COLLECTED ACTS

I

SECRETARIAT OF THE COUNCIL
OF THE EUROPEAN COMMUNITIES

Directions for use

1. Acts listed in the Compilation

The Compilation of Acts pertaining to the "Association between the European Economic Community and Greece" contains in addition to the text of the Association Agreement signed in Athens on 9.7.1961, all the acts adopted pursuant to this Agreement by the various Institutions of the Association between the European Economic Community (EEC) and Greece as well as the acts adopted by the EEC with regard to Greece.

Certain acts of the Institutions of the Association between the EEC and Greece have not been included because of their nature. This is the case for budgets, acts of a personal nature (for example appointments), etc...

2. General Structure of the Compilation

The acts are classified in 8 basic series with the following abbreviations and titles in order of classification :

GEN - Institutional matters

INST - Institutional problems

GOODS - Free movement of goods

AGRI - Harmonization of agricultural policies

FIN - Financial aid

MPS - Movement of persons and services

CTL - Provisions on competition, taxation and on the approximation of legislation

ECP - Economic and commercial policies

Each series of acts is separated from the others by a guide card with the abbreviated title of the series indicated on the tab.

The acts appearing in each series are subdivided into headings which are numbered in Roman numerals listed on the 1st page of each series.

The acts appearing in the Compilation are classified under each heading in chronological order of the dates of adoption of the acts.

Moreover, for reasons peculiar to its subject, heading "I Decisions, Recommendations and other Acts of the Council of Association relating to customs matters and quotas" of the "Free movement of goods" series is subdivided into several parts, listed below and also given on the 1st page of this heading. Each part is separated from the others by a guide card. Each part is given a letter of the alphabet which is indicated on the tab of the corresponding guide card.

3. Pagination

In order that new acts be added at any time, the Compilation is arranged in loose-leaf form.

Heading each page there is a reference composed of the following elements : an abbreviation indicating the series, a Roman numeral indicating the heading and consecutive Arabic numerals indicating the pages under each heading.

Example : INST III 10

INST indicates the "Institutional Questions" series ;

III indicates the heading "Parliamentary Committee of the Association" ;

10 indicates page 10.

As indicated above, heading "I Decisions, Recommendations and other Acts of the Council of Association relating to customs matters and quotas" of the "Free movement of goods" series is subdivided into several parts, each of which is given a letter of the alphabet. The reference on the pages of this heading therefore includes, in addition to the three items described above, the letter of the alphabet inserted between the abbreviation indicating the heading and the Arabic numeral.

Example : GOODS Ie 8

GOODS indicates the "Free movement of goods" series

I indicates the heading "I Decisions, Recommendations and other Acts of the Association Council relating to customs matters and quotas" ;

e indicates part "(e) Elimination of quantitative restrictions on exports" ;

8 indicates page 8.

Heading "I Association Agreement and related texts" of the "General matters" series contains the pages relating to the "Agreement establishing an Association between the European Economic Community and Greece", to its "Final Act", to the "Exchange of letters between the Presidents of the delegations of the Community and of Greece" in Athens on 9 July 1961, and to the "Information on the date of entry into force of the Agreement establishing an Association between the European Economic Community and Greece". As these pages were published before this collection was drawn up, they do not bear the complete reference in the right top corner but simply EEC/GREECE. The Arabic numeral of the pagination is given in the middle of the page.

When it becomes necessary to amend a page after an alteration has been made, a replacement leaf will be supplied. This will be marked at the bottom right-hand corner so that it may be distinguished from the page to be removed which appeared previously in the collection. Example : page GEN I 37 bears "N° 2" and "1.12.1965" which means that the previous leaf has been replaced by a second leaf on 1.12.1965.

References to show that an act is related to another are given in foot-note form.

Certain texts could appear in several places. They only appear in full in one place; in the other places there are cross-references enabling the act to be found.

4. Tables

At the beginning of each heading in the Compilation there is a table listing the titles of the acts recorded in it. It will be brought up to date at regular intervals.

As heading "I Decisions, Recommendations and other Acts of the Council of the Association relating to customs matters and quotas" of the "Free movement of goods" series is subdivided into several parts, there are as many tables as parts in this heading.

In addition to this compilation, there are also the "European Communities" Collected Acts, the Compilation of Acts of the "Association between the European Economic Community and the African States and Madagascar associated with the Community" and the Compilation of Acts of the "Association between the European Economic Community and Turkey".

Mr E. Averof-Tossizza, Minister for Foreign Affairs;

WHO, having exchanged their Full Powers, found in good and due form,

HAVE AGREED AS FOLLOWS:

TITLE I

PRINCIPLES

Article 1

By this Agreement an Association is established between the European Economic Community and Greece.

Article 2

1. The aim of this Agreement of Association is to promote the continuous and balanced strengthening of trade and economic relations between the Parties, while taking full account of the need to ensure an accelerated development of the Greek economy and to improve the level of employment and the living conditions of the Greek people.

2. In order to attain the objectives set out in paragraph 1 the Association shall entail, as provided in this Agreement and in accordance with the timetable set out therein:

- (a) the establishment of a customs union;
- (b) the promotion of joint measures by the Parties and harmonization of their policies in the fields mentioned in this Agreement;
- (c) the making available to the Greek economy, within the framework of the Financial Protocol to this Agreement, of resources which will assist it to develop at a higher rate.

Article 3

To ensure the implementation and progressive development of the Association, the Contracting Parties shall meet in a Council of Association, which shall act within the powers conferred upon it by this Agreement.

Article 4

The Contracting Parties shall take all appropriate measures, whether general or particular, to ensure the fulfilment of the obligations arising out of this Agreement.

They shall refrain from any measure which could jeopardize the attainment of the objectives of this Agreement.

Article 5

1. Within the field of application of this Agreement and without prejudice to any special provisions contained therein, the Contracting Parties shall not practise or tolerate any discrimination on grounds of nationality to the prejudice of natural persons who are nationals of one of the Contracting Parties and are established in the territory of another Contracting Party.

2. Companies or firms formed under the law of a Member State of the Community or of Greece and having their registered office, central administration or principal

place of business in the territory of one of the Contracting Parties, shall, for the purposes of paragraph 1, be treated as natural persons.

'Companies or firms' means companies or firms constituted under civil or commercial law, including cooperative societies, and other legal persons governed by public or private law, save for those which are non profit making.

3. The Council of Association shall, where necessary, take the appropriate decisions to bring an end to the discrimination referred to in this Article.

TITLE II

FREE MOVEMENT OF GOODS

Article 6

The Association shall be based upon a customs union which, save as otherwise provided in this Agreement, shall cover all trade in goods and which shall involve the prohibition between Member States of the Community and Greece of customs duties on imports and exports, and of all charges having equivalent effect, and the adoption by Greece of the Common Customs Tariff of the Community in its relations with third countries.

Save as otherwise provided in this Agreement, the transitional period for attainment of the customs union shall be twelve years.

Article 7

1. Chapter I, Section I, and Chapter II of this Title shall apply:

- (a) to goods produced in Member States of the Community or in Greece, including those wholly or partially obtained or produced from products coming from third countries which are in free circulation in Member States or in Greece;
- (b) to goods coming from third countries which are in free circulation in Member States or in Greece.

2. Products coming from third countries shall be considered to be in free circulation in Member States or in Greece if the import formalities have been complied with and any customs duties or charges having equivalent effect which are payable have been levied in the Member States or in Greece, and if they have not benefited from a total or partial drawback of such duties or charges.

Article 8

1. Chapter I, Section I, and Chapter II of this Title shall likewise apply to goods obtained or produced in Member States of the Community or in Greece, in the manufacture of which were used products coming from third countries and not in free circulation either in Member States or in Greece. These provisions shall, however, apply to those goods only if the exporting State charges a levy, the rate of which is a percentage of the duties laid down in the Common Customs Tariff for third country products used in their manufacture. This percentage, fixed by the Council of Association for each of such periods as it may

determine, shall be based on the tariff reduction granted on those goods in the importing State. The Council of Association shall also lay down the rules for the levy, taking into account the relevant rules in force in trade between Member States.

2. Where the relevant rules are amended in respect of trade between Member States, the Council of Association shall lay down the new provisions applicable between the Contracting Parties.

Article 9

The Contracting Parties shall determine the methods of administrative co-operation to be used in implementing Article 7 and 8, taking into account the methods adopted by the Community with regard to trade between Member States.

Article 10

1. If either Contracting Party considers that differences arising from the application to imports of customs duties, quantitative restrictions or any measures having equivalent effect, or from any other measure of commercial policy, threaten to deflect trade or to cause economic difficulties in its territory, it may bring the matter before the Council of Association, which shall, if necessary, recommend appropriate methods for avoiding any harm liable to result therefrom.

2. Where deflections occur or economic difficulties arise and the Party concerned considers that they call for immediate action, that Party may itself take the necessary protective measures, and shall notify the Council of Association thereof without delay; the Council of Association may decide whether the Party concerned shall amend or abolish those measures.

3. In the choice of such measures preference shall be given to those which least disturb the operation of this Agreement and the normal development of trade.

4. Before the end of the first year after the entry into force of this Agreement, however, each Contracting Party may draw up a list of goods which fall within the category mentioned in Article 7 (1) (b) and in relation to which it considers that, by reason of disparities in customs duties, deflection of trade is likely to occur, so that it cannot immediately apply Chapter I, Section I or Chapter II of this Title. These lists shall be forwarded to the Council of Association which shall review them periodically with a view to their progressive abolition.

Article 11

During the transitional period laid down in Article 6, the Contracting Parties shall, in so far as may be necessary for the proper functioning of the Association, take steps to approximate their provisions laid down by law, regulation or administrative action in respect of customs matters, taking into account the approximations already effected by the Member States of the Community.

Chapter I

The customs union

SECTION I

Elimination of customs duties between the Contracting Parties

Article 12

The Contracting Parties shall refrain from introducing between themselves any new customs duties on imports or exports or any charges having equivalent effect, and from increasing those which they already apply in their trade with each other at the date of entry into force of this Agreement.

Article 13

Customs duties on imports and charges having equivalent effect, in force between Member States of the Community and Greece, shall be progressively abolished in accordance with Articles 14 and 15.

Article 14

1. For each product, the basic duty on which Member States of the Community are to apply the successive reductions, shall be the duty applied on 1 January 1957, in conformity with Article 14 (1) of the Treaty establishing the Community.

2. For each product, the basic duty on which Greece is to apply to successive reductions shall be the duty actually applied in respect of Member States at the date of entry into force of this Agreement.

3. The timetable for the reductions to be effected by the Contracting Parties shall be as follows: the first reduction shall be made on the entry into force of this Agreement. The second, third, fourth, fifth, sixth and seventh reductions shall be made at intervals of eighteen months thereafter. The eighth and subsequent reductions shall be made each year thereafter.

4. Each reduction shall be made by lowering the basic duty on each product by 10%

5. In no case, however, shall the customs duties or charges having equivalent effect which Member States apply in respect of Greece be lower than those which they apply between themselves.

Article 15

1. Notwithstanding Article 6 and Article 14 (3) and (4), Greece shall, in respect of the tariff headings listed in Annex I to this Agreement for which an extended transitional period appears necessary, reduce as follows, over a transitional period of twenty two years, the basic duties in respect of Member States of the Community.

A reduction of 5% on each duty shall be applied on the entry into force of this Agreement. Three further reductions, each of 5%, shall be made at intervals of thirty months thereafter.

The duties thus reduced shall constitute the basic duties on which the subsequent reductions are to be made from the end of the tenth year, in accordance with the timetable and conditions laid down in Article 14 (3) and (4).

2. Greece may, during the first two years of application of this Agreement, and up to the equivalent of 3% by value of its imports from the Community in 1958, amend the list in Annex I; however, the total value of that list at 1958 prices shall not be exceeded.

The reductions of duty on products initially subject to the tariff reductions in Article 14 and subsequently transferred to the list in Annex I shall be provisionally maintained.

As regards products initially included in that list and subsequently removed therefrom, Greece shall apply immediately the tariff reductions already made pursuant to Article 14.

