

DRAFT ANNUAL TOURISM REPORTING TEMPLATE

1. INTRODUCTION

Council Decision 86/664/EEC of 22 December 1986¹ establishing a consultation and cooperation procedure in the field of tourism foresees that “each Member State shall send the Commission, once a year, a report on the most significant measures it has taken and, as far as possible, on measures it is considering taking in the provision of services for tourists which could have consequences for travellers from the other Member States”.

With the publication of the “Agenda for a sustainable and competitive European tourism”, the Commission announced that “in order to strengthen the collaboration with and among Member States, their current annual reporting through the Tourism Advisory Committee (TAC) will be used to facilitate the exchange and the dissemination of information about how their policies and actions safeguard the sustainability of tourism”.

This Communication was welcomed by the Competitiveness Council conclusions (22nd-23rd November 2007) and by the Presidency Conclusions of the Brussels European Council of 14th December 2007.

The main aims for the reporting process are:

- to be able to monitor the level of implementation of the “Agenda for a sustainable and competitive European tourism” by Member States;
- to facilitate the exchange of experiences among member States with regard to how they tackle issues which are important for the competitiveness and sustainability of European tourism.

MS reports referring to year n shall be sent to the European Commission by the end of February of year $n+1$.

If the reports are sent in English, the deadline is shifted to the end of April.

2. ORGANISATIONAL STRUCTURE

This section should provide an overview of the main organisational structure to illustrate how tourism is organised and managed, to identify linkages and to identify the engagement of other organisations/stakeholders.

The information required will only need to be prepared fully in year 1 as it will subsequently only be necessary to provide details of any changes.

2.1 Please identify the National Bodies responsible for tourism (Ministry and also any separate/related National Tourism Organisation), including key areas of responsibility, and their relationship to other national bodies. (maximum of 1.000 characters)

Responsibility for tourism in Slovakia rests with the Ministry of Economy of the Slovak Republic. The Tourism Section of the Ministry consists of one department and one unit – Department of tourism policy and regional development and Unit of foreign relations in tourism.

Ministry of Economy of the Slovak Republic (Central body of state administration)

¹ Official Journal L 384, 31/12/1986 P. 0052 – 0053.

SLOVAK REPUBLIC TOURISM REPORT 2008

Tourism Section:

- Determines the state policy of tourism
- Develops strategies and concepts of tourism
- Drafts legislative regulations in tourism
- Analyses and evaluates the conditions of tourism
- Collects statistical data on tourism in Slovakia
- Provides small and medium sized enterprises in tourism with an appropriate support
- Realizes tasks connected with preparation of territorial plans and documents of tourism projects
- Represents interests of the Slovak Republic in international tourism organizations and associations
- Carries out international and cross-border cooperation in the field of tourism
- Is responsible for preparation, realization and fulfillment of international bilateral and multilateral agreements in tourism, development of bilateral contacts and relations between the countries
- Collaborates with other departments in preparation of documents related to drawing EU Structural Funds
- Cooperates with other ministries, tourist associations, tourist regional organizations, etc.

2.2 Please, describe what organisations/agencies are used to deliver services at the national and regional level and the services that they deliver. (maximum 800 characters)

The promotion of Slovakia as a tourist destination as well as the corresponding marketing activities is the core responsibility of the Slovak Tourist Board (STB). STB was set up by the Ministry of Economy in 1995 as a non-commercial, state-funded organization specialized on marketing and the state promotion of the tourism industry of Slovakia. The STB currently has nine representations abroad – in the Czech Republic, the Netherlands, Germany, Poland, Austria, Russian Federation, Hungary, China and Great Britain.

Slovak Tourist Board:

- Carries out the national marketing of the tourist industry
- Provides information on tourism in Slovakia
- Promotes Slovakia as a tourist destination
- Contributes to the positive image of Slovakia abroad
- Serves as the Mediation Organ for activities related to the implementation of the EU Structural Funds in the tourist industry.

