STATISTICAL ASPECTS OF ENERGY SUPPLY AND DEMAND IN 1978

The figures for 1978, although still provisional, give an overall picture of the energy situation in the Community and in each of the Member States in the year under review. (1)

1978 differed from previous years on account of a fairly appreciable increase in energy consumption in the Community as a whole. For the first time since the oil crisis, energy consumption exceeded the 1973 level of 933 million tonnes petroleum equivalent. The increase of 2.9 % is fairly substantial, especially in comparison with the rates of growth of GDP and industrial production noted for the Community which were 2.9 % and 2.2 % respectively.

In 1978 coal consumption, contrary to the trend in previous years, went up by around 2 % and coal's share of total consumption thus remained virtually the same, whereas it had fallen steadily in previous years. This increase, which was due to higher coal consumption in conventional thermal power stations, was met to a considerable extent from stocks and imports from non-member countries. Consumption of both crude oil and natural gas showed appreciable rates of increase without, however, reaching the levels recorded at the beginning of the 1970's. There was a substantial drop in consumption of hydro-electric energy as a result of less exceptional flow conditions than in 1977. Despite an increase of 8 %, nuclear energy still accounted for only 3 % of overall consumption, and is thus slightly ahead of lignite but well behind oil (54 %), coal (19 %) and natural gas (17 %).

---

(1) Statistical telegram of the same title dated 11th June 1979

As the level of net imports remained more or less the same as in 1977, the higher demand for energy in 1978 was met by a relatively modest increase in the production of primary sources (+ 1 %) and above all by considerable withdrawals from stocks of all sources of energy except natural gas, stocks of which went up by around 2 million tpe.

As regards the degree of energy dependence, several levels are given, viz. : the overall dependence calculated both exclusive and inclusive of nuclear energy, and the dependence on the main imported sources of energy.

Trends in energy consumption differed quite considerably from country to country. The Federal Republic of Germany, France, Belgium, Denmark and Ireland showed rates of increase which were distinctly higher than both the Community average and the increase in their GDP and industrial production. For Italy and the Netherlands the increase was a modest one. The United Kingdom recorded a very slight decrease which might, in the light of an increase of around 3 % in GDP and industrial production, be indicative of a slowing down in energy consumption.

For further details the reader should refer to the Statistical telegram already mentioned from which the above details have been extracted.

## PRIMARY ENERGY PRODUCTION IN 1978

A brief analysis of the provisional data of primary energy production (1) shows that in 1978 the level of Community production was maintained only as a result of the increase in crude oil production from the North Sea with the other sources of energy showing decreases of varying proportions.

The decline in coal production was contained, however, with output tending to stabilize at a level of around 150 million tonnes of petroleum equivalent.

The drop in hydroelectricity generation was quite substantial, but this was due exclusively to such random factors as flow conditions, which were less favourable than in 1977.

For the first time natural gas production showed a drop of some 7 million tonnes of petroleum equivalent as a result of a reduction in the rate of extraction (particularly in the Netherlands), which was offset by the availability of greater quantities of gas imported from third countries.

With regard to the structure of production, the trend is similar to that observed in 1976 and 1977, namely an appreciable increase in the share of crude oil and a decrease in that of natural gas and coal, although the latter is still the most important source of energy in the Community.

In the individual countries, primary energy production was generally down, except in the two main producing countries, viz. the Federal Republic of Germany, where it remained quite stable, and the United Kingdom, where it showed an appreciable increase.

---

(1) Statistical telegram "Primary energy production in 1978"

Attention should be drawn to the fact that nuclear energy is no longer included in primary energy production, following a change in methodology. Nuclear energy cannot be regarded as indigenous production if it is derived from imported nuclear fuels. Only in the case of France is nuclear energy regarded as a national resource, to the extent that it is produced from indigenous uranium.

#### FOREIGN TRADE OF THE COMMUNITY AND ITS MEMBER STATES

As a result of close cooperation with the statistical offices of the various Member States, the Commission's Computer Centre and the Office for Official Publications of the European Communities, EUROSTAT has this year been able to publish the detailed annual data on the foreign trade of the Community and its Member States more quickly than usual. The 1978 data, broken down on the basis of the 6-digit NIMEXE nomenclature, have been available on microfiche since early May, and will exist in the form of printed volumes as from July.

