COM(82) 94 final

Explanatory Memorandum

Fixing of basic and buying-in prices for aubergines and apricots - late additions to COM(82) 10 final

At the time the Commission presented its proposals on the fixing of prices for certain agricultural products and on certain related measures (1982/83), contained in COM(82) 10 final, the information for fixing basic and buying-in prices for aubergines and apricots was not yet available.

The Commission is now able, as promised, to supply the missing details in its proposals for these two products.

In accordance with Article 16(2) of Regulation (EEC) No 1035/72 (1), which provides in particular that basic prices are to be fixed on the basis of the arithmetic mean of prices recorded over the three preceding marketing years on the most representative producer markets of the Community, the attached proposals are derived from prices for the products concerned on the Italian market only; this accounts for 71.5% of Community production of aubergines and 38.1% of Community production of apricots.
