

# INDUSTRIAL SHORT-TERM TRENDS

Monthly

## INDEX OF INDUSTRIAL PRODUCTION

### Industrial production in the Community dropped by 2-2.5% in 1981

The provisional index of industrial production in the Community for November 1981 stood at 124.1 (1975=100), thus exceeding for the third consecutive month the figure for the corresponding month in the previous year (Nov. 81/Nov. 80 +0.4%). In view of the production levels for the last three months for which data are available it may be estimated that industrial production in the Community dropped by 2 to 2.5% in 1981 (compared with 1980) and by some 3% compared with 1979. However, it exceeds production in 1978 by approximately 1.5%.

After seasonal adjustment the November index stood at 114.9, which is the highest level reached since the beginning of the year, except for February, when there was an increase which was not subsequently maintained. The increase in November caused a rise in the short-term growth indicator (see adjusted indices, %A: ratio between the past three months and the three preceding months) from -0.4% in October to 0.7% in November, which could mark the end of an extended period of stagnation.

Note: Substantial corrections have been made to the French production index as from the end of 1980 and this has affected the corresponding Community indices, which are generally higher than the figures published previously.

### Note to our readers

Starting with this issue the "Industrial short-term trends" bulletin will appear in a new form, which will be different both in presentation and content.

In its new presentation the bulletin will be divided into three chapters, viz.:

- a general chapter giving the main aggregated indicators of industrial trends and a series of graphs;
- a second chapter giving economic indicators broken down by industrial branches;
- a final chapter on building and civil engineering. It contains, in the form of indices (1975=100), a selection of data compiled under a Community Directive (78/166/EEC, adopted on 13 February 1978). The timetable for implementing this Directive explains to a large extent the gaps in this chapter.

Apart from the inclusion of the special chapter on the building and civil engineering sector, the main changes in the content are the reduction in the number of industrial branches and the addition of the external trade (import-export) indices to the range of economic indicators.

Since the production indices for certain industrial branches are no longer given in the bulletin, users may obtain them on request by writing to EUROSTAT, Division C-3, P.O. 1907, Luxembourg. Depending on the number and importance of these requests EUROSTAT may decide to incorporate these indices periodically in a fourth chapter. No decision has been made as yet on the content of this chapter, or on how frequently it will appear.

III BUILDING & CIVIL ENGINEERING .....	49

1. NOMENCLATURE OF INDUSTRIAL ACTIVITIES

The indices included in this bulletin cover industry as it is defined in divisions 1 to 4 of the General Industrial Classification of Economic Activities within the European Communities (NACE). In part III of the bulletin there are also some indicators relating to NACE division 5 (building and civil engineering).

2. INDICES OF PRODUCTION

2.a The index of production reflects changes in the volume of production. For industry as a whole, it also indicates changes in volume (at constant prices) in the gross added value created by industry, the branch indices being aggregated (like the aggregation at Community level for a given industrial branch) by means of a system of weighting according to gross added value (in principle, at factor costs). The indices are adjusted in two stages: first they are adjusted to take account of the varying number of working days in the month and this is followed by seasonal adjustment according to EUROSTAT's own particular method.

Further information on the index of production may be obtained from supplement 01.1978 of this bulletin.

2.b Meaning of %A and %B:

2.b.1 indices of production per working day:

- %A: the last twelve months as compared with the previous twelve months;
- %B: the last month as compared with the corresponding month of the previous year.

2.b.2 seasonally adjusted indices of production:

- %A (short-term growth): the last three months as compared with the previous three months;
- %B: the last month as compared with the previous month.

2.c The descriptions and definitions in 2.a and 2.b above are also applicable to the indices of production for building and civil engineering.

2.d The indices of production for non-Member States (Spain, Portugal, the United States and Japan) are taken from OECD sources.

3. Unlike the index of production (see 2.a above), the other indices (turnover, orders, exports, imports, number of employees, gross wages and salaries) are not adjusted to allow for differences in the number of working days in each period before they are seasonally adjusted.

4. INDICES OF TURNOVER AND ORDERS RECEIVED

These reflect changes in turnover (overall sales, including sales for export) and orders received at current prices. For detailed definitions, see also supplement N° 12-1980 to this bulletin.

5. INDICES OF IMPORTS AND EXPORTS BY INDUSTRIAL BRANCHES

These are indices of imports or exports (special trade), at current prices (respectively c.i.f. or f.o.b.), of industrial products classified according to the industrial branches to which they belong. It should be emphasized that this classification implies the need to make certain choices in allocating external trade products to overall groups of products according to a nomenclature of industrial activities, and that even comparability between the indices for imports and those for exports is limited.

