DATI PER L'ANALISI DELLA CONGIUNTURA

Manuskript afsluttet den 23. marts 1981.

Manuscript completed 23 March 1981.

Manoscritto terminato il 23 marzo 1981.

**Arbejdsløshed : fortsat stigende tendens**

Ved udgangen af februar 1981 var der 8,5 millioner registrerede arbejdsløse i de oprindelige ni medlemsstater svarende til 7,8% af den civile erhvervsaktive befolkning.

Spændingen på arbejdsmarkedet forblev således uændret og forværredes endog lidt (+0,3%) i en periode, hvor man normalt kunne forvente en sæsonbetting nedgang i arbejdsløsheden.

I løbet af et år, fra februar 1980 til februar 1981, er arbejdsløsheden i de oprindelige ni medlemsstater steget med næsten 30%. Dette fællesskabsgennemsnit overskrider i høj grad i Det forenede Kongerige (+65%), Nederlandene (+53%) og Danmark (+50%). Stigningen er ligeledes betydelig i Irland (+37%) og man når op på fællesskabsgennemsnittet i Forbundsrepublikken Tyskland og i Luxembourg (ca. +30%). Belgien (+23%), Frankrig (+15%) og Italien (+7%) holder sig under dette gennemsnit.

Grækenland, som på grund af sin særlige beskæftigelsesstruktur har en relativt lav arbejdsløshed, har ligeledes siden februar 1980 oplevet en stigning i arbejdsløsheden (+21%).

Når denne nye medlemsstat medregnes, når antallet af registrerede arbejdsløse i Fællesskabet op på 8,6 mio svarende til 7,6% af den civile erhvervsaktive befolkning.

**Indekset over industriproduktionen : Eurostat skønner, at industriproduktionen i Fællesskabet faldt med 0,8% i 1980.**

Ifølge EUROSTAT's skøn blev Det europæiske Fællesskabs indeks over industriproduktionen (ikke-sæsonkorrigeret) i december 1980 opgjort til 115,7 (1975=100) svarende til et fald på 5,7% i forhold til den tilsvarende måned året i forvejen. For syvende måned i træk ligger det ikke-sæsonkorrigerede indeks således lavere end året før. Dette afspejles ligeledes i væksttendensen på langt sigt.

Disse oplysninger viser endvidere, at Fællesskabets industriproduktion faldt med ca. 0,8% i 1980, medens den var steget med 2,3% i 1978 og 5% i 1979. Ser man på produktionsgrupperne, er der stor forskel på de årlige vækstrater i Fællesskabets produktion. Inden for investeringsgodeindustrien udgjorde stigningen 3,2% i 1980, medens den var på 3,6% i 1979, og produktionen inden for forbrugsgodeindustrien faldt med 1% i 1980 efter at være steget med 3,9% året i forvejen. Inden for mellemproduktindustrien var produktionsnedgangen større, eftersom produktionen faldt med 2,3% i 1980, medens den året i forvejen var steget med 6,3%.

Man har ligeledes registreret mærkbare forskelle i den årlige vækstrate i de enkelte medlemsstaters samlede industriproduktion i 1980; der er således tale om vækstrater på fra +4% (Italien) til -6,8% (Det forenede Kongerige). I fem lande lå stigningen i industriproduktionen på mellem -1% og +1%: Tyskland (-0,1%), Danmark (-0,1%), Nederlandene (-0,2%), Frankrig (-0,5%) og Belgien (ca. +1%). Alle landene registrerede en kraftig nedgang i stigningen i forhold til det foregående år. Det mest markante omslag blev registreret i Det forenede Kongerige (hvor vækstraten faldt fra +3,7% i 1979 til -6,8% i 1980), Luxembourg (fra +3,4% i 1979 til -3,3% i 1980) og i Tyskland (fra +5,5% i 1979 til -0,1% i 1980).

**Stål**

I februar 1981 faldt produktionen af råstål i Fællesskabet (De Ni) med godt 5% (sæsonkorrigerede tal). Den var med næsten 10 mio t lidt lavere end i februar 1977 (-1,3%), hvor der registreredes en kraftig nedgang, og lå henholdsvis 4,5% og 11% lavere i forhold til de tilsvarende tal i 1978 og 1979. Man nåede således ikke op på resultatet for februar 1980, skønt dette var kraftigt påvirket af strejken inden for den britiske stålindustri.

Faldet i tilgangen af ordrer på almindeligt stål fortsatte i januar 1981 (-5,3%) i forhold til december 1980 efter sæsonkorrigeret, og med 7,1 mio t var det den laveste ordretilgang for januar siden slutningen af 1974.

**Landbrug : Udviklingen i landmændenes indtjening**

Værditilvæksten i faktorpriser pr. beskæftiget er en indikator for landmændenes indtjening. Den nominelle stigning i 1980 for hele Fællesskabet er skønsmæssigt opgjort til 2,2%, hvilket efter korrektion for prisstigninger svarer til en reel indtægtsnedgang på 8,9%. Medlemslandene kan opdeles i tre grupper: lande, som har haft en reel indtægtsnedgang på ca. 5% (Italien og Beneluxlandene), lande, hvor indtægtsnedgangen er af størrelsesorden 10% (Tyskland, Frankrig, Det forenede Kongerige og Danmark) og Irland med en indtægtsnedgang på 19,3%.