Readers to whom this material is of interest will find all necessary references and information in the list of annual publications under the heading : Red series - Analytical tables of foreign trade NIMEXE 1978.

193 pages

Format A 4

Multilingual edition

published in May 1979

The 1978 edition of "Education statistics" contains the principal data obtained by the Statistical Office of the European Communities from the appropriate national departments on :

- the pupils, students and teachers in the school and university systems in the Member States. The series given cover the school year 1970/71 to 1976/77 and therefore update the tables given in the 1976 edition. A number of summary tables have been added and, for the first time, enrolment percentages by year of age have been given;
- expenditure by General Government in the Member States on school and university education. The 1976 survey was repeated in 1977 and this made it possible to collect and analyse data on education expenditure in 1974 and 1975. EUROSTAT will, in future, carry out this survey annually and the results will be published in this publication.

Green series : Prices of fruit, vegetables and potatoes 1976-1977

ISEN 92-825-0832-3

Price : UKL 3.40  
DKR 35  
USD 6.70  
BFR 200

127 pages

Format A 4

Multilingual edition

published in April 1979

This edition is bringing up to date the prices published together with their descriptions in the special issue "Agricultural prices - Fruit, vegetables and potatoes" S 8/1973.

This annual edition contains the definite prices of fruit, vegetables and potatoes for 1976 and provisional figures for 1977.

Economic accounts - Agriculture, forestry, unit values

ISBN 92-825-0779-3	Price :	UKL	8.40
		DKR	88
		USD	16.70
		BFR	500

Approximately 194 pages    Format A 4

Multilingual edition    to be published in June 1979

This publication contains the most recent data on agriculture and forestry accounts and on unit values. This edition includes :

- tables showing time-series for final production, intermediate consumption, gross value added and fixed capital formation, for each of the Member States and the Community, in national currencies and in EUA at current prices (and exchange rates) and at constant prices (and exchange rates). The data on agricultural accounts relate to the period from 1967 to 1977;
- Community tables containing percentage data showing the structural development of the constituents of final production, of intermediate consumption and of fixed capital formation in agriculture;
- time-series for unit values in national currency and in EUA for selected agricultural products.

Land use and production 1975-1977

ISBN 92-825-0926-5	Price :	UKL	6.80
		DKR	70.40
		USD	13.40
		BFR	400

Approximately 120 pages    Format A 4

Multilingual edition    to be published in June 1979

This publication updates the statistical series published in 1977 "Land use and production".

Part I concerning "Land use" contains results for EUR 9 for the years 1958, 1965 and 1975 to 1977.

Part II concerning the "production of cereals, dried pulses, root and industrial crops" in EUR 9 also includes statistics on production of green forage. The publication contains data for three years 1975 to 1977.

- Volume 8 - The Nine and the Community : 174 pages  
Edition EN/FR
- Volume 9 - The Nine and the Community 1970 - Coefficients : 104 pages  
Edition EN/FR

Volume 1 of this series describes the methodology established by the SOEC for the construction of input-output tables calculated, from the year 1970 on, according to Community rules. A general description of the input-output table is given, with some detail on its various components and their relationships. The classifications and the accounting rules which are used are defined by a number of references to the European System of integrated economic Accounts (ESA). The last chapter shows a few examples of the way in which the tables can be used for economic analysis.

Each of the volumes 2 to 7 deals with the input-output table of one country (United Kingdom, the Netherlands, Italy, Belgium, Germany, France). In each volume, the first part describes the problems encountered when using the Community classifications and methods and the adjustments made in order to improve comparability from one country to another. A short description of the table is also given. The second part is composed of the input-output table expressed in units of account EUR, tables of direct coefficients (vertical and horizontal) and several tables of indirect coefficients (inverse matrix, content of imports, content of primary inputs in the final uses).

Volume 8 will put together the tables for the countries and the one for the Community. Volume 9 will present the corresponding coefficient tables and will include a comparative analysis of the economic structure of the various countries.

