## Forord

Det statistiske Kontor har i denne bulletin indsamlet de vigtigste oplysninger vedr. den kortfristede økonomiske udvikling inden for De europæiske Fællesskaber. Oplysningerne, som stammer fra nationale kilder, er i visse tilfælde blevet korrigeret for at opnå en bedre sammenlignelighed.

Opmaerksomheden henledes på at, tallene vedrørende kapitlerne 5 (udenrigshandel), 7 (finanser) og 8 (betalingsbalancen) var indtil denne bulletins nr. 2-1977 udtrykt i »Eur«, en til statistiske formål anvendt regningsenhed. Fremover bliver disse tal angivet i den europæiske regningsenhed (ERE). Oplysninger om beregningsmetoden for ERE og sammenhængen mellem denne og den tidligere regningsenhed Eur er givet i bemærkningerne til tabel 753 i denne bulletin.

## Hinweis

Das Statistische Amt veröffentlicht in diesem Bulletin die wichtigsten Angaben über die kurzfristige Wirtschaftsentwicklung der Europäischen Gemeinschaft. Die von den zuständigen nationalen Stellen stammenden Angaben sind in bestimmten Fällen zwecks besserer Vergleichbarkeit angepaßt worden.

Es ist besonders darauf hinzuweisen, daß die Angaben der Kapitel 5 (Außenhandel), 7 (Finanzwesen) und 8 (Zahlungsbilanz), die bis Nummer 2-1977 dieses Bulletins in der für statistische Zwecke benutzten Rechnungseinheit „Eur“ ausgedrückt waren, nunmehr in der Europäischen Rechnungseinheit (ERE) nachgewiesen werden. Informationen über die Methode zur Berechnung des Werts der ERE und die Verbindung zu der bisherigen Rechnungseinheit Eur sind in den Erläuterungen zu Tabelle 753 dieses Bulletin zu finden.

## Note

This bulletin contains statistics on the short-term economic trend in the European Community. The statistics were supplied by national sources and in some cases have been adjusted so as to improve comparability.

Particular attention should be paid to the fact that data in chapters 5 (external trade), 7 (finance) and 8 (balance of payments), expressed until no. 2-1977 in the statistical unit of account "Eur", are now shown in terms of the European unit of account (EUA). Information on the method of calculating the value of the EUA and on its relationship to the former unit of account Eur are to be found in the explanatory note to table 753 of this bulletin.

## Avertissement

L'Office statistique a rassemblé dans ce bulletin les principales données sur l'évolution économique à court terme de la Communauté européenne. Les données qui parviennent des sources nationales ont dans quelques cas subi des ajustements destinés à améliorer leur comparabilité.

Il convient de signaler que les données des chapitres 5 (commerce extérieur), 7 (finances) et 8 (balance des paiements), exprimées en unité de compte statistique «Eur» jusqu'au numéro 2-1977 de ce bulletin, sont maintenant fournies en unité de compte européenne (UCE). Pour toute information relative à la méthode de calcul de la valeur de l'UCE ainsi qu'aux liens entre celle-ci et l'ancienne unité de compte Eur, le lecteur est prié de se référer à la note explicative du tableau 753 du présent bulletin.

## Avvertenza

L'Istituto statistico ha raccolto in questo bollettino i principali dati sull'evoluzione economica a breve termine della Comunità europea. I dati provenienti da varie fonti nazionali sono stati, in qualche caso, modificati per permetterne una migliore comparabilità.

È opportuno segnalare che i dati presentati nei capitoli 5 (commercio estero), 7 (finanze) e 8 (bilancio dei pagamenti) espressi fino al numero 2-1977 del presente bollettino in Eur vengono d'ora in poi espressi secondo l'unità di conto europea (UCE). Per informazione relative al metodo di calcolo dell'UCE nonché alla relazione tra questa e la vecchia unità di conto Eur si rimanda il lettore alla nota esplicativa della tavola 753 del presente volume.

## Voorbericht

Het Bureau voor de Statistiek heeft in dit bulletin de voornaamste gegevens verzameld over de economische ontwikkeling op korte termijn van de Europese Gemeenschap. De uit nationale bronnen stammende gegevens zijn in enkele gevallen bewerkt teneinde hun vergelijkbaarheid te verbeteren.

