Characteristics and recent development of the textile industry in the EC

ARTIKLER – ARTICLES – ARTICOLI 83

Manuskript afsluttet den 10. december 1979

Manuscript completed 10 December 1979

Manoscritto terminato il 10 dicembre 1979

Disoccupazione : ripresa dell'andamento ascendente

Il mese di ottobre è stato caratterizzato da una ripresa dell'aumento della disoccupazione su scala comunitaria (+1,0% sulla scorta dei dati corretti delle variazioni stagionali), mentre nei mesi precedenti si era potuta osservare una certa stabilizzazione. Il raffronto con la situazione di dodici mesi fa non evidenzia, per il complesso della Comunità, alcuna evoluzione fondamentale: il numero dei disoccupati risulta diminuito di sole 47 000 unità, pari ad una riduzione dello 0,8%. Questa situazione globale nasconde tuttavia evoluzioni assai più differenziate sul piano nazionale: se, rispetto a un anno fa, non si osservano variazioni di rilievo nei Paesi Bassi, la disoccupazione risulta invece diminuita in Danimarca (-29,4%), nella Repubblica federale di Germania (-15,5%), in Irlanda (-9,8%) e nel Regno Unito (-4,3%), e aumentata per contro nel Lussemburgo (+10,4%), in Francia (+10,1%), in Belgio (+5,4%) e in Italia (+3,8%). Queste diverse evoluzioni segnano tendenze che, a livello dei singoli paesi considerati, persistono da almeno un anno (vedi grafico pagina D).

Indice della produzione industriale : flessione del tasso di sviluppo a breve termine EUR 9

L'indice destagionalizzato della produzione industriale si situava nel settembre 1979 a 117,4 (1975=100), cifra che supera dello 0,7% il livello del mese d'agosto. I recenti movimenti mensili dell'indice destagionalizzato, caratterizzato da oscillazioni abbastanza ampie su brevi periodi, non danno alcuna indicazione chiara di una tendenza.

Si osserva tuttavia, da un trimestre all'altro, una costante diminuzione del tasso di sviluppo a breve termine espresso dall'indice EUR 9, passato dall'1,8% nel mese di aprile allo 0,4% in settembre. In questo periodo i tre principali settori della produzione industriale hanno manifestato segni di peggioramento: questa tendenza è stata particolarmente marcata, a livello comunitario, nei settori dei beni d'investimento e dei beni di consumo, in cui in settembre si sono registrati tassi di sviluppo a breve termine negativi.

A livello degli Stati membri, i tassi di sviluppo a breve termine sono diminuiti notevolmente, ma sono rimasti positivi in Germania e in Danimarca, mentre nel Regno Unito e nei Paesi Bassi si sono registrati nel terzo trimestre tassi negativi. Occorre tuttavia essere prudenti nell'interpretare i risultati del Regno Unito, a causa degli effetti negativi esercitati dai conflitti sociali nelle industrie di trasformazione dei metalli, sull'indice della produzione industriale dei mesi d'agosto e settembre. Rispetto alla tendenza comunitaria globale, i tassi di sviluppo a breve termine hanno avuto negli ultimi mesi un andamento favorevole in Francia e in Italia. Queste evoluzioni discordanti traducono le diverse tendenze di breve periodo della produzione degli Stati membri nell'attuale fase della congiuntura economica.

Commercio intracomunitario : lieve flessione in settembre

Gli scambi intracomunitari del mese di settembre, pari a 18,2 miliardi di UCE (valutati sulla base delle importazioni) accusano, una volta corrette le variazioni stagionali, una diminuzione del 3,2% rispetto al mese precedente; su base annua, tuttavia, il commercio intracomunitario ha conosciuto una notevole espansione, pari al 20,4% rispetto a settembre del 1978.

