DATI PER L'ANALISI DELLA CONGIUNTURA

Manuskript afsluttet den 23. November 1981.

Manuscript completed 23 November 1981.

Manoscritto terminato il 23 Novembre 1981.

1. Arbejdsløshed

Ved udgangen af oktober måned blev der i Fællesskabet registreret 9,7 millioner arbejdsløse. Dette svarer til en arbejdsløshedsprocent på 8,8% af den civile erhvervsaktive befolkning. Hvis arbejdsløsheden fortsætter med at stige i samme takt, som den har gjort siden foråret 1980 (mere end 2% om måneden målt i sæsonkorrigerede tal), vil arbejdsløshedstallet nå op på 10 millioner ved årets udgang. Ser man på de sæsonkorrigerede tal, kan der konstateres en særlig hurtig forværring af forholdene på arbejdsmarkedet i Tyskland, Luxembourg, Nederlandene og Danmark. I Italien, Irland og Belgien er der registreret en vis stabilisering på et højt niveau. Antallet af registrerede ledige stillinger er stadig meget begrænset; for hele Fællesskabets vedkommende, bortset fra Italien, er der omkring 400 000 ledige stillinger.

2. Forbrugerpriserne i oktober 1981

For første gang i løbet af 6 måneder steg forbrugerpriserne i EF med mere end 1% om måneden, idet de fra september til oktober steg med 1,1%. Priserne steg kraftigt i Grækenland, hvor den meget høje stigningstakt på 4,3% i september blev efterfulgt af en ny markant stigning på 2,6% i oktober. Der blev også registreret en væsentlig stigning i Italien, hvor priserne steg med 2,0%.

Der blev ligeledes registreret markante stigninger i Frankrig (1,2%), Det forenede Kongerige (0,9%) og Nederlandene (0,9%), medens stigningen var moderat i Vesttyskland, Belgien, Luxembourg og Danmark (0,3-0,5 %).

For EF som helhed udgjorde stigningen i forbrugerprisindekset siden oktober sidste år 12,8%.

Stigningerne i de enkelte medlemsstater varierer stadig betydeligt; de er stadig meget store i Grækenland (ca. 25%), Irland (ca. 20%) og Italien (ca. 19%). De er ligeledes betydelige i Frankrig (ca. 14%), Det forenede Kongerige og Danmark (begge ca. 12%), medens Vesttyskland og Beneluxlandene har kunnet registrere mere moderate stigninger (mellem 6 og 9%). De tilsvarende tal for en række lande uden for Fællesskabet er følgende: Spanien ca. 14%, Portugal ca. 25%, USA ca. 11% og Japan ca. 4%.

3. Indekset over industriproduktionen : Stadig præget af den økonomiske afmatning

Det foreløbige indeks over industriproduktionen i Fællesskabet blev opgjort til 103,3 og 86,9 (1975 = 100) i henholdsvis juli og august 1981. Disse indeks ligger ca. 2,5% lavere end i de tilsvarende måneder i det foregående år. Det sæsonkorrigerede indeks blev opgjort til 113,8 i juli og 112,0 i august og har således været stabilt sammenlignet med andet kvartal, hvor indekset i gennemsnit lå på 113,2.

På nationalt plan har man siden juni kunnet konstatere en opadgående tendens i flere lande, specielt Frankrig (+1,1% i august) og Det forenede Kongerige (+1,8%), mens tendensen i Forbundsrepublikken Tyskland (-0,4%) og Italien (-2,3%) er temmelig negativ.

Den seneste udvikling inden for de tre hovedproduktionsgrupper har vist en opadgående tendens inden for mellemproduktindustrien (+0,4% i august) og en nedadgående tendens i produktionen af forbrugsgoder og investeringsgoder (henholdsvis -0,1 og -0,9%).

