VORWORT

Die vorliegende Veröffentlichung enthält die Außenhandelsergebnisse der Gemeinschaft, aufgegliedert nach der Harmonisierten Nomenklatur für die Außenhandelsstatistiken der EWG-Mitgliedstaaten (NIMEXE).

Die NIMEXE stellt eine statistische Untergliederung der Nomenklatur des Gemeinsamen Zolltarifs der EWG (GZT) dar, die ihrerseits aus einer Untergliederung der Nomenklatur für das Brüsseler Zolltarifschema 1955 (BZT) hervorgegangen ist. Alle Mitgliedstaaten der EWG haben ab 1. Januar 1966 ihre nationalen Außenhandelsnomenklaturen so angeglichen, daß trotz eigener Verschlüsselung ab 5ter Stelle und für nationale Zwecke erforderlicher zusätzlicher Unterteilungen jede Warenposition der NIMEXE erstellt werden kann. Durch einfaches Zusammenlegen von NIMEXE-Positionen ergeben sich daher die für Verhandlungen auf EWG-Ebene nötigen Auskünfte über den Außenhandel. Die Zahl der für die einzelnen Mitgliedstaaten vergleichbaren Warenpositionen beläuft sich gegenwärtig auf rd. 6.000.

Die Analytischen Übersichten des Außenhandels der EWG (NIMEXE) erscheinen in 12 Einzelbänden, die nach Warenkategorien des Brüsseler Zolltarifschemas (BZT) geordnet sind und jeweils Einfuhr und Ausfuhr in Mengen, Werten und zusätzlichen Maßstäben nachweisen. Hierdurch wird die Analyse der Ergebnisse wesentlich erleichtert.

AVANT-PROPOS

La présente publication contient les résultats du commerce extérieur de la Communauté, ces résultats étant ventilés suivant la Nomenclature Harmonisée pour les Statistiques du Commerce Extérieur des Pays de la CEE (NIMEXE).

La NIMEXE constitue la ventilation statistique de la nomenclature du Tarif Douanier Commun de la CEE (TDC), issue à son tour de la ventilation de la Nomenclature pour la classification des marchandises dans les Tarifs douaniers, dite Nomenclature de Bruxelles de 1955 (NDB). Depuis le 1er janvier 1966, tous les Etats membres de la CEE ont aligné leurs nomenclatures nationales du commerce extérieur de façon que l'on peut aisément reconstituer chaque position de la NIMEXE, bien que les pays aient maintenu leur propre ventilation à partir de la 5ème décimale ainsi que des subdivisions complémentaires pour les besoins nationaux. Ainsi, le simple regroupement de positions NIMEXE fournit les renseignements nécessaires pour les négociations menées au niveau de la CEE. Le nombre de positions comparables pour les Etats membres est actuellement d'environ 6.000.

Les Tableaux Analytiques du Commerce Extérieur de la CEE (NIMEXE) se composent de 12 volumes individuels, classés par catégories de produits selon la Nomenclature Douanière de Bruxelles (NDB). Chaque volume groupe les importations et exportations exprimées en quantités, valeurs et unités supplémentaires, ce qui facilite nettement l'analyse des résultats.

PREFAZIO

La presente pubblicazione contiene i dati degli scambi commerciali con l'estero della Comunità secondo le singole voci della Nomenclatura Armonizzata per le Statistiche del Commercio con l'Estero degli Stati membri della CEE (NIMEXE).

La NIMEXE si presenta come una suddivisione, a fini statistici, della Nomenclatura della Tariffa Doganale Comune della CEE (TDC), che era già stata ottenuta a sua volta suddividendo la nomenclatura per la classificazione delle merci nelle Tariffe doganali, detta Nomenclatura di Bruxelles 1955 (NDB). Dal 1° gennaio 1966, tutti gli Stati membri hanno adattato le loro nomenclature nazionali in modo da poter rilevare tutte le voci della NIMEXE nonostante le loro codificazioni specifiche che, a partire dalla quinta decimale, prevedono suddivisioni supplementari necessarie a scopi nazionali. Con un semplice raggruppamento delle posizioni NIMEXE si possono dunque ottenere tutte le informazioni necessarie per negoziare al livello CEE. Attualmente il numero delle voci comparabili tra un paese e l'altro è di ca. 6.000.

Le Tavole Analitiche del Commercio con l'Estero della CEE (NIMEXE) sono edite in 12 volumi, ripartiti in categorie di prodotti che sono determinati secondo la Nomenclatura Doganale di Bruxelles (NDB). Ogni volume comprende le importazioni e le esportazioni, espresse, per voce, in quantità, in valore e in unità supplementari. Ciò aiuta molto nell'analisi dei risultati.

