

COMMISSION OF THE EUROPEAN COMMUNITIES

— COM(82) 857 final

Brussels, 22 December 1982

Proposal for a
COUNCIL REGULATION (EEC)

on rules for imports of certain textile products originating
in Yugoslavia

(submitted to the Council by the Commission)

EXPOSE DES MOTIFS

Ce projet de règlement est destiné à remplacer en ce qui concerne la Yougoslavie le règlement 3059/78 relatif au régime commun applicable aux importations de certains produits textiles originaires de pays tiers. Le régime établi par ledit règlement vient à expiration le 31 décembre 1982.

Le projet de règlement nouveau se fonde sur les principes et la structure de son prédécesseur et tient compte également des éléments du Protocole complémentaire à l'Accord de Coopération entre la Communauté et la Yougoslavie relatif au commerce des produits textiles paraphé le 26 septembre 1982.

Il s'agit notamment des dispositions concernant l'introduction de nouveaux quotas ("sortie de panier"), le gel des dispositions de flexibilité pour certains produits et la fraude.

Whereas products entering the customs territory of the Community under the arrangements for inward processing or other temporary admission arrangements and intended for re-exportation out of the said territory in the same state or after processing should not be subject to such Community quantitative limits;

Whereas special rules are required for products re-imported under the arrangements for outward processing;

Whereas it was agreed in the course of the negotiations by the delegations from the Community and Yugoslavia that the said delegations should recommend their respective authorities to apply the arrangements set out in the Agreements negotiated on a provisional basis from 1 January 1978, pending their subsequent entry into force;

Whereas, in order to apply Community quantitative limits in conformity with the Agreements negotiated with Yugoslavia it is necessary to establish a special management procedure; whereas it is desirable that such common management system be decentralized by allocating the quantitative limits among the Member States, and that the import authorizations be issued by the Member States' authorities in accordance with the double-checking system defined in the protocol;

Whereas, in order to ensure the best possible utilization of the Community quantitative limits, they should be allocated in accordance with the requirements of the Member States and with the quantitative objectives established by the Council; whereas, however, the extent of the disparities existing in the conditions for importation of these products into the Member States and the particularly sensitive position of the Community textiles industry mean that the said conditions can be standardized only gradually; whereas for these reasons allocation of supplies cannot immediately be effected on the basis of requirements alone;

Whereas it is also necessary to introduce efficient and rapid procedures for altering Community quantitative limits and their allocation to take account of the development of trade flows, needs for additional imports and the Community's obligations under the protocol negotiated with Yugoslavia;

Whereas, in the case of products not subject to quantitative limitation, the Agreements provide for consultation procedure whereby, in the event that the volume of imports of a given category of products into the Community or one of its regions exceeds a certain threshold, agreement can be reached with the supplying country on the introduction of quantitative limits; whereas the supplying countries also undertake to suspend or limit their exports from the date of a request for such consultations, at the level indicated by the Community; whereas if no agreement is reached with the supplying country within the period stipulated, the Community may introduce quantitative limits at a specific annual or multiannual level;

Whereas the Protocol established a system of cooperation between the Community and the supplier countries with the aim of preventing circumvention by means of transshipment, rerouting or other means; whereas a consultation procedure is established under which an agreement can be reached with Yugoslavia in question on an equivalent adjustment to the relevant quantitative limit when it appears that the agreement has been circumvented; whereas supplier countries also agreed to take the necessary measures to ensure that any adjustments could be rapidly applied; whereas in the absence of agreement with Yugoslavia within the time limit provided, the Community may, where clear evidence of circumvention is provided, apply the equivalent adjustment.

Whereas in order inter alia to comply with time limits set in the protocol it is necessary to lay down a rapid and efficient procedure for introducing such quantitative limits and the concluding of this protocol with Yugoslavia.

Whereas the provisions of this Regulation must be applied in conformity with the obligations of the Community towards Yugoslavia arising from this protocol.

Article 1

1. This Regulation shall apply to imports into the Community of the textile products listed in Annex I and originating in Yugoslavia.
2. The classification of the products listed in Annex I shall be based on the nomenclature of the Common Customs Tariff and in the nomenclature of goods for the external trade statistics of the Community and the statistics of trade between Member States (NIMEXE), without prejudice to Article 3 (7). The procedures for the application of this paragraph are laid down in Annex V.

