## Hinweis

Die Veröffentlichung Eurostatistik — Daten zur Konjunkturanalyse ist eine von drei Schlüsselveröffentlichungen des Eurostat, die dem Leser einen Überblick über die wichtigsten quantitativen Daten geben sollen, die für die Gemeinschaft und die Mitgliedstaaten zur Verfügung stehen. Die anderen Veröffentlichungen in dieser Reihe sind Statistische Grundzahlen mit Daten für ein bestimmtes Jahr sowie Eurostat-Revue mit einem Zehnjahresüberblick über die Gemeinschaft in Zahlen. Eine monatliche Veröffentlichung mit laufenden Wirtschaftsdaten muß ständig angepaßt und auf den neuesten Stand gebracht werden. Zu Beginn des Jahres 1982 wurde mit der Einbeziehung von Daten für Griechenland und der Abwandlung der Aufmachung eine bedeutende Änderung vorgenommen. Im Laufe des Jahres 1982 werden nach und nach Gesamtzahlen für die 10 Mitgliedstaaten der Gemeinschaft aufgenommen. Sobald genügend Daten zur Verfügung stehen, wird das Basisjahr 1975, das die Grundlage für diese Veröffentlichung bildet, durch das Jahr 1980 ersetzt werden. Zu einem späteren Zeitpunkt ist vorgesehen, Daten für die beiden beitragswilligen Länder Portugal und Spanien sowie für die Vereinigten Staaten und Japan hinzuzufügen. Es werden vier Arten von Daten in Eurostatistik veröffentlicht. Auf den Seiten 5 und 6 findet sich ein Artikel „Kurz notiert“, der sich mit den jüngsten Tendenzen bei den verfügbaren Daten befaßt. Die Seiten 15 bis 20 enthalten eine schematische Darstellung der wichtigsten wirtschaftlichen Reihen für die Gemeinschaft und die Mitgliedstaaten. Die Seite 23 ist die erste von 56 Seiten mit „Gemeinschaftstabellen“. Dieser Abschnitt enthält von Eurostat auf der Grundlage von Gemeinschaftskriterien harmonisierte Daten. Die neuesten Daten sind vorläufig und in einigen Fällen von Eurostat geschätzt. Schließlich enthält die Veröffentlichung noch einen Abschnitt „Ländertabellen“, der eine Auswahl der in jedem Land am häufigsten verwendeten Konjunkturindikatoren enthält. Hierbei handelt es sich um nationale Reihen auf der Grundlage nationaler Definitionen. Zu Vergleichszwecken ist auch eine Tabelle für die Vereinigten Staaten enthalten. In allen Fällen stehen auf Anfrage Zeitreihen über die Cronos-Datenbank des Eurostat zur Verfügung. Es werden außerdem statistische Bulletins über Arbeitslosigkeit, Preise, industrielle Produktion, Zahlungsbilanzen, Außenhandel und Energie monatlich oder vierteljährlich veröffentlicht. In Eurostatistik selbst ist ein absolutes Minimum an Erläuterungen zur Methodik enthalten. Ausführliche Informationen über Definitionen und Methodik sind bei Eurostat erhältlich. Eurostatistik wird am Ende eines jeden Monats in einer gemeinsamen Ausgabe für Deutsch, Englisch und Französisch veröffentlicht. Darüber hinaus steht auf Anfrage eine Ergänzung mit Übersetzung der Titel und der Erläuterungen ins Dänische, Griechische, Italienische und Niederländische zur Verfügung.

## Eurostatistik : Kurz notiert

### 1. Arbeitslosigkeit

Ende Januar 1983 betrug die Zahl der bei den Arbeitsämtern in der Gemeinschaft der Neun eingeschriebenen Arbeitslosen 12,3 Mio. Das entsprach einer Arbeitslosenquote von 11,1% der zivilen Erwerbspersonen. Seit Ende 1982 hat die Zahl der eingeschriebenen Arbeitslosen in der Gemeinschaft — nicht nur saisonbedingt — um nahezu 500 000 Personen (4,2%) zugenommen; besonders starke Zunahmen waren wiederum in Deutschland und Dänemark zu verzeichnen. Hingegen hat sich die Arbeitsmarktlage in Frankreich und Belgien nicht verändert. Gegenüber Januar 1982 hat die Arbeitslosigkeit in der Gemeinschaft der Neun einen um 15% höheren Stand. In den Niederlanden betrug die Zunahme 31%, in Deutschland und Irland 28%, in Luxemburg 22% und in Italien 15%. Die geringsten Steigerungen gegenüber dem Vorjahr ergaben sich für Dänemark (3,4%) und Frankreich (4,7%).

Dieser kurze Ueberblick über die Entwicklung der Arbeitslosigkeit in der Gemeinschaft im Januar 1983 berücksichtigt Änderungen in der statistischen Erfassung, die in einigen Mitgliedstaaten zwischen Oktober 1982 und Januar 1983 eingeführt worden sind.

Zu beachten ist, dass im Vereinigten Königreich aufgrund einer Gesetzesänderung seit 1982 nur noch die Personen als arbeitslos gezählt werden, die eine Vollzeitbeschäftigung suchen und Arbeitslosenunterstützung beanspruchen, weil sie ohne Arbeit sind. Die entsprechende neue statistische Reihe ist ab Januar 1983 voll in die Berechnungen der Gemeinschaft integriert worden. Es werden auch für zurückliegende Zeitpunkte Daten ausgewiesen, denen die genannten neuen Definitionen bis der Berechnung zugrundelagen und nur die entsprechenden Reihen werden in Zukunft weitergeführt.

Für die Niederlande hat sich die Definition der eingeschriebenen Arbeitslosen ab Januar 1983 geändert und wurde auf Personen erweitert, die eine Tätigkeit von mehr als 20 Stunden in der Woche (statt bisher 25 Stunden) suchen. Gleichzeitig wurden bestimmte Kriterien der Verfügbarkeit geändert, sodass einige Gruppen bisher nicht erfasster (u.U. auch beschäftigter) Personen nunmehr einbezogen werden und andere herausfallen. Da die neue Reihe bisher nicht für zurückliegende Zeitpunkte berechnet wurde, entsteht ein Bruch in der Reihe; er konnte jedoch für die Darstellung der Veränderungen in den Arbeitslosigkeitszahlen durch Schätzungen ausgeglichen werden. In Zukunft wird nur die entsprechende Reihe für die Niederlande fortgeführt.

Für Belgien wurde auf Gemeinschaftsebene eine revidierte Reihe aufgenommen. Sie schliesst insbesondere einige in der alten Reihe noch enthaltene Personen aus, die zwar eingeschrieben aber beschäftigt waren (z.B. in beschützenden Werkstätten oder bei sonstigen Arbeiten geringen Umfangs). Diese Reihe wird auch für zurückliegende Zeitpunkte ausgewiesen und allein weitergeführt. Im Falle Frankreichs ist weder in innerstaatlicher Berechnung noch auf Gemeinschaftsebene eine Veränderung in der Zahl der Arbeitslosen am Ende des Monats eingetreten. Bei den Einschreibungen im Laufe des Monats ist jedoch ab November 1982 ein verbessertes Zählverfahren eingeführt

worden, das eine vollständigere Erfassung der Einschreibungen ermöglicht.

### 2. Der Verbraucherpreisindex im Januar 1983

Der Verbraucherpreisindex für die Europäische Gemeinschaft hat sich nach Schätzungen von Dezember 1982 auf Januar 1983 um 0,7% erhöht (die den Schätzungen zugrunde liegenden Zahlen sind für einige Staaten noch vorläufiger Natur). Die monatlichen Steigerungsraten für die Gemeinschaft als Ganzes liegen nun bereits seit 9 Monaten unter 1%.

Eine bedeutende Erhöhung von Dezember auf Januar hat es jedoch in Italien (1,4%) sowie in Belgien und Luxemburg (in beiden Fällen 1,2%) gegeben. Ein niedrigerer Anstieg wurde in Griechenland (0,8%) und Dänemark (0,7%) verzeichnet, während für Deutschland (0,2%) und das Vereinigte Königreich (0,1%) lediglich sehr geringe Steigerungen meldeten und in den Niederlanden die Preise auf dem Niveau von Dezember blieben.

Der Anstieg in den letzten 12 Monaten (Januar 1983 gegenüber Januar 1982) beträgt für EUR jetzt 9,1%, womit sich die Verlangsamung der Preissteigerungsrate, die zu Beginn des letzten Jahres eingesetzt hatte, erhärtet. Erheblich unter dem Durchschnitt liegende Steigerungen wurden in den Niederlanden (3,8%) Deutschland (3,9%) und dem Vereinigten Königreich (4,9%) verzeichnet. Belgien (8,3%), Dänemark (9,0%) und Luxemburg (10,2%) zeigten einen um den Durchschnitt liegenden Preisanstieg. Italien (16,2%) und Griechenland (18,7%) haben in der Gemeinschaft beim Verbraucherpreisindex die höchsten Steigerungsraten.

### 3. Index der industriellen Produktion

Der Gemeinschaftsindex der industriellen Produktion für den Monat November 1982 belief sich 118,7 (1975=100) und lag damit — zum sechstenmal seit Juni — unter dem Wert des entsprechenden Vorjahresmonats, und zwar um 4,3% gegenüber dem entsprechenden Monat 1981.

In den ersten elf Monaten des Jahres beträgt somit der Rückgang gegenüber dem Vorjahr durchschnittlich 1,5%. Dieses Ergebnis entspricht weitgehend der für das ganze Jahr 1982 zu erwartenden rückläufigen Entwicklung der industriellen Produktion. Nach Saisonbereinigung erreichte der Gemeinschaftsindex im November lediglich dem Stand von 110,1 was einem Rückgang um 1,3 Punkte gegenüber dem Vormonat entspricht. Dieser zuletzt genannte Rückgang lässt nicht auf eine Verlangsamung der derzeitigen, seit Juni des letzten Jahres ankaltenden Rezession schliessen.

Was die grossen Mitgliedstaaten anbetrifft, so ist in der Bundesrepublik Deutschland erneut ein starker Einbruch (um 2,4% saisonbereinigt gegenüber dem Vormonat) und im Vereinigten Königreich sowie in Frankreich ein leichter Rückgang (um 1,5% bzw. 0,2%) feststellen, während in Italien die industrielle Produktion trotz einer leichten Zunahme (um 0,7% gegenüber Oktober) die industrielle Produktion seit Oktober schwach bleibt

(durchschnittlich um 3,4% unter dem Niveau des dritten Vierteljahres 1982).

#### 4. Eisen und Stahl

Nach dem äusserst schwachen Produktionsergebnis im Dezember 1982 ist die Rohstahlerzeugung der Gemeinschaft (ohne Griechenland) mit 8,2 Mio t im Januar 1983 — saisonbereinigt — um 8,9% gegenüber dem Vormonat angestiegen. Dennoch ist dies das niedrigste Jahresergebnis seit Bestehen der Neunergemeinschaft (1973). Die Auftragseingänge (für Massenstahl) sind im November 1982 gegenüber dem Vormonat — saisonbereinigt — um 3,8% angestiegen.