**Energi : Statistiske oplysninger om kulindustrien i 1980**

Fællesskabets produktion af kul blev i 1980 opgjort til i alt 247,2 millioner tons, hvilket sammenlignet med de seneste år svarer til en stigning på tæt ved 8,3 millioner tons. Med undtagelse af Frankrig registrerede alle producentlandene en produktionsstigning, som imidlertid varierer meget fra det ene land til det andet. Medens produktionsstigningen i Belgien og Vesttyskland således var relativt beskedne, opnåedes ekstraordinært gode resultater i Det forenede Kongerige, hvor produktionen steg med 7,6 millioner tons svarende til 90% af stigningen for hele Fællesskabet.

Hvad angår kulforbruget, forblev den samlede efterspørgsel stort set uændret, idet faldet i forbruget af koksul udlignedes af stigningen i forbruget af dampkul. Derimod fortsatte stigningen i de samlede kulleverancer. Medens man i modsætning til 1979 registrerede et begyndende fald i leverancerne til koksværkerne, undergik leverancerne til de offentlige elektricitetsværker og minernes egne værker (som udgør ca. 57% af de samlede leverancer) en så kraftig stigning som 14,3 millioner tons (+9%), hvorved man nåede op på et rekordhøjt niveau på 181 millioner tons. De vigtigste aftagere af kul (elektricitetsværkerne og koksværkerne) genopbyggede således deres egne egne lagre, som man i høj grad måtte trække på i 1979.

Til trods for stigningen i kulproduktionen registreredes en mærkbar forøgelse (+14,5 millioner tons) i importen af kul fra tredjelande. Denne import nåede op på 74 millioner tons og dækker en fjerdedel af Fællesskabets behov. Ser man på de enkelte medlemsstater, kan man blandt de kulproducerende lande konstatere, at Frankrig og Belgien importerede henholdsvis 22,5 og 7,1 millioner tons, hvilket er mere end deres egen produktion. Det forenede Kongerige med 7,4 millioner tons næsten fordoblede igen sin import. Samtlige lande uden undtagelse forøgede deres import.

**Penge og finanser : Forhøjelse af renten i Tyskland og Belgien, rentenedsættelse i Det forenede Kongerige**

Med ophævelsen af den normale ordning for lombard-lån (lån mod pant i værdipapirer), der ydes til forretningsbankerne, og med indførelsen af de « særlige » mere kostbare ordninger (op til 12%) bestræber den tyske centralbank sig fortsat på at kontrollere pengemængden.

Den belgiske francs svaghed i EMS-systemet tvang de belgiske myndigheder til at foretage tilpasninger i form af en forhøjelse af den korte rente på statsobligationer.

Forventningen om en nedsættelse af den officielle diskonto (Minimum Lending Rate) medførte en nedgang i den korte rente i Det forenede Kongerige. Som følge heraf viste pundet svaghed over for den amerikanske dollar (laveste niveau i de sidste 11 måneder); årsagen til denne svaghed var den stadig større forskel i renteniveauet i henholdsvis Det forenede Kongerige og USA.

### Samhandelen inden for Fællesskabet

Den økonomiske situation medfører for november måned foruroligende resultater i samhandelen inden for Fællesskabet. Målt på grundlag af importen faldt denne samhandel med 7,3% i forhold til oktober 1980 og med 2,7% i forhold til november 1979. Stigningen i samhandelen over en periode på elleve måneder udgør herefter 12,6% i forhold til den tilsvarende periode i 1979, hvilket således er en fortsættelse af den nedadgående tendens, man har kunnet konstatere i løbet af de foregående måneder. Dette fald er fælles for alle lande med undtagelse af Italien og Irland; men det er særlig stort for Danmarks vedkommende (-12,6% i forhold til oktober og -17,5% i forhold til november 1979).

Hvad eksporten angår, er nedgangen særlig mærkbar i Beneluxlandene, Danmark, Vesttyskland og Frankrig. Derimod har Italien forøget sin eksport med 13,8% i forhold til oktober (men kun 3,8% i forhold til november 1979).

Der konstateredes en stigning i samhandelen i november måned, selv om der var tale om en mindre tilbagegang i forhold til oktober for Nederlandene, Det forenede Kongerige, Vesttyskland og Beneluxlandene. Det bemærkes, at Det forenede Kongeriges overskud over en periode på 11 måneder når op på næsten 1,3 milliarder ECU mod et underskud på 2,9 milliarder for samme periode i 1979.

### Fællesskabets samhandel med tredjelande

Fællesskabet import faldt med 4,8% i forhold til oktober svarende til en stigning på 7,3% i forhold til november 1979. Til trods for denne nedgang kom importstigningen op på 25,7% over en periode på elleve måneder. Nedgangen i importen i forhold til oktober (fra -7,3% for Frankrigs vedkommende til -1,8% for Danmarks vedkommende) er fælles for næsten alle medlemsstater med undtagelse af Irland og Nederlandene. Over en periode på elleve måneder og i forhold til samme periode i 1979 når importstigningen op på over 30% for Beneluxlandene, Frankrig, Italien, 20% for Vesttyskland, Det forenede Kongerige og Nederlandene og under 10% for Irland og Danmark. Samme udvikling gør sig gældende for Fællesskabets eksport (-4,5% i forhold til oktober og +8,1% i forhold til november 1979), hvor stigningen over en periode på elleve måneder i forhold til 1979 hermed faldt til 14,9%. Denne tendens kunne spores i alle medlemsstaterne undtagen Italien (+19,2%) og Beneluxlandene (+8,3%).