Article 2

1. The origin of the products referred to in Article 1(1) shall be determined in accordance with the rules in force in the Community.
2. The procedures for control of the origin of the products referred to in Article 1(1) are laid down in Annex IV.

Article 3

1. The importation into the Community of the textile products lists in Annex II originating in Yugoslavia and shipped between 1 January 1983 and 31 December 1986 shall be subject to the annual quantitative limits laid down in that Annex.
2. These quantitative limits are broken down between Member States of the Community for the year 1983 as set out in Annex III. The breakdown for the years 1984 to 1986 shall be adopted in accordance to the procedures laid down in Article 14.
3. The release for free circulation in the Community of imports subject to the Community quantitative limits referred to in paragraph 1 shall be subject to the presentation of an import authorization or equivalent document issued by the Member States' authorities in accordance with Article 9.
4. The authorized imports shall be charged against the Community quantitative limits laid down for the year in which the products are shipped from Yugoslavia. In this Regulation shipment of products shall be considered to have taken place on the date of their loading onto the exporting aircraft, vehicle or vessel.
5. Imports of products not subject to quantitative limitation before 1 January 1983 which were in the course of shipment to the Community before that date shall not be subject to the Community quantitative limits referred to in this article provided they were shipped from the supplier country in which they originate before 1 January 1983.

.../...

6. The release for free circulation of products the importation of which was subject to quantitative limitation before 1 January 1983 and which were shipped before the said date shall continue from that date to be subject to the presentation of the same import documents, and to the same import conditions, as before 1 January 1983.

7. The definition of Community quantitative limits laid down in Annex III and the categories of products to which they apply shall be adapted in accordance with the procedure laid down in Article 15 where this proves necessary to ensure that any subsequent amendment to the nomenclature of the Common Customs Tariff or the nomenclature of goods for the external trade statistics of the Community and the statistics of trade between Member States (NIMEXE) or any decision amending the classification of such products do not result in a reduction of such quantitative limits.

Article 4

The Community quantitative limits referred to in Article 3 shall not apply to the cottage industry and folklore products defined in Annex VI which are accompanied on importation by a certificate issued by the competent authorities of the country of origin in accordance with the provisions of Annex VI and which fulfil the other conditions laid down therein.

Article 5

1. The Community quantitative limits referred to in Article 3 shall not apply to products admitted into the customs territory of the Community under the arrangements for inward processing or other suspensive arrangements, provided that they are declared to be ^{for} re-export under such a system outside the said territory in the same state or after processing.

The subsequent release for free circulation of the products referred to in the first subparagraph shall be subject to the quantitative limits referred to in Article 3 and to the presentation of an import authorization or equivalent document issued in accordance with Article 3(3) and the products so released shall be charged against the Community quantitative limit established for the year for which the export licence was issued.

2. Where the authorities in the Member States establish that imports of textile products have been charged against a Community quantitative limit fixed pursuant to Article 3 and that these products have subsequently been re-exported outside the Community, they shall inform the Commission thereof and issue additional import authorizations for the same products and the same quantities in accordance with Article 3(3).

Imports effected under cover of such authorizations shall not be charged against the Community quantitative limit for the current year or the following year.

3. Reimports into the Community of textile products after processing in Yugoslavia shall be subject to the specific arrangements provided for in Annex VII provided that they are effected in accordance with the regulations on economic outward processing in force in the Community.

Article 6

1. The Community quantitative limits shall be allocated in such a way as to ensure the improved utilization of these quantitative limits and to attain progressively a more balanced penetration of the markets by means of improved burden-sharing between the Member States.

2. The allocation of the Community quantitative limits shall be adapted in accordance with the procedure laid down in Article 15 and according to the criteria defined in paragraph 1 where this proves necessary, particularly in view of trends in patterns of trade, in order to ensure their improved utilization.

3. In cases referred to in paragraph 1 which are of particular economic importance to one or more Member State, the Commission shall however refer proposals for amendment of the allocation directly to the Council. The Council shall act upon such proposals in accordance with Article 113 of the Treaty.

Article 7

1. Yugoslavia may, after notifying the Commission in advance, utilize the shares allocated to Member States in the following ways :

(a) Advance utilization during any given year of a portion of a share established for the following year shall be authorized for each category of products up to 5 % of the share for the year of actual utilization, except for categories 1, 2 and 3.

