

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(81) 800 final

Brussels, 16 December 1981

Proposal for a
COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration of
Community tariff quotas for certain fishery products (1982)

(submitted to the Council by the Commission)

COM(81) 800 final

EXPLANATORY MEMORANDUM

1. In connection with its external fishery relations, the Community has undertaken to open, each year, Community tariff quotas for certain fishery products. For 1982 these tariff quotas are as follows :

CCT No	Description of goods	Volume	Quota on duty
ex 03.01 B I (h) 2	Cod (<i>Gadus morrhua</i>) frozen (1)	5 000 t	3.7% (2)
03.01. B I (f) 2	Red fish (<i>Sebastes marinus</i>) frozen		
ex 03.01. B II (b) 1	Frozen fillets of cod (<i>Gadus morrhua</i>)	7 000 t 9 000 t	4% (1) (2) 6% (1) (2)
ex 16.04 C II	"Herring-flaps", prepared or preserved in vinegar, in packings of a net capacity of 10 kg or over	3 000 t	10%

(1) Imports under the preferential rate are subject to production of a required model certificate certifying that the products concerned come from fish belonging to North Atlantic stocks, fished in accordance with the International Conventions on the conservation and management of fishery resources.

(2) Eligibility for this preferential system is subject to certain conditions regarding end-use.

2. This proposal for a Regulation is to implement these provisions for 1982, providing for the participation of Greece in the allocation of tariff quotas.

3. As there are no detailed statistics for most of the products concerned, the allocation of quotas could not be made according to normal criteria (previous figures and economic prospects for 1982).

The Commission therefore proposes, initially

- that the quotas for the various products be divided into two parts, the first being shared among the Member States according to the estimated requirements put forward by the Member States, and the second forming a reserve to cover any subsequent needs.
4. The proposal for a Regulation provides for the "as and when" method as the only system of management to be applied by the Member States.

Proposal for
Regulation (EEC)

opening, allocating and providing for the administration of
Community tariff quotas for certain fishery products (198)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,
and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas, in the context of its external relations regarding fisheries, it is
in the Community's interest partially to suspend the Common Customs Tariff
duties on a number of fishery products, within the limit of appropriate
Community tariff quotas; whereas Community tariff quotas for 198 should
therefore be opened for frozen redfish (*Sebastes marinus*), frozen cod (*Gadus
morrhua*), frozen cod fillets and herring fillets prepared or preserved in
vinegar, presented in packings of a net capacity of 10 kilogrammes or more,
falling within subheadings 03.01 B I (f) 2, ex 03.01 B I h 2, 03.01 B II b 1
and ex 16.04 C II of the Common Customs Tariff; whereas eligibility to
benefit from these quotas opened for products falling within sub-headings
ex 03.01 B I h 2 and 03.01 B II b 1 is subject to the presentation to the
Community customs authorities of a certificate issued by the recognized
authorities of the country of origin attesting that the products concerned
come from fish belonging to the North Atlantic stocks which were fished
with due regard for the international conventions on the conservation and
management of fishery resources; whereas the certificates covering these
products must also certify that the products presented come from cod of
the *Gadus morrhua* species.

.../...

/ or to commence the alignment of its
tariff towards the Common Customs
Tariff

Whereas, under Article 64 of the Act of Accession of Greece, that country is required to apply the Common Customs Tariff duty in full/in respect of the products in question as from 1 January 1981; whereas it is therefore necessary, that the tariff quotas in question should cover the requirements of that Member State during the quota period;

whereas equal and continuous access to the quotas should be ensured for all importers and the rates for the said quotas should be applied without interruption to all imports until the quotas are used up; whereas in the light of the principles outlined above, a Community tariff quota system based on an allocation between the Member States would seem to preserve the Community nature of the quotas; whereas to reflect as closely as possible the actual development of the market in the products in question, the allocation should be in proportion to the requirements of the Member States, calculated both from statistics of imports from non-member countries during a representative reference period and according to the economic outlook for the quota year in question;

