„Resultaterne af konjunkturundersøgelsen hos virksomhedsledere i Fællesskabet“ indeholder oplysninger om de harmoniserede undersøgelser inden for industri og byggeog anlægsvirksomhed, som gennemføres i Det europæiske Fællesskabs medlemsstater med støtte fra Kommissionen. Publikationen udarbejdes af generaldirektoratet for økonometriske og finansielle spørgsmål (rue de la Loi, 200, B-1049 Bruxelles) og offentliggøres elleve gange om året (één nummer dækker august og september).

Gengivelse er tilladt med kildeangivelse, dog ikke for kommercielle database-netværker.

Betingelserne vedrørende gengivelse for databaser kan opnås ved henvendelse til ovenstående adresse.

Die Veröffentlichung „Ergebnisse des Konjunkturmfragr bei den Unternehmern in der Gemeinschaft“ berichtet über die harmonisierten Umfragen, die mit Unterstützung der Kommission im Industrie- und Bausektor in den Mitgliedstaaten der Europäischen Gemeinschaft durchgeführt werden. Sie wird von der Generaldirektion Wirtschaft und Finanzen (Rue de la Loi 200, B-1049 Brüssel) ausgearbeitet und erscheint elfmal pro Jahr (eine Ausgabe für August und September).

Außer im Falle kommerzieller Datennetze ist die Wiedergabe mit Quellennachweis gestattet.

Die Bedingungen für die Einspeisung im kommerzielle Datennetze können bei obiger Adresse erfragt werden.

Gedruckt in Belgien.

“Results of the business survey carried out among managements in the Community” reports on the harmonized industrial and construction sector surveys carried out in the Member States of the European Community, with the support of the Commission. It is prepared by the Directorate-General for Economic and Financial Affairs (rue de la Loi, 200, B-1049 Brussels) and is published eleven times a year (one issue covers August and September).

Reproduction is authorized, except for commercial purposes, subject to acknowledgement of the source. For conditions relating to reproduction for commercial purposes, application should be made to the above address.

Printed in Belgium

Les « Résultats de l'enquête de conjoncture auprès des chefs d'entreprise de la Communauté » sont le compte rendu des enquêtes harmonisées menées, dans l'industrie et le secteur de la construction, par les États membres de la Communauté européenne avec le soutien de la Commission. Ce fascicule, qui est élaboré par la Direction générale des Affaires économiques et financières, (200, rue de la Loi, B 1049, Bruxelles), paraît onze fois par an (les mois d'août et de septembre faisant l'objet d'un numéro unique).

La reproduction, autorisée sauf sur réseau informatique commercial, est subordonnée à l'indication de la source. Toute demande concernant les conditions de reproduction sur réseau informatique devra être envoyée à l'adresse précitée.

Imprimé en Belgique.

La serie «Risultati dell'inchiesta congiunturale effettuata presso gli imprenditori della Comunità» presenta i dati delle inchieste armonizzate effettuate nei settori dell'industria e dell'edilizia degli Stati membri della Comunità europea con il sostegno della Commissione. La serie è preparata dalla Direzione generale degli Affari economici e finanziari (Rue de la Loi, 200, B-1049 Bruxelles) e comprende 11 numeri all'anno (i mesi di agosto e settembre sono riuniti in un unico numero).

La riproduzione, salvo su reti informatiche commerciali, è autorizzata subordinatamente alla citazione della fonte. Le domande relative alle condizioni di riproduzione su reti informatiche dovranno essere rivolte al predetto indirizzo.

Stampato in Belgio

„Resultaten van de conjunctuurenquête bij het bedrijfsleven in de Gemeenschap“ bevatten de uitkomsten van de in de lid-staten van de Europese Gemeenschap met steun van de Commissie gehouden geharmoniseerde enquêtes bij de industrie en de bouwnijverheid. Deze resultaten worden elf maal per jaar (één nummer voor augustus en september samen) gepubliceerd door het directoraat-generaal voor economische en financiële zaken (Wetstraat 200, B-1049 Brussel).

Behoudens voor commerciële informatiesystemen is overname toegestaan, mits de bron wordt vermeld. Alle verzoeken betreffende de voorwaarden voor het opnemen van de gegevens in informatiesystemen moeten aan het opgegeven adres worden toegezonden.

# DET EUROPÆISKE FÆLLESSKABS KONJUNKTURUNDERSØGELSE

## Konjunkturundersøgelerne

Konjunkturundersøgelerne hos virksomhedsledere i De europæiske Fællesskaber er blevet opbygget gradvis siden 1962. De foretages af nationale institutter på grundlag af Kommissionens harmoniserede spørgeskemaer. Undersøgelerne omfatter hver måned omkring 20 000 virksomheder.

Fremsendelse af spørgeskemaerne til deltagerne foretages af institutterne en af de første dage i den måned resultatet i tabellerne kan henføres til (eller en af de sidste dage i den foregående måned). Tilbagesendelsen af de udfyldte spørgeskemaer foretages indtil omkring den 10. i måneden. Undtagelser fra denne regel findes i Italien, hvor fremsendelsen af spørgeskemaerne til deltagerne foretages omkring den 15., og i Tyskland, hvor den foretages fra den 20. i måneden, med tilbagesendelsen til institutterne omkring den 10. i den følgende måned hvor resultatet kan henføres til.

## Spørgsmål

### Industriundersøgelsen

#### Månedligt

- 1 produktionsudviklingen i de seneste måneder: forøgelse, uændret, formindskelse?
2. ordrebeholdning: større end normalt, normalt, mindre end normalt?
3. eksportordrebeholdning: større end normalt, normalt, mindre end normalt?
4. færdigvarelagre: større end normalt, normalt, mindre end normalt?
5. produktionsforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
- 6 salgsprisforventninger for de kommende måneder: forøgelse, uændret, formindskelse?

#### Kvartalsvis (i januar, april, juli og oktober)

7. beskæftigelsesforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
8. produktionsbegrænsninger: ingen, utilstrækkelig efter-spørgsel, mangel på arbejdskraft, mangel på udstyr?
9. produktionskapacitet: mere end tilstrækkelig, tilstrækkelig, utilstrækkelig?
10. periode, for hvilken produktionen er sikret (i måneder)?
11. ordretilgang i de seneste måneder: forøgelse, uændret, formindskelse?
12. eksportordreforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
13. kapacitetsudnyttelse (i procent)?
14. råvarelagre: store, normale, små?

### Investeringundersøgelsen

#### Halvårligt (i marts/april og oktober/november)

- investeringssudvikling og -forventninger: årlig procentvis ændring i investeringerne i løbende priser?

### Undersøgelsen inden for bygge- og anlægsvirksomhed

Månedligt (undtagen i Grækenland, Frankrig, Irland og Det forenede Kongerige, hvor undersøgelsen foretages kvartalsvis)

- 1 aktivitetstendens sammenlignet med de forudgående måneder: forøgelse, uændret, formindskelse?
- 2 faktorer, der bremser produktionen: ingen, dårligt vejr, mangel på arbejdskraft, mangel på materialer?
3. ordrebeholdning eller produktionsplan: større end normalt, normalt, mindre end normalt?

- 4 beskæftigelsesforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
- 5 prisforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
- kvartalsvis (i januar, april, juli og oktober):
6. periode, for hvilken produktionen er sikret: i måneder

## Resultaterne og den anvendte nomenklatur

Tabellerne på de følgende sider viser resultaterne af undersøgelerne for fremstillingsvirksomhed under ét, for de tre hovedgrupper forbrugsgoder, investeringsgoder og mellemprodukter samt for 54 grupper og undergrupper af industrivarer.

To resultater, angivet henholdsvis med »=« og »\*«, gives for hvert spørgsmål. »=« angives for svar med betydningen »uændret«, »normalt« eller »tilstrækkelig«. »\*« angives for positiv eller negativ nettosaldo, hvor svarene »forøgelse«, »større end normalt« og »mere end tilstrækkelig« betragtes som positive, og som negative de modsatte svar.

Bogstaverne over kolonnerne angiver de berørte lande samt den måned undersøgelsesresultaterne vedrører, d.v.s.: J = januar, F = februar, M = marts, A = april, M = maj, J = juni, J = juli, A = august, S = september, O = oktober, N = november, D = december. Forveksling på grund af samme forkortelser for forskellige måneder (J for januar, juni og juli; A for april og august) undgås derved, at resultaterne er samlet i perioder på tre måneder.

Fra og med denne publikations nr. 1, 1980 henføres undersøgelsesresultaterne til den måned, hvori spørgeskemaerne er blevet besvaret. (I det tidligere nummer »Resultaterne af konjunkturundersøgelerne hos virksomhedsledere i Fællesskabet« knyttedes resultaterne til den forudgående måned).