Yellow series : Labour costs in industry - 1975

Special series in 4 volumes      Format A 4

Multilingual edition	Price for 4 volumes :	UKL	13.30

This survey has been conducted simultaneously, and according to identical methods, in the 9 countries of the European Community.

Its essential objective was to obtain details of the earnings and of individual characteristics (sex, age, level of professional qualification, length of service, etc.) of employed persons, and of the structure (branch of activity, size, etc.) of the enterprises employing them, in order to bring out the relationships between these facts and the levels of remuneration.

The results are published in one volume for each country.

EUROSTAT PERIODICALS

Eurostatistics - Data for short-term economic analysis

ISSN 0379-1351 (DE/FR/NL) ISSN 0379-1394 (DA/EN/IT)

Annual subscription: 11 issues : UKL 13  
DKR 140

BFR 800  
22 issues : UKL 24  
DKR 262.50  
USD 48.50  
BFR 1 500

Approximately 100 pages Format A 4 monthly (11 issues per year)

2 three-language editions (FR/DE/NL), (EN/IT/DA)  
to appear at the beginning and in the middle of each month

The publication is intended to provide a selection of the most significant indicators of the trends in employment, production, external trade, prices, finance and the balance of payments for the Member States, the Community as a whole and the United States. The indicators will be expressed in the form of indices relating as far as possible to seasonally adjusted series. The bulletin will be available in two three-language editions which will appear alternately at the beginning and in the middle of each month.

Yellow series : Hourly earnings - Hours of work

ISSN 0378-3596

Annual subscription : UKL 9.80  
DKR 105.00  
USD 19.40  
BFR 600

Approximately 266 pages Format A 4 half-yearly

This publication which is updated every 6 months contains harmonized data on workers' hourly wages, on labour costs and weekly hours worked, plus indices of developments in employees' monthly salaries in industry. These data are broken down according to NACE, and, for certain countries, by region. This publication also contains some data on the earnings and conditions of employment of permanent workers in agriculture.

Green series : Crop production

ISSN 0378-3588

Annual subscription : UKL 41  
DKR 437  
USD 80.50  
BFR 2 500

Approximately 120 pages      Format A 4      11 issues per year

The most recent information on

- Crop production of arable land (area, yield, production)  
1) or  
Fruit and vegetable production (area, yield, production)  
2) Areas sown (twice a year)  
3) Stocks and deliveries of cereals and potatoes  
4) Meteorological report  
5) Supply balances for crop products (3 or 4 per year).

Monthly statistics of meat

ISSN 0378-3553

Annual subscription : UKL 41  
DKR 437  
USD 80.50  
BFR 2 500

Approximately 85 pages      Format A 4      10 issues per year

Publication of statistics supplied by Member States in application of the Council's Directives 68/161/EEC and 73/132/EEC concerning surveys to be carried out in the cattle and pig sectors.  
The bulletin contains monthly information on slaughterings, on foreign trade in live animals, on production by species and by country.  
In addition, it may also give information about supply balances, foreign trade in meat, livestock, structure of cattle or pig holdings, short term development of production.

Monthly statistics of milk

ISSN 0378-3545

Annual subscription : UKL 22.90  
DKR 245  
USD 45  
EFR 1 400

Approximately 40 pages Format A 4 10 issues per year

Publication of statistics transmitted by Member States in compliance with the 'Council directive of 31st July 1972, on the statistical surveys to be made by Member States concerning milk and milk products' (72/280/EEC). The bulletin contains the data relating to cows milk collected and the main products processed by dairy industry. From time to time the bulletin may contain supply balance sheets, information on dairy structure or external trade statistics.

Monthly statistics of eggs

ISSN 0378-3537

Annual subscription : UKL 24  
DKR 262,50  
USD 48.50  
EFR 1 500

Approximately 40 pages Format A 4 10 issues per year

Publication of statistics transmitted by Member States in compliance with the Council regulation 2782/75 on the commercialisation of hatching eggs and farmyard poultry chicks. The bulletin contains monthly by species data on incubation of eggs as well as production and external trade in chicks. In addition the bulletin may contain data on structure and utilization of hatcheries, on supply balance sheets or on external trade in eggs and poultry meat.

