Eurostat hat die Aufgabe, den Informationsbedarf der Kommission und aller am Aufbau des Binnenmarktes Beteiligten mit Hilfe des europäischen statistischen Systems zu decken.

Um der Öffentlichkeit die große Menge an verfügbaren Daten zugänglich zu machen und Benutzern die Orientierung zu erleichtern, werden zwei Arten von Publikationen angeboten: Statistische Dokumente und Veröffentlichungen.

Statistische Dokumente sind für den Fachmann konzipiert und enthalten das ausführliche Datenmaterial: Bezugsdaten, bei denen die Konzepte allgemeinbekannt, standardisiert und wissenschaftlich fundiert sind. Diese Daten werden in einer sehr tiefen Gliederung dargeboten. Die Statistischen Dokumente wenden sich an Fachleute, die in der Lage sind, selbständig die benötigten Daten aus der Fülle des dargebotenen Materials auszuwählen. Diese Daten sind in gedruckter Form und/oder auf Diskette, Magnetband, CD-ROM verfügbar. Statistische Dokumente unterscheiden sich auch optisch von anderen Veröffentlichungen durch den mit einer stilisierten Graphik versehenen weißen Einband.

Die zweite Publikationsart, die Veröffentlichungen, wenden sich an eine ganz bestimmte Zielgruppe, wie zum Beispiel an den Bildungsbereich oder an Entscheidungsträger in Politik und Verwaltung. Sie enthalten ausgewählte und auf die Bedürfnisse einer Zielgruppe abgestellte und kommentierte Informationen. Eurostat übernimmt hier also eine Art Beraterrolle.

Für einen breiteren Benutzerkreis gibt Eurostat Jahrbücher und periodische Veröffentlichungen heraus. Diese enthalten statistische Ergebnisse für eine erste Analyse sowie Hinweise auf weiteres Datenmaterial für vertiefende Untersuchungen. Diese Veröffentlichungen werden in gedruckter Form und in Datenbanken angeboten, die in Menütechnik zugänglich sind.

Um Benutzern die Datensuche zu erleichtern, hat Eurostat Themenkreise, d. h. eine Untergliederung nach Sachgebieten, eingeführt. Daneben sind sowohl die Statistischen Dokumente als auch die Veröffentlichungen in bestimmte Reihen, wie zum Beispiel „Jahrbücher“, „Konjunktur“, „Methoden“, untergliedert, um den Zugriff auf die statistischen Informationen zu erleichtern.

Y. Franchet  
Generaldirektor

It is Eurostat's responsibility to use the European statistical system to meet the requirements of the Commission and all parties involved in the development of the single market.

To ensure that the vast quantity of accessible data is made widely available, and to help each user make proper use of this information, Eurostat has set up two main categories of document: statistical documents and publications.

The statistical document is aimed at specialists and provides the most complete sets of data: reference data where the methodology is well established, standardized, uniform and scientific. These data are presented in great detail. The statistical document is intended for experts who are capable of using their own means to seek out what they require. The information is provided on paper and/or on diskette, magnetic tape, CD-ROM. The white cover sheet bears a stylized motif which distinguishes the statistical document from other publications.

The publications proper tend to be compiled for a well-defined and targeted public, such as educational circles or political and administrative decision-makers. The information in these documents is selected, sorted and annotated to suit the target public. In this instance, therefore, Eurostat works in an advisory capacity.

Where the readership is wider and less well defined, Eurostat provides the information required for an initial analysis, such as yearbooks and periodicals which contain data permitting more in-depth studies. These publications are available on paper or in Videotext databases.

To help the user focus his research, Eurostat has created 'themes' i.e. a subject classification. The statistical documents and publications are listed by series, e.g. yearbooks, short-term trends or methodology, in order to facilitate access to the statistical data.

Y. Franchet  
Director-General

Pour établir, évaluer ou apprécier les différentes politiques communautaires, la Commission des Communautés européennes a besoin d'informations.

Eurostat a pour mission, à travers le système statistique européen, de répondre aux besoins de la Commission et de l'ensemble des personnes impliquées dans le développement du marché unique.

Pour mettre à la disposition de tous l'importante quantité de données accessibles et faire en sorte que chacun puisse s'orienter correctement dans cet ensemble, deux grandes catégories de documents ont été créées: les documents statistiques et les publications.