Tilsvarende tabeller er anvendt til at præsentere resultaterne af undersøgelsen inden for bygge- og anlægsvirksomhed. En yderligere tabel, som redegør for resultaterne af investeringundersøgelsen, offentliggøres to gange om året.

Sektoropdelingen for de forskellige undersøgeler er beskrevet nedenstående.

## Institutter

Undersøgelerne foretages af:

- DK — Danmark: Danmarks Statistik
- D — Forbundsrepublikken Tyskland: IFO (Institut für Wirtschaftsforschung)
- GR — Grækenland: IEIR (Institute of Economic and Industrial Research)
- F — Frankrig: INSEE (Institut National de la Statistique et des Études Économiques)
- IRL — Irland: CII (Confederation of Irish Industry) og CIF (Construction Industry Federation)
- I — Italien: ISCO (Istituto nazionale per lo Studio della Congiuntura)
- NL — Nederlandene: CBS (Centraal Bureau voor de Statistiek)
  - Economisch Instituut voor de Bouwnijverheid
- B — Belgien: Banque Nationale de Belgique
- L — Luxembourg: STATEC (Service central de la Statistique et des Études Économiques)
- UK — Det forenede Kongerige: CBI (Confederation of British Industry), for så vidt angår fremstillingsvirksomhed
  - BSO (Business Statistics Office) for så vidt angår investeringundersøgelsen
  - Building Employers Confederation for bygge- og anlægsundersøgelsen.

Et månedligt udvalg af de seneste resultater af undersøgelerne gives i tillæg — række B — til »Europæisk Økonomi«. Artikler med mere detaljerede analyser og længere tidsrækker offentliggøres periodisk i hovednumrene af »Europæisk Økonomi«.

»Resultaterne af konjunkturundersøgelsen hos virksomhedsledere i Fællesskabet« indeholder oplysninger om de harmoniserede undersøgelser inden for industri og byggeog anlægsvirksomhed, som gennemføres i Det europæiske Fællesskabs medlemsstater med støtte fra Kommissionen. - 19 Finmekanisk og optisk Industri (37)
- 20 Nærings- og nydelsesmiddelindustri (41/42)

## *Investeringsundersøgelsen*

### Råvareindustrier

- Kemisk industri
- Mineralolieindustri
- Byggematerialer, keramik, glas
- Fremstilling af kemofibre
- Gummi

### Metalindustri

- Jern- og stålindustri
- Primær bearbejdning af jern og stål (eksl. støberier)
- Non-ferro metalindustri

### Maskin- og elektroindustri

- Støberier
- Metalvarer til forbrug
- Almindeligt udstyr
- Ikke-elektrisk maskineri
- El-husholdningsapparater, radio, fjernsyn
- Elektrisk maskineri
- Automobilindustri
- Skibsbygning, flyindustri og jernbanemateriel
- Finmekanik, optik, ure

### Anden Fremstillingsvirksomhed

- Tekstilindustri
- Beklædning og trikotage
- Læder og fodtøj
- Træ og kork
- Møbler
- Papir- og papforarbejdning
- Trykkerivirksomhed
- Plastforarbejdning

### Udvindningsindustri

- Udvinding og forbearbejdning af fast brændsel
- Udvinding af malme, af jordolie og naturgas, af byggematerialer, ildfaste og keramiske jordarter

### Næringsmiddelindustri

#### Den samlede Industri<sup>2</sup>

*Undersøgelsen inden for bygge- og anlægsvirksomhed*

#### Samlet bygge- & anlægsvirksomhed

- Bygninger:
- boliger
- andre bygninger

Offentlige arbejder.

<sup>1</sup> Klassificeringen af industrieksektorerne i tre hovedgrupper er anført ved C = forbrugsgoder, I = investeringsgoder, B = mellemprodukter.  
Referencer til NACE (den almindelige systematiske opstilling af økonomiske aktiviteter inden for De europæiske Fællesskaber) er anført i parentes.

<sup>2</sup> Nærings- og nydelsesmiddelindustrien er ikke indeholdt i tallene for »den samlede industri« i industriundersøgelsen, men i resultaterne vedvarende investeringsundersøgelsen.

# KONJUNKTURUMFRAGEN IN DER EUROPÄISCHEN GEMEINSCHAFT

## Die Konjunkturumfragen

Die Konjunkturumfragen in der Europäischen Gemeinschaft sind seit 1962 ständig weiterentwickelt worden. Sie werden von nationalen Instituten auf der Grundlage der harmonisierten Fragebögen der Kommission durchgeführt. Gegenwärtig werden monatlich etwa 20 000 Unternehmen befragt.

Die Fragebögen für die Umfragen werden von den Instituten normalerweise in den ersten Tagen des Monats dem die Ergebnisse in den Tabellen zugeordnet werden (oder den letzten des Vormonats) an die Teilnehmer verschickt. Die Antworten gehen bei den Instituten bis etwa zum 10. des Monats ein. Ausnahmen bilden Italien, wo die Fragebögen schon am 15. des Monats und die Bundesrepublik Deutschland, wo sie ab dem 20. des Monats verschickt werden. Das Rücksenden der Antworten an die Institute erfolgt bis zum 10. des folgenden Monats, dem die Ergebnisse zugeordnet werden.

## Fragen

### Umfrage in der Industrie

1. Produktionstätigkeit der jüngsten Vergangenheit: Zunahme, keine Veränderung, Abnahme?
2. Auftragsbestand: verhältnismäßig groß, ausreichend, zu klein?
3. Bestand an Auslandsaufträgen: verhältnismäßig groß, ausreichend, zu klein?
4. Fertigwarenlager: verhältnismäßig groß, ausreichend, zu klein?
5. Produktionserwartungen für die kommenden Monate: Zunahme, keine Veränderung, Abnahme?
6. Erwartungen hinsichtlich der Verkaufspreise in den kommenden Monaten: Zunahme, keine Veränderung, Abnahme?

Vierteljährlich (Januar, April, Juli und Oktober):

7. Erwartungen hinsichtlich der Beschäftigtenzahl in den kommenden Monaten: Zunahme, keine Veränderung, Abnahme?
8. Behinderung der Produktionstätigkeit: keine, durch unzureichende Nachfrage, Mangel an Arbeitskräften, unzureichende Ausrüstung?
9. Produktionskapazität: mehr als ausreichend, ausreichend, unzureichend?
10. Gesicherte Produktionsdauer: in Monaten?
11. Auftragseingänge in der jüngsten Vergangenheit: Zunahme, keine Veränderung, Abnahme?
12. Erwartungen hinsichtlich der Auslandsaufträge in den kommenden Monaten: Zunahme, keine Veränderung, Abnahme?
13. Kapazitätsauslastung: in Prozent?
14. Rohstofflager: verhältnismäßig groß, ausreichend, zu klein?

### Umfrage über die Investitionen

Halbjährlich (März/April und Oktober/November):

- Investitionstätigkeit und Aussichten: jährliche prozentuale Veränderung der Investitionsausgaben zu jeweiligen Preisen in nationaler Währung?

### Umfrage im Baugewerbe

Monatlich (mit Ausnahme Griechenlands, Frankreichs, Irlands und des Vereinigten Königreichs, wo die Befragung vierteljährlich durchgeführt wird):

1. Entwicklung der Bautätigkeit im Vergleich zu den Vormonaten: Zunahme, keine Veränderung, Abnahme?
2. Die Bautätigkeit behindernde Faktoren: Keine; schlechtes Wetter, Mangel an Arbeitskräften, Materialmangel, sonstige?
3. Auftragsbestand oder Produktionsprogrammierung: verhältnismäßig groß, ausreichend, zu klein?

4. Erwartungen hinsichtlich der Beschäftigtenzahl in den nächsten Monaten: Zunahme, keine Veränderung, Abnahme?
  5. Erwartungen hinsichtlich der Preisentwicklung in den nächsten Monaten: Zunahme, keine Veränderung, Abnahme?
- Vierteljährlich (Januar, April, Juli und Oktober):
6. Gesicherte Produktionsdauer: in Monaten?

## Darstellung der Ergebnisse und verwendete Nomenklatur

In den Tabellen auf den folgenden Seiten sind die Ergebnisse der Umfragen für die verarbeitende Industrie insgesamt und die drei Hauptgruppen (Verbrauchsgüter, Investitionsgüter und Vorprodukte) sowie für 54 Gruppen und Untergruppen von Industrieprodukten dargestellt.

