

industry research and technology

WEEKLY

REPRODUCTION AUTHORIZED

Brussels, 3 January 1973

No. 170

I N D E X

(Nos. 1-169)

Each issue of "Industry, Research and Technology" normally contains very short items of Community news from the spheres of industry, scientific research and energy, together with Annexes consisting of somewhat longer pieces which either show the current position or provide a summary of a document published by the Community.

The Annexes to IRT Nos. 1 to 169 (i.e., 11 December 1968 to the end of December 1972) are indexed herein: keywords show the subject(s) covered by annexes and the figures opposite refer the reader to the issues of IRT in which they were published.

Unfortunately, however, most back numbers of IRT are out of print, though they can be consulted in various libraries, in particular the library of the Commission of the European Communities.

X/1/73-E

This bulletin is published by the Directorate General Press and Information of the Commission of the European Communities

For further information please apply to the

Commission of the European Communities
Directorate-General for Press and Information
Division for industrial and scientific information
200, avenue de la Loi
1040 Brussels - Tel. 3500 40

or any of the Information Offices of the European Communities (list inside cover)

The information and articles published in this Bulletin concern European scientific cooperation and industrial development in Europe. Hence they are not simply confined to reports on the decisions or views of the Commission of the European Communities, but cover the whole field of questions discussed in the different circles concerned.