Article 16

1. Irrespective of the provisions of Articles 14 and 15, a Contracting Party may suspend in whole or in part the collection of duties applied by it to products imported from the other Contracting Party; the latter shall be informed of such measures.

2. Each Contracting Party declares its readiness to reduce its customs duties in trade with the other Contracting Party more rapidly than is provided for in Articles 14 and 15 if its general economic situation and the situation of the economic sector concerned so permit. The Council of Association shall make recommendations to this end.

Article 17

1. Articles 12 to 16 shall also apply to customs duties of a fiscal nature.

2. On the entry into force of this Agreement the Member States of the Community and Greece shall inform the Council of Association of their customs duties of a fiscal nature.

3. The Member States and Greece shall retain the right to substitute for these customs duties of a fiscal nature an internal tax which complies with the provisions of Article 53.

4. If the Council of Association finds that substitution for any customs duty of a fiscal nature meets with serious difficulties in Greece, it shall authorize that country to retain the duty on condition that it shall abolish it not later than six years after the entry into force of this Agreement.

Such authorization must be requested within two months of the date of entry into force of this Agreement. Greece may provisionally continue to apply such a duty until a decision has been taken by the Council of Association.

Article 18

1. Notwithstanding Articles 6, 12 and 14 and with a view to promoting the creation of new activities contributing to the country's economic development and improving the level of employment and living conditions of the Greek people, Greece may, during the transitional period laid down in Article 6, reintroduce, increase or impose customs duties on imports.

These measures may be taken on condition that they are necessary for protecting and for promoting the development of a processing industry which did not exist in Greece at the date of entry into force of this Agreement. They shall be applied only in respect of a specific branch of production.

2. Tariff measures of the kind described in paragraph 1 shall not, for any of the tariff headings which they affect, raise the duty on imports from the Community to more than 25% *ad valorem*.

Tariff measures taken pursuant to this Article must not affect imports of a value exceeding in aggregate 10% of Greek imports from the Community in 1958. For each of the products affected by such tariff measures the amount which is to be imputed to the aggregate value of 10% shall be based on imports of that product from the Community in 1958.

Unless the Council of Association decides otherwise, such measures shall not apply for more than nine years.

3. Greece shall notify the Council of Association of the measures which it proposes to take; the Council may make appropriate recommendations in respect thereof if the rules and conditions set out in paragraph 1 are not complied with.

4. On expiration of the period of validity of each of the measures taken pursuant to this Article, the duty applied shall be abolished if no such duty previously existed, or reduced to its former level if an existing duty had been increased. In the latter event the duty shall again become subject to the rules for tariff reductions which were applicable to it. It shall be abolished by the end of the transitional period laid down in Article 15 at the latest.

Greece may suspend the application of Article 20 during the period of validity of each of the measures taken pursuant to the preceding paragraphs, and in respect of the products affected by these measures. The Common Customs Tariff duties in respect of the products affected shall, however, be applied in full by the date on which the duties against Member States are abolished in respect of those products.

5. The Council of Association may decide that the measures open to Greece under paragraph 1 may:

- (a) be extended beyond the transitional period laid down in Article 6;
- (b) include tariff measures which go beyond the limit of 10% laid down in paragraph 2 of this Article;
- (c) include the option of reintroducing quotas, instead of increasing or imposing duties, provided that the quota is fixed at not less than 60% of imports of the goods in question from Member States of the Community in the preceding year. The value of imports from Member States, in 1958, of the products affected by these quota measures shall be imputed to the aggregate value mentioned in paragraph 2 of this Article.

The Council of Association shall lay down the rules for such measures and the conditions for their abolition.

6. Tariff measures taken by Greece pursuant to the above provisions shall in no case have the effect of raising the duties on Greek imports from Member States above the level of the duties on Greek imports from third countries.

7. The provisions of this Article shall not apply to the products listed in Annex I to this Agreement.

Article 19

The Member States of the Community and Greece shall, at the latest four years after the date of entry into force of this Agreement, abolish between themselves customs duties on exports and charges having equivalent effect.

SECTION II

Adoption by Greece of the Common Customs Tariff

Article 20

1. The Greek Customs Tariff shall be aligned on the Common Customs Tariff during the transitional period laid down in Article 6 on the basis of the duties actually applied by Greece in respect of third countries at the date of entry into force of this Agreement, and in accordance with the following rules:

- (a) in the case of tariff headings on which the duties actually applied by Greece at the date of entry into force of this Agreement do not differ by more than 15% either way from the duties in the Common Customs Tariff, the latter duties shall be applied from the date of the third reduction of customs duties provided for in Article 14;
- (b) in any other case Greece shall, as from the same date, apply duties reducing by 30% the difference between the duty actually applied at the date of entry into force of this Agreement and the duty in the Common Customs Tariff;
- (c) this difference shall be reduced by a further 30% on the occasion of the sixth reduction of customs duties provided for in Article 14;
- (d) the Common Customs Tariff shall be applied in its entirety when the tenth reduction of customs duties provided for in Article 14 is applied.

2. Notwithstanding paragraph 1 Greece shall, for the products listed in Annex I to this Agreement, align its customs tariff during the transitional period laid down in Article 15, in accordance with the following rules:

- (a) seven and a half years after the date of the entry into force of this Agreement, reduce by not less than 20% the difference between the duties actually applied at that date and the duties in the Common Customs Tariff;
- (b) in the case of tariff headings on which the duties resulting from the application of subparagraph (a) of this paragraph do not differ by more than 15% either way from the duties in the Common Customs Tariff, the latter duties shall be applied from the beginning of the fourteenth year;

in any other case Greece shall, as from the same date, apply duties reducing by 30% the difference between the duties resulting from the application of subparagraph (a) and the duties in the Common Customs Tariff;

this difference shall be reduced by a further 30% at the beginning of the eighteenth year;

the Common Customs Tariff shall be applied in its entirety at the end of the twenty-second year.

3. In the case of particular products making up not more than 5% of the total value of its imports in 1958, Greece may, after consultation in the Council of Association, defer until the end of the transitional period laid

down in Article 15 the reductions of duties in respect of third countries laid down in the foregoing paragraphs.

In the case of particular products making up not more than 3% of the total value of its imports in 1958, Greece may, after consultation in the Council of Association, retain, after expiry of the transitional period laid down in Article 15 customs duties in respect of third countries which are higher than those in the Common Customs Tariff.

Retention of a customs duty higher than that in the Common Customs Tariff must not, however, prejudice the free movement of goods within the Association.

In the event of an accelerated alignment of its customs tariff with the Common Customs Tariff, Greece hereby undertakes to make no substantial change in the scope of the procedures of this Agreement and to take into account Community practice in this field.

As regards the products listed in Annex I, no such acceleration may take place before the end of the twelfth year from the entry into force of this Agreement, unless prior authorization has been given by the Council of Association.

4. As regards duties which have been authorized pursuant to Article 17 (4), Greece need not apply the provisions of paragraphs 1 and 2 of this Article. On expiry of the authorization, Greece shall apply the duties provided for therein.

Article 21

1. To facilitate the importation of particular goods from countries with which Greece has concluded bilateral trade agreements, Greece may, with the prior authorization of the Council of Association, grant tariff quotas at reduced or zero rates of duty, if the functioning of the agreements with those countries is substantially affected by the application of this Agreement.

2. In no case may the duty under a tariff quota be lower than that applied in practice by Greece on imports from the Community.

Chapter II

Elimination of quantitative restrictions between the Contracting Parties

Article 22

Quantitative restrictions on imports and all measures having equivalent effect shall, without prejudice to the following provisions, be prohibited between the Contracting Parties.

Article 23

1. The Contracting Parties shall refrain from introducing between themselves any new quantitative restrictions on imports or measures having equivalent effect.

This obligation shall, however, apply only:

- (a) in respect of Member States of the Community, to the degree of liberalization which they have consolidated between themselves;
- (b) in respect of Greece, to 60% of its imports on private account from Member States in the reference year 1958. The percentage shall be increased to 75% and 80% of the abovementioned imports five and ten years respectively after the date of entry into force of this Agreement. On the latter date Greece will endeavour to attain a higher degree of liberalization, which shall be consolidated in relation to Member States.

2. On the entry into force of this Agreement, Member States shall forward to Greece the liberalization lists which they have consolidated between themselves; these lists shall also be consolidated in relation to Greece.

3. One year after the date of entry into force of this Agreement Greece shall supply a list of liberalized products to the Commission of the Community. This list shall be consolidated in respect of the Member States. At the end of the fifth and tenth years Greece shall supply the Commission with further lists of products which are to be consolidated in respect of the Member States.

4. Greece may reintroduce quantitative restrictions on imports of products which have been liberalized but not consolidated pursuant to this Article. However, on reintroduction of these restrictions Greece shall open global quotas to Member States equal to at least 75% of imports from the Community during the year preceding that reintroduction. Article 26 (4) of this Agreement shall apply to these quotas.

5. In no case may Greece apply to Member States a treatment less favourable than that accorded to third countries.

Article 24

In their trade with one another the Contracting Parties shall refrain from making more restrictive the import quotas and measures having equivalent effect existing at the date of the entry into force of this Agreement.

Article 25

1. Member States of the Community shall abolish quantitative restrictions on imports from Greece in accordance with the provisions of the following paragraphs:

2. One year after the entry into force of this Agreement Member States shall open to Greece, in respect of products which have not been liberalized, quotas corresponding to those contained in bilateral agreements existing at that date, or failing that, corresponding to the level of imports from Greece in the first year of implementation of this Agreement.

3. Three years after the entry into force of this Agreement Member States shall increase the quotas so established by not less than 10% of the total amount thereof for the preceding year. The amount shall be increased annually in the same proportion in relation to the preceding year.

With effect from the eleventh year after the entry into force of this Agreement, each quota shall be increased every eighteen months over that of the preceding period by not less than 20%.

4. Where, in the case of a product which has not been liberalized, there have been no imports into Member States from Greece in the first year of application of this Agreement, the rules for opening and increasing quotas shall be drawn up by mutual agreement.

5. All quantitative restrictions applied by Member States to imports from Greece shall be abolished not later than twenty-two years after the entry into force of this Agreement.

Article 26

1. Greece shall abolish quantitative restrictions on imports from Member States of the Community in accordance with the provisions of the following paragraphs.

2. One year after the entry into force of this Agreement global quotas available without discrimination to Member States shall be opened for imports of products not liberalized in Greece. The amount of these quotas shall be equal to that of imports from Member States in the preceding year.

3. Where, in respect of a product which has not been liberalized, imports from Member States in the first year after the entry into force of this Agreement amount to less than 7% of total imports of that product, a quota equal to 7% of those imports shall be opened one year after the entry into force of this Agreement.

4. Three years after the entry into force of this Agreement Greece shall increase the aggregate of global quotas so opened by not less than 10% over the amount thereof for the preceding year. This amount shall be increased annually in the same proportion in relation to the preceding year.

5. With effect from the eleventh year after the entry into force of this Agreement each quota shall be increased every eighteen months by not less than 20% in relation to the preceding period.

6. Where, in respect of a product which has not been liberalized, there have been no imports into Greece in the first year of application of this Agreement, the rules for opening and increasing quotas shall be laid down by mutual agreement.

7. If the Council of Association finds that during two successive years the imports of any product which has not been liberalized have been below the level of the quota opened, that quota shall not be taken into account in calculating the total value of the global quotas. In such case Greece shall abolish quota restrictions on imports of such products from Member States.

8. All quantitative restrictions on imports into Greece shall be abolished not later than twenty-two years after the entry into force of this Agreement.

Article 27

Member States of the Community and Greece shall, at the latest, by the end of the transitional period laid down in Article 6, abolish all measures having an effect equivalent to quotas. The Council of Association shall recommend the progressive adjustments to be made during this period, taking into account provisions adopted between Member States.

The Contracting Parties shall supply each other as soon as possible, and not later than six months after the entry into force of this Agreement, with all information in their possession as to measures having an effect equivalent to quotas.