Für jede Frage werden zwei Ergebnisse mitgeteilt „=“ bzw. „s“. „=“ bezeichnet die Antworten, die entweder „keine Veränderung“ oder „ausreichend“ angeben; „s“ gibt den positiven oder negativen Saldo an; die Antworten „Zunahme“, „mehr als ausreichend“ und „verhältnismässig gross“ werden als positive Antworten betrachtet und die gegenteiligen Antworten als negative. Die Buchstaben über den Zahlenkolonnen bezeichnen für den jeweiligen Mitgliedstaat den Monat, dem das Ergebnis der Umfrage zugeordnet ist, d.h.: J : Januar, F : Februar, M : März, A : April, M : Mai, J : Juni, J : Juli, A : August, S : September, O : Oktober, N : November, D : Dezember. Die Verwechslung der Monate durch den Gebrauch der Anfangsbuchstaben (J für Januar, Juni und Juli; A für April und August) wird dadurch vermieden, dass die Ergebnisse in Dreimonatsgruppen zusammengefasst sind.

Mit Beginn der Nr. 1, 1980 dieser Veröffentlichung werden die Ergebnisse der Umfragen unter dem Monat veröffentlicht, in dem die Fragebogen durch die Beantworter ausgefüllt werden. (In den früheren Nummern „Ergebnisse der Konjunkturumfragen bei den Unternehmen in der Gemeinschaft“ geschah die Veröffentlichung unter dem vorangegangenen Monat).

Die Ergebnisse der Umfrage im Baugewerbe werden in ähnlichen Tabellen veröffentlicht. Eine zusätzliche Tabelle gibt zweimal im Jahr die Ergebnisse der Investitionsumfragen wider.

Für die Investitionsumfrage und die Umfrage in der Bauwirtschaft ist die Aufschlüsselung nach Sektoren weiter unten angegeben.

## Institute

Folgende Institute führen die Umfragen durch:

- DK — Dänemark: Danmarks Statistik
- D — Bundesrepublik Deutschland: IFO (Institut für Wirtschaftsforschung)
- GR — Griechenland: IEIR (Institute of Economic and Industrial Research)
- F — Frankreich: INSEE (Institut national de la Statistique et des Études Économiques)
- IRL — Irland: CII (Confederation of Irish Industry) und CIF (Construction Industry Federation)
- I — Italien: ISCO (Istituto nazionale per lo Studio della Congiuntura)
- NL — Niederlande: CBS (Centraal Bureau voor de Statistiek)  
— Economisch Instituut voor de Bouwnijverheid
- B — Belgien (Banque Nationale de Belgique)
- L — Luxemburg: STATEC (Service central de la Statistique et des Études économiques)
- UK — Vereinigtes Königreich: CBI (Confederation of British Industry) für die Verarbeitende Industrie.  
— BSO (Business Statistics Office) für die Investitionsumfrage  
— Building Employers Confederation für die Umfrage in der Bauwirtschaft.

Das Beiheft „B“ zu „Europäische Wirtschaft“ bringt eine monatliche Auswahl der jüngsten Ergebnisse. Eingehendere Analysen und längere Zeitreihen werden in regelmäßigen Zeitabständen in den eigentlichen Ausgaben der „Europäischen Wirtschaft“ erscheinen.

## Aufgliederung der Industriesektoren

### *Umfrage in der Industrie<sup>1</sup>*

- 0 **Gesamte Industrie<sup>2</sup>**
- I **Verbrauchsgüter**
- II **Investitionsgüter**
- III **Vorprodukte**
  - 1 **Textilgewerbe** (43)
    - a Wollaufbereitung, — Weberei u.ä. B (431)
    - b Baumwollspinnerei, — Weberei u.ä. B (432)

- Umfrage im Baugewerbe**
  - Baugewerbe insgesamt**
    - Hochbau:
    - Wohnungen
    - sonstiger Hochbau
  - Tiefbau.

<sup>1</sup> Die Eingliederung der Industriezweige in die drei Hauptgruppen wird bezeichnet durch C = Verbrauchsgüter, I = Investitionsgüter, B = Grundstoffe und Produktionsgüter. Die Ziffern der NACE (Allgemeine Systematik der Wirtschaftszweige in den Europäischen Gemeinschaften) werden in Klammern angegeben.  
<sup>2</sup> Die Nahrungs- und Genussmittelindustrie ist in der Rubrik „Gesamte Industrie“ der Umfrage in der Industrie nicht erfasst, sie ist dagegen in der Umfrage über die Investitionen enthalten.

# EUROPEAN COMMUNITY BUSINESS SURVEYS

## The business surveys

The European Community business surveys have been progressively developed since 1962. They are carried out by national institutions on the basis of the Commission's harmonized questionnaires. The number of enterprises surveyed each month is about 20 000.

The survey questionnaires are sent to participants at the beginning of the month to which the survey results are attributed in the tables, or in the final days of the preceding month. The bulk of replies are received by about the 10th of the month in question. Exceptions are Italy, where the questionnaires are issued on or about the 15th of the month preceding that to which the results are attributed, and the Federal Republic of Germany where the questionnaires are posted on or about the 20th of the preceding month; in both cases, however, most of the questionnaires are received back during the first 10 days of the month to which the results are attributed.

## Questions

### *Industry survey*

Monthly:

1. Production trend in recent months: up, unchanged, down?
2. Order-books: above normal, normal, below normal?
3. Export order-books: above normal, normal, below normal?
4. Stocks of finished products: above normal, normal, below normal?
5. Production expectations for the months ahead: up, unchanged, down?
6. Selling price expectations for the months ahead: up, unchanged, down?

Quarterly (January, April, July and October) :

7. Employment expectations for the months ahead: up, unchanged, down?
8. Limits to production: none, insufficient demand, shortage of labour, lack of equipment?
9. Production capacity: more than sufficient, sufficient, not sufficient?
10. Duration of assured production (in months)?
11. New orders in recent months: up, unchanged, down?
12. Export expectations for the months ahead: up, unchanged, down?
13. Capacity utilization (in %)?
14. Stocks of raw materials: high, normal, low?

### *Investment survey*

Half-yearly (March/April and October/November):

- Investment trends and prospects: annual percentage change of investment expenditure at current prices.

### *Building survey*

Monthly (except for Greece, France, Ireland and the United Kingdom, where the survey is carried out quarterly):

1. Trend of activity compared with preceding months : up unchanged, down?
2. Limits to production: none, bad weather shortage of manpower, lack of material, others?
3. Order-books or production schedules: above normal, normal, below normal?
4. Employment expectations for the months ahead: up, unchanged, down?

5. Price expectations for the months ahead: up, unchanged, down?

Quarterly (January, April, July and October) :

6. Months of assured production?

## Presentation of results and nomenclature employed

The tables on the following pages present the survey results for industry as a whole and for the three major groups producing consumer, investment and intermediate goods, as well as for 54 product groups and sub-groups of industry.

For each question, two sets of results are given, designated "—" and "b", respectively. "—" represents answers under the heading "unchanged", or "normal" or "sufficient". "b" represents the net balance of positive over negative replies, where "up" or "above normal" or "more than sufficient" are counted as positive replies, with the opposites counted as negative replies. The letters heading the columns represent, after the Member State concerned, the month to which the survey result relates , as follows : J : January, F : February, M : March, A : April, M : May, J : June, J : July, A : August, S : September, O : October, N : November, D : December. Since three months' results are presented at a time, ambiguity in the nomenclature of the months January, June, July (all "J") and April and August (both "A" is avoided.

Starting with the No. 1, 1980, number of this publication, the survey results are dated according to the month in which the questionnaires are completed by the respondents. (In earlier numbers of "Results of the business surveys carried out among managements in the Community" the results were associated with the preceding month).

Corresponding tables are used to present the results of the construction survey. An additional table is published twice a year, setting out the results of the investment survey.

The breakdown by sector of the different surveys is described below.

## Institutes

The surveys are carried out by:

- DK — Denmark: Danmarks Statistik.
- D — Federal Republic of Germany: IFO (Institut für Wirtschaftsforschung).
- GR — Greece : IEIR (Institute of Economic and Industrial Research)
- F — France: INSEE (Institut National de la Statistique et des Études Économiques).
- IRL — Ireland: CII (Confederation of Irish Industry) and CIF (Construction Industry Federation)
- I — Italy: ISCO (Istituto Nazionale per lo Studio della Congiuntura).
- NL — Netherlands: CBS (Centraal Bureau voor de Statistiek).
- Economisch Instituut voor de Bouwnijverheid
- B — Belgium: Banque Nationale de Belgique.
- L — Luxembourg: STATEC (Service Central de la Statistique et des Études Économiques).
- UK — United Kingdom: CBI (Confederation of British Industry), for the manufacturing industry survey.  
— BSO (Business Statistics Office) for the investment survey.  
— Building Employers Confederation, for the construction survey.

