

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(82) 435 final

Brussels, 9 July 1982

COMMUNICATION FROM THE COMMISSION TO THE COUNCIL

concerning the final estimates for the 1980/1981 wine-growing year

COM(82) 435 final

COMMUNICATION FROM THE COMMISSION TO THE COUNCIL
concerning the final estimates for the 1980/1981 wine-growing year

Pursuant to Article 5(3) of Regulation (EEC) No 337/79, "for each wine-growing year, the Commission shall provide the Council with final estimates of Community resources and uses in the preceding wine-growing year".

The final estimates for the 1980/81 wine-growing year are annexed to this communication.

Compared with the 1979/80 estimates, it can be seen that :

- overall production decreased by about 18.5 million hl;
- net exports increased by about 1.3 million hl;
- processing increased by about 3.4 million hl; quantities distilled in accordance with Regulation (EEC) No 337/79 increased by about 4.7 million hl;
- direct human consumption decreased by about 1.8 million hl;
- stocks at the end of the wine-growing year decreased by about 2.8 million hl;
- per capita consumption decreased by 0.8 litres.

The Community harvest of 163.866.000 hl in the autumn of 1980 was 244 000 hl less than total domestic uses.

Total domestic uses, including quantities distilled pursuant to Regulation (EEC) No 337/79, rose by about 1.5 million hl.

Excluding the quantities affected by the distillation measures, total domestic uses dropped by 3.1 million hl, of which 1.8 million hl were accounted for by the drop in direct human consumption.

Final estimates for the 1980/81 wine-growing year

1 000 hl
