(presented by the Commission to the Council)

Explanatory memorandum

1. By a decision of 11 February the Council and the Representatives of the Governments of the Member States meeting within the Council authorized the Commission to open negotiations with Austria, Finland, Iceland, Norway, Sweden and Switzerland, and also with the other "preferential" countries(1).
2. In accordance with that decision, and in consultation with the Article 113 Committee and the Greek Delegation, negotiations between the Commission and the EFTA countries other than Portugal were held on the following dates:
  - with Switzerland, on 25 February and 24 March
  - with Finland, on 26 February and 24 March
  - with Norway, on 26 February and 26 March
  - with Austria, on 27 February and 25 March
  - with Sweden, on 29 February and 24 March
  - with Iceland, on 29 February and 26 March.

Negotiations were completed with all the above countries other than Austria, following which draft additional protocols were drawn up to supplement the Free Trade Agreements between the EEC and the countries in question, and between the Member States of the ECSC and the ECSC on the one hand and those countries on the other hand.

3. The draft additional protocols relating to the EEC contain the following provisions:

3.1. Tariff treatment:

(a) Industrial goods

- Duties and charges having equivalent effect:

On 1 January 1981 Finland, Iceland, Norway, Sweden and Switzerland will abolish all customs duties and charges having equivalent effect in respect of Greece, for products covered by the Agreement.

---

(1) The Commission will put forward a separate report and proposals on the negotiations with Austria and with Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Portugal, Spain, Syria, Tunisia and Turkey, with which it received authorization to open negotiations on the same date.

On the same date Greece will abolish all customs duties and charges having equivalent effect in respect of those countries for products other than those on the 22-year list as amended by the transfer of the seven products covered by Article 18 of the Association Agreement.

For the products on the 22-year list plus these seven, Greece will start the tariff dismantling process from the rates of duty actually applied to the countries concerned on 1 July 1980, following the same timetable as that set for abolishing intra-Community duties.

As regards charges having equivalent effect, Greece will start the elimination process from the rates applied on 31 December 1980 to the Community as at present constituted.

- Indicative tariff ceilings

In respect of the countries concerned, Greece has stopped applying indicative ceilings on products other than those on which the present Community still maintains indicative ceilings for these countries (paper and aluminium).

Greece has also agreed that it will continue to apply the ceilings only as long as the present Community does, i.e. till 31 December 1983.

The ceilings in question were negotiated with each country having regard to traditional trade patterns. The agreed limits are set out in Annex III to the respective protocols. The Community ceilings will be increased by the amounts agreed for Greece. For its own market, Greece will be allowed to reintroduce MFN duties when imports into Greece reach the limit of these "sub-ceilings".

.../...

(b) Processed agricultural products

The Commission has promised to inform the countries concerned as soon as possible about the division of protection for processed agricultural products into fixed and variable components, and to give whatever clarifications may be requested.

For processed agricultural products on the 12-year list, Greece will apply the preferential fixed components prescribed by the Agreements in respect of the countries concerned from the date of its accession.

For processed agricultural products on the 22-year list, the fixed components will be cut to the level of the preferential duties (other than variable components) laid down in the Agreements at the same rate as for the industrial goods on this list.

The variable components to be applied by Greece to processed agricultural products by virtue of Article 1 of Protocol No 2 of the Agreement will be corrected by the compensatory amounts used in trade between the present Community and Greece.

Where tariff preferences for processed agricultural products are granted under the Agreements by the countries concerned, they will be applied to Greece in toto from 1 January 1981.

3.2. Quantitative restrictions

Greece has agreed not to apply quantitative restrictions on imports from the countries concerned except for products in respect of which it will continue throughout the transitional period to maintain such restrictions against the present Community (14 products).

Greece has opened global quotas for imports of these products from the countries in question, set at 20 % of the quotas it has established for the present Community, except in respect of television sets and parts (10 %) and pumps (1 million EUA). The agreed quotas are set out

.../...

in Annex II to the protocols (1). Greece will administer the licences for the EFTA countries in the same way as it does for the present Community (except as regards the fertilizer quota: here Greece will continue to apply its system of exclusive import rights in respect of the EFTA countries).

3.3. Measures having equivalent effect to quantitative restrictions

These will be abolished in accordance with the same timetable and the same procedures as for the present Community.

3.4. Rules of origin

The Joint Committees under the Agreements will amend the rules of origin as necessary. The Customs Committees set up by the Joint Committees have reached agreement on this question.

