Notice to readers

This annual index is intended as a guide for tracing information published in 1975 in the Bulletin of the European Communities or in the Ninth General Report on the Activities of the European Communities in 1975.

The index is based on key expressions which appear in the documents and give an indication of the various subjects covered.

Each key expression can be traced through any of its main words.

The key expression is followed by a reference composed of four elements:

- the document type (B for the Bulletin and R for the General Report);
- the year of publication;
- the number of the issue in the year in question (00 for the General Report and 07 for the Bulletin 7/8);
- the number of the section to which the key expression relates.

When a key expression mentions an action taken by a Community institution or body other than the Council or the Commission, a code preceding the reference in question indicates the body responsible for taking that action:

- European Parliament P
- Economic and Social Committee S
- ECSC Consultative Committee A
