

CONSUMER PRICE INDEX

RAPID INFORMATION

THE CONSUMER PRICE INDEX IN MARCH 1985

As in February, the CPI for the EC as a whole rose by 0.7% in March, continuing the trend of rather sensitive increases observed since the beginning of this year.

With the exceptions of Germany (+0.3%) and Luxembourg (+0.5%) the rates of increase were equal to or higher than the community average: France, Italy and the Netherlands all 0.7%, Belgium and Denmark both 0.8%, the United Kingdom 0.9% and Greece 2.9%.

A comparison of the rates of increase during the first quarter of this year with of the fourth quarter of 1984, shows that inflation has been speeding up since the beginning of this year in most of the EC countries.

For the EC as a whole prices rose by 2.0% during the first quarter of 1985 against 1.3% during the last quarter of 1984.

For the different countries the situation is as follows:

Germany	1.3 (0.0)	Luxemburg	1.5 (0.3)
France	1.8 (1.2)	United-Kingdom	2.1 (0.3)
Italy	3.0 (2.4)	Ireland	1.9 (0.7)
Netherlands	0.7 (0.8)	Denmark	1.9 (0.9)
Belgium	2.5 (0.7)	Greece	5.0 (5.1)

The applicant Member States also registered important increases since the beginning of this year: prices in Spain rose by 3.5% during the first quarter (Eurostat estimate) against 1.9% during the last quarter of 1984, whereas prices in Portugal rose by 8.8% from January to the end of March against 3.5% during the forth quarter of 1984.

The rate of inflation over 12 months for EUR-10 was 5.9%; for the individual countries the rates were as follows:

Netherlands	2.4%	United Kingdom	6.0%
Germany (FR)	2.5%	Ireland	6.2%*
Luxemburg	3.9%	France	6.4%
Belgium	5.7%	Italy	9.3%
Denmark	5.7%	Greece	18.3%

* February 1985 compared to November 1984.

3 □ 1985