3.5. Other

(a) The Community negotiators have agreed with Norway and Sweden that, when the protocols are signed, there will be an exchange of letters between the negotiators on the applicability of the safeguard measures contained in the Agreements where difficulties might be caused during the transitional period by increased imports into Norway and Sweden of sensitive products from Greece, and vice versa. The exchanges of letters are annexed to this communication. They will not constitute an integral part of the additional protocols and will not be appended to them.

(b) When the Agreements were concluded with the EFTA countries, various concessions on agricultural products were granted reciprocally by exchanges of letters separately from the Agreements. Consequently, there has been no discussion of the effect Greece's accession will have on these concessions. The EFTA countries in question have been told that bilateral talks on the subject can be held with the Commission in due course in accordance with the usual procedure.

---

(1) Greece will also apply these quotas to Austria, although the negotiations are not yet complete.

(c) Because of the importance of fishing to Iceland and Norway, these countries wished to know what tariff treatment Greece would apply to imports of salt cod on accession. Greece stated that it would apply the Community's autonomous arrangements (currently suspension of tariffs) in full from 1 January 1981.

(d) Switzerland stated that it would continue its autonomous tariff quota for 20 000 hl of red wine in the wood originating in Greece.

#### 4. Protocols covering ECSC products

Greece will dismantle its customs duties and measures having equivalent effect in respect of the EFTA countries concerned in accordance with the same timetable and under the same conditions as for the present Community. It will abolish measures having equivalent effect to quantitative restrictions in the same way as for EEC products (see 3.3.).

The EFTA countries concerned will abolish customs duties and measures having equivalent effect in respect of Greece by stages, following the same timetable, starting from MFN levels.

As regards list prices, the transitional measures that are to apply between Greece and the present Community will also apply to relations between Greece and Finland, Norway and Sweden. The additional protocol with Switzerland does not lay down transitional arrangements for list prices, since they are not included in the Agreement. The additional protocol with Iceland has been drafted in conformity with the specific nature of the ECSC Agreement with that country.

A supplementary protocol has also been negotiated for the Additional Agreement concerning the validity, for the Principality of Liechtenstein, of the Agreement between the Member States of the European Coal and Steel Community and the Swiss Confederation, to take account of Greece's accession to the Community.

.../...

5. The heads of delegation initialled the texts of the draft additional EEC and ECSC protocols on 18 April (Finland and Iceland) and 29 April (Norway, Sweden and Switzerland), after indicating that they correctly embodied the results of the negotiations.
  
6. The Commission considers that, in terms of the negotiating directives it received, the draft texts are acceptable to the Community. Accordingly, it recommends the Council and the Representatives of the Governments of the Member States meeting within the Council:
  - i) pending the adoption of the additional protocols, to take the necessary decisions regarding their signing;
  - ii) as regards the EEC protocols, to adopt the draft regulations annexed hereto.

- in addition for 1981 the volumes listed in Annex III; for each subsequent year these volumes shall be increased by 5 %.

2. When the volumes for imports into Greece laid down in Annex III have been reached for the goods concerned, the Hellenic Republic may reimpose customs duties applicable by it at that time to third countries until the end of the calendar year.

TITLE II

Where it is found that imports into Greece of a product listed in Annex II have for two consecutive years been less than 90 % of the quota, the Hellenic Republic shall liberalize imports of that product originating in Finland and in the countries listed in paragraph 2, if the product in question is at that time liberalized towards the Community as at present constituted.

5. If the Hellenic Republic liberalizes imports of a product listed in Annex II from the Community as at present constituted or increases a quota beyond the minimum rate applicable to the Community as at present constituted, the Hellenic Republic shall also liberalize imports of that product originating in Finland or increase the global quota proportionally.
  
6. Regarding licences for imports of products listed in Annex II and originating in Finland, the Hellenic Republic shall apply the same administrative rules and practices as applied to such imports originating in the Community as at present constituted, with the exception of the quota for fertilisers falling within heading Nos 31.02, 31.03 and 31.05 A I, II and IV of the Common Customs Tariff of the European Communities, where the Hellenic Republic may apply the rules and practices relevant to the exclusive marketing rights.

Article 10

- 1 January 1984 : 25 %.

2. If, in relation to the Community as at present constituted, the Hellenic Republic reduces the rate of import deposits or cash payments more quickly than under the timetable set out in paragraph 1, the Hellenic Republic shall make the same reduction with regard to imports originating in Finland.

