Notice to readers

This annual index is intended as a guide for tracing information published in 1979 in the Bulletin of the European Communities.

The index is based on key expressions which appear in the documents and give an indication of the various subjects covered.

Each key expression can be traced through any of its main words.

The key expression is followed by a reference composed of four elements :

- the document type (B for the Bulletin) ;
- the year of publication ;
- the number of the issue in the year in question (07 for the Bulletin 7/8) ;
- the number of the section to which the key expression relates.

When a key expression mentions an action taken by a Community institution or body, a code preceding the reference in question indicates the body responsible for taking that action :