4. Jern og stål

1 oktober 1981 nåede produktionen af råstål (målt i sæsonkorrigerede tal) i Fællesskabet (uden Grækenland) næsten samme omfang som i den foregående måned. Med 10,9 Mio tons er den steget med ca. 4,8% i forhold til det relativt lave tal i oktober 1980. Produktionen af færdigvarer i september 1981 er igen steget betydeligt, efter at den var faldet måneden før. Med 9,1 Mio tons (uden Grækenland) ligger produktionen 9,3% højere end i samme periode sidste år. Efter en midlertidig nedgang skete der i september 1981 en betydelig stigning i tilgangen af nye ordrer på almindeligt stål, hvilket skyldtes øget efterspørgsel på hjemmemarkederne. Med 8 Mio tons er den samlede ordretilgang 16% større end i den tilsvarende periode sidste år.

5. Samhandelen inden for fællesskabet

I fem medlemsstater (Tyskland, Frankrig, Irland, Italien og Nederlandene), for hvilke der foreligger oplysninger for august måned, voksede både importen og eksporten med 4% i løbet af de første 8 måneder af 1981 sammenlignet med den samme periode året i forvejen. Disse fem landes samlede overskud for samme periode er lidt lavere sammenlignet med 1980, men heri er skjult en væsentlig forbedring for Nederlandenes vedkommende og en forværring i de andre fire landes handelsbalance.

6. Fællesskabets samhandel med tredjelande

For de fem ovennævnte medlemsstater voksede eksporten med 20% i de første 8 måneder af 1981 sammenlignet med den samme periode i det foregående år. De største stigninger blev registreret i Irland (+36%), Italien (+31%) og Frankrig (+24%). Disse fem landes import steg med 12% i de tilsvarende perioder. Som følge heraf faldt disse fem landes samlede handelsunderskud med 4 Mrd ECU til 20 Mrd ECU.

7. Penge og finanser : Faldende renteniveau i USA

Med nedsættelsen af den officielle diskonto fra 14 til 13% i begyndelsen af november, hvilket var den første diskontonedsættelse siden juli 1980, skabte den amerikanske forbundsbank forudsætning for en nedsættelse af renteniveauet. Ændringen i pengepolitikken blev bekræftet to uger senere, da overrenten på 2% over diskontoen blev ophævet. Denne overrente skulle betales af banker, som ofte og i væsentligt omfang optog lån hos forbundsbanken. Som følge af nedgangen i den officielle rente skete der et fald i renten på det private penge- og kapitalmarked. Bankernes prime rate blev nedsat med 1-1 1/2 %.

1. Unemployment

At the end of October, 9.7 million people were registered as unemployed in the Community. This corresponds to an unemployment rate of 8.8% of the civilian working population. If unemployment continues to rise at the same rate as it has done since Spring 1980 (more than 2% a month for seasonally adjusted data), the ten million mark will be reached by the end of the year. An analysis of seasonally adjusted data shows a particularly rapid deterioration of the labour market in Germany, Luxembourg, the Netherlands and Denmark. In Italy, Ireland and Belgium there is a levelling off at a high figure. The number of vacancies registered is still very limited. For the Community without Italy, there are about 400 000 vacancies altogether.

2. Consumer prices in October 1981

For the first time in 6 months consumer prices in the EC rose by more than 1 % in a month, increasing by 1.1% from September to October. Prices rose sharply in Greece, where the very high figures of 4.3% in September was followed by another significant increase of 2.6% in October. A major increase was also reported from Italy, where prices went up by 2.0%.

Significant increases were recorded too in France (1.2%), the United Kingdom (0.9%) and the Netherlands (0.9%), whereas in Germany (FR), Belgium, Luxembourg and Denmark price growth was fairly slow (0.3 to 0.5%).

For the EC as a whole the rate of increase of the consumer price index since October last year was 12.8%.

For the individual countries the rates are still very different; they remain very high in Greece ($\pm 25\%$), Ireland ($\pm 20\%$) and Italy ($\pm 19\%$). There are also important for France ($\pm 14\%$), the United Kingdom and Denmark (both $\pm 12\%$), whereas Germany (FR) and the Benelux-countries show more moderate rates (between 6 and 9%). The corresponding figures for some non-Community countries are as follows : Spain $\pm 14\%$, Portugal $\pm 25\%$, U.S.A. $\pm 11\%$ and Japan $\pm 4\%$.