Supplement B to "European Economy" gives a monthly selection of the most recent survey results. Articles containing more detailed analyses and longer time-series of data appear periodically in the main editions of "European Economy".

**Industrial Classification*****Industry survey***<sup>1</sup>

- 20 Food, drink and tobacco industry** (41/42)

***Investment survey*****Basic materials industries**

- Chemical industry
- Petroleum
- Construction materials, ceramics, glass
- Manufacture of man-made fibres
- Rubber

**Metallurgical industries**

- Iron and steel industry
- Initial processing of ferrous metals (excluding foundry operations)
- Non-ferrous metals industry

**Mechanical and electrical engineering industries**

- Foundry operations
- Manufacture of metal consumer goods
- Plant and heavy machinery
- Manufacturing of machinery other than electrical
- Household electrical appliances, radio and television receivers
- Manufacture of heavy electrical equipment
- Motor vehicle industry
- Shipbuilding, aircraft construction and railway equipment
- Precision engineering, optics, clock and watch manufacture

**Processing industries**

- Textile industry
- Clothing and hosiery
- Leather and footwear
- Wood and cork
- Furniture
- Paper and board manufacture
- Paper and board processing
- Printing
- Plastics' processing

**Mining and quarrying**

- Mining and preparation of solid fuels
- Metal mining
- Crude petroleum and natural gas
- Stone quarrying, clay and sand

**Food industries****Industry as a whole**<sup>2</sup>***Building survey*****Construction as a whole**

- Building:
- housing
- other building

Public works (civil engineering).

<sup>1</sup> The classification of the industrial sectors in terms of the three major groups is indicated by C = consumer goods, I = investment goods, B = intermediate goods. N.A.C.E. (general industrial classification of the European Community) references are given in brackets.

<sup>2</sup> Food, drink and tobacco are not included in "industry as a whole" figures in the industrial survey, but are so included in the investment survey.

# ENQUETES DE CONJONCTURE DANS LA COMMUNAUTE EUROPEENNE

## Les enquêtes de conjoncture

Les enquêtes de conjoncture dans la Communauté Européenne ont été développées progressivement depuis 1962. Elles sont effectuées par des instituts nationaux, sur la base des questionnaires harmonisés de la Commission.

Les enquêtes portent chaque mois sur environ 20 000 entreprises.

L'envoi des questionnaires aux participants est effectué par les instituts les premiers jours du mois auquel les résultats sont attribués dans les tableaux (ou derniers jours du mois précédent). Le retour aux instituts des questionnaires remplis est effectué jusqu'aux environs du 10 du mois. Seules exceptions : en Italie, l'envoi des questionnaires aux participants s'effectue aux environs du 15 et en Allemagne dès le 20 du mois. Le retour aux instituts se fait aux environs du 10 du mois suivant, auquel les résultats sont attribués.

## Questions

### *Enquête dans l'industrie*

#### Enquête mensuelle

1. tendance de la production au cours des derniers mois : augmentation, stabilité, diminution ?
2. carnets de commandes : supérieurs à la normale, normaux, inférieurs à la normale ?
3. carnets de commandes en provenance de l'étranger : supérieurs à la normale, normaux, inférieurs à la normale ?
4. stocks de produits finis : supérieurs à la normale, normaux, inférieurs à la normale ?
5. perspectives d'évolution de la production au cours des prochains mois : augmentation, stabilité, diminution ?
6. perspectives d'évolution des prix de vente au cours des prochains mois : augmentation, stabilité, diminution ?

Enquête trimestrielle (effectuée en janvier, avril, juillet et octobre) :

7. perspectives d'évolution de l'emploi au cours des prochains mois : augmentation, stabilité, diminution ?
8. facteurs limitant la production : aucun, insuffisance de la demande, manque de main-d'œuvre, insuffisance de l'équipement ?
9. capacité de production : plus que suffisante, suffisante, pas suffisante ?
10. durée de production assurée : en mois ?
11. commandes enregistrées au cours des derniers mois : augmentation, stabilité, diminution ?
12. perspectives d'évolution des commandes de l'étranger au cours des prochains mois : augmentation, stabilité, diminution ?
13. utilisation de la capacité : en pour-cent ?
14. stocks de matières premières : élevés, normaux, faibles ?

### *Enquête sur les investissements*

Enquête semestrielle (effectuée en mars/avril et octobre/novembre) :

- tendances et perspectives d'évolution des investissements : pourcentage de variation annuelle des investissements aux prix courants.

### *Enquête dans la construction*

Enquête mensuelle (sauf pour la Grèce, la France, l'Irlande et le Royaume-Uni où l'enquête est effectuée quatre fois par an) :

1. tendance de l'activité de construction par rapport aux mois précédents : augmentation, stabilité, diminution ?
2. facteurs limitant l'activité de construction : aucun, conditions climatiques défavorables, manque de main-d'œuvre, manque de matériaux, autres ?
3. carnet de commandes ou plan de production : supérieur à la normale, normal, inférieur à la normale ?

4. perspectives d'évolution de l'emploi au cours des prochains mois : augmentation, stabilité, diminution ?
  5. perspectives d'évolution des prix au cours des prochains mois : augmentation, stabilité, diminution ?
- Enquête trimestrielle (effectuée en janvier, avril, juillet et octobre) :
6. durée d'activité assurée en mois ?

## Présentation des résultats et nomenclature employée

Les tableaux des pages suivantes présentent les résultats des enquêtes pour l'ensemble de l'industrie manufacturière, pour les trois grands groupes produisant des biens de consommation, biens d'équipement et biens intermédiaires, ainsi que pour 54 groupes et sous-groupes de produits industriels.

Deux résultats, indiqués respectivement par « = » et « s » sont fournis pour chaque question. « = » désigne les réponses correspondant à la mention « stabilité », « normal » ou « suffisant ». « s » désigne le solde net positif ou négatif, les réponses « augmentation », « supérieur à la normale » et « plus que suffisant » étant considérées comme positives, et comme négatives les réponses contraires. Les lettres surmontant les colonnes représentent, sous l'indication de l'État membre concerné, le mois auquel se réfère le résultat de l'enquête, à savoir : J = janvier, F = février, M = mars, A = avril, M = mai, J = juin, J = juillet, A = août, S = septembre, O = octobre, N = novembre, D = décembre. Toute confusion due à l'emploi de la même initiale pour des mois différents (J pour janvier, juin et juillet ; A pour avril et août) est évitée du fait que les résultats sont regroupés par périodes de trois mois.

Depuis le n° 1/1980 de la présente publication, les résultats des enquêtes de conjoncture portent l'indication du mois au cours duquel les réponses au questionnaire ont été fournies, plutôt que du mois auquel les appréciations se rapportent.

Des tableaux similaires présentent les résultats de l'enquête dans le secteur de la construction. Un tableau supplémentaire relatif à l'enquête sur les investissements est publié deux fois par an.

La description de la ventilation par secteur des différentes enquêtes figure ci-dessous.

## Instituts

Les enquêtes sont effectuées par :

- |   |
|---|

Travaux publics (génie civil).

<sup>1</sup> Le regroupement des branches de l'industrie dans les trois groupes principaux est indiqué par C = biens de consommation, I = biens d'investissement, B = biens intermédiaires. La référence NACE (nomenclature générale des activités économiques dans les Communautés Européennes) est indiquée entre parenthèses.

<sup>2</sup> Les denrées alimentaires, boissons et tabacs ne sont pas compris dans les chiffres « ensemble de l'Industrie » de l'enquête industrielle, mais sont inclus dans les résultats de l'enquête sur les investissements.

## INCHIESTE CONGIUNTURALI NELLA COMUNITÀ EUROPEA

### Le inchieste congiunturali

Le inchieste congiunturali nella Comunità Europea sono state gradualmente messe a punto fin dal 1962. Esse sono effettuate da organismi nazionali sulla base di questionari armonizzati della Commissione. Le inchieste riguardano ogni mese circa 20 000 imprese.

Gli istituti inviano i questionari ai partecipanti all'inizio del mese al quale i risultati sono attribuiti nelle tabelle (o alla fine del mese precedente). Il ritorno agli istituti dei moduli compilati avviene fin verso il 10 del mese. Sole eccezioni: in Italia, i questionari sono inviati verso il 15 e, in Germania, il 20 del mese; i moduli rientrano verso il 10 del mese successivo, al quale i risultati sono attribuiti.