In der Summe der ersten elf Monate 1982 zeigt sich jedoch — verglichen mit dem entsprechenden Vorjahreszeitraum — ein Rückgang um 16,3%. An Walzstahlfertigerzeugnissen wurden 1982 in der Gemeinschaft (EUR 10) 88,4 Mio t erzeugt. Im Vergleich mit dem Vorjahr 1981 bedeutet das Ergebnis einen Rückgang um 11,5%.

#### 5. Entwicklung der Energiewirtschaft in den ersten neun Monaten des Jahres 1982

Die Ergebnisse der ersten neun Monate 1982 bestätigen die zuvor beobachtete Tendenz, nämlich einen verlangsamt Rückgang des Gesamtenergieverbrauchs der Gemeinschaft.

- Der Rückgang des Bruttoinlandsverbrauchs gegenüber dem entsprechenden Zeitraum des Jahres 1981 betrug rund 7,9 Mio t RÖE oder 1,2%, nach 1,8% im ersten Halbjahr und 1,9% im ersten Vierteljahr.
- Die Entwicklung bei den einzelnen Energieträgern ist nicht ganz so ausgeprägt wie im gleichen Zeitraum des Jahres 1981, sie zeigt einen leichten Anstieg bei festen Brennstoffen, einen deutlichen Anstieg von 10,1% bei Kernenergie sowie einen Rückgang von 2,9% beim Erdöl und von 2,7% bei Naturgas.
- Strukturell gesehen betrug der Anteil der einzelnen Energieträger in den ersten neun Monaten des Jahres 1982 bei festen Brennstoffen 24,6% (gegenüber 24,2% in den ersten neun Monaten 1981), bei Kernenergie 7,1% (6,4% 1981), bei Naturgas 17,0% (17,3% 1981) und beim Erdöl 49,4% (50,3% 1981).
- Die Erzeugung von Primärenergie stieg um fast 10 Mio t RÖE (das entspricht einem Plus von 2,8%), woran hauptsächlich die Kernenergie (mit einem Anstieg von 10,1%) und das Rohöl aus der Nordsee (Anstieg 12,8%) beteiligt sind. Die Steinkohlenförderung blieb auf dem Vorjahresstand, während die Naturgasgewinnung immer noch (um 4,9%) rückläufig ist.
- Trotz einer Erhöhung der Bestände für alle Energieträger um etwa 5 Mio t RÖE, wobei diese Zahl eine umfangreiche

Aufstockung der Bestände an festen Brennstoffen und einen Abbau der Bestände beim Erdöl verschleiert) haben die Zunahme der Primärenergieerzeugung und der Verbrauchsrückgang zu einer erheblichen Verringerung der Nettoenergieeinfuhren um 5,5% geführt (die zum grossen Teil aus dem Rückgang der Rohöleinfuhren um 11,6% herrührten).

- Dadurch ist die Energieabhängigkeit insgesamt im Berichtsgegenüber dem Bezugszeitraum um 2 Prozentpunkte von 48,8% auf 46,8% gesunken. Die Erdöl-Aussenabhängigkeit sank infolge der ständig rückläufigen Rohöleinfuhren um 2,3 Prozentpunkte auf 37,1%.

#### 6. Handelsentwicklung, Intra-EG

Im Zeitraum Januar bis November 1982 lag die Ausfuhr der Gemeinschaft in dritte Länder um 8% über den Werten des entsprechenden Zeitraums 1981. Irland (19%), Griechenland (14%) und Deutschland (12%) wiesen erheblich über dem Durchschnitt liegende Steigerungen auf, wohingegen Frankreich (2%) der einzige Staat blieb, der erheblich unter dem Mittel abschnitt. Die Ausfuhr an Getränken und Tabak, verschiedenen bearbeiteten Waren, Maschinen und Fahrzeugen sowie Brennstoffen zeigte überdurchschnittliches Wachstum, während die Nahrungsmittelausfuhr besonders geschwächt war.

Die Einfuhr der Gemeinschaft aus dritten Ländern zeigte im gleichen Zeitraum einen Anstieg um 6%. Die Einfuhr an Oelen, Fetten und Wachsen und bearbeiteten Waren, besonders in den Rubriken Rohstoffe und chemische Erzeugnisse, nahm überdurchschnittlich zu.

Der Handelsdefizit der Gemeinschaft insgesamt ist in dem genannten Zeitraum zurückgegangen, wobei allerdings nicht bei allen Mitgliedstaaten eine gleichstarke Verbesserung eintrat.

#### 7. Handelsentwicklung, Intra-EG

Die innergemeinschaftliche Einfuhr stieg in den ersten 11 Monaten des Jahres 1982 um 11% gegenüber dem entsprechenden Zeitraum 1981 an. Griechenland (20%) das Vereinigte Königreich (16%) und Frankreich (15%) wiesen überdurchschnittliche Steigerungen auf, während Belgien-Luxemburg und Irland (in beiden Fällen 2%) einen besonders schwachen Anstieg zeigten. Die Ausfuhr aus Griechenland (26%), Italien (20%), Irland (18%) und Deutschland (17%) stieg überdurchschnittlich an.

#### Methodische Anmerkung

Aus technischen Gründen zeigen die Angaben zur Zahlungsbilanz in den Tabellen 163-182 von Eurostatistik nicht den zu erwartenden neuesten Stand. Die jüngsten Zahlen können der Eurostat-Veröffentlichung « Zahlungsbilanzen — Vierteljahreszahlen » 3-4/82 entnommen werden.

---

## Notice

Eurostatistics — data for short-term economic analysis is one of three key Eurostat publications designed to give the reader an overview of the most important quantitative information available for the Community and Member States. The other publications in this series are Basic Statistics giving data for a specific year, and Eurostat review with its summary of the Community in figures over the past 10 years.

A monthly publication with current economic data must be continually adapted and updated. At the beginning of 1982 a major modification took place with the inclusion of data for Greece and a change in presentation. Totals for the 10-member Community are being progressively introduced in 1982. Once sufficient data are available, the base year 1975 which is fundamental to this publication will be replaced with 1980. At a later stage it is planned to add data for the two applicant countries, Portugal and Spain, as well as for the United States and Japan.

Four kinds of information are published in Eurostatistics. Pages 9 and 10 offer an article 'In brief' which looks at the latest trends in the data available. Pages 15 to 20 provide the reader with a visual presentation of the most important economic series for the Community and the Member States. Starting on page 23 there are 56 pages of 'Community tables'. This section contains data harmonized by Eurostat on the basis of common criteria. The most recent data are provisional and in some cases estimated by Eurostat. Finally there is a section 'Tables by country' which contains a selection of economic indicators most often used in each country. These are national series based on national definitions. For comparison a table for the United States is also included.

For all series, historical data are available on request from Eurostat's data bank Cronos. Statistical bulletins on unemployment, prices, industrial production, balance of payments, external trade and energy are also published monthly or quarterly. Eurostatistics itself contains an absolute minimum of methodological notes. Detailed information on definitions and methodology may be obtained from Eurostat.

Eurostatistics is published at the end of each month in a single edition in German, English and French. A supplement with translations of titles and explanatory notes exists in Danish, Greek, Italian and Dutch, and it is available on request.

## Eurostatistics: In Brief

### 1. Unemployment

At the end of January 1983 there were 12.3 million persons registered as unemployed at public employment offices in the Community of the Nine. This represented an unemployment rate of 11.1% of the civilian working population. Since the end of December 1982 the number of registered unemployed in the Community has increased by about 500,000 (4.2%); only part of this increase was seasonal. Once again the increase was particularly pronounced in Germany and Denmark. On the other hand the situation in France and Belgium remained unchanged. As compared with January 1982 unemployment in the Community of the Nine was 15% higher. The increase was 31% in the Netherlands, 28% in Germany and Ireland, 22% in Luxembourg and 15% in Italy. As compared with the previous year the smallest rises were in Denmark (+3.4%) and France (+4.7%).

This brief survey of unemployment trends in the Community in January 1983 takes account of changes in the statistical concepts which were introduced in some Member States between October 1982 and January 1983.

It should be noted that, pursuant to a change in United Kingdom law which took effect in October 1982, only such persons are now counted as unemployed as are seeking full-time employment and are claiming unemployment benefit because they are out of work. This new statistical series has been fully integrated into the Community calculations since January 1983. Data on the basis of this new definition are shown for the past and this count exclusively will be used in future.

In the Netherlands the definition of registered unemployed was changed as of January 1983 and now includes persons who are seeking an employment of more than 20 hours per week (previously 25 hours). At the same time a number of criteria on availability were changed so that some groups of persons (possibly employed) who previously were not counted are now included, whereas others are excluded. So far the new series is not available for the past and there is a break in the series; however, this break is compensated for by estimates made with a view to showing correctly the changes in the unemployment figures. In future only this new series will be used for the Netherlands.

For Belgium a revised series was adopted at Community level. In particular it excludes a number of persons, included in the old series, who were registered but employed (e.g. in sheltered workshops or in work of reduced time). This series is also shown in respect of the past and will exclusively be used in future.

In the case of France no change has been made at national or community level in the unemployment figures at the end of each month. However, an improved procedure has been introduced for counting registrations during the month which ensures fuller coverage of registrations.

### 2. The Consumer Price Index in January 1983

The Consumer Price Index for the European Community is estimated to have increased by 0.7% from December 1982 to January 1983, (the figures on which this estimate is based are still provisional for some countries). The monthly increases for the Community as a whole have now been less than 1% for the past nine months.

There are however significant increases between December and January in Italy (1.4%) as well as in Belgium and Luxembourg (both 1.2%). Lower increases were recorded in Greece (0.8%) and Denmark (0.7%) whereas Germany (0.2%) and the United Kingdom (0.1%) registered only very small increases and in the Netherlands prices remained at the December level.

The rate of increase over the twelve months (January 1983 compared with January 1982) for EUR is now 9.1%, which confirms the slowing down of the rate of increase that started at the beginning of last year. Well below average increases were recorded in the Netherlands (3.8%), Germany (3.9%) and the United Kingdom (4.9%). Belgium (8.3%), Denmark (9.0%) and Luxembourg (10.2%) showed increases near the average. Italy (16.2%) and Greece (18.7%) have the highest CPI rates in the Community.

### 3. Index of industrial production

The index of industrial production in the Community for the month of November 1982 stood at 118.7 (1975=100), which represented a fall — the sixth since June — of 4.3% compared with the corresponding month of 1981. The average decline for the first eleven months of the year as compared with 1981 has now reached 1.5%, a figure which will be very close to the fall in industrial production for 1982 as a whole. After seasonal adjustment, the index stood at only 110.1 in November equal to a loss of 1.3 points compared with the previous months. The magnitude of this loss leaves no grounds for expecting an easing off in the present recession which began last June.

As to the major member states, a further considerable fall in production was recorded in Germany (−2.4% seasonally adjusted and compared with October), along with smaller declines in the United Kingdom and France (−1.5% and −0.2% respectively), whilst in Italy, though there was a slight upturn (0.7% as compared with October), production has been depressed since October (−3.4% on the average as compared with the third quarter 1982).