Stigningen i underskuddet på handelsbalancen over for tredjelande fortsatte (3,4 milliarder ECU) og udgør nu 44,5 milliarder ECU. Med undtagelse af Vesttyskland kunne alle de øvrige medlemsstater registrere et underskud på handelsbalancen, i særdeleshed Frankrig (12 milliarder ECU), Italien (10 milliarder ECU) og Nederlandene (10 milliarder ECU).

**Unemployment: still rising**

At the end of February 1981, 8.5 Mio persons in the Community of Nine were registered as unemployed, representing 7.8% of the civilian working population.

The tightness of the labour market has been maintained and has even become slightly worse (+0.3%) in a month when normally a seasonal decrease should appear.

Within a year — from February 1980 to February 1981 — the number of unemployed in the Community of Nine had risen by 30%, this figure being considerably exceeded in the United Kingdom (+65%), in the Netherlands (+53%) and in Denmark (+50%); an above average increase also took place in Ireland (+37%). In the F.R. of Germany and in Luxembourg the increase was about average; less severe increases were recorded in Belgium (+23%), in France (+15%) and in Italy (+7%).

Greece, due to its particular structure of employment, has only a relatively small rate of registered unemployment, but this also showed an increase of 21% since February 1980.

If this new member country is included, the total number of registered unemployed persons in the Community was 8.6 Mio at the end of February 1981, representing 7.6% of the civilian working population.

**Index of industrial production: Eurostat estimates Community industrial production to have fallen by 0.8% in 1980**

The unadjusted index of industrial production for the European Community is estimated provisionally by EUROSTAT to have attained the level of 115.7 (1975=100) in December 1980, a fall of 5.7% over the corresponding month of the previous year. This is the seventh successive month in which the unadjusted Community index has been below the level recorded a year before, a factor which is reflected also in the downward movement of long term growth trends (the rates of change in the unadjusted index of industrial production over the last twelve months compared to the previous twelve months). These data show in addition that industrial production in the Community fell by approximately 0.8% in 1980 following growth of 2.3% in 1978 and 5% in 1979. At the product regroupment level the annual growth rates in Community production were quite different: in the investment goods industries growth in 1980 was 3.2% compared to 3.6% in 1979 whilst in the consumer goods sector production fell by 1% in 1980 having risen by 3.9% in the previous year. A sharper fall in annual production growth took place in the intermediate goods sector where a drop of 2.3% in production was registered in 1980 after a rise of 6.3% in the previous year.

Significant variations in the annual growth rates in total industrial production by member state in 1980 are also noticeable with rates varying from +4% (Italy) at one extreme, to -6.8% (United Kingdom) at the other. The rate of growth of industrial production for five countries fell within the range of -1% to +1% — Germany (-0.1%), Denmark (-0.1%), Netherlands (-0.2%), France (-0.5%) and Belgium (approximately +1%). All countries experienced a sharp fall in growth compared to the results recorded in the previous year, with the biggest turnaround in growth performance being recorded in the United Kingdom (+3.7% growth in 1979 to -6.8% in 1980), Luxembourg (+3.4% in 1979 to -3.3% in 1980) and Germany (+5.5% growth in 1979 to -0.1% in 1980).

**Steel industry**

In February 1981, the production of crude steel in the Community (the 9) rose by some 5% (deseasonalized figure). It was, at nearly 10 mio t, slightly lower than for February 1977 (-1.3%), a month of recession; and was 4.5% and 11.0% lower than comparable figures for 1978 and 1979 respectively. Also, the production level of February 1980, though strongly influenced by the strike in the British iron and steel industry, has not been attained. New orders for ordinary steels have, in January 1981, continued their downward trend (-5.3% compared with December 1980, after deseasonalization) and, at 7.1 mio t, have reached their lowest recorded level since the end of 1974.

**Agriculture: income trends**

Value added at factor cost per person employed is an indicator of farmers' incomes. In 1980 and for the Community as a whole, this value rose nominally by 2.2% which, once adjusted to take account of price rises, represents a fall in real terms of 8.9%. When the Member States are considered individually the following pattern emerges: one group of countries (Italy and the Benelux countries) shows a fall in real terms of around 5%; another group (Germany, France, the United Kingdom and Denmark) a fall of roughly 10%; and Ireland a fall of 19.3%.

**Energy: Coal economy statistics 1980**

In 1980 Community coal production totalled 247.2 million tonnes, showing an especially appreciable increase, compared with the previous years, of nearly 8.5 million tonnes. With the exception of France, all the coal-producing countries increased their production. These increases, however, varied widely from one country to the other; whereas those in Belgium and in the Federal Republic of Germany continued to be relatively modest, exceptional results were noted in the United Kingdom where production went up by 7.6 million tonnes, equal to 90% of the total rise in Community coal production.

On the consumption side, overall demand for coal remained virtually steady, the decline in consumption of coking coal being compensated for by an increase in consumption of steam coal. On the other hand, total deliveries of coal continued to rise: whereas deliveries to coking plants began to fall back, unlike the situation prevailing in 1979, deliveries to power stations (which represent approximately 57% of total sales) went up by 14.3 million tonnes (+9%), reaching the record level of 181 million tonnes. In this way the main consumers (power stations and coking plants) rebuilt their own stocks, upon which they had drawn a great deal during 1979.