### Domande

#### *Inchiesta nell'industria*

##### Mensilmente

1. tendenze della produzione negli ultimi mesi: aumento, invarianza, diminuzione;
2. giudizio sulla consistenza del portafoglio ordini: superiore al normale, normale, inferiore al normale;
3. giudizio sulla consistenza del portafoglio ordini dall'estero: superiore al normale, normale, inferiore al normale;
4. giudizio sulle giacenze di prodotti finiti: superiori al normale, normali, inferiori al normale;
5. previsioni sulla produzione nei prossimi mesi: aumento, invarianza, diminuzione;
6. previsioni sulla tendenza dei prezzi di vendita nei prossimi mesi: aumento, invarianza, diminuzione.

##### Trimestralmente (in gennaio, aprile, luglio e ottobre):

7. previsioni sulla tendenza della manodopera occupata nei prossimi mesi: aumento, stabilità, diminuzione;
8. l'attività produttiva: non è ostacolata; è ostacolata da insufficienza di domanda, scarsità di manodopera, insufficienza di impianti;
9. capacità produttiva: eccedentaria, sufficiente, insufficiente;
10. durata di produzione assicurata, espressa in mesi;
11. nuovi ordinativi negli ultimi mesi: aumento, invarianza, diminuzione;
12. previsioni sulla tendenza degli ordinativi dall'estero nei prossimi mesi: aumento, invarianza, diminuzione;
13. utilizzazione delle capacità produttive, in %;
14. giudizio sulle scorte di materie prime: alte, normali, basse.

#### *Inchiesta sugli investimenti*

##### Semestralmente (in marzo/aprile e in ottobre/novembre):

- tendenze e prospettive degli investimenti: variazione percentuale annua della spesa per gli investimenti espressa in moneta corrente.

#### *Inchiesta nella costruzione*

##### Mensilmente (salvo per la Grecia, la Francia, l'Irlanda e il Regno Unito, dove l'inchiesta è svolta trimestralmente):

1. produzione attuale rispetto a quella del mese precedente: aumento, invarianza, diminuzione;
2. fattori che limitano la produzione: nessuno, cattivo tempo, insufficienza di manodopera, mancanza di materiali, altri?
3. ordinativi o programmi di lavoro: superiori al normale, normali, inferiori al normale;

4. previsioni sulla tendenza della manodopera occupata nei prossimi mesi: aumento, invarianza, diminuzione;
5. previsioni sulla tendenza dei prezzi nei prossimi mesi: aumento, invarianza, diminuzione.

Trimestralmente (in gennaio, aprile, luglio e ottobre):

6. durata di produzione assicurata, espressa in mesi.

### Presentazione dei risultati e nomenclatura utilizzata

Le tabelle figuranti nelle pagine seguenti presentano i risultati delle inchieste per l'insieme dell'industria manifatturiera, per i tre grandi gruppi dei beni di consumo, dei beni di investimento e dei beni intermedi, nonché per 54 gruppi e sottogruppi di prodotti industriali.

Per ogni domanda sono presentati due risultati, contrassegnati rispettivamente con «=» e «s». «=» indica le risposte corrispondenti alla menzione «invarianza», «normale» o «insufficiente». «s» indica il saldo netto positivo o negativo, essendo considerate positive le risposte «aumento», «superiore al normale» e «eccedentario», e negative le risposte contrarie. Le lettere in cima alle colonne, sotto la sigla del relativo Stato membro, rappresentano il mese al quale si riferisce il risultato dell'inchiesta e cioè: J = gennaio, F = febbraio, M = marzo, A = aprile, M = maggio, J = giugno, J = luglio, A = agosto, S = settembre, O = ottobre, N = novembre, D = dicembre. Poiché i risultati sono presentati per tre mesi alla volta, l'uso di una medesima iniziale per mesi diversi (J per gennaio, giugno et luglio; A per aprile ed agosto) non nuoce alla chiarezza.

Dal n° 1/1980 della presente pubblicazione, i risultati delle inchieste di congiuntura portano la data del mese in cui sono state fornite le risposte al questionario, invece del mese al quale si riferiscono gli apprezzamenti.

Altre simili tabelle presentano i risultati dell'inchiesta nel settore dell'edilizia. Due volte all'anno viene pubblicata una tabella supplementare relativa all'inchiesta sugli investimenti.

La descrizione della classificazione per settori delle varie inchieste figura più sotto.

### Istituti

Le inchieste sono effettuate da:

- D — Repubblica federale di Germania: IFO (Institut für Wirtschaftsforschung),
- GR — Grecia: IEIR (Institute of Economic and Industrial Research)
- F — Francia: INSEE (Institut national de la statistique et des études économiques),
- IRL — Irlanda: CII (Confederation of Irish Industry),  
— CIF (Construction Industry Federation)
- I — Italia: ISCO (Istituto nazionale per lo studio della congiuntura),
- NL — Paesi Bassi: CBS (Centraal Bureau voor de Statistiek),  
— Economisch Instituut voor de Bouwnijverheid
- B — Belgio: Banque Nationale de Belgique,
- L — Lussemburgo: STATEC (Service central de la statistique et des études économiques),
- UK — Regno Unito: CBI (Confederation of British Industry) per l'inchiesta sull'industria manifatturiera,  
— BSO (Business Statistics Office) per l'inchiesta sugli investimenti,  
— Building Employers Confederation, per l'inchiesta sull'edilizia

Il Supplemento B di «Economia Europea» contiene una selezione mensile dei risultati più recenti. Nelle principali edizioni di «Economia Europea» sono pubblicati articoli contenenti analisi più dettagliate, basate su serie temporali di dati più lunghi.

## Classificazione dei Settori industriali

### *Inchiesta nell'industria<sup>1</sup>*

#### **0 Insieme dell'industria<sup>2</sup>**

#### **I Beni di consumo**

#### **II Beni d'investimento**

#### **III Beni Intermedi**

#### **1 Industria tessile (43)**

- a Industria laniera B (431)
- b Industria cotoniera B (432)
- c Fabbricazione di tessuti di maglia, maglieria, calze B (436)

#### **2 Fabbricazione di calzature e articoli di abbigliamento (45)**

- a Fabbricazione di calzature C (451/452)
- b Abbigliamento C (453/454)

#### **3 Industria del legno e del mobile in legno (46)**

- a Legno B (461-466)
- b Mobili in legno C (467)

#### **4 Industria della carta e degli articoli in carta; stampa e edizione (47)**

- a Fabricazione della carta B (471)
- b Trasformazione della carta B (472)
- c Stampa e editoria C (473/474)

#### **5 Industria delle pelli e del cuoio (44)**

#### **6 Trasformazione delle materie plastiche B (483)**

#### **7 Industria petrolifera B (14)**

#### **8 Produzione e prima trasformazione dei metalli B (22 : 221-224)**

#### **9 Industria dei prodotti minerali non metallici (24)**

- a Materiali da costruzione, ceramica per l'edilizia e l'industria, vetro piano B (241-246; 247 salvo 247.2.4/247.7; 248 salvo 248.6/248.7)
- b Ceramiche fini e vetro cavo C (247.2-247.7/248.6-.7)

#### **10 Industria chimica (25)**

- a Prodotti chimici di base B (251)
- b Prodotti chimici per l'industria e l'agricoltura B (256)
- c Prodotti chimici di consumo C (255/257-259)

#### **11 Fabbricazione di fibre artificiali e sintetiche B (26)**

#### **12 Fabbricazione di oggetti in metallo (31)**

- I (314/315/316.6)
- C (316.5)
- B (311/313/319/resto di 316)

#### **13 Costruzione di macchine e di materiale meccanico I (32)**

- a Macchine e trattori agricoli (321)
- b Macchine utensili (322)
- c Macchine tessili e accessori (323)
- d Motori, compressori, pompe (328)

#### **14 Costruzione di macchine per ufficio e macchine e impianti per l'elaborazione dei dati I (33)**

#### **15 Costruzione elettrica ed elettronica (34)**

- a Fabricazione di materiale elettrico di uso industriale I (341-344)
- b Fabricazione di elettrodomestici, radio, televisori C (345/346)
- c Fabricazione di lampade, apparecchi per illuminazione, montaggio, lavori di impianto tecnico I (347/348)

#### **16 Costruzione di automobili e pezzi staccati (35)**

- a Costruzione e montaggio di autoveicoli (compresi i trattori stradali) e costruzione dei relativi motori C + I (351)
- b Costruzione di carrozzerie, rimorchi e cassoni mobili I (352)
- c Fabricazione di apparecchiature, accessori e pezzi staccati per automobili B (353)

#### **17 Costruzione di altri mezzi di trasporto (36)**

- a Costruzione navale, riparazione e manutenzione di navi I (361)
- b Costruzione di cicli, motocicli e loro parti staccate C (362-365)

#### **18 Industria della gomma B (481/482)**

#### **19 Fabbricazione di strumenti ottici, di precisione, e affini (37)**

#### **20 Industria alimentare, delle bevande e del tabacco (41/42)**

<sup>1</sup> La classificazione dei rami industriali nei tre gruppi principali è indicata con: C = beni di consumo; I = beni d'investimento; B = beni intermedi. Il numero di riferimento NACE (nomenclatura generale delle attività economiche nelle Comunità Europee) figura tra parentesi.