3. Index of industrial production: Still slack

The provisional index of industrial production in the Community was 103.3 and 86.9 (1975=100) in July and August 1981 respectively. These indices are about 2.5% lower than those for the corresponding months of the previous year. The seasonally adjusted index was 113.8 in July and 112.0 in August and has thus remained stable as compared with the second quarter, when its mean level was 113.2.

At national level, an upward trend has been apparent since June in several countries, especially France (+1.1 in August) and the United Kingdom (+1.8%), whereas the outlook in the Federal Republic of Germany (-0.4%) and Italy (-2.3%) is rather negative.

Recent developments in respect of the three main groups of industrial products have been an upturn in intermediate products (+0.4% in August) and a downward trend in consumer and capital goods (-0.1 and -0.9% respectively).

4. Iron and steel

In October 1981 the production of crude steel (deseasonalized) of the Community (ex Greece) has almost reached the level of the previous month. At 10.9 Mio t it has exceeded the relatively low figure of October 1980 by some 4.8%. The production of finished products in September 1981 has again risen noticeably after having dropped the month before. At 9.1 Mio t (ex Greece) it is 9.3% greater than the comparable level of last year. After a temporary decline, new orders for ordinary steels noticeably increased in September 1981, due to increased demand on the home markets. At 8 Mio t, total new orders exceed last years comparable level by 16%.

5. Intra-community trade

In five member countries (Germany, France, Ireland, Italy and the Netherlands) where the data for August are available, imports and exports both grew by 4% in the first eight months of 1981 compared with the same period the year before.

The surplus of these five countries taken together for the same period is slightly in decline compared with 1980 but this masks a major improvement for the Netherlands and a worsening of the trade balance in the other four countries.

6. Extra-community trade

For the five member states mentioned above, exports grew by 20% in the first eight months of 1981 compared with the same period of the previous year. The highest growth rates were recorded in Ireland (+36%), Italy (+31%) and France (+24%). The imports for these five countries went up by 12% between the corresponding periods. As a result, the trade deficit of these five countries taken together dropped by 4 Mrd ECU to 20 Mrd ECU.

7. Finance: Falling interest-rates in the USA

With the reduction of the official discount rate from 14 to 13% at the beginning of November, the first such fall since July 1980, the American Federal Reserv Board gave an impulse to a downward trend in interest rates. The movement in moneraty policy was confirmed two weeks later by the abolition of the two per cent premium on the discount rate. This premium was to be paid by banks who made frequent and extensive use of the official discount. As a consequence of the falling official rates there was a drop in the private money and credit market rates. The prime rates applied by banks were reduced by 1-1 1/2%.

1. Disoccupazione

A fine ottobre i disoccupati iscritti nelle liste di collocamento nella Comunità erano 9,7 milioni, pari all'8,8% della popolazione attiva civile. Se la disoccupazione continuerà a salire al ritmo seguito dalla primavera del 1980 (più del 2% al mese, in cifre destagionalizzate), si arriverà a fine anno alla cifra di 10 milioni di disoccupati. Un'analisi dei dati corretti delle variazioni stagionali mostra un aggravamento particolarmente rapido della situazione del mercato del lavoro in Germania, Lussemburgo, Paesi Bassi e Danimarca, mentre in Italia, Irlanda e Belgio si osserva uno stabilizzarsi della disoccupazione su cifre elevate. Il numero dei posti di lavoro scoperti resta esiguo : circa 400 000 per la Comunità nel suo complesso, Italia esclusa.

2. I prezzi al consumo nell'ottobre del 1981

Per la prima volta da sei mesi i prezzi al consumo nella CE sono saliti di più dell'1% in un mese : l'aumento tra settembre e ottobre è infatti dell'1,1%. L'aumento è stato molto forte in Grecia : alla cifra elevatissima del mese di settembre, (4,3%) è seguito un altro aumento significativo del 2,6% in ottobre. Un aumento decisamente elevato si osserva anche in Italia, dove i prezzi sono saliti ben del 2,0%.