HAVING REGARD to the Agreement between the European Economic Community  
and the Republic of Iceland signed at Brussels on 22 July 1972 and hereinafter  
called the "Agreement",

transitional measures to the Agreement consequent on the accession of  
the Hellenic Republic to the European Economic Community

and TO CONCLUDE THIS PROTOCOL :

TITLE I

Adjustments

Article 1

The text of the Agreement, including the annex and protocols forming an integral part thereof and the final act with the declarations annexed thereto, shall be drawn up in Greek and that text shall be authentic in the same ways as the original texts. The Joint Committee shall approve the Greek text.

Article 2

As regards all products originating in Iceland and covered by Chapters 48 and 49 of the Common Customs Tariff which are not listed in Annex I, the Hellenic Republic shall apply the provisions laid down in the table contained in Article 1 (3), of Protocol No 1 to the Agreement.

TITLE II

Transitional Measures

Article 3

For the products listed in Annex I, the Hellenic Republic shall progressively abolish customs duties on products originating in Iceland in accordance with the following timetable :

- on 1 January 1981, each duty shall be reduced to 90 % of the basic duty,
- on 1 January 1982, each duty shall be reduced to 80 % of the basic duty,
- the four other reductions of 20 % each shall be made on :
  - 1 January 1983,
  - 1 January 1984,
  - 1 January 1985,
  - 1 January 1986.

Article 4

1. For the products listed in Annex I, the basic duty to which the successive reductions as provided for in Article 3 are to be applied shall, for each product, be the duty actually applied by the Hellenic Republic in respect of Iceland on 1 July 1980.
  
2. However, in respect of matches falling within heading No. 36.06 of the Common Customs Tariff of the European Communities, the basic duty shall be 17.2 % ad valorem.

Article 5

1. For the products listed in Annex I, the Hellenic Republic shall progressively abolish charges having equivalent effect to customs duties on products originating in Iceland in accordance with the following timetable :

- on 1 January 1981, each charge shall be reduced to 90 % of the basic rate
- on 1 January 1982, each charge shall be reduced to 80 % of the basic rate
- the four other reductions of 20 % each shall be made on :
  - 1 January 1983,
  - 1 January 1984,
  - 1 January 1985,
  - 1 January 1986.

2. The basic rate to which the successive reductions as provided for in paragraph 1 are to be applied shall, for each product, be the rate applied by the Hellenic Republic on 31 December 1980 in relation to the Community as at present constituted.

3. Any charge having equivalent effect to a customs duty on imports introduced as from 1 January 1979 in trade between the Hellenic Republic and Iceland shall be abolished on 1 January 1981.

Article 6

If the Hellenic Republic suspends or reduces duties or taxes of equivalent effect on products imported from the Community as at present constituted more quickly than foreseen in the established timetable, the Hellenic Republic shall also suspend or reduce, by the same percentage, those duties or taxes of equivalent effect on products originating in Iceland.

Article 7

1. The variable component which the Hellenic Republic may apply in accordance with the provisions of Article 1 of Protocol No 2 of the Agreement on the products listed in Table I of that Protocol, originating in Iceland, shall be adjusted by the compensatory amount applied in trade between the Community as at present constituted and the Hellenic Republic.
2. On the products which are listed in Table I of Protocol No. 2 of the Agreement and also in Annex I to this Protocol, the Hellenic Republic shall abolish, in accordance with the timetable referred to in Article 4, the difference between :

  - the duty (other than the variable component) shown in the 1st column of Table I of Protocol No. 2.

Article 8

1. The Hellenic Republic may retain quantitative restrictions until 31 December 1985 on products listed in Annex II to this Protocol, and originating in Iceland.
2. The restrictions referred to in paragraph 1 shall take the form of quotas which shall also be opened towards imports originating in Austria, Finland, Norway, Sweden and Switzerland.  
The global quotas for 1981 are listed in Annex II.
3. The minimum rate of progressive increase for such quotas shall be 25 % at the beginning of each year for quotas expressed in units of account, and 20 % at the beginning of each year for quotas expressed in terms of volume. Such increases shall be added to each quota and the next increase calculated on the basis of the total thus obtained.

Where a quota is expressed in terms of both volume and value, the quota relating to the volume shall be raised by at least 20 % a year and the quota relating to the value by at least 25 % a year, the succeeding quotas to be calculated each year on the basis of the preceding quota plus the increase.

