Introduction

The catalogue of documents lists the COM Documents of the Commission of the European Communities, the Reports of the European Parliament and the Opinions and Reports of the Economic and Social Committee prepared during the reference period by the Office for Official Publications of the European Communities for distribution to the public.

The COM Documents and the Opinions of the ESC are available on paper and microfiche, whereas from 1 January 1990, the Reports of the European Parliament are available only on microfiche.

This version of the catalogue takes account only of documents of which English language texts have been prepared. There are parallel catalogues covering documents in each of the eight other official languages of the European Community.

Presentation

Documents are listed in numerical order within each document type under the nineteen main headings of a classification based on that used for the *Directory of Community legislation in force*.

In this Classified Index there is one single entry for each document, showing *inter alia* its number, title, date of adoption by the institution concerned, ISBN number, catalogue number and finally by the microfiche reference number. Since 1987 the COM and PE

document numbers have been used as microfiche reference numbers.

Frequency and cumulation

It is intended that catalogues of the present type will appear monthly. Cumulative catalogues will be published during and at the end of each year. They will contain alphabetical and numerical indexes, as well as classified indexes.

Subscription system

An attractive system of selective subscriptions is on offer for the paper versions of the COM Documents and the Opinions of the ESC covered by this catalogue either individually or in combination.

Microfiche subscriptions are also available, but only for entire series, either individually or in combination.

More information can be obtained from the sales offices whose addresses are given on the back cover.

Other publications

Other European Community monographs — whether classed as publications or documents — as well as periodicals are listed in the catalogue *Publications of the European Communities*.

A Unique Variety

Europe not only stands for "common interests" and "unity", but also for variety. Especially in an area such as vocational training, new approaches and ideas are nourished by the soil of the different social and education systems. You, too, should make use of the wealth of information and research in Europe – through the CEDEFOP journals.

"Vocational Training", its specialized journal, is published in nine languages three times a year and has a circulation of 10,000. It is a source of reference for all those involved in vocational training (decision-makers, programme planners, administrators).

"CEDEFOP news", CEDEFOP's regular information letter, is eagerly awaited every three months by 20,000 readers to whom it presents a panorama of vocational training news from EC Member States.

For ten years now, CEDEFOP has been active, on behalf of the Member States and the Commission, in research, information and documentation work on subjects such as youth employment, adult training, the comparability of training levels, the comparison of vocational training systems, training for disadvantaged groups, etc.
