Oral Question Doc. 1-297/79

on the ~~draft~~ Community regulation on sheepmeat

The European Parliament,

1. Regrets that the Council has not yet adopted a common organization of the markets in sheepmeat;
2. Considers that the adoption of a Community organization of these markets which, once in operation, would replace existing national organizations, should under no circumstances harm the principal producers in the Community;
3. Feels that this Community organization of the markets, aimed at protecting farmers' incomes, should be based on the fundamental principles of the common agricultural policy and include in particular:
 - guaranteed prices with an intervention system,
 - respect for the Community preference scheme through the introduction of levies to be added to customs duties which should be deconsolidated.
4. Instructs its President to forward this resolution to the Council and Commission.