Article 28

1. Quantitative restrictions on exports, and all measures having equivalent effect, shall be prohibited between the Contracting Parties.

The Member States of the Community and Greece shall, by the end of the transitional period laid down in Article 6 at the latest, abolish between themselves all quantitative restrictions on exports and any measures having equivalent effect.

2. Notwithstanding paragraph 1 and in respect of basic products, Greece may, after consultation in the Council of Association, retain or introduce restrictions on exports of basic products to the extent necessary to promote the development of specific sectors of the Greek economy or to meet any shortage of basic foodstuffs.

In that event, Greece shall open for Member States a global quota which takes into account exports in previous years and the normal development of trade resulting from the establishment of a customs union.

Article 29

Each Contracting Party declares its readiness to abolish quantitative restrictions on imports from and exports to the other Contracting Party more rapidly than is provided for in the preceding Articles, if its general economic situation and the situation of the economic sector concerned so permit. To this end, the Council of Association shall make recommendations to the Contracting Parties.

Article 30

The provisions of the preceding Articles shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals, or plants; the protection of national treasures possessing artistic, historic or archaeological value; or the protection of industrial and commercial property. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Contracting Parties.

Article 31

1. The Contracting Parties shall progressively adjust any State monopolies of a commercial character so as to ensure that when the transitional period laid down in Article 15 has ended no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of Member States of the Community and nationals of Greece.

The provisions of this Article shall apply to any body through which a Member State or Greece, in law or in fact, either directly or indirectly supervises, determines or appreciably influences imports or exports. These provisions shall also apply to monopolies delegated by the State to others.

2. The Contracting Parties shall refrain from introducing any new measure which is contrary to the principles laid down in paragraph 1 or which restricts the scope of the Articles dealing with the abolition of customs duties and quantitative restrictions between the Contracting Parties.

3. If a product is subject to a State monopoly of a commercial character or a monopoly delegated by the State, in one or more Member States, the timetable for the measures provided for in paragraph 1 shall be harmonized with the abolition of quantitative restrictions in respect of the same products, as provided for in Article 25 of this Agreement.

4. The procedures and the timetable in accordance with which the Greek monopolies mentioned in this Article are to be adjusted and the barriers to trade are to be lowered by Member States, shall be laid down by the Council of Association not later than two years after the entry into force of this Agreement.

Until the Council of Association takes the decision provided for in the preceding subparagraph, Member States shall apply to products which are subject to a monopoly in Greece the treatment, laid down for like products from third countries.

5. The obligations on the Contracting Parties shall be binding only in so far as they are compatible with existing international agreements.

6. The provisions of the foregoing paragraphs shall not apply to the agricultural products listed in Annex II to this Agreement.

Chapter III

Agriculture

Article 32

The Association shall extend to agriculture and trade in agricultural products.

'Agricultural products' means the products listed in Annex II to the Treaty establishing the Community, as at present supplemented in accordance with Article 38 (3) of the Treaty. These products are listed in Annex II to this Agreement.

Save as otherwise provided in Articles 33 to 43, this Agreement shall apply to agricultural products.

Article 33

The functioning and development of the Association in respect of agricultural products shall be accompanied by progressive harmonization of the agricultural policies of the Community and of Greece.

In establishing the common agricultural policy the Community shall take due account of the special situation, potential and interests of Greek agriculture.

The purpose of harmonization shall be to ensure equality of treatment between products of Member States and like products of Greece on the markets of the Contracting Parties, taking into account the objectives set out in Article 39 of the Treaty establishing the Community.

The agricultural policies of the Community and of Greece shall be harmonized in accordance with Articles 35 and 36 by the end of the transitional period laid down in Article 15 at the latest.

Article 34

1. For the purpose of implementing Article 33 (2), Greece shall supply the Community with all relevant information regarding its agricultural policy, and the special situation, potential and interests of Greek agriculture.

2. The Community shall inform Greece of proposals concerning the common agricultural policy submitted by the Commission to other organs of the Community and of the opinions and decisions of those other organs with regard to such proposals.

The Council of Association shall decide:

what agricultural information is to be supplied by the Community to Greece after common organizations of the market have replaced the national organizations;

- what agricultural information is to be supplied by Greece to the Community;
- the dates on which such information is to be supplied.

3. Consultations on the Commission's proposals and on the measures contemplated by the Community and Greece in agriculture shall take place within the Council of Association.

Article 35

As soon as the Community has declared that the basic provisions for implementing the common agricultural policy in respect of a particular product have been laid down, for the Community, for all or part of the transitional period, and as soon as Greece has declared its readiness to undertake harmonization, the Council of Association shall decide on:

- the conditions under which such harmonization is to be carried out;
- the conditions under which restrictions on trade between the Community and Greece are to be abolished;
- the conditions under which Greece is to introduce the Common Customs Tariff.

In determining these conditions the Council of Association shall be guided by the principles of the market organization adopted by the Community for the product in question.

Article 36

1. If the Community declaration referred to in Article 35 relates to the laying down of the basic provisions for implementing the common agricultural policy for the whole of the transitional period, the Council of Association shall, within two years of that declaration, lay down the rules which will apply to trade in the product in question between the Contracting Parties at the end of that two-year period if no decision as provided for in Article 35 is taken in the meantime.

If no such rules are laid down by the Council of Association, the Contracting Parties shall be free at the end of that period to take any measure which they consider appropriate, provided that the rules applied to trade in the product in question are at least as favourable as those applied to imports from States receiving general most-favoured-nation treatment.

If the provisions to which the Community's declaration relate are implemented before the end of the two-year period, the Council of Association shall take the necessary measures to maintain existing import openings for the product in question until the end of that period.

2. If the declaration by the Community referred to in Article 35 relates to the laying down of the basic provisions for the implementation of the common agricultural

policy for a part of the transitional period, the Council of Association shall, within one year of that declaration, lay down the rules which will apply to trade in the product in question between the Contracting Parties after the end of that period if no decision as provided for in Article 35 (1) is taken in the meantime.

If no such rules are laid down by the Council of Association, the Contracting Parties shall be free at the end of that period to take any measure which they consider appropriate provided that the rules applied to trade in the product in question are at least as favourable as those applied to imports from States receiving general most-favoured-nation treatment.

If the provisions referred to in the Community's declaration are implemented before the end of the one-year period, the Council of Association shall take the necessary measures to maintain existing import openings for the product in question until the end of that period.

3. Expiry of the periods laid down in the above paragraphs shall not prevent the Council of Association from taking a decision as provided for in Article 35.

Article 37

1. In anticipation of harmonization of the agricultural policies of the Community and Greece, the Contracting Parties shall apply to each other, in respect of the products listed in Annex II to this Agreement, the general rules for the abolition of customs duties, import quotas, and charges and measures having equivalent effect laid down in Articles 14, 17, 25, 26 and 27 of this Agreement.

2. As regards agricultural products not listed in Annex III, and by way of derogation from Articles 13, 14, 15, 17, 25, 26 and 27 of this Agreement, the Contracting Parties shall refrain from:

- (a) introducing between themselves new customs duties on imports or exports or charges having equivalent effect, or increasing those which they apply in their trade with each other at the date of entry into force of this Agreement;
- (b) introducing between themselves any new quantitative restrictions on imports and exports or measures having equivalent effect, or making more restrictive the quotas and measures having equivalent effect existing at the date of entry into force of this Agreement; the obligation to refrain from introducing new quantitative restrictions or measures having equivalent effect shall, however, apply only to products the liberalization of which has been consolidated in accordance with Article 23 and does not prejudice the application of Article 28 (2).

3. For agricultural products not listed in Annex III:

- (a) each Contracting Party shall extend to the other the tariff concessions it grants to third countries;

(b) where a Contracting Party abolishes or reduces quantitative restrictions in respect of third countries, it must apply the same treatment to the other Contracting Party.

4. The provisions of the preceding paragraphs shall be applied until the Council of Association has taken the decision provided for in Article 35, or until the end of the two year or one-year periods referred to in Article 36 (1) and (2) respectively.

Article 38

1. Until the Council of Association has taken the decision provided for in Article 35, or until the end of the two-year or one-year periods referred to in Article 36 (1) and (2) respectively, Greece shall, in respect of the products listed in Annex III, align its customs duties on the Common Customs Tariff in accordance with the conditions and timetable laid down in Article 20.

2. Until the Council of Association has taken the decision provided for in Article 35, Greece may postpone implementation of the Common Customs Tariff in respect of agricultural products not listed in Annex III.

Article 39

The provisions of the Articles on competition shall apply to production of and trade in agricultural products only to the extent determined by the Council of Association, which shall decide on the matter after decisions have been taken on the application of the rules on competition to the production of and trade in agricultural products within the Community.

Article 40

The Council of Association shall review the situation annually, taking into account *inter alia* the harmonization already initiated.

Where such review shows that trade is not developing harmoniously, the Council of Association shall decide upon the measures to be taken.

These measures may lead, in particular, to:

- further liberalization of trade in accordance with the procedure laid down in Article 35;
- revision of the list in Annex III.

Article 41

1. In so far as progressive abolition of customs duties and quantitative restrictions between the Contracting Parties may result in prices likely to jeopardize the attainment of the objectives set out in Article 39 of the Treaty establishing the Community, the Community and Greece may, from the date of the introduction of the common agricultural policy in the case of the Communi-

ty, and from the entry into force of this Agreement in the case of Greece, apply to particular products a system of minimum prices below which imports may be either:

- temporarily suspended or reduced; or
- allowed, but subject to the condition that they are made at a price higher than the minimum price for the product concerned.

In the latter case the minimum prices shall not include customs duties.

2. Until the common agricultural policy referred to in paragraph 1 is introduced, and in so far as the progressive abolition of customs duties and quantitative restrictions between the Contracting Parties may result in prices likely to jeopardize the attainment of the objectives set out in Article 39 of the Treaty establishing the Community, Member States may, with respect to Greece, apply the above provisions in accordance with the principles and procedures set out in Article 68(1) of this Agreement.

3. Measures adopted pursuant to the preceding paragraphs must take into account the criteria set out in Article 44(2) and (3) of the Treaty establishing the Community.

4. The preceding paragraphs shall remain in force until the Council of Association has taken the decision provided for in Article 35, or until the end of the two-year or one-year period referred to in Article 36 (1) and (2) respectively.

Article 42

If a Member State of the Community applies minimum prices to imports of a product from other Member States under Article 44 of the Treaty establishing the Community, it shall apply the same measures to imports of that product from Greece.

In that event, the Member State shall inform Greece as it does the other Member States.

Article 43

Where a product is subject to a market organization or to internal rules having equivalent effect, or where a product is directly or indirectly affected by such a market organization for other products, and where the resulting disparity in the price of the raw materials used has a damaging effect on the market of one or more Member States or of the Community, on the one hand, or of Greece on the other, a countervailing charge may be applied to imports of that product by the Contracting Party concerned, unless that Contracting Party applies a countervailing charge on export.

The amount of and the rules concerning this charge shall be determined by the Council of Association.

Until the decision of the Council of Association takes effect the Contracting Parties may determine the amount of and rules concerning the charge.

TITLE III

MOVEMENT OF PERSONS AND SERVICES

Article 44

Freedom of movement for workers under Articles 48 and 49 of the Treaty establishing the Community shall be secured between Member States and Greece at a date and in accordance with rules to be determined by the Council of Association, but not before the end of the transitional period laid down in Article 6 of this Agreement.

The Council of Association may lay down the rules to be applied until that date to the movement of workers between Member States and Greece; it shall do so in the light of the employment situation in Greece and on the basis of provisions on freedom of movement for workers, adopted pursuant to Chapter I of Title III of Part Two of the Treaty establishing the Community.

Article 45

The Council of Association shall determine the manner in which the measures implementing Articles 50 and 128 of the Treaty establishing the Community, concerning the exchange of young workers and vocational training respectively, can be applied to Greece.

Article 46

The Council of Association may consider the preparation and development of technical assistance programmes, in favour of Greece, in the manpower field. It shall decide on the financing of such programmes.