Selling prices of vegetable products

ISSN 0378-6714

Annual subscription : UKL 22.10  
DKR 236  
USD 43.50  
EFR 1 350

Approximately 133 pages Format A 4 bi-monthly

This bulletin presents the monthly and annual up-dating of the prices of the most important vegetable products and of a number of products processed by the food industry. The prices for EUR 9 are given in national currency and in EUA as well. The percentage variations refer to the previous month and to the same period of the year before. The monthly evolution of the prices of almost all products is illustrated also by graphs.

	BFR	1 350

Approximately 163 pages    Format A 4    bi-monthly

This bulletin presents the monthly and annual up-dating of the prices of the most important animal products and of a number of products processed by the food industry. The prices for EUR 9 are given in national currency and in EUA as well. The percentage variations refer to the previous month and to the comparable period of the year before. The monthly evolution of the prices of almost all products is illustrated by graphs.

Purchase prices of the means of production

ISSN 0378-6692

Annual subscription :	UKL	11.50
	DKR	122,50
	USD	22.50
	BFR	700

Approximately 110 pages    Format A 4    quarterly

This quarterly bulletin presents up-dated monthly and annual prices of the most important products bought by the farmers. The series for EUR 9 cover animal feed, fertilizers, transport and heating fuels, seeds and pesticides.

Indices CE des prix à la production

ISSN 0378-6706

Annual subscription :	UKL	4.90
	DKR	52,50
	USD	9.70
	BFR	300

Approximately 30 pages    Format A 4    quarterly

This publication shows for EUR 9 and each of the Member States the evolution of the monthly indices of the producer prices of agricultural products during the last 12 months.

In order to permit rectifications and facilitate comparisons, the first quarterly issue of this year comprises the trends of the annual indices since 1971 and of the monthly indices during the last two calendar years.

EC-Indices of the price of the means of production

ISSN

Annual subscription : UKL 4.90  
DKR 52,50  
USD 9.70  
BFR 300

Approximately 40 pages Format A 4 quarterly

This publication shows for EUR 9 and each of the Member States the evolution of the indices of the purchase prices of the means of agricultural production during the last 12 months.

In order to permit rectifications and facilitate comparisons, the first quarterly issue of this year comprises the trends of the annual indices since 1971 and of the monthly indices during the last two calendar years.

Quarterly bulletin of fisheries

ISSN 0379-0029

Annual subscription : UKL 9.80  
DKR 105  
USD 19.40  
BFR 600

Approximately 76 pages Format A 4 quarterly

This quarterly publication contains the monthly data on the landings (quantities and values) of the more important fish species in Community ports. In the earlier numbers, compiled from national publications, will be a degree of non-harmonized data but as the series progresses, harmonisation will be improved.

Blue series : Industrial short-term trends

ISSN 0378-7427 FR  
ISSN 0378-7877 EN  
ISSN 0378-8008 DE

Annual subscription : UKL 8  
DKR 87,50  
USD 16.25  
BFR 500

Approximately 60 pages Format A 4 monthly (11 issues per year)

Publication of short-term industrial indicators, comments and graphs. The publication contains indices of industrial production for about 40 industrial branches and groups of branches, indices of turnover, new orders, employees, wages and salaries and hours worked.

Two methodological supplements will complete the regular monthly publication.

Turquoise series : Quarterly iron and steel bulletin

ISSN 0378-3510

Annual subscription : UKL 16  
DKR 175  
USD 32.50  
EFR 1 000

Approximately 133 pages Format A 4 quarterly

Annual, quarterly and monthly statistics on employment, consumption of raw materials, production of iron ore, pig-iron, crude steel, finished steel products and end products, on works deliveries and receipts, stocks, on external and internal ECSC steel and scrap trade and on apparent steel consumption.

Monthly bulletin - Iron and steel

ISSN 0378-7559

Annual subscription : UKL 7.40  
DKR 78,50  
USD 14.50