Nei primi 9 mesi del 1979 gli scambi intracomunitari, in valori correnti, sono ammontati a 159,0 miliardi di UCE (+19,4% rispetto al corrispondente periodo del 1978). I tassi di incremento più elevati sono stati registrati, per le importazioni dall'Irlanda (+33,6%), dal Regno Unito (+30,5%) e dall'Italia (+29,1%), per le esportazioni ancora dall'Italia (+28,6%) e dal Regno Unito (+26,8%).

Il saldo della bilancia commerciale con gli altri paesi della Comunità risulta positivo per i Paesi Bassi (+4,5 miliardi di UCE), la R.F. di Germania (+2,2 miliardi di UCE), l'Italia (+1,1 miliardi di UCE) e l'UEBL (+0,5 miliardi di UCE), mentre il Regno Unito (-2,7 miliardi di UCE), la Danimarca (-2,1 miliardi di UCE), l'Irlanda (-1,1 miliardi di UCE) e la Francia (-0,8 miliardi di UCE) hanno registrato disavanzi tutt'altro che trascurabili.

Commercio estero della comunità : forte incremento delle importazioni

I dati destagionalizzati relativi al commercio della Comunità con i paesi terzi indicano per il mese di settembre un relativo regresso rispetto al mese precedente.

Le importazioni sono diminuite del 3,9%, scendendo a 18,2 miliardi di UCE, le esportazioni del 6,2%, cadendo a 16,0 miliardi di UCE. Il confronto con il mese corrispondente del 1978 indica comunque un aumento in valore del 23,9% per le importazioni e dell'8,5% delle esportazioni. Il forte aumento delle importazioni è dovuto ancora al rialzo dei prezzi e alla maggiore domanda di petrolio.

Nei primi 9 mesi del 1979 le importazioni dai paesi terzi sono ammontate complessivamente a 153,7 miliardi di UCE (+18,4% rispetto allo stesso periodo del 1978). I tassi di incremento più elevati sono stati registrati dall'Italia (+26,4%) e dalla Germania (+21,4%), mentre l'incremento del Regno Unito (+9,6%) resta notevolmente al di sotto della media comunitaria. L'aumento è stato meno rilevante dal lato delle esportazioni, salite dell'11,1%, raggiungendo in 9 mesi la cifra di 140,2 miliardi di UCE: il maggior contributo all'espansione è venuto qui dall'Italia (+19,8%) e dalla Francia (+15,6%), mentre lo sviluppo delle esportazioni tedesche (+7,5%) è stato notevolmente inferiore alla media. La cifra record di un disavanzo globale della Comunità pari a 13,6 miliardi di UCE (gennaio-settembre 1978: -3,8 miliardi di UCE) dà un'immagine del peggioramento della bilancia commerciale di tutti i paesi membri. La stessa Germania, pur mantenendo una bilancia commerciale positiva (+5,7 miliardi di UCE) ha accusato una fortissima diminuzione del suo attivo commerciale rispetto al periodo corrispondente dell'anno scorso (9,2 miliardi di UCE). I maggiori disavanzi in termini assoluti (espressi in UCE) sono stati registrati dai Paesi Bassi (-6,1 miliardi), dalla Francia (-3,6 miliardi) e dal Regno Unito (-3,4 miliardi), ma anche l'Italia (-2,5 miliardi), l'UEBL (-1,7 miliardi), la Danimarca (-1,0 miliardi) e l'Irlanda (-0,5 miliardi) accusano saldi passivi di notevole entità.

Prezzi

L'indice dei prezzi al consumo per il complesso dei paesi della CE è salito dell'1,1% tra il mese di settembre e quello di ottobre 1979.

L'aumento più forte si è avuto in Italia (2,3%), ma anche il Regno Unito accusa un aumento rilevante (0,9%). I paesi del Benelux e la Danimarca registrano invece tassi di aumento moderati, compresi tra lo 0,5 e lo 0,7%, mentre l'indice della Repubblica federale di Germania è salito soltanto dello 0,3%.