In spite of the large increase in the amount of coal mined, there was also a significant rise (+14.5 million tonnes) in the quantity of coal imported from Third Countries. These imports reached the record level of 74 million tonnes and covered a quarter of Community requirements. Of the Community coal-producing states, France and Belgium imported 22.5 and 7.1 million tonnes respectively, both of which figures were in excess of national production. The United Kingdom, with 7.4 million tonnes of imports, almost doubled once again the quantities of coal it imported. All the Member States, without exception, increased their imports.

**Intra-Community trade**

In the wake of the economic situation, the figures for intra-Community trade as at November were disappointing and showed a fall of 7.3% (the figures being based on imports) compared with October 1980 and a fall of 2.7% compared with November 1979. The trade growth rate for eleven months was thus 12.6% as compared with the corresponding period in 1979, showing that the downturn observed in

previous months was continuing. Except in Italy and Ireland, this was a general trend with Denmark being particularly affected (– 12.6% compared with October and – 17.5% compared with November 1979).

On the exports side, the slump was particularly evident in the Benelux countries, Denmark, Germany and France. Italy's exports, on the contrary, were up 13.8% on October (but only 3.8% up on November 1979).

The Community's internal trade balance was positive in November, although slightly down on the October figures in the Netherlands, the United Kingdom, Germany and the Benelux countries. Over a period of eleven months the United Kingdom's surplus rose significantly to 1 300 million ECU compared with a deficit of 2 900 million ECU for the same period in 1979.

#### **Extra-Community trade**

The Community's imports were down 4.8% in October, this representing a rise of 7.3% compared with November 1979. Despite this drop, imports were nevertheless up by 25.7% during the eleven month period in question. In relation to October, imports fell back (the decreases ranging from 7.3% in France to 1.8% in Denmark) in all countries except Ireland and the Netherlands. Over eleven months and compared with the same period in 1979, the import growth rate was over 30% in the Benelux countries, France and Italy, 20% in Germany, the United Kingdom and the Netherlands, and under 10% in Ireland and Denmark.

The Community's exports also fell back (– 4.5% compared with October and + 8.1% compared with November 1979), the export growth rate for eleven months thus moving down from the 1979 figure to 14.9%. This downturn was common to all Member States except Italy (whose exports were up 19.2%) and the Benelux countries (up 8.3%). The trade balance moved 3 400 million ECU deeper into the red to reach 44 500 million ECU. With the exception of Germany, all Member States showed a trade deficit, particularly France (1 200 million ECU), Italy (1 000 million ECU) and the Netherlands (1 000 million ECU).

#### **Finance: Interest rates up in Germany and Belgium, down in the United Kingdom**

By suspending normal Lombard facilities (credits against securities) to the banking system and introducing more costly "special" facilities at about 12% the Deutsche Bundesbank intends to pursue its policy of tight money.

Weakness of the Belgian Franc within the EMS parity grid obliged Belgian authorities to take corrective action, by increasing interest rates on short term Treasury certificates.

Expectations about a cut in the Minimum Lending Rate reduced short term rates in the U.K. As a result, the pound sterling was weak vis-à-vis the US dollar (at its lowest level for 11 months) due to the widening gap between UK and US interest rates.

**Disoccupazione : tendenza persistente all'aumento**

Il numero dei disoccupati iscritti nelle liste di collocamento della Comunità dei Nove era di 8,5 milioni di persone alla fine del mese di febbraio 1981, rappresentando il 7,8% della popolazione attiva civile.

La tensione sul mercato del lavoro è dunque continuata, anzi lievemente peggiorata (+0,3%), in un periodo in genere caratterizzato da una contrazione stagionale della disoccupazione.

Nel periodo di un anno — tra febbraio 1981 — il livello della disoccupazione nella Comunità dei Nove è aumentato del 30% circa. Questa media comunitaria è stata largamente superata nel Regno Unito (+65%), nei Paesi Bassi (+53%) e in Danimarca (+50%). L'incremento è stato importante anche in Irlanda (+37%) e si situa nelle media comunitarie nella R.F. di Germania e nel Lussemburgo (+30% circa), mentre rimane inferiore a detta media in Belgio (+23%), in Francia (+15%) ed in Italia (+7%).

La Grecia, che a causa della particolare struttura dell'occupazione ha un tasso di disoccupati iscritti relativamente debole, ha subito dal febbraio 1980 un aumento della disoccupazione del 21%. Con l'inclusione di questo nuovo Stato Membro il numero dei disoccupati iscritti nelle liste di collocamento della Comunità sale a 8,6 milioni di persone, rappresentando così il 7,6% della popolazione attiva civile.

**Indice della produzione industriale : l'Eurostat ritiene che la produzione industriale della Comunità sia diminuita dello 0,8% nel 1980**

Secondo le stime dell'EUROSTAT, l'indice non corretto della produzione industriale della Comunità europea ha raggiunto nel dicembre 1980 il livello di 115,7 (1975=100), il che rappresenta una diminuzione del 5,7% rispetto allo stesso mese dell'anno precedente. Per il settimo mese consecutivo, dunque, l'indice comunitario non corretto è inferiore al livello osservato l'anno precedente. Questa situazione si riflette inoltre nella flessione delle tendenze dell'andamento a lungo termine.