Le document statistique s'adresse aux spécialistes. Il fournit les données les plus complètes: données de référence où la méthodologie est bien connue, standardisée, normalisée et scientifique. Ces données sont présentées à un niveau très détaillé. Le document statistique est destiné aux experts capables de rechercher, par leurs propres moyens, les données requises. Les informations sont alors disponibles sur papier et/ou sur disquette, bande magnétique, CD-ROM. La couverture blanche ornée d'un graphisme stylisé démarque le document statistique des autres publications.

Les publications proprement dites peuvent, elles, être réalisées pour un public bien déterminé, ciblé, par exemple l'enseignement ou les décideurs politiques ou administratifs. Des informations sélectionnées, triées et commentées en fonction de ce public lui sont apportées. Eurostat joue, dès lors, le rôle de conseiller.

Dans le cas d'un public plus large, moins défini, Eurostat procure des éléments nécessaires à une première analyse, les annuaires et les périodiques, dans lesquels figurent les renseignements adéquats pour approfondir l'étude. Ces publications sont présentées sur papier ou dans des banques de données de type vidéotex.

Pour aider l'utilisateur à s'orienter dans ses recherches, Eurostat a créé les thèmes, c'est-à-dire une classification par sujet. Les documents statistiques et les publications sont répertoriés par série — par exemple, annuaire, conjoncture, méthodologie — afin de faciliter l'accès aux informations statistiques.

9 □ 1994

## Achtung

1) Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der **NACE Rev.1**; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturzeihen vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu **schätzen**. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

2) Neues Basisjahr 1990 = 100

## Please note

1) All time series in this publication follow a new activity nomenclature, namely **NACE Rev.1**. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of **estimations** of the series. This reduces for the near future the reliability of these short-term indicators.

2) New base year 1990 = 100

## Avertissement

1) Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité **NACE Rev.1**; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'**estimation** de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

2) Nouvelle année de base 1990 = 100

## Aufschwung stabilisiert sich

Die **Industrieproduktion in der Europäischen Gemeinschaft (EU)** steigt nunmehr deutlich an. Seit fünf Monaten sind positive Wachstumsraten zu verzeichnen.

Die Veränderungsrate des arbeitstäglich bereinigten **Produktionsindex** der Industrie betrug im Juni 1994 gegenüber dem Wert des gleichen Monats ein Jahr zuvor +5,1 %, im Baugewerbe 1,2 %. Betrachtet man für die EU die Veränderungsrate des **saisonbereinigten Produktionsindex** der letzten drei verfügbaren Monate April bis Juni gegenüber den drei Monaten zuvor, (1. Quartal) so beläuft sie sich auf +2,2%, im Baugewerbe -0,5%.

In den **USA** beträgt die Veränderungsrate April bis Juni 1994 gegenüber den Vormonaten für die Industrieproduktion +1,1, der Aufschwung ist also eher schwach.

Für die **Hauptgütergruppen** ist in der Europäischen Union folgendes Bild zu verzeichnen (Veränderungsrate April bis Juni gegenüber den drei Vormonaten):

- Vorleistungsgüterindustrie: 1,5% (USA: 1,6%)
- Investitionsgüterindustrie: 2,9% (USA: 1,2%)
- dauerhafte Konsumgüterindustrie: 3,6% (USA: 1,1%)
- nicht-dauerhafte Konsumgüterindustrie: 0,9% (USA: 1,5%)

Demnach wird der Aufschwung von der Nachfrage nach Investitionsgütern und nach dauerhaften Konsumgütern getragen, während die Bereiche nicht-dauerhafter Konsumgüter (Nahrungsmittel, Textil, Bekleidung) stagnieren.

Für die **einzelnen Mitgliedstaaten** der Europäischen Union ergeben sich, soweit vorhanden, für die saisonbereinigte Industrieproduktion folgende Veränderungsdaten des 2. Quartals, gegenüber dem 1. Quartal dieses Jahres: Italien +4,3%, Dänemark +3,7%, Griechenland +3,1%, Vereinigtes Königreich +2,3%, Spanien +2,0% (geschätzt), Deutschland +2,0%, Frankreich +1,5%, Niederlande +0,9%. Somit ist zumindest in acht Mitgliedstaaten (für Belgien, Luxemburg, Irland und Portugal liegen keine aktuellen Zahlen vor) der Abschwung überwunden.

Besonders die **Automobilindustrie** (NACE Rev.1 34) zeigt, im 3-Monatsvergleich enorme Wachstumsraten: Deutschland 14%, Italien 10%, Vereinigtes Königreich und Frankreich 2%.

Luxemburg, 15.09.1994

# COMMENTS

## Upswing stabilizes

**Industrial production in the European Union (EU)** is now clearly on the increase. Since five months a positive rate of increase can be observed.