Article 47

The Contracting Parties shall, in progressive and balanced stages, facilitate the establishment of nationals of Member States in the territory of Greece and of nationals of Greece within the Community, in accordance with the principles of Articles 52 to 56 and Article 58 of the Treaty establishing the Community, except for the provisions of those Articles which lay down the time limits and the procedure for attaining freedom of establishment.

Article 48

The Council of Association shall determine the timetable for the implementation of Article 47 and the rules for its application in respect of the various types of activity:

progressive implementation shall take place after the entry into force of the corresponding directives provided for in Articles 52 to 56 of the Treaty establishing the Community and shall take into account the special economic and social situation of Greece.

Article 49

The Council of Association shall, during the transitional period laid down in Article 6 of this Agreement, decide on the appropriate measures to be adopted to facilitate the provision of services between the Community and Greece.

Article 50

1. In accordance with rules and conditions which it shall determine, the Council of Association shall extend the transport provisions of the Treaty establishing the Community to Greece, with due regard to the geographical situation of that country.

2. Acts adopted by the institutions of the Community in implementation of the provisions of the Treaty establishing the Community relating to transport other than by sea or by air may be extended to Greece, in accordance with rules adopted by the Council of Association.

3. If the Council of the Community takes a decision in respect of transport by sea or by air, pursuant to Article 84(2) of the Treaty establishing the Community, the Council of Association shall decide whether, to what extent and by what procedure provisions may be laid down for Greek sea and air transport.

TITLE IV

PROVISIONS RELATING TO COMPETITION, TAXATION AND APPROXIMATION OF LAWS

Article 51

The Contracting Parties recognize that the principles laid down in Articles 85, 86, 90 and 92 of the Treaty establishing the Community should be applied in their relations within the Association.

Article 52

1. The Council of Association shall, within two years of the entry into force of the Agreement, adopt the rules and conditions for the application of the principles referred to in Article 51.

2. For the purposes of applying paragraph 1 of this Article, as regards State aids the Contracting Parties recognize that in the first 10 years of the transitional period laid down in Article 15 Greece may be considered as being in the situation specified in Article 92 (3) (a) of the Treaty establishing the Community, and that aid to promote Greek economic development shall be considered to be compatible with Association if it does not

alter the conditions of trade to an extent inconsistent with the mutual interests of Association.

At the end of the abovementioned 10 years, the Council of Association shall, taking into account the economic situation of Greece at that time, decide whether it is necessary to extend the period of validity of the preceding subparagraph.

Article 53

1. Neither Contracting Party shall impose, directly or indirectly, on the products of the other Contracting Party any internal taxation of any kind in excess of that imposed directly or indirectly on similar domestic products.

Neither Contracting Party shall impose on the products of the other Contracting Party any internal taxation of such a nature as to afford indirect protection to other products.

The Contracting Parties shall, not later than the beginning of the third year after the entry into force of this Agreement, repeal any provision existing at the date of its entry into force which conflicts with the above rules.

2. In trade between the Contracting Parties, repayment of internal taxation in respect of exported products shall not exceed the internal taxation imposed on those products, whether directly or indirectly.

3. Contracting Parties which levy a turnover tax calculated on a cumulative multi-stage tax system may, in the case of internal taxation imposed by them on imported products or of repayments allowed by them on exported products, establish average rates for products or groups of products, provided that there is no infringement of the principles laid down in the preceding paragraphs.

4. The Council of Association shall ensure that the above provisions are applied, taking into account the experience of the Contracting Parties in the field covered by this Article.

Article 54

As regards trade between the Community and Greece, and in the case of charges other than turnover taxes, excise duties and other forms of indirect taxation, remissions and repayments in respect of exports may not be granted and countervailing charges in respect of imports may not be imposed unless the measures contemplated have been approved in advance by the Council of Association for a limited period.

Article 55

The Contracting Parties may adopt any protective measures which they consider to be needed to overcome difficulties due to the absence of a decision of the Council of

Association on the matters covered by Articles 52 and 53 or to the non-application of the measures adopted by the Council of Association in relation thereto.

Article 56

1. If, during the transitional period laid down in Article 15 of this Agreement, the Council of Association, on application by a Contracting Party, finds that dumping is being practised in trade between the Community and Greece, it shall address recommendations to the person or persons with whom such practices originate for the purpose of putting an end to them.

The injured Party may, after notifying the Council of Association, take suitable protective measures where:

- (a) the Council of Association has taken no decision pursuant to the first subparagraph above within three months from the date of the application;
- (b) despite the issue of recommendations under the first subparagraph, the dumping practices continue.

Where protective measures have been taken under (a) above, the Council of Association may, at any time, decide that such protective measures shall be suspended pending the issue of recommendations under the first subparagraph.

Where protective measures have been taken under (a) above, the Council of Association may, at the request of a Contracting Party or on its own initiative, recommend to the injured Party abolition or amendment of those protective measures, the conditions and details of which the Council shall determine.

2. Products which originated in or were in free circulation in the territory of one of the Contracting Parties and which have been exported to the other Contracting Party shall on reimportation be admitted into the territory of the former Contracting Party free of all customs duties, quantitative restrictions or measures having equivalent effect.

The Council of Association shall, acting in the light of the experience of Contracting Parties in the field covered by this Article, address such recommendations to the Contracting Parties as it thinks fit for the purpose of supplementing this paragraph so as to ensure that it is applied.

Article 57

The Council of Association may recommend the Contracting Parties to take measures to approximate the laws, regulations or administrative provisions in respect of field which are fields covered by this Agreement but have a direct bearing on the functioning of the Association, and of fields covered by this Agreement but for which no specific procedure is laid down therein.

TITLE V

ECONOMIC POLICY

Article 58

1. Each State party to this Agreement shall pursue the economic policy needed to ensure the equilibrium of its overall balance of payments and to maintain confidence in its currency, while taking care to ensure a continuous balanced growth of its economy in conjunction with stable prices. Each State party to this Agreement shall pursue a conjunctural policy, in particular a financial and monetary policy, which furthers these objectives.

2. The States parties to this Agreement shall regularly consult each other in the Council of Association to coordinate their economic policies.

The Council of Association shall, where necessary, recommend appropriate measures to the States parties to this Agreement.

Article 59

Each State party to this Agreement shall treat its policy with regard to exchange rates as a matter of common concern.

Article 60

1. In the event of Greece being in difficulties or seriously threatened with difficulties as regards its balance of payments either as a result of an overall disequilibrium in its balance of payments or as result of the type of currency at its disposal, and where such difficulties are liable to be detrimental to the attainment of the objectives of this Agreement, the Council of Association shall immediately investigate the position and the action which, making use of all the means at its disposal, Greece has taken or may take in accordance with Article 58. The Council of Association shall state what measures it recommends each side to take to enable Greece to meet such difficulties.

If the action taken by Greece and the measures suggested by the Council of Association do not prove sufficient to overcome the difficulties which have arisen or which threaten, Greece may take the necessary interim protective measures.

2. Where a Member State is in difficulties or is seriously threatened with difficulties as regards its balance of payments, the institutions of the Community shall initiate the procedure laid down in Article 108 of the Treaty establishing the Community. The Member State in difficulty may take the necessary protective measures in accordance with the conditions laid down in that Treaty.

3. Such protective measures must cause the least possible disturbance in the functioning of the Association

and must not be wider in scope than is strictly necessary to remedy the difficulties which have arisen.

The Council of Association shall be informed of protective measures affecting trade and payments between the Community and Greece not later than when they enter into force. It shall, within six months, review the effect of these measures on the functioning of this Agreement.

Article 6.

The Member States of the Community and Greece undertake to authorize, in the currency of the country in which the creditor or the beneficiary resides, any payments connected with the movement of goods, services or capital, and any transfers of capital and earnings, to the extent that the movement of goods, services, capital and persons between them has been liberalized pursuant to this Agreement.

The Contracting Parties declare their readiness to undertake the liberalization of payments beyond the extent provided in the preceding subparagraph, in so far as their economic situation in general and the state of their balance of payments in particular so permit.

1. In so far as movement of goods, services and capital are limited only by restrictions on payments connected therewith, these restrictions shall be progressively abolished by applying *mutatis mutandis* the provisions relating to the abolition of quantitative restrictions, the provision of services and to capital movements.

2. The Contracting Parties undertake not to make more restrictive the arrangements which they apply to transfers connected with the invisible transactions listed in Annex IV to this Agreement without the prior agreement of the Council of Association.

3. If need be, the Contracting Parties shall consult each other on the measures to be taken to enable the payments and transfers mentioned in this Article to be effected.

Article 6.

The Contracting Parties shall consult each other with a view to facilitating movements of capital between Member States of the Community and Greece which will further the objectives of this Agreement.

They shall seek all means of promoting the investment in Greece of capital from countries of the Community which can contribute to the development of the Greek economy.

With respect to arrangements for foreign capital, residents of all Member States shall be entitled to all the advantages, in particular as regards currency and taxation, which Greece accords to any other Member State or to a third country.

Article 63

The Contracting Parties shall endeavour to avoid introducing any new foreign exchange restrictions on the movement of capital and current payments connected therewith between Member States of the Community and Greece, and shall endeavour not to make existing rules more restrictive.

The Contracting Parties shall simplify to the maximum extent possible authorization and control formalities applicable to the conclusion and carrying out of capital transactions and transfers, and shall, in so far as is necessary, consult each other for the purpose of achieving such simplification.

Article 64

1. The Contracting Parties shall consult each other in the Council of Association in order to achieve, in the transitional period laid down in Article 6, the coordination of their commercial policies in relation to third countries, in particular in the fields mentioned in Article 113 (1) of the Treaty establishing the Community.

For this purpose each Contracting Party shall, at the request of the other Party, furnish all relevant information on agreements which it concludes and which contain tariff or commercial provisions, as well as on changes which it makes in its external trade arrangements.

Where such agreements or changes might have a direct and particular effect on the functioning of this Agreement, there shall be appropriate consultation in the Council of Association in order to take into account the interests of the Contracting Parties.

2. At the end of the transitional period laid down in Article 6, the Community and Greece, meeting in the Council of Association, shall coordinate their commercial policies more closely with the aim of achieving a commercial policy based on uniform principles.

3. Should an agreement be concluded concerning accession to or association with the Community, full account shall be taken of the mutual interests stated in this Agreement; appropriate consultation shall take place to this end.

In the case of an association, the adjustment of the relations between Greece and the associated country, may be the subject of an agreement after consultation with the Community.

In the case of an accession, rights and obligations shall devolve on Greece only after a supplementary protocol has been concluded with Greece. The necessary adjustments to this Agreement shall be agreed by the Contracting Parties. To this end, each Contracting Party shall take the necessary measures in accordance with its constitutional requirements.

A third arbitrator, who shall act as Chairman, shall be appointed in accordance with the provisions of paragraph 4 below.

PROTOCOL No 1

THE CONTRACTING PARTIES,
HAVE AGREED AS FOLLOWS:

Notwithstanding the provisions of the Agreement of Association, and in particular Article 5 thereof, the Contracting Parties shall progressively adjust the terms governing participation in contracts concluded by public authorities and undertakings or by private undertakings to which special or exclusive rights are granted, in order to abolish, by the end of the transitional period laid down in Article 15 of the Agreement, any discrimination between nationals of Member States of the Community and nationals of Greece established in the territory of the Contracting Parties.

The rules and timetable for the adjustment provided for in this Protocol shall be determined by the Council of Association in the light of the solutions adopted in that field by Member States of the Community.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 2

THE CONTRACTING PARTIES,
HAVE AGREED AS FOLLOWS:

The Contracting Parties hereby declare that Article 7 of the Agreement of Association shall apply only to goods exported from Member States of the Community, or from Greece, after the signature of that Agreement.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 3
on the levy provided for in Article 8 of the Agreement of Association

THE CONTRACTING PARTIES,

Considering that non-application of the levy provided for in Article 8 of the Agreement of Association cannot harm the processing industries of the importing State as long as the rate of reduction in customs duties made by that State does not exceed 20%.