Per il complesso EUR 9, i prezzi sono saliti mediamente del 12% rispetto all'ottobre del 1978. Quattro paesi membri (Paesi Bassi, Belgio, Lussemburgo, Germania) accusano per tale periodo tassi d'incremento vicini al 5%, mentre Francia e Danimarca si situano intorno alla media comunitaria e Regno Unito ed Italia sono a livelli vicini al 17%.

Prezzi agricoli

Nel 2° trimestre 1979 l'indice complessivo EUR 9 dei prezzi alla produzione (ortofrutticoli esclusi) è salito del 6,1% rispetto al 2° trimestre del 1978: questo tasso di aumento è notevolmente superiore a quello osservato negli ultimi trimestri (con riferimento sempre ai periodi corrispondenti dell'anno scorso).

A livello dei singoli paesi si osserva che l'Irlanda, l'Italia e il Regno Unito presentano — sempre per il 2° trimestre 1979 sul 2° trimestre del 1978 — tassi d'incremento dell'indice globale (ortofrutticoli esclusi) superiori alla media comunitaria, mentre nella Repubblica federale di Germania l'aumento è stato solo dell'1,4% e i Paesi Bassi presentano addirittura un tasso negativo (-1,4%).

Nello stesso periodo i prezzi d'acquisto dei beni e servizi di consumo corrente in agricoltura sono mediamente aumentati, per EUR 9, del 7,5% rispetto al corrispondente trimestre del 1978. Il Lussemburgo, il Belgio, i Paesi Bassi e la Repubblica federale di Germania hanno presentato aumenti inferiori alla media, e compresi tra il 2 e il 5%, mentre in Italia, Danimarca, Regno Unito e Francia si sono osservati aumenti variabili tra il 5 e il 10%. Per l'Irlanda le stime dell'EUROSTAT lasciano prevedere un aumento del 12,5%. Su base trimestrale, e cioè rispetto al 1° trimestre del 1979, i prezzi d'acquisto per il complesso della Comunità sono aumentati mediamente del 2,3%.

I prezzi d'acquisto dei beni e servizi che contribuiscono agli investimenti in agricoltura sono d'altronde aumentati, come media EUR 9, del 10,1% rispetto allo stesso periodo dell'anno precedente: tale media è il risultato di tassi d'incremento alquanto diversi da un paese all'altro, compresi tra il 3,8% per la Repubblica federale di Germania e il 16,1% in Italia. L'aumento dei prezzi è stato lievemente inferiore alla media globale comunitaria per le macchine e gli altri beni d'investimento (+9,1%), e lievemente superiore per i fabbricati (+11,5%).

I prezzi dei mezzi di produzione agricola hanno quindi avuto a livello EUR 9 un aumento più rapido di quello dei prezzi di vendita dei prodotti agricoli: questi ultimi non sono mai cresciuti, in nessun paese, in misura tale da superare sia l'aumento dei prezzi dei beni e servizi intermedi che quello dei beni e servizi d'investimento; i rapporti osservati variano però notevolmente da un paese all'altro.

Denne publikation omfatter to dele: den ene indeholder »fællesskabstabeller« og den anden »tabeller efter lande«.

I »fællesskabstabellerne« er samlet de vigtigste indikatorer for Fællesskabets og for hver medlemsstats økonomiske udvikling på kort sigt, uddybet med nogle strukturelle oplysninger for året 1975. Denne del, som skal muliggøre sammenligninger mellem landene, indeholder der for kun af EUROSTAT harmoniserede tal, på grundlag af fælles kriterier, hvilket forklarer visse uoverensstemmelser med de nationale tal.

Rækkerne er korrigerede for sæsonvariationer ved hjælp af EUROSTAT's »Dainties«-metode. **De mest aktuelle tal er foreløbige og i visse tilfælde direkte skønnede af EUROSTAT.**

Som indikator for verdenskonjunkturudviklingen indeholder »fællesskabstabellerne« en søjle for USA.