Such advance imports shall be deducted from the corresponding shares established for the following year, except for categories 1, 2 and 3.

(b) Carry-over of amounts not utilized during any given year to the corresponding share for the following year shall be authorized up to 5 % of the share for the year of actual utilization.

- transfers between categories 4, 5, 6, 7 and 8 shall be authorized up to 5 % of the share established for the category to which the transfer is made.

- transfers of quantities into the different categories in Group II or III may be made from any category in Group I, II or III subject to a maximum of 5 % of the share established for the category to which the transfer is made.

The table of equivalence applicable to the abovementioned transfers is given in Annex I..

The cumulative application of the provisions of points a), b) and c) may not, in the course of any given year, cause a limit established for the category and for the year in question to be exceeded by more than 15 %.

2. In the event of recourse by a supplier country to the provisions of paragraph 1, the Commission shall notify the authorities of the Member States concerned which shall authorize the imports in question in accordance with the double-checking system defined in Annex V.
3. Where a Member State's share has been increased by the application of paragraph 1 above, or of Article 8, or where further possibilities of imports into that Member State have been created under Article 8, such increases or further import possibilities shall not be taken into account for the purposes of applying paragraph 1 in the current year of subsequent years.

Article 8

1. Member States which find that they require additional imports for their internal consumption or which consider that their share may not be fully utilized shall notify the Commission accordingly.

2. The Community quantitative limits laid down in Article 3 may be increased in accordance with the procedure laid down in Article 14 where it appears that additional imports are required.
3. At the request of a Member State which finds that it requires additional imports, either on the occasion of fairs or where it has issued import authorizations or equivalent documents for up to 80 % of its national share, the Commission may, after oral or written consultation with the Member States within the Committee set up under Article 14, open up additional possibilities for imports into that Member State.

In an emergency, the Commission shall open consultations within the Committee within five working days following receipt of the request from the Member State concerned and shall take a decision within 15 working days calculated from the same date.

Article 9

1. The authorities of the Member States shall issue the import authorizations or equivalent documents provided for in Article 3 (3) up to the amount of their shares, taking into account the measures taken pursuant to Articles 6, 7 and 8.
2. The import authorizations or equivalent documents shall be issued in accordance with Annex V.
3. The quantities of products covered by the import authorizations or equivalent documents provided for in Article 3 shall be charged against the share of the Member State which issued those authorizations or documents.
4. The competent authorities of the Member States shall cancel import authorizations or equivalent documents already issued in cases where the corresponding export licences have been withdrawn or cancelled by the competent authorities in the supplier countries. However, if the competent authorities of a Member State have not been informed by the competent authorities of Yugoslavia of the withdrawal or cancellation of an export licence until after the related products have been imported into such Member

State, the quantities in question shall be set off against the Member State's quota share for the year during which shipment of products took place.

Article 10

1. The importation into the Community of textile products listed in Annex I, originating in Yugoslavia and not subject to the Community quantitative limits referred to in Article 3, shall be subject to a system of administrative surveillance.

2. Should imports into the Community of products falling within any given category, referred to in paragraph 1 and originating in Yugoslavia exceed, in relation to the preceding calendar year's total imports into the Community of products in the same category, the percentages indicated below such imports may be made subject to quantitative limits under the conditions laid down in this Article. These arrangements may be limited to imports into specific regions of the Community:

For all categories of group I products : 0,5 %
 for all categories of group II products: 2,5 %
 for all categories of group III products: 5,0 %

3. Should the imports referred to in paragraph 2 into a given region of the Community exceed, in relation to the total quantities calculated for the whole Community according to the percentage specified in paragraph 2, the percentage set for that region in the table below, such imports may be made subject to quantitative limits in the region in question:

Germany	28,5 %
Benelux	10,5 %
France	18,5 %
Italy	15 %
Denmark	3 %
Ireland	1 %
United Kingdom	23,5 %
Greece	2 %

- 4. Paragraphs 2 and 3 shall not apply where the percentages specified therein have been reached as a result of a fall in total imports into the Community, and not as a result of an increase in exports of products originating in the supplier country concerned.