However, with regard to motor coaches and buses and other vehicles falling within subheading ex 87.02 A I of the Common Customs Tariff, the volume quota shall be raised by 15 % a year and the quota relating to the value by 20 % a year.

4. Where it is found that imports into Greece of a product listed in Annex II have for two consecutive years been less than 90 % of the quota, the Hellenic Republic shall liberalize imports of that product originating in Iceland and in the countries listed in paragraph 2, if the product in question is at that time liberalized towards the Community as at present constituted.

- 7 -

5. If the Hellenic Republic liberalizes imports of a product listed in Annex II from the Community as at present constituted or increases a quota beyond the minimum rate applicable to the Community as at present constituted, the Hellenic Republic shall also liberalize imports of that product originating in Iceland or increase the global quota proportionally.
  
6. Regarding licences for imports of products listed in Annex II and originating in Iceland, the Hellenic Republic shall apply the same administrative rules and practices as applied to such imports originating in the Community as at present constituted, with the exception of the quota for fertilisers falling within heading Nos 31.02, 31.03 and 31.05 A I, II and IV of the Common Customs Tariff of the European Communities, where the Hellenic Republic may apply the rules and practices relevant to the exclusive marketing rights.

Article 9

1. Import deposits and cash payments in force in Greece on 31 December 1980 with regard to products originating in Iceland shall be progressively eliminated over a period of three years from 1 January 1981.

The rate of import deposits and cash payments shall be reduced in accordance with the following timetable:

- 1 January 1981 : 25 %,
- 1 January 1982 : 25 %,
- 1 January 1983 : 25 %,
- 1 January 1984 : 25 %.

2. If, in relation to the Community as at present constituted, the Hellenic Republic reduces the rate of import deposits or cash payments more quickly than under the timetable set out in paragraph 1, the Hellenic Republic shall make the same reduction with regard to imports originating in Iceland.

TITLE III

GENERAL AND FINAL PROVISIONS

Article 10

The Joint Committee shall make any amendments which may be necessary to the origin rules consequent upon accession of the Hellenic Republic to the European Communities.

Article 11

The Annexes to this Protocol form an integral part thereof. This Protocol forms an integral part of the Agreement.

Article 12

COMMISSION  
OF THE  
EUROPEAN COMMUNITIES

Brussels  
.....

Sir,

During the negotiations between your country and the Community on the subject of the adaptation of the Free Trade Agreement concluded between the European Economic Community and the Kingdom of Norway in view of Greece's accession to the Community, your delegation expressed its desire to be able, for the length of the transitional measures, to protect certain sensitive products from the risks of increased imports originating from Greece, which might be seriously detrimental to the relevant production activity in your country, or create serious disturbances in any sector of your economy.

I am pleased to be able to confirm that in such cases, the Community would agree to seek solutions acceptable to the contracting parties, in accordance with the principles of our Free Trade Agreement, as with the rules and procedures laid down in Article 27, and in particular its paragraph 2, of this Agreement.

Greece, for her part, has expressed similar fears concerning imports originating from your country.

I would be grateful if you would confirm that in such cases, the Norwegian Authorities would agree to seek acceptable solutions in the same spirit and way as mentioned above.

Please accept, Sir, the assurance of my highest consideration.

Pierre Duchateau  
Head of the Community  
Delegation.

THE EUROPEAN ECONOMIC COMMUNITY

the Kingdom of Sweden

of the other part,

CONSIDERING the accession of the Hellenic Republic to  
the European Communities on 1 January 1981

HAVING REGARD to the Agreement between the European Economic Community  
and the Kingdom of Sweden signed at Brussels on 22 July 1972 and hereinafter  
called the "Agreement",

HAVE DECIDED to determine by common accord the adjustments and  
transitional measures to the Agreement consequent on the accession of  
the Hellenic Republic to the European Economic Community

and TO CONCLUDE THIS PROTOCOL :

TITLE I

Adjustments

Article 1

The text of the Agreement, and the declarations annexed to the final act shall be drawn up in Greek and that text shall be authentic in the same way as the original texts. The Joint Committee shall approve the Greek text.

Article 2

As regards all products originating in Sweden and covered by Chapters 48 and 49 of the Common Customs Tariff which are not listed in Annex I, the Hellenic Republic shall apply the provisions laid down in the table contained in Article 1 (3) of Protocol No 1 to the Agreement.

