Introduction

This catalogue of documents lists the COM Documents of the Commission of the European Communities, the Reports of the European Parliament and the Opinions and Reports of the Economic and Social Committee prepared during the reference period by the Office for Official Publications of the European Communities for distribution to the public on paper and microfiche.

This version of the catalogue takes account only of documents of which English language texts have been prepared. There are parallel catalogues covering documents in each of the eight other official languages of the European Community.

Presentation

Documents are listed in numerical order within each document type under the nineteen main headings of a classification based on that used for the *Directory of Community legislation in force*.

In this Classified Index there is one single entry for each document, showing *inter alia* its number, title, date of adoption by the institution concerned, ISBN and catalogue number followed finally by the microfiche reference(s) for the version of the document in that form.

Frequency and cumulation

It is intended that catalogues of the present type will appear monthly. Cumulative catalogues will be published during and at the end of each year. They will contain alphabetical and numerical indexes, as well as classified indexes.

Subscription system

An attractive system of selective subscriptions is on offer for the paper versions of the three series of documents covered by this catalogue either individually or in combination.

Microfiche subscriptions are also available, but only for entire series, either individually or in combination.

More information can be obtained from the sales offices whose addresses are given on the back cover.

Other publications

Other European Community monographs — whether classed as publications or documents — as well as periodicals are listed in the catalogue *Publications of the EC*.

EUROPEAN CENTRE FOR THE DEVELOPMENT OF VOCATIONAL TRAINING (CEDEFOP)

EQUALITY OF OPPORTUNITY AND VOCATIONAL TRAINING

Five years on . . . Vocational training measures for women in the European Community

The most distinct axis in the Community's social policy in the field of equal opportunity for men and women in working life is undoubtedly the establishment of a relevant body of legislation. A number of legal norms and directives with legal force together make up a framework which guarantees women equal treatment in the fields of employment, training and social security.

However, it is common knowledge that legal provisions are never sufficient in themselves to eliminate all forms of inequality *de facto*. Consequently, the Commission of the European Communities is pursuing a programme parallel to its work on the relevant legislation, whereby it has developed and submitted to the Member States the concept of positive action. What is called for is specific action designed to eliminate the disadvantages suffered by women in working life.

It is in pursuit of the same objective that each year from its inception, CEDEFOP has reserved a privileged position in its work programme for activities to support the Commission in realizing the guidance and training aspects of this concept.