- 5. Where the Commission finds, in accordance with the procedure laid down in Article 14, that the conditions set out in paragraphs 2 and 3 are fulfilled and considers that a given category of products should be made subject to a quantitative limit, with the concurring opinion of the Committee under the procedure in Article 14:
 - a) it shall open consultations with the supplier country concerned in accordance with the procedure specified in Article 13 with a view to reaching an agreement or joint conclusions on a suitable level of limitation for the category of products in question;

 - b) pending a mutually satisfactory solution, the Community may request Yugoslavia to limit exports of the products in the category concerned to the Community or to the region or regions of the Community market specified by the Community for a provisional period of 3 months from the date on which the request for consultations is made. Such provisional limit shall be established at 25 % of the level of imports reached during the calendar year preceding that in which imports exceeded the level resulting from the application of the formula set out in paragraph 2, and gave rise to the request for consultation or 25 % of the level resulting from the application of the formula set out in paragraph 2, whichever is the higher.

 - c) It may, pending the outcome of the requested consultations, apply to the imports of the category of products in question quantitative limits identical to those requested of the supplier country pursuant to point b). These measures shall be without prejudice to the definitive arrangements to be made by the Community, taking into account the results of the consultations.

Measures taken pursuant to this paragraph shall be the subject of a Commission communication published without delay in the Official Journal of the European Communities.

6. The consultations with Yugoslavia which are provided for in paragraph 5 may lead to the conclusion of an arrangement between that country and the Community or the adoption of joint conclusions on the introduction and level of quantitative limits.

Such arrangements or joint conclusions shall stipulate that the quantitative limits agreed be administered in accordance with a double-checking system.

7. Should the parties be unable in the course of consultations to reach a satisfactory solution within one month following the opening of consultations, and at the latest within two months following notification of the request for consultations, the Community shall have the right to introduce a definitive quantitative limit at an annual level not lower than the level resulting from the application of the formula set out in paragraph 2, or 106% of the level of imports reached during the calendar year preceding that in which imports exceeded the level resulting from the application of the formula set out in paragraph 2 and gave rise to the request for consultations, whichever is the higher.
8. The arrangements provided for in paragraph 6 shall be concluded, and the measures provided for either in paragraphs 5 and 7, or in the arrangements or joint conclusions referred to in paragraph 6 shall be decided in accordance with the procedure laid down in Article 14.
9. The annual level of the quantitative limits laid down in accordance with paragraphs 5 to 8 may not be less than the level of imports, into the Community or into the region or regions concerned in 1980 of products of the same category and originating in Yugoslavia.
10. Where the development of total imports into the Community of a product which is subject to a quantitative limit fixed in accordance with paragraphs 5 to 8 renders it necessary, the annual level of that quantitative limit shall be increased, after consultation with the supplier country, in accordance with the procedure laid down in Article 14 to ensure compliance with the conditions set out in paragraphs 2 and 3.

- 11. The quantitative limits fixed in accordance with paragraphs 6 and 8 shall provide for an annual growth rate determined by mutual agreement with the supplier country concerned in the context of the consultation procedure laid down in Article 13.
- 12. The quantitative limits established pursuant to paragraphs 5 to 8 shall not apply to products which have already been dispatched to the Community provided that they were shipped from Yugoslavia for export to the Community before the date of notification of the request for consultations.
- 13. The quantitative limits established pursuant to paragraphs 5 to 8 shall be administered in accordance with Articles 3 to 9, save as otherwise provided in accordance with the procedure laid down in Article 14.

Article 11

- 1. For the textile products subject to the quantitative limits referred to in Article 3 Member States shall notify the Commission, within the first 10 days of each month, of the total quantities, in the appropriate units and by category of products, for which import authorizations have been issued during the preceding month.
- 2. In respect of the textile products in Annex I, Member States shall notify the Commission monthly, within 30 days following the end of each month, of the total quantities imported during that month by NIMEXE code and in the units, including where appropriate supplementary units, of the NIMEXE code.
- 3. For products cited in Annex VI paragraph 1, Member States shall notify the Commission monthly within 30 days following the end of each month, of the total quantities imported during that month, in the appropriate units and by country of origin and category of products.

