## Hinweis

Die Veröffentlichung Eurostatistik — Daten zur Konjunkturanalyse ist eine von drei Schlüsseleröffnungen des Eurostat, die dem Leser einen Überblick über die wichtigsten quantitativen Daten geben sollen, die für die Gemeinschaft und die Mitgliedstaaten zur Verfügung stehen. Die anderen Veröffentlichungen in dieser Reihe sind Statistische Grundzahlen mit Daten für ein bestimmtes Jahr sowie Eurostat-Revue mit einem Zehnjahresüberblick über die Gemeinschaft in Zahlen. Eine monatliche Veröffentlichung mit laufenden Wirtschaftsdaten muß ständig angepaßt und auf den neuesten Stand gebracht werden. Zu Beginn des Jahres 1982 wurde mit der Einbeziehung von Daten für Griechenland und der Abwandlung der Aufmachung eine bedeutende Änderung vorgenommen. Im Laufe des Jahres 1982 werden nach und nach Gesamtzahlen für die 10 Mitgliedstaaten der Gemeinschaft aufgenommen. Sobald genügend Daten zur Verfügung stehen, wird das Basisjahr 1975, das die Grundlage für diese Veröffentlichung bildet, durch das Jahr 1980 ersetzt werden. Zu einem späteren Zeitpunkt ist vorgesehen, Daten für die beiden beitragswilligen Länder Portugal und Spanien sowie für die Vereinigten Staaten und Japan hinzuzufügen. Es werden vier Arten von Daten in Eurostatistik veröffentlicht. Auf den Seiten 5 und 6 findet sich ein Artikel „Kurz notiert“, der sich mit den jüngsten Tendenzen bei den verfügbaren Daten befaßt. Die Seiten 15 bis 20 enthalten eine schematische Darstellung der wichtigsten wirtschaftlichen Reihen für die Gemeinschaft und die Mitgliedstaaten. Die Seite 23 ist die erste von 56 Seiten mit „Gemeinschaftstabellen“. Dieser Abschnitt enthält von Eurostat auf der Grundlage von Gemeinschaftskriterien harmonisierte Daten. Die neuesten Daten sind vorläufig und in einigen Fällen von Eurostat geschätzt. Schließlich enthält die Veröffentlichung noch einen Abschnitt „Ländertabellen“, der eine Auswahl der in jedem Land am häufigsten verwendeten Konjunkturindikatoren enthält. Hierbei handelt es sich um nationale Reihen auf der Grundlage nationaler Definitionen. Zu Vergleichszwecken ist auch eine Tabelle für die Vereinigten Staaten enthalten. In allen Fällen stehen auf Anfrage Zeitreihen über die Cronos-Datenbank des Eurostat zur Verfügung. Es werden außerdem statistische Bulletins über Arbeitslosigkeit, Preise, industrielle Produktion, Zahlungsbilanzen, Außenhandel und Energie monatlich oder vierteljährlich veröffentlicht. In Eurostatistik selbst ist ein absolutes Minimum an Erläuterungen zur Methodik enthalten. Ausführliche Informationen über Definitionen und Methodik sind bei Eurostat erhältlich. Eurostatistik wird am Ende eines jeden Monats in einer gemeinsamen Ausgabe für Deutsch, Englisch und Französisch veröffentlicht. Darüber hinaus steht auf Anfrage eine Ergänzung mit Übersetzung der Titel und der Erläuterungen ins Dänische, Griechische, Italienische und Niederländische zur Verfügung.

## Eurostatistik : Kurz notiert

### 1. Arbeitslosigkeit : Zahlen im September erneut gestiegen

Ende September 1983 belief sich die Zahl der bei den Arbeitsämtern eingeschriebenen Arbeitslosen in *acht* Ländern der Gemeinschaft auf ungefähr 9,9 Millionen (die Daten für Frankreich stehen aufgrund des Poststreiks noch nicht zur Verfügung). Diese Zahl bedeutet für die acht Länder zusammen eine Zunahme von 2% gegenüber dem Monat August 1983, und dies, obwohl aus der Bundesrepublik Deutschland ein beträchtlicher Rückgang (-2,8%) gemeldet wurde und in Irland (-0,4%) sowie in den Niederland (-0,08%) ein leichter Rückgang festgestellt werden konnte. Die erneute Zunahme ist somit die Folge der Entwicklung in den fünf anderen Ländern, die folgende Steigerungen zu verzeichnen hatten: +5,2% im Vereinigten Königreich, +3,5% in Dänemark (die Zahl für September ist eine nationale Schätzung), +3,4% in Italien, +0,6% in Belgien und +1,2% in Luxemburg.

Die Arbeitslosenquote im Verhältnis zu den zivilen Erwerbspersonen belief sich auf: 15,4% für Belgien, 15,2% für Irland, 14,8% für die Niederlande, 12,2% für das Vereinigte Königreich, 11,9% für Italien, 9,3% für Dänemark, 7,9% für die Bundesrepublik Deutschland und 1,5% für Luxemburg.

### 2. Der Index der Verbraucherpreise im September 1983 : Weitere Verlangsamung des Jahresrhythmus

Der Index der Verbraucherpreise ist für die Gemeinschaft von August bis September um 0,8% gestiegen, was ein Zwölfmonatsmittel von 8,4% bedeutet. Die stärksten Steigerungen wurden in Griechenland (+3,8%) und in Italien (+1,8%) vermerkt, aber auch Luxemburg (+1,0%), Dänemark (+1,0%) und Irland (+0,96% im monatlichen Mittel zwischen dem 15. Juni und dem 15. September 1983) hatten signifikante Erhöhungen zu verzeichnen.

Der Index lag in Frankreich (+0,7%) und in Belgien (+0,7%) leicht unter dem Mittelwert und im Vereinigten Königreich (+0,5%), in den Niederlanden (+0,4%) und besonders in der Bundesrepublik Deutschland (+0,2%) eindeutig unter dem Mittelwert. Dagegen stieg in Japan im Monat September der Index um 1,2% und in den USA für den Monat August um 0,3%.

Seit Anfang des Jahres (Januar-September 1983) ist der Index der Verbraucherpreise für EUR 10 um 6,3% gestiegen, während die Zunahme für denselben Zeitraum des Vorjahres bei 7,2% lag.

Im gleichen Zeitraum (Januar-September 1983) betrug die Zunahme in Japan 1,5%, in den USA  $\pm$  2,5% und in Kanada +3,5%.

Seit Beginn des Jahres 1983 verzeichneten die Länder der Gemeinschaft folgende Steigerungen: D (+2,1%), NL (+2,3%), VK (+4,3%), DK (+4,4%), L (+6,0%), B (+6,4%), F (+7,5%), I (+9,2%), IRL (+9,7% zwischen dem 15. November 1982 und dem 15. August 1983) und GR (+14,4%).