<sup>2</sup> I prodotti alimentari, le bevande e i tabacchi non sono compresi nelle cifre «insieme dell'Industria» dell'inchiesta industriale, ma sono beni inclusi nei risultati dell'inchiesta sugli investimenti.

### *Inchiesta sugli investimenti*

#### **Industrie dei prodotti di base**

- Industrie chimiche
- Industrie dei derivati del petrolio
- Materiali da costruzione, vetro e ceramica
- Produzione di fibre tessili artificiali e sintetiche
- Industrie della gomma

#### **Industrie metallurgiche**

- Industria siderurgica
- Trasformazione dei metalli ferrosi (senza la fonderia)
- Industrie dei metalli non ferrosi

#### **Industrie meccaniche ed elettriche**

- Industrie della fonderia
- Costruzione di articoli metallici di consumo
- Costruzione di attrezzi metallifici
- Costruzione di macchine non elettriche
- Costruzioni elettromeccaniche per il consumo
- Costruzioni elettromeccaniche ed elettroniche d'investimento
- Costruzione di autoveicoli
- Costruzioni di materiale rotabile ferrotranviario, navale e aeronautico
- Costruzioni meccaniche di precisione — ottica e orologeria

#### **Industrie di trasformazione**

- Industrie tessili
- Industrie dell'abbigliamento, maglieria e calzetteria
- Industrie delle calzature, delle pelli e del cuoio
- Industrie del legno e del sughero
- Industrie del mobile e dell'arredamento in legno
- Industrie della carta e della cartotecnica
- Industrie grafiche ed editoriali
- Industrie della trasformazione delle materie plastiche

#### **Industrie estrattive**

- Estrazione e preparazione dei combustibili solidi
- Estrazione di minerali metallici
- Estrazione di petrolio e di gas naturale
- Estrazione di materiali da costruzione e terre refrattarie

#### **Industrie alimentari**

#### **Insieme dell'industria<sup>2</sup>**

#### *Inchiesta nella costruzione*

#### **Insieme dell'edilizia**

- Edilizia :
- case e alloggi
- altre costruzioni

Lavori pubblici (genio civile).

# CONJUNCTUURENQUÊTES IN DE EUROPESE GEMEENSCHAP

## **De conjunctuurenquêtes**

De conjunctuurenquêtes in de Europese Gemeenschap werden sedert 1962 geleidelijk tot ontwikkeling gebracht. Zij worden door de nationale instituten uitgevoerd aan de hand van geharmoniseerde vragenlijsten van de Commissie.

Elke maand zijn bij de enquêtes ongeveer 20 000 ondernemingen betrokken.

De toezending van de vragenlijsten aan de deelnemers door de instituten gebeurt tijdens de eerste dagen van de maand waaronder de resultaten in de tabellen worden ingedeeld (of laatste dagen van de voorafgaande maand). De terugzending van de ingevulde vragenlijsten aan de instituten gebeurt tot omstreeks de 10de van de maand.

Uitzonderingen: in Italië heeft de toezending van de vragenlijsten plaats omstreeks de 15de en in Duitsland vanaf de 20ste van de maand. De terugzending aan de instituten gebeurt omstreeks de 10de van de volgende maand waaronder de resultaten worden ingedeeld.

## **Vragen**

### *Enquête in de industrie*

#### Maandelijk

1. Ontwikkeling van de produktie in de afgelopen maanden: stijging, geen verandering, daling?
2. orderbestanden: groter dan normaal, normaal, kleiner dan normaal?
3. bestand buitenlandse orders: groter dan normaal, normaal, kleiner dan normaal?
4. voorraden eindproducten: groter dan normaal, normaal, kleiner dan normaal?
5. vooruitzichten voor de ontwikkeling van de produktie in de komende maanden: stijging, geen verandering, daling?
6. vooruitzichten voor de ontwikkeling van de verkoopprijzen in de komende maanden: stijging, geen verandering, daling?

#### Driemaandelijk (januari, april, juli en oktober)

7. vooruitzichten voor de ontwikkeling van de personeelsbezetting in de komende maanden: stijging, geen verandering, daling?
8. factoren die de produktie beperken: geen, onvoldoende vraag, tekort aan arbeidskrachten, onvoldoende uitrusting?
9. produktiecapaciteit: meer dan voldoende, voldoende, onvoldoende?
10. verzekerde activiteitsduur in maanden?
11. in de afgelopen maanden ontvangen orders: stijging, geen verandering, daling?
12. vooruitzichten voor de ontwikkeling van de orderontvangsten uit het buitenland in de komende maanden: stijging, geen verandering, daling?
13. bezettingsgraad in %?
14. grondstoffenvoorraden: groot, normaal, klein?

### *Conjunctuurenquête over de investeringen in de industrie*

#### Halfjaarlijks (maart/april en oktober/november):

- ontwikkelingen en vooruitzichten inzake investeringen: procentuele wijziging per jaar van de nominale investeringsuitgaven.

### *Enquête in het bouwbedrijf*

Maandelijk (behalve voor Griekenland, Frankrijk, Ierland en het Verenigd Koninkrijk, waar de enquête viermaal per jaar wordt gehouden):

1. ontwikkeling van de bedrijvigheid ten opzichte van de voorafgaande maanden: stijging, geen verandering, daling?
2. produktie-belemmeringen: geen; ongunstige weersgesteldheid, tekort aan arbeidskrachten, onvoldoende materiaal, andere?
3. orderbestand of bouwprogramma: groter dan normaal, normaal, kleiner dan normaal?
4. vooruitzichten voor de ontwikkeling van de personeelsbezetting in de komende maanden: stijging, geen verandering, daling?

5. vooruitzichten voor de prijsontwikkeling in de komende maanden: stijging, geen verandering, daling?

Driemaandelijk (januari, april, juli en oktober)

6. verzekerde activiteitsduur in maanden?

## **Weergave van de resultaten en gebruikte bedrijfsindeling**

De tabellen op de volgende bladzijden geven de uitkomsten weer van de enquêtes voor de totale industrie en voor de drie grote categorieën goederen (consumptiegoederen, investeringsgoederen en halffabrikaten), alsmede voor 54 bedrijfstakken (groepen en subgroepen) van de industrie.

Voor elke vraag worden twee series van resultaten gegeven, respectievelijk aangeduid als „=“ en „b“. „=“ stelt antwoorden voor onder de rubriek „geen verandering“ of „normaal“ of „voldoende“. „b“ stelt het netto saldo van de positieve over de negatieve antwoorden voor, waar „stijging“ of „groter dan normaal“ of „meer dan voldoende“ als positieve antwoorden geteld worden; de tegenovergestelde nummers worden als negatieve antwoorden gerekend. De letters bovenaan de kolom onder de naam van de betrokken Lidstaat stellen de maand voor waarin de resultaten van de enquête betrekking hebben: J = januari, F = februari, M = maart, A = april, M = mei, J = juni, J = juli, A = augustus, S = september, O = oktober, N = november, D = december. Aangezien tegelijkertijd de resultaten van drie maanden weergegeven worden, bestaat er geen dubbelzinnigheid in de bedrijfsindeling voor de maanden januari, juni, juli (alle „J“) en april en augustus (beiden „A“).

Vanaf nr. 1/1980 van deze publikatie is bij de resultaten van de conjunctuurenquêtes de maand vermeld waarin de antwoorden op de vragenlijsten werden verstrekt. (In de vroegere publikatie „Resultaten van de conjunctuurenquêtes bij het bedrijfsleven in de Gemeenschap“ hadden de resultaten betrekking op de voorgaande maand).

Gelikaardige tabellen geven de resultaten weer van de enquête in de bouwnijverheid. Een extra tabel in verband met de investeringsenquête wordt tweemaal per jaar gepubliceerd.

Voor de verschillende enquêtes wordt de onderverdeling naar tak van bedrijvigheid hieronder aangegeven.

