Proposal for a

COUNCIL REGULATION

on administering the double-checking system without quantitative limits in respect of the export of certain steel products covered by the EC and ECSC Treaties from the Russian Federation to the European Community for the period between 1 January 2000 and 31 December 2001 (extension of the double-checking system)

(presented by the Commission)

EXPLANATORY MEMORANDUM

The aim of the double-checking system is to improve transparency and to avoid possible diversions of trade. It is founded on the provision in the Agreement between the ECSC and the Russian Federation on trade in certain steel products¹ which allows either Party to introduce an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows. The Parties agreed to establish such a system in 1997 in respect of certain ECSC and EC steel products by means of Council Decision N° 741/97². Council Regulation (EC) N° 2135/97³ established the corresponding implementing legislation for the Community.

At its meeting on 30 September 1999, the Contact Group agreed to recommend that the Council should extend the double-checking system for the period between 1 January 2000 and 31 December 2001.

The attached proposal consequently seeks to extend Council Regulation (EC) N° 2135/97 for the period between 1 January 2000 and 31 December 2001.
