2. Approximation of legislation - Work undertaken between 1 January 1958 and 31 December 1967

This summary is a reproduction with additional detail of the list of approximation work given in the Eighth EEC (Table 7) and the up-dated versions of this given in the Ninth and Tenth General EEC Reports and in the First General Report on the Activities of the Communities.

The new table comprises the old text with amendments and new approximation measures; it supersedes the table published in the Supplement to the Bulletin of the European Economic Community, No. 12-1967.

Consequently, for a complete picture of the approximation work undertaken since the inception of the Community and for a check on the stage reached in this work on 31 December 1967, the reader now needs to consult this table only .

It also gives the basis and the legal nature of each of the approximation measures, with references to texts published in the official gazette of the European Communities or the Supplement to the Bulletin, both for final measures and for proposals. Where the Commission's proposals were not published when laid before the Council and where the Council has not yet adopted its decision, the table gives the reference to the only text published in the official gazette, i.e. that of the proposal amended by the European Parliament or the Economic and Social Committee¹.

**3. Measures taken in the Member States by 30 June 1967
to implement those directives on the approximation of legislation
that had been adopted by the Council
up to and including 31 March 1966**

Article 155 of the Treaty establishing the EEC requires that the Commission, in order to ensure the proper working and development of the common market, shall see to it that the provisions adopted by the Community institutions in pursuance of the Treaty are carried out. The provisions adopted in pursuance of the Treaty include those directives on the approximation of legislation which are adopted by the Council. In order to carry out this task the Commission keeps itself constantly informed on the application of these directives in the Member States. It follows closely any cases of non-application or faulty application of the directives and takes, where necessary, suitable measures to ensure that Community law is applied in full.

To give a general picture of the progress Member States have made with implementation of the directives on the approximation of legislation, the summary in tabular form announced by the Commission in its Tenth General Report (sec. 89) and in its reply to Written Question No. 155/1967 (official gazette No. 298/1 of 7 December 1967) is published below.

This survey, for which the same arrangement is used as for the survey on the approximation of legislation, provides information on :

i) The measures taken by the Member States by 30 June 1967 to implement the directives adopted by the Council up to and including 31 March 1966.

ii) The legal nature of the implementing measures taken in the individual Member States and the official publication of these States in which each measure has been promulgated.

It is intended to bring this survey up to date every year.