## **Instituten**

De enquêtes worden uitgevoerd door:

- DK — Denemarken: Danmarks Statistik
- D — Bondsrepubliek Duitsland: IFO (Institut für Wirtschaftsforschung)
- GR — Griekenland: IEIR (Institute of Economic and Industrial Research)
- F — Frankrijk: INSEE (Institut National de la Statistique et des Études Économiques)
- IRL — Ierland: CII (Confederation of Irish Industries) en CIF (Construction Industry Federation)
- I — Italië: ISCO (Istituto Nazionale per lo Studio della congiuntura)
- NL — Nederland: CBS (Centraal Bureau voor de Statistiek)
- Economisch Instituut voor de Bouwnijverheid
- B — België: Nationale Bank van België
- L — Luxemburg: STATEC (Service Central de la Statistique et des Études Économiques)
- UK — Verenigd Koninkrijk: CBI (Confederation of British Industry), voor de verwerkende industrie
- BSO (Business Statistics Office) voor de investeringsenquête
- Building Employers Confederation, voor de enquête in de bouwnijverheid.

In supplement „B“ van „Europese Economie“ wordt maandelijk een selectie gepubliceerd van de meest recente resultaten. Artikelen waarin nader op de ontwikkelingen wordt ingegaan en langere tijdreeksen worden periodiek gepubliceerd in de hoofduitgave van „Europese Economie“.

## Indeling van de Bedrijfstakken

### *Enquête in de industrie<sup>1</sup>*

- 0 Totale industrie<sup>2</sup>**
- I Consumptiegoederen**

- 19 Fijnmechanische en optische industrie (37)**
- 20 Voedings- en genotmiddelenindustrie (41/42)**

### *Investeringenquête*

#### **Grondstoffeindustrieën**

Chemische industrie  
Aardolie  
Bouwmaterialen, aardewerk, glas enz.  
Produktie van kunstvezels en synthetische vezels  
Rubber

#### **Metalenindustrie**

Ijzer- en staalindustrie  
Eerste bewerking van ijzer en staal (zonder gieterij)  
Industrie van non-ferro metalen

#### **Mechanische en elektrotechnische industrie**

Gieterij  
Produkten van metaal: consumptiegoederen  
Produkten van metaal: investeringagoederen  
Niet-elektrotechnische machinebouw  
Elektrotechnische apparten en installaties voor consumptiedoeleinden, radio's, televisies  
Elektrotechnische apparten en installaties voor investeringsdoeleinden  
Automobielindustrie  
Scheepsbouw, vliegtuigen, rollend spoorwegmaterieel  
Fijnmechanische instrumenten, optische en fotografische instrumenten, uurwerken

#### **Verwerkende industrie**

Textielindustrie  
Kledingindustrie, tricot- en kousenindustrie  
Leder- en schoenindustrie  
Verwerking van hout en kurk  
Meubelindestrie  
Papier- en papierwarenindustrie  
Drukkerijen  
Kunststoffenverwerkende industrie

#### **Mijnbouw**

Winning en bewerking van vaste brandstoffen  
Ertswinning  
Aardolie- en aardgaswinning  
Winning van bouwmaterialen en van vuurvaste en keramische klei

#### **Voedingsindustrie**

#### **Totaal industrie<sup>2</sup>**

### *Enquête in het bouwbedrijf*

#### **Totaal van de bouwnijverheid**

Gebouwen:  
— woningen  
— andere gebouwen

Openbare werken (water-, spoor- en wegenbouw; cultuurtechnische werken).

<sup>1</sup> De indeling van de bedrijfstakken in de drie hoofdgroepen is als volgt aangeduid: C = consumptiegoederen, I = investeringagoederen, B = Halffabrikaten.

De NACE (Algemene industriële classificatie van de Europese Gemeenschap)- referentie wordt tussen haakjes aangeduid.

<sup>2</sup> Voedings- en genotmiddelen zijn niet begrepen in de cijfers voor de „totale industrie“ in de enquête in de industrie, maar zijn wel begrepen in de enquête over de investeringen in de industrie.

# Investment survey

# Enquête sur les investissements

Half-yearly industrial investment survey: outcome for 1986 and prospects for 1987.

Results of the March-April 1987 survey, % change in value, over the preceding year.

Halvårlig undersøgelse af industriinvesteringer : resultatet for 1986 og udsigter for 1987.

Resultater af investeringsundersøgelsen i Marts-April 1987, procentvis ændring i værdien i forhold til samme tidspunkt året før.

Halbjährliche Umfrage über die Industriellen Investitionen : Ergebnis für 1986 und Aussichten für 1987.

Ergebnisse der Investitionsumfrage von März-April 1987, nominale prozentuale Veränderung gegenüber dem Vorjahr.

Enquête semestrielle sur les investissements dans l'industrie : réalisations pour 1986 et perspectives pour 1987.

Résultats de l'enquête Mars-Avril 1987, variation par rapport à l'année précédente en valeur.

Inchiesta semestrale sugli investimenti industriali : realizzazioni per il 1986 e prospettive per il 1987.

Risultati dell'inchiesta sugli investimenti dei mesi di Marzo-Aprile 1987, variazione percentuale in valore rispetto all'anno precedente.

Halfjaarlijkse conjunctuuronderzoeken over de investeringen : ge realiseerde voor 1986 en voorgenomen voor 1987.

Resultaten van de enquête van Maart-April 1987, procentuele verandering ten opzichte van het voorafgaande jaar; in waarde.

## **Meddelelse til læserne af Resultaterne af konjunkturundersøgelsen hos virksomhedsledere i Fællesskabet**

Der skal gøres to vigtige bemærkninger til undersøgelsesmaterialets fremtræden. For det første sættes tallene nu i relation til den måned, i hvilken størsteparten af spørgeskemaerne udfyldes og returneres af respondenterne (i årene før 1980 sættes tallene i relation til den foregående måned). Som følge heraf betegnes de tal, der tidligere fremstod som "december 1979", nu med "januar 1980" osv. Den nuværende praksis svarer til den, der benyttes i Kommissionens serie "Europæisk Økonomi". Begrundelsen for denne metode er, at undersøgelsen behandler virksomhedsledernes meningstilkendegivelser snarere end mængdeopgørelser for en bestemt periode. Det kan antages, at virksomhedsledernes tilkendegivelser er baseret på den forudgående måneds resultater, men man kan ikke være sikker på, at dette altid er tilfældet, og det må derfor foretrækkes at sætte undersøgelsesresultaterne i relation til det eneste utvetydige tidspunkt, der kan være tale om, nemlig tidspunktet for spørgeskemaets udfyldelse.

Den anden vigtige ændring i materialets fremtræden er sletningen af svarkategorien "+" og "-". Denne rationalisering bevirker, at trykningen bliver meget billigere, og at tabellen bliver mere overskuelig, uden at informationsmængden forringes. Det er helt uproblematisk for de læsere, som benytter svarene "+" og "-" til databaseformål eller andre formål, at aflede dem af de viste svarkategorier "=" og "b" (netttotal).

"+" er procenten af positive svar (f. eks. "højere", "større end normalt"),

"=" er uændret,

"-" er negative svar (f. eks. "lavere", "mindre end normalt"), og

"b" er den algebraiske forskel mellem de positive og de negative svar; følgende ligninger gælder

$$("+) = 50 - \frac{("=") - ("b")}{2}$$

og

$$("-") = 50 - \frac{("=") + ("b")}{2}$$

## **Vermerk für die Leser der Ergebnisse der Konjunkturumfrage bei den Unternehmern in der Gemeinschaft**

Zwei wichtige Bemerkungen zur Darstellung der Umfragedaten sind hervorzuheben. Die Angaben beziehen sich nunmehr auf den Monat, in dem der Hauptteil der Fragebögen ausgefüllt und von den Befragten zurückgesandt worden ist. (Bis Ende 1979 geschah die Veröffentlichung unter dem vorangegangenen Monat). Infolgedessen erscheinen die vorher unter „Dezember 1979“ ausgewiesenen Daten nunmehr unter „Januar 1980“ u.s.w. Dies entspricht dem in der Kommissionsveröffentlichung „Europäische Wirtschaft“ angewendeten Verfahren. Es lässt sich damit begründen, dass die Umfrage auf der Meinung der Unternehmensleiter abstellt und nicht auf quantitative Daten für einen fest umrissenen Zeitabschnitt. Es lässt sich zwar vorbringen, dass die Meinungen der Unternehmensleiter auf der Rechnungslegung des Vormonats fussen, es ist jedoch nicht mit Sicherheit festzustellen, ob dies immer der Fall ist; es scheint daher zweckmässiger, die Umfrageergebnisse mit dem Zeitpunkt zu datieren, auf den die bezogen werden können, nämlich demjenigen der Ausfüllung der Fragebögen.