### 4. Iron and steel

Following the extremely low production figure for December 1982 the manufacture of crude steel in the Community (excluding Greece) in January 1983, at 8.2 mio.t deseasonalized, has risen by 8.9% over the preceding month. Nevertheless this is the lowest January figure in the existence of the Community of Nine (since 1973). New orders (ordinary steels) in November 1982 rose by 3.8% (deseasonalized) compared with the preceding month. The sum of the first 11 months of 1982,

however, shows a drop of 16.3% on the figure for the same period of the previous year. The total production of finished rolled products in the Community (EUR 10) reached 88.4 mio.t in 1982, 11.5% lower than the figure for 1981.

### 5. Energy — Trends in the first nine months of 1982

The figures for the first nine months of 1982 confirm the trends observed earlier, i.e. a slowing-down in the rate of decline of overall energy consumption in the Community.

- There was a fall in the gross domestic consumption of energy compared with the first nine months of 1981 of the order of 7.9 million toe, a drop of 1.2% compared with 1.8% for the first six months and 1.9% for the first three months of 1982.
- Trends in the individual energy sources were slightly less marked than in the same period in 1981, with a slight increase in solid fuels, a substantial (10.1%) increase in nuclear power and falls of 2.9% and 2.7% for oil and natural gas respectively.
- In structural terms, the shares accounted for by the various energy sources over the first nine months of 1982 were 24.6% for solid fuels (24.2% in the first nine months of 1981), 7.1% for nuclear power (6.4% in 1981), 17.0% for natural gas (17.3% in 1981) and 49.4% for oil (50.3% in 1981).
- There was an increase of almost 10 million toe in primary energy production (+2.8%), which was largely attributable to nuclear power (+10.1%) and North Sea oil (+12.8%). Coal-mining remained static, while production of natural gas continued to decline (−4.9%).
- Despite a build-up of stocks of all energy sources of the order of some 5 million toe (this figure concealing a substantial build-up of stocks of solid fuels and a run-down of oil stocks), the increase in primary energy production and the drop in consumption resulted in a substantial fall of 5.5% in net energy imports (due largely to the 11.6% drop in imports of crude oil).
- As a result, overall dependence on external sources of energy fell by 2 percentage points from 48.8% to 46.8%

over the two reference periods. Dependence on external sources of oil fell by 2.3 percentage points to 37.1% as a result of the continuing decline in imports of crude oil.

### 6. Extra-EC Trade

In the period January to November 1982, Community exports to third countries were 8 per cent higher than in the corresponding period of 1981. Ireland (19 per cent), Greece (14 per cent) and Germany (12 per cent) recorded rises substantially above the average, whilst France (2 per cent) was the only country with a substantially below average performance. Exports of beverages and tobacco, miscellaneous manufactured products, machinery and transport equipment and fuels enjoyed above average growth, whilst exports of food were particularly depressed.

Community imports from third countries were up 6 per cent over this period. Imports of animal and vegetable oils, manufactured goods classified chiefly by material and chemicals showed above average growth.

The overall trade deficit of the Community has diminished in this period, though there has not been a uniform improvement across all member states.

### 7. Intra-EC Trade

Intra-EC imports rose 11 per cent in the first eleven months of 1982 compared with the same period of 1981. Greece (20 per cent), the UK (16 per cent) and France (15 per cent) recorded above average rises, whilst Belgium-Luxembourg and Ireland (2 per cent each) had particularly low rises. Exports from Greece (26 per cent), Italy (20 per cent), Ireland (18 per cent) and Germany (17 per cent) rose at an above average rate.

### Technical note

For technical reasons the Balance of Payments data in tables 163-182 of Eurostatistics are not as up to date as they could be. The latest figures may be consulted in the Eurostat publications « Balance of Payments — Quarterly data » 3-4/82.

## Avertissement

Revue de la conjoncture

Tous droits réservés

Eurostatistiques — données pour l'analyse de la conjoncture est l'une des trois publications clés d'Eurostat, destinées à donner au lecteur un aperçu des informations quantitatives les plus importantes disponibles concernant la Communauté et les États membres. Les autres publications de cette série sont les Statistiques de base fournissant des données pour une année spécifique déterminée et la Revue de l'Eurostat qui passe en revue dix ans de la Communauté sous forme de tableaux chiffrés.

Une publication mensuelle contenant des données économiques conjoncturelles d'actualité doit être continuellement adaptée et mise à jour. Au début de 1982, une modification importante est intervenue avec l'inclusion de données concernant la Grèce et un changement de présentation. Des totaux pour la Communauté de dix membres seront progressivement introduits en 1982. Lorsque l'on disposera de données en nombre suffisant, l'année 1975 — année de référence pour cette publication — sera remplacée par 1980. Il est prévu ultérieurement d'ajouter les données concernant les deux pays candidats à l'adhésion — à savoir l'Espagne et le Portugal — ainsi que pour les États-Unis et le Japon.

Eurostatistiques publie quatre types d'informations. Les pages 13 et 14 contiennent un article « En bref » dans lequel les dernières tendances pouvant être dégagées à partir des données disponibles sont examinées. Les pages 15 à 20 fournissent au lecteur une présentation visuelle des séries économiques les plus importantes pour la Communauté et les États membres. Des « tableaux communautaires » sont présentés sur 56 pages à partir de la page 23. Cette section contient des données harmonisées par Eurostat sur la base de critères communs. Les données les plus récentes sont provisoires et, dans certains cas, estimées par Eurostat. Enfin, la section « tableaux par pays » contient une sélection des indicateurs économiques les plus souvent utilisés dans chaque pays. Ce sont des séries nationales fondées sur des définitions nationales. A des fins de comparaison, un tableau concernant les États-Unis est également inclus.

Pour toutes les séries, des données historiques sont disponibles sur demande auprès de la banque de données d'Eurostat, CRONOS. Les bulletins statistiques sur le chômage, les prix, la production industrielle, la balance des paiements, le commerce extérieur et l'énergie sont également publiés sur une base mensuelle ou trimestrielle. En soi, Eurostatistiques contient un minimum de notes méthodologiques. Une information détaillée concernant les définitions et la méthodologie peut-être obtenue auprès d'Eurostat.

Eurostatistiques est publié à la fin de chaque mois dans une seule édition en allemand, anglais et français. Un supplément contenant les traductions des titres et des notes explicatives existe en danois, grec, italien et néerlandais et est disponible sur demande.

## Eurostatistiques : En bref

### 1. Chômage

A la fin du mois de janvier 1983, le nombre de chômeurs inscrits auprès des bureaux de placement dans la Communauté des Neuf était de 12,3 millions et le taux de chômage atteignait 11,1% de la population active civile. Depuis la fin du mois de décembre 1982, le nombre de chômeurs inscrits dans la Communauté a augmenté de près de 500 000 personnes, soit 4,2%; cette augmentation n'est pas entièrement due aux variations saisonnières habituelles. C'est à nouveau en Allemagne et au Danemark que l'accroissement a été particulièrement important. En revanche, le chômage est resté stable en France et en Belgique.

Par rapport au mois de janvier 1982, le chômage a augmenté de 15% dans la Communauté des Neuf. Aux Pays-Bas, l'accroissement est de 31%, en Allemagne et en Irlande de 28%, au Luxembourg de 22% et en Italie de 15%. Les taux d'accroissement les moins élevés par rapport à l'année précédente ont été enregistrés au Danemark (+3,4%) et en France (+4,7%).

Ce bref aperçu de l'évolution du marché du travail dans la Communauté au mois de janvier 1983 prend en compte les changements qui ont été apportés au relevé statistique dans certains États membres entre le mois d'octobre 1982 et le mois de janvier 1983.

Nous rappelons à nos lecteurs qu'un amendement à la législation adopté au Royaume-Uni fait qu'à partir du mois d'octobre 1982 ne sont plus considérés comme chômeurs que les demandeurs d'allocations de chômage, sans emploi et à la recherche d'un travail à temps complet. Cette nouvelle série statistique est maintenant entièrement intégrée aussi bien pour janvier 1983 que pour les mois et années précédentes, pour le Royaume-Uni comme pour la Communauté dans son ensemble. Elle seule sera poursuivie à l'avenir.

Aux Pays-Bas, la définition des chômeurs enregistrés a été modifiée à compter du mois de janvier 1983. Elle s'étend désormais aux personnes qui cherchent une activité de plus de vingt heures/semaine (au lieu de 25 précédemment). Parallèlement, différents critères de disponibilité ont été revus, de sorte que certains groupes de personnes, éventuellement même occupées mais non recensées jusqu'à présent, sont maintenant pris en compte, tandis que d'autres ne le sont plus. Le défaut de calculs rétrospectifs selon les nouvelles modalités, entraîne une rupture de série au 1.1.1983; il a toutefois été possible de faire des estimations des variations. Seule une nouvelle série sera poursuivie à l'avenir.

En ce qui concerne la Belgique, une série révisée a été adoptée au niveau communautaire. Cette série exclut notamment différentes personnes qui étaient comptabilisées dans l'ancienne série, mais qui exerçaient en fait une activité (travaillant par exemple dans des ateliers protégés ou ayant accepté un emploi à temps réduit). Les données mensuelles sont présentées selon ces nouvelles modalités. Là encore seule la nouvelle série sera poursuivie.

Pour ce qui est de la France, rien n'a été modifié en ce qui concerne le nombre de chômeurs à la comptabilisation du

nombre de chômeurs en fin de mois, ni au niveau national, ni au niveau communautaire. En ce qui concerne les inscriptions en cours de mois, la France a cependant adopté, à compter du mois de novembre 1982, une procédure de comptage améliorée qui permet un recensement plus complet des inscriptions.

### 2. L'indice des prix à la consommation en janvier 1983

L'indice des prix à la consommation pour la Communauté Européenne a augmenté de 0,7% entre décembre 1982 et janvier 1983. Les chiffres sur lesquels cette estimation repose sont encore provisoires pour certains pays. L'accroissement mensuel pour l'ensemble de la CE a été inférieur à 1% depuis 9 mois.

Pourtant il y aurait des hausses sensibles entre décembre et janvier, notamment en Italie (1,4%), en Belgique et au Luxembourg (1,2% chacun). Des accroissements moins importants seraient enregistrés en Grèce 0,8% et au Danemark (0,7%), tandis que l'Allemagne (0,2%) et le Royaume-Uni (0,1%) noteraient des accroissements faibles alors qu'aux Pays-Bas les prix seraient au niveau de décembre.

Le taux de croissance sur douze mois (janvier 1983 comparé avec janvier 1982) pour EUR 10 serait de 9,1% ce qui confirme le ralentissement des hausses de prix, commencé au début de l'année dernière. Des hausses bien en dessous de la moyenne seraient signalées aux Pays-Bas (3,8%), en Allemagne (3,9%) et au Royaume-Uni (4,9%). La Belgique (8,3%), le Danemark (9,0%), et le Luxembourg connaîtraient des hausses autour de la moyenne. L'Italie (16,2%) et la Grèce (18,7%) auraient les taux d'augmentation des prix à la consommation les plus élevés de la Communauté.