Dai dati si rileva inoltre che la produzione industriale nella Comunità è scesa di circa lo 0,8% nel 1980, quando invece era aumentata del 2,3% nel 1978 e del 5% nel 1979. A livello dei raggruppamenti di prodotti, i tassi di crescita annuali della produzione comunitaria presentano forti differenze : nel settore industriale dei beni d'investimento l'aumento nel 1980 è stato del 3,2%, contro il 3,6% del 1979, mentre nel settore dei beni di consumo la produzione è diminuita dell'1% nel 1980, dopo un aumento del 3,9% registrato l'anno precedente. Nel settore dei beni intermedi, l'evoluzione della produzione annuale ha segnato una flessione più grave, con una diminuzione della produzione del 2,3% nel 1980, dopo un aumento del 6,3% osservato invece l'anno precedente.

Quanto ai tassi di crescita annui della produzione industriale complessiva nel 1980 è possibile osservare variazioni notevoli fra uno Stato membro e l'altro : esse vanno dal +4% (Italia) al -6,8% (Regno Unito). In cinque paesi il tasso di crescita della produzione industriale si è mantenuto in una forcella compresa tra il -1% e il +1% : Repubblica federale di Germania (-0,1%), Danimarca (-0,1%), Paesi Bassi (-0,2%), Francia (-0,5%) e Belgio (+1% circa). In tutti i paesi si è osservata una netta regressione dell'evoluzione rispetto all'anno precedente. Le inversioni più marcate della curva di crescita sono state registrate nel Regno Unito (in cui il tasso d'incremento è sceso dal +3,7% nel 1979 al -6,8% nel 1980), nel Lussemburgo (dal +3,4% nel 1979 al -3,3% nel 1980) e nella Repubblica federale di Germania (dal +5,5% nel 1979 al -0,1% nel 1980).

**Siderurgia**

In febbraio 1981 la produzione di acciaio grezzo nella Comunità (dei Nove) è aumentata all'incirca del 5% (dati destagionalizzati). Tale produzione era, con quasi 10 milioni di t., leggermente inferiore alla cifra di febbraio 1977 (-1,3), mese di recessione, ed era in diminuzione rispettivamente del 4,5% e dell'11% in rapporto ai relativi dati per il 1978 ed il 1979. Non è stato raggiunto neanche il risultato di febbraio 1980, che pure era stato fortemente influenzato dallo sciopero nella siderurgia britannica.

Le nuove ordinazioni di acciai comuni hanno continuato a diminuire in gennaio 1981 (-5,3% in rapporto a dicembre 1980, dopo la destagionalizzazione) ed hanno raggiunto, con 7,1 milioni di t., il più basso livello registrato per gennaio dalla fine del 1974.

**Energia : Aspetti statistici dell'economia carboniera nel 1980**

La produzione comunitaria di carbon fossile è ammontata, nel 1980, a 247,2 milioni di tonnellate, facendo registrare, rispetto agli ultimi anni, un aumento particolarmente rilevante di  $\pm 8,5$  milioni di tonnellate. Eccettuata la Francia, in tutti i paesi produttori si è registrato un aumento della produzione che, peraltro, presenta forti variazioni da un paese all'altro. Infatti, mentre gli aumenti di produzione nel Belgio e nella Repubblica federale di Germania sono rimasti relativamente moderati, si sono potuti osservare risultati eccezionali nel Regno Unito, in cui la produzione è aumentata di 7,6 milioni di tonnellate, cifra che rappresenta il 90% dell'aumento comunitario.

Quanto al consumo di carbon fossile, la domanda complessiva è rimasta praticamente invariata, in quanto il diminuito consumo di carbone da coke è stato compensato dall'aumento di consumo di carbone vapore. Per contro, le forniture complessive di carbon fossile hanno continuato ad aumentare : infatti, mentre le forniture alle cokerie hanno segnato, contrariamente alla situazione del 1979, un inizio di regressione, le consegne alle centrali elettriche dei servizi pubblici e delle miniere (che rappresentano circa il 57% dello smercio totale) hanno fatto registrare un aumento notevole di 14,3 milioni di tonnellate (+9%), raggiungendo il livello record di 181 milioni di tonnellate. In tal modo i principali consumatori (centrali elettriche e cokerie) hanno ricostituito le proprie scorte dalle quali avevano largamente attinto nel corso del 1979.

Malgrado il forte aumento dell'estrazione di carbon fossile, si osserva un incremento rilevante (+14,5 milioni di tonnellate) delle importazioni di carbon fossile in provenienza dai paesi terzi, importazioni che hanno raggiunto la cifra record di 74 milioni di tonnellate e che hanno provveduto a un quarto dei fabbisogni della Comunità. A livello degli Stati membri, si osserva che, fra i paesi produttori di carbone, la Francia e il Belgio hanno importato 22,5 e, rispettivamente, 7,1 milioni di tonnellate, quantitativi superiori a quelli rappresentati dalla produzione nazionale. Il Regno Unito, con 7,4 milioni di tonnellate, ha quasi raddoppiato ancora una volta i quantitativi importati. Tutti i paesi, senza eccezioni, hanno aumentato le proprie importazioni.

**Agricoltura : evoluzione del reddito degli agricoltori**

Il valore aggiunto al costo dei fattori per persona occupata costituisce un indicatore del reddito degli agricoltori. Nel 1980 il suo aumento nominale è stato stimato, per il complesso della Comunità, al 2,2% il che, dopo correzione per tener conto dell'aumento dei prezzi, si traduce in una regressione, in valori reali, del -8,9%. A livello dei paesi si distinguono tre gruppi : quelli che hanno fatto registrare una diminuzione, in termini reali, di circa il 5% (Italia e Benelux), quelli in cui la diminuzione è stata dell'ordine del 10% (Repubblica federale di Germania, Francia, Regno Unito e Danimarca) e, infine, l'Irlanda, con una contrazione del 19,3%.