4. In order to enable market trends in the products covered by this Regulation to be monitored, Member States shall communicate to the Commission, before 31 March each year, statistical data for the preceding year on exports. The statistical data relating to the production and consumption of each product shall be forwarded under arrangements to be determined subsequently pursuant to the procedure laid down in Article 14.
5. Where the nature of the products or particular circumstances so require, the Commission may, at the request of a Member State or on its own initiative, alter the time limits for communicating the abovementioned information under the procedure laid down in Article 14.
6. Member States shall notify the Commission under conditions set in accordance with the procedure laid down in Article 14, of all other particulars deemed under that procedure to be necessary in order to ensure compliance with the obligations agreed between the Community and Yugoslavia.

Article 12

1. Where information available to the Commission as a result of investigations carried out in accordance with procedures laid down in Annex IV, constitutes evidence that products originating in Yugoslavia and subject to quantitative limits referred to in Article 3 or established under the procedure laid down in Article 10, have been transhipped, re-routed or otherwise imported into the Community in circumvention of such quantitative limits, the Commission may open consultations with the supplier country concerned in accordance with the procedure laid down in Article 13 with a view to reaching agreement on an equivalent adjustment of the corresponding quantitative limits.
2. Pending the result of the consultations referred to in paragraph 1, the Commission may request Yugoslavia to make the necessary arrangements as a precautionary measure to ensure that adjustments of quantitative limits agreed following such consultations may be carried out in the year in which the request to open consultations was made, or for the following year if the quantitative limit for the current year is exhausted, where clear evidence of circumvention is provided.

- 3. Should the Community and Yugoslavia fail to reach a satisfactory solution within the period specified in Article 13 the Commission may, where clear evidence of circumvention has been provided deduct from the relevant quantitative limits amounts equivalent to the products originating in Yugoslavia in accordance with the procedure laid down in Article 14.

Article 13

1. The Commission shall conduct the consultations with Yugoslavia provided for by the present regulation in accordance with the following rules:

- the Commission shall notify the supplier country concerned of the request for consultations;
- the request for consultations shall be followed within a reasonable period (and in any case not later than fifteen days following the notification) by a statement setting out the reasons and circumstances which, in the Commission's opinion, justify the submission of such a request;
- the Commission shall initiate consultations within one month at the latest of notification of the request, with a view to reaching agreement or a mutually acceptable conclusion within one further month at the latest.

Article 14

- 1. The Textile Committee- Yugoslavia, hereinafter called 'the Committee', composed of representatives of the Member States and chaired by a Commission representative, is hereby set up.
- 2. The Committee shall draw up its rules of procedure.
- 3. Where reference is made to the procedure defined in this Article, the chairman, on his own initiative or at the request of a Member State, shall refer the matter to the Committee.

3. (a) The Commission shall adopt the measures proposed where they are in conformity with the Committee's opinion.
- (b) Where the measures proposed are not in conformity with the Committee's opinion, or where no opinion has been given, the Commission shall submit to the Council without delay a proposal for the measures to be taken. The Council shall act by a qualified majority.
- (c) Should the Council fail to take a decision within one month of the date on which the proposal was laid before it, the Commission shall adopt the proposed measures.
4. The Commission representative shall submit draft measures to the Committee. The Committee shall deliver an opinion on the draft measures within a period which may be fixed by the chairman depending on the degree of urgency of the matters to be examined. The Committee shall decide by a qualified majority as specified in Article 148 (2) of the Treaty. The chairman shall not vote.
5. The chairman may, on his own initiative or at the request of one of the Member States' representatives, consult the Committee about any other matter relating to the operation of this Regulation.

Article 15

The Member States shall inform the Commission forthwith of all measures taken pursuant to this Regulation and of all laws, regulations or administrative provisions concerning arrangements for importation of the products covered by this Regulation.

Article 16

Amendments to the Annexes to this Regulation which may be necessary to take into account amendments made to Community rules on statistics, customs arrangements or common import arrangements shall be adopted in accordance with the procedure laid down in Article 14 of this Regulation.

Article 17

This Regulation shall enter into force on the day following its publication in the Official Journal of the European Communities.

It shall apply until 31 December 1986.

