The Financial Controller has approved this proposal, attesting that the appropriations are available at 16 May 1979.

REASONS

On 25 July 1978, the Council adopted Regulation No 1852/78 (OJ L 211) on an interim common measure for restructuring the inshore fishing industry.

This Regulation comes within the same framework as the long-term measure for inshore fishing provided for in the proposal for a Regulation on a measure for restructuring the inshore fishing industry which the Commission placed before the Council on 28 November 1975 (COM(75)574 final) and which was last amended on 8 June 1978 (COM(78)247 final).

Applications for aid received by the Commission pursuant to the interim measure have far exceeded the appropriation of 5 million EUA authorized by the 1978 Budget. Accordingly, and in the absence of an agreement on the long-term measure, the Commission has put forward a proposal to amend the Regulation on the interim measure by extending it to the financial year 1979. The Council adopted the relevant Regulation No 592/79 (OJ L 78) on 26 March 1979.

- (a) Expenditure of 15 m EUA earmarked for this measure is to be charged against Article 860: "Gommon measures to improve the structures of non-industrial inshere fisheries" in respect of which the 1979 Budget carries a token entry; however, an appropriation of 5 m EUA is entered in Chapter 100 and it is requested that this be transferred to the heading in question.
- (b) To complete the allocation, it is proposed to withdraw 10 m EUA from Item 8360: "Premium for the non-marketing of milk and the conversion of dairy herds" for which the 1979 Budget authorizes appropriations for commitment and payment totalling 73.4 m EUA; added to this is a total of 66 m EUA not committed and unused at the end of the 1978 financial year.

This reduction in appropriations does not affect the implementation of the non-marketing measure which is progressing at a slower rate than anticipated.