2.3 Please, describe which other bodies and organisations are involved at the national level and the process for involving them. (maximum 800 characters)

Tourism Board of the Ministry of Economy of the Slovak Republic

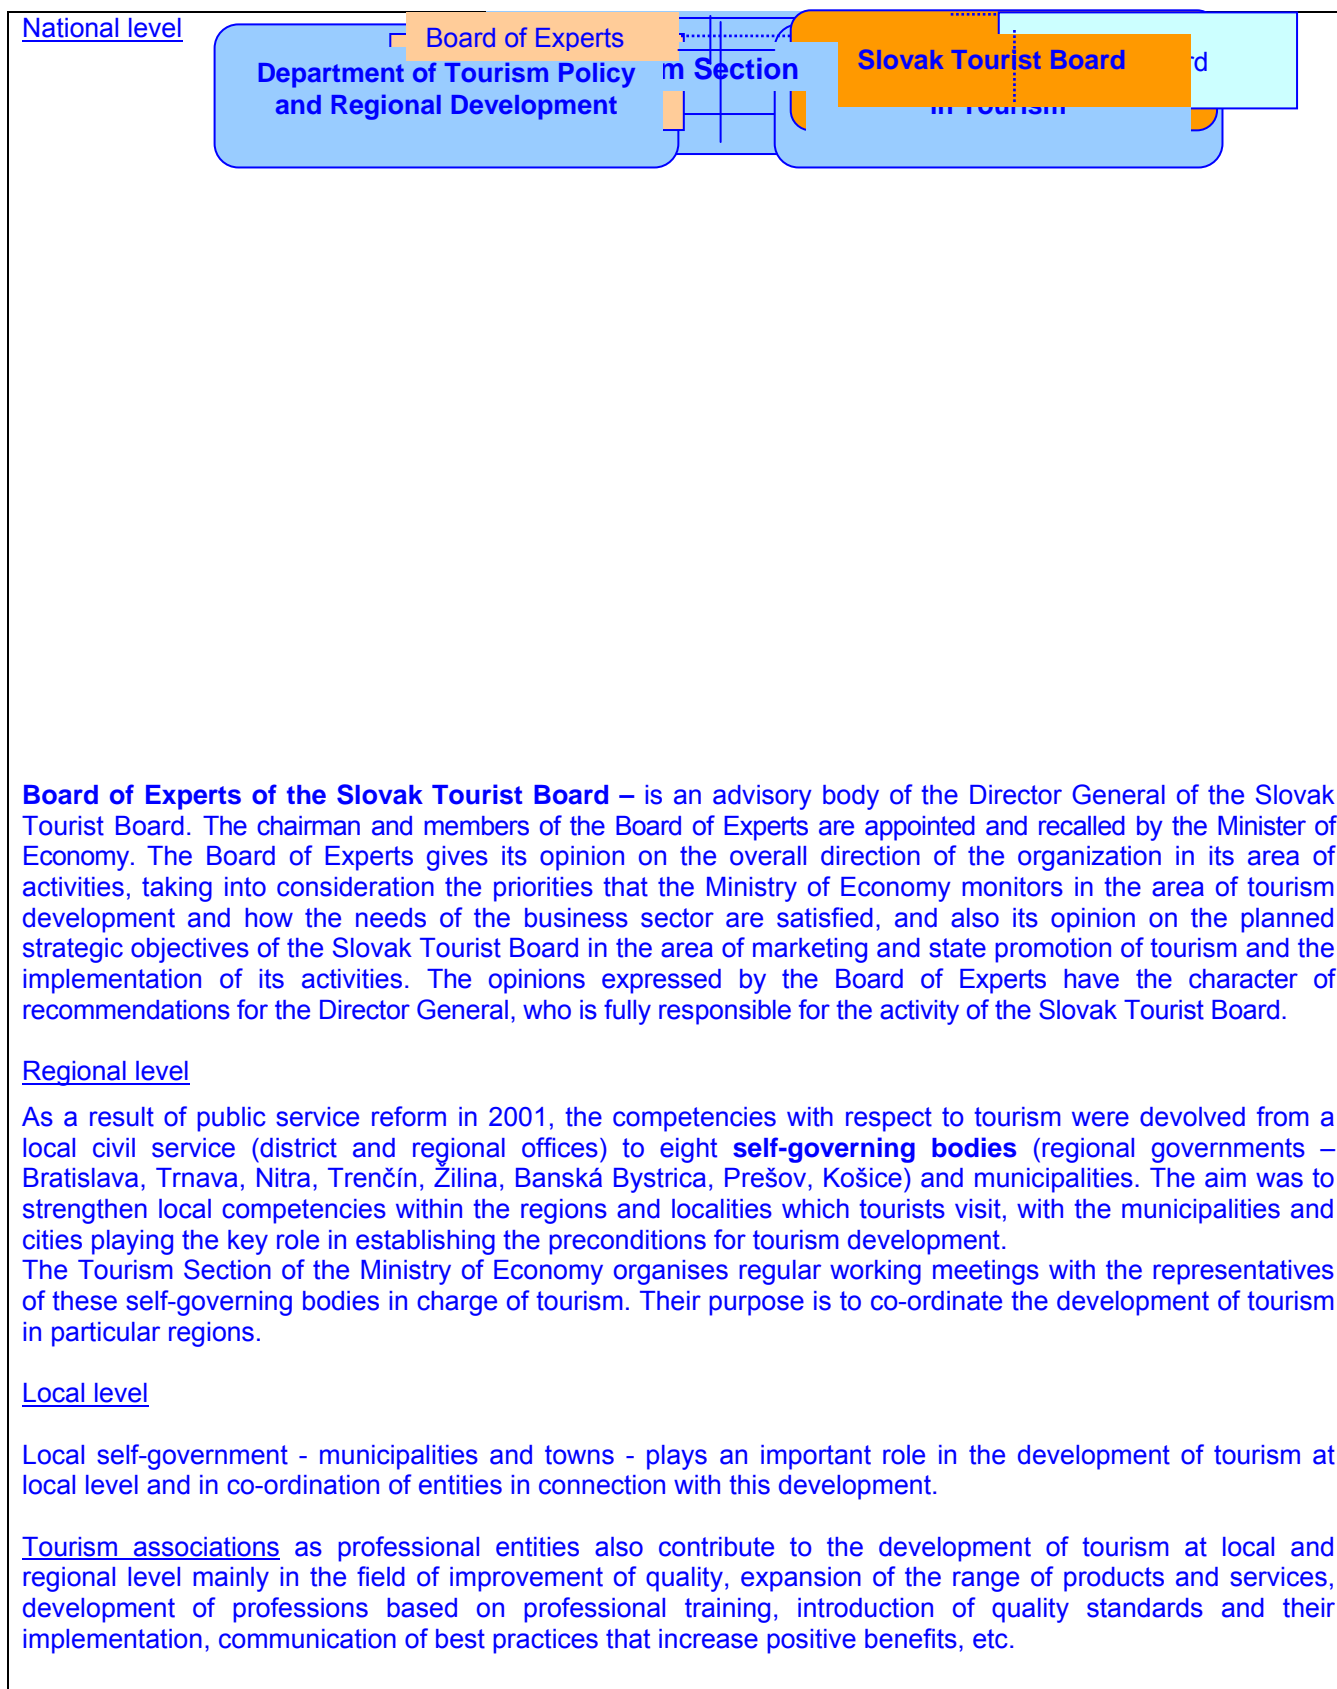

The Board is an inter-departmental coordination body to deal with the issues that are not in the sole competence of the Ministry of Economy and fall under the competence of other ministries, for instance, transportation infrastructure, spa resorts, visa policy, professional education system, preserved monuments, protective measures adopted in preserved areas, etc. It serves as an advisory body of the Minister of Economy focused on the coordination of activities of state administration in the field of tourism with the aim to increase the competitiveness of tourism in Slovakia.