Er wordt met nadruk op gewezen, dat de gegevens van de hoofdstukken 5 (Buitenlandse handel), 7 (Financiewezen) en 8 (Betalingsbalans), welke tot en met nr. 2-1977 van dit bulletin in de voor statistische doeleinden gebruikte rekeneenheid „Eur“ waren uitgedrukt voortaan in de Europese rekeneenheid (ERE) worden vermeld. Inlichtingen over de berekeningsmethode van de waarde van de ERE en de relatie tot de eerder gebruikte rekeneenheid Eur zijn in de toelichting op tabel 753 van dit bulletin te vinden.

EXPLANATORY NOTE TO TABLE 753:  
RATES OF CONVERSION INTO EUA

Until no. 2-77 of this bulletin the unit of account used for statistical purposes was the Eur, which was derived from the unit of account still used by the Member states in the framework of operations of the European Monetary Cooperation Fund (EMCF).

In December 1974, in a communication to the Council, the Commission presented a new type of unit, the European unit of account (EUA), intended to replace progressively the different units of account used in the Community.

The EUA is now being applied for the operations of the European Investment Bank (EIB)(1), of the European Development Fund (EDF)(2) and of the operational budget of the European Coal and Steel Community (ECSC)(3). Its application in 1978 is foreseen for the administration of the accounts of the European Communities' budget and to adapt amounts expressed in the unit of account based on gold parities and in national currency in certain documents of the Communities(4).

From no. 3-77 of this bulletin, all data expressed in a unit of common value are given in terms of the European unit of account (EUA).

The EUA is a "basket" unit, based on a certain quantity of each community currency, weighted on the basis of the average gross national product (GNP) over 5 years (1969-1973) and of the intra-community trade of each Member state. This weighting also takes account, for each currency, of the share of the country concerned in the short-term monetary support between the central banks of the Community.

The quantity of each community currency, which is fixed and defines the EUA, was determined so that on 28 June 1974

$$1 \text{ EUA} = 1 \text{ SDR} = 1,20635 \text{ US dollar.}$$

At that date, the weight and corresponding quantity of each currency in the basket were the following:

| Weight (%) |     | Quantity |
|------------|-----|----------|
| 27.3       | DM  | 0.828    |
| 19.5       | FF  | 1.15     |
| 14.0       | LIT | 109.0    |
| 9.0        | HFL | 0.286    |
| 7.9        | BFR | 3.66     |
| 0.3        | LFR | 0.14     |
| 17.5       | UKL | 0.0885   |
| 1.5        | IRL | 0.00759  |
| 3.0        | DKR | 0.217    |
| 100.0      |     |          |

The value of the EUA in any particular currency is equal to the sum of the counter-values in this currency of the quantities given above.

This value is calculated daily by taking for each currency the rates of the different community currencies on the foreign exchange market corresponding to the currency (the rate of a currency on its own market is taken as equal to 1).

The rate of the EUA in US dollars and in yen corresponds to the cross-rate between the quotation of each of these currencies on the Brussels market and the rate of the EUA in BFR; the rate of the EUA in SDR corresponds to the cross-rate between the rate of the EUA in US dollars and that of the SDR in US dollars calculated by the International Monetary Fund.

The daily value of the EUA is published in the Official Journal of the European Communities (Information and Notices).

The objective of the table is to provide for the EUA for each period—monthly, quarterly and annual(5):

- the end-of-period value;
- the period-average value.

The value is expressed in each community currency, in US dollars, in yen, in SDR and, until end-1976, in Eur(6).

In addition, the table provides the percentage change in the average value of each currency expressed in EUA with respect to its average value in 1970.

It should be indicated that the retrospective series were calculated as follows:

- the monthly average rates were obtained
  - until December 1970, from the official parities and not from market rates, the resulting margin of difference being, by definition, less than 1%
  - from January 1971 until June 1974, from the monthly averages of rates quoted on the Frankfurt foreign exchange market
  - from July 1974 (the month of introduction of the EUA), from the daily exchange rates quoted on the different community markets(7).
- the quarterly and annual average rates represent
  - until 4th quarter 1974 and the year of 1974, the simple arithmetic average of the monthly averages
  - from 1st quarter 1975, the arithmetic average of the monthly averages weighted by the number of working days.
- the end-of-period rates were determined
  - until end-December 1970, from the official parities
  - from end-January 1971 until end-June 1974—28 June 1974 being the date on which the EUA was linked to the SDR—from the US dollar quotations on the different foreign exchange markets of the Community, the US dollar value of the EUA consequently being converted into the currency of each member country
  - from end-July 1974, from the end-month exchange rates quoted on the different community markets.