Considerevoli anche gli aumenti osservati in Francia (1,2%), nel Regno Unito (0,9%) e nei Paesi Bassi (0,9%), moderati invece quelli della RF di Germania, del Belgio, del Lussemburgo e della Danimarca (tra lo 0,3 e lo 0,5%).

Per la CE nel suo complesso il tasso d'aumento dell'indice dei prezzi al consumo da ottobre dello scorso anno risulta così del 12,8%.

I tassi annuali sono però sempre molto diversi da un paese all'altro : restano molto elevati in Grecia ($\pm 25\%$), Irlanda ($\pm 20\%$) e Italia ($\pm 19\%$), considerevoli in Francia ($\pm 14\%$), nel Regno Unito e in Danimarca ($\pm 12\%$ per entrambi), e più moderati per la RF di Germania e i paesi del Benelux (tra il 6 e il 9%). Le cifre corrispondenti per alcuni paesi non della Comunità sono : Spagna $\pm 14\%$, Portogallo $\pm 25\%$, U.S.A. $\pm 11\%$ e Giappone $\pm 4\%$.

3. Indice della produzione industriale : debolezza persistente

Le cifre dell'indice provvisorio della produzione industriale nella Comunità per luglio e agosto 1981 sono rispettivamente di 103,3 e 86,9 (1975=100) : si tratta di livelli di attività inferiori del 2,5% circa e quelli dei mesi corrispondenti dello scorso anno. In termini destagionalizzati l'indice risulta di 113,8 in luglio e 112,0 in agosto e appare quindi stabile rispetto al secondo trimestre, in cui il livello medio era di 113,2.

Sul piano nazionale, una tendenza alla ripresa si è manifestata da giugno in vari paesi, particolarmente in Francia (+1,1 in agosto) e nel Regno Unito (+1,8%), mentre l'andamento appare negativo nella Repubblica federale di Germania (-0,4%) e in Italia (-2,3%).

L'evoluzione recente dei tre grandi gruppi di prodotti industriali è caratterizzata da un'inversione di tendenza per i prodotti intermedi (+0,4% in agosto) e da un andamento recessivo per i beni di consumo e di investimento (-0,1 e -0,9%, rispettivamente).

4. Siderurgia

Nell'ottobre del 1981 la produzione (destagionalizzata) di acciaio grezzo nella Comunità (Grecia esclusa) ha quasi raggiunto il livello del mese precedente : con un volume di 10,9 milioni di tonnellate essa supera del 4,8% circa la cifra relativamente bassa di ottobre 1980. La produzione di prodotti finiti nel settembre 1981 ha segnato di nuovo una notevole ripresa, dopo la caduta del mese precedente e, con 9,1 milioni di tonnellate (Grecia esclusa), risulta superiore del 9,3% alla cifra corrispondente dell'anno scorso. Dopo una flessione temporanea, anche i nuovi ordinativi di acciai comuni sono aumentati decisamente nel mese di settembre, grazie all'accresciuta domanda sui mercati nazionali : con 8 milioni di tonnellate il totale dei nuovi ordinativi supera del 16% il livello dello scorso anno.

5. Scambi intracomunitari

Per i cinque Stati membri (Germania, Francia, Italia e Paesi Bassi) i cui dati di agosto sono disponibili, le importazioni e le esportazioni dei primi 8 mesi del 1981 risultano salite del 4% rispetto al periodo corrispondente dell'anno scorso. L'attivo della bilancia commerciale aggregata di questi 5 paesi nello stesso periodo risulta lievemente inferiore alla cifra del 1980 : questo saldo globale nasconde però un andamento divergente, e cioè deciso miglioramento della bilancia commerciale dei Paesi Bassi e un peggioramento di quella degli altri quattro paesi.

6. Scambi con i paesi al di fuori della comunità'

Per i 5 stati membri suddetti, le esportazioni dei primi 8 mesi del 1981 sono aumentate del 20% rispetto al periodo corrispondente dello scorso anno. I maggiori tassi d'incremento sono stati registrati dall'Irlanda (+36%), dall'Italia (+31%) e dalla Francia (+24%). Nello stesso periodo le importazioni di questi 5 paesi aumentavano del 12%. Di conseguenza il disavanzo complessivo della bilancia commerciale dei 5 paesi in questione scende a 20 miliardi di ECU, con un miglioramento di 4 miliardi.