Composition of the Board: Ministry of Economy, Ministry of Transport, Posts and Telecommunications, Ministry of Finance, Ministry of Environment, Ministry of Culture, Ministry of Agriculture, Ministry of Interior, Ministry of Health, Ministry of Labour, Social Affairs and Family, Ministry of Foreign Affairs, Ministry of Education, Ministry of Construction and Regional Development

2.4 Please provide a diagram/organogram of the organisational structure for tourism identifying the relationship between national, regional and local bodies. Provide also a short description of the core responsibilities and competencies of each of the organisations. Include also information regarding the direct and indirect links between other departments, stakeholder organisations and unions. Information about mechanisms of decision

SLOVAK REPUBLIC TOURISM REPORT 2008

making process participation from outsider organisations, e.g. forums, advisory committees is also requested.
(maximum of 2.000 characters)

SLOVAK REPUBLIC TOURISM REPORT 2008

2.5 Please provide information about financial data, including spend on tourism as a percentage of overall government spend, the level of national funding support for tourism marketing, the amount of EU funding support made available for tourism and data concerning the support to SMEs and Destinations. (500 characters)

Slovakia has the opportunity to use EU funds throughout duration of National Strategic Reference Framework in years 2008-2013. The Managing Authority, which is the Ministry of Economy of the Slovak Republic, is responsible for the efficiency, propriety of management, provision and use of aid in accordance with EU regulations, institutional, legal and financial systems and regulations of the Slovak Republic. Ministry of Economy is using the existing network of implementation agencies under its jurisdiction. For the purpose of tourism the implementation agency is the Slovak Tourist Board.

Within the Sectoral Operational Programme Industry and Services the European Commission approved approx. 63 million EUR for the period 2004-2007 for the tourism development and the promotion of Slovak tourism. Support from Structural Funds was centred on the improvement of infrastructure for tourism and renovation of cultural and historical monuments, establishing educational trails and bicycle lanes including. Moreover, funds were also available for the support of business activities in tourism, which are used for building-up of accommodation and catering establishments, swimming-pools etc.

During the programming period 2008-2013 Slovakia can use European funds in the total amount of 172,6 million EUR for the support of business activities in tourism, development of information tourism services, presentation of regions and Slovakia within the Operational Programme Competitiveness and Economical Growth.

Sectoral Operational Programme Industry & Services

Priority: Development of Tourism

Measures:

- Support for construction and refurbishment of tourism infrastructure
- Support for entrepreneurial activities in the field of tourism
- Support for tourism promotion and creation of information system

Total amount: 63 million EUR for 2004-2007

Operational Programme Competitiveness and Economical

Growth

Priority: Tourism

Measures:

- Support for business activities in tourism
- Development of information tourism services, presentation of regions and of Slovakia

Total amount: 172,6 million EUR for 2008-2013

3. POLICIES AND STRATEGIES

3.1 Is there a current National Strategy for tourism? Yes No

If yes, please, provide information in bullet point format about the key aims, objectives and priorities of the strategy highlighting those that are designed to address sustainability issues in economic, environmental and social terms in particular those related in the six aims included in the Agenda. In preparing the tourism strategy, explain how consideration has been given to the 9 principles set out in the Agenda (para2.3 p5) and given in the appendix. (maximum 1.000 characters)

New Tourism Development Strategy of the Slovak Republic until 2013

The intention of the New Tourism Development Strategy of the Slovak Republic is to react appropriately to globalization trends by making use of the competition elements and for purpose of providing for sustainable development of tourism in the economic, social and environmental area.

Strategic goal:

The increase of the competitive strength of tourism by better using its potential with the aim of alleviating regional disparities and creating new jobs.

Specific objectives of tourism development:

1. Strengthening the position of tourism as an industry in the national economy
2. Increasing the attractiveness of Slovakia as a holiday destination
3. Bolstering the volume of overnight stays by tourists
4. Improving the structure of foreign visitors coming to Slovakia by raising the quality of the provided services
5. Supporting the creation of new jobs, especially in regions with a significant potential for tourism

Leading forms of tourism:

- Summer Tourism and Stays by Water
- Spa and Health Tourism
- Winter Tourism and Winter Sports
- Urban and Cultural Tourism
- Rural Areas Tourism and Agritourism

3.2 Who was the initiator and who is responsible for its implementation? (maximum 200 characters)

Initiator - The Strategy was drawn up by the Ministry of Economy of the Slovak Republic on the basis of objectives set out in the Manifesto of the Government of the Slovak Republic 2006 – 2010.

Responsibility for implementation has the Ministry of Economy of the Slovak Republic and other ministries, institutions, self-governing regions depending on the character of a task.