### 3. Index der Industriellen Produktion im Juli 1983 : Leichte Steigerung für die Gemeinschaft

*Der Gemeinschaftsindex* (EUR 10) für den Monat Juli ist wegen fehlender Daten für Frankreich nicht berechnet worden, er dürfte sich jedoch gegenüber dem Monat Juli 1982 erhöht haben, da der Index für die Bundesrepublik Deutschland eine Zunahme von 2,5% und der Index für das Vereinigte Königreich eine Zunahme von 3,0% verzeichnet. Die Indizes für die Niederlande, für Luxemburg und Dänemark sind ebenfalls gestiegen. Italien verzeichnet einen Rückgang von 6,5%.

Es ist darauf hinzuweisen, daß für das Vereinigte Königreich ein neuer Index der industriellen Produktion eingeführt worden ist, was eine Überarbeitung aller Reihen für dieses Land und auch für EUR 10 erforderlich gemacht hat.

*Nach Saisonbereinigung* dürfte der Index EUR 10 schätzungsweise zwischen 112,5 und 113 liegen, das bedeutet eine Zunahme gegenüber dem Monat Juni.

*Der geschätzte Tendenzindikator* (Mittelwert der drei letzten Monate im Vergleich zu den vorangegangenen drei Monaten) dürfte eine Zunahme verzeichnen. Derselbe Indikator ist für die Vereinigten Staaten um 4,6% gestiegen.

*Zwischen den beiden ersten Quartalen 1983* war die Erzeugung von Investitionsgütern in der Gemeinschaft (EUR 10) eher rückläufig (-0,6%), während die Grundstoff- und Produktionsgütererzeugung eine steigende Tendenz aufwies (+1%) und die Erzeugung von Verbrauchsgütern leicht zurückgegangen ist (-0,1%).

### 4. Stahl

Die Rohstahlerzeugung der Gemeinschaft (ohne Griechenland) ist im September 1983 gegenüber dem Vormonat — saisonbereinigt — um 14,1% gestiegen. Mit 9,5 Mio. t wurde das Produktionsergebnis vom September 1982 um 12,7% überschritten. Dennoch wurden in den ersten neun Monaten 1983 8,3% weniger Stahl erzeugt als im entsprechenden Vorjahreszeitraum.

Die Auftragseingänge für Maßenstahl haben sich im Juli 1983 auf einem Niveau von 6,8 Mio. t stabilisiert (saisonbereinigt +0,5% gegenüber Juni). Dieses Ergebnis, das um 10,3% über dem Juli-Ergebnis 1982 liegt, hat dazu geführt, daß erstmals in diesem Jahr das Niveau des Vorjahres überboten wurde (I-VII 83/I — VII 82 : +0,6%).

Im 1. Halbjahr 1983 ist — verglichen mit dem entsprechenden Vorjahreszeitraum — sowohl der Außenhandel mit Drittländern (Einführen -13,1%; Ausfuhren -5,9%) als auch der Binnen-austausch (-8,3%) zurückgegangen.

### 5. Energie : der Kohlenbergbau im ersten Halbjahr 1983

Die Analyse der Kohlenwirtschaft im ersten Halbjahr 1983 zeigt deutlich, daß die Belastungen und Schwierigkeiten der letzten Jahre weiter anhalten. Die damit verbundene allgemeine Schrumpfung des Steinkohlenmarktvolumens ist erkennbar an :

- einem Rückgang der Einfuhren aus Drittländern (um 6,9 Mio. t gegenüber dem ersten Halbjahr 1982)
- einer Rücknahme der Förderung (um 4,6 Mio. t)
- einem Anwachsen der Gesamtbestände bei den Zechen (um 5,6 Mio. t gegenüber Ende 1982).

#### **6. EG-Außenhandel : Steigende Ausfuhren, sinkende Einfuhren**

Während des Zeitraums Januar-Juli 1983 ist der Wert der Gemeinschaftsausfuhren nach Drittländern gegenüber demselben Zeitraum 1982 um ca. 2% gestiegen.

Dies bedeutet eine Umkehrung der in den ersten fünf Monaten des Jahres beobachtenden Tendenz, die auf einen Rückgang der Gemeinschaftsausfuhren schliessen ließ. Diese Umkehrung ist die Folge einer steigenden Nachfrage aus den USA, aus Kanada, aus den nicht zur EFTA gehörenden westeuropäischen Ländern und aus dem Staatshandelsländern; die Ausfuhren in diese Länder sind merklich höher als im letzten Jahr. Dagegen sind die Ausfuhren nach den Entwicklungsländern und insbe-

sondere nach den AKP-Ländern gesunken. In demselben Zeitraum (Januar-Juli 1983) sind die Gemeinschaftseinfuhren um etwa 1,5% gesunken. Dies ist auf den bedeutenden Rückgang der Einfuhren an energetischen Erzeugnissen zurückzuführen, der sich besonders auf Einfuhren aus den OPEC-Ländern ausgewirkt hat. Die Einfuhren anderer Erzeugniskategorien haben zugenommen, so beispielsweise chemische Erzeugnisse, Maschinen und Fahrzeuge, für die die Zunahme am größten war. Dies wirkte sich im wesentlichen zugunsten der Exporteure aus den europäischen Ländern aus, die nicht Mitglieder der Gemeinschaft sind.

#### **7. Innergemeinschaftlicher Handel**

Die innergemeinschaftlichen Einfuhren liegen für die ersten sieben Monate des Jahres 1983 um etwa 6% höher als für denselben Zeitraum des letzten Jahres.

Eine Analyse nach Erzeugnissen zeigt, daß die stärksten Zunahmen bei den Rohstoffen, den energetischen Erzeugnissen und den Fahrzeugen zu verzeichnen sind.

---

## Notice

Eurostatistics — data for short-term economic analysis is one of three key Eurostat publications designed to give the reader an overview of the most important quantitative information available for the Community and Member States. The other publications in this series are Basic Statistics giving data for a specific year, and Eurostat review with its summary of the Community in figures over the past 10 years.

A monthly publication with current economic data must be continually adapted and updated. At the beginning of 1982 a major modification took place with the inclusion of data for Greece and a change in presentation. Totals for the 10-member Community are being progressively introduced in 1982. Once sufficient data are available, the base year 1975 which is fundamental to this publication will be replaced with 1980. At a later stage it is planned to add data for the two applicant countries, Portugal and Spain, as well as for the United States and Japan.

Four kinds of information are published in Eurostatistics. Pages 9 and 10 offer an article 'In brief' which looks at the latest trends in the data available. Pages 15 to 20 provide the reader with a visual presentation of the most important economic series for the Community and the Member States. Starting on page 23 there are 56 pages of 'Community tables'. This section contains data harmonized by Eurostat on the basis of common criteria. The most recent data are provisional and in some cases estimated by Eurostat. Finally there is a section 'Tables by country' which contains a selection of economic indicators most often used in each country. These are national series based on national definitions. For comparison a table for the United States is also included.

For all series, historical data are available on request from Eurostat's data bank Cronos. Statistical bulletins on unemployment, prices, industrial production, balance of payments, external trade and energy are also published monthly or quarterly. Eurostatistics itself contains an absolute minimum of methodological notes. Detailed information on definitions and methodology may be obtained from Eurostat.

Eurostatistics is published at the end of each month in a single edition in German, English and French. A supplement with translations of titles and explanatory notes exists in Danish, Greek, Italian and Dutch, and it is available on request.