(2) Official Journal no. L 104 of 24-4-75.

(3) Official Journal no. L 327 of 19-12-75.

(4) Proposed regulation presented by the Commission to the Council—Official Journal no. C 271 of 17-11-76.

(5) Rates relating to periods not covered in this bulletin can be obtained on request from the EUROSTAT.

(6) The conversion rate between EUA and Eur is not constant because of the different ways in which the units are defined. These differences mean that the rates of a given currency in terms of EUA and Eur vary independently. Therefore:

- on one hand, the cross-rate obtained from a given currency varies with time,
- on the other hand, for a given period, one obtains different cross-rates by taking successively each community currency.

In order to provide a single conversion rate between the EUA and the Eur for each period, the table gives the average value taking all community currencies. To convert more precisely from an amount expressed in Eur to EUA, and vice versa, it would be necessary to pass via the value in national currency.

NOTE EXPLICATIVE DU TABLEAU 753:  
TAUX DE CONVERSION EN UCE

Jusqu'au n° 2-1977 du présent bulletin, l'unité de compte utilisée dans le domaine statistique était l'Eur, unité dérivée de celle qui est encore retenue par les États membres dans le cadre des opérations du Fonds Européen de Coopération Monétaire (FECOM).

En décembre 1974, dans une communication au Conseil, la Commission a présenté un nouveau type d'unité, l'unité de compte européenne (UCE) destinée à remplacer progressivement les diverses unités de compte utilisées dans la Communauté.

L'UCE est maintenant appliquée pour les opérations de la Banque Européenne d'Investissement (1), celles du Fonds Européen de Développement (FED)(2) et celles du budget opérationnel de la Communauté Européenne du Charbon et de l'Acier (CECA)(3). Elle sera appliquée en 1978 pour gérer les recettes et dépenses du budget des Communautés Européennes et pour adapter les montants exprimés en unité de compte or (UC) et en monnaie nationale dans certains actes des Communautés(4).

A compter de n° 3-1977 de ce bulletin, toutes les données exprimées en unité de valeur commune sont présentées en terme d'unité de compte européenne (UCE).

L'UCE est une unité de type « panier », basée sur une certaine quantité de chacune des monnaies communautaires, selon une pondération qui fait intervenir la moyenne sur 5 ans (1969-1973) du produit national brut et du commerce intra-communautaire de chaque État membre. Cette pondération tient également compte, pour chaque monnaie, de la part du pays concerné dans le soutien monétaire à court terme entre banques centrales de la Communauté.

La quantité de chacune des monnaies communautaires, qui reste fixe et qui définit l'UCE, a été déterminée de façon à assurer à la date du 28 juin 1974 l'égalité :

$$1 \text{ UCE} = 1 \text{ DTS} = 1,20635 \text{ dollar US.}$$

A cette date, le poids de chaque monnaie dans le panier et la quantité correspondante de chacune d'elles étaient les suivants :

| Poids (%) |     | Quantité |
|-----------|-----|----------|
| 27,3      | DM  | 0,828    |
| 19,5      | FF  | 1,15     |
| 14,0      | LIT | 109,0    |
| 9,0       | HFL | 0,286    |
| 7,9       | BFR | 3,66     |
| 0,3       | LFR | 0,14     |
| 17,5      | UKL | 0,0885   |
| 1,5       | IRL | 0,00759  |
| 3,0       | DKR | 0,217    |
| 100,0     |     |          |

La valeur de l'UCE en une monnaie quelconque est égale à la somme des contre-valeurs en cette monnaie des quantités reprises ci-dessus.

Cette valeur est calculée quotidiennement en prenant pour chaque monnaie le cours des différentes monnaies communautaires sur le marché de change correspondant à cette monnaie (le cours de cette monnaie sur son propre marché étant pris égal à 1).

Le taux de l'UCE en dollar US et en yen correspond au taux croisé entre les cotations de ces deux monnaies sur le marché de Bruxelles et le taux de l'UCE en BFR; celui de l'UCE en DTS correspond au taux croisé entre le taux de l'UCE en dollar et celui du DTS en dollar US calculé par le Fonds Monétaire International.

La valeur quotidienne de l'UCE est publiée au Journal Officiel des Communautés Européennes (partie Communications et Informations).