whereas, however, the products in question of a particular origin, are not separately specified in the statistical nomenclatures; whereas it has therefore not yet been possible to obtain sufficiently precise and representative figures; whereas, therefore, a fairly large part of these quotas should be assigned to the Community reserves, the remainder being allocated among the Member States in proportion to their forecast import requirements ; whereas, for these products the initial percentage shares in the quota can thus be as follows :

	ex 03.01 B I h 2 03.01 B I f 2 (5.000 t)	ex 03.01 B II b 1 (7.000 t)	ex 03.01 B II b 1 (9.000 t)	ex 16.04 C II (3.000 t)
Benelux	5.95	2.86	3	0.46
Denmark	11.90	9.43	10	0.46
Germany	29.76	49.43	48.50	92.60
Greece	0.60	0.85	0.25	0.46
France	20.83	24.86	25	0.46
Ireland	0.60	0.29	0.25	0.46
Italy	0.60	0.85	0.50	0.46
United Kingdom	29.76	11.43	12.50	4.64

Whereas, to take account of possible import trends for the products in question, the quota volumes should be divided into two instalments, the first being allocated and the second held as a reserve to cover any subsequent requirements of Member States which have used up their initial share; whereas, to give importers some degree of certainty, the first instalment of the Community tariff quotas should be fixed at a fairly high level, which in this case could be respectively 33.6 %, 50 %, 44 % and 72 %.

whereas initial shares may be used at different rates; whereas to avoid disruption of supplies on this account it should be provided that any Member State which has almost used up its initial share should draw an additional share from the reserve; whereas each time its additional share is almost used up a Member State should draw a further share and so on as many times as the reserve allows; whereas taking account of the current extreme sensitivity of the United Kingdom market for fishery products, that market should not be exposed to pressure from additional imports from non-Member States ; whereas, therefore, without prejudice to decisions to be made on the régime to be applied in future, that Member State should be excluded from the obligation of drawing additional shares from the reserve ; whereas the initial and additional shares should be valid until the end of the quota period ; whereas this from of administration requires close

.../...

collaboration between the Member States and the Commission, which must be in a position to keep account of the extent to which the quotas have been used up and to inform the Member States accordingly;

whereas, if at a given date in the quota period a considerable quantity of a Member State's share remains unused it is essential that such State should return a significant proportion thereof to the reserve, in order to prevent a part of the Community tariff quota from remaining unused in one Member State while it could be used in others;

whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION :

Article 1

1. From 1 January to 31 December 1982 a Community tariff quota of 5 000 tonnes shall be opened with a duty of 3.7% for frozen redfish (*Sebastes marinus*) and frozen cod (*Gadus morrhua*) falling within subheadings 03.01 B I f 2 and ex 03.01 B I h 2 of the Common Customs Tariff, intended to undergo one of the treatments specified in paragraph 4.
2. From 1 January to 31 December 1982 Community tariff quotas of 7 000 tonnes with a duty of 4% and 9 000 tonnes with a duty of 6% shall be opened for frozen cod fillets falling within subheading 03.01 B II b 1 of the Common Customs Tariff, intended to undergo one of the treatments specified in paragraph 4.
3. From 1 January to 31 December 1982 a Community tariff quota of 3 000 tonnes with a duty of 10% shall be opened for herring fillets, prepared or preserved in vinegar, presented in packings of a net capacity of 10 kilogrammes or more, falling within subheading 16.04 C II of the Common Customs Tariff.

4. Independently of the provisions of paragraph 5 below, only products intended for processing shall be eligible for the preferential arrangements provided for in paragraphs 1 and 2 above, unless they are intended to undergo exclusively one or more of the following operations:

- cleaning, gutting, tailing, heading,
- cutting (with the exception of filleting and cutting up frozen blocks),
- sampling, sorting,
- labelling,
- packing,
- chilling,
- freezing,
- deep-freezing,
- thawing, separation.

In addition, the preferential arrangements shall not apply if the said treatment (or processing) is performed for retail sale or catering purposes. The preferential arrangements shall apply only to products intended for human consumption.

