on employment policy

The European Parliament,

- having regard to the underemployment currently latent in all our countries,
 - having regard to the unlikely prospect of the employment situation improving in the coming years,
 - having regard to the action repeatedly initiated in the past by the Committee on Social Affairs with own-initiative reports, oral questions and efforts aimed at improving preparations for Tripartite Conferences,
 - appreciating the efforts made by the Commission in this field,
1. Stresses the imperative need for joint action at regular intervals by the Commission, the governments and the two sides of industry in the form of interprofessional and sectoral Tripartite Conferences,
 2. Calls on the Commission to provide adequate and regular information as a means of coordinating all the efforts undertaken by the various Member States in this field,
 3. Proposes that existing measures to assist the young unemployed be reviewed and the measures adopted by the Council in this connection on 23 December 1978 extended to assist all young people,
 4. Considers that aid from the European Social Fund should also be used to assist those affected by the spread of unemployment,
 5. Asks the Commission to launch a campaign to acquaint the public not only with its short-term programme, but also with the implications of a long-term programme,
 6. Demands that any policy to strengthen monetary stability, the establishment of an energy policy and the implementation of an industrial policy be such as to create an atmosphere likely to encourage production, thereby providing the necessary jobs for the future,
 7. Instructs its President to forward this resolution to the Council and Commission.
