

BIOGRAPHICAL NOTE: PROFESSOR DR. M. BOGAARDT

Born: April 2, 1922, Djakarta (Indonesia)

Studies: Mathematics and Physics at Groningen University in 1941 and 1942, and from 1945 to 1945. Studies pursued at "College de France", Paris, 1949/50

Doctor's degree: Utrecht University in 1953

Thesis: "Calculation of Range/Energy Relations, especially in Photografic Emulsions".

Activities in the field of atomic energy:

1949-50: Chatillon, France

1950-55: Foundation Fundamental Research of the Matter, from 1951-55 at Kjeller, Norway

1955: Saclay.

1955-59: Chemical Engineer with Bataafache Petroleum Maatschappi at The Hague. 1958 in charge of the Evaluation and Design Division, Reactor Centrum, Netherlands.

January 1, 1959: Nominated Professor in mechanical thermal engineering and reactor construction at the Technical University at Eindhoven (Netherlands)

(Received May 1960)