7. Finanze : flessione dei tassi d'interesse negli Stati Uniti

Con la riduzione di un punto del tasso ufficiale di sconto (dal 14 al 13%) applicata all'inizio di novembre — la prima che si osservi dal luglio 1980 — l'American Federal Reserve Board ha dato l'avvio ad un'inversione di tendenza nei tassi d'interesse. Il nuovo corso della politica monetaria è stato confermato due settimane più tardi dall'abolizione della maggiorazione del 2% del tasso di sconto, che colpiva le banche che facessero un ricorso frequente e massiccio allo sconto ufficiale. La diminuzione del tasso ufficiale di sconto ha comportato una flessione nei tassi d'interesse applicati sul mercato creditizio privato; i tassi primari applicati dalle banche sono così scesi di un punto o di un punto e mezzo.

Denne publikation omfatter to dele: den ene indeholder »fællesskabstabeller« og den anden »tabeller efter lande«.

I »fællesskabstabellerne« er samlet de vigtigste indikatorer for Fællesskabets og for hver medlemsstats økonomiske udvikling på kort sigt, uddybet med nogle strukturelle oplysninger for året 1975. Denne del, som skal muliggøre sammenligninger mellem landene, indeholder der for kun af EUROSTAT harmoniserede tal, på grundlag af fælles kriterier, hvilket forklarer visse uoverensstemmelser med de nationale tal.

Rækkerne er korrigerede for sæsonvariationer ved hjælp af EUROSTAT's »Dainties«-metode. **De mest aktuelle tal er foreløbige og i visse tilfælde direkte skønnede af EUROSTAT.**

Som indikator for verdenskonjunkturudviklingen indeholder »fællesskabstabellerne« en søjle for USA.

I »tabellerne efter lande« er for hvert land udvalgt de for det pågældende land mest anvendte konjunkturelle indikatorer; det drejer sig om nationale rækker, i overensstemmelse med nationale kriterier og sæsonkorrigerede efter nationale metoder. I denne del er der ud

over Fællesskabets ni medlemslande medtaget kandidatlandene Spanien, Grækenland og Portugal, såvel som USA og Japan.

For alle rækkerne findes de historiske tal (årlige, kvartals- og månedstal) i EUROSTAT's databank CRONOS. Almindeligvis går tallene tilbage til 1960, og kan oplyses på anmodning.

Denne publikation indeholder kun et yderst minimalt antal metodologiske bemærkninger. Oplysninger om definitioner, metoder, fællesskabstilpasninger og kilder for hver enkelt række vil blive givet i en specialudgave af »EUROSTATISTIK«, hvori de statistiske angivelsers definitioner, metoder, tilpasninger og kilder vil blive beskrevet.

Der udkommer to udgaver af »EUROSTATISTIK« hver måned. Den ene affattet på dansk, engelsk og italiensk leveres til trykning den fjerde tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Den anden affattet på tysk, fransk og nederlandsk leveres til trykning den anden tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Hver udgave indeholder de mest aktuelle tal til disposition den dag leveringen til trykning finder sted.

PREFACE

EN

This bulletin is in two parts: 'Community Tables' and 'Country Tables'.

The Community Tables contain the main indicators useful for following short-term economic developments in the Community as a whole and in the Member States, supplemented by a certain amount of structural data relating to 1975. This part of the bulletin is intended to make possible real comparisons between countries and therefore only contains data which has been harmonized by EUROSTAT on the basis of common criteria, this explains many of the differences from national series.

Seasonal adjustment of the series has been done with EUROSTAT's own method, 'Dainties'. **The most recent data are provisional and in some cases estimated by EUROSTAT.**

Finally the Community Tables include a column for the USA as an indicator of changes in the world economy.