ORIGIN

ADMINISTRATIVE COOPERATION

(referred to in Articles 2 and 12)

ORIGIN

Article 1

1. Products listed in Annex I, originating in one of the supplying countries listed in Annex II, may be imported into the Community in accordance with the arrangements established by this Regulation on production of a certificate of origin conforming to the specimen attached to Annex VI.
2. The certificate of origin shall be issued by the competent governmental authorities of the supplying country if the products in question can be considered products originating in Yugoslavia within the meaning of the relevant rules in force in the Community.
3. However, products listed in Annex I other than those falling within Group I or II may be imported into the Community in accordance with the arrangements established by the Regulation on production of a declaration by the exporter or supplier on the invoice, or, where there is no invoice, on another commercial document relating to the products in question, to the effect that the said products originate in Yugoslavia where the declaration is made within the meaning of the relevant rules in force within the Community.
4. Where different criteria for determining origin are fixed in respect of products falling within a single category and a single tariff heading, the certificate or declaration must include a description of the goods which is sufficiently detailed to allow assessment of the criterion on the basis of which the certificate was issued or the declaration made.

Article 2

The discovery of slight discrepancies between the entries made in the certificate of origin and those made in the documents produced to the customs office for the purpose of carrying out the formalities for importing the product shall not ipso facto cast doubt upon the statements in the certificate.

Article 3

1. The movement certificates and forms EUR.1 and EUR.2 and the certificates of origin Form A and forms APR presented at the time of importation into the Community in order to obtain a tariff preference shall be accepted in place of the proof of origin stipulated in Article 1.
2. The proof of origin referred to in Article 1 shall not be required where goods are accompanied by a certificate conforming to the specimen and complying with the conditions set out in Regulation
or
or in the corresponding provisions which are to replace the said Regulations.
3. Paragraph 2 shall also apply to goods accompanied by a certificate conforming to the specimen and complying with the conditions set out in Annex VII this Regulation.
4. Non-commercial imports exempt from production of the documents referred to in paragraph 1 in accordance with the provisions of the preferential arrangements concerned shall not be subject to the provisions of this Annex.

.../...

- 64
3. The conditions upon which this Annex shall apply to non-commercial imports other than those covered by paragraph 4 shall be elected in accordance with the procedure specified in Article 14 of Regulation (EEC) No. 240/68 (1).

Pending the implementation of these rules, the Member States may continue to apply the national rules in force in this field.

(1) OJ No L 143 of 26.6.1968, p. 1

Article 4

The Commission shall supply the Member States authorities with the names and addresses of the authorities in Yugoslavia competent to issue certificates of origin and export licences together with specimens of stamps used by these authorities.

Article 5

1. Subsequent verification of certificates of origin or export licences shall be carried out at random, or whenever the competent Community authorities have reasonable doubt as to the authenticity of the certificate or licence or as to the accuracy of the information regarding the true origin of the products in question.

In such cases the competent authorities in the Community shall return the certificate of origin or the export licence or a copy thereof to the competent governmental authority in the supplying country concerned, giving, where appropriate, the reasons of form or substance for an enquiry. If the invoice has been submitted, such invoice or a copy thereof shall be attached to the certificate or its copy. The authorities shall also forward any information that has been obtained suggesting that the particulars given on the said certificate are inaccurate.

2. The provisions of paragraph 1 above shall also be applicable to subsequent verifications of the declarations of origin referred to in Article 1(3) of this Annex.
3. The results of the subsequent verifications carried out in accordance with paragraphs 1 and 2 shall be communicated to the competent authorities of the Community within three months at the latest.

The information communicated shall indicate whether the disputed certificate or licence or declaration applies to the goods actually exported and whether the goods are eligible for export to the

68

Community under this Regulation. The competent authorities of the Community may also request copies of all documentation necessary to determine the facts fully and in particular the true origin of the goods.

4. Should such verifications reveal abuse or major irregularities in the use of declarations of origin, the Member State concerned shall inform the Commission of this fact. The Commission shall pass the information on to the other Member States.

At the request of a Member State or at the initiative of the Commission, the Committee on Origin shall, as soon as possible and in accordance with the procedure specified in Article 13 of Regulation (EEC) No. 802/68 (1), examine whether it is desirable to require the production of a certificate of origin, in accordance with Article 1(1) and (2), in respect of the products concerned.

The decision shall be taken in accordance with the procedure specified in Article 14 of Regulation (EEC) No. 802/68.

5. Random recourse to the procedure specified in this Article must not constitute an obstacle to the release for home use of the products in question.