HAVE AGREED AS FOLLOWS:

The levy provided for in Article 8 of the Agreement shall not be applied in the territory of the Contracting Party from which the goods, obtained or produced under the conditions referred to in that Article are exported, for as long as the reduction in customs duties on the majority of goods imported into the other Contracting Party does not exceed 20%.

PROTOCOL No 4
on German internal trade and connected problems

THE CONTRACTING PARTIES,

Considering the conditions at present existing by reason of the division of Germany,

HAVE AGREED AS FOLLOWS:

1. Since trade between the German territories subject to the Basic Law for the Federal Republic of Germany and the German territories in which the Basic Law does not apply is a part of German internal trade, the application of the Agreement of Association in Germany requires no change in the treatment currently accorded this trade.

2. Each Contracting Party shall inform the other Contracting Party of any agreements relating to trade with the German territories in which the Basic Law for the Federal Republic of Germany does not apply, and of any implementing provisions. Each Contracting Party shall ensure that implementation of such agreements does not conflict with the principles of the Association and shall in particular take appropriate measures to avoid harming the economy of the other Contracting Party.

HAVE AGREED AS FOLLOWS

1. Goods imported into one of the Contracting Parties from third countries not parties to the Association, which are eligible for special customs treatment by reason of their origin or source, shall not be considered to be in free circulation in that Contracting Party within the meaning of Article 7 of the Agreement if re-exported to the other Contracting Party.

on the special arrangements to be applied by Member States of the Community in their trade with Greece

THE CONTRACTING PARTIES,

Taking into account the special economic situation of Greece;

Desiring to contribute to its economic development,

HAVE AGREED AS FOLLOWS:

i. As regards products other than those listed in Annex II to the Agreement of Association, Member States shall:

(a) notwithstanding Article 14 of the Agreement, apply to products imported from Greece those customs duties and charges having equivalent effect which they apply to each other at the date of the entry into force of the Agreement; they shall extend to Greece the successive reductions which they make pursuant to Articles 13, 14 and 17 of the Treaty establishing the Community.

- (b) extend to Greece the measures for the elimination of quantitative restrictions which they already apply to each other at the date of entry into force of the Agreement and which they apply to each other pursuant to Article 4 of the Decision of the Council of the Community of 12 May 1960, on acceleration of the timetable for the attainment of the objectives of the Treaty establishing the Community;
 - (c) extend to Greece the abolition of quota restrictions on products pursuant to Article 33 (4) of the Treaty establishing the Community;
 - (d) extend to Greece the measures which they have taken or will take pursuant to Commission directives as provided for in Article 33 (7) of the Treaty establishing the Community, and which establish the procedure and timetable for the abolition between Member States of measures having an effect equivalent to quotas;
 - (e) extend to Greece the measures for the elimination of customs duties and quantitative restrictions on exports, and charges and measures having equivalent effect, which they apply to each other pursuant to Articles 16 and 34 of the Treaty establishing the Community.

 - (b) notwithstanding Article 37 of the Agreement, apply to quotas opened to Greece on the basis of Article 25 (2) of the Agreement, those percentage increases which they already apply between themselves at the date of entry into force of the Agreement; and shall extend to such quotas the successive percentage increases which they make in the future pursuant to the Treaty establishing the Community;
 - (c) in respect of the products referred to in Article 25 (4), open import quotas equivalent to not less than 7.5% of the quotas opened by each Member State for 1960 in respect of other Member States. The successive percentage increases which Member States make in future pursuant to the Treaty establishing the Community shall be extended to the quotas thus opened. The special rules applied by Member States to other Member States in respect of imports of the products in question shall likewise be applied to imports from Greece.
 - (d) extend to Greece the abolition of quota restrictions on products pursuant to Article 33(4) of the Treaty establishing the Community;
 - (e) extend to Greece the measures which they have taken or will take pursuant to the Commission directives, provided for in Article 33 (7) of the Treaty establishing the Community, establishing the procedure and timetable for the abolition between Member States of measures having an effect equivalent to quotas;
 - (f) extend to Greece the measures for the elimination of customs duties and quantitative restrictions on exports and charges and measures having an equivalent effect, which they adopt between themselves pursuant to Articles 16 and 34 of the Treaty establishing the Community.

This paragraph shall be applied in anticipation of harmonization of the agricultural policies of the Community and Greece.

3. If the process of elimination of customs duties and quantitative restrictions between the Member States is accelerated after the entry into force of the Agreement, that acceleration shall be extended to Greece. The Council of Association shall determine the arrangements for parallel endeavours by Greece.

4. Where the application of Article 14 of the Agreement by Greece and of this Protocol by Member States might have the effect of reducing Greece customs duties by higher percentage than that made by Member States, Greece may temporarily suspend its tariff reductions until the difference between the percentage reductions made by Member States and Greece has been eliminated.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 7

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 8
on the opening of certain tariff quotas by Greece

THE CONTRACTING PARTIES,

Taking into account the special situation of Greece,

HAVE AGREED AS FOLLOWS:

The Community shall not oppose the granting by Greece of tariff quotas referred to in Article 21 of the Agreement of Association, provided that:

- (a) the aggregate annual value of those quotas does not exceed 10% of the value of Greek imports from third countries during the last year for which statistics are available, excluding imports effected with resources referred to in the Protocol on the use by Greece of American aid;
- (b) the value of imports of a product permitted under the tariff quotas does not exceed one-third of the total imports of that product into Greece during the last year for which statistics are available.

The 10% mentioned in subparagraph (a) shall include imports from third countries which are allowed to enter duty-free pursuant to special provisions for the development of the Greek economy or pursuant to contractual obligations.

Greece shall inform the Council of Association of the measures it proposes to take pursuant to this Protocol.

The Council of Association may, at the end of the transitional period laid down in Article 6 of the Agreement, decide whether this Protocol is to be rescinded or amended.

PROTOCOL No 9
on the use by Greece of American aid

THE CONTRACTING PARTIES,

Anxious not to prejudice the use of American aid by Greece,

HAVE AGREED AS FOLLOWS:

1. Should provisions of the Agreement of Association impede the use by Greece of special assistance resources made available to the Greek economy, either directly by the Government of the United States of America or through an organ designated by that Government, Greece may, after notifying the Council of Association:

- (a) open import tariff quotas which satisfy the requirement laid down in Article 21 (2), of the Agreement for goods originating in the United States, the purchase of which is financed with those resources;
- (b) import free of duty goods which are gifts within the meaning of Title III of Public Law 480;
- (c) restrict invitations to tender to suppliers of products originating in the United States, where the use of the resources in question entails the importation of goods originating in the United States, or where a tendering procedure is prescribed by the legislation of Greece or the United States.

2. The Council of Association may, at the end of the transitional period laid down in Article 6 of the Agreement, decide whether this Protocol is to be rescinded or amended.

Meanwhile, should changes occur in the nature of the resources referred to in paragraph 1 of this Protocol, or in the procedure governing their use, or should difficulties arise in respect of their use, the Council of Association shall reconsider the situation with a view to taking the appropriate measures.

This Protocol shall be annexed to the Agreement of Association.

THE CONTRACTING PARTIES,

HAVE AGREED AS FOLLOWS:

1. - Tobacco
- Dried grapes
- Olives
- Rosin
- Spirits of turpentine

2. As regards tobacco, the above procedure shall apply also to any change of more than 10% in the maximum and minimum specific duties.

3. During the transitional period laid down in Article 6 of the Agreement and as regards the products listed in paragraph 1, the Council of Association must give its consent before one or more Member States may suspend the levying of duties in whole or in part, or open tariff quotas in respect of imports from third countries which are not associated with the Community, where the annual volume involved for the Community as a whole exceeds the following limits:

(a) for tobacco, 22 000 metric tons;

(b) for other products, 15% of the volume of Community imports from third countries during the last year for which statistics are available.

As regards rosin and spirits of turpentine, the Council of Association shall authorize the granting of tariff quotas for more than the quantities specified in the foregoing subparagraph if the conditions set out in Article 25 (1), of the Treaty establishing the Community are fulfilled, account being taken of the quantities produced in Greece which can be exported to the Community under normal marketing conditions.

The Council of Association may, at the end of the transitional period laid down in Article 6 of the Agreement, decide whether this paragraph is to remain in force or be amended.

4. Where the Community opens tariff quotas for the five products listed in paragraph 1, the treatment accorded to Greece shall not be less favourable than that accorded to a country not party to the Agreement.

This Protocol shall be annexed to the Agreement of Association.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 12
on Articles 12 and 37 of the Agreement of Association

THE CONTRACTING PARTIES,
HAVE AGREED AS FOLLOWS:

The levy system envisaged within the framework of the common agricultural policy constitutes a measure specific to that policy which in the case of its application by either Party is not to be considered as a charge having equivalent effect to customs duties within the meaning of Articles 12 and 37 of the Agreement of Association if applied by either Party.

The Community declares, however, that at the present time the levy system is not envisaged for products listed in Annex III. If, however, levies are also imposed on those products, Greece shall enjoy the same treatment as that applied by Member States to each other. This arrangement shall remain in force until the Council of Association has taken the decision provided for in Article 35, or until expiry of the two-year and one-year time limits referred to in Article 36 (1) and (2) respectively.

This Protocol shall be annexed to the Agreement of Association.

For this purpose, notwithstanding Article 37 (2) of the Agreement of Association and until the Council of Association has taken the decision provided for in Article 35, Greece shall apply in respect of products listed in the annex to this Protocol and coming from Member States of the Community, the rules laid down in Articles 15, 26 and 27 of the Agreement for the abolition of customs duties, import quotas, and charges and measures having equivalent effect.

However, the rates of the four reductions listed in Article 15 (1) shall be:

If these rules are not laid down at the end of the tenth year, Greece shall be free to take any measure which it considers appropriate, on condition that the rules applicable to trade in the product in question are at least as favourable as those applicable to imports from States receiving general most-favoured-nation treatment.

4. The measures which the Council of Association decides to take, following the annual review provided for in Article 40 of the Agreement, may lead to amendment of the list annexed to this Protocol.

5. As progress is made in the implementation of the Agreement, Greece shall endeavour to extend import openings, both with regard to the products listed in the annex to this Protocol and to other agricultural products from the Community, in order to achieve a harmonious development of agricultural trade.

PROTOCOL No 14

on Greek exports of wine of fresh grapes, and of grape must with fermentation arrested by the addition of alcohol (heading No 22.05 in the Brussels Nomenclature)

THE CONTRACTING PARTIES,

Conscious of the special problems involved in working out a common agricultural policy for wine on the one hand and of the importance of wine exports to the Greek economy on the other,

HAVE AGREED AS FOLLOWS:

1. The Federal Republic of Germany shall open tariff quotas in favour of Greece for the quantities shown below, at the rate of duty chargeable on imports from other Member States of the Community:

- wines for direct consumption: 65 000 hl
- wines for the preparation of vermouth, for making vinegar or for distillation or coupage: 100 000 hl

2. The Kingdom of Belgium, the Grand Duchy of Luxembourg and the Kingdom of the Netherlands shall apply to imports from Greece the treatment accorded to imports from Germany France and Italy.

3. The French Republic and the Italian Republic declare their readiness to open a quota in favour of Greece, in connection with the opening of quotas for imports from their fellow Members of the Community, and after the problem has been examined in the Council of Association.

4. The French Republic shall charge, on imports of Samos muscatel wines accompanied by a certificate of origin, the duties chargeable on liqueur wines imported from Member States.

5. Whenever quotas existing within the Community are increased, the Council of Association shall make a corresponding increase in favour of Greece.

As regards the tariff quota for wines for the preparation of vermouth, for making vinegar or for distillation and coupage, whenever the Federal Republic of Germany increases quotas for imports from Member States of the Community of wines for direct consumption, the Council of Association shall make a corresponding increase in favour of Greece.