### 3. Indice de la production industrielle

L'indice communautaire de la production industrielle du mois de novembre 1982 s'établit à 118,7 (1975 = 100) ce qui correspond à une baisse — la sixième depuis le mois de juin — de 4,3% par rapport au mois correspondant de 1981. Pour les onze premiers mois de l'année, la baisse moyenne par rapport à 1981 se chiffre maintenant à 1,5%, résultat qui sera très voisin du recul de la production industrielle pour l'ensemble de l'année 1982. Après correction des variations saisonnières, l'indice communautaire n'atteint que 110,1 en novembre, soit une perte de 1,3 point par rapport au mois précédent. L'ampleur de cette dernière perte ne laisse pas conclure à un ralentissement de la récession actuelle, intervenue depuis juin dernier.

Au niveau des quatre grands pays membres, on constate une nouvelle chute importante en Allemagne (-2,4% après désaisonnalisation et par rapport à octobre) et des baisses plus légères au Royaume-Uni et en France (resp. -1,5% et -0,2%), alors qu'en Italie, si la production s'est légèrement infléchi (0,7% par rapport à octobre), elle reste à un niveau déprimé depuis octobre (-3,4% en moyenne par rapport au troisième trimestre 1982).

#### 4. Acier

Après la production d'acier brut extrêmement faible du mois de décembre 1982, la production du mois de janvier 1983 de la Communauté (sans la Grèce) a enregistré, avec 8,2 mio.t, une hausse de 8,9% — désaisonnalisée — par rapport au mois précédent. Cependant ce résultat représente la production de janvier la plus basse depuis la création de la Communauté à neuf en 1973. Les commandes nouvelles (acières ordinaires seulement) ont connu, au mois de novembre 1982, une augmentation de 3,8% (désaisonnalisée) par rapport au mois précédent. Le bilan des 11 premiers mois de l'année se solde par contre par une diminution de 16,3% par rapport à la même période de 1981. La production de produits finis laminés EUR 10 s'est élevée en 1982 à 88,4 mio.t. Comparé à la production de 1981 ce résultat est marqué par une baisse de 11,5%.

#### 5. Énergie — Évolution de l'économie énergétique au cours des neuf premiers mois de 1982

Les résultats des neuf premiers mois de 1982 confirment le ralentissement de la baisse de la consommation énergétique globale de la Communauté, en ligne avec les tendances jusqu'ici observées.

- La diminution de la consommation intérieure brute par rapport à la période homologue de 1981 a été de 7,9 millions de tonnes d'équivalent pétrole, soit 1,2%, alors qu'elle avait été de 1,8% pour le premier semestre et 1,9% pour le premier trimestre.
- Par source d'énergie, les évolutions sont un peu moins marquées que durant la même période de 1981, avec un léger accroissement pour les combustibles solides, une augmentation sensible du nucléaire +10,1% et une régression de 2,9% et 2,7% pour le pétrole et le gaz naturel respectivement.
- Sur le plan structurel, les parts des différentes sources d'énergie pour les neuf premiers mois, sont passées de 1981 à 1982, de 24,2% à 24,6% pour les combustibles solides, de 6,4% à 7,1% pour l'énergie nucléaire, de 17,3% à 17,0% pour le gaz naturel et de 50,3% à 49,4% pour le pétrole.
- La production d'énergie primaire a augmenté de près de 10 millions de tep (+2,8%), augmentation attribuable principalement à l'énergie nucléaire (+10,1%) et au pétrole brut de la mer du Nord (+12,8%). L'extraction de la houille reste au même niveau alors que la production de gaz naturel est toujours en recul (−4,9%).
- Le développement de la production d'énergie primaire et la diminution de la consommation ont conduit, malgré un

stockage, toutes sources confondues, de quelque 5 millions de tep (chiffre qui cache cependant un important stockage de combustibles solides et un déstockage de pétrole) à une diminution sensible des importations nettes d'énergie (−5,5%) essentiellement de pétrole brut (−11,6%).

- La dépendance énergétique totale baisse en conséquence de 2 points en passant de 48,8% à 46,8% au cours des deux périodes de référence. La dépendance pétrolière, quant à elle, diminue de 2,3 points pour atteindre 37,1%, grâce à la constante contraction des importations de pétrole brut.

#### 6. Commerce extra-CE

Pour la période de janvier à novembre 1982, les exportations de la Communauté vers les pays tiers étaient de 8% supérieures à ce qu'elles étaient pour la même période de 1981. L'Irlande (19%), la Grèce (14%) et l'Allemagne (12%) enregistraient des hausses substantielles au-dessus de la moyenne alors que la France (2%) était le seul pays ayant une performance en dessous de la moyenne. Les exportations de boissons et tabacs, d'articles manufacturés divers, de machines et matériel de transport et produits énergétiques, ont connu une croissance au-dessus de la moyenne alors que les exportations de produits alimentaires ont nettement diminué.

Les importations communautaires en provenance des pays tiers ont augmenté de 6% durant cette période. Les importations d'huiles animales et végétales, d'articles manufacturés classés par matières et produits chimiques ont dépassé le taux moyen.