SITC	Standard International Trade Classification

(<sup>1</sup>) The data included in this section of the bulletin are results from a short-term-trends enquiry conducted among heads of enterprises in the Community. More detailed data appear in *European Economy*.

## Eurostatistics: In brief

### 1. Unemployment: A further increase in September

At the end of September 1983, the number of people registered as unemployed at public employment offices in *eight* countries of the Community (data for France are not yet available due to strikes in French postal services) was approximately 9.9 million. This represents an increase of 2% on August 1983, for these eight countries despite a considerable drop in the Federal Republic of Germany (-2.8%) and slight decreases recorded in Ireland (-0.4%) and the Netherlands (-0.08%). This further increase reflects trends in the five other countries, where the figures range from 5.2% for the United Kingdom to 0.6% for Belgium and include +3.5% for Denmark (a national estimate), +3.4% for Italy and +1.2% for Luxembourg. The unemployment rates for the civilian working population were as follows: 15.4% for Belgium, 15.2% for Ireland, 14.8% for the Netherlands, 12.2% for the United Kingdom, 11.9% for Italy, 9.3% for Denmark, 7.9% for the Federal Republic of Germany and 1.5% for Luxembourg.

### 2. The consumer price index in September 1983: Falling off of annual rate of increase confirmed

The consumer price index in the Community rose by 0.8% between August and September, making a 12-month average of 8.4%. The largest increases were recorded in Greece (+3.8%) and Italy (+1.8%), but the index also rose considerably in Luxembourg (+1%), Denmark (+1%) and Ireland (+0.96% on average per month between 15 June and 15 September 1983).

The increase was slightly below average in France (+0.7%) and Belgium (+0.7%) and appreciably lower for the United Kingdom (+0.5%), the Netherlands (+0.4%) and, in particular, the Federal Republic of Germany (+0.2%). Over the same period, the index rose by 1.2% in Japan, whereas the increase in the USA in August was 0.3%.

Since the beginning of the year (January-September 1983) the consumer price index for EUR-10 has increased by 6.3% as against 7.2% for the same period last year.

For the same period (January-September 1983) the index rose by 1.5% in Japan,  $\pm$ 2.5% in the USA and 3.5% in Canada.

Since the beginning of 1983 the increases in the Community states have been as follows: D (+2.1%), NL (+2.3%), UK (+4.3%), DK (+4.4%), L (+6.0%), B (+6.4%), F (+7.5%), I (+9.2%), IRL (+9.7% between 15 November 1982 and 15 August 1983) and GR (+14.4%).

### 3. The index of industrial production in July 1983: A slight increase for the Community

The index for the Community (EUR 10) for July has not been calculated owing to the lack of data for France but must have risen against July 1982, as the index for the Federal Republic of Germany shows an increase of 2.5% and for the United Kingdom an increase of 3%. The indices for the Netherlands, Luxembourg and Denmark are also rising, whilst there has been

a drop of 6.5% in Italy. It should be noted that a new index of industrial production has been introduced in the United Kingdom, necessitating corrections to all the series for this country and also for EUR 10.

After seasonal adjustment the index for EUR 10 is expected to be between 112.5 and 113, representing an increase on June's figures.

This estimated trend indicator (the ratio of the last three months to be preceding three months) shows a rise. The same indicator for the United States shows a rise of 4.6%.

Between the two first quarters of 1983 for the Community (EUR 10) production of capital goods was on the decline (-0.6%), whilst that of intermediate products tended to rise (+1%) and production of consumer goods fell very slightly (-0.1%).

### 4. Steel

In September 1983, crude steel production in the EC (excluding Greece) showed an increase of 14.1% (after seasonal adjustment) compared with the previous month; at 9.5 million tonnes this represents a rise of 12.7% on September 1982. However, the figures for the first three quarters of 1983 are 8.3% down on those for 1982.

In July 1983, new orders (for ordinary steels) stabilized at a level of 6.8 million tonnes (0.5 up on June after seasonal adjustment). This figure is 10.3% higher than that for July 1982 and has resulted in the level for the preceding year being exceeded for the first time this year (I-VII 83/I-VII 82: +0.6).

In the first quarter of 1983 a drop in trade compared with the same period in 1982 was recorded, both with third countries (imports -13.1%; exports -5.9%) and in intra-Community trade (-8.3%).

### 5. Energy: Coalmining activity in the first half of 1983

An analysis of activity in the coal sector in the first half of 1983 only confirms that it is as sluggish and as troubled as in the past few years. The result is a general decline in the coal market, reflected in:

- a drop (of 6.9 million tonnes compared with the first half of 1982) in imports from third countries
- a fall in production (of 4.6 million tonnes)
- an increase in total pithead stocks (of 5.6 million tonnes compared with the end of 1982).

### 6. Extra-Community trade: Exports up, imports down

Between January and July 1983 the value of EC exports to third countries was about 2% on the same period in 1982.

This constitutes a reversal of the trend observed during the first five months of the year, when Community exports were falling, and is due to more buoyant demand in the USA, Canada,

---

non-EFTA western European countries and statetrading countries, to which exports rose appreciably over last year's figures. On the other hand, exports to developing countries and, in particular, to the ACP countries are falling.

Community imports over the same period (January-July 1983) have fallen by about 1.5%. This is due to a sharp fall in energy imports, which of course has hit imports from OPEC. Imports of other product categories increased, with the highest rises being recorded by machinery and transport equipment and chemicals,

from which non-EEC western European exporters have reaped most benefit.

#### **7. Intra-Community trade**

Intra-EC imports over the first seven months of 1983 were around 6% up on the same period last year.

Product-by-product analysis reveals that the biggest increases were for raw materials, energy products and transport equipment.

## Avertissement

Eurostatistiques — données pour l'analyse de la conjoncture est l'une des trois publications clés d'Eurostat, destinées à donner au lecteur un aperçu des informations quantitatives les plus importantes disponibles concernant la Communauté et les États membres. Les autres publications de cette série sont les Statistiques de base fournissant des données pour une année spécifique déterminée et la Revue de l'Eurostat qui passe en revue dix ans de la Communauté sous forme de tableaux chiffrés.

Une publication mensuelle contenant des données économiques conjoncturelles d'actualité doit être continuellement adaptée et mise à jour. Au début de 1982, une modification importante est intervenue avec l'inclusion de données concernant la Grèce et un changement de présentation. Des totaux pour la Communauté de dix membres seront progressivement introduits en 1982. Lorsque l'on disposera de données en nombre suffisant, l'année 1975 — année de référence pour cette publication — sera remplacée par 1980. Il est prévu ultérieurement d'ajouter les données concernant les deux pays candidats à l'adhésion — à savoir l'Espagne et le Portugal — ainsi que pour les États-Unis et le Japon.

Eurostatistiques publie quatre types d'informations. Les pages 13 et 14 contiennent un article « En bref » dans lequel les dernières tendances pouvant être dégagées à partir des données disponibles sont examinées. Les pages 15 à 20 fournissent au lecteur une présentation visuelle des séries économiques les plus importantes pour la Communauté et les États membres. Des « tableaux communautaires » sont présentés sur 56 pages à partir de la page 23. Cette section contient des données harmonisées par Eurostat sur la base de critères communs. Les données les plus récentes sont provisoires et, dans certains cas, estimées par Eurostat. Enfin, la section « tableaux par pays » contient une sélection des indicateurs économiques les plus souvent utilisés dans chaque pays. Ce sont des séries nationales fondées sur des définitions nationales. A des fins de comparaison, un tableau concernant les États-Unis est également inclus.