VOORBERICHT

Deze publikatie bevat de gegevens voor de buitenlandse handel van de Gemeenschap, verdeeld naar de Geharmoniseerde Nomenclatuur voor de Statistieken van de Buitenlandse Handel van de Lidstaten van de EEG (NIMEXE).

De NIMEXE is opgesteld als een onderverdeling voor statistische doeleinden van de nomenclatuur van het Gemeenschappelijk Douanetarief van de EEG (GDT), welke zelf weer is verkregen door een onderverdeling van de « Nomenclature pour la classification des marchandises dans les tarifs douaniers », de z.g. Naamlijst van Brussel 1955 (NVB). Met ingang van 1 januari 1966 hebben al de lidstaten van de EEG hun nationale naamlijsten voor de buitenlandse handel zo aangepast dat, niettegenstaande het gebruik van eigen statistieknnummers van het 5e cijfer af en het opnemen van verdere onderverdelingen voor nationale doeleinden, elke post van de NIMEXE opnieuw kan worden samengesteld. Zo hoeven de NIMEXE-posten alleen maar samengevoegd te worden om over de inlichtingen te beschikken die, wat betreft de buitenlandse handel, nodig zijn voor onderhandelingen op het niveau van de EEG. Het aantal posten waarvoor de lidstaten een onderlinge vergelijkbaarheid hebben bereikt bedraagt ongeveer 6.000.

De Analytische overzichten over de Buitenlandse Handel van de EEG verschijnen in 12 delen, verdeeld in goederen groepen volgens het schema van de Douanenaamlijst van Brussel (NVB). Elk deel bevat de import- en exportgegevens verstrekt in hoeveelheid, waarde en aanvullende eenheden. Hierdoor wordt de analyse der resultaten sterk vergemakkelijkt.

PREFACE

This publication shows the foreign trade data of the Community broken down according to the Harmonised Nomenclature for Foreign Trade Statistics of the EEC-Member Countries (NIMEXE).

For statistical purposes the Nomenclature of the EEC Common Customs Tariff (CCT), derived from the Brussels Nomenclature (BTN), has been subdivided in the NIMEXE. From 1 January 1966 on all EEC Member Countries have aligned their Foreign Trade nomenclatures so that they can easily be related to each item of the NIMEXE, though, from 5th digit, special subdivisions have been maintained for national purposes. By simple addition of NIMEXE items any information required for negotiations at EEC level can be given. At present the number of the items which are comparable between the Member Countries totals about 6.000.

The Analytical Tables of EEC Foreign Trade (NIMEXE) are composed of 12 individual volumes ; these are classified by categories of merchandise according to the Brussels Nomenclature (BTN). Quantities, values and special units are shown for import and export in the same volume. In this way the analysis of results is largely facilitated.

PREFACIO

Esta publicación contiene los resultados del Comercio Exterior de la Comunidad separados según la Nomenclatura Armonizada para las Estadísticas del Comercio Exterior de los Estados miembros de la CEE (NIMEXE).

La NIMEXE presenta una subdivisión estadística de la nomenclatura de la Tarifa Aduanera Común de la CEE (TAC) que, por su parte, ha procedido de una subdivisión de la nomenclatura del esquema de la Tarifa Aduanera de Bruselas 1955 (NDB). A partir del 1º de enero de 1966 todos los Estados miembros de la CEE llevan sus nomenclaturas nacionales del comercio exterior adaptadas de tal modo que a pesar de su propia codificación desde el 5º puesto y de las subdivisiones adicionales requeridas para fines nacionales se puede establecer cada posición de mercancías de la NIMEXE. Por lo tanto, mediante simple reunión de posiciones NIMEXE se obtiene la información relativa al comercio exterior que se necesite para las negociaciones en el nivel de la CEE. Actualmente el número de las posiciones de mercancías comparables para los Estados miembros individuales es de aprox. 6.000.

Los Cuadros Analíticos del Comercio Exterior de la CEE (NIMEXE) se publican en 12 tomos separados según categorías de mercancías, que se clasifican a base del esquema de la Tarifa Aduanera de Bruselas (NDB). En el mismo tomo se incluyen, por cada posición, las importaciones y las exportaciones expresadas en cantidades, valores y unidades complementarias. Así la análisis de los resultados se facilita en gran manera.

ANMERKUNGEN ZU DEN ERZEUGNISSEN

nd = nicht getrennt ausgewiesen

EWG = die Anmerkung bezieht sich auf alle Mitglieds-länder

IMP = nur Einfuhr, EXP = nur Ausfuhr; die nicht mit IMP oder EXP versehenen Noten betreffen sowohl Ein- als Ausfuhr

NOTES PAR PRODUITS

nd = non disponible, incl. = inclus

Par CEE, il faut entendre que la note s'applique à tous les pays membres

IMP = importation, EXP = exportation; sans mention : la note se rapporte à l'importation et à l'exportation