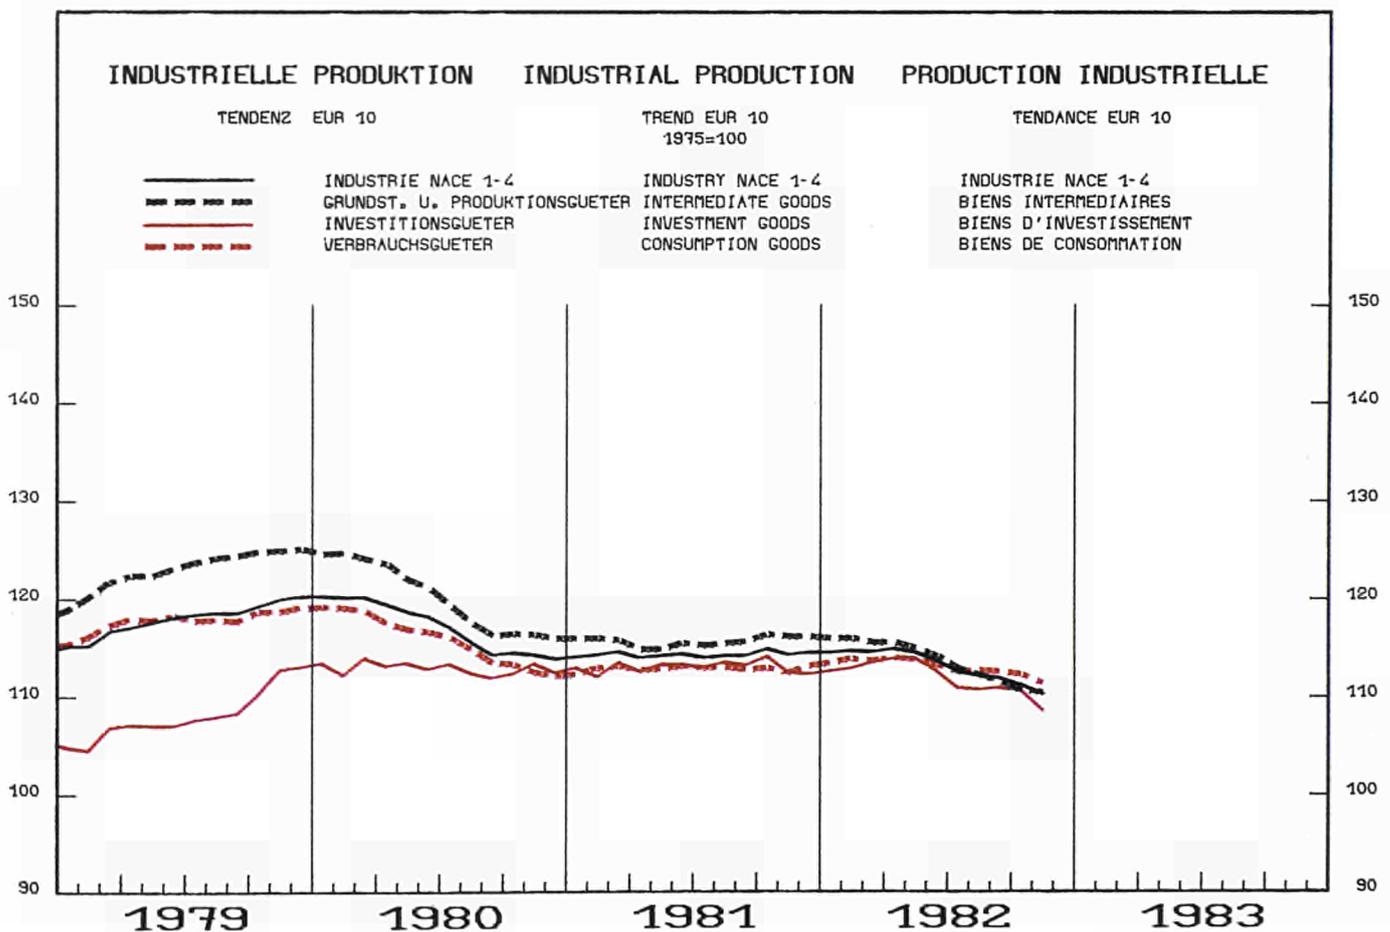

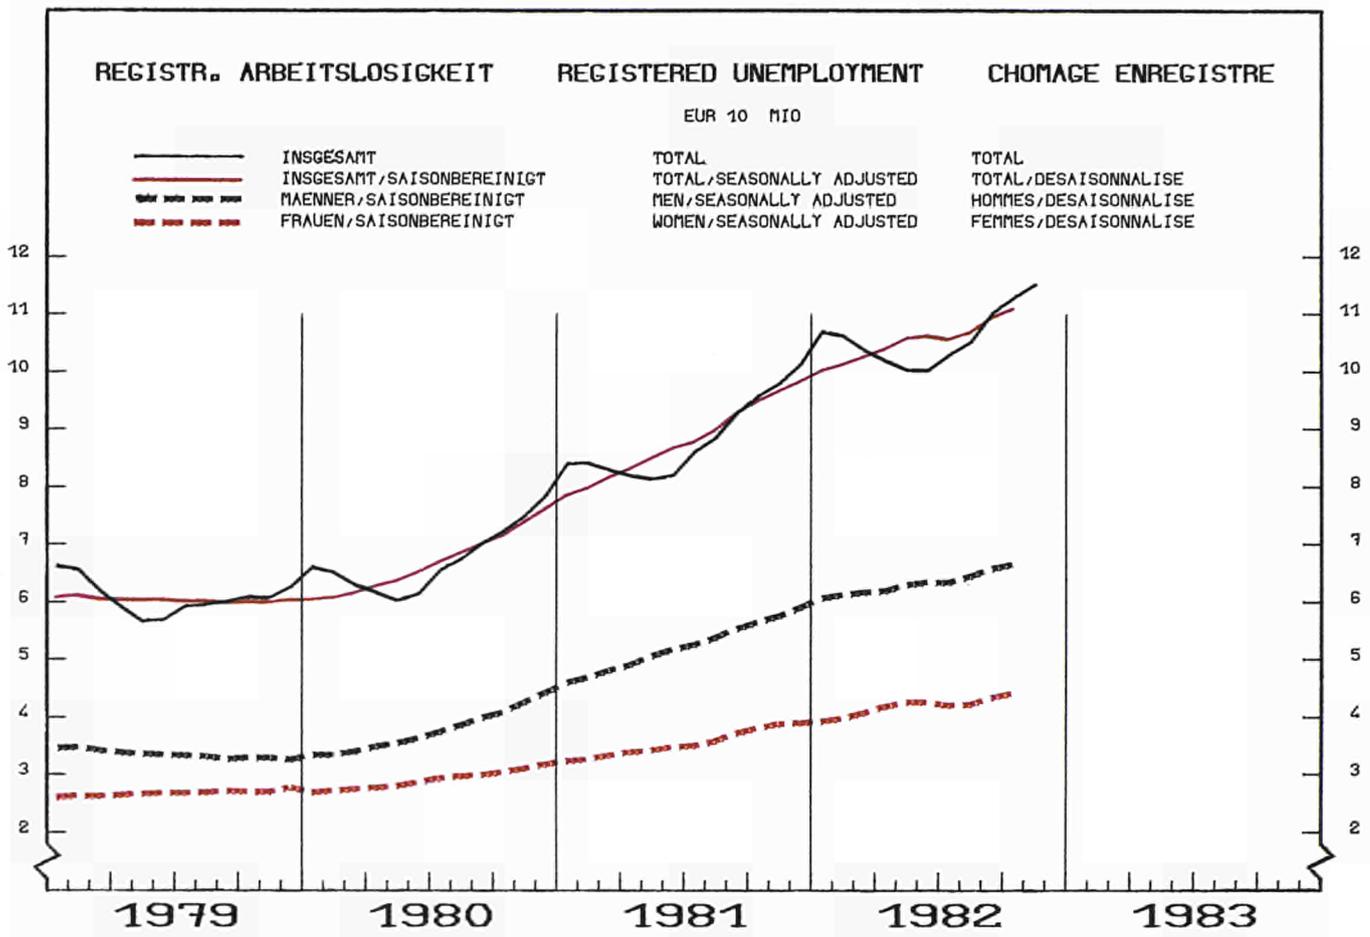

Le déficit global du commerce de la Communauté a diminué pendant cette période, bien qu'il n'y ait pas eu d'amélioration uniforme pour les pays membres.

