Introduction

This catalogue of documents lists the COM Documents of the Commission of the European Communities, the Reports of the European Parliament and the Opinions and Reports of the Economic and Social Committee prepared during the reference period by the Office for Official Publications of the European Communities for distribution to the public on paper and microfiche.

This version of the catalogue takes account only of documents of which English language texts have been prepared. There are parallel catalogues covering documents in each of the eight other official languages of the European Community.

Presentation

Documents are listed in numerical order within each document type under the nineteen main headings of a classification based on that used for the *Directory of Community legislation in force*.

In this Classified Index there is one single entry for each document, showing *inter alia* its number, title, date of adoption by the institution concerned, ISBN and catalogue number followed finally by the microfiche reference(s) for the version of the document in that form.

Frequency and cumulation

It is intended that catalogues of the present type will appear monthly. Cumulative catalogues will be published during and at the end of each year. They will contain alphabetical and numerical indexes, as well as classified indexes.

Subscription system

An attractive system of selective subscriptions is on offer for the paper versions of the three series of documents covered by this catalogue either individually or in combination.

Microfiche subscriptions are also available, but only for entire series, either individually or in combination.

More information can be obtained from the sales offices whose addresses are given on the back cover.

Other publications

Other European Community monographs — whether classed as publications or documents — as well as periodicals are listed in the catalogue '*Publications of the European Communities*'.

COMMISSION OF THE EUROPEAN COMMUNITIES

SOCIAL EUROPE — SPECIAL EDITION

The social dimension of the internal market

Conscious of the fact that the consideration of the social dimension of the internal market, notably with regard to its completion in 1992, is a condition for its success the Commission appointed an interdepartmental group to conduct an explanatory study.

The thoughts developed by the officials have made it possible to draw up a report which, without necessarily reflecting the opinion of the Commission, is understood to be an important component in the discussion of the social aspects of the internal market. A discussion the Commission wants to carry out with all social and political actors, since the consideration of the social dimension of the internal market is a matter which concerns everybody.

This report is the subject of this special issue of *Social Europe*.