Die zweite wichtige Änderung bei der Wiedergabe der Daten ist der Wegfall der Antwortkategorien „+“ und „-“. Diese Rationalisierung führt zu einer erheblichen Einsparung am Druckraum und gestattet eine Vereinfachung des Tabellschemas ohne den Informationsgehalt zu beeinträchtigen. Diejenigen Leser, welche die „+“ und „-“ Antworten als Datenbasis oder für andere Zwecke benutzen, können diese nämlich ohne weiteres aus den unter „=“ und „s“ (Nettosaldo) ausgewiesenen Angaben ableiten.

Ist

„+“ der Prozentsatz an positiven Antworten (d.h. „höher“, „übernormal“),

„=“ keine Veränderung,

“-“ negative Antworten (d.h. „niedriger“, „unternormal“), und

„s“ die algebraische Differenz zwischen positiven und negativen Antworten,  
dann gelten folgende Gleichungen:

$$(..+) = 50 - \frac{(..=) - (..s)}{2}$$

und

$$(..-) = 50 - \frac{(..=) + (..s)}{2}$$

## Note to readers of Results of the business survey carried out among managements in the Community

Two important remarks on the presentation for the survey data should be noted. Firstly, the data are now presented as relating to the month in which the bulk of the questionnaires are filled in and returned by the respondents. (In years previous to 1980, the data had been associated with the preceding month). As a result, what had previously appeared as the "December 1979" survey data are now entitled "January 1980", and so forth. The present practice corresponds to that adopted in the Commission's "European Economy" series. It can be justified on the grounds that the survey is concerned with the state of opinion of chief executives, rather than with quantitative data relating to a well-defined period. While there is substance in the argument that chief executives' opinions are based on the preceding month's accounts, it is not possible to be sure that this is always the case and so it seems preferable to date the survey results according to the one definite point in time to which they can be related, namely, that in which the questionnaires are completed. The second important change in the presentation of the data is the elimination of the answer categories "+" and "-". This rationalisation permits a considerable economy in printing and a simpler table design without sacrificing information. It is, in effect, a simple matter for those readers who use the "+" and "-" answers for data base or other purposes, to derive them from the "=" and "b" (net balance) data shown.

Thus, where

- "+" is the percentage of positive (e.g., "higher", "above normal") answers,
- "=" no change,
- "—" negative (e.g., "lower", "below normal") answers, and
- "b" is the algebraic difference between positive and negative replies, the following equations hold:

$$("+) = 50 - \frac{("=") - ("b")}{2}$$

and

$$("-) = 50 - \frac{("=") + ("b")}{2}$$

## Note aux lecteurs des Résultats des enquêtes de conjoncture auprès des chefs d'entreprise de la Communauté

Deux remarques importantes sont à signaler en ce qui concerne la présentation des données relatives aux enquêtes. Premièrement, les données se réfèrent désormais au mois au cours duquel les questionnaires sont remplis et retournés par les participants (jusqu'à la fin de 1979, les données se référaient au mois précédent). En conséquence, ce qui figurait précédemment comme résultat de "décembre 1979" est maintenant désigné comme résultat de "janvier 80", et ainsi de suite. Ce nouveau système correspond à celui qui a été adopté dans les séries "Economie Européenne" publiées par la Commission. Il se justifie du fait que l'enquête s'appuie sur l'avis des chefs d'entreprise plutôt que sur des données quantitatives concernant une période bien définie. Tout en reconnaissant le bien-fondé de l'argument suivant lequel les estimations des chefs d'entreprise sont basées sur les éléments du mois précédent, rien ne permet de vérifier si cette règle est toujours appliquée et il semble donc préférable de dater les résultats des enquêtes d'après le seul point fixe de référence, c'est-à-dire le moment où sont fournies les réponses au questionnaire.

Le deuxième changement important intervenu dans la présentation des données est l'élimination des catégories de réponses "+" et "-". Cette rationalisation a permis de réduire considérablement les frais d'impression et de disposer plus simplement les tableaux, sans nuire à l'information. Il est en effet fort aisément pour les utilisateurs des réponses "+" et "-" (banques de données ou autres usages), de les déduire des indications "=" et "s" (solde net).

Ainsi, puisque

- "+" est le pourcentage des réponses positives ("augmentation", "supérieur à la normale"),
- "=" stabilité,
- "—" réponses négatives ("diminution", "inférieur à la normale"), et
- "s" est la différence algébrique entre les réponses positives et négatives, les équations suivantes sont d'application:

$$("+) = 50 - \frac{("=") - ("b")}{2}$$

et

$$("-) = 50 - \frac{("=") + ("s")}{2}$$

## **Nota ai lettori della serie Risultati dell'inchiesta congiunturale effettuata presso gli imprenditori della Comunità**

Due osservazioni sono da rilevare più particolarmente nella presentazione dei dati delle inchieste. Primo, i dati si riferiscono ora al mese in cui i questionari sono stati completati e rinviati dai partecipanti (fino alla fine del 1979, i dati si riferivano al mese precedente). Di conseguenza, ciò che prima figurava come risultato di "Dicembre 79" è d'ora innanzi indicato come risultato di "Gennaio 80", e così via. Questo sistema corrisponde a quello che è stato adottato per le serie "Economia Europea" edite dalla Commissione, e si giustifica in quanto l'inchiesta si basa sull'opinione degli imprenditori più che su dati quantitativi relativi ad un periodo ben definito. Se è pur valido l'argomento secondo il quale le valutazioni degli imprenditori si fondano su elementi del mese precedente, è anche evidente che nulla permette di controllare se così sempre avviene, per cui sembra più indicato attribuire ai risultati delle inchieste l'unica data certa di riferimento, e cioè il momento in cui sono completati i questionari.

Il secondo cambiamento importante nella presentazione dei dati riguarda l'eliminazione delle categorie di risposte "+" e "-". Tale razionalizzazione ha permesso di ridurre notevolmente i costi e di semplificare la disposizione delle tabelle senza nuocere all'informazione. Infatti, i lettori che devono adoperare le risposte "+" e "-" (per banche di dati o altri scopi) possono dedurle facilmente dalle indicazioni "=" e "s" (saldo netto).

Così, poichè

- "+" è la percentuale di risposte positive ("aumento", "superiore al normale"),
- "=" invarianza,
- "-" risposte negative ("diminuzione", "inferiore al normale"), e
- "s" è la differenza algebrica tra risposte positive e negative, si applicano le seguenti equazioni:

$$("+) = 50 - \frac{("=") - ("s")}{2}$$

e

$$("-") = 50 - \frac{("=") + ("s")}{2}$$

## **Mededeling aan de lezers van Resultaten van de conjunctuurenquête bij het bedrijfsleven in de Gemeenschap**

De aandacht moge worden gevestigd op twee belangrijke opmerkingen betreffende de opstelling van de enquêteresultaten. In de eerste plaats worden de gegevens nu vermeld voor de maand waarin het grootste deel van de vragenlijsten door de geënquéteerden werden ingevuld en teruggestonden. (Tot eind 1979 werden deze gegevens in verband gebracht met de voorafgaande maand). Als gevolg van deze veranderingen zijn de gegevens die vroeger met „december 1979” zouden zijn gedateerd nu vermeld onder „januari 1980”, enz. De nieuwe handelwijze komt overeen met die welke wordt aangehouden in de series „Europese economie” van de Commissie. Deze methode werd gekozen op grond van de overweging dat de enquête in meerdere mate betrekking heeft op de meningen van de ondernemers dan op kwantitatieve gegevens voor een bepaalde periode. Hoewel het argument kan worden aangevoerd dat de opvattingen van de ondernemers gebaseerd zijn op de rekeningen van de voorafgaande maand is het niet zeker dat dit altijd het geval is, zodat het de voorkeur verdient de enquêteresultaten te relateren aan een wel bepaald tijdstip, namelijk dat waarop de vragenlijsten werden ingevuld.

De tweede belangrijke verandering in de opstelling van de cijfers is de afschaffing van de antwoordcategorieën „+" en „-“. Door deze rationalisering kan aanzienlijk op het drukwerk worden bezuinigd, daar de tabel eenvoudiger wordt zonder dat informatie verloren gaat. Voor die lezers die „+" en „-“ antwoorden gebruiken als basisgegevens of voor andere doeleinden is het immers eenvoudig deze af te leiden uit „=" en „s" (saldo) gegevens die worden vermeld.

Indien namelijk

- „+" het percentage positieve (d.w.z. „hoger”, „groter dan normaal”) antwoorden,
- „=" geen verandering,
- „-" het percentage negatieve (d.w.z. „lager”, „kleiner dan normaal”) antwoorden en
- ..s" het rekenkundige verschil tussen negatieve en positieve antwoorden aangeven, gelden de volgende vergelijkingen:

$$("+) = 50 - \frac{("=") - ("s")}{2}$$

en

$$("-") = 50 - \frac{("=") + ("s")}{2}$$