6. The preceding paragraphs shall remain in force until the Council of Association has taken the decision provided for in Article 35, or until expiry of the two-year and one-year time limits referred to in Article 36(1) and (2) respectively.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 15

on the importation of unmanufactured tobacco and tobacco refuse (heading No 24.01 in the Brussels Nomenclature)

THE CONTRACTING PARTIES,

Conscious of the importance of tobacco exports to the Greek economy,

HAVE AGREED AS FOLLOWS:

1. The customs duties in force for unmanufactured tobacco and tobacco refuse on 1 January 1957 in the Member States of the Community shall be reduced by 50% at the date of implementation of the Agreement of Association.

2. Member States shall, not later than the date of entry into force of the Agreement, make the initial alignment of their respective national tariffs for unmanufactured tobacco and tobacco refuse on the Common Customs Tariff, in accordance with Article 23 of the Treaty establishing the Community.

3. Customs duties on imports of unmanufactured tobacco and tobacco refuse from Greece into Member States shall be abolished by 31 December 1967 at the latest. From that date Member States shall apply the Common Customs Tariff in its entirety in respect of unmanufactured tobacco and tobacco refuse.

4. During the five years following the entry into force of the Agreement, Member States in whose territory trade in tobacco is carried on by a monopoly of a commercial character undertake to maintain their annual purchases of unmanufactured tobacco and tobacco refuse of Greek origin at the level of their average imports for manufacturing purposes during 1957, 1958 and 1959.

5. Pending the replacement of national tobacco organizations by a common organization, where imports of unmanufactured tobacco and tobacco refuse of Greek origin into Member States in whose territory trade in tobacco is not conducted by a monopoly of a commercial character are running at a higher level than average imports in 1957, 1958 and 1959 as a result of the tariff provisions set out in paragraphs 1, 2 and 3 above, the other Member States undertake to increase their purchases each year by an equivalent proportion of their average imports of unmanufactured tobacco and tobacco refuse of Greek origin for manufacturing purposes during 1957, 1958 and 1959.

In the first year in which the Agreement is in force, the French tobacco monopoly shall, as a temporary measure, increase its purchases of unmanufactured tobacco and tobacco refuse of Greek origin by 10% of its average imports from Greece for manufacturing purposes during 1957, 1958 and 1959.

6. Notwithstanding paragraphs 4 and 5 above, during the five years following the entry into force of the Agreement annual purchases by the Italian tobacco monopoly of unmanufactured tobacco and tobacco refuse of Greek origin shall be not less than 60% of that monopoly's imports of oriental types of tobacco; they must in any case amount to at least US \$ 2.8 million.

At the end of these five years, unless otherwise decided by the Council of Association, the Italian tobacco monopoly may either agree to continue the undertaking provided for in the foregoing subparagraph or comply with the first subparagraph of paragraph 5 of this Protocol.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 16

on the common agricultural policy for tobacco

THE CONTRACTING PARTIES,

Conscious of the special significance of tobacco for the economy and the export trade of Greece.

HAVE AGREED AS FOLLOWS:

1. During the first two stages of the transitional period laid down in the Treaty establishing the Community, the common agricultural policy for tobacco shall not be introduced or altered without the assent of the Council of Association.

2. The Community shall endeavour to introduce that policy during the first two stages mentioned in paragraph 1.

3. If that policy is introduced or altered after the end of the second stage of the transitional period laid down in the Treaty establishing the Community, it shall, while taking into account the objectives set out in Article 39 of that Treaty, be so devised as not to prejudice the maintenance and expansion of imports of tobacco from Greece resulting from the application of the Agreement of Association and of the Protocol on imports of unmanufactured tobacco and tobacco refuse.

4. If Greece cannot harmonize its policy with the common agricultural policy for tobacco as and when this is determined, Greece shall retain the right to maintain exports to the Community in an appropriate form at the amount which they have attained by that time. The amount of the increase designed to ensure the expansion of imports of Greek tobacco shall be determined by the Council of Association.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 17

on the importation of dried grapes (heading No ex 08.04 in the Brussels Nomenclature)

THE CONTRACTING PARTIES,

In order to encourage a rapid expansion of Greek exports of dried grapes to the Community,

HAVE AGREED AS FOLLOWS:

1. The customs duties in force for dried grapes on 1 January 1957 in Member States of the Community shall be reduced by 50% at the date of entry into force of the Agreement of Association.

3. Customs duties on imports of dried grapes into Member States shall be abolished not later than the end of the sixth year after the entry into force of the Agreement. From that date Member States shall apply the Common Customs Tariff in its entirety to dried grapes.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 18

on the exportation to the Community of certain Greek agricultural products

THE CONTRACTING PARTIES,

Conscious that the exportation of certain agricultural products is of vital importance to certain Member States of the Community and to Greece;

Having regard to the necessity of meeting as far as possible, within the framework of the Treaty establishing the Community and of the Agreement of Association with Greece, the requirements of the economies of Greece and Member States which export those agricultural products,

Have agreed to regulate exports of those agricultural products by Greece to the Community in the following manner:

1. This Protocol shall apply to the following fresh products:

- citrus fruit,
- grapes for direct consumption,
- peaches.

2. The protective clause in paragraph 3 of this Protocol may be invoked only if Greek exports to the Community of each of the products listed in paragraph 1 above exceed the following tonnages:

(a) from the date of entry into force of the Agreement of Association:

- citrus fruit 22 000 metric tons
- grapes for direct consumption 15 000 metric tons
- peaches 40 000 metric tons.

(b) from the second to the fifth year inclusive: for each year, the tonnage allowed for the previous year, plus 20%:

(c) from the sixth year until the expiry of this Protocol, the tonnage allowed for the previous year plus a percentage to be determined by the Council of Association.

If Greece should face real difficulties in maintaining its exports of citrus fruit to third countries with which it has bilateral trade agreements, the Council of Association shall consider the possibility of increasing the tonnages laid down above.

3. Where exports from Greece to the Community exceed the tonnages specified in paragraph 2, and where these exports are liable to create real difficulties for similar exports from Member States, the Community may, at the request of one of the Member States, and on a proposal from the Commission, take such measures as may be necessary.

There shall be prior consultation with Greece in the Council of Association.

4. Paragraphs 1 to 3 shall remain in force until the common agricultural policy of the Community and the agricultural policy of Greece have been harmonized as regards the products specified in paragraph 1, or until the expiry of the two-year and one-year time limits referred to in Article 36 (1) and (2) respectively of the Agreement.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 19

THE CONTRACTING PARTIES,

Desiring to promote the accelerated development of the Greek economy in furtherance of the objectives of the Agreement of Association.

HAVE AGREED AS FOLLOWS:

1. Request for the financing of investment projects which will serve to increase the productivity of the Greek economy and to further the objectives of the Agreement of Association may be made by the Greek State and by Greek undertakings to the lending agency designated by the Community.

2. The loans provided for in paragraph 1 may be granted to a total of US \$ 125 million. This amount may be used in the five years following the entry into force of this Protocol.

3. (a) the examination of the eligibility of projects and the granting of loans to the Greek State and to Greek undertakings shall be carried out in accordance with the rules, con-

ditions and procedures which the Statute of the European Investment Bank lays down for the granting of loans;

- (b) the length of the amortization period of each loan shall be determined on the basis of the economic features of the project to be financed: this period may be up to twenty-five years.
- (c) loans may be used to cover expenditure on imports or domestic expenditure, where such expenditure is necessary for carrying out approved investment projects;
- (d) Greece undertakes to make available to debtors of the lending agency the currency necessary for capital repayments and interest payments in respect of loans granted by that agency for projects to be carried out in Greece.

4. Loans shall bear interest at the same rate as that charged by the European Investment Bank at the time of signature of the loan contract. However, in view of the priority accorded in Greece's investment programme to investment projects the return on which is indirect or long term, in particular those relating to land improvement, roads and power, the loans may, for up to two-thirds of the total specified in paragraph 2, qualify for interest rebates of 3% per annum, if the nature of the project for which financing is requested so requires.

This Protocol shall be annexed to the Agreement of Association.

PROTOCOL No 20

on trade between Greece and overseas countries and territories associated with the Community

THE CONTRACTING PARTIES.

Taking into consideration the close economic ties between the Community and the overseas countries and territories associated with it:

Recognizing that the application to products originating in the overseas countries and territories of the rules laid down by the Treaty establishing the Community may give rise to problems in respect of the movement of those products within the customs union established between the Community and Greece;

Desiring to promote the development of trade between Greece and the overseas countries and territories.

Have agreed to settle as soon as possible the question of indirect trade between Greece and the overseas countries and territories associated with the Community, and to propose to the competent authorities of those countries and territories negotiations with the Greek authorities for the purpose of regulating by mutual agreement after consultation with the Community, the direct trade between those countries and territories and Greece.

This Protocol shall be annexed to the Agreement of Association.

ANNEX I**Declaration of Intent****1. Declaration of Intent on certain products of importance to Greece**

- (1) The Community declares that it does not contemplate establishing a common organization of the market in dried grapes.
- (2) The Council of Association shall examine the opportunities for expanding to the fullest possible extent trade in cotton between the Community and Greece.

2. Declaration of Intent on access by Greece to the European Investment Bank

The Member States of the Community, conscious of the importance for the development of the Greek economy of maintaining continuity in the external financing arrangements of Greece, declare their readiness to consider this question in the course of the five years following the entry into force of the Agreement of Association, and, in particular, to envisage access by Greece to the European Investment Bank.

ANNEX II**Interpretative Declarations****1. Interpretative Declaration on Article 31 of the Agreement of Association**

The Contracting Parties recognize that Article 31 of the Agreement of Association must be interpreted in accordance with the principles set out in Articles 37 and 90 of the Treaty establishing the Community.

2. Interpretative Declaration on Article 64 (3) of the Agreement of Association

The Contracting Parties recognise that the mutual interests to be taken fully into account in accordance with Article 64 (3) include the Community's interest in seeing other friendly nations accede to or associate themselves with it on equitable terms.

3. Interpretative Declaration on Paragraphs 5 and 6 of Protocol No 15 on imports of unmanufactured tobacco and tobacco refuse

The Contracting Parties declare that:

- (1) The first subparagraph of paragraph 5 of Protocol No 15 on the importation of unmanufactured tobacco and tobacco refuse shall be interpreted in such a manner that, if the French and Italian monopolies are fully adjusted in accordance with the Treaty establishing the Community before the common organization of the market has been substituted for national organizations, those monopolies shall no longer be governed by the undertaking specified in paragraphs 5 and 6. In that event, France and Italy shall be bound by the same obligations as countries in which tobacco is not the subject of a monopoly.

The Contracting Parties agree that the import openings provided for in paragraph 4 of that Protocol shall take a form to be determined on the basis of the Community rules for the product in question.

Letters exchanged at Athens on 9 July 1961 between the Heads of the Delegations of the Community and of Greece

TRANSLATION

Letter from : Mr Günther Seeliger, Head of the Delegation of the European Economic Community,

To : His Excellency Mr Jean Pasmazoglu, Minister Plenipotentiary, Head of the Greek Delegation.

Dated : 9 July 1961

Subject : Interpretation given by the Community to certain provisions of the Agreement of Association.

Athens, 9 July 1961

Your Excellency,

With reference to the Agreement signed today establishing an Association between the European Economic Community and Greece, I have the honour to bring to your notice the following texts on the interpretation given by the Community to certain provisions of the Agreement :

Article 64 (3)

"It is understood that Article 64 (3) shall be applicable only in the event of subsequent accession to or association with the Community and, in particular, shall not apply to the countries and territories already associated with the Community which are listed in Annex IV to the Treaty establishing the Community, even if the association arrangements set out in Part Four of that Treaty and in the Convention annexed thereto are amended at a later date."

Protocol N° 14 on Greek exports of wine of fresh grapes, and of grape must with fermentation arrested by the addition of a alcohol.

"The Community considers that the words "corresponding increase" in the second subparagraph of paragraph 5 are not to be interpreted as meaning that whenever the Federal Republic of Germany increases quotas for imports from Member States of the Community of wines for direct consumption, an identical or proportionate increase will automatically be made in quotas for imports from Greece of wines intended for the preparation of vermouth, for making vinegar, or for distillation or cutting (coupage). The corresponding increase in quotas for imports from Greece will have to be determined in the light of the export capacity of Greece and the sales outlets in the Federal Republic of Germany".