3.3 How is the strategy monitored and how often? (maximum 500 characters)

The Government of the Slovak Republic obliged the Economy Minister to submit a report on fulfillment of strategic goals resulting from the Strategy to the Government annually as per June 30.

3.4 What tourism specific legislation exists? (maximum 500 characters)

National tourism legislation is harmonized with EU legislation, and the main laws in force are:

- Act on package tours and conditions of doing business by travel offices and travel agencies ([No. 281/2001 Coll.](#) as amended by the Act No.186/2006 Coll.)
- Decree of the Ministry of Economy of the Slovak Republic regulating the categorization of accommodation

facilities and their grading classification (No. [277/2008 Coll.](#))

Other important legislation:

- Act No. [561/2007 Coll.](#) on Investment Aid - this act allows for provision of regional investment and employment aid for investment or expansion projects of industrial production, technology centres, strategic service centres, and complex tourism centres. Complex tourism center constitutes a center where at least three different services are offered (example: accommodation, catering and aquapark)
- Act No. 460/1992 Coll. – the Constitution of the Slovak Republic, as amended
- Act No. 513/1991 Coll. – the Commercial Code, as amended
- Act No. 455/1991 Coll. on Licensed Trade (the Trades Act), as amended
- Act No. 369/1990 Coll. on Municipal Establishment, as amended
- Act No. 302/2001 Coll. on Self-government of Higher Territorial Units, as amended
- Legal regulation related to taxes and fees and the environmental protection

4. MEASURES AND INITIATIVES

This section provides Member States with an opportunity to outline specific initiatives and policies that are or are going to be adopted to manage and develop tourism activity in ways which respond to the key challenges of the Agenda and which fall within the six main aims of the Agenda itself.

1 Economic prosperity

- a. To ensure the long term competitiveness, viability and prosperity of tourism enterprises and destinations.
- b. To provide quality employment opportunities, offering fair pay and conditions for all employees and avoiding all forms of discrimination.

2 Social equity and cohesion

- a. To enhance the quality of life of local communities through tourism, and engage them in its planning and management
- b. To provide a safe, satisfying and fulfilling experience for visitors, available to all without discrimination by gender, race, religion, disability or in other ways.

3 Environmental and cultural protection

- a. To minimise pollution and degradation of the global and local environment and the use of scarce resources by tourism activities.
- b. To maintain and strengthen cultural richness and biodiversity and contribute to their appreciation and conservation.

4.1 Please set out, briefly, the steps which have been or will be taken, if any, to address the 7 key challenges for the delivery of sustainable and competitive tourism, covered in the TSG report and referred to in the 'Agenda'.

4.1.1 Reducing the seasonality of demand. (maximum 200 characters)

New act on investment aid, which entered into force on January 1, 2008, allows for provision of regional investment and employment aid for investment or expansion projects of industrial production, technology centres, strategic service centres, and complex tourism centres. Complex tourism centre constitutes a centre where at least three different services are offered (example: accommodation, catering and aquapark). The EU Structural Funds offer another possibility to build up such tourism centres in Slovakia. These tourism facilities or complementary tourism services help cope with the seasonality of demand, e.g. by extending tourism

SLOVAK REPUBLIC TOURISM REPORT 2008

season.

The Ministry of Economy of the Slovak Republic approved the [Draft Domestic Tourism Support Programme](#) on 18 December 2008. The aims of the programme are the following:

- to increase the awareness of Slovakia's citizens of holiday spending in their home country
- to increase the participation of domestic people in tourism activities
- to enhance the occupancy rate in Slovak accommodation facilities, mainly out of season
- to improve and extend regional tourism products and use them in domestic tourism offer
- to make tourism more accessible, especially to socially weaker groups of population
- to increase the quality of services rendered.

4.1.2 Addressing the impact of tourism transport. (maximum 200 characters)

The development of transport infrastructure belongs to the priorities of the Slovak Government. From the point of view of the development of railway infrastructure, which plays an important role as an alternative to the road infrastructure, mainly with respect to a need to decrease negative impacts of transport on the environment, the Programme of modernization and development of railway infrastructure 2007 – 2010 has been drawn up. The development of railway infrastructure is particularly focused on the modernization of international corridors. 58 km of tracks have been modernized until the end of 2007, 21 km have been electrified, and the next 30 km will be modernized until the end of 2008. The EU Structural Funds play an important role in the development of transport infrastructure in Slovakia.