L'objectif du tableau est de fournir pour chaque période — mensuelle, trimestrielle, ou annuelle(5):

- la valeur de l'UCE en fin de période
  - sa valeur moyenne pendant la période considérée.
- Cette valeur est exprimée dans chacune des devises communautaires, en dollar US, en yen, en DTS et jusqu'à fin 1976, en Eur(6).

En outre, le tableau fournit, sous forme d'un % de variation par rapport à la moyenne de 1970, l'évolution de la valeur moyenne de chaque monnaie considérée exprimée en termes d'UCE.

Il convient de signaler que les séries rétrospectives présentent les particularités suivantes d'élaboration :

- Les taux moyens mensuels ont été obtenus
  - jusqu'à décembre 1970, à partir des parités officielles et non à partir du cours du marché, la marge de différence ainsi introduite étant, par définition, inférieure à 1%
  - de janvier 1971 à juin 1974, à partir des taux moyens mensuels relevés sur le marché des changes de Francfort
  - depuis juillet 1974 — mois d'introduction de l'UCE — à partir des taux de change quotidiens de toutes les places de la Communauté(7).
- Les taux moyens trimestriels et annuels représentent
  - jusqu'au 4<sup>e</sup> trimestre 1974 et à l'année 1974, la moyenne arithmétique simple des taux moyens mensuels
  - depuis le 1<sup>er</sup> trimestre 1975, la moyenne arithmétique, pondérée par le nombre de jours ouvrables, des taux moyens mensuels.
- Les taux en fin de période ont été déterminés
  - jusqu'à fin décembre 1970, à partir des parités officielles
  - de fin janvier 1971 à fin juin 1974 — le 28 juin 1974 étant la date de raccordement de l'UCE au DTS — à partir des cotations du dollar sur les diverses places de change communautaires, la valeur en dollar de l'UCE étant convertie ensuite dans chacune des monnaies des pays membres
  - depuis fin juillet 1974, à partir des taux de change en fin de mois de toutes les places de la Communauté.

(1) Décision du Conseil des Gouverneurs de la Banque Européenne d'Investissement du 18.3.1975.

(2) Journal Officiel n° L 104 du 24.4.1975.

(3) Journal Officiel n° L 327 du 19.12.1975.

(4) Proposition de règlement présentée par la Commission au Conseil — Journal Officiel n° C 271 du 17.11.1976.

(5) Les taux relatifs aux périodes non reprises dans le présent bulletin peuvent être obtenus sur demande auprès de l'EUROSTAT.

(6) Le taux de conversion entre UCE et Eur n'est pas constant en raison des différences de définition de ces deux unités. Ces différences ont en effet pour conséquence que les deux éléments à considérer lors du calcul, à savoir les taux d'une monnaie déterminée en UCE et en Eur, évoluent de manière indépendante. De ce fait :

- d'une part, le taux croisé obtenu à partir d'une monnaie donnée varie dans le temps,
- d'autre part, pour une même période, on obtient des taux croisés différents en utilisant successivement chacune des monnaies communautaires.

Dans ces conditions, afin de fournir par période un seul taux de conversion de l'UCE en Eur, on a repris dans le tableau sa valeur moyenne pour l'ensemble des monnaies communautaires. Pour convertir avec plus de précision en Eur un montant exprimé en UCE et vice-versa, il serait nécessaire de repasser d'abord par la valeur en monnaie nationale.