I »tabellerne efter lande« er for hvert land udvalgt de for det pågældende land mest anvendte konjunkturelle indikatorer; det drejer sig om nationale rækker, i overensstemmelse med nationale kriterier og sæsonkorrigerede efter nationale metoder. I denne del er der ud

over Fællesskabets ni medlemslande medtaget kandidatlandene Spanien, Grækenland og Portugal, såvel som USA og Japan.

For alle rækkerne findes de historiske tal (årlege, kvartals- og månedstal) i EUROSTAT's databank CRONOS. Almindeligvis går tallene tilbage til 1960, og kan oplyses på anmodning.

Denne publikation indeholder kun et yderst minimalt antal metodologiske bemærkninger. Oplysninger om definitioner, metoder, fællesskabstilpasninger og kilder for hver enkelt række vil blive givet i en specialudgave af »EUROSTATISTIK«, hvori de statistiske angivelsers definitioner, metoder, tilpasninger og kilder vil blive beskrevet.

Der udkommer to udgaver af »EUROSTATISTIK« hver måned. Den ene affattet på dansk, engelsk og italiensk leveres til trykning den fjerde tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Den anden affattet på tysk, fransk og nederlandsk leveres til trykning den anden tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Hver udgave indeholder de mest aktuelle tal til disposition den dag leveringen til trykning finder sted.

PREFACE

EN

This bulletin is in two parts: 'Community Tables' and 'Country Tables'.

The Community Tables contain the main indicators useful for following short-term economic developments in the Community as a whole and in the Member States, supplemented by a certain amount of structural data relating to 1975. This part of the bulletin is intended to make possible real comparisons between countries and therefore only contains data which has been harmonized by EUROSTAT on the basis of common criteria, this explains many of the differences from national series.

Seasonal adjustment of the series has been done with EUROSTAT's own method, 'Dainties'. **The most recent data are provisional and in some cases estimated by EUROSTAT.**

Finally the Community Tables include a column for the USA as an indicator of changes in the world economy.

The Country Tables contain a selection of the economic indicators most often used in each country. They are national series based on

the definitions of the country concerned and seasonally adjusted by the country. In addition to the nine Community countries this section includes the three candidate countries (Spain, Greece and Portugal) the USA and Japan.

For all series, historical data (annual, quarterly or monthly) is available in EUROSTAT's CRONOS data bank, going back in most cases to 1960. This can be supplied on request.

This publication contains the absolute minimum of methodological notes. Details of definitions, methods, Community adjustments and sources of each series will be given in a special edition of 'Eurostatistics'.

Two versions of 'EUROSTATISTICS' come out every month. The first in Danish, English and Italian goes to the printers the fourth Tuesday of the month and will be distributed in the national capitals the following Monday. The second in German, French and Dutch goes to the printers the second Tuesday of the month and will be distributed in the national capitals the following Monday. Each version will contain the latest figures available when it went to press.

AVVERTENZA

IT

Il presente bollettino consta di 2 parti: l'una ha per oggetto alcune « tavole comunitarie », l'altra riguarda alcune « tavole per paese ».

Nelle tavole « comunitarie » si trovano riuniti i principali indicatori che consentono di seguire l'evoluzione di breve periodo dell'economia comunitaria nel suo complesso e in ogni singolo Stato membro, completati da alcuni dati strutturali relativi al 1975. Questa parte, che si prefigge di consentire di stabilire confronti reali fra paesi, contiene soltanto dati armonizzati dall'EUROSTAT in base a criteri comuni, il che spiega l'esistenza di certe differenze rispetto ai dati nazionali.

Le variazioni stagionali delle serie sono eliminate con il metodo « Dainties » dell'EUROSTAT. **I dati più recenti sono provvisori e, a volte direttamente stimati da EUROSTAT.**

Nelle tavole comunitarie figura una colonna relativa agli Stati Uniti d'America a titolo di indicatore dell'evoluzione della congiuntura mondiale.