The rate of change in the **industrial production index**, adjusted for working days, was up 5.1% in June 1994 on the figure for the corresponding month of the previous year. The corresponding figure in construction was 1.2%. The rate of change in the EU's **seasonally adjusted production index** for the last three available months (April to June) was 2.1% up on the preceding three-month period (first quarter); in construction it was -0.5%.

In the **USA**, the rate of change in industrial production for April to June 1994 was 1.1% up on the preceding months, thus the upswing is rather weak.

The following picture emerges for the **main end use groups** in the European Union (rate of change for April to June over the preceding three months):

- intermediate goods industry: 1.5% (USA: 1.6%)
- capital goods industry: 2.9% (USA: 1.2%)
- consumer durables industry: 3.6% (USA: 1.1%)
- non-durable consumer goods industry: 0.9% (USA: 1.5%)

The upswing is thus fed by demand for capital goods and consumer durables, whilst the non-durable consumer goods sectors (food, textiles, clothing) are stagnating.

For the **individual Member States** of the European Union, figures (where available) for the seasonally-adjusted change in industrial production for the second quarter over the first quarter are as follows: Italy +4.3%, Denmark +3.7%, Greece +3.1%, the United Kingdom +2.3%, Spain +2.0% (estimated), Germany +2.0%, France +1.5%, the Netherlands +0.9%. This means that the downturn is over in at least eight of the Member States (current figures are not available for Belgium, Luxembourg, Ireland and Portugal).

Especially in the **car industry** (NACE Rev.1 34) enormous growth rate can be observed (3 month comparison): Germany 14%, Italy 10%, the United Kingdom and France 2%.

Luxembourg, 15.09.94

# COMMENTAIRE

## Essor confirmé

La **production industrielle dans la Communauté européenne (UE)** est désormais en nette augmentation. Depuis cinq mois le taux de croissance est positif.

Le **taux de variation de l'indice de la production industrielle** corrigé des jours ouvrables s'est élevé en juin 1994 par rapport à la valeur du même mois un an auparavant à 5,1%, dans la construction 1,2%. Si l'on considère le taux de variation de **l'indice de la production désaisonnalisée** de l'UE des trois derniers mois disponibles d'avril à juin par rapport aux trois mois précédents (premier trimestre), il s'élève à +2,2%, dans le secteur de la construction à -0,5%.

Aux **USA**, le taux de variation d'avril à juin 1994 par rapport aux mois précédents pour la production industrielle s'est élevé à +1,1, c'est-à-dire la hausse est plutôt faible.

Pour les **groupes de biens principaux**, on observe dans l'Union européenne le tableau suivant (taux de variation d'avril à juin par rapport aux trois mois précédents):

- industrie des biens intermédiaires: +1,5% (USA:1,6%)
- industrie des biens d'investissement: 2,9% (USA:1,2%)
- industrie des biens de consommation durables: 3,6% (USA:1,1%)
- industrie des biens de consommation non durables: 0,9% (USA:1,5%)

Ces chiffres montrent que l'essor de la demande de biens d'investissement et de biens de consommation durables est soutenu, tandis qu'il y a stagnation dans les domaines des biens de consommation non durables (alimentation, textile, habillement).

Pour les **différents États membres** de l'Union européenne, les taux de variation de la production industrielle désaisonnalisée, dans la mesure où ils sont disponibles pour le 2<sup>ème</sup> trimestre par rapport aux 1<sup>er</sup> trimestre, se présentent comme suit: Italie +4,3%, Danemark +3,7%, Grèce +3,1%, Royaume-Uni +2,3%, Espagne +2,0% (estimé) Allemagne +2,0%, France +1,5%, Pays-Bas +0,9%. Ainsi, dans au moins huit États membres (aucun chiffre actuel n'étant disponible pour la Belgique, le Luxembourg, l'Irlande et le Portugal), la période de récession a été surmontée.

On peut observer surtout des taux de croissance énormes dans l'industrie automobile (NACE Rev.1 34) (comparaison de 3 mois): Allemagne 14%, Italie 10%, Royaume-Uni et France 2%.

Luxembourg, 15.09.1994

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie – Konjunkturzeihen vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short – term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short – term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Verarb. Gewerbe - Trendwachstum Monat zu Monat  
Manufacturing - Monthly Change in Trend  
Ind. manufacturières - var. mens. de la tendance

Saisonbereinigte Reihen enthalten irreguläre Effekte und Ausreißer, die die langfristige Konjunkturentwicklung überdecken. Der langfristige Trend dagegen zeigt allein die Richtung der konjunkturellen Entwicklung. Am aktuellen Rand können allerdings Fehlinterpretationen nicht ausgeschlossen werden, da hier die Werte unter Hinzunahme von Prognosen berechnet werden.