Declaration of Intent on access by Greece to the European Investment Bank.

"By signing the Declaration of Intent on access by Greece to the European Investment Bank, the Member States of the Community indicate that when the time comes to consider the question referred to in that Declaration, they will do so in the light of the current circumstances which then obtain and in particular of the needs of the Greek economy and the availability of other international financing resources.

I shall be obliged if you will acknowledge receipt of this letter.

Please accept, Your Excellency, the assurance of my highest consideration.

- (b) In other cases the Council or the Representatives of the Governments of the Member States meeting in the Council shall lay down the joint position unanimously, after consulting the Commission.

Article 2

2. Where a decision or recommendation of the Council of Association concerns a matter which is not within the province of the Community under the Treaty establishing the Community, the Member States shall adopt the necessary implementing measures.

Article 3

The procedures set out in Articles 1 and 2 above shall be without prejudice to the division of powers between Member States and the Community, as laid down by the Treaty establishing the Community.

Community, that State shall first consult the other Member States.

If the Council of Association is to adopt a position on measures taken by the Member State referred to in the preceding paragraph, the Community shall adopt the same position as the Member State concerned unless the Representatives of the Member States meeting in the Council should unanimously decide otherwise.

HAVE AGREED AS FOLLOWS:

TITLE I**GENERAL PROVISIONS***Article 1*

Goods which satisfy the conditions for the application of those provisions of the Agreement which relate to the progressive abolition between countries Parties to that Agreement (hereinafter called 'member countries') of customs duties and quantitative restrictions and of all measures having equivalent effect shall be eligible for treatment under those provisions when imported into a member country, on production to that country's customs authorities of the documentary evidence endorsed, at the request of the exporter, by the customs authorities of the exporting member country.

Article 2

1. Where goods are transported direct from the exporting member country to the importing member country, the documentary evidence referred to in Article 1 shall be movement certificate A.G.1. In other cases the documentary evidence required shall be movement certificate A.G.3.

2. For the purposes of paragraph 1 the following shall be considered as transported direct from the exporting member country:

- (a) goods transported without passing through the territory of a country not party to the Association;
- (b) goods transported through the territory of one or more countries which are not parties to the Association, provided that carriage through such countries is covered by a single transport document made out in a member country.

Article 3

Where a movement certificate A.G.1 or A.G.3 relates to goods obtained or produced in Member States of the Community under the conditions specified in Article 8 of the Agreement, this fact shall be recorded on the certificate.

TITLE II**SPECIAL PROVISIONS CONCERNING MOVEMENT CERTIFICATE A.G.1.***Article 4*

1. Movement certificate A.G.1 shall be endorsed by the customs authorities of the exporting member country at the time of exportation of the goods to which it relates. It shall be made available to the exporter as soon as exportation has been actually effected or ensured.

Exceptionally, movement certificate A.G.1 may be endorsed after exportation of the goods to which it relates if, through error or inadvertent omissions, it was not produced at the time of exportation. In that case, a special note shall be added explaining the circumstances in which it was endorsed.

¹ No 4, 20.1.1961.

2. Movement certificate A.G.1 may be endorsed only where it can serve as documentary evidence for the application of Article 1.

Article 5

Movement certificate A.G.1 must be submitted to the customs office of the importing Member State where the goods are presented within one month of the date of endorsement. This period shall be extended to two months, however, where the goods are transported wholly or partly by sea.

TITLE III

SPECIAL PROVISIONS CONCERNING MOVEMENT CERTIFICATE A.G.3.

Article 6

Movement certificate A.G.3 shall be issued by the customs authorities of the exporting Member State at the time of exportation of the goods to which it relates. It shall be made available to the exporter as soon as exportation has been actually effected or ensured.

Under no circumstances may a movement certificate A.G.3 be issued after exportation of the goods has been effected.

Movement certificate A.G.3 shall be made out in such a way as to enable the goods to which it relates to be identified when imported at a later date into another member country. The customs authorities of the exporting member country shall take such measures as they consider necessary to facilitate such identification, and shall note these on the certificate.

Article 7

Movement certificate A.G.3 must be submitted to the customs authorities of the importing member country within six months of the date of issue thereof. It shall be valid only in respect of the quantity of goods presented to the customs authorities of the importing member country during that period.

TITLE IV

PROVISIONS COMMON TO MOVEMENT CERTIFICATES A.G.1 and A.G.3.

Article 8

Movement certificates A.G.1 and A.G.3 shall be made out in the form shown in the annex to this Agreement. They shall be in the language, or in one of the languages, of the exporting member country. In Greece they may also be completed in one of the official languages of the Community. They shall be typed or handwritten; if the latter they shall be in ink in block letters.

Member countries may require duplicate copies of the movement certificates to be submitted to the customs office of export at the same time as the originals.

The size of the certificates shall be 21 x 30 cm. The paper used shall be sized writing paper, containing no mechanical pulp, and weighing not less than 64g/m². It shall have a printed green guilloche-pattern background such as to reveal any falsification by mechanical or chemical means.

A double band shall be printed diagonally across the front of each certificate from the lower left to the top right corner. The double diagonal band shall be in blue for movement certificate A.G.1 and in red for movement certificate A.G.3.

Member countries may themselves print the certificate forms or may entrust the work to printers authorized by them. In the latter case, reference to that authorization must appear on each certificate. Each certificate shall bear the distinguishing mark of the authorized printer and an identifying serial number.

Article 9

The movement certificates shall be submitted to the customs authorities of the importing member country in accordance with its procedural requirements. Those authorities shall have the right to require a translation of them. They may require the import declaration to be supplemented by a statement by the importer that the goods satisfy the conditions required by the Agreement of Association.

TITLE V

OTHER PROVISIONS

Article 10

The following shall be accepted as eligible for treatment under the provisions of the Agreement relating to the progressive abolition, in trade between the member countries, of customs duties and quantitative restrictions, and of all measures having equivalent effect, without production of movement certificate A.G.1 or A.G.3:

- (a) Dutiable articles accompanying travellers or contained in their personal luggage, if they are not intended for commercial use and their total value does not exceed the equivalent in national currency of 200 units of account, and if they are declared to comply with the conditions required for the application of such provisions and the accuracy of this declaration is not in doubt;
- (b) Postal packets (including parcels) sent direct from the exporting member country to the importing member country, unless it is indicated on the packaging or accompanying documents that the goods contained therein do not comply with the conditions laid down in Article 7 of the Agreement. Such indication shall be a yellow DD 2 label affixed in all these cases by the customs authorities of the exporting member country.

Article 11

In order to ensure that this Agreement is properly applied, the Governments of member countries shall afford one another assistance in verifying the authenticity of the certificates and that the entries thereon tally with those of the corresponding export documents.

Article 12

1. The Governments of Member Countries shall take all necessary measures to ensure that movement certificates A.G.1 and A.G.3 can be submitted, in accordance with Article 9, from 1 November 1962.

2. Movement certificates (provisional form) issued under Protocol No 2 shall continue to be valid, if they have been or are submitted to the customs authorities of a member country within two months of their date of issue.

Article 13

This Agreement is drawn up in two copies in the Dutch, French, German, Italian and Greek languages, all five texts being equally authentic. One copy shall be deposited in the archives of the Secretariat of the Councils of the European Communities and the other in the archives of the Government of the Kingdom of Greece.

 - (c) goods obtained or produced within that exporting member country, and in the manufacture of which have been used products on which the applicable customs duties or charges having equivalent effect have not been levied in that member country or products which have benefited from a total or partial drawback of such duties or charges, subject to the collection, where appropriate, of the compensatory levy prescribed for those goods in Article 8 of the Agreement.

Note: The statement 'Compensatory Levy - Greece' must appear on all movement certificates A.G.1 for goods obtained or produced in the Member States of the EEC from products coming from a third country on which the applicable customs duties and charges having equivalent effect have not been levied in any Member State

- (d) goods originally imported from a member country which on exportation fall within one of the categories (a), (b) or (c) above

Note: In the case of goods originally imported into the exporting member country under the cover of a movement certificate bearing the statement 'Compensatory levy - Greece', the movement certificate or certificates A.G.1 issued in lieu of the latter must also bear the statement 'Compensatory levy - Greece'

2. Movement certificates A.G.1 may not be endorsed for goods exported from a member country to another member country when these goods:
 - (a) come within the province of the European Coal and Steel Community;
 - (b) were originally imported from a country not party to the Association to the exporting member country under a preferential system because of their country of origin or place of consignment

II. SCOPE OF THE MOVEMENT CERTIFICATE A.G.1

The movement certificate A.G.1 may be used only if the goods to which it relates are transported direct from the exporting member country to the importing member country

The following shall be considered as transported direct from the exporting member country to the importing member country

- (a) goods transported without passing through the territory of a country not party to the Association;

not parties to the Association provided that carriage through such countries is covered by a single transport document made out in a member country

Note: Before requesting endorsement of movement certificate A.G.1 by the customs authorities of the exporting member country, the exporter must satisfy himself that the goods will in fact be transported direct to the importing member country. It is also recommended that the exporter or the carrier show on the transport document covering the dispatch of the goods the serial number of the movement certificate A.G.1.

IV. EFFECT OF THE MOVEMENT CERTIFICATE A.G.1

When correctly used, the movement certificate A.G.1 enables the goods described therein to benefit in the importing member country from the progressive elimination of customs duties, quantitative restrictions and all other measures having equivalent effect. However, when the movement certificate bears the statement 'Compensatory

levy - Greece', goods described therein shall not be eligible for this preferential treatment in the Member States of the EEC.

The customs authorities of the importing Member Country may, if they consider it necessary, require any other documentary evidence and in particular transport documents under cover of which the goods were dispatched

V. TIME LIMIT FOR SUBMISSION OF THE MOVEMENT CERTIFICATE A.G.1

I. GOODS FOR WHICH A MOVEMENT CERTIFICATE A.G.3 MAY BE ENDORSED

1. A movement certificate A.G.3 may be endorsed only for goods which, in the exporting member country ^(*), fall within one of the following categories:
 - (a) goods produced in that exporting member country, including those obtained or produced wholly or partly from products on which the applicable customs duties or charges having equivalent effect have been levied in that member country and which have not benefited from a total or partial drawback of such duties or charges;
 - (b) goods in free circulation in that exporting member country, within the meaning of Article 7 (2) of the Agreement (goods coming from a third country, in respect of which import formalities have been complied with and any customs duties or charges having equivalent effect have been levied in that member country, and which have not benefited from a total or partial drawback of such duties or charges);
 - (c) goods obtained or produced within that exporting member country, and in the manufacture of which have been used products on which the applicable customs duties or charges having equivalent effect have not been levied in that member country or products which have benefited from a total or partial drawback of such duties or charges, subject to the collection, where appropriate, of the compensatory levy prescribed for those goods in Article 8 of the Agreement;

Note: The statement 'Compensatory levy - Greece' must appear on all movement certificates A.G.3 for goods obtained or produced in the Member States of the EEC from products coming from a third country on which the applicable customs duties and charges having equivalent effect have not been levied in any Member State.

- (d) goods originally imported from a member country which on exportation fall within one of the categories (a), (b) or (c) above
Note: In the case of goods originally imported into the exporting member country under the cover of a movement certificate bearing the statement 'Compensatory levy - Greece', the movement certificate or certificates A.G.3 issued in lieu of the latter must also bear the statement 'Compensatory levy - Greece'
2. Movement certificates A.G.3 may not be issued for goods exported from a member country to another member country when these goods:
 - (a) come within the province of the European Coal and Steel Community;
 - (b) were originally imported from a country not party to the Association to the exporting member country under a preferential customs system because of their country of origin or place of consignment.