4.1.3 Improving the quality of tourism jobs. (maximum 200 characters)

One of the basic principles of the State Tourism Policy of the Slovak Republic adopted by the Slovak Government in 2007 is the following: "Tourism is a tool of developing employment and flexibility of labour markets". The Ministry of Education is currently working on a bill on professional education. The aim of the bill is to create a system of coordination of professional education for the labour market, and to create appropriate conditions for an entry of employers and their unions to the professional education.

The Ministry of Education also included new members from the field of tourism in a technical commission with the purpose of participating in the creation and innovation of curricula related to tourism.

4.1.4 Maintaining and enhancing community prosperity and the quality of life, in the face of change. (maximum 200 characters)

Maintaining and enhancing community prosperity and the quality of life was positively influenced by favourable economic growth of the Slovak economy accompanied by growth in personal disposable income of the Slovak population in the years past which result, from the tourism point of view, in the development of outbound tourism.

4.1.5 Minimising resource use and the production of waste. (maximum 200 characters)

Planned investment construction of tourism facilities is according to the Act No. 24/2006 Coll. assessed from the environmental impact point of view by system EIA (Environmental Impact Assessment) in harmony with EU legislation.

4.1.6 Conserving and giving value to natural and cultural heritage. (maximum 200 characters)

The Ministry of Culture in cooperation with municipalities, towns and self-governing regions initiated the elaboration of operative plans especially for localities, where the objects and localities of cultural heritage are preferred, and the tourism development is a significant part of these localities, including promotion of important cultural points and localities. The localities of cultural heritage got their priority also in a grant programme of the Ministry of Culture. An amount of more than 118 mn SKK was used in 2007 for this purpose.

SLOVAK REPUBLIC TOURISM REPORT 2008

The Government of the Slovak Republic in its Manifesto for 2006 – 2010 pledged to support acceleration of works relating to the new zoning of protected areas in order to keep the purpose of environmental protection but at the same time to enable commercial activities focused on the development of tourism and to preserve natural and cultural values of the protected areas for the next generations.

The State Nature Protection is developing a project of six programmes for the completion of zoning of natural parks in Slovakia as well as for determination of principles of further utilization of protected areas.

Additionally, the State Nature Protection has built up or renovated 13 information centers of nature protection so far with the aim of improving information system in protected areas and coordinating people visiting these areas so that they do not influence negatively natural values of the areas. In the next period the State Nature Protection plans to restore 5 information centers and build up other 22 centers.

The Ministry of Environment submitted in April 2008 a draft on reevaluation of the NATURA 2000 system of protected areas and areas of European importance for the Government's approval. With this respect the Ministry of Economy in close cooperation with self-governing regions identified collisions between the tourism development interests and interests of NATURA 2000 system protection.

4.1.7 Making holidays available to all. (maximum 200 characters)

Favourable economic growth of the Slovak economy accompanied by decline in unemployment and growth in personal disposable income of the Slovak population in the years past enabled domestic population to increase its participation in tourism activities. At the same time, the development of tourism infrastructure (cycle ways, wellness facilities, etc.) created good conditions for the development of short-term tourist stays. (weekends, etc.).

An intention of the Ministry of Economy is to draw up a study regarding social tourism that means participation of socially poorer groups of population in tourism with special orientation on physically handicapped citizens. The aim is to create economic tools as well as suitable technical conditions in tourism facilities and destinations.

The Ministry of Economy of the Slovak Republic intends to introduce a system of recreation vouchers in Slovakia as an important tool of supporting domestic tourism in accordance with the New Tourism Development Strategy and the State Tourism Policy of the Slovak Republic adopted by the Slovak Government in 2007. The aim of this measure is to stimulate domestic tourism demand, to make tourism more accessible to domestic population, to increase the participation of domestic people in tourism activities and to enhance the occupancy rate in Slovak accommodation facilities.