Seasonally adjusted series still contain irregularities and outliers which mask longer-term trends. Only the long-term trend, however, is an adequate indicator of economic evolution. However, care must be taken with the most recent figures because they have been calculated using forecasts.

Des séries corrigées des variations saisonnières contiennent toujours des effets irréguliers et des valeurs aberrantes qui masquent l'évolution conjoncturelle à long terme. En revanche, la tendance à long terme ne montre que l'orientation de l'évolution conjoncturelle. Néanmoins, il n'est pas exclu que les toutes dernières valeurs donnent lieu à des erreurs d'interprétation car ici les chiffres sont calculés l'aide de prévisions.

<sup>1</sup> Schätzung – Estimation Eurostat

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindikatoren vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindikatoren vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der ubergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftsweizsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturindikatoren vergleichbar. Zudem machte der bergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturserien vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Production EUR12 : Long Term Trend

Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der bergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindikatoren vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der bergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturserien vergleichbar. Zudem machte der ubergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturzeihen vergleichbar. Zudem machte der bergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturzeihen vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturindikatoren vergleichbar. Zudem machte der bergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturserien vergleichbar. Zudem machte der ubergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der ubergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veroffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der ubergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schatzen. Dies mindert zur Zeit noch die Verlalichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les donnes de cette publication sont exprimes dans la nouvelle version de la nomenclature d'activit NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications prcdentes. De plus le passage  une nouvelle classification rendait l'estimation de plusieurs sries ncessaire. Ceci rduit pour le moment la fiabilit de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindikatoren vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturindizes vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindizes.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

	06				120.8		95.7						88.5

Alle Zeitreihen dieser Veröffentlichung folgen einer neuer Wirtschaftszweigsystematik, der NACE Rev. 1; sie sind daher nur sehr bedingt mit den vorangegangenen Veröffentlichungen von Industrie-Konjunkturzeilen vergleichbar. Zudem machte der Übergang zu einer neuen Klassifikation es notwendig, viele Reihen zu schätzen. Dies mindert zur Zeit noch die Verlässlichkeit dieser Konjunkturindikatoren.

All time series in this publication follow a new activity nomenclature, namely NACE Rev. 1. They are therefore only partially comparable with previous publications of short-term indicators. It should also be noted that the change in classification has necessitated a lot of estimations of the series. This reduces for the near future the reliability of these short-term indicators.

Toutes les données de cette publication sont exprimées dans la nouvelle version de la nomenclature d'activité NACE Rev. 1; ainsi elles ne sont comparables que sous certaines limites avec les publications précédentes. De plus le passage à une nouvelle classification rendait l'estimation de plusieurs séries nécessaire. Ceci réduit pour le moment la fiabilité de ces indicateurs conjoncturels.

## Regelmäßig herausgegebene Eurostat-Veröffentlichungen zum Thema Industrie

### – Industriekonjunktur – Monatliche Statistiken und Beilagen

Diese Veröffentlichung enthält die Indizes von industrieller Produktion, Umsatz, Auftragseingang, abhängig Beschäftigten, Löhnen und Gehältern, nach Industriezweigen, ferner Indizes des Werts von Ein- und Ausfuhren. Ein separates kurzes Kapitel ist den Konjunkturindikatoren für das Baugewerbe vorbehalten.

**Beilagen** mit Angaben zur Methodik und/oder mit retrospektiven Reihen vervollständigen die laufende Veröffentlichung.  
Abonnement (VUI): ECU 91

### – Panorama der EG-Industrie – zweimonatlich

Konjunktur-Beilage mit aktuellen Informationen über die Industrie in der EG.  
Abonnement (VPA): ECU 50

### – Struktur und Tätigkeit der Industrie – Jahreserhebung – Wichtigste Ergebnisse

Diese Veröffentlichung enthält die wichtigsten Ergebnisse der von den Mitgliedstaaten in Übereinstimmung mit einer Richtlinie des Rates vom 6. Juni 1972 durchgeführten koordinierten Jahreserhebung über die Tätigkeit der Industrie. Sie weist jährlich die Angaben über die wichtigsten wirtschaftlichen Tatbestände dieser Erhebung (Beschäftigung, Produktionswert, Wertschöpfung usw.) aus.