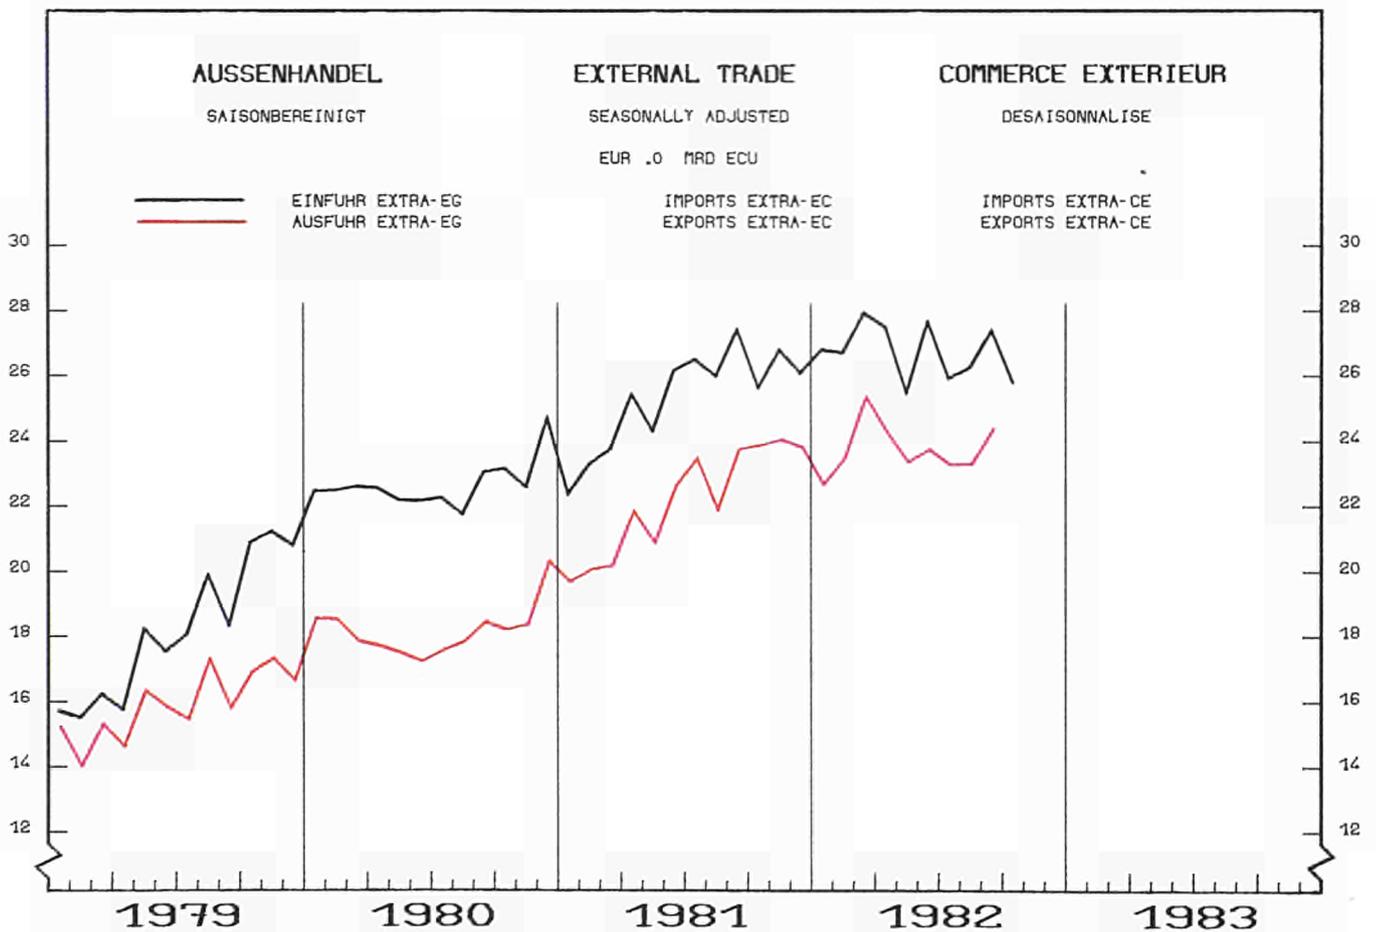

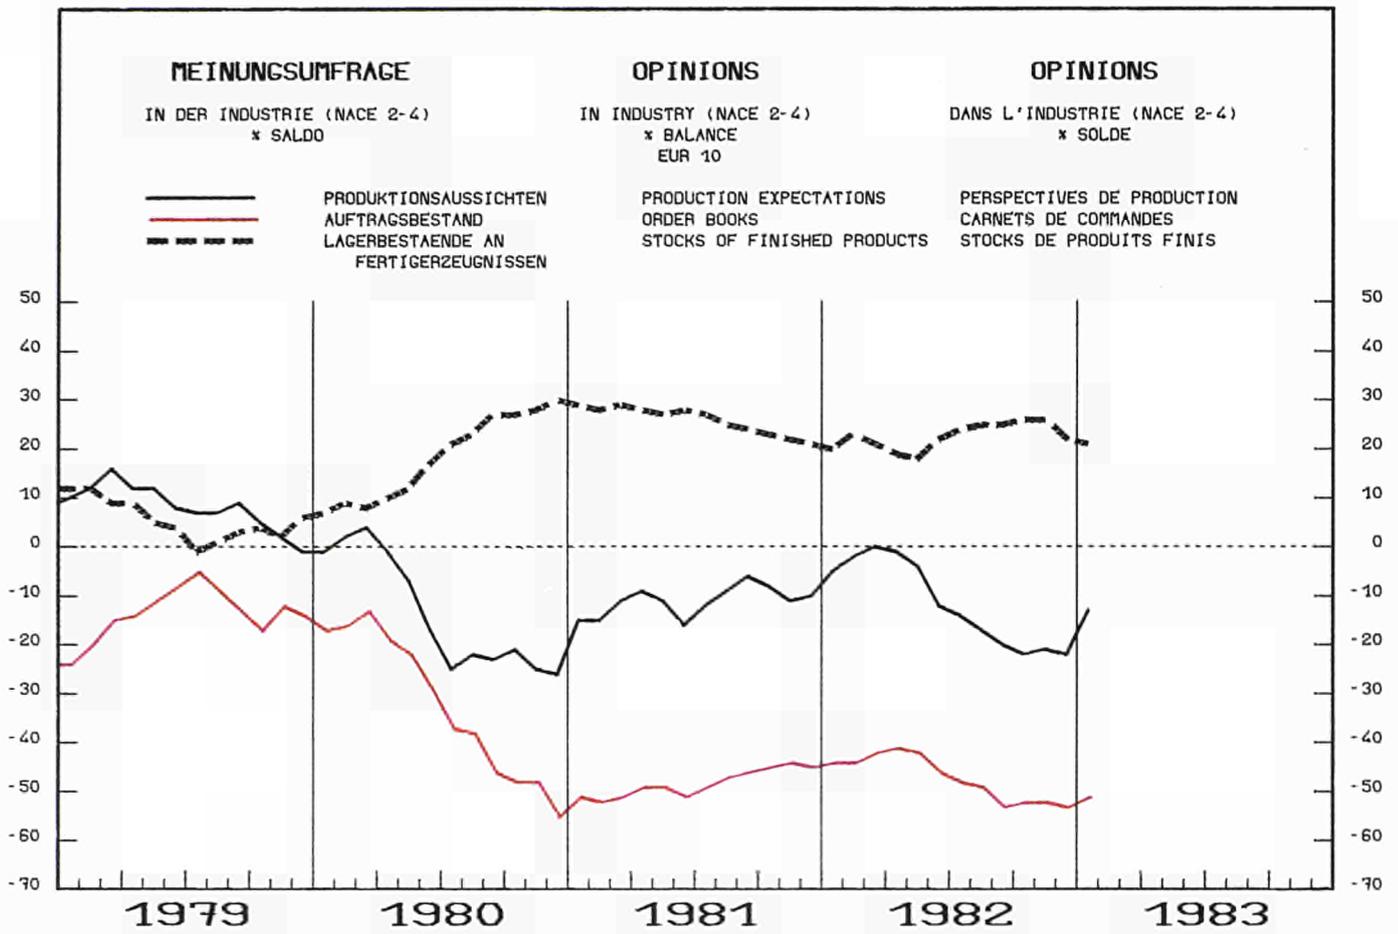

#### 7. Commerce intra-CE

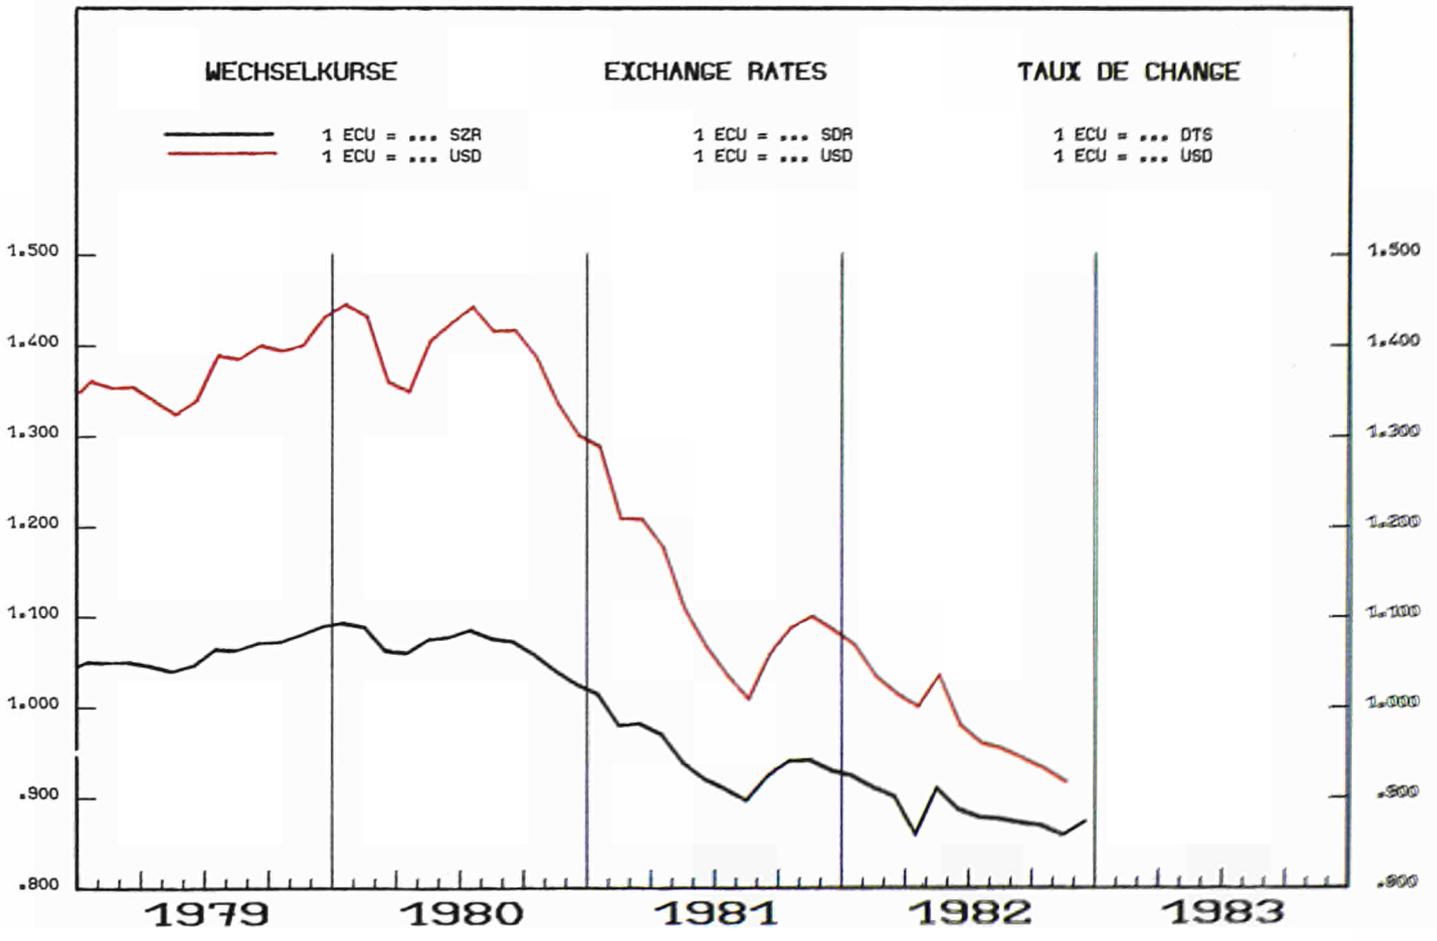

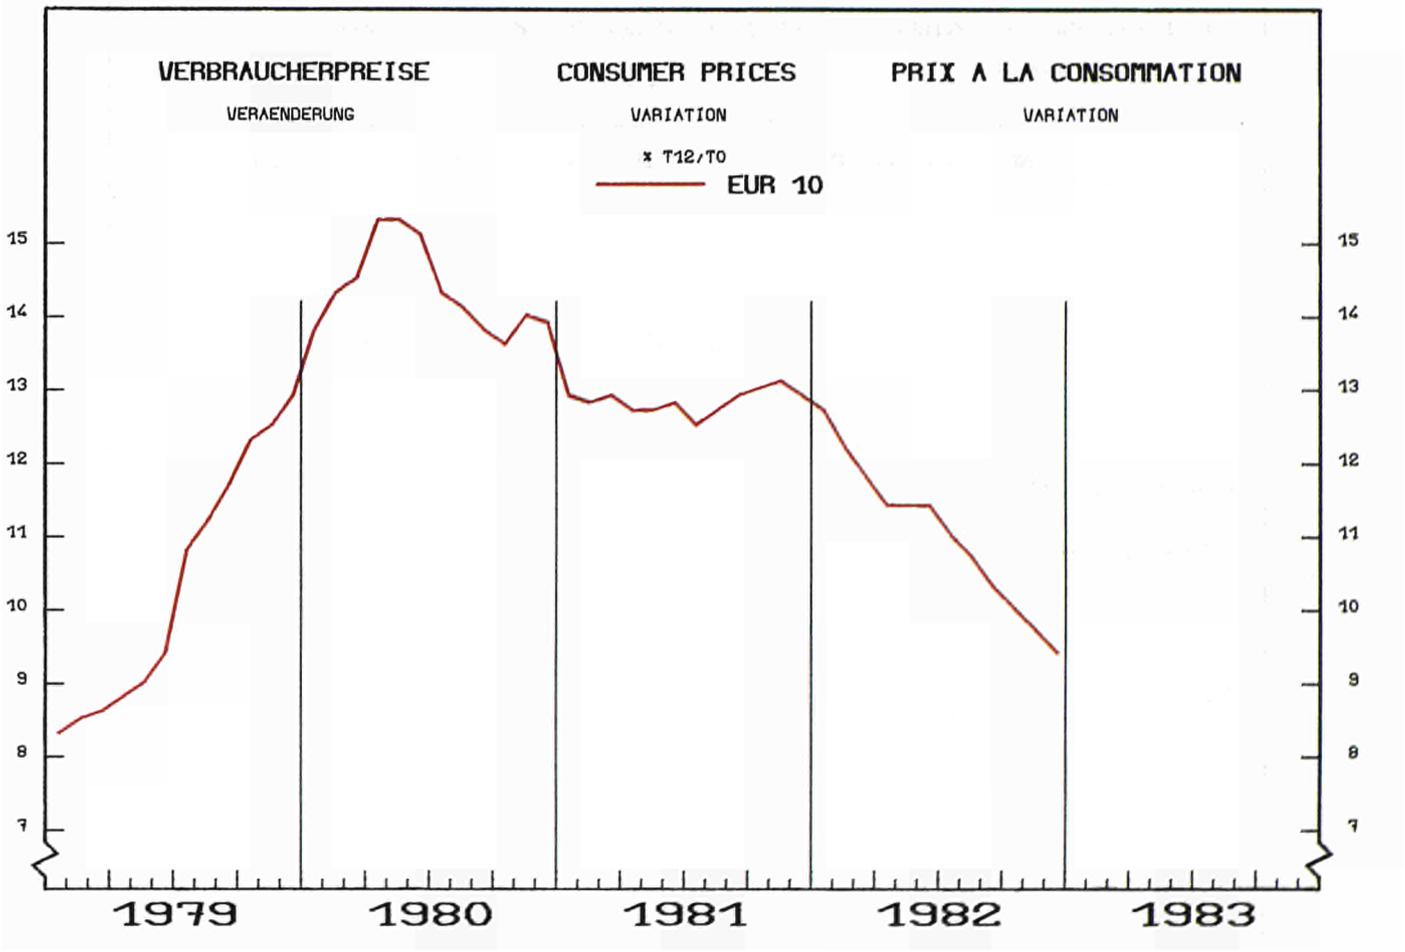

Les importations intra-CE ont augmenté de 11% durant les 11 premiers mois de 1982 par rapport à la même période de 1981. La Grèce (20%), le Royaume-Uni (16%) et la France (15%) ont enregistré des hausses au-dessus de la moyenne alors que la Belgique, le Luxembourg et l'Irlande (2% chacun) ont peu progressé, les exportations de la Grèce (26%), de l'Italie (20%), l'Irlande (18%) et l'Allemagne Fédérale (17%) se sont accrues à un taux au-dessus de la moyenne.