Pour toutes les séries, des données historiques sont disponibles sur demande auprès de la banque de données d'Eurostat, CRONOS. Les bulletins statistiques sur le chômage, les prix, la production industrielle, la balance des paiements, le commerce extérieur et l'énergie sont également publiés sur une base mensuelle ou trimestrielle. En soi, Eurostatistiques contient un minimum de notes méthodologiques. Une information détaillée concernant les définitions et la méthodologie peut-être obtenue auprès d'Eurostat.

Eurostatistiques est publié à la fin de chaque mois dans une seule édition en allemand, anglais et français. Un supplément contenant les traductions des titres et des notes explicatives existe en danois, grec, italien et néerlandais et est disponible sur demande.

(1) Les données contenues dans cette partie du Bulletin représentent les résultats de l'enquête de conjoncture auprès des chefs d'entreprise de la Communauté. Des données plus détaillées paraissent dans « Économie européenne ».

## Eurostatistiques : En bref

### 1. Chômage : Les chiffres de septembre indiqueraient une nouvelle hausse

À la fin du mois de septembre 1983, le nombre des chômeurs inscrits auprès des bureaux de placement dans huit pays de la Communauté, (les données pour la France n'étant pas encore disponibles, du fait de grèves dans les postes françaises), était d'environ 9,9 millions. Ce chiffre indique une hausse de 2% pour l'ensemble de ces mêmes huit pays, par rapport au mois d'août 1983, et ceci malgré une baisse importante signalée par la R.F. d'Allemagne (-2,8%) et des légères baisses constatées en Irlande (-0,4%) et aux Pays-Bas (-0,08%). Ce nouvel accroissement est donc la conséquence de l'évolution dans les cinq autres pays qui enregistrent des hausses allant de 5,2% pour le Royaume-Uni à 0,6% pour la Belgique en passant de 3,5% pour le Danemark (il faut signaler que le chiffre de septembre pour ce pays est une estimation nationale), +3,4% pour l'Italie, et +1,2% pour le Luxembourg.

Le taux de chômage calculé par rapport à la population active civile était de : 15,4% pour la Belgique, 15,2% pour l'Irlande, 14,8% pour les Pays-Bas, 12,2% pour le Royaume-Uni, 11,9% pour l'Italie, 9,3% pour le Danemark, 7,9% pour la R.F. d'Allemagne et 1,5% pour le Luxembourg.

### 2. L'indice des prix à la consommation en septembre 1983 : Confirmation du ralentissement du rythme annuel

L'indice des prix à la consommation pour la Communauté a augmenté de 0,8% entre août et septembre, ce qui met la moyenne sur douze mois à 8,4%. Les plus fortes hausses ont été signalées en Grèce (+3,8%) et en Italie (+1,8%) alors que le Luxembourg (+1,0%), le Danemark (+1,0%) et l'Irlande (+0,96%) en moyenne mensuelle entre le 15 juin et le 15 septembre 1983) enregistraient eux aussi des évolutions positives significatives.

L'indice évoluait légèrement en dessous de la moyenne en France (+0,7%) et en Belgique (+0,7%) et nettement en dessous de celle-ci pour le Royaume-Uni (+0,5%) les Pays-Bas (+0,4%) et surtout la R.F. d'Allemagne (+0,2%). Pour ce même mois de septembre l'indice augmentait de 1,2% au Japon alors qu'aux USA et en août on enregistrait une hausse de 0,3%.

Depuis le début de l'année (janvier-septembre 1983) l'indice des prix à la consommation pour EUR 10 a augmenté de 6,3% alors que l'augmentation pour la même période de l'année dernière était de 7,2%.

Pour la même période (janvier-décembre 1983) la hausse était de 1,5% pour le Japon, de +2,5% pour les USA et de +3,5% pour le Canada.

Depuis le début de 1983 les pays de la Communauté ont connu les augmentations suivantes : D (+2,1%), NL (+2,3%), UK (+4,3%), DK (+4,4%), L (+6,0%), B (+6,4%), F (+7,5%), I (+9,2%), IRL (+9,7%), entre le 15 novembre 1982 et le 15 août 1983), et GR (+14,4%).

### 3. L'indice de la production industrielle en juillet 1983 : Légère hausse pour la Communauté

L'indice pour la Communauté (EUR 10) du mois de juillet n'est pas calculé à cause de l'absence de données pour la France; cependant cet indice devrait être en hausse par rapport au mois de juillet 1982 car l'indice pour la R.F. d'Allemagne indique une hausse de 2,5% et l'indice pour le Royaume-Uni une hausse de 3,0%. Les indices pour les Pays-Bas, le Luxembourg et le Danemark sont aussi en hausse. La baisse est de 6,5% pour l'Italie.

Il faut noter qu'un nouvel indice de la production industrielle a été introduit pour le Royaume-Uni, ce qui a entraîné des révisions pour toutes les séries de ce pays mais aussi pour EUR 10.

Après corrections des variations saisonnières l'indice EUR 10 devrait atteindre un niveau estimé compris entre 112,5 et 113 c'est-à-dire en hausse par rapport au mois de juin.

L'indicateur de tendance estimé (rapport des trois derniers mois aux trois mois précédents) indiquerait une hausse. Ce même indicateur pour les États-Unis indique une hausse de 4,6%.

Entre les deux premiers trimestres 1983 pour la Communauté (EUR 10) la production de biens d'investissement a plutôt eu tendance à diminuer (-0,6%), alors que la production de biens intermédiaires a eu tendance à croître (+1%) et la production de biens de consommation a diminué très légèrement (-0,1%).

### 4. Acier

En septembre 1983, la production d'acier brut de la C.E. (sans la Grèce) a connu une augmentation de 14,1% (désaisonnalisée) par rapport au mois précédent; avec 9,5 mio.t. ceci représente un niveau supérieur de 12,7% comparé à celui de septembre 1982. Cependant les trois premiers trimestres 1983 sont en diminution de 8,3% par rapport à ceux de 1982.

En juillet 1983, les commandes nouvelles (aciers courants) se sont stabilisées au niveau de 6,8 mio.t. (+0,5% désaisonnalisées par rapport à juin). Ce chiffre est supérieur de 10,3% à celui de juillet 1982 et grâce à ce résultat c'est la première fois cette année, que le niveau de l'année précédente est dépassé (I-VII 83/I-VII 82 : +0,6%).

Au 1<sup>er</sup> semestre 1983, on constate par rapport à la même période de 1982 une diminution des échanges aussi bien avec les pays tiers (Importations -13,1%; Exportations -5,9%) que des échanges intra-communautaires (-8,3%).