Article 6

1. Where the verification procedure referred to in Article 5 or where information available to the competent authorities in the Community indicates that the provisions of this Regulation are being contravened,

N.B. For the purpose of subsequent verification of certificates of origin, copies of the certificates as well as any export documents referring to them shall be kept for a least two years by the competent authorities in Yugoslavia.

24

the said authorities shall request Yugoslavia to carry out appropriate enquiries or arrange for such enquiries to be carried out concerning operations which are or appear to be in contravention of the provisions of this Regulation. The results of these enquiries shall be communicated to the competent authorities of the Community together with any other pertinent information enabling the true origin of the goods to be determined.

2. In pursuance of the action taken under the terms of this Annex, the competent authorities of the Community may exchange any information with the competent authorities of Yugoslavia which is considered of use in preventing the contravention of the provisions of this Regulation.

3. Where it is established that the provisions of this Regulation have been contravened, the Commission, acting according to the procedure laid down in Article 1 of this Regulation, may agree with Yugoslavia to take such measures as are necessary to prevent recurrence of such contravention.

COMMON PROVISIONS

(referred to in Articles 1 and 9)

- b) the relevant category, tariff heading or subheading and the NIMEXE code
- c) the reasons which have led to the decision.

Article 5

1. Where a classification decision adopted in accordance with current Community procedures results in a change of classification practice or a change in category of any product subject to the present regulation, the competent authorities of the Member States shall provide 30 days' notice, from the date of the Community's notification, before the decision is put into effect.
2. Products shipped before the date of the application of the decision shall remain subject to earlier classification practice, provided that the goods in question are entered for importation within 60 days of that date.
3. Paragraphs 1 and 2 above apply without prejudice to the preliminary provisions of the Annex "Nomenclature of goods for the external trade statistics of the Community and statistics of trade between Member States (NIMEXE)" Council Regulation (EEC) N° 1445/72 as last amended by Commission Regulation (EEC) N° 3823/81 (4).

(4) O.J. N° L387 dated 31.12.1981, p. 8

Article 6

Where a classification decision is introduced in accordance with the established Community procedures referred to in Article 5 of this Annex involves a category of products subject to a quantitative limit, the Commission shall, without delay, initiate discussions in accordance with Article 13 of the present regulation, in order to reach an agreement on the necessary adjustments to the relative quantitative limits provided for in Annex II of this regulation.

Article 7

1. In case of divergent opinions between the classification indicated in the documentation necessary for importation of the products covered by this regulation and the classification laid down by the competent authorities of the Member State into which they are to be imported, the goods in question are provisionally subject to the import arrangements which, in accordance with the provisions of the present regulation and the classification of the afore mentioned authorities, are applicable to them.
2. Member States shall inform the Commission without delay of the cases referred to in paragraph 1 and the Commission shall notify the competent authorities of the supplying countries of the details of the case in question.
3. Member States, at the time of the communication referred to in paragraph 2, shall specify if, following the application of the provisions of paragraph 1, the quantities of the products which are the subject of divergence have been provisionally debited against a quantitative limit laid down for a category of products other than that indicated in the export licence referred to in Article 11 of this Annex.
4. The Commission shall notify the competent authorities of Yugoslavia the provisional debits referred to in paragraph 3, within 30 days of the date of such provisional debit.

Article 8

In the cases referred to in Article 7 of this Annex as well as in those cases of a similar nature raised by the competent authorities of the supplying countries, the Commission, if necessary, and in accordance with the procedure provided for in Article 14 of this regulation, shall take part in consultations with Yugoslavia in order to reach an agreement on the classification to be definitively accepted for the products causing the divergence.

Article 9

The Commission, in agreement with the competent authorities of the Member State or States of importation and of Yugoslavia, may, in the cases referred to in Article 8 of this Annex, determine the classification definitively applicable to the products causing the divergence.

Article 10

When a case of divergence referred to in Article 7 cannot be resolved in accordance with Article 9 of this Annex, the Nomenclature Committee of the Common Customs Tariff and the NIMEXE Committee are required, in accordance with their respective competence and with the provisions of the regulations setting up the aforesaid Committees, to establish definitively the classification of the goods concerned.

In this event, these authorities shall immediately inform the authorities of Yugoslavia and the Commission, and the special consultation procedure set out in Article of this Regulation shall be initiated forthwith by the Commission.
