16 DECEMBER 1976

DOCUMENT 496/76

MOTION FOR A RESOLUTION
tabled by Mr Ove GULDBERG

pursuant to Rule 25
of the Rules of Procedure

on /sectoral structural policy

PE 47.260

The European Parliament,

- having regard to the structural problems in certain sectors in the Member States,
 - having regard to the Community's responsibilities as regards the industrial development of the poor developing countries and the resulting implications for the production structures of the industrialized countries,
1. Stresses that not even a marked and lasting economic upturn would be sufficient in itself to solve the structural problems of the Member States;
 2. Notes that the Community has never made any serious efforts to develop a sectoral structural policy;
 3. Stresses the increasing discrepancies between the gross per capita domestic products of the rich and poor regions of the Community;
 4. Is convinced that a Community solution of the sectoral structural problems will substantially contribute to a balanced development of the regions in the Community;
 5. Calls on the Commission to draw up a proposal showing how the Community could develop a coherent structural policy;
 6. Instructs its President to forward this resolution to the Council and Commission of the European Communities.