### 5. Énergie : L'activité charbonnière au cours du premier semestre 1983

L'analyse de l'activité charbonnière au cours du premier semestre 1983 ne peut que confirmer la lourdeur et les difficultés du secteur, déjà observées dans les dernières années. Ceci se traduit par une contraction générale des volumes du marché de la houille, exprimée par :

- baisse (6,9 millions de tonnes par rapport au premier semestre 1982) des importations en provenance des pays tiers
- recul de la production (4,6 millions de tonnes)
- hausse des stocks totaux auprès des mines (5,6 millions de tonnes par rapport à fin 1982).

#### **6. Commerce Extra-communautaire : Exportations en hausse, importations en baisse**

Pendant la période janvier-juillet 1983, la valeur des exportations communautaires vers des pays tiers a augmenté d'environ 2% par rapport à la même période de 1982.

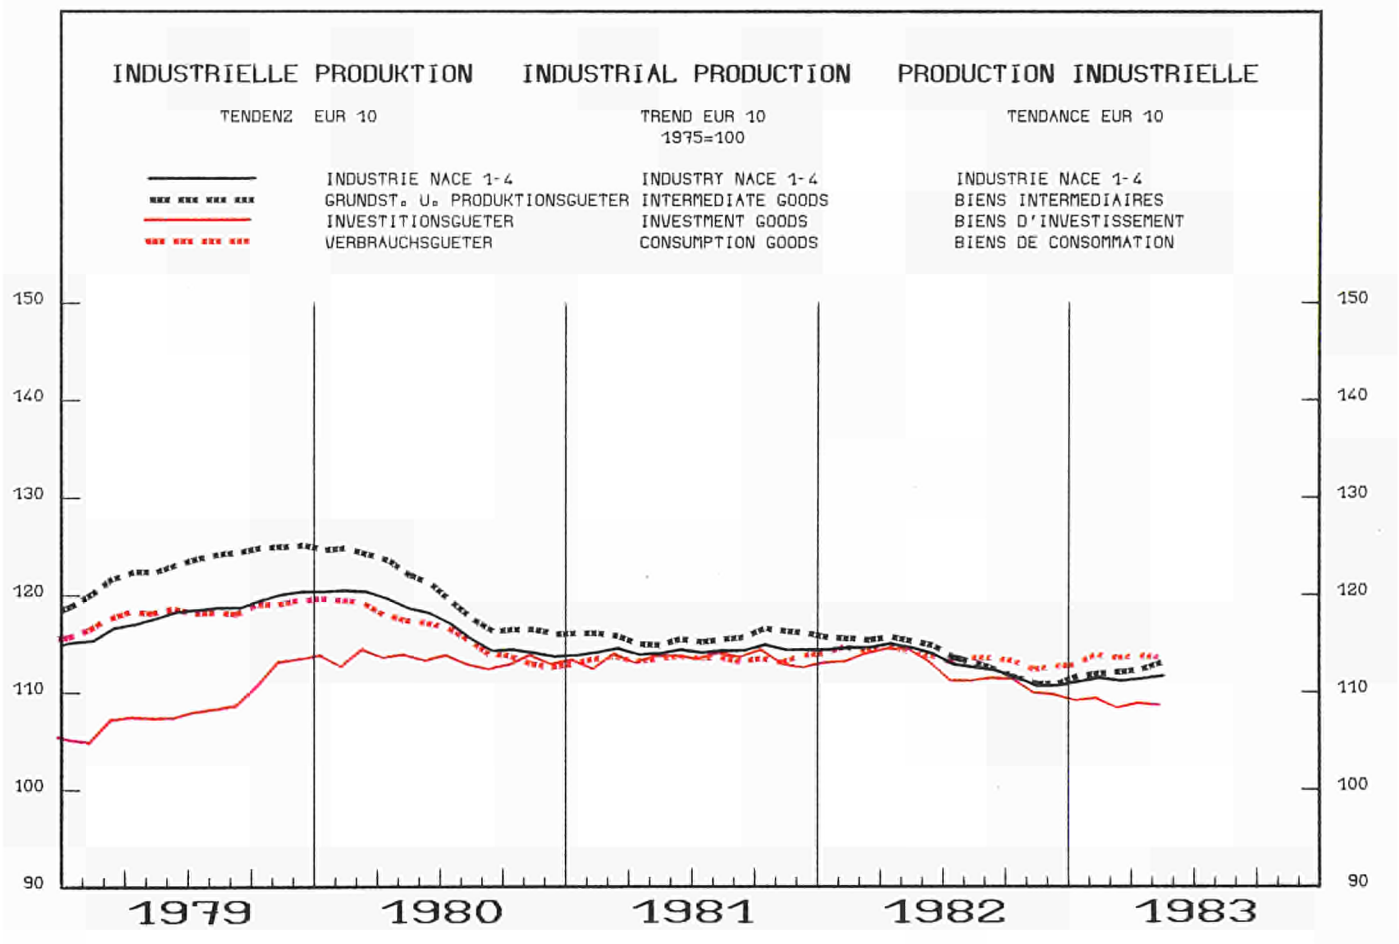

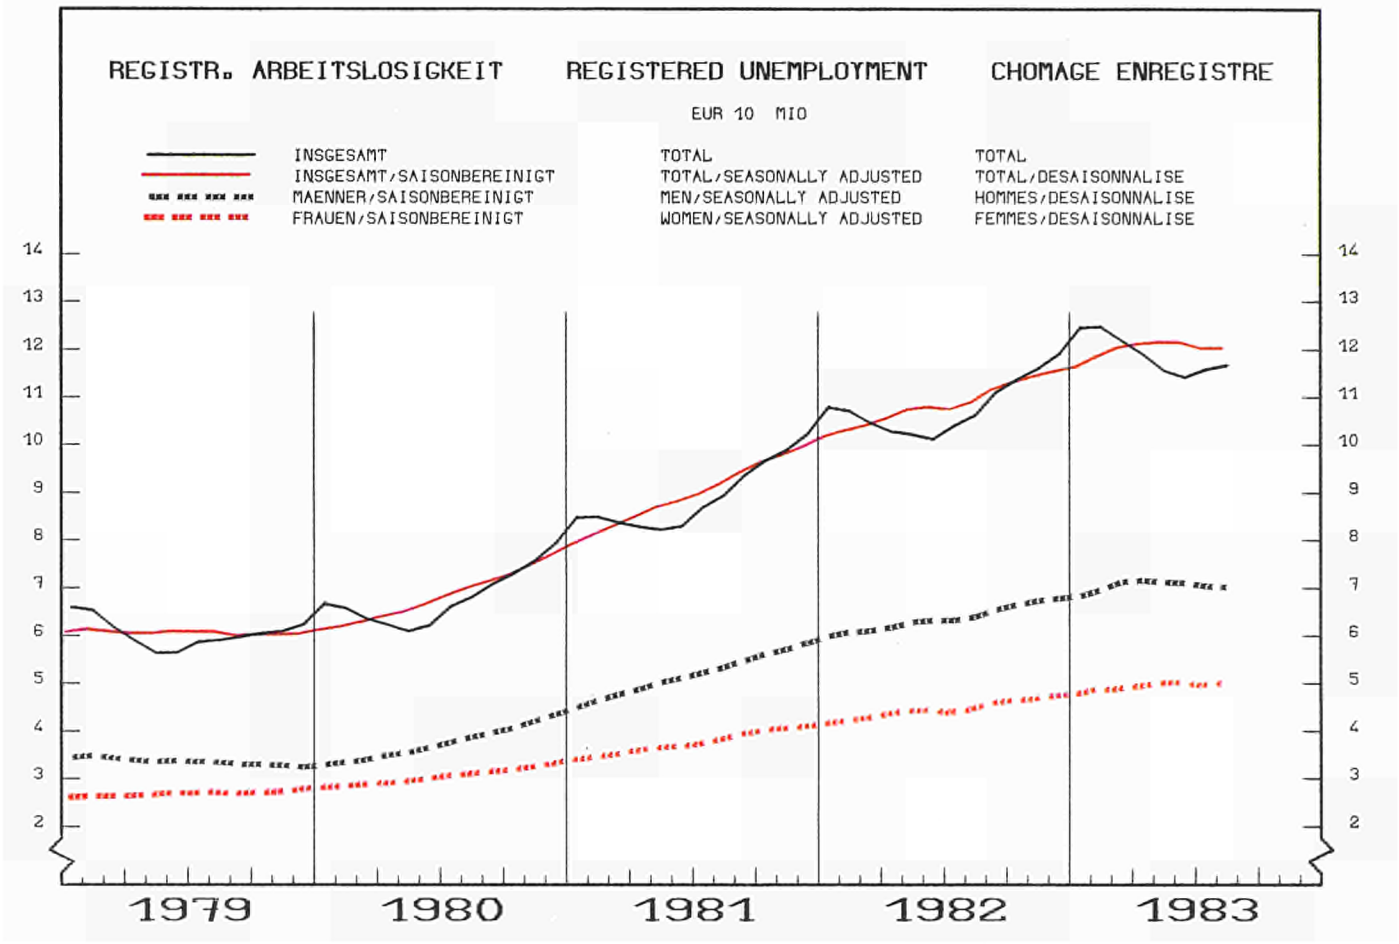

Ceci constitue un renversement de la tendance observée au cours des cinq premiers mois de l'année dont les résultats indiquaient une baisse des exportations communautaires. Ce renversement est la conséquence d'une demande accrue de la part des USA, du Canada, des pays de l'Europe de l'ouest n'appartenant pas à l'AELE (EFTA) et des pays à commerce d'État, vers lesquels les exportations sont sensiblement plus élevées par rapport à l'année dernière.