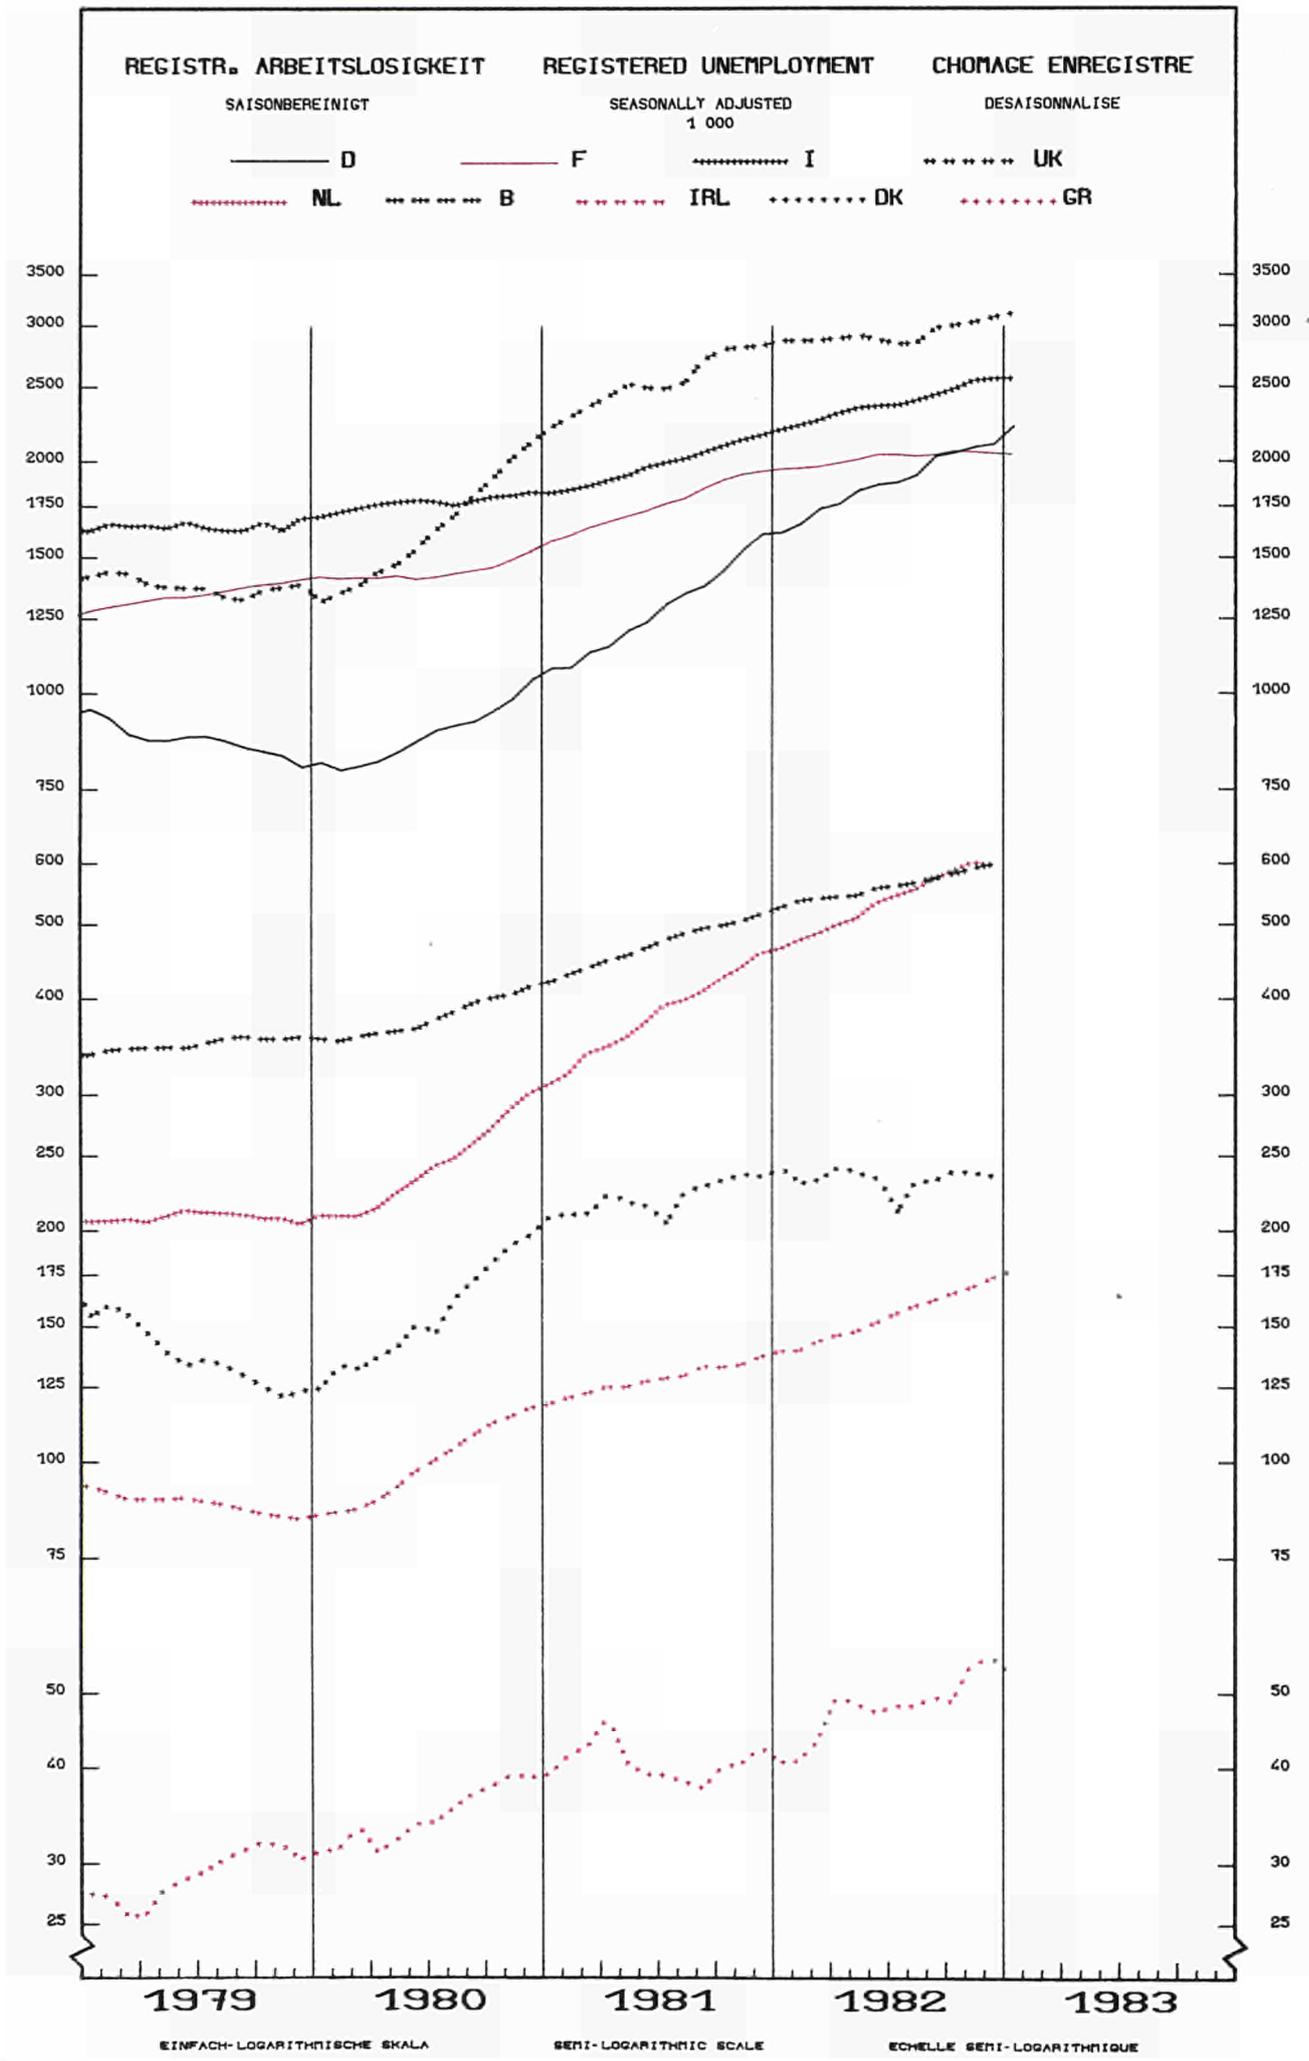

#### Note technique

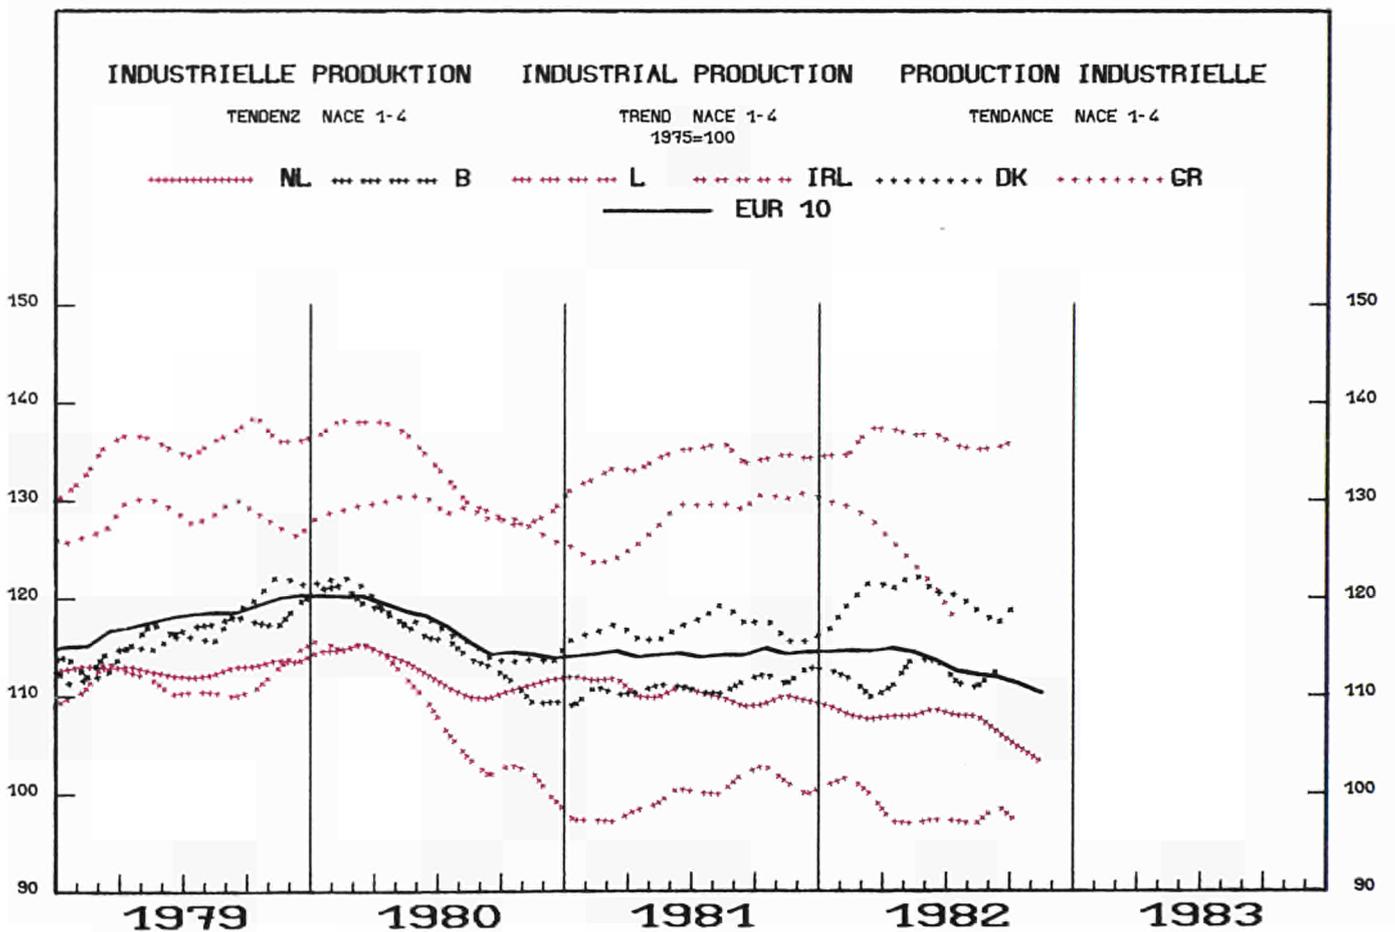

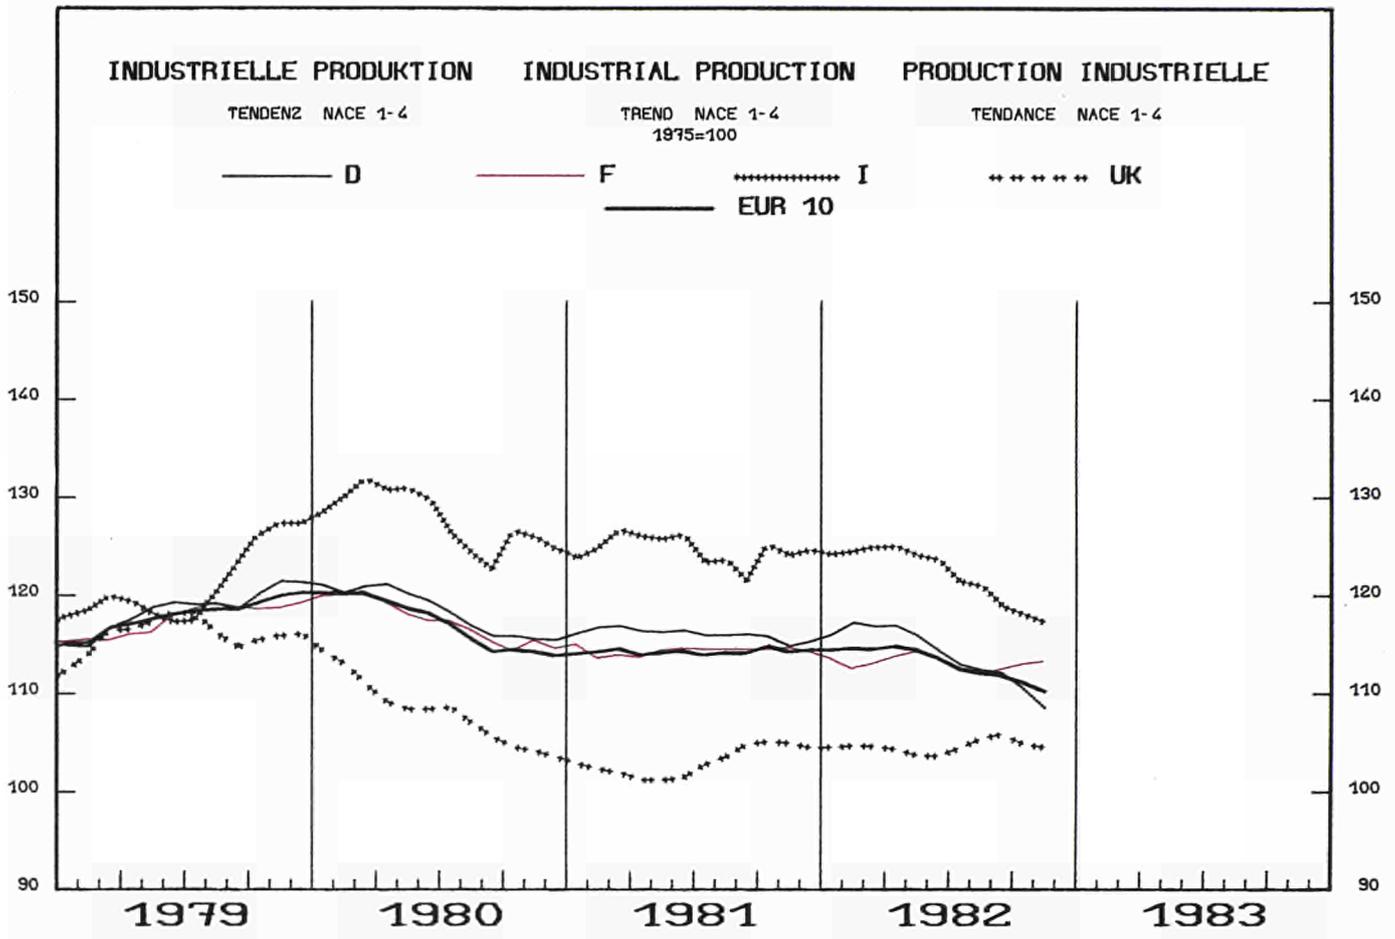

Pour des raisons techniques les données de la balance des paiements des tableaux 163-182 d'Eurostatistiques ne sont pas aussi à jour qu'elles pourraient l'être. Les derniers chiffres peuvent être consultés dans la publication Eurostat « Balance des Paiements — Données trimestrielles » 3-4/82.

## Gliederung der Veröffentlichungen des Eurostat

Themenkreise	Einzelthemen
<b>1. Allgemeine Statistik</b> (grauer Umschlag)	1. Allgemeine Statistik 2. Allgemeine Regionalstatistik 3. Statistik der Drittländer
<b>2. Volkswirtschaftliche Gesamtrechnungen, Finanzen und Zahlungsbilanzen</b> (violetter Umschlag)	1. Volkswirtschaftliche Gesamtrechnungen 2. Konten der Sektoren 3. Konten nach Produktionsbereichen 4. Geld und Finanzen 5. Regionalkonten und Finanzen 6. Zahlungsbilanzen 7. Preise
<b>3. Bevölkerung und soziale Bedingungen</b> (gelber Umschlag)	1. Bevölkerung 2. Soziale Bedingungen 3. Bildung und Ausbildung 4. Beschäftigung 5. Sozialschutz 6. Löhne und Gehälter
<b>4. Industrie und Dienstleistungen</b> (blauer Umschlag)	1. Industrie : Allgemeines 2. Energie 3. Eisen- und Stahlindustrie 4. Verkehr und Dienstleistungen
<b>5. Land- und Forstwirtschaft, Fischerei</b> (grüner Umschlag)	1. Landwirtschaft : Allgemeines 2. Landwirtschaft : Erzeugung und Bilanzen 3. Landwirtschaft : Preise 4. Landwirtschaft : Gesamtrechnungen 5. Landwirtschaft : Struktur 6. Forstwirtschaft 7. Fischerei
<b>6. Außenhandel</b> (roter Umschlag)	1. Systematiken 2. Außenhandel der Gemeinschaft : Allgemeines 3. Außenhandel mit Entwicklungsländern
<b>9. Verschiedenes</b> (brauner Umschlag)	1. Verschiedene Statistiken 2. Verschiedene Mitteilungen

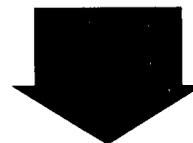

### Themenkreis 1 – Allgemeine Statistik

Einzelthemen	Titel	Erscheinungsweise
1. Allgemeine Statistik	1. <i>Eurostat-Revue</i>	J
	2. <i>Statistische Grundzahlen der Gemeinschaft</i>	J
	3. <i>Eurostatistik – Daten zur Konjunkturanalyse</i>	M
2. Allgemeine Regionalstatistik	1. <i>Regionalstatistik Jahrbuch</i>	J
3. Statistik der Drittländer	–	

Abkürzungen :  
J = jährlich  
M = monatlich

## Classification of Eurostat publications

Themes	Sub-themes
<b>1. General statistics</b> (grey covers)	1. General statistics 2. Regional general statistics 3. Third-country statistics
<b>2. National accounts, finance and balance of payments</b> (violet covers)	1. National accounts 2. Accounts of sectors 3. Accounts of branches 4. Money and finance 5. Regional accounts and finance 6. Balance of payments 7. Prices
<b>3. Population and social conditions</b> (yellow covers)	1. Population 2. Social conditions 3. Education and training 4. Employment 5. Social protection 6. Wages and salaries
<b>4. Industry and services</b> (blue covers)	1. Industry, general 2. Energy 3. Iron and steel 4. Transport and services
<b>5. Agriculture, forestry and fisheries</b> (green covers)	1. Agriculture, general 2. Agriculture, production and balances 3. Agriculture, prices 4. Agriculture, accounts 5. Agriculture, structure 6. Forestry 7. Fisheries
<b>6. Foreign trade</b> (red covers)	1. Nomenclature 2. Community trade, general 3. Trade with developing countries