Nelle « tavole per paesi » si riporta una selezione degli indicatori congiunturali più correntemente adoperati in ogni paese; si tratta di serie nazionali, corrispondenti ai criteri nazionali e « destagionaliz-

zate » per mezzo dei metodi nazionali. In questa parte sono presi in considerazione oltre ai 9 paesi membri della Comunità, i paesi candidati all'adesione: Grecia, Portogallo, Spagna, nonché gli Stati Uniti d'America e il Giappone.

Per tutte le serie, presso il sistema CRONOS dell'EUROSTAT sono disponibili dati storici (annui, trimestrali o mensili) risalenti in generale al 1960, i quali possono essere forniti su richiesta.

La presente pubblicazione contiene soltanto annotazioni metodologiche ridotte allo stretto minimo. Le informazioni relative alle definizioni, ai metodi, agli aggiornamenti comunitari e alle fonti di ogni serie saranno riportate in un fascicolo speciale (ad hoc) di EUROSTATISTICHE avente per oggetto le definizioni, i metodi, gli aggiornamenti e le fonti dei dati statistici.

Ogni mese vengono pubblicate due versioni di « EUROSTATISTICHE ». La prima redatta in danese, inglese e italiano, che va in stampa il 4° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo; la seconda redatta in tedesco, francese e olandese, che va in stampa il 2° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo. Ogni versione riporta le ultime cifre disponibili il giorno della stampa.

CHARACTERISTICS AND RECENT DEVELOPMENT OF THE TEXTILE INDUSTRY IN THE EC

DEFINITION

For the purposes of this article the textile industry comprises the production of yarns (including yarns from man-made staple fibres), woven fabrics and knitted and crocheted fabrics. It does not include the production of synthetic and regenerated fibres nor the production of articles of clothing.

POSITION IN RELATION TO INDUSTRY AS A WHOLE

— In 1975, the textile industry represented between 3% (Denmark) and 7% (Belgium, Italy) of value-added in the whole of manufacturing industry.

— On the other hand, the textile industry accounts on average for 7% of total employment (the proportions varying between 3% in Denmark to 10% in Belgium); in all the countries, the average value-added per person occupied in the textile industry is lower than in industry as a whole.

SOME OTHER FEATURES

— In 1975, about 10 500 undertakings in the Community employed on average 156 persons (from 70 persons in Denmark to 230 in the FR of Germany).

— In 1978, the number of persons occupied was 1 460 000, i.e. 400 000 less than in 1973.

— Turnover in 1978 was 28 000 EUA per person occupied (ranging from 20 000 EUA in the United Kingdom to 38 000 EUA in the Netherlands).

— Annual investment is in the region of 1 600 000 EUA, i.e. approximately 900 EUA per person occupied or 11–13% of value-added.

— Production in 1978

- 2 071 000 tonnes of spun yarns, comprising 45% from man-made staple fibres, 22% from wool and 33% from cotton and flax;
- 1 220 000 tonnes of woven fabrics, 42% of which are synthetic and regenerated fibres, 15% are wool and 43% are cotton and flax;
- 370 000 tonnes of knitted and crocheted fabrics.

— Imports and exports are in overall balance (96% of imports being covered by exports) at a level of about 6 000 million EUA, i.e. approximately 14% of the value of production and almost 15% of domestic consumption.

RECENT DEVELOPMENTS

Production

— Generally speaking, production in the textile industry is growing less rapidly than in industry as a whole.

— In June 1979, the level of production in the textile industry was approximately the same as the average level achieved in 1976 but was considerably lower than that recorded at the end of that year.

— In 1977, the textile industry suffered a decline in production, which lasted until the spring of 1978 and has since been reversed.

— The most recent indications are that the present growth phase in beginning to lose impetus.