II. SCOPE OF THE MOVEMENT CERTIFICATE A.G.3

A movement certificate A.G.3 may be used in all cases where a movement certificate A.G.1 cannot be used owing to the fact that the goods are not transported direct from the exporting member country to the importing member country. The following shall be considered as transported direct from the exporting member country to the importing member country:

- (a) goods transported without passing through the territory of a country not party to the Association;

(b) goods transported through the territory of one or more countries not party to the Association provided that carriage through such countries is covered by a single transport document made out in a member country.
 In particular, the movement certificate A.G.3 may be used for goods exported from a member country to a country not party to the Association, from which they are liable to be re-exported subsequently to a member country.

III. RULES FOR COMPLETING THE MOVEMENT CERTIFICATE A.G.3

1. The movement certificate A.G.3 must be completed in the language of the exporting member country or in one of the languages of that country. Where the exporting member country is Greece, it may also be completed in one of the official languages of the European Economic Community.
2. The movement certificate A.G.3 must be typed or handwritten; if the latter it must be completed in ink in block letters. It must not contain any erasure or superimposed correction. Any alteration must be made by deleting the incorrect particulars and adding any necessary corrections. Any such alteration must be initialed by the person who completed the certificate and endorsed by the customs authorities.
3. The 'declaration by the exporter' on the second page of the movement certificate

A.G.3 must be completed in full. In particular, the place of loading, the date of dispatch and the country of destination at the time of export must be stated.

4. Each item listed on the movement certificate A.G.3 must be preceded by a serial number. A horizontal line must be drawn immediately after the last entry. Unused space must be struck through so as to make any later addition impossible.
5. Goods must be described in accordance with commercial usage and in great detail so as to ensure that they can be identified easily. The description of the goods must include the number of the tariff heading applicable to each item.
 The exporter must include with the movement certificate A.G.3 all documents such as plans, drawings, photographs or commercial prospectuses, etc., which may help identification. If they consider it necessary, the customs authorities of the exporting country shall annex these documents to the movement certificate A.G.3

IV. EFFECT OF THE MOVEMENT CERTIFICATE A.G.3

A movement certificate A.G.3 enables the goods described therein to benefit from the progressive elimination of customs duties, quantitative restrictions and all other measures having equivalent effect where there is no doubt that the goods actually imported are those described in that movement certificate A.G.3. However, when the movement certificate A.G.3 bears the statement 'Compensatory levy - Greece', goods described therein shall not be eligible for this preferential treatment in the Member States of the EEC.

The customs authorities of the importing member country may require submission of any supporting evidence if they consider there is doubt as to the identity of the goods and may exclude the goods from the progressive elimination of customs duties, quantitative restrictions and all measures having equivalent effect if satisfactory evidence cannot be produced.

V. TIME LIMIT FOR SUBMISSION OF THE MOVEMENT CERTIFICATE A.G.3

The movement certificate A.G.3 must be submitted to the customs authorities of the importing member country within a period of six months from the date of issue. It

Regulation No 162/66/EEC of the Council of 27 October 1966 on trade in oils and fats between the Community and Greece	15 - 26

REGULATION No 162/66/EEC OF THE COUNCIL
of 27 October 1966
on trade in oils and fats between the Community and Greece

THE COUNCIL OF THE EUROPEAN ECONOMIC COMMUNITY,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof;

Having regard to the proposal from the Commission;

Having regard to the Opinion of the European Parliament;

Whereas Council Regulation No 136/66/EEC¹ on the establishment of a common organisation of the market in oils and fats establishes a common system of trade in oils and fats; whereas this system provides for the application of customs duties for most products, but for olive oil, olives, olive residues and other residues it provides for a system of levies;

Whereas the customs duties applied by Member States to Greece are laid down in the Agreement establishing an Association between the European Economic Community and Greece; whereas Member States should not charge customs duties on imports of olives falling within tariff sub-heading No 07.01 N or 07.03 A for the purposes other than the production of oil;

Whereas Protocol No 12 to that Agreement stipulates that, should levies be fixed for olive oil and olives, Greece shall, in anticipation of the harmonisation of the agricultural policies of the Community and Greece, be accorded the same treatment as that applied by the Member States between themselves;

Whereas Regulation No 136/66/EEC provides, in respect of olive oil, for a single production target price, a single market target price, a single threshold price and a single intervention price; whereas these

rules for determining prices, ensure that, subject to differences due to natural conditions of price formation, the price level for olive oil and olives will be the same in all Member States; whereas it is therefore possible, in accordance with the principles of the levy system, to dispense with levies in trade between Member States;

Whereas the rules for determining prices introduced by Regulation No 136/66/EEC do not extend to Greece; whereas differences may therefore arise between the price on the Greek market and that on the Community market; whereas such differences must, in accordance with the principles of the levy system, be compensated by a levy calculated on the basis of the rules generally applied, within the framework of the common agricultural policy, to trade between Member States;

Whereas, since Greece is not obliged to apply the system of levies established by the Community to olive oil and olives imported from third countries, the application of the special levy in question to exports from Greece to the Community which do not consist of products obtained entirely in Greece might lead to substantial deflections of trade; whereas the application of the special levy must consequently be restricted to products obtained entirely in Greece;

Whereas the system laid down in this Regulation for imports and exports of olive oil and olives might in certain circumstances lead to disturbances on the Community market; whereas provision should therefore be made for dealing with such a situation;

Whereas the introduction of the system mentioned above makes it possible to eliminate all other obstacles to trade between the Community and Greece;

Whereas, in compliance with commitments arising from the Association Agreement, certain provisions of Regulation No 136/66/EEC may be applied to trade between the Community and Greece;

HAS ADOPTED THIS REGULATION:

Article 1

Trade between the Community and Greece in products listed in Article 1 (2) of Regulation No 136/66/EEC, hereinafter called the 'basic Regulation', shall be governed by the following provisions.

Article 2

1. As regards the products listed in Article 1 (2) (a), (b) and (d) of the basic Regulation, Member States shall, in trade between the Community and Greece, apply the customs duties applicable under the Agreement establishing an Association between the European Economic Community and Greece, hereinafter called the 'Agreement'.

2. In order to eliminate difficulties which might arise on the Community market by reason of disparities in the duties applicable under Article 37 (3) of the Agreement, the Council, acting in accordance with the voting procedure laid down in Article 43 (2) of the Treaty on a proposal from the Commission, shall, not later than 30 June 1967, adopt the necessary measures to be applied within the Community.

Article 3

1. On imports of unrefined olive oil produced entirely in Greece and transported direct from that country into the Community, a levy shall be charged equal to the difference between the threshold price, fixed in accordance with Articles 4, 8 and 9 of the basic Regulation, and the free-at-frontier price, less a standard amount.

2. The free-at-frontier price, calculated for the Community frontier crossing point fixed in accordance with Article 13 (2) of the basic Regulation, shall be determined on the basis of the most favourable purchasing opportunities on the Greek market; prices shall be adjusted to allow for any deviations from the description or quality for which the threshold price was fixed.

3. The standard amount for the 1966/67 marketing year is fixed at 0.5 units of account per 100 kilogrammes of imported product.

For subsequent marketing years, the method of calculation and the level of the standard amount shall be determined each year by the Council, acting in accordance with the voting procedure laid down in Article 43 (2) of the Treaty on a proposal from the Commission, after prior consultation with Greece on the level of the standard amount.

4. The levy shall be fixed by the Commission. Detailed rules for the application of this Article shall be adopted in accordance with the procedure laid down in Article 38 of the basic Regulation.

Article 4

1. On imports of refined olive oil produced entirely in Greece transported direct from that country to the Community, a levy shall be charged made up of a variable component and a fixed component, determined as follows:

The variable component shall be equal to the difference between the threshold price and the free-at-frontier price applicable to the quantity, which may be fixed at a standard rate, of olive oil needed for the production of the imported product.

The fixed component applicable for the 1966/67 marketing year shall be equal to 40% of the fixed component determined in accordance with Article 14 of the basic Regulation. This percentage shall be reduced to 30% for the 1967/68 marketing year and to 15% for the 1968/69 marketing year. The fixed component shall be abolished from 1 November 1969.

2. Detailed rules for the application of this Article shall be adopted by the Council, acting in accordance with the voting procedure laid down in Article 43 (2) of the Treaty on a proposal from the Commission.

Article 5

On imports of olives falling within sub-heading No 07.01 N or 07.03 A harvested in Greece and transported direct from that country into the Community, excluding those for purposes other than the production of oil, a levy shall be charged calculated on the amount of the levy applicable under Article 3 to olive oil, by reference to the oil content of the imported product, the relevant customs duties not being charged.

On imports from Greece into the Community of olives falling within tariff sub-heading No 07.01 N or 07.03 A, for purposes other than the production of oil, Member States shall not charge customs duties. The same shall apply to olives falling within tariff sub-heading No 07.01 N or 07.03 A not harvested in Greece but transported direct from that country into the Community for the production of oil.

2. On imports of the products listed in Article 1 (2) (e) of the basic Regulation which are produced entirely in Greece and transported direct from that country into the Community, a levy shall be charged

calculated on the amount of the levy applicable to the olive oil referred to in Article 3 (1), by reference to the oil content of the imported product.

The levy may, however, be charged only in accordance with the provisions of Article 37 (3) (a) of the Agreement.

3. Detailed rules for the application of this Article, and in particular those regarding the determination of the oil content, which may be fixed at a standard rate, shall be adopted by the Council, acting in accordance with the voting procedure laid down in Article 43 (2) of the Treaty on a proposal from the Commission.

Article 6

1. Should the Community market in olive oil experience or be threatened with serious disturbances by reason of:

- imports of the products listed in Article 1 (2) (c), (d) and (e) of the basic Regulation produced entirely in Greece and transported direct from that country into the Community, in particular when the intervention agencies might, because of such imports, be induced to buy in substantial quantities of olive oil pursuant to Article 11 (1) of the basic Regulation, or
- exports of olive oil to Greece, in particular when by reason of those exports, the market price of olive oil might appreciably exceed or threaten to exceed the level of the market target price or when, by reason of those exports, a decision has been taken to dispose of the buffer stock,

appropriate measures may be applied until such disturbance or threat of disturbance has ceased.

2. All decisions taken under paragraph 1 shall be communicated to Greece.

3. The nature of the measures which may be adopted and the conditions for applying this Article shall, after consultation with Greece, be laid down by the Council acting in accordance with the voting procedure laid down in Article 43 (2) of the Treaty on a proposal from the Commission.

Article 7

Subject to the provisions of Article 6, 8, and 9 the following shall, in trade with Greece, be incompatible with the application of the provisions of this Regulation:

- the charging of any customs duty, or charge having equivalent effect, other than those provided for in this Regulation;
- the application of any quantitative restriction or measure having equivalent effect;
- recourse to Article 41 of the Agreement in respect of the products listed in Article 1 (2) (c), (d) and (e), excluding those falling within headings Nos ex 07.02 and ex 07.04 B of the basic Regulation.

Article 8

Subject to the provisions of the Agreement, both the following Articles of the basic Regulation and the measures adopted for their application shall apply: Article 3 (3) and (5); the second sentence of Article 10 (2); Article 16; Article 17; Article 18; Article 19; Article 27 (3) (c) and (5); Article 28; Article 35; Article 41 (1) and the third paragraph of Article 43.

Article 9

When the products imported into the Community are not produced entirely in Greece or are not transported direct from that country into the Community, Articles 13, 14, 15 and 20 of the basic Regulation shall apply to the products covered by those Articles, subject to the provisions of the Agreement.

Article 10

The Council, acting in accordance with the voting procedure laid down in Article 43 (2) of the Treaty on a proposal from the Commission, may after consultation with Greece amend the list of products to which this Regulation applies, or adopt any measure in derogation therefrom, in order to take account of any special conditions affecting such products.

Article 11

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Communities*.

It shall apply to the products listed in Article 1 (2) (c), (d) and (e) of the basic Regulation from the date of entry into force of that Regulation in respect of those products, and from 1 July 1967 in respect of the other products listed in Article 1 of that Regulation.

This Regulation shall be applicable until the decision of the Association Council provided for in Article 35 of the Agreement is taken or until the periods of two years and one year provided for respectively in Article 36 (1) and (2) of the Agreement have expired.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