**Scambi intra-CE**

La situazione economica è causa, per il mese di novembre, di risultati inquietanti per quanto riguarda gli scambi intra-CE. Questi infatti sono diminuiti del 7,3% (sulla base delle importazioni) rispetto all'ottobre 1980 e del 2,7% rispetto al novembre 1979. Di conseguenza, il tasso di evoluzione degli scambi per undici mesi si colloca ormai al 12,6% rispetto al periodo corrispondente del 1979, continuando in tal modo il

rallentamento osservato nel corso dei mesi precedenti. La diminuzione, constatata in tutti i paesi, fatta eccezione per l'Italia e l'Irlanda, è particolarmente marcata per la Danimarca (-12,6% rispetto all'ottobre e -17,5% rispetto al novembre 1979).

Nell'ambito delle esportazioni, la flessione riguarda soprattutto il Benelux, la Danimarca, la Repubblica federale di Germania e la Francia. Per contro, l'Italia ha aumentato le proprie esportazioni del 13,8% rispetto al mese di ottobre (ma solamente del 3,8% rispetto al mese di novembre 1979).

I paesi che nel mese di novembre hanno fatto registrare un saldo positivo degli scambi intracomunitari, ancorché lievemente inferiore rispetto al mese di ottobre, sono stati i Paesi Bassi, il Regno Unito, la Repubblica federale di Germania e il Benelux. Va osservato che, su undici mesi, l'attivo del Regno Unito ha raggiunto quasi 1,3 miliardi di ECU, contro un passivo di 2,9 miliardi per lo stesso periodo del 1979.

#### **Scambi extra-CE**

Il livello delle importazioni della Comunità è sceso del 4,8% rispetto al mese di ottobre, rappresentando comunque un aumento del 7,3% rispetto al novembre 1979. Malgrado la flessione registrata, l'aumento delle importazioni avrà comunque raggiunto il 25,7% su undici mesi. La contrazione delle importazioni rispetto al mese di ottobre (dal -7,3% per la Francia al -1,8% per la Danimarca) è quasi generale, fatta eccezione per l'Irlanda e i Paesi Bassi. Su un periodo di undici mesi e rispetto allo stesso periodo del 1979 il tasso di incremento delle importazioni supera il 30% per il Benelux, la Francia, l'Italia, il 20% per la Repubblica federale di Germania, il Regno Unito e i Paesi Bassi, mentre è inferiore al 10% per l'Irlanda e la Danimarca.

La stessa flessione si nota a livello delle esportazioni comunitarie (-4,5% rispetto all'ottobre e +8,1% rispetto al novembre 1979) il cui tasso di sviluppo su undici mesi rispetto al 1979 è, di conseguenza, sceso al 14,9%. Questa tendenza riguarda tutti gli Stati membri, tranne l'Italia (+19,2%) e il Benelux (+8,3%).

Il disavanzo della bilancia commerciale con i paesi terzi ha proseguito la sua evoluzione (3,4 miliardi di ECU), e raggiunge ormai i 44,5 miliardi di ECU. Fatta eccezione per la Repubblica federale di Germania, sono passive le bilance commerciali di tutti gli altri Stati membri, in particolare della Francia (12 miliardi di ECU), dell'Italia (10 miliardi di ECU) e dei Paesi Bassi (10 miliardi di ECU).

#### **Finanze : aumento dei tassi d'interesse nella Repubblica federale di Germania e in Belgio, diminuzione nel Regno Unito.**

Grazie alla sospensione della procedura abituale dei crediti « lombard » (crediti garantiti da titoli) presso il sistema bancario e all'introduzione delle procedure « speciali » più onerose di circa il 12%, la Deutsche Bundesbank tenta di portare avanti la sua politica di controllo della massa monetaria.

Una serie di flessioni del franco belga all'interno del sistema di parità del SME hanno obbligato le autorità belghe ad adottare provvedimenti correttivi tramite l'aumento dei tassi d'interesse a breve termine sui buoni del Tesoro.

L'attesa della riduzione del tasso di sconto ufficiale (Minimum Lending Rate) si è tradotta in una diminuzione dei tassi a breve termine nel Regno Unito. Di conseguenza, la lira sterlina si è indebolita rispetto al dollaro US (facendo registrare il livello più basso da undici mesi a questa parte), debolezza dovuta allo scarto crescente tra i tassi d'interesse nel Regno Unito e negli Stati Uniti.

Denne publikation omfatter to dele: den ene indeholder »fællesskabstabeller« og den anden »tabeller efter lande«.

I »fællesskabstabellerne« er samlet de vigtigste indikatorer for Fællesskabets og for hver medlemsstats økonomiske udvikling på kort sigt, uddybet med nogle strukturelle oplysninger for året 1975. Denne del, som skal muliggøre sammenligninger mellem landene, indeholder der for kun af EUROSTAT harmoniserede tal, på grundlag af fælles kriterier, hvilket forklarer visse uoverensstemmelser med de nationale tal.

Rækkerne er korrigerede for sæsonvariationer ved hjælp af EUROSTAT's »Dainties«-metode. **De mest aktuelle tal er foreløbige og i visse tilfælde direkte skønnede af EUROSTAT.**

Som indikator for verdenskonjunkturudviklingen indeholder »fællesskabstabellerne« en søjle for USA.

