refer the matter to the Association Council established under Article 104 of the Agreement;

Whereas the Parties are desirous to promote the orderly and equitable development of trade in steel between the Community and the Slovak Republic;

Whereas the Association Council, having been supplied with all relevant information, has determined that the solution acceptable to the two parties is a double-checking system, without quantitative limits, for the import into the Community of certain steel products covered by the ECSC and EC Treaties for an initial period between 1 January and 31 December 1996,

3. The export documents shall be valid for four months from the date of their issue. Export documents may be renewed or prolonged.
  4. Since the importer needs to present the original export document when requesting an import document, export documents should, as far as possible, be issued in respect of individual commercial transactions, not global contracts.
  5. The Slovak Republic need not show price information on the export document if there is a genuine need to protect commercial confidentiality. In such cases, Box 9 of the export document should indicate the reason for not showing the price information and that it is available to the competent authorities of the European Communities on request.
  6. Export documents may be issued after the shipment of the products to which they relate. In such cases they must bear the endorsement "issued retrospectively".
  7. In the event of a theft, loss or destruction of an export document, the exporter may apply to the competent governmental authority which issued the document for a duplicate to be made out on the basis of the export documents in his possession. The duplicate of any such document so issued shall bear the endorsement "duplicate". The duplicate shall bear the date of the original export document.
  8. The competent authorities of the Community shall be informed immediately of the withdrawal or modification of any export documents already issued and, where relevant, of the basis for such action.
