## Introduction

This catalogue of documents lists the COM Documents of the Commission of the European Communities, the Reports of the European Parliament and the Opinions and Reports of the Economic and Social Committee prepared during the reference period by the Office for Official Publications of the European Communities for distribution to the public on paper and microfiche.

This version of the catalogue takes account only of documents of which English language texts have been prepared. There are parallel catalogues covering documents in each of the eight other official languages of the European Community.

### Presentation

Documents are listed in numerical order within each document type under the nineteen main headings of a classification based on that used for the *Directory of Community legislation in force*.

In this Classified Index there is one single entry for each document, showing *inter alia* its number, title, date of adoption by the institution concerned, ISBN and catalogue number followed finally by the microfiche reference(s) for the version of the document in that form.

### Frequency and cumulation

It is intended that catalogues of the present type will appear monthly. Cumulative catalogues will be published during and at the end of each year. They will contain alphabetical and numerical indexes, as well as classified indexes.

### Subscription system

An attractive system of selective subscriptions is on offer for the paper versions of the three series of documents covered by this catalogue either individually or in combination.

Microfiche subscriptions are also available, but only for entire series, either individually or in combination.

More information can be obtained from the sales offices whose addresses are given on the back cover.

### Other publications

Other European Community monographs — whether classed as publications or documents — as well as periodicals are listed in the catalogue '*Publications of the European Communities*'.

## TRAINING FOR EVERYONE

### **A guide to the planning of innovative training and employment projects for unemployed young people in the European Community**

The objective of 'training for everyone' calls for numerous political initiatives to be taken at all decision-making levels in order that, in particular, disadvantaged young people may be given an opportunity in working and adult life.

The present guide is the most important result of a project which ran from 1983 to 1986 on the 'training of young people in new forms of employment'. The aim of this project was to investigate whether disadvantaged young people could be given special help through innovative training and employment initiatives and to assess that experiences from such initiatives could be transferred to the traditional system of vocational training.

The guide is intended as a planning, organizational and implementation aid for political decision-makers and organizers.

Section A contains a number of general comments on the conceptual development of such projects.

Section B concentrates on the presentation and analysis of existing innovative approaches to the training and employment of young people.

Section C proposes guidelines for planning and implementing training and employment projects.

The annex contains an overview of individual exemplary projects in the European Community and concludes with information on institutions, projects and contacts.