- 3 -  
Article 3

1. The volume of the indicative ceilings which the European Economic Community, in conformity with the provisions of Protocol No. 1 of the Agreement, shall apply as from 1 January 1981 to imports of goods originating in Sweden shall consist of :

- the volumes of the indicative ceilings resulting from the application of the rules in Protocol No. 1 of the Agreement, and
- in addition for 1981 the volumes listed in Annex III; for each subsequent year these volumes shall be increased by 5 %.

2. When the volumes for imports into Greece laid down in Annex III have been reached for the goods concerned, the Hellenic Republic may reimpose customs duties applicable by it at that time to third countries until the end of the calendar year.

TITLE II

Transitional Measures

Article 4

For the products listed in Annex I, the Hellenic Republic shall progressively abolish customs duties on products originating in Sweden in accordance with the following timetable :

- on 1 January 1981, each duty shall be reduced to 90 % of the basic duty,
- on 1 January 1982, each duty shall be reduced to 80 % of the basic duty,
- the four other reductions of 20 % each shall be made on :
  - 1 January 1983,
  - 1 January 1984,
  - 1 January 1985,
  - 1 January 1986.

Article 5

1. For the products listed in Annex I, the basic duty to which the successive reductions as provided for in Article 4 are to be applied shall, for each product, be the duty actually applied by the Hellenic Republic in respect of Sweden on 1 July 1980.
2. However, in respect of matches falling within heading No. 36.06 of the Common Customs Tariff of the European Communities, the basic duty shall be 17.2 % ad valorem.

Article 6

1. For the products listed in Annex I, the Hellenic Republic shall progressively abolish charges having equivalent effect to customs duties on products originating in Sweden in accordance with the following timetable :
  - on 1 January 1981, each charge shall be reduced to 90 % of the basic rate
  - on 1 January 1982, each charge shall be reduced to 80 % of the basic rate
  - the four other reductions of 20 % each shall be made on :
    - 1 January 1983,
    - 1 January 1984,
    - 1 January 1985,
    - 1 January 1986.
  
2. The basic rate to which the successive reductions as provided for in paragraph 1 are to be applied shall, for each product, be the rate applied by the Hellenic Republic on 31 December 1980 in relation to the Community as at present constituted.
  
3. Any charge having equivalent effect to a customs duty on imports introduced as from 1 January 1979 in trade between the Hellenic Republic and Sweden shall be abolished on 1 January 1981.

Article 7

If the Hellenic Republic suspends or reduces duties or taxes of equivalent effect on products imported from the Community as at present constituted more quickly than foreseen in the established timetable, the Hellenic Republic shall also suspend or reduce, by the same percentage, those duties or taxes of equivalent effect on products originating in Sweden.

Article 8

1. The variable component which the Hellenic Republic may apply in accordance with the provisions of Article 1 of Protocol No. 2 of the Agreement on the products listed in Table I of that Protocol, originating in Sweden, shall be adjusted by the compensatory amount applied in trade between the Community as at present constituted and the Hellenic Republic.
2. On the products which are listed in Table I of Protocol No. 2 of the Agreement and also in Annex I to this Protocol, the Hellenic Republic shall abolish, in accordance with the timetable referred to in Article 4, the difference between :
  - the fixed component of the duty to be applied by the Hellenic Republic upon accession, and
  - the duty (other than the variable component) shown in the last column of Table I of Protocol No. 2.

Article 9.

1. The Hellenic Republic may retain quantitative restrictions until 31 December 1985 on products listed in Annex II to this Protocol, and originating in Sweden.
2. The restrictions referred to in paragraph 1 shall take the form of global quotas which shall also be opened towards imports originating in Austria, Finland, Iceland, Norway and Switzerland. The global quotas for 1981 are listed in Annex II.
3. The minimum rate of progressive increase for such quotas shall be 25 % at the beginning of each year for quotas expressed in units of account, and 20 % at the beginning of each year for quotas expressed in terms of volume. Such increases shall be added to each quota and the next increase calculated on the basis of the total thus obtained.

Where a quota is expressed in terms of both volume and value, the quota relating to the volume shall be raised by at least 20 % a year and the quota relating to the value by at least 25 % a year, the succeeding quotas to be calculated each year on the basis of the preceding quota plus the increase.

However, with regard to motor coaches and buses and other vehicles falling within subheading ex 87.02 A I of the Common Customs Tariff, the volume quota shall be raised by 15 % a year and the quota relating to the value by 20 % a year.