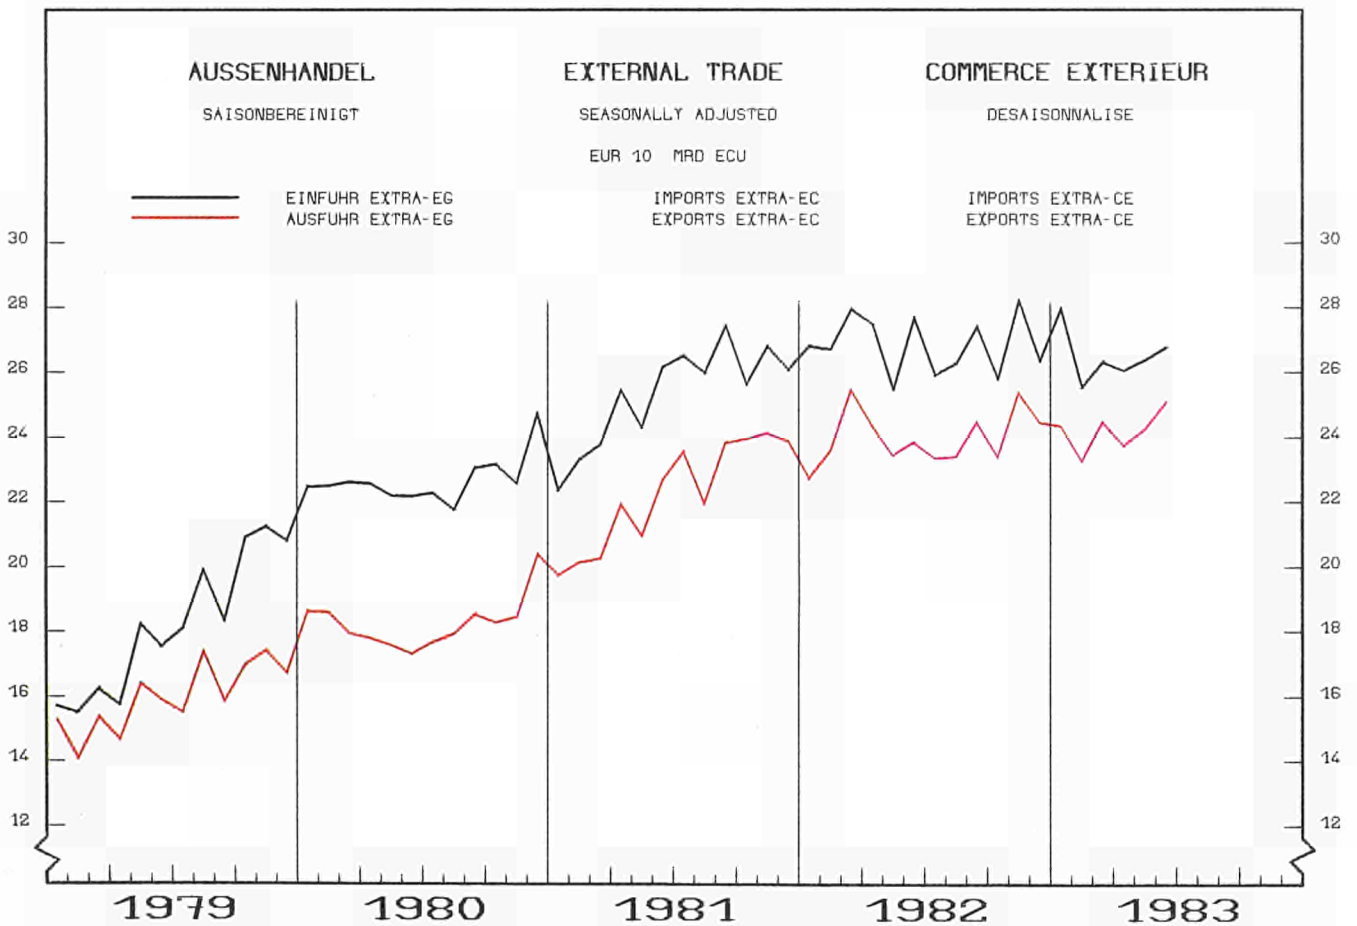

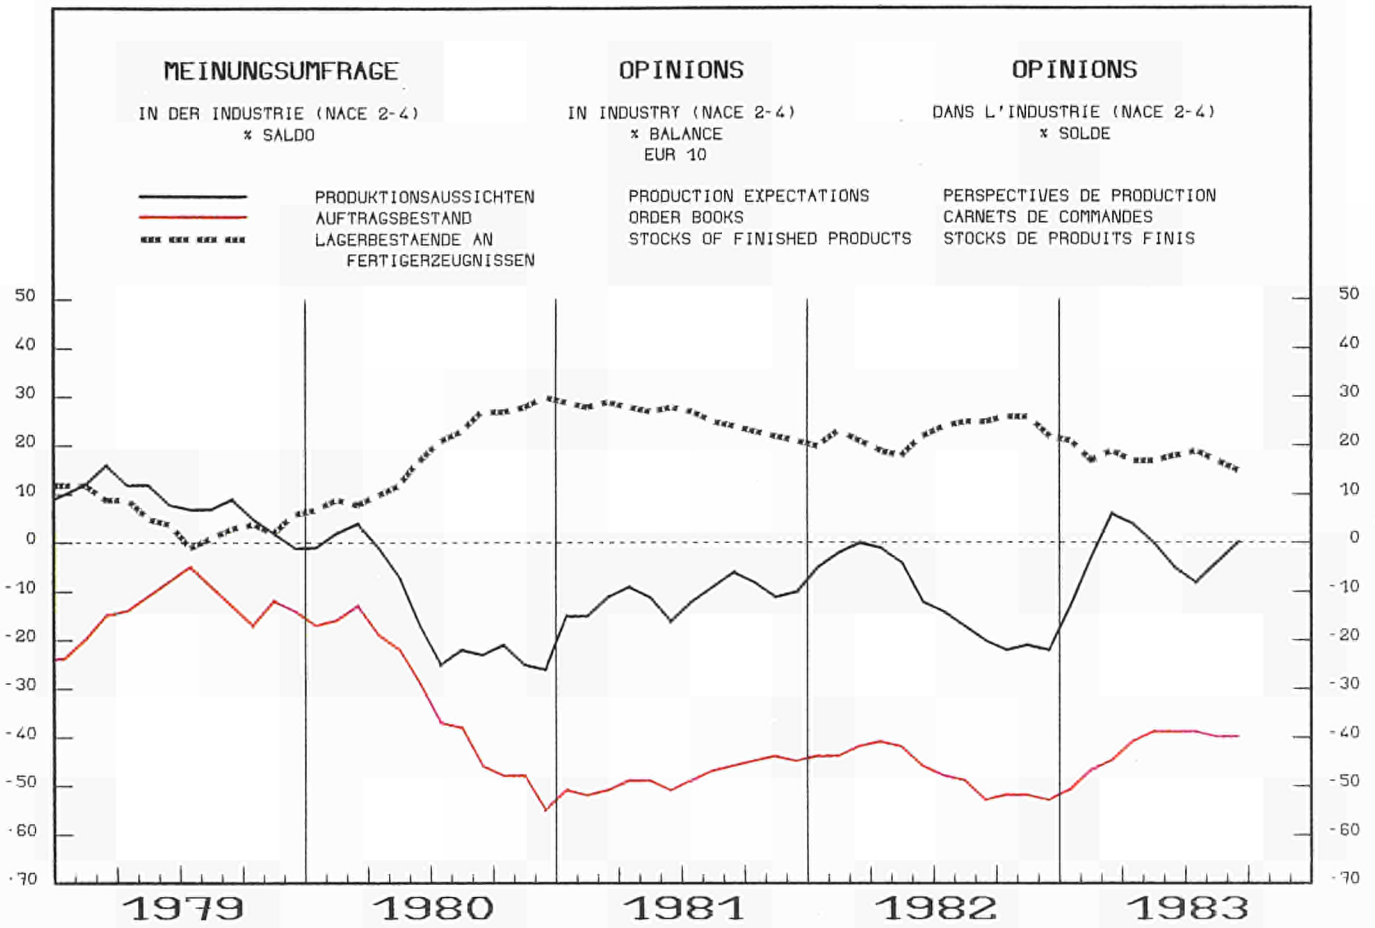

Par contre les exportations vers les pays en voie de développement et plus particulièrement vers les pays ACP sont en baisse. Les importations communautaires pour la même période (janvier-juillet 1983) sont en baisse d'environ 1,5%. Ceci est dû à l'importante baisse des importations des produits énergétiques qui frappe surtout celles en provenance des pays de l'OPEP. Les importations d'autres catégories de produits sont en augmentation tels les produits chimiques, les machines et le matériel de transport qui accusent les plus grands rythmes d'augmentation. Cette situation a surtout profité aux exportateurs de l'Europe non communautaire.