| 10          | Excluding the payments for the purchase of non-monetary gold, but including payments for purchase of military equipment.   | 809  | A l'exclusion des paiements pour achat d'or non monétaire, mais y compris les paiements pour achat de matériel militaire.  | 10            |
| 11          | Excluding freight and insurance costs included in the cif value of imports.  | 811, 812.  | A l'exclusion des coûts de fret et d'assurance compris dans la valeur caf des importations.  | 11            |
| 12          | Including net figure for arbitrage dealings in merchandise.  | 811  | Y compris le solde des arbitrages sur marchandises.  | 12            |
| 13          | Including the costs of supplementary transactions connected with exports and imports.  | 811, 812   | Y compris les coûts des opérations complémentaires des exportations et des importations.   | 13            |
| 14          | For 1975 the amount of "errors and omissions" is included in item A.2 "Services".  | 811-813<br>875   | Pour l'année 1975, le montant des « Erreurs et omissions » est compris au poste A.2 « Services ».  | 14            |
| 15          | Including freight costs received by German transport companies from resident importers for the transport of merchandise imported on a fob contract.  | 814  | Y compris les frets que les compagnies de transport allemandes ont reçus de la part des importateurs résidents pour le transport des marchandises importées sous contrat fob.  | 15            |
| 16          | Insurance on transport is included only partly under item A.2.1 "Transport".   | 814-816  | Le montant des assurances-transport est compris seulement en partie à la rubrique A.2.1 « Transports ».  | 16            |
| 17          | Excluding that part of freight and insurance costs included in item A.1 "Merchandise".   | 814-816  | A l'exclusion de la partie des coûts de fret et d'assurance repris au poste A.1 « Marchandises ».  | 17            |
| 18          | The figures for item A.2.1 "Transport" refer to ocean shipping only; figures for ground and air transport are included partly in item A.1 "Merchandise".   | 814-816  | Les données figurant à la rubrique A.2.1 « Transports » se réfèrent aux frais du transport maritime; les frais du transport terrestre et aérien sont comptabilisés en partie au poste A.1 « Marchandises ».  | 18            |
| 19          | Excluding freight costs relating to merchandise imports; these costs are included in the cif value of the imports.   | 815  | A l'exclusion des coûts de fret relatifs aux importations de marchandises; ces coûts sont en effet englobés dans la valeur caf des importations.   | 19            |
| 20          | Except for the annual data of 1975 and 1976, excluding earnings of American subsidiaries abroad and foreign subsidiaries in the United States reinvested in the country in which they arise.   | 819-822<br>839, 849  | Sauf pour les totaux 1975 et 1976, non compris les revenus des succursales d'entreprises (américaines à l'étranger et étrangères aux États-Unis) réinvestis sur place.   | 20            |
| 21          | Including undistributed income.  | 819-822  | Y compris les revenus non distribués.  | 21            |
| 22          | The credit entries include subsidies to Danish agriculture from the European Agricultural Guidance and Guarantee Fund and the debit entries include Denmark's contributions to the European Communities. These figures are provisionally compiled on a payments basis. | 829, 830   | Y compris, en recettes, le montant des subventions du Fonds européen d'orientation et de garantie agricole et, en dépenses, celui de la contribution danoise au budget des Communautés européennes. Ces montants sont provisoirement calculés sur base des règlements ayant eu lieu. | 22            |
| 23          | These amounts refer to central government transfers only.  | 830, 831   | Ces montants ne recouvrent que les transferts du gouvernement central.   | 23            |
| 24          | Excluding contributions of the United States to the administrative expenses of international organizations.  | 830, 831   | A l'exclusion des contributions des États-Unis aux dépenses administratives des organismes internationaux.   | 24            |
| 25          | Sign —: net increase of assets (domestic capital) or net decrease of liabilities (foreign capital).  | 835, 856   | Signe —: augmentation nette des avoirs (capitaux nationaux) ou diminution nette des engagements (capitaux étrangers).  | 25            |

