VORBEMERKUNGEN  
PRELIMINARY REMARKS

REMARQUES PRELIMINAIRES  
PREMESSA

Diese Indizes können nicht nur als Gesamtindizes für EUR 9, sondern auch als Teilindizes für Vergleiche über die Preisentwicklung in den einzelnen Ländern verwendet werden. Somit können Vergleiche über die Preisentwicklung eines bestimmten Erzeugnisses theoretisch unmittelbar angestellt werden. Im Hinblick auf die Gruppenbildungen ist zu berücksichtigen, dass das Wägungsschema dem Absatzstrom jedes Landes angepasst ist und dass die Warenkörbe, die den Verkaufswert der einzelnen Erzeugnisse widerspiegeln, sich von Land zu Land unterscheiden und damit die Entwicklung der Aggregate beeinflussen. Unabhängig von diesen räumlichen Vergleichen, gestattet dieser neue Index auch zeitliche Preisvergleiche.

Die Benutzer dieser Veröffentlichung seien darauf hingewiesen, dass es in einigen Ländern nationale Indexreihen über landwirtschaftliche Erzeugerpreise gibt, die auf andere Verwendungszwecke ausgerichtet sein können und sich gegebenenfalls vom EG-Index in der Basis, in der Berechnungsformel und im Erfassungsbereich unterscheiden.

\* \* \*

These EC-indices can be used not only as EUR-9 indices, but also as indices permitting comparisons of the trend of agricultural prices between countries. This means that comparisons of such price trends can theoretically be made directly for a given product. Where groups of products are concerned, it must be remembered that the weighting structure is adapted to the sales movement of each country. The baskets reflecting the value of the sales of the different products vary from one country to another and therefore affect the trends of the aggregates. Apart from these geographical comparisons, this new index also admits of comparisons between price trends over a period of time.

The attention of users is drawn to the fact that national producer price indices for agricultural products exist for a number of countries; these can have other uses, which, depending on the index in question, may differ from the CE index as regards their base, their formula and their field of observation.

\* \* \*

Ces indices peuvent être utilisés non seulement comme indices EUR 9, mais aussi comme indices permettant des comparaisons d'évolution des prix agricoles entre pays. Ainsi les comparaisons d'évolution des prix peuvent être faites théoriquement directement pour un produit déterminé. Pour tous les regroupements l'on se souviendra que la structure de pondération est adaptée au flux des ventes de chaque pays. Les paniers reflétant la valeur des ventes des différents produits, varient de pays à pays et interfèrent donc sur l'évolution des agrégats. Indépendamment de ces comparaisons géographiques, ce nouvel indice se prête aussi aux comparaisons d'évolutions des prix dans le temps.

Nous attirons l'attention des utilisateurs sur le fait que pour certains pays, il existe des indices nationaux de prix de produits agricoles à la production qui peuvent avoir d'autres usages, et qui suivant les cas, diffèrent de l'indice CE par leur base, leur formule ou leur champ d'observation.

\* \* \*

Questi indici possono essere interpretati non solo come indice d'insieme EUR 9, ma anche quale confronto dell'andamento dei prezzi agricoli nei vari paesi che lo compongono. Così, teoricamente, i prezzi di un determinato prodotto possono essere direttamente confrontati. Mentre, per i vari raggruppamenti, bisogna tener presente che la struttura di ponderazione è basata sul flusso delle vendite di ogni paese, e che di conseguenza i panieri che rappresentano il valore delle vendite dei diversi prodotti, variando da paese a paese, creano interferenze nell'andamento degli aggregati. Prescindendo dai confronti geografici, questo indice può servire al confronto dell'evoluzione dei prezzi nel tempo.

Si richiama l'attenzione degli utenti sul fatto che alcuni paesi posseggono indici nazionali dei prezzi alla produzione dei prodotti agricoli destinati ad altri fini e che, secondo il caso, si differenziano dall'indice CE per la base, per la formula o per il campo di osservazione.

\* \* \*

\* \* \*

Die nachfolgende Tabelle zeigt, dass die Entwicklung der Erzeugerpreise landwirtschaftlicher Produkte (ohne Obst und Gemüse) vom ersten Vierteljahr 1976 zum ersten Vierteljahr 1977 je nach Land und Erzeugnisgruppe im allgemeinen einen sehr unterschiedlichen Verlauf genommen hat.