I »tabellerne efter lande« er for hvert land udvalgt de for det pågældende land mest anvendte konjunkturrelle indikatorer; det drejer sig om nationale rækker, i overensstemmelse med nationale kriterier og sæsonkorrigerede efter nationale metoder. I denne del er der ud

over Fællesskabets ni medlemslande medtaget kandidatlandene Spanien, Grækenland og Portugal, såvel som USA og Japan.

For alle rækkerne findes de historiske tal (årlige, kvartals- og måneds-tal) i EUROSTAT's databank CRONOS. Almindeligvis går tallene tilbage til 1960, og kan oplyses på anmodning.

Denne publikation indeholder kun et yderst minimalt antal metodologiske bemærkninger. Oplysninger om definitioner, metoder, fællesskabstilpasninger og kilder for hver enkelt række vil blive givet i en specialudgave af »EUROSTATISTIK«, hvori de statistiske angivelseres definitioner, metoder, tilpasninger og kilder vil blive beskrevet.

Der udkommer to udgaver af »EUROSTATISTIK« hver måned. Den ene affattet på dansk, engelsk og italiensk leveres til trykning den fjerde tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Den anden affattet på tysk, fransk og nederlandsk leveres til trykning den anden tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Hver udgave indeholder de mest aktuelle tal til disposition den dag leveringen til trykning finder sted.

## PREFACE

EN

This bulletin is in two parts: 'Community Tables' and 'Country Tables'.

The Community Tables contain the main indicators useful for following short-term economic developments in the Community as a whole and in the Member States, supplemented by a certain amount of structural data relating to 1975. This part of the bulletin is intended to make possible real comparisons between countries and therefore only contains data which has been harmonized by EUROSTAT on the basis of common criteria, this explains many of the differences from national series.

Seasonal adjustment of the series has been done with EUROSTAT's own method, 'Dainties'. **The most recent data are provisional and in some cases estimated by EUROSTAT.**

Finally the Community Tables include a column for the USA as an indicator of changes in the world economy.

The Country Tables contain a selection of the economic indicators most often used in each country. They are national series based on

the definitions of the country concerned and seasonally adjusted by the country. In addition to the nine Community countries this section includes the three candidate countries (Spain, Greece and Portugal) the USA and Japan.

For all series, historical data (annual, quarterly or monthly) is available in EUROSTAT's CRONOS data bank, going back in most cases to 1960. This can be supplied on request.

This publication contains the absolute minimum of methodological notes. Details of definitions, methods, Community adjustments and sources of each series will be given in a special edition of 'Eurostatistics'.

Two versions of 'EUROSTATISTICS' come out every month. The first in Danish, English and Italian goes to the printers the fourth Tuesday of the month and will be distributed in the national capitals the following Monday. The second in German, French and Dutch goes to the printers the second Tuesday of the month and will be distributed in the national capitals the following Monday. Each version will contain the latest figures available when it went to press.

## AVVERTENZA

IT

Il presente bollettino consta di 2 parti: l'una ha per oggetto alcune « tavole comunitarie », l'altra riguarda alcune « tavole per paese ».

Nelle tavole « comunitarie » si trovano riuniti i principali indicatori che consentono di seguire l'evoluzione di breve periodo dell'economia comunitaria nel suo complesso e in ogni singolo Stato membro, completati da alcuni dati strutturali relativi al 1975. Questa parte, che si prefigge di consentire di stabilire confronti reali fra paesi, contiene soltanto dati armonizzati dall'EUROSTAT in base a criteri comuni, il che spiega l'esistenza di certe differenze rispetto ai dati nazionali.

Le variazioni stagionali delle serie sono eliminate con il metodo « Dainties » dell'EUROSTAT. **I dati più recenti sono provvisori e, a volte direttamente stimati da EUROSTAT.**

Nelle tavole comunitarie figura una colonna relativa agli Stati Uniti d'America a titolo di indicatore dell'evoluzione della congiuntura mondiale.

Nelle « tavole per paesi » si riporta una selezione degli indicatori congiunturali più correntemente adoperati in ogni paese; si tratta di serie nazionali, corrispondenti ai criteri nazionali e « destagionaliz-

zate » per mezzo dei metodi nazionali. In questa parte sono presi in considerazione oltre ai 9 paesi membri della Comunità, i paesi candidati all'adesione Grecia, Portogallo, Spagna, nonché gli Stati Uniti d'America e il Giappone.

Per tutte le serie, presso il sistema CRONOS dell'EUROSTAT sono disponibili dati storici (annui, trimestrali o mensili) risalenti in generale al 1960, i quali possono essere forniti su richiesta.

La presente pubblicazione contiene soltanto annotazioni metodologiche ridotte allo stretto minimo. Le informazioni relative alle definizioni, ai metodi, agli aggiornamenti comunitari e alle fonti di ogni serie saranno riportate in un fascicolo speciale (ad hoc) di EUROSTATISTICHE avente per oggetto le definizioni, i metodi, gli aggiornamenti e le fonti dei dati statistici.

Ogni mese vengono pubblicate due versioni di « EUROSTATISTICHE ». La prima redatta in danese, inglese e italiano, che va in stampa il 4° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo; la seconda redatta in tedesco, francese e olandese, che va in stampa il 2° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo. Ogni versione riporta le ultime cifre disponibili il giorno della stampa.