4.2 As key challenges may change over time, please identify any other areas that are becoming a new challenge. (maximum 600 characters)

One of the main new challenges for Slovak tourism is the euro adoption on January 1, 2009. It is expected that the introduction of the euro in Slovakia should have a positive impact on the tourism sector and bring the development of inbound tourism, mainly from the euro area. For the Slovak entrepreneurs in the field of tourism, the Slovakia's entry to the euro zone can constitute increased competition on the international market. Moreover, the development of outbound tourism can be strengthened by the euro adoption.

4.3 Please identify and describe a specific initiative, which is related to the 7 key challenges, that is innovative/successful and which would be of interest to or of help to other Member States. (maximum 2.000 characters)

5. MECHANISMS FOR IMPLEMENTATION

Three mechanisms for implementing the Agenda were identified in the “Agenda”: sustainable destinations, sustainable businesses and responsible tourists.

5.1 Sustainable destinations: What support is given to strengthen destination management at the regional/ destination level (supportive policy environment, knowledge networks, training programmes, establishment of measures/indicators for benchmarking, etc.)? (maximum 600 characters)

The New Tourism Development Strategy in Slovakia until 2013 contains a task to create conditions for regular system support of so-called regardful forms of tourism which have no adverse effects on nature and land – establishing of trekking cycle tracks (local, regional and international) and basic cycling infrastructure, support development of rural areas tourism, eco-tourism, mountain sports, agro-tourism, support of watermanship and sailing sports at waters, support of horseback riding, golf tourism, to increase the comfort of camping sites and grounds, renew marked network of tourist paths, creation of resting places and sheds, etc.

Also the State Tourism Policy of the Slovak Republic supports such forms of tourism that are considerate to the environment (rural tourism, agro-tourism, staying out in the open, riverside holidays, cycling on reinforced and marked routes, horse riding, golf, environmental tourism, etc.).

The Ministry of Economy initiated the preparation of a system integrated project “Regional development tourism centers” which is focused on building capacities of organizational structures in regions for tourism management. The aim of the project is improving destination management, creating regional products, establishing expert team within each self-governing region, improving management and coordination of tourism on regional level, and connecting private and public sector in a more effective.

5.2 Sustainable businesses: What support is given to strengthen the sustainability and competitiveness of businesses (supportive policy environment, orientation of business support services to sustainability, training, financial incentives, etc.)? (maximum 600 characters)

During the programming period 2008 - 2013 Slovakia can use European funds for the support of business activities in tourism within the Operational Programme Competitiveness and Economical Growth – Priority Axis - Tourism. The Tourism priority axis, with the objective of “Growth of Tourism Industry Competitiveness and Performance”, is focused on the use of the existing potential for the development of sustainable tourism with the aim to ensure innovation, sustainability, and to support employment in the regions. The purpose of the measure “Support of business activities in tourism” is the tourism competitiveness growth in the field of services provided. The criterion of the tourism sustainability is included in the criteria for evaluation of projects submitted within the EU Structural Funds Programmes.

5.3 Responsible tourists: What support is given to promote responsible choices by tourists (e.g. sustainability in education, national marketing and media campaigns, promotion of certification schemes)? (maximum 600 characters)

The Ministry of Economy of the Slovak Republic translated into Slovak language and published on its official website the UNWTO Global Code of Ethics for Tourism which sets a frame of reference for the responsible and sustainable development of world tourism. The Code helps minimize the negative impacts of tourism on the environment and on cultural heritage while maximizing the benefits for residents of tourism destinations.

6. DATA AND INDICATORS

Eurostat will provide, as an annex, the key statistical data required to support the reporting process covering around 20 indicators². These are mainly related to the aim of 'economic prosperity'.

Please, identify indicators that are being used or developed which could add to the range of information being provided by Eurostat, particularly in relation to social and environmental issues (other indicators from the TSG report, visitors/ residents satisfaction, etc.). (maximum 500 characters)

7. COMPLEMENTARY ADDITIONAL INFORMATION

If necessary use the following box to provide additional complementary information that has not already been covered.

² These indicators have been selected from the 50 TSG indicators on the basis of the possibility to calculate them at the European level.