<b>9. Miscellaneous</b> (brown covers)	1. Miscellaneous statistics 2. Miscellaneous information

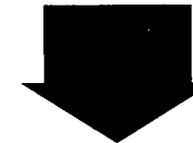

### Theme 1 – General statistics

Sub-themes	Titles	Frequency
1. General statistics	1. <i>Eurostat-Review</i>	A
	2. <i>Basic statistics of the Community</i>	A
	3. <i>Eurostatistics – Data for short-term economic analysis</i>	M
2. Regional general statistics	1. <i>Yearbook of regional statistics</i>	A
3. Third-country statistics	–	

Abbreviations :  
A = annual  
M = monthly

## Classification des publications de l'Eurostat

Thèmes	Sous-thèmes
<b>1. Statistiques générales</b> (couverture grise)	1. Statistiques générales 2. Statistiques régionales générales 3. Statistiques des pays tiers
<b>2. Comptes nationaux, finances et balance des paiements</b> (couverture violette)	1. Comptes nationaux 2. Comptes des secteurs 3. Comptes des branches 4. Monnaie et finances 5. Comptes et finances régionaux 6. Balance des paiements 7. Prix
<b>3. Population et conditions sociales</b> (couverture jaune)	1. Population 2. Conditions sociales 3. Éducation et formation 4. Emploi 5. Protection sociale 6. Salaires
<b>4. Industrie et services</b> (couverture bleue)	1. Industrie générale 2. Énergie 3. Sidérurgie 4. Transports et services
<b>5. Agriculture, forêts et pêche</b> (couverture verte)	1. Agriculture, générale 2. Agriculture, production et bilans 3. Agriculture, prix 4. Agriculture, comptes 5. Agriculture, structure 6. Forêts 7. Pêche
<b>6. Commerce extérieur</b> (couverture rouge)	1. Nomenclature 2. Échanges de la Communauté, général 3. Échanges avec les pays en voie de développement
<b>9. Divers</b> (couverture brune)	1. Statistiques diverses 2. Informations diverses

### Thème 1 – Statistiques générales

Sous-thème	Titres	Périodicité
1. Statistiques générales	1. <i>Eurostat-Revue</i>	A
	2. <i>Statistiques de base de la Communauté</i>	A
	3. <i>Eurostatistiques – Données pour l'analyse conjoncturelle</i>	M
2. Statistiques régionales générales	1. <i>Annuaire de statistiques régionales</i>	A
3. Statistiques des pays tiers	–

Öffentliche Preise in Luxemburg (ohne MwSt.) □ Price (excluding VAT) in Luxembourg  
 Prix publics au Luxembourg (TVA exclue)

	ECU	BFR	DM	FF	IRL	UKL	USD
Einzelpreis • Single copy • Prix par numéro	3,29	150	8	22	2.30	1.90	3.50
Abonnement • Subscription	24,95	1 140	59	165	18	14	24

Das Jahresabonnement beginnt am 1. Januar und endet am 31. Dezember.

The annual subscription runs from 1 January to 31 December of each year.

Les abonnements sont annuels; ils portent sur une période allant du 1<sup>er</sup> janvier au 31 décembre de chaque année.

Zahlungen können nur an die auf Umschlagseite 3 angegebenen Vertriebsbüros geleistet werden.

Payments to be made only to the agents in the countries listed on page 3 of the cover.

Les versements doivent être adressés aux bureaux de vente indiqués à la page 3 de la couverture.

Die Versandkosten für Luftpostzustellung sind im Preis nicht enthalten. Die Bedingungen für Luftpostabonnements sind bei den Vertriebsbüros zu erfragen.

These are surface mail rates; for air subscription rates please apply to the agents.

Les prix ne comprennent pas les frais d'expédition par avion; pour les conditions d'abonnement par avion, consulter les bureaux de vente.