Preis: ECU 30

### – Struktur und Tätigkeit der Industrie – Ergebnisse nach Unternehmensgröße

Dieser Band, der alle zwei Jahre herausgegeben wird, enthält die Ergebnisse der koordinierten Jahreserhebung über die Tätigkeit der Industrie für die fünf wichtigsten Tatbestände, gegliedert nach drei Größenklassen von Unternehmen.

Preis: ECU 20

## BESTELLSCHEIN

Zu senden an: **Amt für amtliche Veröffentlichungen  
der Europäischen Gemeinschaften**  
L-2985 Luxemburg

Bitte senden Sie mir ..... Exemplar(e) der folgenden Veröffentlichung(en)

- Industriekonjunktur – Monatliche Statistiken und Beilagen (Abonnement)
- Konjunktur-Beilage – Panorama der EG-Industrie – zweimonatlich (Abonnement)
- Struktur und Tätigkeit der Industrie – Wichtigste Ergebnisse
- Struktur und Tätigkeit der Industrie – Ergebnisse nach Unternehmensgröße

Zahlung nach Erhalt der Rechnung

Name: .....

Anschrift: .....

Datum: ..... Unterschrift: .....

Die aufgeführten Veröffentlichungen sind auch bei den auf der dritten Umschlagseite aufgeführten Vertriebsbüros erhältlich.

## The periodicals of the Statistical Office on industry

### Industrial trends – Monthly statistics and supplements

This publication contains the indices of industrial production, turnover, orders received, number of employees, gross wages and salaries by branch of industry as well as indices of the value of imports and exports. A special chapter is devoted to indicators for the building and civil engineering sector.

**Supplements** on methodology and/or containing retrospective series complete the ordinary publication.

Subscription (VUI): ECU 91

### Panorama of the EC industry – bimonthly

Short-term supplement with the latest information on EC industry.

Subscription (VPA): ECU 50

### Structure and activity of industry – Annual inquiry – Main results

This publication contains the main results of the coordinated annual inquiry into industrial activity, carried out by the Member States pursuant to a Council Directive of 6 June 1972. It gives annually the results for the most important economic variables of this inquiry: employment, production value, value-added, etc.

Price: ECU 30

### Structure and activity of industry – Data by size of enterprise

This volume, which is published every two years, gives the results of the coordinated annual inquiry into industry for the five most important variables by three classes of size of enterprise.

Price: ECU 20

## ORDER FORM

To send to: **Office for Official Publications  
of the European Communities**  
L-2985 Luxembourg

Please send me ..... copy(ies)

- Subscription to Industrial trends – Monthly statistics & supplements
- Subscription to Panorama of the EC-industry – bimonthly supplement
- Structure and activity of industry – Main results
- Structure and activity of industry – Data by size of enterprise

Payment is due on receipt of invoice

Name: .....

Address: .....

Date: ..... Signature: .....

These publications are also available from the sales offices (see inside back cover).

## Les périodiques de l'Office statistique sur l'industrie

### Conjoncture industrielle — Statistiques mensuelles et suppléments

Cette publication contient les indices de production industrielle, chiffres d'affaires, entrées de commandes des personnes employées, des salaires et des traitements par branche industrielle ainsi que des indices de valeur des importations et des exportations. Un bref chapitre est réservé aux indicateurs conjoncturels du secteur du bâtiment et du génie civil.

Des **suppléments** de caractère méthodologique et/ou contenant des séries rétrospectives complètent la publication courante.  
Abonnement (VUI): ECU 91

### Panorama de l'industrie communautaire (bimestriel)

Supplément conjoncturel avec les dernières informations sur l'industrie communautaire.  
Abonnement (VPA): ECU 50

### Structure et activité de l'industrie — Enquête annuelle — Principaux résultats

Cette publication comporte les principaux résultats de l'enquête annuelle coordonnée sur l'activité industrielle, exécutée par les États membres en conformité avec une directive du Conseil du 6 juin 1972. Elle donne annuellement les résultats pour les variables économiques les plus importantes de cette enquête: emploi, valeur de la production, valeur ajoutée, etc.  
Prix: ECU 30

### Structure et activité de l'industrie — Données selon la taille des entreprises

Dans ce volume qui paraît à un rythme bisannuel, les résultats de l'enquête annuelle coordonnée sur l'activité de l'industrie sont ventilés pour cinq variables importantes, selon trois classes de taille des entreprises.  
Prix: ECU 20

## BON DE COMMANDE

À renvoyer à: **Office des publications officielles  
des Communautés européennes**  
L-2985 Luxembourg

Veillez m'envoyer ..... copie(s)