Wenn sich während dieses Zeitraums für die Gemeinschaft insgesamt eine durchschnittliche Erhöhung der Agrarpreise von 9,2% ergab, dann lag diese in Luxemburg (9,7%), im Vereinigten Königreich (11,5%) und in Frankreich (11,8%) geringfügig oder in Italien (18,3%) und Irland (24,6%) spürbar darüber. In der gleichen Zeit verzeichneten Belgien (-2,3%), die BR Deutschland (-2,6%) und die Niederlande (-3,9%) preissenkende Tendenzen. In Dänemark stiegen die Preise um 3,4%.

Sieht man von Irland ab, dann hat sich in den acht anderen Ländern und für EUR 9 in den letzten Monaten der Berichtszeit gegenüber Ende 1976 nicht nur der Rhythmus des Preisanstiegs verlangsamt, sondern tendierte auch das absolute Preisniveau - vornehmlich durch das Absinken der Kartoffelpreise bedingt - nach unten. Die Entwicklungstendenzen waren weiterhin je nach Land sehr verschiedenartig.

\* \* \*

The following table shows that from the first quarter of 1976 to the first quarter of 1977, the trend of producer prices of agricultural products (excluding fruit and vegetables) varied markedly according to country and product group.

Whereas for the Community as a whole, the average rise in prices of agricultural products amounted to 9.2%, individual country levels were slightly above this figure in Luxembourg (9.7%), in the United Kingdom (11.5%) and in France (11.8%); substantially above in Italy (18.3%) and Ireland (24.6%); but below in Belgium (-2.3%), in the RF Germany (-2.6%) and in the Netherlands (-3.9%). In Denmark prices increased by 3.4%.

Ireland apart, in the other eight countries and for EUR 9 during the last months of the period under review compared with the end of 1976, not only has the rate of price increase slowed down, but absolute price levels are also lower; this is due mainly to the fall in potato prices. Price trends continue to differ markedly between countries.

\* \* \*

Le tableau ci-dessous montre que, du 1er trimestre 1976 au 1er trimestre 1977, l'évolution des prix à la production des produits agricoles (à l'exclusion des légumes et des fruits) a été en moyenne très différente selon les pays et les groupes de produits.

Si pour l'ensemble de la Communauté, la hausse moyenne au cours de cette période est de 9,2%, on constate qu'elle varie entre des pourcentages légèrement supérieures : Luxembourg (9,7%), Royaume-Uni (11,5%) et France (11,8%), ou nettement supérieure : Italie (18,3%), Irlande (24,6%) et des taux en baisse : Belgique (-2,3%), R.F. d'Allemagne (-2,6%) et Pays-Bas (-3,9%). La hausse au Danemark est de 3,4%.

Si l'on met à part l'Irlande, dans les huit autres pays et pour EUR 9 non seulement le rythme de hausse s'est ralenti, mais les niveaux absolus des indices des derniers mois connus sont en baisse par rapport à la fin de l'année 1976, ceci est due en particulier à des prix en baisse des pommes de terre. Les évolutions sont toujours très différenciées entre pays.

\* \* \*

Dalla tavola riportata qui di seguito risulta che dal 1º trimestre 1976 al 1º trimestre 1977 i prezzi alla produzione dei prodotti agricoli (ortaggi e frutta esclusi) hanno avuto mediamente un andamento molto differente a seconda del paese e del gruppo di prodotti.

Il rincaro medio durante questo periodo del 9,2% per l'insieme della Comunità si può distribuire come segue : leggermente superiore per Lussemburgo (9,7%), e Regno Unito (11,5%), e Francia (11,8%); nettamente superiore per Italia (18,3%), Irlanda (24,6%). Mentre per Belgio (-2,3%), RF di Germania (-2,5%) e Paesi Bassi (-3,9%) i prezzi sono in ribasso. Per la Danimarca l'aumento è del 3,4%.

Ad eccezione dell'Irlanda, si nota che negli altri otto paesi e per EUR 9 il ritmo del rialzo è rallentato e che il livello assoluto degli indici degli ultimi mesi conosciuti è in ribasso rispetto alla fine dell'anno 1976. Cio è dovuto in particolare alla diminuzione dei prezzi delle patate. Ma le variazioni sono sempre accentuate tra paese a paese.