The indices for the EEC as a whole refer only to trade with non-Member States.

NOTE  
For the time being the indices are based on the external trade of the Community of Nine, excluding Greece, which became a full member of the Community with effect from 01.01.1981.

6. INDICES OF THE NUMBER OF EMPLOYEES AND OF GROSS WAGES AND SALARIES

6.1 The number of employees includes all persons employed by the firm (manual workers and salaried employees on the company's payroll).

6.2 Gross wages and salaries cover all sums paid out to persons employed by the company in remuneration for the work they do, including taxes and social security contributions payable by the employee and deducted by the employer, but excluding social security and other contributions payable by the employer. A methodological note on these two indices is being prepared and will be published as a supplement to a future issue of this bulletin.

7. BUILDING AND CIVIL ENGINEERING (PART III)

For information on the index of production and its layout, and on the index of the number of employees, see sections 2 and 6.1 above.

The indices for authorised dwellings and dwelling starts and completions only give a picture of activity in the residential building sector, whereas the other two types of indices also cover non-residential building and civil engineering.

8. GRAPHS

The graphs cover either short-term growth (%A) in industrial production, or the trend in production and/or employment.

8.a trends: the moving average over three months (after seasonal adjustment) in the case of the index of production.

In the case of employment, for which the indices are quarterly, a monthly series is obtained by linear interpolation (without seasonal adjustment).

8.b short-term growth (%A): see the definition given in 2.b.2.

9. ADDITIONAL INFORMATION

The information included in this bulletin has been taken from the CRONOS data bank, which may be accessed via the EURONET network. Information on CRONOS-EURONET or on the information given in this bulletin may be obtained from EUROSTAT in Luxembourg, tel. 4301-3208 (Mr. VANDERSEYPEN).

10. SYMBOLS AND ABBREVIATIONS:

- : data not available;
- non-existent series;
- ADJ seasonally adjusted.

## Classification of Eurostat publications

Themes	Sub-themes
<b>1. General statistics</b> (grey covers)	1. General statistics 2. Regional general statistics 3. Third-country statistics
<b>2. National accounts, finance and balance of payments</b> (violet covers)	1. National accounts 2. Accounts of sectors 3. Accounts of branches 4. Money and finance 5. Regional accounts and finance 6. Balance of payments 7. Prices
<b>3. Population and social conditions</b> (yellow covers)	1. Population 2. Social conditions 3. Education and training 4. Employment 5. Social protection 6. Wages and salaries
<b>4. Industry and services</b> (blue covers)	1. Industry, general 2. Energy 3. Iron and steel 4. Transport and services
<b>5. Agriculture, forestry and fisheries</b> (green covers)	1. Agriculture, general 2. Agriculture, production and balances 3. Agriculture, prices 4. Agriculture, accounts 5. Agriculture, structure 6. Forestry 7. Fisheries
<b>6. Foreign trade</b> (red covers)	1. Nomenclature 2. Community trade, general 3. Trade with developing countries
<b>9. Miscellaneous</b> (brown covers)	1. Miscellaneous statistics 2. Miscellaneous information

## Theme 4 — Industry and services

Sub-themes	Titles	Frequency
1. Industry, general	<i>Structure and activity of industry — Data by size of enterprise 1976</i>	A
	<i>Structure and activity of industry — 1978</i>	A
	<i>Industrial production</i>	Q
	<i>EC Raw materials balance sheets</i>	A
	<i>Industrial short-term trends</i>	M
	<i>Annual investments in fixed assets — 1975-1979</i>	A
	2. Energy	<i>Energy statistics yearbook</i>
<i>Useful energy balance sheets</i>		s.i.
<i>Operation of nuclear power stations</i>		A
<i>Analysis of energy input-output tables</i>		s.i.
<i>Coal — Monthly bulletin</i>		M
3. Iron and steel	<i>Electrical energy — Monthly bulletin</i>	M
	<i>Hydrocarbons — Monthly bulletin</i>	M
	<i>Iron and steel yearbook 1982</i>	A
4. Transport and services	<i>Iron and steel — Quarterly bulletin</i>	Q
	<i>Iron and steel — Monthly bulletin</i>	M
	<i>Statistical yearbook transport, communications, tourism</i>	A

Abbreviations :  
A = Annual  
M = Monthly  
Q = Quarterly  
s.i. = Special issue