## BR DEUTSCHLAND

- 02 Bruttoinlandsprodukt zu Marktpreisen in Preisen von 1970.
- 05 Abhängig Beschäftigte — saisonbereinigt (Durchschnitte).
- 06 Arbeitslose insgesamt — saisonbereinigt (Endstände).
- 07 Offene Stellen — saisonbereinigt (Endstände).
- 22 Index der Produktion : Produzierendes Gewerbe ohne Bauhauptgewerbe — saisonbereinigt.
- 23 Index der Produktion : Grundstoff- und Produktionsgütergewerbe — saisonbereinigt.
- 24 Index der Produktion : Investitionsgütergewerbe — saisonbereinigt.
- 25 Index der Produktion : Verbrauchsgütergewerbe — saisonbereinigt.
- 39 Auftragseingang im verarbeitenden Gewerbe (ohne Nahrungs- und Genussmittelgewerbe) insgesamt — saisonbereinigt.
- 41 Einfuhr insgesamt, Werte — saisonbereinigt.

- 42 Ausfuhr insgesamt, Werte — saisonbereinigt.
- 43 Handelsbilanz — saisonbereinigt.
- 45 Index der Durchschnittswerte, Einfuhr.
- 46 Index der Durchschnittswerte, Ausfuhr.
- 47 Austauschverhältnis (Terms of Trade).
- 48 Index des Volumens, Einfuhr.
- 49 Index des Volumens, Ausfuhr.
- 53 Umsätze des Einzelhandels — in jeweiligen Preisen — saisonbereinigt.
- 54 Umsätze des Einzelhandels — in Preisen von 1970 — saisonbereinigt.
- 62 Zulassung fabrikneuer Kraftfahrzeuge : Personenkraftwagen.
- 63 Zulassung fabrikneuer Kraftfahrzeuge : Lastkraftwagen.
- 71 Index der Erzeugerpreise industrieller Produkte ohne Mehrwertsteuer — saisonbereinigt.

- 79 Preisindex für die Lebenshaltung aller privaten Haushalte — saisonbereinigt.
- 85 Löhne und Gehälter im Produzierenden Gewerbe je Beschäftigten — saisonbereinigt.
- 87 Kassenmäßige Entwicklung des Bundeshaushaltes — Kassenüberschuß (+) bzw. -defizit (-).
- 89 Geldvolumen (M 2).
- 90 Auslandsposition der Deutschen Bundesbank — Bestände : Währungsreserven insgesamt.
- 92 Offizielle Bruttoreserven.
- 95 Entwicklung des Außenwerts der DM gegenüber 22 Ländern (wichtige Handelspartner der Bundesrepublik).
- 96 Zahlungsbilanz : Saldo der Leistungsbilanz.
- 97 Zahlungsbilanz : Saldo des gesamten Kapitalverkehrs.

Quellen : Statistisches Bundesamt und Deutsche Bundesbank.

## FRANCE

- 02 Production intérieure brute marchande aux prix de 1970.
- 05 Indice des effectifs occupés.
- 06 Demande d'emploi en fin de mois — désaisonnalisée.
- 07 Offres d'emploi à fin de mois — désaisonnalisée.
- 22 Production industrielle totale (sans bâtiment) — désaisonnalisée.
- 23 Production industrielle biens intermédiaires — désaisonnalisée.
- 24 Production industrielle biens d'équipement — désaisonnalisée.
- 25 Production industrielle biens de consommation — désaisonnalisée.
- 28 Construction automobile — désaisonnalisée.
- 29 Production de voitures particulières — désaisonnalisée.
- 30 Production de véhicules utilitaires — désaisonnalisée.

- 33 Indice de production bâtiment et travaux publics — désaisonnalisée.
- 34 Logements commencés — désaisonnalisée.
- 39 L'opinion des chefs d'entreprises industrielles sur le niveau des carnets.
- 41 Importations totales — fob — désaisonnalisée.
- 42 Exportations totales — fob — désaisonnalisée.
- 44 Taux de couverture — désaisonnalisée.
- 45 Indice des valeurs moyennes à l'importation.
- 46 Indice des valeurs moyennes à l'exportation.
- 47 Termes de l'échange.
- 51 Consommation totale des ménages — désaisonnalisée.
- 56 Grand commerce : volume des ventes — désaisonnalisée.

- 61 Immatriculations de voitures neuves — désaisonnalisée.
- 74 Indices des prix de gros industriels : produits industriels transformés.
- 79 Indice des prix à la consommation.
- 85 Indice du taux de salaire horaire ouvrier.
- 87 Opération budgets : solde.
- 89 Masse monétaire.
- 92 Réserves officielles brutes.
- 95 Valeur brute de la monnaie.
- 96 Solde des opérations courantes.
- 97 Solde des mouvements de capitaux.

Abonnementet er årligt og løber fra 1. januar til 31. december hvert år.

The annual subscription runs from 1 January to 31 December of each year.

Gli abbonamenti sono annuali e il loro periodo di validità va dal 1° gennaio al 31 dicembre di ciascun anno.

Betaling kan kun ske til agenturerne i landene nævnt på omslagets side 3.

Payments to be made only to the agents in the countries listed on page 3 of the cover.

I versamenti devono essere indirizzati agli uffici di vendita indicati a pag. 3 della copertina

Priserne dækker forsendelse ad land- eller søvej; agenturerne giver oplysning om priserne for luftforsendelse.

These are surface mail rates; for air subscription rates please apply to the agents.

I prezzi non comprendono le spese di spedizione per posta aerea; per le condizioni di abbonamento in caso di spedizione per posta aerea, si consultino gli uffici di vendita.
