£2.6M GRANTS FOR FISHING INDUSTRY PROJECTS IN THE U.K.

The European Commission has announced new grants totalling £2 591 234 for 60 fishery projects in the U.K. The grants are made under measures designed to modernise coastal fisheries throughout the Community. Priority was given to the financing of projects in regions facing particular difficulties in modernising their fishing industries.

Of these 60 projects, 31 are in Scotland of which 7 are for salmon farms. The three other fish farming projects are for sea trout and oysters (Dyfed, Cornwall, and Co. Down). 23 projects are for the modernisation of fishing vessels and 27 for new construction in a variety of U.K. ports.

The grants are as follows:

<u>Construction of fishing vessels to be based at:</u>	<u>Grant (£)</u>
- Aberdeen Aberdeenshire	119 691
- Blyth, Northumberland	5 887
