## Notice to readers

---

This annual index is intended as a guide for tracing information published in 1976 in the Bulletin of the European Communities or in the Tenth General Report on the Activities of the European Communities in 1976.

The index is based on key expressions which appear in the documents and give an indication of the various subjects covered.

Each key expression can be traced through any of its main words.

The key expression is followed by a reference composed of four elements:

- the document type (B for the Bulletin and R for the General Report);
- the year of publication;
- the number of the issue in the year in question (00 for the General Report and 07 for the Bulletin 7/8);
- the number of the section to which the key expression relates.

When a key expression mentions an action taken by a Community institution or body, a code preceding the reference in question indicates the body responsible for taking that action:

- European Parliament ..... P
- Commission of the European Communities ..... C
- Economic and Social Committee ..... S
- European Council ..... L
- ECSC Consultative Committee ..... A

This index, which is intended as an aid to users of the Bulletin and the General Report, was compiled by a specialized firm. Responsibility for selection of the key words which make up the index is the compiler's, not the Commission's.