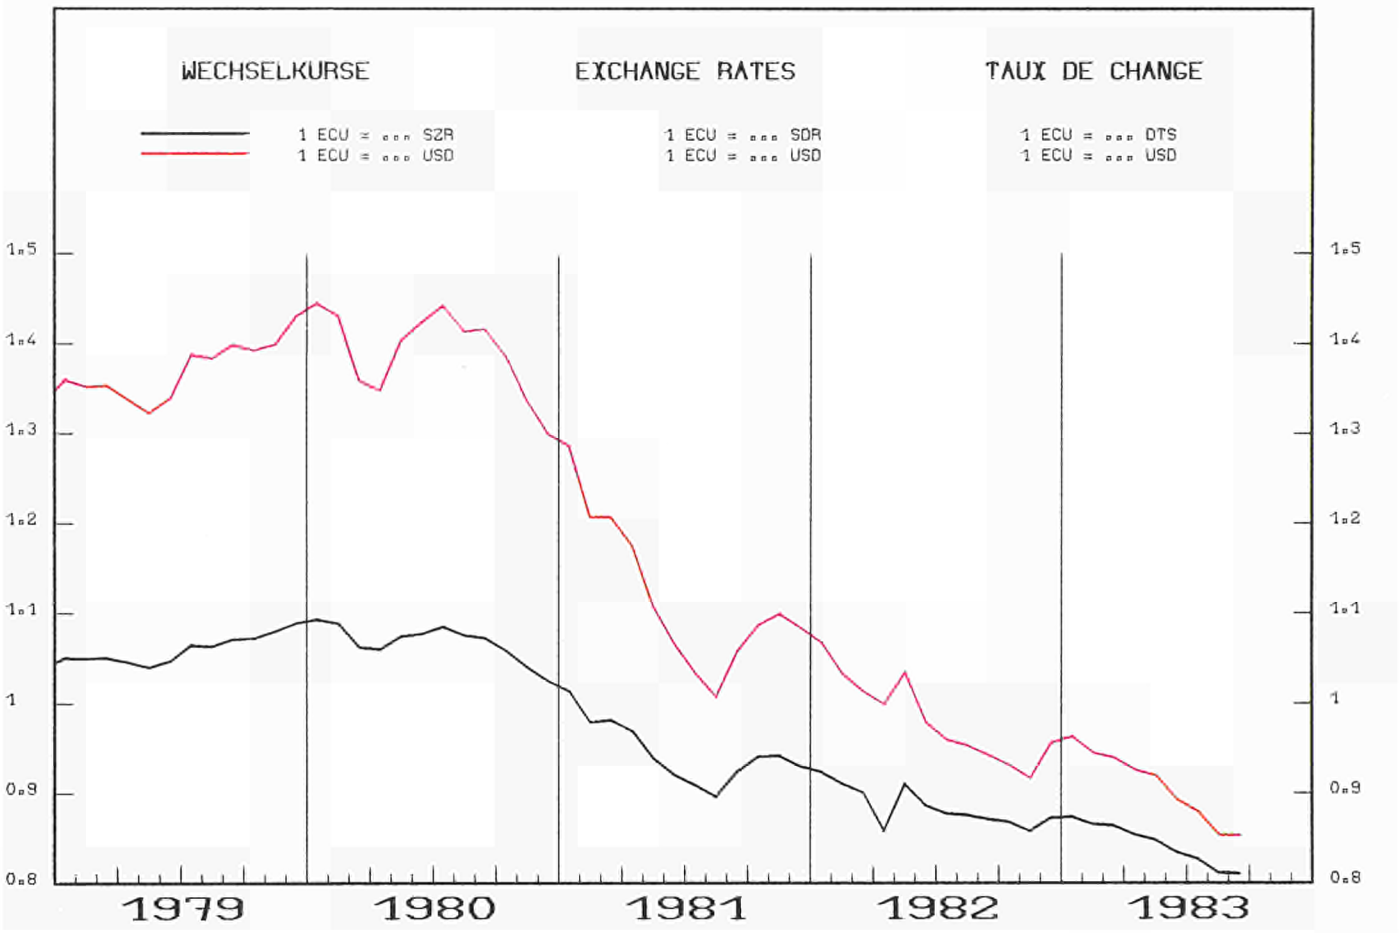

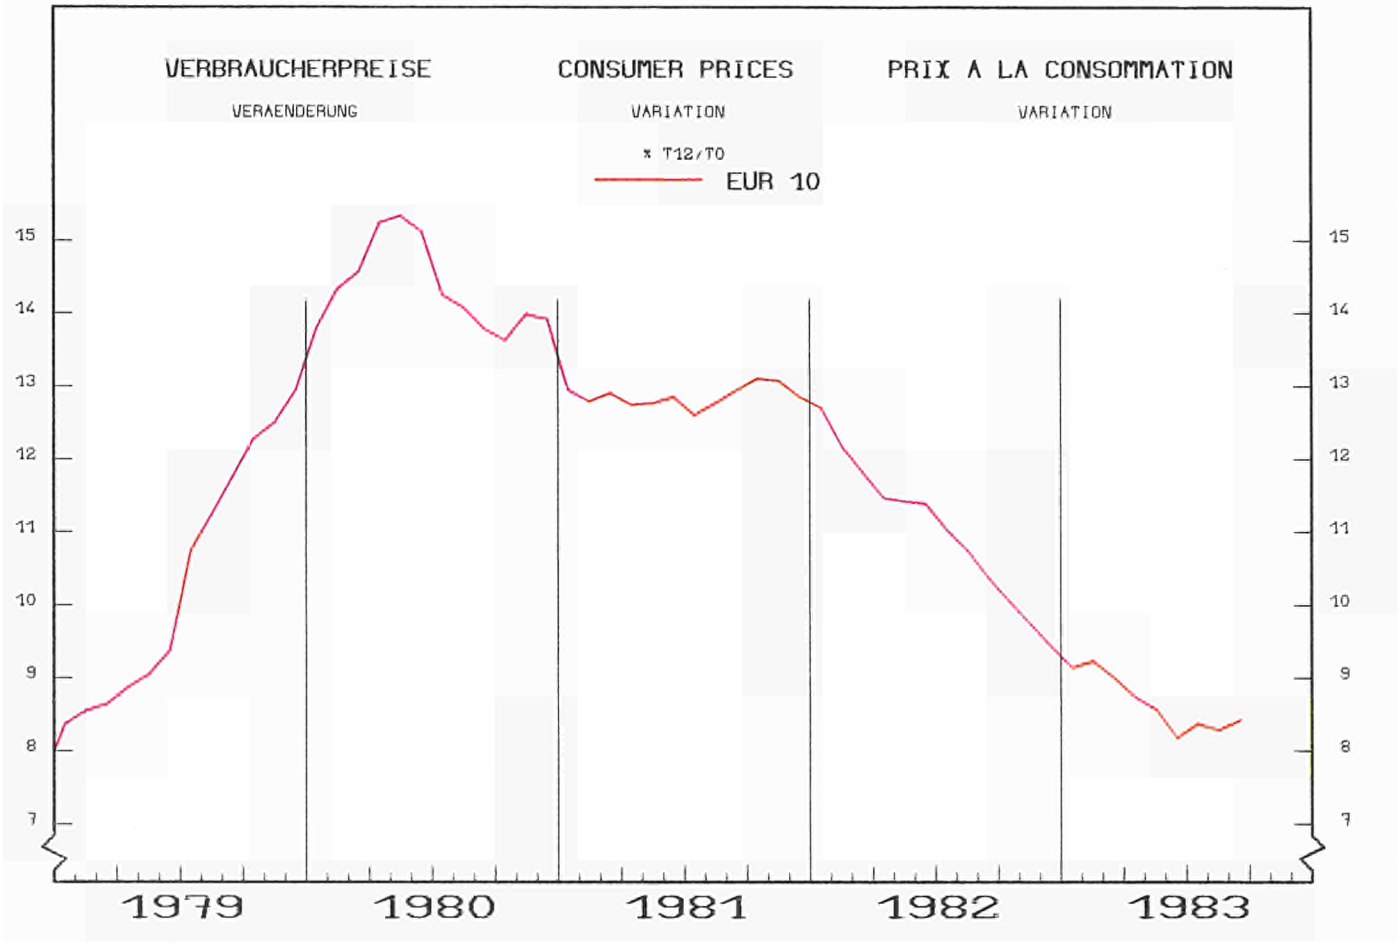

#### **7. Commerce Intra-communautaire**

Les importations intra-communautaires pour les sept premiers mois de 1983 ont été supérieures de quelque 6% par rapport à la même période de l'année dernière.

Une analyse par produit démontre que les plus fortes hausses concernent les matières premières, les produits énergétiques et le matériel de transport.

	ECU	BFR	DM	FF	IRL	UKL	USD
Einzelpreis • Single copy • Prix par numéro	3,29	150	8	22	2.30	1.90	3.50
Abonnement • Subscription	24,95	1 140	59	165	18	14	24

Das Jahresabonnement beginnt  
 am 1. Januar und  
 endet am 31. Dezember.

The annual subscription runs  
 from 1 January to  
 31 December of each year.

Les abonnements sont annuels; ils portent sur  
 une période allant du 1<sup>er</sup> janvier au 31 décembre  
 de chaque année.

Zahlungen können nur an die  
 auf Umschlagseite 3 angegebenen  
 Vertriebsbüros geleistet werden.

Payments to be made only to the agents  
 in the countries listed on page 3  
 of the cover.

Les versements doivent être adressés  
 aux bureaux de vente indiqués à la page 3  
 de la couverture.

Die Versandkosten für Luftpostzustellung sind im  
 Preis nicht enthalten. Die Bedingungen für Luftpost-  
 abonnements sind bei den Vertriebsbüros zu erfragen.

These are surface mail rates;  
 for air subscription rates  
 please apply to the agents.

Les prix ne comprennent pas les frais  
 d'expédition par avion; pour les conditions d'abonnement  
 par avion, consulter les bureaux de vente.
