COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 09.09.1996 COM(96) 405 final

Proposal for a

COUNCIL REGULATION (EC)

amending, for the 4th time, Regulation (EC) No. 3074/95 fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for 1996 and certain conditions under which they may be fished

(presented by the Commission)

EXPLANATORY MEMORANDUM

The objective of the present proposal is to fix fishing possibilities for certain stocks of fish and to allocate these equitably to Member States. The fixing and the sharing of possibilities for fishing falls exclusively within the competence of the Community and arises from obligations set out in Article 8(4) of Regulation (EEC) n° 3760/92 of the Council of 20 December 1992¹, establishing a Community regime for fishing and aquaculture.

Within the framework of the bilateral consultations on the reciprocal fishing rights between the Community and Norway, the Community share for North Sea plaice has been increased and the part of the TAC of blue whiting available to Norway in areas Vb (EC zone), VI and VII has been increased.

Within the framework of the bilateral consultations on the reciprocal fishing rights between the Community and Poland, the Community share for Baltic cod has been decreased.

This proposal intends to address these matters by modifying Council Regulation (EC) N° 3074/95.