| No. of note | Footnote   | Tables<br>to which<br>note refers<br><br>Tableaux<br>auxquels se<br>réfère la note | Note   | N° de la note |
|-------------|--|--|--|---------------|
| 26          | For 1975, including some private capital movements, normally recorded in item D. "Capital of the non-monetary sectors".  | 835, 875   | Pour l'année 1975, y compris une partie des capitaux privés qui normalement devraient figurer au poste D. «Capitaux des secteurs non monétaires».  | 26            |
| 27          | It has not in all cases been possible to distinguish direct investments from other forms of long-term capital, as certain loans that might more properly be treated as direct investments cannot be separated from the total under item D.1.113 "Other assets" and D.2.113 "Other liabilities" (long-term - private sector).   | 839  | La mise en évidence des investissements directs par rapport aux autres capitaux privés à long terme est incomplète; en effet, certains prêts et emprunts, qu'il serait plus approprié de considérer comme investissements directs, ne peuvent pas être séparés des montants des rubriques D.1.113 «Autres avoirs» et D.2.113 «Autres engagements» (à long terme du secteur privé).   | 27            |
| 28          | Capital invested in oil is included under item D.1.113 "Other assets" (long-term - private sector).  | 839, 841   | Les capitaux investis dans la branche du pétrole sont repris à la rubrique D.1.113 «Autres avoirs» (à long terme du secteur privé).  | 28            |
| 29          | Including reinvestment of undistributed earnings.  | 839, 849   | Y compris les réinvestissements des bénéfices non distribués.  | 29            |
| 30          | Including short-term capital.  | 842  | Y compris les capitaux à court terme.  | 30            |
| 31          | Capital invested in oil and insurance is included under item D.2.113 "Other liabilities" (long-term - private sector).   | 849, 851   | Les capitaux investis dans les branches du pétrole et des assurances sont repris à la rubrique D.2.113 «Autres engagements» (à long terme du secteur privé).   | 31            |
| 32          | Purchases and sales of certain securities issued abroad by the German public sector are included under D.2.112 "Portfolio investments" and not under D.2.12 "Public sector: liabilities".  | 850, 852   | Les achats et ventes de certains titres émis à l'étranger par le secteur public allemand sont repris à la rubrique D.2.112 «Investissements de portefeuille» et non pas à la rubrique D.2.12 «Engagements du secteur public».  | 32            |
| 33          | Item D.2.21 "Short-term liabilities - Private sector" is included in item D.2.113 "Other long-term liabilities - Private sector".  | 851, 854   | Le montant de la rubrique D.2.21 «Engagement à court terme du secteur privé» est compris dans la rubrique D.2.113 «Autres engagements à long terme du secteur privé».  | 33            |
| 34          | Including short-term liabilities. However liquid liabilities of the American Treasury to official foreign institutions (central banks and governments) and to international monetary institutions other than the IMF (Bank for International Settlements and European Fund) are included in item E.2.22 and not in D.2.22; these liabilities are represented by American Treasury securities (essentially convertible Treasury bonds) and securities issued by American government agencies with Treasury backing. | 852, 855, 873  | Y compris les engagements à court terme. Toutefois, les engagements liquides du Trésor américain vis-à-vis d'institutions officielles étrangères (banques centrales et gouvernements) et vis-à-vis d'institutions monétaires internationales autres que le FMI (Banques des règlements internationaux et Fonds européen) ne sont pas repris à la rubrique D.2.22 mais bien à la rubrique E.2.22; ces engagements sont représentés par des titres du Trésor américain (essentiellement bons du Trésor convertibles) ainsi que par des titres émis par des organismes gouvernementaux américains avec la garantie du Trésor. | 34            |
| 35          | Including the exchange adjustments.  | 856  | Y compris les ajustements de change.   | 35            |
| 36          | Including under item E.1.1 the assets and under item E.2.1 the liabilities of the Bank of England other than Treasury bills and British government stocks.   | 858, 867   | Y compris à la rubrique E.1.1 les avoirs et à la rubrique E.2.1 les engagements de la Banque d'Angleterre autres que ceux constitués par des bons du Trésor et par des titres du gouvernement britannique.   | 36            |
| 37          | Item E.1.11 "Long-term assets" of commercial banks is included in item E.1.12 "Short-term assets" of commercial banks.   | 859, 860   | Le montant de la rubrique E.1.11 «Avoirs à long terme» des banques commerciales est compris dans la rubrique E.1.12 «Avoirs à court terme» des banques commerciales.   | 37            |
| 38          | Including capital accruing from refinancing of commercial claims on abroad other than through monetary institutions.   | 860  | Y compris les capitaux provenant du refinancement, en dehors des organismes monétaires, de créances commerciales sur l'étranger.   | 38            |
| 39          | Item E.1.25 "Other assets" of monetary institutions is included under item E.1.12 "Short-term assets" of commercial banks.   | 860, 866   | Le montant de la rubrique E.1.25 «Autres avoirs» des autorités monétaires est compris dans la rubrique E.1.12 «Avoirs à court terme» des banques commerciales.   | 39            |
| 40          | Including Bank of England liabilities in the form of current and deposit accounts.   | 867  | Y compris les engagements de la Banque d'Angleterre représentés par les montants déposés chez elle en compte courant et en compte de dépôt.  | 40            |
| 41          | Item E.2.11 "Long term liabilities" of commercial banks is included under item E.2.12 "Short-term liabilities" of commercial banks.  | 868, 869   | Le montant de la rubrique E.2.11 «Engagements à long terme» des banques commerciales est compris dans la rubrique E.2.12 «Engagements à court terme» des banques commerciales.   | 41            |
| 42          | Including non-identifiable trade credits.  | 875  | Y compris les crédits commerciaux non identifiables.   | 42            |