The Country Tables contain a selection of the economic indicators most often used in each country. They are national series based on

the definitions of the country concerned and seasonally adjusted by the country. In addition to the nine Community countries this section includes the three candidate countries (Spain, Greece and Portugal) the USA and Japan.

For all series, historical data (annual, quarterly or monthly) is available in EUROSTAT's CRONOS data bank, going back in most cases to 1960. This can be supplied on request.

This publication contains the absolute minimum of methodological notes. Details of definitions, methods, Community adjustments and sources of each series will be given in a special edition of 'Eurostatistics'.

Two versions of 'EUROSTATISTICS' come out every month. The first in Danish, English and Italian goes to the printers the fourth Tuesday of the month and will be distributed in the national capitals the following Monday. The second in German, French and Dutch goes to the printers the second Tuesday of the month and will be distributed in the national capitals the following Monday. Each version will contain the latest figures available when it went to press.

AVVERTENZA

IT

Il presente bollettino consta di 2 parti: l'una ha per oggetto alcune « tavole comunitarie », l'altra riguarda alcune « tavole per paese ».

Nelle tavole « comunitarie » si trovano riuniti i principali indicatori che consentono di seguire l'evoluzione di breve periodo dell'economia comunitaria nel suo complesso e in ogni singolo Stato membro, completati da alcuni dati strutturali relativi al 1975. Questa parte, che si prefigge di consentire di stabilire confronti reali fra paesi, contiene soltanto dati armonizzati dall'EUROSTAT in base a criteri comuni, il che spiega l'esistenza di certe differenze rispetto ai dati nazionali.

Le variazioni stagionali delle serie sono eliminate con il metodo « Dainties » dell'EUROSTAT. **I dati più recenti sono provvisori e, a volte direttamente stimati da EUROSTAT.**

Nelle tavole comunitarie figura una colonna relativa agli Stati Uniti d'America a titolo di indicatore dell'evoluzione della congiuntura mondiale.

Nelle « tavole per paesi » si riporta una selezione degli indicatori congiunturali più correntemente adoperati in ogni paese; si tratta di serie nazionali, corrispondenti ai criteri nazionali e « destagionaliz-

zate » per mezzo dei metodi nazionali. In questa parte sono presi in considerazione oltre ai 9 paesi membri della Comunità, i paesi candidati all'adesione: Grecia, Portogallo, Spagna, nonché gli Stati Uniti d'America e il Giappone.

Per tutte le serie, presso il sistema CRONOS dell'EUROSTAT sono disponibili dati storici (annui, trimestrali o mensili) risalenti in generale al 1960, i quali possono essere forniti su richiesta.

La presente pubblicazione contiene soltanto annotazioni metodologiche ridotte allo stretto minimo. Le informazioni relative alle definizioni, ai metodi, agli aggiornamenti comunitari e alle fonti di ogni serie saranno riportate in un fascicolo speciale (ad hoc) di EUROSTATISTICHE avente per oggetto le definizioni, i metodi, gli aggiornamenti e le fonti dei dati statistici.

Ogni mese vengono pubblicate due versioni di « EUROSTATISTICHE ». La prima redatta in danese, inglese e italiano, che va in stampa il 4° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo; la seconda redatta in tedesco, francese e olandese, che va in stampa il 2° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo. Ogni versione riporta le ultime cifre disponibili il giorno della stampa.

(1) Alcuni dati più dettagliati per branca sono riportati nel bollettino « Indicatori congiunturali dell'industria ».

(2) I dati contenuti in questa parte del bollettino rappresentano i risultati dell'indagine sulla congiuntura presso i capi di impresa delle Comunità. Alcuni dati più particolari figurano in « Economia europea ».

(3) Alcuni dati del commercio estero più dettagliati ed espressi in UCE sono riportati nel « Bollettino mensile del commercio estero ».

(4) Consumi finali delle famiglie.

Die deutsche Fassung dieses Bulletins wird am zweiten Dienstag jeden Monats in Druck gegeben.

La version française de ce bulletin est mise sous presse le second mardi de chaque mois.

De Nederlandse versie van dit bulletin gaat de tweede dinsdag van elke maand ter perse.
