

GILBERT FAYL

Gilbert Fayl has worked in the United States since July 1989 when he was appointed as Science and Technology Counsellor at the Delegation of the Commission of the European Communities.

From 1960 to 1969, he was educated at the Technical University of Copenhagen in Denmark and at the Danish National Research Center. Since 1967, he has been actively involved in international scientific cooperation, and has lived and worked for considerable periods in six different countries.

Before moving to Washington, he was for almost ten years a member of the team responsible for the conceptual formulation of the Commission's science and technology policies and its framework programs in the field of research and technological development. His present responsibilities include science, technology and education.

He is married with three children.