5. The tariff opened for products falling within sub-headings ex 03.01 B I h 2 and 03.01 B II b 1 of the Common Customs Tariff shall be reserved for products accompanied by a certificate issued by one of the recognized authorities of the countries of origin listed in Annex II, made out in accordance with one of the specimens in Annex I, attesting that the fish from which they were obtained were fished in the North Atlantic with due respect for the international conventions on the conservations and management of fishery resources. The certificate must also certify that the products presented were obtained from cod of the *Gadus morrhua* species.

6. For the purposes of these tariff quotas, Greece shall apply customs duties calculated in accordance with the positions of the Act of Accession (1).

(1) O.J. n° L 291 of 19.11.1979, p. 17.

Article 2

1. The tariff quotas referred to in Article 1 shall be divided into two instalments.

A first instalment of each quota, i.e. 1680, 3500, 40000 and 2160 tonnes respectively, shall be allocated among the Member States ; the shares which, subject to Article 5, shall be valid until 31 December 1982 shall be as follows :

	Contingent art. 1er, § 1	Contingents art. 1er, § 2		Contingent art. 1er, § 3
	5.000 t à 3,7 %	7.000 t à 4 %	9.000 t à 6 %	3.000 t à 10%
Benelux	100	100	120	10
Denmark	200	330	400	10
Germany	500	1.730	1.940	2.000
Greece	10	30	10	10
France	350	870	1.000	10
Ireland	10	10	10	10
Italy	10	30	20	10
United Kingdom	500	400	500	100
	<hr/> 1.680	<hr/> 3.500	<hr/> 4.000	<hr/> 2.160

2. The second instalment of each quota, i.e. 3310, 3500, 5000 end 840 tonnes respectively, shall constitute the corresponding reserve.

Article 3

1. If a Member State has used 90% or more of its initial share as fixed in Article 2 (1), or of that share minus any portion returned to the reserve pursuant to Article 5, it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10% of its initial share, rounded up as necessary to the next whole number.

2. If a Member State, after exhausting its initial share, has used 90% or more of the second share drawn by it, that Member State shall forthwith, in the manner and to the extent provided in paragraph 1, draw a third share equal to 5% of its initial share, rounded up as necessary to the next whole number.

3. If a Member State, after exhausting its second share, has used 90% or more of the third share drawn by it, that Member State shall, in the manner and to the extent provided in paragraph 1, draw a fourth share equal to the third.

This process shall apply until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used in full. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

5. However, the provisions of the preceding paragraphs shall not be applicable to the United Kingdom.

Article 4

Additional shares drawn pursuant to Article 3 shall be valid until 31 December 1982.

Article 5

Member States shall, not later than 1 October 1982, return to the reserve the unused portion of their initial share which, on 15 September 1982 is in excess of 20% of the initial volume. They may return a greater portion if there are grounds for believing that it may not be used in full.

Member States shall, not later than 1 October 1982, notify the Commission of the total quantities of the product in question imported up to and including 15 September 1982 and charged against the Community tariff quotas and of any portion of their initial shares returned to the reserve.

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and shall, as soon as the information reaches it, inform each State of the extent to which the reserve has been used up.

It shall, not later than 5 October 1982, inform the Member States of the amount still in reserve, following any return of shares pursuant to Article 5.

It shall ensure that the drawing which exhausts one of the reserves does not exceed the balance available, and to this end shall notify the amount of that balance to the Member State making the last drawing.

Article 7

1. The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 3 are opened in such a way that importations may be charged without interruption against their accumulated shares of the Community quota.

2. The Member States shall take all appropriate measures to ensure that the products referred to in Article 1 (1) and (2) admitted under the tariff quotas undergo the treatment which was declared upon importation and which constituted the grounds for the preferential system. In such case use of the product for the particular end-use specified shall be verified in accordance with the relevant Community provisions.

3. The Member States shall ensure that importers of the products in question established in their territory have free access to the shares allocated to them.

4. The Member States shall charge imports of the products in question against their shares as and when the product is entered with the customs authorities for free circulation.

5. The extent to which a Member State has used up its share shall be determined on the basis of the imports charged in accordance with paragraph 4.

Article 9

At the request of the Commission, the Member States shall inform it of imports actually charged against their shares.

Article 10

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 11

This Regulation shall enter into force on 1 January 1982.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council,
The President.