External trade

Whereas in 1977 and 1976 there was comparatively little change in the ratio of imports to domestic consumption, a slight increase in the degree of market penetration became apparent in 1978 and in the first quarter of 1979. The proportion of imports covered by exports increased from 96% in 1976 to 100% in 1977 and has subsequently tended to decline (97% in 1978 and 96% in the first quarter of 1979), i.e. imports have increased slightly more rapidly than exports.

Demand

It is clear from the above that changes in the level of production and in particular the downturn in production in 1977 and the recovery since the spring of 1978 are determined primarily by changes in domestic demand and to a lesser extent by the pressures of external trade.

Employment

Whereas employment in industry as a whole has decreased by about 2% since 1975, losses in the textile industry have amounted to just over 10%, i.e. 180 000 jobs. The highest proportional loss of employment has taken place in Belgium and the Netherlands (with a 25% job-loss since 1975).

Productivity

Whereas output per person occupied in industry as a whole has increased by 18% since 1975, it has risen by 22% in the textile industry, thus underlining the effects of rationalization. In the more recent past (1977-1978), the trend has been reversed, and the output per person occupied in the textile industry has increased less than in industry as a whole, largely as a result of the decline in production.

Denne publikation, som er en opdatering af 1975-udgaven »Regionalstatistik — Befolkning, erhverv, levevilkår«, indeholder de nyeste socialstatistikker for De europæiske Fællesskabers 140 regioner :

- Samlet befolkning, fødsler, døde, ændringerne i fødselshyppighed og dødelighed, aldersfordeling, befolkningsbevægelser, vandringer mellem regioner.
- Beskæftigelse og beskæftigelsesstruktur efter køn, alder, aktivitetskategori og aktivitetsbranche
- Registreret arbejdsløshed
- Levestandardsindikatorer : miljø, uddannelse, sundhedsvæsen, arbejds løn.

Et foldeblad med et kort over regionerne samt 12 kort til illustration af de vigtigste emner er indeholdt i publikationen.

Purple series :

Regional statistics — Population, employment, living standards — 1977

ISBN 92-825-1100-6

± 200 pages. Format A4

Multilingual edition published in November 1979

Price :

BFR 500	DKR 88	DM 31,70	FF 73
LIT 14 200	HFL 34,30	UKL 8,40	USD 17,80

Updating of the 1975 edition of the same publication concerning conditions in the 140 regions of the European Communities :

- Total population and population growth, births, deaths, trends in birth and death rates, age structure, trend of population, interregional movement of population.
- Employment and structure of employment broken down by sex, age, categories of activity, branches of activity.
- Registered unemployment.
- Indicators of the quality of life, physical environment, education, health, miscellaneous indicators of standard of living, workers' earnings.

The publication includes a folding map of the regions and 12 maps illustrating the main topics.

Serie viola :

Statistiche regionali — Popolazione, occupazione, condizioni di vita — 1977

ISBN 92-825-1100-6

± 200 pagine. Formato A4

Edizione multilingue pubblicata in novembre 1979

Prezzo :

BFR 500	DKR 88	DM 31,70	FF 73
LIT 1 4 200	HFL 34.30	UKL 8.40	USD 17,80

Aggiornamento dell'edizione 1975 della stessa pubblicazione riguardante la situazione sociale delle 140 regioni della Comunità europea :

- Popolazione totale, nascita, morti, evoluzione del tasso di natalità e di mortalità, struttura per classi di età, evoluzione della popolazione, migrazioni interregionali.
- Occupazione e struttura dell'occupazione disaggregate per sesso, età, categorie di attività, branche di attività.
- Disoccupazione ufficiale e sua evoluzione.
- Indicatori sulle condizioni di vita : ambiente fisico, insegnamento, salute, indicatori sul livello di vita, retribuzioni degli operai.

La pubblicazione comprende una carta delle regioni ed una serie di altre carte ed illustrazioni dei temi principali.