4. Where it is found that imports into Greece of a product listed in Annex II have for two consecutive years been less than 90 % of the quota, the Hellenic Republic shall liberalize imports of that product originating in Sweden and in the countries listed in paragraph 2, if the product in question is at that time liberalized towards the Community as at present constituted.

5. If the Hellenic Republic liberalizes imports of a product listed in Annex II from the Community as at present constituted or increases a quota beyond the minimum rate applicable to the Community as at present constituted, the Hellenic Republic shall also liberalize imports of that product originating in Sweden or increase the global quota proportionally.
  
6. Regarding licences for imports of products listed in Annex II and originating in Sweden, the Hellenic Republic shall apply the same administrative rules and practices as applied to such imports originating in the Community as at present constituted, with the exception of the quota for fertilisers falling within heading Nos 31.02, 31.03 and 31.05 A I, II and IV of the Common Customs Tariff of the European Communities, where the Hellenic Republic may apply the rules and practices relevant to the exclusive marketing rights.

Article 10

1. Import deposits and cash payments in force in Greece on 31 December 1980 with regard to products originating in Sweden shall be progressively eliminated over a period of three years from 1 January 1981.

The rate of import deposits and cash payments shall be reduced in accordance with the following timetable :

- 1 January 1981 : 25 %,
- 1 January 1982 : 25 %,
- 1 January 1983 : 25 %,
- 1 January 1984 : 25 %.

2. If, in relation to the Community as at present constituted, the Hellenic Republic reduces the rate of import deposits or cash payments more quickly than under the timetable set out in paragraph 1, the Hellenic Republic shall make the same reduction with regard to imports originating in Sweden.

TITLE III

GENERAL AND FINAL PROVISIONS

Article 11

The Joint Committee shall make any amendments which may be necessary to the origin rules consequent upon accession of the Hellenic Republic to the European Communities.

Article 12

The Annexes to this Protocol form an integral part thereof. This Protocol forms an integral part of the Agreement.

Article 13

This Protocol shall be approved by the contracting Parties in accordance with their own procedures. It shall enter into force on 1st January 1981, provided that the contracting Parties have notified each other before that date that the procedures necessary to this end have been completed. After this date the Protocol shall enter into force on the first day of the second month following such notification.

Sir,

I have the honour to acknowledge receipt of your letter of to-day worded as follows:

"During the negotiations between your country and the Community on the subject of the adaptation of the Free Trade Agreement concluded between the European Economic Community and the Kingdom of Sweden in view of Greece's accession to the Community, your delegation expressed its desire to be able, for the length of the transitional measures, to protect certain sensitive products from the risks of increased imports originating from Greece, which might be seriously detrimental to the relevant production activity in your country, or create serious disturbances in any sector of your economy.

I am pleased to be able to confirm that in such cases, the Community would agree to seek solutions acceptable to the contracting parties, in accordance with the principles of our Free Trade Agreement, as with the rules and procedures laid down in Article 27, and in particular its paragraph 2, of this Agreement.

Greece, for her part, has expressed similar fears concerning imports originating from your country.

I would be grateful if you would confirm that in such cases, the Swedish Authorities would agree to seek acceptable solutions in the same spirit and way as mentioned above.

Please accept, Sir, the assurance of my highest consideration."

PH 177

TITLE I

Adjustments

Article 2

The text of the Agreement and the final act with the declarations annexed thereto shall be drawn up in Greek and that text shall be authentic in the same way as the original texts. The Joint Committee shall approve the Greek text.

TITLE IITransitional MeasuresArticle 3

  - on 1 January 1981, each charge shall be reduced to 90 % of the basic rate

3. Any charge having equivalent effect to a customs duty on imports, introduced as from 1 January 1979, in trade between the Hellenic Republic and Norway shall be abolished in 1 January 1981.

Article 6

If the Hellenic Republic suspends or reduces duties or taxes of equivalent effect on products imported from the Community as at present constituted, more quickly than determined by the timetable set out in the Articles 3 and 5, the Hellenic Republic shall also suspend or reduce, to the same level, those duties or taxes of equivalent effect on products originating in Norway.

The Community will inform Norway immediately about any such derogation. From the date of such information the Norwegian undertakings may make use of the conditions of the authorisations mentioned above. Undertakings in Norway shall retain the right to align their delivered prices in Greece on those charged there by third countries for the same products.

The first subparagraph shall only concern alignment of Norwegian undertakings and of undertakings in the present Member States on price lists of producers in Norway, the Hellenic Republic and the present Member States for products actually produced in Greece on 1 January 1981.
